situations. An 85% strongly agreed that the syllabus was sufficient to enable students to analyze the given problem and identify the necessary solutions. In terms of skills, concepts, knowledge, analytical abilities or broadening perspectives, 90% strongly agreed that the syllabus had learning values. Overall, nearly 90% of the professionals strongly agreed that the content was sufficient.

Feedbacks from Professional experts were in the form of minor changes in the syllabi.

However, few notable suggestions received to enrich the syllabus from various academia professionals are as follows:

- The major suggestions were related to new and emerging trends. Experts from the field of Paramedical sciences suggested inclusion of Nanobiosensors in the programme content.
- Expert from Physiotherapy explained that Journal Presentation should be added for postgraduate students. Research knowledge was also mentioned as an area of attention.
- Expert in Computer Sciences and Information Technology recommended Cognitive Sciences to be explored and BSc in Cognitive Sciences be started.
- Experts from Fine Arts advised update in Advertising theory and suggested the updates should be based on changing advertising culture.

Other than this, the employers have been found to be overall satisfied with the curriculum/syllabus.
