On the basis of the feedback obtained on different parameters, it was analysed that 95% of students strongly recommend the syllabus and are satisfied. Individual analysis of each parameter reveals that 84% strongly agree that the syllabus has the depth of the course content including project work, 82% strongly agree that the extent of coverage of the course is very good, 85% feel that the applicability/relevance to real life situations is very good. In terms of knowledge, concepts, manual skills, analytical abilities and broadening perspectives, 92% students stated that the learning value is very good. Regarding supporting textual reading material, 87% stated that clarity and relevance is very good and 82% strongly agreed with the relevance of additional source material like library and others. A good number of 93% of students state that the syllabus is comprehensive enough that they are motivated to invest efforts for learning. Overall, 95% of students are happy with the syllabus and have rated it as very good.

However, few notable suggestions received to enrich the syllabus from various colleges are as follows:

- Students should have a choice of subjects that they can study from.
- Many students have requested that new technologies and futuristic trends should be introduced.
- Moradabad, being a major trading city in Brass and other industries, has a demand for education in entrepreneurship. The students have asked for programmes related to exports and imports of Handicraft to be made available in Brass city of Moradabad.
- The students from various colleges of Education have asked for inclusion of content related to online education.
- Students from Agricultural Sciences have asked for postgraduate programme and some education to be provided to help them start their own businesses.

Other than this, the students have been found to be overall satisfied with their curriculum.
