## TEERTHANKER MAHAVEER UNIVERSITY DELHI ROAD, MORADABAD

Teerthanker Mahaveer University (TMU) has always encouraged an open stream of communication among all its stakeholders. The University has always prompted to adopt relevant, flexible, competent curriculum across all the programmes, offered by different departments. With this objective, the feedback on curriculum along with other aspects has been a routine practice of Internal Quality Assurance Cell (IQAC). Exclusive feedback forms have been designed for the said purpose. Feedback, at regular intervals, has been collected from different stakeholders in terms of students, faculty members, alumni, employers and external experts/academia professionals. Recently, TMU has implemented various actions for curriculum modification in terms of CBCS implementation, OBE based formulation and emphasis on psychomotor skills. Prior to curriculum revamp, the various colleges/departments collated feedbacks from stakeholders and presented to individual BOS. Actions were then taken by the BOS based on the feedbacks. This action has the approval of BOF and AC of the University. The Internal Quality Assurance Cell has approved and recorded the feedbacks and action taken for various programmes

### Comprehensive Feedback Summary:

Feedback	Action Taken
Introduction of New Programme Bachelor of Physical Education and Sports Science.	Bachelor of Physical Education and Sports Science was introduced from the session 2023-24.
Revision or Replacement of course Object Oriented Programming using JAVA (ECS412) and its Lab (ECS461)	New Course Analog Electronics (EEC419) and Analog Electronics Lab (EEC469) was introduced in 4 <sup>th</sup> Semester of B.Tech Electrical Engineering from session 2023-24.
Upgradation as per industry demand and requirement in Course Building Planning and Drawing using CAD-Lab (ECE362)	New AutoCAD commands were added session wise.
Course Advanced Computer Aided Design (ECE711) to be considered as an elective course	Course Advanced Computer Aided Design (ECE711) shifted to Programme Elective II from the mandatory course.
Course Earthquake Resistant Structures (ECE719) to be considered as mandatory course	Course Earthquake Resistant Structures (ECE719) shifted to mandatory course from the programme elective III.
Removal of Course English Communication II in BTech Data Science in Collaboration with TCSiON from session 2023-24.	Course English Communication II in BTech Data Science in Collaboration with TCSiON from session 2023-24 was removed.
Consider Changes in Course Research Project-I (MPT169) to meet the current needs of the industry.	Changes as per the recent industry requirements were done and implemented from the session 2023-24.
Course Human Physiology II and its Lab need introduction of Advanced topics in	Revision was made in the proposed course as per the professionals comments.

## TEERTHANKER MAHAVEER UNIVERSITY DELHI ROAD, MORADABAD

### Summary:

Feedback was taken from various students of the University. Along with the quantitative analysis, inputs in the form of suggestions were taken into consideration and analysed as well.

Students have requested for emphasis to be placed on recent and upcoming technologies. A distinct suggestion has been found, especially from students of the Physical Education, which is towards introduction of new programme Bachelor of Physical Education and Sports Science. Students have also requested for courses/programmes which would enable them to get specialization in various fields, either in the form of postgraduate programmes or skills related to new avenues of employment. All the feedbacks were taken into consideration and brought in front of the Board of Study (BOS). Further action for taken in the form review and revision of content of existing syllabus, introduction of new programmes and MOUS and collaboration with external agencies for gaining practical knowledge. Many other suggestions have been noted and work has been started on finding a viable solution in providing appropriate action.

#### Summary:

Feedback was taken from various teachers of the University. Along with the quantitative analysis, inputs in the form of suggestions/comments were taken into consideration and analysed as well.

The teachers stressed on upgrading the courses and related labs as per industry demands and requirements. The teachers have also asked that certain courses to be made mandatory and some to be made programme elective. There was a demand for teaching of new technologies in various fields. Teachers from Faculty of Engineering emphasized on increasing the field visits on regular basis. All the feedbacks were taken into consideration and brought in front of the Board of Study (BOS). Further action for taken in the form review and revision of content of existing syllabus, introduction of new programmes and special value added courses. Many other suggestions have been noted and work has been started on finding a viable solution in providing appropriate action.
