

Teerthanker Mahaveer Medical College & Research Center

Teerthanker Mahaveer University

Delhi Road, Moradabad - 244001

Time Table Schedule (Consolidated as per New Curriculum w.e.f AUGUST 2019) w.e.f. January 2024

Day/Time	8:00-9:00 am	9:00-10:00 am	10:00 am - 1:00 pm	1:00-2:00pm	2:00-3:00pm	3:00-4:00pm
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Pediatrics - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)
Tuesday	Orthopedics - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	
Wednesday	Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Orthopedics - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)
Friday	Pediatrics - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	
Saturday	AETCOM Session	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Integration as Decided by AITo
			Clinical Posting - 8 + 4 weeks in General Medicine; General Surgery, Obstetrics & Gynecology; and 2 weeks in Orthopedics & Skin; 4 weeks in Pediatrics and 4 weeks electives in Medicine, Surgery and OBG		Saturday 3-4 pm: 1st Week Pediatrics, 2nd Week OBG, 3rd Week Surgery, 4th Week Medicine	

Electives to be held in Preclinical and Paraclinical (2 weeks) + Clinical (2 weeks) from 22.01.2024; 1 weeks Holi Vacation (24.03.24-30.03.24), 1 week Diwali Vacation (28.10.24-02.11.24), 2 weeks for First Internal (01.04.24-13.04.24) and 2nd Internal (05.08.24-16.08.24); Preuniversity Exam in Jan 2025 (20.01.25) end and University Exam in Feb 2025

SGT - Small Group Teaching Includes: Tutorials, Seminars, Integrated Learning; SDL - Self Directed Learning; L - Lecture; P - Practical
 AETCOM - 1st Saturday - Medicine; 2nd Saturday - Surgery; 3rd Saturday - OBG; 4th Saturday - Pediatrics. Module 4.1 & 4.3 - Medicine; Module 4.4, 4.5 & 4.6 - Surgery; Module 4.2, 4.7 & 4.8 - OBG; and Module 4.9 - Pediatrics

Teerthanker Mahaveer Medical College & Research Center						
Teerthanker Mahaveer University						
Delhi Road, Moradabad - 244001						
Time Table Schedule (Consolidated as per New Curriculum w.e.f AUGUST 2019) w.e.f. January 2024						
Day/Time	8:00-9:00 am	9:00-10:00 am	10:00 am - 1:00 pm	1:00-2:00pm	2:00-3:00pm	3:00-4:00pm
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Pediatrics - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)
Tuesday	Orthopedics - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	
Wednesday	Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Orthopedics - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)
Friday	Pediatrics - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	
Saturday	AETCOM Session	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Integration as Decided by AITo
			Clinical Posting - 8 + 4 weeks in General Medicine; General Surgery, Obstetrics & Gynecology; and 2 weeks in Orthopedics & Skin; 4 weeks in Pediatrics and 4 weeks electives in Medicine, Surgery and OBG		Saturday 3-4 pm: 1st Week Pediatrics, 2nd Week OBG, 3rd Week Surgery, 4th Week Medicine	

Electives to be held in Preclinical and Paraclinical (2 weeks) + Clinical (2 weeks) from 22.01.2024; 1 weeks Holi Vacation (24.03.24-30.03.24), 1 week Diwali Vacation (28.10.24-02.11.24), 2 weeks for First Internal (01.04.24-13.04.24) and 2nd Internal (05.08.24-16.08.24); Preuniversity Exam in Jan 2025 (20.01.25) end and University Exam in Feb 2025

SGT - Small Group Teaching Includes: Tutorials, Seminars, Integrated Learning; SDL - Self Directed Learning; L - Lecture; P - Practical
AETCOM - 1st Saturday - Medicine; 2nd Saturday - Surgery; 3rd Saturday - OBG; 4th Saturday - Pediatrics. Module 4.1 & 4.3 - Medicine; Module 4.4, 4.5 & 4.6 - Surgery; Module 4.2, 4.7 & 4.8 - OBG; and Module 4.9 - Pediatrics

Third Professional Year (Part 2) - Teaching Hours				
Subject	Teaching Hours	Tutorials/ Seminars/ Integrated Teaching (hours)	Self-Directed Learning (Hours)	Total (Hours)
General Medicine	70	125	15	210
General Surgery	70	125	15	210
Obstetrics & Gynecology	70	125	15	210
Pediatrics	20	35	10	65
Orthopedics	20	25	5	50
Electives				200
Clinical Postings				792

Teerthanker Mahaveer Medical College & Research Center
Teerthanker Mahaveer University
Delhi Road, Moradabad - 244001
Time Table Schedule (Consolidated as per New Curriculum w.e.f AUGUST 2019) w.e.f. January 2024

Day/Time	10:00 am - 1:00 pm	Date
Electives Week 1	Monday IM9.3- Elicit document and present a medical history that includes symptoms, risk factors including GI bleeding, prior history, medications, menstrual history, and family history - Unit 1 (Dr. V K Singh)	22.01.24
	Tuesday IM9.4- Perform a systematic examination that includes: general examination for pallor, oral examination, DOAP session of hyperdynamic circulation, lymph node and splenic examination - Unit 1 (Dr. V K Singh)	23.01.24
	Wednesday IM9.5- Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology - Unit 1 (Dr. V K Singh)	24.01.24
	Thursday IM9.6- Describe the appropriate diagnostic work up based on the presumed aetiology - Unit 1 (Dr. V K Singh)	25.01.24
	Friday IM9.9- Order and interpret tests for anaemia including hemogram, red cell indices, reticulocyte count, iron studies, B12 and folate - Unit 1 (Dr. V K Singh)	26.01.24
	Saturday IM9.10- Describe, perform and interpret a peripheral smear and stool occult blood - Unit 2 (Dr. Vishvanayak)	27.01.24
Electives Week 2	Monday IM9.13- Prescribe replacement therapy with iron, B12, folate - Unit 2 (Dr. Vishvanayak)	29.01.24
	Tuesday IM9.15- Communicate the diagnosis and the treatment appropriately to patients - Unit 2 (Dr. Vishvanayak)	30.01.24
	Wednesday IM9.16- Incorporate patient preferences in the management of anaemia - Unit 2 (Dr. Vishvanayak)	31.01.24
	Thursday IM9.19- Assist a blood transfusion Unit 2 (Dr. Vishvanayak)	01.02.24
	Friday IM9.20- Communicate and counsel patients with methods to prevent nutritional anaemia - Unit 3 (Dr. K Gopal)	02.02.24
Electives Week 3	Saturday IM10.12- Elicit document and present a medical history that will differentiate the etiologies of disease, distinguish acute and chronic disease, identify predisposing conditions, nephrotoxic drugs and systemic causes Unit 3 (Dr. K Gopal)	03.02.24
	Monday IM10.13- Perform a systemic examination that establishes the diagnosis and severity including determining of volume status, presence of edema and heart failure, features of uremia and associated systemic disease. Unit 3 (Dr. K Gopal)	05.02.24
	Tuesday IM10.14- Generate a differential diagnosis and prioritise based on clinical features that suggest specific etiology Unit 3 (Dr. K Gopal)	06.02.24
	Wednesday IM10.18- Identify the ECG findings in Hyperkalemia. Unit 3 (Dr. K Gopal)	07.02.24
	Thursday IM10.19- Enumerate the indications and describe the findings in renal ultrasound. - Unit 4 (Dr. J Haria)	08.02.24
	Friday IM10.20- Describe and discuss the indications to perform arterial blood gas analysis: interpret the data - Unit 4 (Dr. J Haria)	09.02.24
Electives Week 4	Saturday IM10.21- Describe and discuss the indications for and insert a peripheral intravenous catheter - Unit 4 (Dr. J Haria)	10.02.24
	Monday IM10.22- Describe and discuss the indications, demonstrate in a model and assist in the insertion of a central venous or a dialysis catheter - Unit 4 (Dr. J Haria)	12.02.24
	Tuesday IM10.23- Communicate diagnosis treatment plan and subsequent followup to patients - Unit 4 (Dr. J Haria)	13.02.24
	Wednesday IM10.24- Counsel patients on renal diet - Unit 5 (Dr. A Kumar)	14.02.24
	Thursday IM11.7- Elicit document and present a medical history that will differentiate the aetiologies of diabetes including risk factors, precipitating factors, lifestyle, nutritional history, family history, medication history, co-morbidities and target organ disease - Unit 5 (Dr. A Kumar)	15.02.24
	Friday IM11.8- Perform a systematic examination that establishes the diagnosis and severity that includes skin, peripheral pulses, blood pressure measurement, fundus examination, detailed examination of the foot (pulses, nervous and deformities and injuries) - Unit 5 (Dr. A Kumar)	16.02.24
Saturday IM11.9- Describe and recognise the clinical features of patients who present with a diabetic emergency - Unit 5 (Dr. A Kumar)	17.02.24	

Day/Time	10:00 am - 1:00 pm	
k 1	Monday IM11.10- Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology - Unit 1 (Dr. V K Singh)	19.02.24
	Tuesday IM11.11- Order and interpret laboratory tests to diagnose diabetes and its complications including: glucoses, glucose tolerance test, glycosylated hemoglobin, urinary micro albumin, ECG, electrolytes, ABG, ketones, renal function tests and lipid profile - Unit 1 (Dr. V K Singh)	20.02.24

Week 1	Wednesday	IM11.12- Perform and interpret a capillary blood glucose test - Unit 1 (Dr. V K Singh)	21.02.24
	Thursday	IM11.12- Perform and interpret a capillary blood glucose test - Unit 1 (Dr. V K Singh)	22.02.24
Week 2	Friday	IM11.13- Perform and interpret a urinary ketone estimation with a dipstick - Unit 1 (Dr. V K Singh)	23.02.24
	Saturday	IM11.14- Recognise the presentation of hypoglycaemia and outline the principles on its therapy Unit 1 (Dr. V K Singh)	24.02.24
Week 3	Monday	IM11.15- Recognise the presentation of diabetic emergencies and outline the principles of therapy - Unit 1 (Dr. V K Singh)	26.02.24
	Tuesday	IM11.16- Discuss and describe the pharmacologic therapies for diabetes their indications, contraindications, adverse reactions and interactions - Unit 1 (Dr. V K Singh)	27.02.24
Week 4	Wednesday	IM11.17- Outline a therapeutic approach to therapy of T2Diabetes based on presentation, severity and complications in a cost effective manner - Unit 1 (Dr. V K Singh)	28.02.24
	Thursday	IM11.17- Outline a therapeutic approach to therapy of T2Diabetes based on presentation, severity and complications in a cost effective manner - Unit 1 (Dr. V K Singh)	29.02.24
Week 5	Friday	IM11.19- Demonstrate and counsel patients on the correct technique to administer insulin - Unit 1 (Dr. V K Singh)	01.03.24
	Saturday	IM11.20- Demonstrate to and counsel patients correct technique on the of self-monitoring of blood glucoses - Unit 1 (Dr. V K Singh)	02.03.24
Week 6	Monday	IM11.21- Recognise the importance of patient preference while selecting therapy for diabetes - Unit 1 (Dr. V K Singh)	04.03.24
	Tuesday	IM12.5- Elicit document and present an appropriate history that will establish the diagnosis cause of thyroid dysfunction and its severity - Unit 1 (Dr. V K Singh)	05.03.24
Week 7	Wednesday	IM12.6- Perform and demonstrate a systematic examination based on the history that will help establish the diagnosis and severity including systemic signs of thyrotoxicosis and hypothyroidism, palpation of the pulse for rate and rhythm abnormalities, neck palpation of the thyroid and lymph nodes and cardiovascular findings - Unit 1 (Dr. V K Singh)	06.03.24
	Thursday	IM12.7- Demonstrate the correct technique to palpate the thyroid - Unit 1 (Dr. V K Singh)	07.03.24
Week 8	Friday	IM12.8- Generate a differential diagnosis based on the clinical presentation and prioritise it based on the most likely diagnosis - Unit 1 (Dr. V K Singh)	08.03.24
	Saturday	IM12.9- Order and interpret diagnostic testing based on the clinical diagnosis including CBC, thyroid function tests and ECG and radio iodine uptake and scan - Unit 1 (Dr. V K Singh)	09.03.24
Week 9	Monday	IM12.10- Identify atrial fibrillation, pericardial effusion and bradycardia on ECG - Unit 2 (Dr. Vishvanayak)	11.03.24
	Tuesday	IM12.11- Interpret thyroid function tests in hypo and hyperthyroidism Unit 2 (Dr. Vishvanayak)	12.03.24
Week 10	Wednesday	IM12.14- Write and communicate to the patient appropriately a prescription for thyroxine based on age, sex, and clinical and biochemical status Unit 2 (Dr. Vishvanayak)	13.03.24
	Thursday	IM12.15- Describe and discuss the indications of thionamide therapy, radio iodine therapy and surgery in the management of thyrotoxicosis Unit 2 (Dr. Vishvanayak)	14.03.24
Week 11	Friday	IM13.7- Elicit document and present a history that will help establish the aetiology of cancer and includes the appropriate risk factors, duration and evolution Unit 2 (Dr. Vishvanayak)	15.03.24
	Saturday	IM13.8- Perform and demonstrate a physical examination that includes an appropriate general and local examination that excludes the diagnosis, extent spread and complications of cancer Unit 2 (Dr. Vishvanayak)	16.03.24
Week 12	Monday	IM13.9- Demonstrate in a mannequin the correct technique for performing breast exam, rectal examination and cervical examination and pap smear Unit 2 (Dr. Vishvanayak)	18.03.24
	Tuesday	IM13.10- Generate a differential diagnosis based on the presenting symptoms and clinical features and prioritise based on the most likely diagnosis Unit 2 (Dr. Vishvanayak)	19.03.24
Week 13	Wednesday	IM13.11- Order and interpret diagnostic testing based on the clinical diagnosis including CBC	20.03.24
	Thursday	IM13.12- Describe the indications and interpret the results of Chest X Ray, mammogram, skin and tissue biopsies and tumor markers used in common cancers Unit 2 (Dr. Vishvanayak)	21.03.24
Week 14	Friday	IM9.13- Describe and assess pain and suffering objectively in a patient with cancer Unit 2 (Dr. Vishvanayak)	22.03.24
	Saturday	IM13.14- Describe the indications for surgery, radiation and chemotherapy for malignancies Unit 2 (Dr. Vishvanayak)	23.03.24
Holi Vacations 25.03.24-30.03.24			
Week 15	Monday	IM13.15- Describe the need, tests involved, their utility in the prevention of common malignancies Unit 2 (Dr. Vishvanayak)	01.04.24
	Tuesday	IM13.16- Demonstrate an understanding and needs and preferences of patients when choosing curative and palliative therapy Unit 2 (Dr. Vishvanayak)	02.04.24
Week 16	Wednesday	IM13.17- Describe and enumerate the indications, use, side effects of narcotics in pain alleviation in patients with cancer Unit 2 (Dr. Vishvanayak)	03.04.24
	Thursday	IM13.18- Describe and discuss the ethical and the medico legal issues involved in end of life care - Unit 3 (Dr. K Gopal)	04.04.24

Week 7	Friday	IM13.19- Describe the therapies used in alleviating suffering in patients at the end of life - Unit 3 (Dr. K Gopal)	05.04.24
	Saturday	IM14.6- Elicit and document and present an appropriate history that includes the natural history, dietary history, modifiable risk factors, family history, clues for secondary causes and motivation to lose weight - Unit 3 (Dr. K Gopal)	06.04.24
	Monday	IM 14.7- Perform, document and demonstrate a physical examination based on the history that includes general examination, measurement of abdominal obesity, signs of secondary causes and co-morbidities - Unit 3 (Dr. K Gopal)	08.04.24
	Tuesday	IM 14.8- Generate a differential diagnosis based on the presenting symptoms and clinical features and prioritise based on the most likely diagnosis - Unit 3 (Dr. K Gopal)	09.04.24
	Wednesday	IM 14.9- Order and interpret diagnostic tests based on the clinical diagnosis including blood glucose, lipids, thyroid function tests etc - Unit 3 (Dr. K Gopal)	10.04.24
	Thursday	IM14.10- Describe the indications and interpret the results of tests for secondary causes of obesity - Unit 3 (Dr. K Gopal)	11.04.24
	Friday	IM14.11- Communicate and counsel patient on behavioural, dietary and lifestyle modifications - Unit 3 (Dr. K Gopal)	12.04.24
Saturday	IM14.12- Demonstrate an understanding of patient's inability to adhere to lifestyle instructions and counsel them in a non-judgemental way - Unit 3 (Dr. K Gopal)	13.04.24	
First Terminal Exam 01.04.24 to 13.04.24			
Week 8	Monday	IM17.2- Elicit and document and present an appropriate history including aura, precipitating aggravating and relieving factors, associated symptoms that help identify the cause of headaches - Unit 3 (Dr. K Gopal)	15.04.24
	Tuesday	IM17.3- Classify migraine and describe the distinguishing features between classical and non classical forms of migraine - Unit 3 (Dr. K Gopal)	16.04.24
	Wednesday	IM17.4- Perform and demonstrate a general neurologic examination and a focused examination for signs of intracranial tension including neck signs of meningitis - Unit 3 (Dr. K Gopal)	17.04.24
	Thursday	IM17.5- Generate document and present a differential diagnosis based on the clinical features and prioritise the diagnosis based on the presentation - Unit 3 (Dr. K Gopal)	18.04.24
	Friday	IM17.7- Enumerate the indications and describe the findings in the CSF in patients with meningitis - Unit 3 (Dr. K Gopal)	19.04.24
	Saturday	IM17.8- Demonstrate in a mannequin or equivalent the correct technique for performing a lumbar puncture - Unit 3 (Dr. K Gopal)	20.04.24
	Monday	IM17.14- Counsel patients with migraine and tension headache on lifestyle changes and need for prophylactic therapy - Unit 4 (Dr. J Haria)	22.04.24
Week 9	Tuesday	IM18.3- Elicit and document and present an appropriate history including onset, progression, precipitating and aggravating relieving factors, associated symptoms that help identify the cause of the cerebrovascular accident - Unit 4 (Dr. J Haria)	23.04.24
	Wednesday	IM18.4- Identify the nature of the cerebrovascular accident based on the temporal evolution and resolution of the illness - Unit 4 (Dr. J Haria)	24.04.24
	Thursday	IM18.5- Perform, demonstrate & document physical examination that includes general and a detailed neurologic examination as appropriate, based on the history - Unit 4 (Dr. J Haria)	25.04.24
	Friday	IM18.6- Distinguish the lesion based on upper vs lower motor neuron, side, site and most probable nature of the lesion - Unit 4 (Dr. J Haria)	26.04.24
	Saturday	IM18.7- Describe the clinical features and distinguish, based on clinical examination, the various disorders of speech- Unit 4 (Dr. J Haria)	27.04.24
	Monday	IM18.8- Describe and distinguish, based on the clinical presentation, the types of bladder dysfunction seen in CNS disease - Unit 4 (Dr. J Haria)	29.04.24
	Tuesday	IM18.9- Choose and interpret the appropriate diagnostic and imaging tests that will delineate the anatomy and underlying cause of the lesion - Unit 4 (Dr. J Haria)	30.04.24
Week 10	Wednesday	IM18.17- Counsel patient and family about the diagnosis and therapy in an empathetic manner - Unit 4 (Dr. J Haria)	01.05.24
	Thursday	IM19.3- Elicit and document and present an appropriate history including onset, progression precipitating and aggravating relieving factors, associated symptoms that help identify the cause of the movement disorders - Unit 4 (Dr. J Haria)	02.05.24
	Friday	IM19.4- Perform, demonstrate and document a physical examination that includes a general examination and a detailed neurologic examination using standard movement rating scales - Unit 4 (Dr. J Haria)	03.05.24
	Saturday	IM19.5- Generate document and present a differential diagnosis and prioritise based on the history and physical examination - Unit 4 (Dr. J Haria)	04.05.24
	Monday	IM19.6- Make a clinical diagnosis regarding on the anatomical location, nature and cause of the lesion based on the clinical presentation and findings - Unit 5 (Dr. A Kumar)	06.05.24
	Tuesday	IM19.7- Choose and interpret diagnostic and imaging tests in the diagnosis of movement disorders - Unit 5 (Dr. A Kumar)	07.05.24
	Wednesday	M26.1- Enumerate and describe professional qualities and roles of a physician - Unit 5 (Dr. A Kumar)	08.05.24
k 11			

Wee	Thursday	M26.2- Describe and discuss the commitment to lifelong learning as an important part of physician growth - Unit 5 (Dr. A Kumar)	09.05.24
	Friday	M26.3- Describe and discuss the role of non maleficence as a guiding principle in patient care - Unit 5 (Dr. A Kumar)	10.05.24
Week 12	Saturday	M26.4- Describe and discuss the role of autonomy and shared responsibility as a guiding principle in patient care - Unit 5 (Dr. A Kumar)	11.05.24
	Monday	M26.5- Describe and discuss the role of beneficence of a guiding principle in patient care - Unit 5 (Dr. A Kumar)	13.05.24
	Tuesday	M26.6- Describe and discuss the role of a physician in health care system - Unit 5 (Dr. A Kumar)	14.05.24
	Wednesday	M26.7- Describe and discuss the role of justice as a guiding principle in patient care - Unit 5 (Dr. A Kumar)	15.05.24
	Thursday	M26.8- Identify discuss medicolegal, socioeconomic and ethical issues as it pertains to organ donation - Unit 5 (Dr. A Kumar)	16.05.24
	Friday	M26.9- Identify, discuss and defend medicolegal, sociocultural, economic and ethical issues as it pertains to rights, equity and justice in access to health care- Unit 5 (Dr. A Kumar)	17.05.24
	Saturday	M26.10- Identify, discuss and defend medicolegal, socio-cultural and ethical issues as it pertains to confidentiality in patient care - Unit 5 (Dr. A Kumar)	18.05.24
Week 13	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh) - SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling	20.05.24
	Tuesday	Clinical Posting (P): Unit II(Dr. Vipin Agarwal) SU28.18 Describe and demonstrate clinical examination of abdomen. Order relevant investigations	21.05.24
	Wednesday	Clinical Posting (P): Unit III(Dr. R K Kaul)-SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast	22.05.24
	Thursday	Clinical Posting (P): Unit IV(Dr. A K Singh)-SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast.	23.05.24
	Friday	Clinical Posting (P): Unit V(Dr. C K JHAKMOLA)-SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent	24.05.24
	Saturday	Clinical Posting (P):Unit in Rotation -SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease	25.05.24
	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh) - SU27.5 Describe the applied anatomy of venous system of lower limb	27.05.24
Week 14	Tuesday	Clinical Posting (P)Unit II(Dr. Vipin Agarwal SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins	28.05.24
	Wednesday	Clinical Posting (P):Unit III(Dr. R K Kaul) SU28.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias	29.05.24
	Thursday	Clinical Posting (P)::Unit IV (Dr. A K Singh)SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.	30.05.24
	Friday	Clinical Posting (P):Unit V (Dr. C K JHAKMOLA)SU28.9 Demonstrate the correct technique of examination of a patient with disorders of the stomach	31.05.24
	Saturday	Clinical Posting (P)Unit in Rotation SU28.11 Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post-splenectomy sepsis - prophylaxis	01.06.24
	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh) - SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling	03.06.24
	Tuesday	Clinical Posting (P): Unit II(Dr. Vipin Agarwal) SU28.18 Describe and demonstrate clinical examination of abdomen. Order relevant investigations	04.06.24
Week 15	Wednesday	Clinical Posting (P): Unit III(Dr. R K Kaul)-SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast	05.06.24
	Thursday	Clinical Posting (P): Unit IV(Dr. A K Singh)-SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast.	06.06.24
	Friday	Clinical Posting (P): Unit V(Dr. C K JHAKMOLA)-SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent	07.06.24
	Saturday	Clinical Posting (P):Unit in Rotation -SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease	08.06.24
	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh) - SU27.5 Describe the applied anatomy of venous system of lower limb	10.06.24
	Tuesday	Clinical Posting (P)Unit II(Dr. Vipin Agarwal SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins	11.06.24
	Wednesday	Clinical Posting (P):Unit III(Dr. R K Kaul) SU28.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias	12.06.24
Week 16	Thursday	Clinical Posting (P)::Unit IV (Dr. A K Singh)SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.	13.06.24

Week 17	Friday	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU28.9 Demonstrate the correct technique of examination of a patient with disorders of the stomach	14.06.24
	Saturday	Clinical Posting (P)Unit in Rotation SU28.11 Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post-splenectomy sepsis - prophylaxis	15.06.24
	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh) - SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling	17.06.24
	Tuesday	Clinical Posting (P): Unit II(Dr. Vipin Agarwal SU28.18 Describe and demonstrate clinical examination of abdomen. Order relevant investigations	18.06.24
	Wednesday	Clinical Posting (P): Unit III(Dr. R K Kaul)-SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast	19.06.24
	Thursday	Clinical Posting (P): Unit IV(Dr. A K Singh)-SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast.	20.06.24
	Friday	Clinical Posting (P): Unit V(Dr.C K JHAKMOLA)-SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent	21.06.24
Week 18	Saturday	Clinical Posting (P):Unit in Rotation -SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease	22.06.24
	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh - SU27.5 Describe the applied anatomy of venous system of lower limb	24.06.24
	Tuesday	Clinical Posting (P)Unit II(Dr. Vipin Agarwal SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins	25.06.24
	Wednesday	Clinical Posting (P):Unit III(Dr. R K Kaul) SU28.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias	26.06.24
	Thursday	Clinical Posting (P)::Unit IV (Dr. A K Singh)SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.	27.06.24
	Friday	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU28.9 Demonstrate the correct technique of examination of a patient with disorders of the stomach	28.06.24
	Saturday	Clinical Posting (P)Unit in Rotation SU28.11 Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the	29.06.24
Week 19	Monday	Clinical Posting (P):Unit I (Dr. N.K. Singh)SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver	01.07.24
	Tuesday	Clinical Posting (P):Unit II (Dr. Vipin Agarwal SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system	02.07.24
	Wednesday	Clinical Posting (P): Unit III(Dr. R K Kaul) SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis	03.07.24
	Thursday	Clinical Posting (P):Unit IV(Dr. A K Singh) SU22.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management	04.07.24
	Friday	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU29.1 Describe the causes, investigations and principles of management of Hematuria	05.07.24
	Saturday	Clinical Posting (P): Unit in Rotation SU29.5 Describe the clinical features,investigations and principles of management of renal calculi	06.07.24
	Monday	Clinical Posting (P):Unit I (Dr. N.K. Singh)SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver	08.07.24
Week 20	Tuesday	Clinical Posting (P):Unit II (Vipin Agarwal SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system	09.07.24
	Wednesday	Clinical Posting (P): Unit III(Dr. R K Kaul) SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis	10.07.24
	Thursday	Clinical Posting (P):Unit IV(Dr. A K Singh) SU22.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management	11.07.24
	Friday	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU29.1 Describe the causes, investigations and principles of management of Hematuria	12.07.24
	Saturday	Clinical Posting (P): Unit in Rotation SU29.5 Describe the clinical features,investigations and principles of management of renal calculi	13.07.24
	Monday	Clinical Posting (P):Unit I (Dr. N.K. Singh)SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver	15.07.24
	Tuesday	Clinical Posting (P):Unit II (Dr. Vipin Agarwal SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system	16.07.24

Week 22	Wednesday	Clinical Posting (P): Unit III(Dr. R K Kaul) SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis	17.07.24
	Thursday	Clinical Posting (P):Unit IV(Dr. A K Singh) SU22.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management	18.07.24
	Friday	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU29.1 Describe the causes, investigations and principles of management of Hematuria	19.07.24
	Saturday	Clinical Posting (P): Unit in Rotation SU29.5 Describe the clinical features,investigations and principles of management of renal calculi	20.07.24
	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh SU30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis	22.07.24
Week 23	Tuesday	Clinical Posting (P):Unit II (Dr. Vipin Agarwal SU29.10 Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent	23.07.24
	Wednesday	Clinical Posting (P)Unit III(Dr. R K Kaul) SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases	24.07.24
	Thursday	Clinical Posting (P):Unit IV(Dr. A K Singh) SU28.14 Describe the clinical features, investigations and principles of management of disorders of small and large intestine	25.07.24
	Friday	Clinical Posting (P): Unit V (Dr.C K JHAKMOLA)SU30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele	26.07.24
	Saturday	Clinical Posting (P): Unit on rotation-- SU30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis	27.07.24
Week 24	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh SU30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis	29.07.24
	Tuesday	Clinical Posting (P):Unit II (Dr. Vipin Agarwal SU29.10 Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent	30.07.24
	Wednesday	Clinical Posting (P)Unit III(Dr. R K Kaul) SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases	31.07.24
	Thursday	Clinical Posting (P):Unit IV(Dr. A K Singh) SU28.14 Describe the clinical features, investigations and principles of management of disorders of small and large intestine	01.08.24
	Friday	Clinical Posting (P): Unit V (Dr.C K JHAKMOLA)SU30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele	02.08.24
Week 25	Saturday	Clinical Posting (P): Unit on rotation-- SU30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis	03.08.24
	Second Terminal Exam - 05.08.24 to 17.08.24		
	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh SU30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis	19.08.24
	Tuesday	Clinical Posting (P):Unit II (Dr. Vipin Agarwal SU29.10 Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent	20.08.24
	Wednesday	Clinical Posting (P)Unit III(Dr. R K Kaul) SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases	21.08.24
	Thursday	Clinical Posting (P):Unit IV(Dr. A K Singh) SU28.14 Describe the clinical features, investigations and principles of management of disorders of small and large intestine	22.08.24
	Friday	Clinical Posting (P): Unit V (Dr.C K JHAKMOLA)SU30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele	23.08.24
	Saturday	Clinical Posting (P): Unit on rotation-- SU30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis	24.08.24
	Monday	OG8.2.The student should be able to Elicit, document & present an Obstetric history in detail, which includes elicitation of symptoms, history of previous obstetric, medical & surgical history, significant family & personal history, high risk factors for complications in the present pregnancy, menstrual history, history of patient's antenatal care- past & present, Immunization and contraceptive history. To be able to demonstrate ethical behavior in all aspects of history taking - Unit 1 (Dr. M Kaur)	26.08.24
Tuesday	OG8.3.The student should be able to perform a systematic examination of the patient, which includes -General Physical Examination- examination for Pallor, icterus, cyanosis, clubbing, thyroid examination, lymphadenopathy, edema & Breast examination. To be able to identify the abnormalities in General Physical examination & be able to describe the implications of each abnormality for the present pregnancy.To be able to apply all principles of ethics in taking consent for examination and the examination itself. Unit 1 (Dr. M Kaur)	27.08.24	
Wednesday	OG8.3.To perform a detailed Abdominal examination followed by an Obstetrical examination in a normal pregnancy. To be able to estimate the period of gestation from the patient history and examination. A DOAP on obstetric examination of a pregnant woman. Unit 1 (Dr. M Kaur)	28.08.24	
Thursday	OG8.1.To be able to define Gravida, Para & Abortion & write an Obstetric formula. To be able to reach a diagnosis of a pregnant woman with a normal pregnancy Unit 1 (Dr. M Kaur)	29.08.24	

Week 26

Friday	OG8.4.To observe & be able to demonstrate clinical monitoring of maternal & fetal wellbeing.To be able to apply different tests to determine fetal well being.To be able to identify high risk factors in the mother. Unit 1 (Dr. M Kaur)	30.08.24
Saturday	OG8.5.To be able to describe & demonstrate pelvic assessment in a model. To be able to identify abnormalities in the pelvis in different models and be able to describe the obstetrical implications of common abnormalities of the pelvis. Unit 1 (Dr. M Kaur)	31.08.24
Monday	OG8.6.To be able to counsel the pregnant woman and her relatives in a simulated environment the importance of correct antenatal care, diet & immunization and of seeking help in case of a perceived abnormality in health.To be able to identify co-morbid conditions in a pregnant woman. Unit 1 (Dr. M Kaur)	02.09.24
Tuesday	OG8.7, OG8.8.To be able to enumerate indications for & types of vaccinations in pregnancy.To be able to enumerate the indications & describe the routine investigations in a pregnant woman, including the use of ultrasound in the initial assessment & monitoring in pregnancy. Unit 1 (Dr. M Kaur)	03.09.24
Wednesday	OG35.1, OG35.2.To be able to elicit, document & present a gynecology case history in detail which includes elicitation of symptoms, previous gynec & obstetric history, medical, surgical, significant family history, significant personal history, risk factors for gynec pathologies & normal menstrual history. Unit 1 (Dr. M Kaur)	04.09.24
Thursday	OG35.6 – OG35.8. To be able to apply the principles of Medical ethics in history taking & examination of a gynecology patient. To be able to do a General Physical Examination of a gynec case, gynec examination of the patient upto per abdominal examination and be familiar with per speculum and per vaginal examinations in a simulated environment. DOAP of a per abdominal examination of a gynec case. Unit 1 (Dr. M Kaur)	05.09.24
Friday	OG9.1.To be able to diagnose from history and examination a case of Abortion, Define, classify, & discuss the etiology of abortions, including Threatened, Inevitable, Missed, Incomplete, Complete & Septic abortions. To be able to formulate appropriate management plans for the type of abortion. Unit 1 (Dr. M Kaur)	06.09.24
Saturday	OG9.2,OG20.1-20.3.To define and classify MTP, describe the procedures and steps, observe and assist in the performance of an MTP evacuation. To be able to enumerate the indications and describe & discuss the legal aspects, indications, methods for first & second trimester MTP; Complications and management of complications. Administer Informed consent to patient or guardian in a simulated environment. Discuss the PC & PNDT Act 1994 & 2021. Unit 1 (Dr. M Kaur)	07.09.24
Monday	OG9.3. To be able to diagnose from history & examination, a patient of Acute Pain Abdomen in early pregnancy(with a focus on ectopic pregnancy) & enumerate the principles of Medical & surgical management . Unit 1 (Dr. M Kaur)	09.09.24
Tuesday	OG9.4. To be able to provisionally diagnose a case of Gestational Trophoblastic Disease or Neoplasm from history & examination, discuss clinical features, laboratory investigations, Ultrasound findings, Differential diagnosis, principles of management and follow up of a patient of Gestational Trophoblastic Disease. Unit 1 (Dr. M Kaur)	10.09.24
Wednesday	OG9.5. To be able to diagnose a case of Hyperemesis Gravidarum by history, examination & investigations.To know the principles of management & the impact of Hyperemesis Gravidarum on maternal & fetal health. Unit 1 (Dr. M Kaur)	11.09.24
Thursday	OG10.1; OG10.2; OG16.1. To be able to reach a provisional diagnosis of Antepartum Hemorrhage. Describe the first aid to be provided to the patient, confirmation of diagnosis and general & obstetric management of Abruption Placentae. To be able to select the correct blood products to manage APH & its complications. Unit 1 (Dr. M Kaur)	12.09.24
Friday	OG16.1-To be able to reach a provisional diagnosis of Antepartum Hemorrhage. Describe the first aid to be provided to the patient, confirmation of diagnosis and general & obstetric management of Placenta Previa. Unit 1 (Dr. M Kaur)	13.09.24
Saturday	OG11.1.To diagnose a case of Multifetal gestation.To describe etiopathology, clinical features, diagnosis and investigations, principles of management & complications of Multiple gestations. Unit 1 (Dr. M Kaur)	14.09.24
Monday	OG12.1. To be able to diagnose a case of Hypertension in Pregnancy, with correct method of Blood Pressure measurement, classify Hypertension of Pregnancy according to severity, get the appropriate investigations, Interpretation of the investigations, etiology, pathophysiology of Hypertensive disorders of pregnancy & Eclampsia & their complications. Unit 1 (Dr. M Kaur)	16.09.24
Tuesday	OG12.1-To know the Etiology, pathophysiology, symptoms & signs, of Eclampsia. To know the Immediate management, investigations , General & Obstetric management of a case of Eclampsia.complications Unit 1 (Dr. M Kaur)	17.09.24
Wednesday	OG12.2.To be able to identify anemia in pregnancy, severity of anemia clinically & by investigations, be able to describe etiology, pathophysiology, diagnosis, investigations, cause, severity and gestational age appropriate management of anemia. To be able to describe the Maternal & fetal complications of Anemia in pregnancy. Unit 1 (Dr. M Kaur)	18.09.24

Week 27

Week 28

Week 32	Saturday	OG 16.2-Define uterine inversion. Discuss the causes of uterine inversion Discuss the diagnosis of uterine inversion Describe the management of uterine inversion Enumerate the methods to prevent uterine inversion Unit 2 (Dr. K Rani)	12.10.24
	Monday	OG16.3-Enumerate the causes of FGR Discuss the clinical features of FGR Discuss the diagnostic modalities of FGR. Describe various antepartum fetal surveillance tests for monitoring and principles of management of FGR Discuss the preventive methods of FGR Describe counseling regarding fetal prognosis in FGR cases Unit 2 (Dr. K Rani)	14.10.24
	Tuesday	OG17.1,OG17.2,OG17.3-Describe the physiology of lactation in terms of mammogenesis. Describe the physiology of lactation in terms of lactogenesis galactogenesis and galactopoiesis Counsel about importance of breast feeding. In simulated environment student should be able to demonstrate the care of breast and correct technique of breast feeding. Unit 2 (Dr. K Rani)	15.10.24
	Wednesday	OG17.3- Discuss the Breast complications during Lactation,Discuss the clinical features & Management of Breast Engorgement, Crack & Fissure Nipple,Mastitis, Breast abscess Differentiate between mastitis and breast abscess Unit 2 (Dr. K Rani)	16.10.24
	Thursday	OG18.1,OG18.2,OG18.3, OG18.4- Discuss the criteria for assessment of gestational age at birth. Discuss the basic principles of resuscitation of newborns. Discuss the diagnosis of birth asphyxia. Enumerate the common problems of normal newborn. Describe APGAR score. Unit 2 (Dr. K Rani)	17.10.24
	Friday	OG19.1.Discuss various methods of temporary contraception available for the couple after delivery. Describe the various methods of permanent contraception. Describe the steps of puerperal sterilization. Discuss the complications of puerperal sterilization, Unit 2 (Dr. K Rani)	18.10.24
	Saturday	OG19.2- Counsel in a simulated environment about the advantages and disadvantages of various contraceptive methods properly. Unit 2 (Dr. K Rani)	19.10.24
Week 33	Monday	OG12.6. To recognise Jaundice in pregnancy.To describe the clinical features, detection, effects of pregnancy on the liver disease, effects of the disease on pregnancy & management of Liver disease in pregnancy. To know the Liver diseases specific to pregnancy and coincidental to pregnancy. Unit 3 (Dr. S Agarwal)	21.10.24
	Tuesday	OG21.1.Demonstrate about the suitable contraception to the couple. Counsel regarding the indications, contraindications, side effects, complications and failure rates of hormonal contraception. Counsel regarding the indication, contraindications, side effects, complications and failure rate of non – hormonal contraception. Describe Methods of Emergency Contraception. Unit 3 (Dr. S Agarwal)	22.10.24
	Wednesday	OG21.1.Enumerate the indications for using Intrauterine Contraceptive devices. Discuss the prerequisites before inserting IUCD in the procedure room. Describe the steps for insertion I of IUCD in the procedure room. Identify the instruments used in IUCD insertion. Discuss the contraindications and side effects of IUCD. Describe the management of complications with IUCD insertion. Discuss various indications for IUCD removal. Describe the steps of IUCD removal in the procedure room. Identify the instruments used in removal of IUCD.Management of Missing Cu-T thread. Unit 3 (Dr. S Agarwal)	23.10.24
	Thursday	OG21.1- Describe the types, advantages, disadvantages and failure rate of male condom correctly. Describe the techniques, complications and follow up of vasectomy correctly. Unit 3 (Dr. S Agarwal)	24.10.24
	Friday	OG21.2 - Describe the timing of PPIUCD insertion, mechanism of action and failure rate of PPIUCD correctly. enumerate the advantages and side-effects of PPIUCD correctly enumerate the contraindications of PPIUCD correctly. describe the methods of PPIUCD insertion and post insertion care correctly. Unit 3 (Dr. S Agarwal)	25.10.24
	Saturday	OG22.1, OG22.2- Describe the characteristics of physiological vaginal discharge correctly. enumerate the causes of vaginal discharge in children, reproductive age and post-menopausal age group correctly, differentiate between bacterial vaginosis, vaginal candidiasis, and trichomonas vaginitis correctly, describe the clinical features, investigations and treatment of vaginal candidiasis, trichomonas vaginitis and bacterial vaginosis correctly, describe syndromic management of vaginal discharge correctly. Unit 3 (Dr. S Agarwal)	26.10.24
	Diwali 28.10.24 to 02.11.24		
Week 34	Monday	OG24.1- Define abnormal uterine bleeding. Discuss the etiology of abnormal uterine bleeding as per PALM-COEIN classification. Describe various clinical features, investigations and management of patient with abnormal uterine bleeding. Unit 3 (Dr. S Agarwal)	04.11.24
	Tuesday	OG23.1, OG23.2, OG23.3- Describe the physiology and changes in puberty correctly. List the common disorders of puberty correctly. Define precocious puberty and delayed puberty accurately. Describe the evaluation and management of delayed puberty correctly. Enumerate the causes of delayed puberty correctly. Classify and enumerate the causes of precocious puberty accurately. Describe the evaluation and treatment of precocious puberty correctly. Unit 3 (Dr. S Agarwal)	05.11.24
	Wednesday	OG25.1.Define the primary amenorrhea correctly. Define the secondary amenorrhea correctly. Enumerate the causes of primary amenorrhea. Describe the principles of management including investigation and Treatment in patient presenting with primary amenorrhea. Unit 3 (Dr. S Agarwal)	06.11.24

Week 35	Thursday	OG25.1.Enumerate the causes of Secondary Amenorrhoea. Discuss the management of secondary amenorrhea. Unit 3 (Dr. S Agarwal)	07.11.24
	Friday	OG 26.1- Define endometriosis. Describe the etiology and pathogenesis of endometriosis. Describe clinical features of endometriosis and Adenomyosis. Discuss effect of endometriosis on fertility. Define difference between endometriosis and adenomyosis. Describe investigations and management of Endometriosis. Unit 3 (Dr. S Agarwal)	08.11.24
	Saturday	OG26.2- Enumerate causes of genital injuries. List the types of genital injuries. Describe clinical features of genital injuries. Discuss principles of management of genital injuries. Discuss the ways /methods of prevention of genital injuries. Unit 3 (Dr. S Agarwal)	09.11.24
	Monday	OG27.1- Define Sexually Transmitted Disease, discuss aetio-pathogenesis of different sexually transmitted infections, discuss clinical features of different sexually transmitted infections, discuss long term implications of sexually transmitted infections, discuss investigations and management of sexually transmitted infections. Unit 3 (Dr. S Agarwal)	11.11.24
	Tuesday	OG27.1-To be able to discuss aetio-pathogenesis of Genital Tuberculosis. Discuss clinical features of Genital TB, its long term implications and complications, discuss investigations and management of Genital TB.To be able to discuss aetio-pathogenesis, clinical features, long term implications and complications, investigations and management of HIV in a gynec patient . Unit 3 (Dr. S Agarwal)	12.11.24
	Wednesday	OG27.4- Define Pelvic Inflammatory Disease and types of Pelvic Inflammatory disease. Discuss aetio-pathogenesis of Pelvic Inflammatory Disease. Describe the pathology in acute and chronic Pelvic Inflammatory disease correctly.Discuss clinical features of Pelvic Inflammatory Disease. Discuss investigations of Pelvic Inflammatory Disease. Discuss management of Pelvic Inflammatory Disease. Enumerate the long term implications of Pelvic Inflammatory Disease. Unit 3 (Dr. S Agarwal)	13.11.24
	Thursday	OG28.1- Define Infertility, Primary Infertility, And Secondary Infertility. Report prevalence of Infertility. Describe factors essential for conception. Enumerate common causes of infertility [Male, Female]. Discuss how to investigate male factor infertility. Describe treat of male partner infertility. Discuss how to investigate & treat Anovulatory infertility. Unit 3 (Dr. S Agarwal)	14.11.24
	Friday	OG28.2.Discuss the Investigation & Treatment of Tubal Factor Infertility, including Tubal Patency tests & Tubal recanalisation operations. Unit 3 (Dr. S Agarwal)	15.11.24
	Saturday	OG28.4- Define ART (Assisted Reproduction Technique). Enumerate different methods of ART. Describe principal steps of ART. Unit 3 (Dr. S Agarwal)	16.11.24
	Monday	OG29.1- Define fibroid correctly. The types of fibroid accurately. Discuss the etiology of fibroid uterus correctly. Describe the pathology of fibroid uterus correctly. Describe the clinical features of fibroid uterus correctly. Discuss the differential diagnosis of fibroid uterus correctly. enumerate all the investigations of fibroid uterus correctly. Discuss the principles of management of fibroid uterus correctly. Discuss the complications of fibroid uterus. Unit 3 (Dr. S Agarwal)	18.11.24
Week 36	Tuesday	OG31.1- Describe the etiology of prolapse of uterus. Describe the classification of prolapse of uterus. Describe clinical features of prolapse of uterus. Discuss diagnosis and investigation of prolapse of uterus. Discuss preventive aspect of prolapse of uterus. Discuss management of prolapse of uterus. Describe the etiology of prolapse of uterus. Describe the classification of prolapse of uterus. Describe clinical features of prolapse of uterus. Discuss diagnosis and investigation of prolapse of uterus. Discuss preventive aspect of prolapse of uterus. Discuss management of prolapse of uterus. Unit 3 (Dr. S Agarwal)	19.11.24
	Wednesday	OG32.2- Enumerate the causes of post menopausal bleeding correctly. describe the evaluation and management of Postmenopausal bleeding correctly. Unit 3 (Dr. S Agarwal)	20.11.24
	Thursday	OG33.1- Describe classification of cervical cancer. Describe etiology and pathology of cervical cancer. Discuss clinical features and differential diagnosis of cervical cancer. Discuss investigations and staging of cervical cancer. OG33.2- Describe management of benign lesions of cervix. Describe management of premalignant lesions of cervix. Unit 3 (Dr. S Agarwal)	21.11.24
	Friday	OG33.2.Describe management of malignant lesions of cervix. Unit 3 (Dr. S Agarwal)	22.11.24
	Saturday	OG33.3-Enumerate, Describe & demonstrate in a simulated environment (DOAP Session) the methods of cervical cancer screening. Unit 3 (Dr. S Agarwal)	23.11.24
	Monday	Clinical Posting (P) OR 2.6 Describe and discuss Etiopathogenesis, mechanism of injury, clinical feature, investigation and principles of management of fracture of distal radius. Unit 1 (Dr. A Saraf)	25.11.24
	Tuesday	Clinical Posting (P) OR 2.5 Describe and discuss the aetiopathogenesis, clinical features, mechanism of injury, Investigation and principles of management of fracture of both bone forearm and Galeazzi and Monteggia injury. Unit 1 (Dr. A Saraf)	26.11.24
	Wednesday	Clinical Posting (P) OR 2.4 Describe and discuss the mechanism of injury, clinical features, Investigation and principles of management of fracture of shaft humerus and intercondylar fracture humerus with emphasis on neurovascular deficit. Unit 1 (Dr. A Saraf)	27.11.24
	Thursday	Clinical Posting (P) OR 2.3 Select, prescribe and communicate appropriate medications for relief of joint pain. Unit 1 (Dr. A Saraf)	28.11.24
	Week 37		

Week 38	Friday	Clinical Posting (P)OR 2.2 Describe and discuss the, mechanism of injury, clinical features, investigations and plan management of fractures of proximal humerus. Unit 2 (Dr. S Singh)	29.11.24
	Saturday	Clinical Posting (P) OR2.1 Describe and discuss the , mechanism of injury, clinical features, investigations and principles of management of fractures of Clavicle. Unit 2 (Dr. S Singh)	30.11.24
	Monday	Clinical Posting (P) OR 1.6 Participate as a member in the team for closed reduction of Shoulder dislocation/ hip dislocation/ knee dislocation. Unit 2 (Dr. S Singh)	02.12.24
	Tuesday	Clinical Posting (P) OR 1.5 Describe and discuss the aetiopathogenesis , clinical features ,investigations and principles of management of dislocation of major joints, shoulder, knee, hip . Unit 2 (Dr. S Singh)	03.12.24
	Wednesday	Clinical Posting (P) OR.1.4 Describe and discuss the Principles of Management of Soft Tissue Injuries. Unit 3 (Dr. M Sharma)	04.12.24
	Thursday	Clinical Posting (P) OR. 1.3 Describe and discuss the aetiopathogenesis, Clinical features, investigations and principles of management of soft tissue injuries. Unit 3 (Dr. M Sharma)	05.12.24
	Friday	Clinical Posting (P) OR. 1.2 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of shock. Unit 3 (Dr. M Sharma)	06.12.24
Week 39	Saturday	Clinical Posting (P) OR.1.1 Describe and discuss the Principles of pre hospital care and casualty management of a trauma victim including principles of triage. Unit 3 (Dr. M Sharma)	07.12.24
	Monday	PE1.4-Perform Anthropometric measurements, document in growth charts and interpret - Unit 1 (Dr. R R Singh)	09.12.24
	Tuesday	PE1.7-Perform Developmental assessment and interpret - Unit 1 (Dr. R R Singh)	10.12.24
	Wednesday	PE3.4-Counsel a parent of a child with developmental delay - Unit 1 (Dr. R R Singh)	11.12.24
	Thursday	PE7.5-Observe the correct technique of breast feeding and distinguish right from wrong techniques - Unit 1 (Dr. R R Singh)	12.12.24
	Friday	PE10.3-Assessment of a patient with SAM and MAM, diagnosis, classification and planning management including hospital and community based intervention, rehabilitation and prevention Unit 1 (Dr. R R Singh)	13.12.24
	Saturday	PE9.5-Calculate the age related calorie requirement in Health and Disease and identify gap - Unit 1 (Dr. R R Singh)	14.12.24
Week 40	Monday	PE12.8-Identify the clinical features of dietary deficiency of Vitamin - Unit 2 (Dr. R Jain)	16.12.24
	Tuesday	PE15.3-Calculate the fluid and electrolyte requirement in health - Unit 2 (Dr. R Jain)	17.12.24
	Wednesday	PE1.4-Perform Anthropometric measurements, document in growth charts and interpret - Unit 2 (Dr. R Jain)	18.12.24
	Thursday	PE1.7-Perform Developmental assessment and interpret - Unit 2 (Dr. R Jain)	19.12.24
	Friday	PE3.4-Counsel a parent of a child with developmental delay - Unit 2 (Dr. R Jain)	20.12.24
	Saturday	PE7.5-Observe the correct technique of breast feeding and distinguish right from wrong techniques - Unit 2 (Dr. R Jain)	21.12.24
	Monday	PE10.3-Assessment of a patient with SAM and MAM, diagnosis, classification and planning management including hospital and community based intervention, rehabilitation and prevention Unit 3 (Dr. Chitambaram)	23.12.24
Week 41	Tuesday	PE9.5-Calculate the age related calorie requirement in Health and Disease and identify gap - Unit 3 (Dr. Chitambaram)	24.12.24
	Wednesday	PE12.8-Identify the clinical features of dietary deficiency of Vitamin D - Unit 3 (Dr. Chitambaram)	25.12.24
	Thursday	PE15.3-Calculate the fluid and electrolyte requirement in health - Unit 3 (Dr. Chitambaram)	26.12.24
	Friday	PE1.4-Perform Anthropometric measurements, document in growth charts and interpret - Unit 3 (Dr. Chitambaram)	27.12.24
	Saturday	PE1.7-Perform Developmental assessment and interpret - Unit 3 (Dr. Chitambaram)	28.12.24
	Monday	PE3.4-Counsel a parent of a child with developmental delay - Unit 1 (Dr. R R Singh)	30.12.24
	Tuesday	PE7.5-Observe the correct technique of breast feeding and distinguish right from wrong techniques - Unit 1 (Dr. R R Singh)	31.12.24
Week 42	Wednesday	PE10.3-Assessment of a patient with SAM and MAM, diagnosis, classification and planning management including hospital and community based intervention, rehabilitation and prevention - Unit 2 (Dr. R Jain)	01.01.25
	Thursday	PE9.5-Calculate the age related calorie requirement in Health and Disease and identify gap - Unit 2 (Dr. R Jain)	02.01.25
	Friday	PE12.8-Identify the clinical features of dietary deficiency of Vitamin - Unit 3 (Dr. Chitambaram)	03.01.25
	Saturday	PE15.3-Calculate the fluid and electrolyte requirement in health - Unit 3 (Dr. Chitambaram)	04.01.25
	Monday	Clinical Posting (P) : D.R.1.2 Identify and grade the various common types of acne - Dr. K S Dhillon	06.01.25
	Tuesday	Clinical Posting (P): D.R. 2.1 Identify and differentiate Vitiligo from other causes of hypopigmented lesions - Dr. K S Dhillon	07.01.25
	Wednesday	Clinical Posting (P): D.R.3.1 Identify and distinguish psoriatic lesions from other causes; D.R.3.2 Demonstrate the grattage test - Dr. K S Dhillon	08.01.25

Week 43

Thursday	Clinical Posting (P): D.R.4.1 Identify and distinguish lichen planus lesions from other causes; D.R.5.2 Identify and differentiate scabies from other lesions in adults and children -Dr. K S Dhillon	09.01.25
Friday	Clinical Posting (P): D.R 7.2 Identify Candida species in fungal scrapings and KOH mount - Dr. Manu Singh	10.01.25
Saturday	Clinical Posting (P): D.R. 8.2 Identify and distinguish herpes simplex and herpes labialis from other skin lesions ; D.R. 8.3 identify and distinguish herpes zoster and varicella from other skin lesions - Dr. Maun Singh	11.01.25
Monday	Clinical Posting (P): D.R.8.4 Identify and distinguish viral warts from other skin lesions ; D.R.8.5 Identify and distinguish molluscum contagiosum from other skin lesions - Dr. Manu Singh	13.01.25
Tuesday	Clinical Posting (P): D.R. 9.2 Demonstrate (and classify based on) the clinical features of leprosy including an appropriate neurologic examination; D.R.10.1 Identify and classify syphilis based on the presentation and clinical manifestation - Dr. Manu Singh	14.01.25
Wednesday	Clinical Posting (P) : D.R.10.2 Identify spirochete in a dark ground microscopy; D.R.10.5 Counsel in a non-judgemental and empathetic manner patients on prevention of sexually transmitted diseases - Dr. D Meena	15.01.25
Thursday	Clinical Posting (P): D.R. 11.2 Identify and distinguish the dermatologic manifestations of HIV, its complications, opportunistic infections and adverse reactions -Dr. D Meena	16.05.25
Friday	Clinical Posting (P): D.R.12.6 Identify and distinguish exfoliative dermatitis from other skin lesions - Dr. R K Singh	17.01.25
Saturday	Clinical Posting (P) D.R. 16.1-18.1 Identify and Distinguish Skin lesions - Dr. R K Singh	18.01.25

Week 44

Teerthanker Mahaveer Medical College & Research Center						
Teerthanker Mahaveer University						
Delhi Road, Moradabad - 244001						
Time Table Schedule (Consolidated as per New Curriculum w.e.f AUGUST 2019) w.e.f. January 2024						
Day/Time	8:00-9:00 am	9:00-10:00 am	10:00 am - 1:00 pm	1:00-2:00pm	2:00-3:00pm	3:00-4:00pm
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Pediatrics - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)
Tuesday	Orthopedics - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	
Wednesday	Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Orthopedics - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)
Friday	Pediatrics - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	
Saturday	AETCOM Session	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Integration as Decided by AITo
			Clinical Posting - 8 + 4 weeks in General Medicine; General Surgery, Obstetrics & Gynecology; and 2 weeks in Orthopedics & Skin; 4 weeks in Pediatrics and 4 weeks electives in Medicine, Surgery and OBG		Saturday 3-4 pm: 1st Week Pediatrics, 2nd Week OBG, 3rd Week Surgery, 4th Week Medicine	

SGT - Small Group Teaching Includes: Tutorials, Seminars, Integrated Learning; SDL - Self Directed Learning; L - Lecture; P - Practical
AETCOM - 1st Saturday - Medicine; 2nd Saturday - Surgery; 3rd Saturday - OBG; 4th Saturday - Pediatrics. Module 4.1 & 4.3 - Medicine; Module 4.4, 4.5 & 4.6 - Surgery; Module 4.2, 4.7 & 4.8 - OBG; and Module 4.9 - Pediatrics

Electives to be held in Preclinical (2 weeks) + Clir weeks) from 22.01.2024; 1 week Vacation (24.03.24-30.03.24) Diwali Vacation (28.10.24-02.11.24); 13.04.24) and 2nd Internal (0.16.08.24); Preuniversity Exar 2025 (20.01.25) end and Un Exam in Feb 2025

Electives Week 1

Day/Time	8:00-9:00 am	9:00-10:00 am	10:00 am - 1:00 pm	1:00-2:00pm	2:00-3:00pm	3:00-4:00pm	Date
Monday	Electives		IM9.3- Elicit document and present a medical history that includes symptoms, risk factors including GI bleeding, prior history, medications, menstrual history, and family history -		Electives		22.01.24
Tuesday			IM9.4- Perform a systematic examination that includes: general examination for pallor, oral examination, DOAP session of hyperdynamic circulation, lymph				23.01.24
Wednesday			IM9.5- Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology - Unit 1 (Dr. V K				24.01.24
Thursday			IM9.6- Describe the appropriate diagnostic work up based on the presumed aetiology - Unit 1 (Dr. V				25.01.24
Friday			IM9.9- Order and interpret tests for anaemia including hemogram, red cell indices, reticulocyte count, iron studies, B12 and folate - Unit 1 (Dr.				26.01.24

Electives Week 2	Saturday		IM9.10- Describe, perform and interpret a peripheral smear and stool occult blood - Unit 2 (Dr.			27.01.24
	Monday	Electives	IM9.13- Prescribe replacement therapy with iron, B12, folate - Unit		Electives	29.01.24
	Tuesday		IM9.15- Communicate the diagnosis and the treatment appropriately to patients - Unit 2 (Dr. Vishvanayak)			30.01.24
	Wednesday		IM9.16- Incorporate patient preferences in the management of anaemia - Unit 2 (Dr. Vishvanayak)			31.01.24
	Thursday		IM9.19- Assist a blood transfusion Unit 2 (Dr. Vishvanayak)			01.02.24
	Friday		IM9.20- Communicate and counsel patients with methods to prevent nutritional anaemia - Unit 3 (Dr. K			02.02.24
	Saturday		IM10.12- Elicit document and present a medical history that will differentiate the etiologies of disease, distinguish acute and chronic disease, identify predisposing conditions, nephrotoxic drugs and systemic causes Unit 3 (Dr. K Gopal)			03.02.24
Electives Week 3	Monday	Electives	IM10.13- Perform a systemic examination that establishes the diagnosis and severity including determining of volume status, presence of edema and heart failure, features of uremia and associated systemic disease. Unit 3 (Dr. K Gopal)		Electives	05.02.24
	Tuesday		IM10.14- Generate a differential diagnosis and prioritise based on clinical features that suggest specific etiology Unit 3 (Dr. K Gopal)			06.02.24
	Wednesday		IM10.18- Identify the ECG findings in Hyperkalemia. Unit 3 (Dr. K Gopal)			07.02.24
	Thursday		IM10.19- Enumerate the indications and describe the findings in renal ultrasound. - Unit 4 (Dr. J Haria)			08.02.24
	Friday		IM10.20- Describe and discuss the indications to perform arterial blood gas analysis: interpret the data - Unit 4 (Dr. J Haria)			09.02.24
	Saturday		IM10.21- Describe and discuss the indications for and insert a peripheral intravenous catheter - Unit 4 (Dr. J Haria)			10.02.24
	Monday	Electives	IM10.22- Describe and discuss the indications, demonstrate in a model and assist in the insertion of a central venous or a dialysis catheter - Unit 4 (Dr. J Haria)		Electives	12.02.24
Tuesday		IM10.23- Communicate diagnosis treatment plan and subsequent followup to patients - Unit 4 (Dr. J Haria)			13.02.24	
Wednesday		IM10.24- Counsel patients on renal diet - Unit 5 (Dr. A Kumar)			14.02.24	

Electives Week 4

Thursday	IM11.7- Elicit document and present a medical history that will differentiate the aetiologies of diabetes including risk factors, precipitating factors, lifestyle, nutritional history, family history, medication history, co-morbidities and target organ disease - Unit 5 (Dr. A Kumar)				15.02.24
Friday	IM11.8- Perform a systematic examination that establishes the diagnosis and severity that includes skin, peripheral pulses, blood pressure measurement, fundus examination, detailed examination of the foot (pulses, nervous and deformities and injuries) - Unit 5 (Dr. A Kumar)				16.02.24
Saturday	IM11.9- Describe and recognise the clinical features of patients who present with a diabetic emergency - Unit 5 (Dr. A Kumar)				17.02.24

Week 1

Day/Time	8:00-9:00 am	9:00-10:00 am	10:00 am - 1:00 pm	1:00-2:00pm	2:00-3:00pm	3:00-4:00pm	
Monday	SU 24.3.1 At the end of session phase 3 part 2 student must be able to Discuss the principles of investigations in a patient of Pancreatic disorders.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 4.1 Describe and discuss the basic embryology of fetus, factors influencing fetal growth and development, anatomy and physiology of placenta, and teratogenesis	IM11.10- Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology - Unit 1 (Dr. V K Singh)		IM01.5: Clinical recognition of heart failure types (Tutorial)	PE28.14 Develop a treatment plan and document appropriately in a child with upper respiratory symptoms PE28.15 Stratify risk in children with stridor using IMNCI guideline	19.02.24
Tuesday	OR.1.1 Describe and discuss the Principles of pre hospital care and casualty management of trauma victim including principles of triage.	IM3.1 Define, discuss, describe and distinguish community acquired pneumonia, nosocomial pneumonia and aspiration pneumonia	IM11.11- Order and interpret laboratory tests to diagnose diabetes and its complications including: glucoses, glucose tolerance test, glycosylated hemoglobin, urinary micro albumin, ECG, electrolytes, ABG, ketones, renal function tests and lipid profile - Unit 1 (Dr. V K Singh)		Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 4.1 Describe and discuss the basic embryology of fetus, factors influencing fetal growth and development, anatomy and physiology of placenta, and teratogenesis		20.02.24
Wednesday	IM7.1 Describe the pathophysiology of autoimmune disease	SU25.2.5 At the end of session phase 3 part 2 student must be able to Describe the symptoms and signs breast infections.	IM11.12- Perform and interpret a capillary blood glucose test - Unit 1 (Dr. V K Singh)		IM01.3: Rheumatic Fever : pathogenesis, clinical features (Seminar)		21.02.24
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 5.1 :Describe, discuss and identify pre-existing medical disorders and discuss their management; discuss evidence-based intrapartum care	IM9.1- Define, describe and classify anaemia based on red blood cell size and reticulocyte count	IM11.12- Perform and interpret a capillary blood glucose test - Unit 1 (Dr. V K Singh)		SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent	OR.1.2 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of shock.	22.02.24
Friday	PE28.6 Discuss the etio-pathogenesis, clinical features and management of Acute laryngo-trachea-bronchitis PE28.7 Discuss the etiology, clinical features and management of Stridor in children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 5.1 :Describe, discuss and identify pre-existing medical disorders and discuss their management; discuss evidence-based intrapartum care	IM11.13- Perform and interpret a urinary ketone estimation with a dipstick		SU25.5.1 At the end of session phase 3 part 2 student must be able to Demonstrate the correct technique to palpate the breast for a breast lump in a mannequin or equivalent.		23.02.24

Saturday	AETCOM Session: Module 4.1: The foundations of communication - 5	SU25.2.6 At the end of session phase 3 part 2 student must be able to Describe the symptoms and signs of breast infections.	IM11.14- Recognise the presentation of hypoglycaemia and outline the principles on its therapy - Unit 1 (Dr. V K Singh)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 5.1 :Describe, discuss and identify pre-existing medical disorders and discuss their management; discuss evidence-based intrapartum care	Integration Teaching as Decided by AITo: CM8.2: Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity.); IM 11.5: Describe and discuss the pathogenesis and temporal evolution of microvascular and macrovascular complications of diabetes	24.04.24
Monday	SU 24.3.2 At the end of session phase 3 part 2 student must be able to Discuss the plan of management in a patient of Pancreatic disorders	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 5.2 Determine maternal high risk factors and verify immunization status	IM11.15- Recognise the presentation of diabetic emergencies and outline the principles of therapy - Unit 1 (Dr. V K Singh)	IM02.6: approach to a patient of CAD/IHD (Tutorial)	PE28.19 Describe the etio-pathogenesis, diagnosis, clinical features, management and prevention of asthma in children PE28.20 Counsel the child with asthma on the correct use of inhalers in a simulated environment	26.02.24
Tuesday	OR. 1.3 Describe and discuss the aetiopathogenesis, Clinical features, investigations and principles of management of soft tissue injuries.	IM 3.2 Discuss and describe the aetiologies of various kinds of pneumonia and their microbiology depending on the setting and immune status of the host	IM11.16- Discuss and describe the pharmacologic therapies for diabetes their indications, contraindications, adverse reactions and interactions - Unit 1 (Dr. V K Singh)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 6.1 Describe, discuss and demonstrate the clinical features of pregnancy, derive and discuss its differential diagnosis, elaborate the principles underlying and interpret pregnancy tests.		27.02.24
Wednesday	IM7.2 Describe the genetic basis of autoimmune disease	SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast.	IM11.17- Outline a therapeutic approach to therapy of T2Diabetes based on presentation, severity and complications in a cost effective manner - Unit 1 (Dr. V K Singh)	IM01.6: Heart failure Pathogenesis (Seminar)		28.02.24
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.7.1 Describe and discuss the changes in the genital tract, cardiovascular system, respiratory, haematology, renal and gastrointestinal system in pregnancy	IM9.2- Describe and discuss the morphological characteristics, aetiology and prevalence of each of the causes of anaemia	IM11.17- Outline a therapeutic approach to therapy of T2Diabetes based on presentation, severity and complications in a cost effective manner - Unit 1 (Dr. V K Singh)	SU27.2.2 At the end of session, phase 3 part 2 schedule must be able to enumerate the clinical examination for vascular disorders.	OR.1.4 Describe and discuss the Principles of Management of Soft Tissue Injuries.	29.02.24
Friday	PE28.18 Describe the etio-pathogenesis, diagnosis, clinical features, management and prevention of lower respiratory infections including bronchiolitis, wheeze associated LRTI Pneumonia and empyema; PE31.5 Discuss the etio-pathogenesis, clinical types, presentations, management and prevention of childhood Asthma	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.7.1 Describe and discuss the changes in the genital tract, cardiovascular system, respiratory, haematology, renal and gastrointestinal system in pregnancy	IM11.19- Demonstrate and counsel patients on the correct technique to administer insulin - Unit 1 (Dr. V K Singh)	SU27.2.6 At the end of session, phase 3 part 2 schedule must be able to demonstrate the examination of arterial disease.		01.03.24
Saturday	AETCOM Session: Module 4.5: Case studies in ethics: the doctor-industry relationship	SU25.3.1 At the end of session phase 3 part 2 student must be able to Discuss the etio-pathogenesis of benign tumors of the breast.	IM11.20- Demonstrate to and counsel patients correct technique on the of self-monitoring of blood glucoses - Unit 1 (Dr. V K Singh)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.7.1 Describe and discuss the changes in the genital tract, cardiovascular system, respiratory, haematology, renal and gastrointestinal system in pregnancy	Integration: IM11.7: Elicit document and present a medical history that will differentiate the aetiologies of diabetes including risk factors, precipitating factors, lifestyle, nutritional history, family history, medication history, co-morbidities and target organ disease; BI 17.7: Describe the role of oxidative stress in the pathogenesis of conditions such as cancer, complications of diabetes mellitus and atherosclerosis	02.03.24

Week 3

Monday	SU 25.1 Describe applied anatomy and appropriate investigations for breast disease.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.6 Assess and counsel a patient in a simulated environment regarding appropriate nutrition in pregnancy	IM11.21- Recognise the importance of patient preference while selecting therapy for diabetes - Unit 1 (Dr. V K Singh)
Tuesday	OR 1.5 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of dislocation of major joints, shoulder, knee, hip	IM 3.3 Discuss and describe the pathogenesis, presentation, natural history and complications of pneumonia	IM12.5- Elicit document and present an appropriate history that will establish the diagnosis cause of thyroid dysfunction and its severity - Unit 1 (Dr. V K Singh)
Wednesday	IM7.3 Classify cause of joint pain based on the pathophysiology	SU25.3.2 At the end of session phase 3 part 2 student must be able to Discuss the clinical features of benign tumors of the breast	IM12.6- Perform and demonstrate a systematic examination based on the history that will help establish the diagnosis and severity including
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.1 Enumerate, describe and discuss the objectives of antenatal care, assessment of period of gestation; screening for high-risk factors.	IM9.7- Describe and discuss the meaning and utility of various components of the hemogram	IM12.7- Demonstrate the correct technique to palpate the thyroid - Unit 1 (Dr. V K Singh); IM12.8- Generate a differential diagnosis based on the clinical presentation and prioritise it based on the most likely diagnosis - Unit 1 (Dr. V K Singh)
Friday	Holiday		
Saturday	AETCOM Session: Module 4.7: Case studies in ethics and patient autonomy	SU25.3.3 At the end of session phase 3 part 2 student must be able to Discuss the etio-pathogenesis of malignant tumors of the breast.	IM12.9- Order and interpret diagnostic testing based on the clinical diagnosis including CBC, thyroid function tests and ECG and radio iodine uptake and scan - Unit 1 (Dr. V K Singh)
Monday	SU 25.1.1 At the end of session phase 3 part 2 student must be able to Discuss the Applied anatomy of breast	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.3 Describe, demonstrate, document and perform an obstetrical examination including a general and abdominal examination and clinical monitoring of maternal and fetal well-being;	IM12.10- Identify atrial fibrillation, pericardial effusion and bradycardia on ECG - Unit 2 (Dr. Vishvanayak)
Tuesday	OR2.1 Describe and discuss the, mechanism of injury, clinical features, investigations and principles of management of fractures of Clavicle	IM 3.15 Describe and enumerate the indications for hospitalisation in patients with pneumonia	IM12.11- Interpret thyroid function tests in hypo and hyperthyroidism Unit 2 (Dr. Vishvanayak)
Wednesday	IM7.4 Develop a systematic clinical approach to joint pain based on the pathophysiology	SU253.4 At the end of session phase 3 part 2 student must be able to Discuss the clinical features of malignant tumors of the breast	IM12.14- Write and communicate to the patient appropriately a prescription for thyroxine based on age, sex, and clinical and biochemical
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.3 Describe, demonstrate, document and perform an obstetrical examination including a general and abdominal examination and clinical monitoring of maternal and fetal well-being;	IM9.8 - Describe and discuss the various tests for iron deficiency	IM12.15- Describe and discuss the indications of thionamide therapy, radio iodine therapy and surgery in the management of thyrotoxicosis Unit 2 (Dr. Vishvanayak)

Week 4

IM3.19: Adult Vaccination : Influenza, Pneococcal vaccine (Tutorial)	PE28.18 Describe the etio-pathogenesis, diagnosis, clinical features, management and prevention of lower respiratory infections including bronchiolitis, wheeze associated LRTI Pneumonia and empyema PE31.6 Recognise symptoms and signs of Asthma PE31.7 Develop a treatment plan for Asthma appropriate to clinical presentation & severity PE31.11 Observe administration of Nebulisation		04.03.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.1 Enumerate, describe and discuss the objectives of antenatal care, assessment of period of gestation; screening for high-risk factors.			05.03.24
IM01.9: Rheumatic Fever : Diagnosis, treatment, prophylaxis (Seminar)			06.03.24
SU27.5 Describe the applied anatomy of venous system of lower limb; SU27.5.3 At the end of session, phase 3 part 2 schedule must be able to describe the level of perforation in lower limb.	OR 1.6 Participate as a member in the team for closed reduction of Shoulder dislocation/ hip dislocation/ knee dislocation.		07.03.24
Holiday			08.03.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.2 Elicit document and present an obstetric history including menstrual history, last menstrual period, previous obstetric history, comorbid conditions, past medical history and surgical history	Integration: IM 11.21 Recognise the importance of patient preference while selecting therapy for diabetes; B18.3 Provide dietary advice for optimal health in childhood and adult, in disease conditions like diabetes mellitus, coronary artery disease and in pregnancy.		09.03.24
IM05.1: Approach to Hyperbilirubinemia/ interpretation of LFT (Tutorial)	PE29.14 Interpret CBC, LFT PE29.15 Perform and interpret peripheral smear		11.03.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.2 Elicit document and present an obstetric history including menstrual history, last menstrual period, previous obstetric history, comorbid conditions, past medical history and surgical history			12.03.24
IM01.21: Infective endocarditis (Seminar)			13.03.24
SU27.6.10 At the end of session, phase 3 part 2 schedule must be able to describe the examination of lower limb for varicose veins.	OR 2.2 Describe and discuss the, mechanism of injury, clinical features, investigations and plan management of fractures of proximal humerus		14.03.24

Friday	PE29.1 Discuss the etio-pathogenesis, clinical features, classification and approach to a child with anaemia	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.4 Describe and demonstrate clinical monitoring of maternal and fetal well-being	IM13.7- Elicit document and present a history that will help establish the aetiology of cancer and includes the appropriate risk factors, duration and evolution Unit 2 (Dr. Vishvanayak)	SU27.7.8 Demonstrate the correct examination of the lymphatic system.		15.03.24
Saturday	AETCOM Session: Module 4.1: The foundations of communication - 5	SU25.3.5 At the end of session phase 3 part 2 student must be able to Discuss what investigations should be done in patients of suspected benign tumor of the breast.	IM13.8- Perform and demonstrate a physical examination that includes an appropriate general and local examination that excludes the diagnosis, extent spread and complications of cancer Unit 2 (Dr. Vishvanayak)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.4 Describe and demonstrate clinical monitoring of maternal and fetal well-being	Integration: IM 11.18: Describe and discuss the pharmacology, indications, adverse reactions and interactions of drugs used in the prevention and treatment of target organ damage and complications of Type II Diabetes including neuropathy, nephropathy, retinopathy, hypertension, dyslipidemia and cardiovascular disease; PA 32.4 Classify and describe the epidemiology, etiology, pathogenesis, pathology, clinical laboratory features, complications and progression of diabetes mellitus	16.03.24
Monday	SU25.1.2 At the end of session phase 3 part 2 student must be able to Discuss the investigations which need to be done in a patient of breast disease.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.4 Describe and demonstrate clinical monitoring of maternal and fetal well-being; O.G. 8.5. Describe and demonstrate pelvic assessment in a model	IM13.9- Demonstrate in a mannequin the correct technique for performing breast exam, rectal examination and cervical examination and pap smear Unit 2 (Dr. Vishvanayak); IM13.10- Generate a differential diagnosis based on the presenting symptoms and clinical features and prioritise based on the most likely diagnosis Unit 2 (Dr. Vishvanayak)	IM06.12: Chest Xray Interpretation/ABG Analysis (Tutorial); IM 3.16 Describe and enumerate the indications for isolation and barrier nursing in patients with pneumonia	PE21.9 Identify external markers for Kidney disease, like Failing to thrive, hypertension, pallor, Icthyosis, anasarca PE21.10 Analyse symptom and interpret the physical findings and arrive at an appropriate provisional / differential diagnosis	18.03.24
Tuesday	OR2.1 Describe and discuss the , mechanism of injury, clinical features, investigations and principles of management of fractures of Clavicle	IM 3.15 Describe and enumerate the indications for hospitalisation in patients with pneumonia	IM12.11- Interpret thyroid function tests in hypo and hyperthyroidism Unit 2 (Dr. Vishvanayak)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.2 Elicit document and present an obstetric history including menstrual history, last menstrual period, previous obstetric history, comorbid conditions, past medical history and surgical history		19.03.24
Wednesday	IM7.4 Develop a systematic clinical approach to joint pain based on the pathophysiology	SU25.3.6 At the end of session phase 3 part 2 student must be able to Discuss what investigations should be done in patients of suspected malignant tumor of the breast	IM13.11- Order and interpret diagnostic testing based on the clinical diagnosis including CBC and stool occult blood and prostate specific antigen Unit 2 (Dr. Vishvanayak)	IM01.24: drugs treatment of heart failure (Seminar)		20.03.24
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.6 Assess and counsel a patient in a simulated environment regarding appropriate nutrition in pregnancy	IM9.11- Describe the indications and interpret the results of a bone marrow aspirations and biopsy	IM13.12- Describe the indications and interpret the results of Chest X Ray, mammogram, skin and tissue biopsies and tumor markers used in common cancers Unit 2 (Dr. Vishvanayak)	SU27.8.4 At the end of session , phase 3 part 2 schedule must be able to demonstrate the examination of lymphatic disorder	OR 2.4 Describe and discuss the mechanism of injury, clinical features, Investigation and principles of management of fracture of shaft humerus and intercondylar fracture humerus with emphasis on neurovascular deficit; OR 2.3 Select, prescribe and communicate appropriate medications for relief of joint pain	21.03.24
Friday	PE29.3 Discuss the etiopathogenesis, clinical features and management of VIT B12, Folate deficiency anaemia	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.7 Enumerate the indications in pregnancy for and types of vaccination	IM9.13- Describe and assess pain and suffering objectively in a patient with cancer Unit 2 (Dr. Vishvanayak)	SU27.8.5 At the end of session , phase 3 part 2 schedule must be able to demonstrate the examination of different groups of lymph nodes.		22.03.24
Saturday	AETCOM Session: Module 4.3: Case studies in medico-legal and ethical situations	SU25.4 Counsel the patient and obtain informed consent for treatment of malignant conditions of the breast.	IM13.14- Describe the indications for surgery, radiation and chemotherapy for malignancies Unit 2 (Dr. Vishvanayak)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.8 Enumerate the indications and describe the investigations including the use of ultrasound in the initial assessment and monitoring in pregnancy	Integration: IM11.8 Perform a systematic examination that establishes the diagnosis and severity that includes skin, peripheral pulses, blood pressure measurement, fundus examination, detailed examination of the foot (pulses, nervous and deformities and injuries); PH1.36 Describe the mechanism of action, types, doses, side effects, indications and contraindications of drugs used in endocrine disorders (diabetes mellitus)	23.03.24
Holi Vacations 25.03.24-30.03.24						

Monday	SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 9.1 Classify, define and discusses the aetiology and management of abortions including threatened, incomplete, inevitable, missed and septic	IM13.15- Describe the need, tests involved, their utility in the prevention of common malignancies Unit 2 (Dr. Vishvanayak)
Tuesday	OR 2.5 Describe and discuss the aetiopathogenesis, clinical features, mechanism of injury Investigation and principles of management of fracture of both bone forearm and Galeazzi and Monteggia injury	IM 3.17- Describe and discuss the supportive therapy in patients with pneumonia including oxygen use and indications for ventilation	IM13.16- Demonstrate an understanding and needs and preferences of patients when choosing curative and palliative therapy Unit 2 (Dr. Vishvanayak)
Wednesday	IM7.4 Develop a systematic clinical approach to joint pain based on the pathophysiology	SU25.4.1 At the end of session phase 3 part 2 student must be able to Discuss the prognosis after modern surgical treatment of carcinoma of the breast.	IM13.17- Describe and enumerate the indications, use, side effects of narcotics in pain alleviation in patients with cancer Unit 2 (Dr. Vishvanayak)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 9.1 Classify, define and discusses the aetiology and management of abortions including threatened, incomplete, inevitable, missed and septic	IM9.12- Describe, develop a diagnostic plan to determine the aetiology of anaemia	IM13.18- Describe and discuss the ethical and the medico legal issues involved in end of life care - Unit 3 (Dr. K Gopal)
Friday	PE29.4 Discuss the etiopathogenesis, clinical features and management of Hemolytic anemia, Thalassemia Major, Sickle cell anaemia, Hereditary spherocytosis, Auto-immune hemolytic anaemia and hemolytic uremic syndrome	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 9.2 Describe the steps and observe/ assist in the performance of an MTP evacuation; O.G.9.3 Discuss the aetiology, clinical features, differential diagnosis of acute abdomen in early pregnancy (with a focus on ectopic pregnancy) and enumerate the principles of medical and surgical management	IM13.19- Describe the therapies used in alleviating suffering in patients at the end of life - Unit 3 (Dr. K Gopal); IM14.6- Elicit and document and present an appropriate history that includes the natural history, dietary history, modifiable risk factors, family history, clues for secondary causes and motivation to lose weight - Unit 3 (Dr. K Gopal)
Saturday	AETCOM Session: Module 4.3: Case studies in medico-legal and ethical situations	SU25.4 Counsel the patient and obtain informed consent for treatment of malignant conditions of the breast.	IM13.19- Describe the therapies used in alleviating suffering in patients at the end of life - Unit 3 (Dr. K Gopal); IM14.6- Elicit and document and present an appropriate history that includes the natural history, dietary history, modifiable risk factors, family history, clues for secondary causes and motivation to lose weight - Unit 3 (Dr. K Gopal)
Monday	SU25.2.1 At the end of session phase 3 part 2 student must be able to Discuss the etio-pathogenesis of benign breast diseases; SU25.4.3 At the end of session phase 3 part 2 student must be able to Obtain an informed consent from this patient for surgical treatment of her disease.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.9.3 Discuss the aetiology, clinical features, differential diagnosis of acute abdomen in early pregnancy (with a focus on ectopic pregnancy) and enumerate the principles of medical and surgical management	IM 14.7- Perform, document and demonstrate a physical examination based on the history that includes general examination, measurement of abdominal obesity, signs of secondary causes and co-morbidities - Unit 3 (Dr. K Gopal)

IM08.5: Clinical approach to recognise Secondary Hypertension (Tutorial)	PE21.14 Recognize common surgical conditions of the abdomen and genitourinary system and enumerate the indications for referral including acute and subacute intestinal obstruction, appendicitis, pancreatitis, perforation intussusception, Phimos, undescended testis, Chordee, hypospadias, Torsion testis, hernia Hydrocele, Vulval Synechia	01.04.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 9.2 Describe the steps and observe/ assist in the performance of an MTP evacuation		02.04.24
IM3.3: Community Acquired Pneumonia (Seminar); IM4.7: Sepsis (Seminar)		03.04.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU25.4.1 At the end of session phase 3 part 2 student must be able to Discuss the prognosis after modern surgical treatment of carcinoma of the breast.	OR 2.6 Describe and discuss Etiopathogenesis, mechanism of injury, clinical feature, investigation and principles of management of fracture of distal radius	04.04.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU25.4.1 At the end of session phase 3 part 2 student must be able to Discuss the prognosis after modern surgical treatment of carcinoma of the breast; SU25.4.2 At the end of session phase 3 part 2 student must be able to Counsel a patient of Ca. breast about her disease and convince her that surgical treatment of her disease will give her the best chances of survival.		05.04.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.8 Enumerate the indications and describe the investigations including the use of ultrasound in the initial assessment and monitoring in pregnancy	Integration: IM11.8 Perform a systematic examination that establishes the diagnosis and severity that includes skin, peripheral pulses, blood pressure measurement, fundus examination, detailed examination of the foot (pulses, nervous and deformities and injuries); PH1.36 Describe the mechanism of action, types, doses, side effects, indications and contraindications of drugs used in endocrine disorders (diabetes mellitus)	06.04.24
IM9.7: How to interpret A Hemogram (Tutorial)	PE23.7 Elicit appropriate history for a cardiac disease, analyse the symptoms e.g. breathlessness, chest pain, tachycardia, feeding difficulty, failing to thrive, reduced urinary output, swelling, syncope, cyanotic spells, Suck rest cycle, frontal swelling in infants. Document and present PE23.8 Identify external markers of a cardiac disease e.g. Cyanosis, Clubbing, dependent edema, dental caries, arthritis, erythema rash, chorea, subcutaneous nodules, Osler node, Janeway lesions and document	08.04.24

Week 7

Tuesday	OR 2.7 Describe and discuss the Etiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of pelvic injury with emphasis on hemodynamic instability	IM 3.19- Discuss, describe, enumerate the indications and communicate to patients on pneumococcal and influenza vaccines; IM7.5 Describe and discriminate acute, subacute and chronic causes of joint pain	IM 14.8- Generate a differential diagnosis based on the presenting symptoms and clinical features and prioritise based on the most likely diagnosis - Unit 3 (Dr. K Gopal); IM 14.9- Order and interpret diagnostic tests based on the clinical diagnosis
Wednesday	Holiday		
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 9.4 Discuss the clinical features, laboratory investigations, ultrasonography, differential diagnosis, principles of management and follow up of gestational Trophoblastic neoplasms	IM9.14- Describe the national programs for anaemia prevention	IM14.10- Describe the indications and interpret the results of tests for secondary causes of obesity - Unit 3 (Dr. K Gopal)
Friday	PE29.6 Discuss the cause of thrombocytopenia in children: describe the clinical features and management of Idiopathic Thrombocytopenic Purpura (ITP)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 9.4 Discuss the clinical features, laboratory investigations, ultrasonography, differential diagnosis, principles of management and follow up of gestational Trophoblastic neoplasms	IM14.11- Communicate and counsel patient on behavioural, dietary and lifestyle modifications - Unit 3 (Dr. K Gopal)
Saturday	AETCOM Session: Module 4.7: Case studies in ethics and patient autonomy	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU25.4.3 At the end of session phase 3 part 2 student must be able to Obtain an informed consent from this patient for surgical treatment of her disease.	IM14.12- Demonstrate an understanding of patient's inability to adhere to lifestyle instructions and counsel them in a non-judgemental way - Unit 3 (Dr. K Gopal)

First Terminal Exam 01.04.2024 to 13.04.2024

Week 8

Monday	SU25.2.2 At the end of session phase 3 part 2 student must be able to Describe the symptoms and signs of benign breast disease; SU25.2.2 At the end of session phase 3 part 2 student must be able to Describe the symptoms and signs of benign breast disease	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 9.4 Discuss the clinical features, laboratory investigations, ultrasonography, differential diagnosis, principles of management and follow up of gestational Trophoblastic neoplasms	IM17.2- Elicit and document and present an appropriate history including aura, precipitating aggravating and relieving factors, associated symptoms that help identify the cause of headaches - Unit 3 (Dr. K Gopal)
Tuesday	OR 2.9 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of acetabular fracture	IM10.1 - Define, describe and differentiate between acute and chronic renal failure; IM7.5 Describe and discriminate acute, subacute and chronic causes of joint pain	IM17.3- Classify migraine and describe the distinguishing features between classical and non classical forms of migraine - Unit 3 (Dr. K Gopal); IM17.4- Perform and demonstrate a general neurologic examination and a focused examination for signs of intracranial tension including neck signs of
Wednesday	Holiday		
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 9.5Describe the etiopathology, impact on maternal and fetal health and principles of management of hyperemesis gravidarum	IM9.17 - Describe the indications for blood transfusion and the appropriate use of blood components	IM17.5- Generate document and present a differential diagnosis based on the clinical features and prioritise the diagnosis based on the presentation - Unit 3 (Dr. K Gopal)

Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.9.3 Discuss the aetiology, clinical features, differential diagnosis of acute abdomen in early pregnancy (with a focus on ectopic pregnancy) and enumerate the principles of medical and surgical management		09.04.24
Holiday		
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU25.4.2 At the end of session phase 3 part 2 student must be able to Counsel a patient of Ca. breast about her disease and convince her that surgical treatment of her disease will give her the best chances of survival	OR 2.8 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, Investigations and principles of management of spine injuries with emphasis on mobilization of the patient.	10.04.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU25.4.3 At the end of session phase 3 part 2 student must be able to Obtain an informed consent from this patient for surgical treatment of her disease.		11.04.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 9.4 Discuss the clinical features, laboratory investigations, ultrasonography, differential diagnosis, principles of management and follow up of gestational Trophoblastic neoplasms	Integration: PM8.4Describe metabolic co-morbidities diabetes mellitus following TBI; CT1.3Discuss and describe the impact of co-infection with HIV and other co-morbid conditions. Like diabetes on the natural history of tuberculosis	12.04.24
		13.04.24
IM19.12: How to investigate a Case of Anaemia (Tutorial)	PE23.11 Develop a treatment plan and prescribe appropriate drugs including fluids in cardiac diseases, anti-failure drugs, and inotropic agents	15.04.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 9.5Describe the etiopathology, impact on maternal and fetal health and principles of management of hyperemesis gravidarum		16.04.24
Holiday		
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU25.2.2 At the end of session phase 3 part 2 student must be able to Describe the symptoms and signs of benign breast disease	OR 2.10 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of proximal femur	17.04.24
		18.04.24

Friday	PE29.7 Discuss the etiology, classification, pathogenesis and clinical features of Hemophilia in children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 9.5 Describe the etiopathology, impact on maternal and fetal health and principles of management of hyperemesis gravidarum	IM17.7- Enumerate the indications and describe the findings in the CSF in patients with meningitis - Unit 3 (Dr. K Gopal)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU25.2.2 At the end of session phase 3 part 2 student must be able to Describe the symptoms and signs of benign breast disease		19.04.24
Saturday	AETCOM Session: Module 4.9: Medical Negligence	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU25.2.2 At the end of session phase 3 part 2 student must be able to Describe the symptoms and signs of benign breast disease	IM17.8- Demonstrate in a mannequin or equivalent the correct technique for performing a lumbar puncture - Unit 3 (Dr. K Gopal)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 10.1 Define, classify and describe the aetiology, pathogenesis, clinical features, ultrasonography, differential diagnosis and management of antepartum haemorrhage in pregnancy	Integration: PE33.4 Discuss the etiopathogenesis, clinical types, presentations, complication and management of Diabetes mellitus in children; PE33.5 Interpret Blood sugar reports and explain the diagnostic criteria for Type 1 Diabetes	20.04.24
Monday	SU25.2.3 At the end of session phase 3 part 2 student must be able to Discuss the principles of management of benign breast diseases.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 10.1 Define, classify and describe the aetiology, pathogenesis, clinical features, ultrasonography, differential diagnosis and management of antepartum haemorrhage in pregnancy	IM17.14- Counsel patients with migraine and tension headache on lifestyle changes and need for prophylactic therapy - Unit 4 (Dr. J Haria)	IM10.3: Etiology of AKI (Tutorial)	PE23.12 Interpret a chest X ray and recognize Cardiomegaly PE23.13 Choose and Interpret blood reports in Cardiac illness	22.04.24
Tuesday	OR2.11 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of (a) Fracture patella (b) Fracture distal femur (C) Fracture proximal tibia with special focus on neurovascular injury and compartment syndrome	IM10.2 - Classify, describe and differentiate the pathophysiologic causes of acute renal failure.	IM18.3- Elicit and document and present an appropriate history including onset, progression, precipitating and aggravating relieving factors, associated symptoms that help identify the cause of the cerebrovascular accident - Unit 4 (Dr. J Haria)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 10.1 Define, classify and describe the aetiology, pathogenesis, clinical features, ultrasonography, differential diagnosis and management of antepartum haemorrhage in pregnancy		23.04.24
Wednesday	IM7.5 Describe and discriminate acute, subacute and chronic causes of joint pain	SU27.1 Describe the etiopathogenesis, clinical features, investigations and principles of treatment of occlusive arterial disease.	IM18.4- Identify the nature of the cerebrovascular accident based on the temporal evolution and resolution of the illness - Unit 4 (Dr. J Haria)	IM05.6: Acute Viral Hepatitis (Seminar); IM04.8: FUO - Immunocompetent patient; FUO - immunocompromised patient (Seminar)		24.04.24
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 10.2 Enumerate the indications and describe the appropriate use of blood and blood products, their complications and management.	IM9.18- Describe the precautions required necessary when performing a blood transfusion	IM18.5- Perform, demonstrate & document physical examination that includes general and a detailed neurologic examination as appropriate, based on the history - Unit 4 (Dr. J Haria)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.1 Describe the etiopathogenesis, clinical features, investigations and principles of treatment of occlusive arterial disease.	OR 2.12 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of Fracture shaft of femur in all age groups and the recognition and management of fat embolism as a complication	25.04.24
Friday	PE29.8 Discuss the etiology, clinical presentation and management of Acute Lymphoblastic Leukemia in children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 10.2 Enumerate the indications and describe the appropriate use of blood and blood products, their complications and management.	IM18.6- Distinguish the lesion based on upper vs lower motor neuron, side, site and most probable nature of the lesion - Unit 4 (Dr. J Haria)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.1 Describe the etiopathogenesis, clinical features, investigations and principles of treatment of occlusive arterial disease.		26.04.24
Saturday	AETCOM Session: Module 4.1: The foundations of communication - 5	SU27.1.1 At the end of session, phase 3 part 2 schedule must be able to discuss clinical features of occlusive arterial disease correctly.	IM18.7- Describe the clinical features and distinguish, based on clinical examination, the various disorders of speech- Unit 4 (Dr. J Haria)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 10.2 Enumerate the indications and describe the appropriate use of blood and blood products, their complications and management.	Integration: PH1.55 Describe and discuss the following National Health programmes including Tuberculosis; PE 34.3 Discuss the various regimens for management of Tuberculosis as per National Guidelines	27.04.24

Monday	SU25.2.4 At the end of session phase 3 part 2 student must be able to Discuss the etio-pathogenesis of breast infections.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 11.1.Describe the etiopathology, clinical features; diagnosis and investigations, complications, principles of management of multiple pregnancies	IM18.8- Describe and distinguish, based on the clinical presentation, thetypes of bladder dysfunction seen in CNS disease - Unit 4 (Dr. J Haria)
Tuesday	OR 2.13 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of: (a) Fracture both bones leg (b) Calcaneus (c) Small bones of foot	IM10.3- Describe the pathophysiology and causes of pre renal ARF,renal and post renal ARF	IM18.9- Choose and interpret the appropriate diagnostic and imaging testthat will delineate the anatomy and underlying cause of the lesion - Unit 4 (Dr. J Haria)
Wednesday	IM7.6 Discriminate, describe and discuss arthralgia from arthritis and mechanical from inflammatory causes of joint pain	SU27.1.2 At the end of session, phase 3 part 2 schedule must be able to discuss investigation of occlusive arterial disease	IM18.17- Counsel patient and family about the diagnosis and therapy in anempathetic manner - Unit 4 (Dr. J Haria)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 12.1 Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia.	IM9.21- Determine the need for specialist consultation	IM19.3- Elicit and document and present an appropriate history including onset, progression precipitating and aggravating relieving factors, associated symptoms that help identify the cause of the movement disorders - Unit 4 (Dr. J Haria)
Friday	PE21.1 Enumerate the etio-pathogenesis, clinical features, complications and management of Urinary Tract infection in children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 12.1 Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia.	IM19.4- Perform, demonstrate and document a physical examination that includes a general examination and a detailed neurologic examination using standard movement rating scales - Unit 4 (Dr. J Haria)
Saturday	AETCOM Session: Module 4.3: Case studies in medico-legal and ethical situations	SU27.1.3 At the end of session, phase 3 part 2 schedule must be able to describe the line of treatment of occlusive arterial disease.	IM19.5- Generate document and present a differential diagnosis and prioritise based on the history and physical examination - Unit 4 (Dr. J Haria)
Monday	SU26.1 Outline the role of surgery in the management of coronary heart disease, valvular heart diseases and congenital heart diseases.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 12.2 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of anemia in pregnancy	IM19.6- Make a clinical diagnosis regarding on the anatomical location, nature and cause of the lesion based on the clinical presentation and findings - Unit 5 (Dr. A Kumar)
Tuesday	OR 2.15 Plan and interpret the investigations to diagnose complications of fractures like malunion, non-union, infection, compartmental syndrome	IM10.4- Describe the evolution, natural history and treatment of ARF	IM19.7- Choose and interpret diagnostic and imaging tests in the diagnosis of movement disorders - Unit 5 (Dr. A Kumar)
Wednesday	IM7.6 Discriminate, describe and discuss arthralgia from arthritis and mechanical from inflammatory causes of joint pain	SU27.1.4 At the end of session, phase 3 part 2 schedule must be able to describe the etiopathogenesis of occlusive arterial disease accurately	M26.1- Enumerate and describe professional qualities and roles of a physician - Unit 5 (Dr. A Kumar)

IM10.7: Approach to a patient with deranged renal function (Tutorial)	PE23.14 Interpret Pediatric ECG		29.04.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 11.1.Describe the etiopathology, clinical features; diagnosis and investigations, complications, principles of management of multiple pregnancies			30.04.24
IM05.4: Complications of Portal Hypertension (Seminar)			01.05.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.1.2 At the end of session, phase 3 part 2 schedule must be able to discuss investigation of occlusive arterial disease	OR2.14 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of ankle fractures		02.05.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.1.2 At the end of session, phase 3 part 2 schedule must be able to discuss investigation of occlusive arterial disease			03.05.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 12.1 Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia.	Integration: PE 34.3 Discuss the preventive strategies adopted and the objectives and outcome of the National Tuberculosis Control Program; CT1.1 Describe and discuss the epidemiology of tuberculosis and its impact on the work, life and economy of India		04.05.24
IM10.8: Approach to a Patient of Proteinuria (Tutorial)	PE30.20 Interpret and explain the findings in a CSF analysis		06.05.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 12.2 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of anemia in pregnancy			07.05.24
IM05.12: Approach to a patient with liver Dysfunction (Seminar)			08.05.24

Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 12.3 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of diabetes in pregnancy	IM13.1- Describe the clinical epidemiology and inherited & modifiable risk factors for common malignancies in India	M26.2- Describe and discuss the commitment to lifelong learning as an important part of physician growth - Unit 5 (Dr. A Kumar)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.1.4 At the end of session, phase 3 part 2 schedule must be able to describe the etiopathogenesis of occlusive arterial disease accurately	OR 2.16 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of open fractures with focus on secondary infection, prevention and management	09.05.24
Friday	PE21.2 Enumerate the etiopathogenesis, clinical features, complications and management of acute post-streptococcal Glomerular Nephritis in children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 12.3 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of diabetes in pregnancy	M26.3- Describe and discuss the role of non maleficence as a guiding principle in patient care - Unit 5 (Dr. A Kumar)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.1.4 At the end of session, phase 3 part 2 schedule must be able to describe the etiopathogenesis of occlusive arterial disease accurately		10.05.24
Saturday	AETCOM Session: Module 4.5: Case studies in ethics: the doctor-industry relationship	SU27.1.5 At the end of session, phase 3 part 2 schedule must be able to discuss complication of occlusive arterial disease.	M26.4- Describe and discuss the role of autonomy and shared responsibility as a guiding principle in patient care - Unit 5 (Dr. A Kumar)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 12.3 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of diabetes in pregnancy	Integration: CT1.15 Prescribe an appropriate antituberculosis regimen based on the location of disease, smear positivity and negativity and comorbidities based on current national guidelines including directly observed tuberculosis therapy (DOTS); CT1.18: Educate health care workers on national programs of Tuberculosis and administering and monitoring the DOTS program	11.05.24
Monday	SU26.1.1 At the end of session phase 3 part 2 student must be able to Discuss the role of surgery in Coronary heart disease.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 12.4 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of heart diseases in pregnancy	M26.5- Describe and discuss the role of beneficence of a guiding principle in patient care - Unit 5 (Dr. A Kumar)	IM11.9: Approach to a patient ofDKA/Hyperosmolar Coma (Tutorial)	PE30.22 Interpret the reports of EEG, CT, MRI	13.05.24
Tuesday	OR 3.1 Describe and discuss the aetiopathogenesis, clinical features, Investigations and principles of management of Bone and Joint infections a) Acute Osteomyelitis b) Subacute osteomyelitis c) Acute Suppurative arthritis d) Septic arthritis & HIV infection e) Spirochaetal infection f) Skeletal Tuberculosis	IM10.5- Describe and discuss the aetiology of CRF	M26.6- Describe and discuss the role of a physician in health care system - Unit 5 (Dr. A Kumar)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 12.4 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of heart diseases in pregnancy		14.05.24
Wednesday	IM7.7 Discriminate, describe and discuss distinguishing articular from periarticular complaints	SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease.	M26.7- Describe and discuss the role of justice as a guiding principle in patient care - Unit 5 (Dr. A Kumar)	IM06.18: Chemoprophylaxis in HIV (Seminar)		15.05.24

Week 12

Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.12.5 Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management of urinary tract infections in pregnancy	IM13.2- Describe the genetic basis of selected cancers	M26.8- Identify discuss medicolegal, socioeconomic and ethical issues as it pertains to organ donation - Unit 5 (Dr. A Kumar)
Friday	PE21.3 Discuss the approach and referral criteria to a child with Proteinuria PE21.4 Discuss the approach and referral criteria to a child with Hematuria	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.12.5 Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management of urinary tract infections in pregnancy	M26.9- Identify, discuss and defend medicolegal, sociocultural, economic and ethical issues as it pertains to rights, equity and justice in access to health care- Unit 5 (Dr. A Kumar)
Saturday	AETCOM Session: Module 4.7: Case studies in ethics and patient autonomy	SU27.2.1 At the end of session, phase 3 part 2 schedule must be able to enumerate different vascular disorders.	M26.10- Identify, discuss and defend medicolegal, socio-cultural and ethical issues as it pertains to confidentiality in patient care - Unit 5 (Dr. A Kumar)
Monday	SU26.1.2 At the end of session phase 3 part 2 student must be able to Discuss the role of surgery in Valvular heart disease	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 12.7 Describe and discuss screening, risk factors, management of mother and newborn with HIV	Clinical Posting (P):Unit I(Dr. N.K. Singh) - SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling
Tuesday	OR 3.3 Participate as a member in team for procedures like drainage of abscess, sequestrectomy/ saucerisation and arthroscopy	IM10.6- Stage chronic kidney disease	Clinical Posting (P): Unit II(Dr.Vipin Agarwal SU28.18 Describe and demonstrate clinical examination of abdomen. Order relevant investigations
Wednesday	IM7.8 Determine the potential causes of joint pain based on the presenting features of joint involvement	SU27.2.3 At the end of session, phase 3 part 2 schedule must be able to describe clinical features of venous diseases.	Clinical Posting (P): Unit III(Dr. R K Kaul)-SU25.2 Describe the etiopathogenesis, clinical features and principles of management of
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 13.1 Enumerate and discuss the physiology of normal labor, mechanism of labor in occipito-anterior presentation; monitoring of labor including partogram; conduct of labor, pain relief; principles of induction and acceleration of labor; management of third stage of labor.	IM13.3- Describe the relationship between infection and cancers	Clinical Posting (P): Unit IV(Dr. A K Singh)-SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast.
Friday	PE21.5 Enumerate the etiopathogenesis, clinical features, complications and management of Acute Renal Failure in children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.13.2 Define, describe the causes, pathophysiology, diagnosis, investigations and management of preterm labor, PROM and postdated pregnancy	Clinical Posting (P): Unit V(Dr.C K JHAKMOLA)-SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent

Week 13

Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease.	OR 3.2 Participate as a member in team for aspiration of joints under supervision	16.05.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease.		17.05.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 12.6 Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management of liver disease in pregnancy	Integration: PA26.4 Define and describe the etiology, types, pathogenesis, stages, morphology microscopic appearance and complications of tuberculosis; C.T.1.3 Discuss and describe the impact of co-infection with HIV and other co-morbid conditions. Like diabetes on the natural history of tuberculosis	18.05.24
IM11.14: Approach to a patient with Hypoglycemia (Tutorial)	PE30.23 Perform in a mannequin lumbar puncture. Discuss the indications, contraindication of the procedure	20.05.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 12.8 Describe the mechanism, prophylaxis, fetal complications, diagnosis and management of isoimmunization in pregnancy		21.05.24
IM7.5: Approach to a patient of Arthritis (Seminar)		22.05.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.2.3 At the end of session, phase 3 part 2 schedule must be able to describe clinical features of venous diseases.	OR 4.1 Describe and discuss the clinical features, Investigation and principles of management of Tuberculosis affecting major joints (Hip, Knee) including cold abscess and caries spine	23.05.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.2.3 At the end of session, phase 3 part 2 schedule must be able to describe clinical features of venous diseases.		24.05.24

Saturday	AETCOM Session: Module 4.1: The foundations of communication - 5	SU27.2.4 At the end of session, phase 3 part 2 schedule must be able to describe the various investigation of vascular disorder.	Clinical Posting (P):Unit in Rotation - SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.13.4 Demonstrate the stages of normal labor in a simulated environment	Integration: C.T.1.17: Define criteria for the cure of Tuberculosis; describe and recognise the features of drug resistant tuberculosis, prevention and therapeutic regimens; PH.1.44. Describe the first line antitubercular drugs, their mechanisms of action, side effects and doses.	25.05.24
Monday	SU26.1.3 At the end of session phase 3 part 2 student must be able to Discuss the role of surgery in Congenital heart disease.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.13.4 Demonstrate the stages of normal labor in a simulated environment	Clinical Posting (P):Unit I(Dr. N.K. Singh - SU27.5 Describe the applied anatomy of venous system of lower limb	IM11.17: Drug therapy of Diabetes (Tutorial)	PE20.3 Perform Neonatal resuscitation in a manikin	27.05.24
Tuesday	OR 5.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of various inflammatory disorder of joints	IM10.7- Describe and discuss the pathophysiology and clinical findings of uraemia.	Clinical Posting (P)Unit II(Dr. Vipin Agarwal SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.13.3 Observe/ assist in the performance of an artificial rupture of membranes		28.05.24
Wednesday	IM7.8 Determine the potential causes of joint pain based on the presenting features of joint involvement	SU27.2.5 At the end of session, phase 3 part 2 schedule must be able to discuss various arterial and venous diseases.	Clinical Posting (P):Unit III(Dr. R K Kaul) SU28.1 Describe pathophysiology, clinical features, Investigations and principles of	IM7.15: Autoantibodies in diagnosis tests (Seminar)		29.05.24
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.14.1 Enumerate and discuss the diameters of maternal pelvis and types	IM13.4- Describe the natural history, presentation, course, complications and cause of death for common cancers	Clinical Posting (P):Unit IV (Dr. A K Singh)SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU26.1.3 At the end of session phase 3 part 2 student must be able to Discuss the role of surgery in Congenital heart disease.	OR 6.1 Describe and discuss the clinical features, investigations and principles of management of degenerative condition of spine (Cervical Spondylosis, Lumbar Spondylosis, PID)	30.05.24
Friday	PE21.6 Enumerate the etio-pathogenesis, clinical features, complications and management of Chronic Renal Failure in Children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.14.2 Discuss the mechanism of normal labor, Define and describe obstructed labor, its clinical features; prevention; and management	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU28.9 Demonstrate the correct technique of examination of a patient with disorders of the stomach	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU26.1.3 At the end of session phase 3 part 2 student must be able to Discuss the role of surgery in Congenital heart disease.		31.05.24
Saturday	AETCOM Session: Module 4.3: Case studies in medico-legal and ethical situations	SU27.3 Describe clinical features, investigations and principles of management of vasospastic disorders.	Clinical Posting (P)Unit in Rotation SU28.11 Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post-splenectomy sepsis - prophylaxis	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 14.3 Describe and discuss rupture uterus, causes, diagnosis and management	Integration: PH1.45 Describe the drugs used in MDR and XDR Tuberculosis; PE34.1 Discuss the epidemiology, clinical features, clinical types, complications of Tuberculosis in Children and Adolescents	01.06.24
Monday	SU26.3 Describe the clinical features of mediastinal diseases and the principles of management.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.14.4 Describe and discuss the classification; diagnosis; management of abnormal labor	Clinical Posting (P):Unit I(Dr. N.K. Singh) - SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling	IM14.13: Management of Obesity (Tutorial)	PE20.4 Assessment of a normal neonate	03.06.24
Tuesday	OR 7.1 Describe and discuss the aetiopathogenesis, clinical features, investigation and principles of management of metabolic bone disorders in particular osteoporosis, osteomalacia, rickets, Paget's disease	IM10.8- Classify, describe and discuss the significance of proteinuria in CKD	Clinical Posting (P): Unit II(Dr. Vipin Agarwal SU28.18 Describe and demonstrate clinical examination of abdomen. Order relevant investigations	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 15.1 Enumerate and describe the indications and steps of common obstetric procedures, technique and complications: Episiotomy, vacuum extraction; low forceps; Caesarean section, assisted breech delivery; external cephalic version; cervical cerclage		04.06.24
Wednesday	IM7.9 Describe the common signs and symptoms of articular and periarticular diseases	SU27.3.1 At the end of session, phase 3 part 2 schedule must be able to enumerate different vasospastic disorders	Clinical Posting (P): Unit III(Dr. R K Kaul)-SU25.2 Describe the etio-pathogenesis, clinical features	IM08.1: Primary hypertension/ Secondary hypertension (Seminar)		05.06.24

Week 15

Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 15.1 Enumerate and describe the indications and steps of common obstetric procedures, technique and complications: Episiotomy, vacuum extraction; low forceps; Caesarean section, assisted breech delivery; external cephalic version; cervical cerclage	IM13.5- Describe the common issues encountered in patients at the end of life and principles of managements	Clinical Posting (P): Unit IV(Dr. A K Singh)-SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast.
Friday	PE21.7 Enumerate the etiopathogenesis, clinical features, complications and management of Wilms Tumor	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 15.1 Enumerate and describe the indications and steps of common obstetric procedures, technique and complications: Episiotomy, vacuum extraction; low forceps; Caesarean section, assisted breech delivery; external cephalic version; cervical cerclage	Clinical Posting (P): Unit V(Dr.C K JHAKMOLA)-SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent
Saturday	AETCOM Session: Module 4.5: Case studies in ethics: the doctor-industry relationship	SU27.3.2 At the end of session , phase 3 part 2 schedule must be able to discuss the clinical features of vasospastic disorders.	Clinical Posting (P):Unit in Rotation -SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease
Monday	SU26.3.1 At the end of session phase 3 part 2 student must be able to Discuss the clinical features of mediastinal diseases	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 16.1 Enumerate and discuss causes, prevention, diagnosis, management, appropriate use of blood and blood products in postpartumhaemorrhage	Clinical Posting (P):Unit I(Dr. N.K. Singh - SU27.5 Describe the applied anatomy of venous system of lower limb
Tuesday	OR 9.1 Describe and discuss the aetiopathogenesis, clinical features, assessment and principles of management of Cerebral palsy patient	IM10.10- Describe and discuss the association between CKD, glycemia and hypertension.	Clinical Posting (P)Unit II(Dr. Vipin Agarwal SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins
Wednesday	IM7.10 Describe the systemic manifestations of rheumatologic disease	SU27.3.3 At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of vasospastic disorders	Clinical Posting (P):Unit III(Dr. R K Kaul) SU28.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 16.2 Describe and discuss uterine inversion – causes, prevention, diagnosis and management.	IM13.5- Describe the common issues encountered in patients at the end of life and principles of managements	Clinical Posting (P)::Unit IV (Dr. A K Singh)SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.

Week 16

Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU26.3 Describe the clinical features of mediastinal diseases and the principles of management.	OR 8.1 Describe and discuss the aetiopathogenesis, clinical features, assessment and principles of management a patient with Post Polio Residual Paralysis	06.06.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU26.3 Describe the clinical features of mediastinal diseases and the principles of management.		07.06.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 15.1 Enumerate and describe the indications and steps of common obstetric procedures, technique and complications: Episiotomy, vacuum extraction; low forceps; Caesarean section, assisted breech delivery; external cephalic version; cervical cerclage	Integration: PE 34.2 Discuss the various diagnostic tools for childhood tuberculosis; PE 34.3 Discuss the various regimens for management of Tuberculosis as per National Guidelines	08.06.24
IM15.10: Interventions in Upper GI bleed (Tutorial)	PE20.6 Explain the follow up care for neonates including Breast Feeding, Temperature maintenance, immunization, importance of growth monitoring and red flags	10.06.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 16.1 Enumerate and discuss causes, prevention, diagnosis, management, appropriate use of blood and blood products in postpartumhaemorrhage		11.06.24
IM08.6: Emergencies in Hypertension (Seminar)		12.06.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.3.3 At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of vasospastic disorders	OR10.1 Describe and discuss the etiopathogenesis, clinical features, investigations and principles of management of benign and malignant bone tumours and pathological fractures.	13.06.24

Friday	PE23.1 Discuss the Hemodynamic changes, clinical presentation, complications and management of Acyanotic Heart Diseases –VSD, ASD and PDA; PE7.5 Observe the correct technique of breast feeding and distinguish right from wrong techniques	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 16.3 Describe and discuss causes, clinical features, diagnosis, investigations; monitoring of fetal well-being, including ultrasound and fetal Doppler; principles of management; prevention and counselling in intrauterine growth retardation	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU28.9 Demonstrate the correct technique of examination of a patient with disorders of the stomach	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2) : SU27.3.3 At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of vasospastic disorders		14.06.24
Saturday	AETCOM Session: Module 4.7: Case studies in ethics and patient autonomy	SU27.3.4 At the end of session , phase 3 part 2 schedule must be able to discuss the line of management of vasospastic disorders; SU26.3.2 At the end of session phase 3 part 2 student must be able to Discuss the principles of management of mediastinal diseases	Clinical Posting (P)Unit in Rotation SU28.11 Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post-splenectomy sepsis - prophylaxis; Clinical Posting (P):Unit I(Dr. N.K. Singh) - SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 16.3 Describe and discuss causes, clinical features, diagnosis, investigations; monitoring of fetal well-being, including ultrasound and fetal Doppler; principles of management; prevention and counselling in intrauterine growth retardation	Integration: PE 34.4 Discuss the preventive strategies adopted and the objectives and outcome of the National Tuberculosis Control Program; PE 34.13 Enumerate the newer diagnostic tools for Tuberculosis including BACTEC CBNAAT and their indications	15.06.24
Monday	Holiday			Holiday		
Tuesday	OR11.1 Describe and discuss the etiopathogenesis, clinical features, investigations and principles of management peripheral nerve injuries in diseases like foot drop, wrist drop, claw hand, palsies of radial, ulnar, median, lateral popliteal and sciatic nerves; OR12.1 Describe and discuss the clinical features, investigations and principles of management of congenital and acquired malformations and deformities of: a. limbs and spine - scoliosis and spina bifida, b.congenital dislocation of hip, torticollis, c. congenital talipes equino varus.	IM10.11- Describe and discuss the relationship between CAD risk factors and CKD and in dialysis	Clinical Posting (P): Unit II(Dr. Vipin Agarwal SU28.18 Describe and demonstrate clinical examination of abdomen. Order relevant investigations	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 17.1 Describe and discuss the physiology of lactation; O.G. 17.2 Counsel in a simulated environment, care of the breast, importance and the technique of breast feeding; O.G. 17.3 Describe and discuss the clinical features, diagnosis and management of mastitis and breast abscess		17.06.24
Wednesday	IM11.1 Define and classify diabetes; IM13.6- Describe and distinguish the difference between curative and palliative care in patients with cancer	SU27.3.3 At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of vasospastic disorders	Clinical Posting (P): Unit III(Dr. R K Kaul)-SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including	IM16.11: Approach to a patient of Acute Diarrhoeal Disease (Tutorial); IM9.1: Approach to a case of Anaemia - Labs (Seminar)		18.06.24
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 16.2 Describe and discuss uterine inversion – causes, prevention, diagnosis and management.	IM13.5- Describe the common issues encountered in patients at the end of life and principles of managements	Clinical Posting (P):Unit IV (Dr. A K Singh)SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.3.3 At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of vasospastic disorders	OR10.1 Describe and discuss the etiopathogenesis, clinical features, investigations and principles of management of benign and malignant bone tumours and pathological fractures.	19.06.24
Friday	PE23.2 Discuss the Hemodynamic changes, clinical presentation, complications and management of Cyanotic Heart Diseases – Fallot's Physiology	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 17.3 Describe and discuss the clinical features, diagnosis and management of mastitis and breast abscess	Clinical Posting (P): Unit V(Dr.C K JHAKMOLA)-SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.4 Describe the types of gangrene and principles of amputation; SU27.3.3 At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of vasospastic disorders		20.06.24
						21.06.24

Saturday	AETCOM Session: Module 4.1: The foundations of communication - 5	SU27.4 Describe the types of gangrene and principles of amputation.	Clinical Posting (P):Unit in Rotation - SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 18.1 Describe and discuss the assessment of maturity of the newborn, diagnosis of birth asphyxia, principles of resuscitation, common problems.	Integration: PH.1.55 Describe and discuss the following National Health programmes Malaria; IM4.6 Discuss and describe the pathophysiology and manifestations of malaria	22.06.24
Monday	SU26.4 Describe the etiology, pathogenesis, clinical features of tumors of lung and the principles of management.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 18.1 Describe and discuss the assessment of maturity of the newborn, diagnosis of birth asphyxia, principles of resuscitation, common problems.	Clinical Posting (P):Unit I(Dr. N.K. Singh - SU27.5 Describe the applied anatomy of venous system of lower limb	IM16.12: Approach to a patient of Chronic Diarrhoea (Tutorial)	PE16.2 Assess children <2 months using IMNCI Guidelines	24.06.24
Tuesday	OR13.1 Participate in a team for procedures in patients and demonstrating the ability to perform on mannequins/ simulated patients in the following: i. Above elbow plaster ii. Below knee plaster iii. Above knee plaster iv. Thomas splint v. splinting for long bone fractures vi. strapping for shoulder and clavicle trauma	IM10.15- Describe the appropriate diagnostic workup based on presumed etiology.	Clinical Posting (P)Unit II(Dr. Vipin Agarwal SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 18.1 Describe and discuss the assessment of maturity of the newborn, diagnosis of birth asphyxia, principles of resuscitation, common problems.		25.06.24
Wednesday	IM11.1 Define and classify diabetes	SU27.4.1 At the end of session , phase 3 part 2 schedule must be able to enumerate the different type of gangrene.	Clinical Posting (P):Unit III(Dr. R K Kaul) SU28.1 Describe pathophysiology, clinical features.	IM9.2: Clinical approach to a case of Anaemia (Seminar)		26.06.24
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 18.2 Demonstrate the steps of neonatal resuscitation in a simulated environment	IM13.6- Describe and distinguish the difference between curative and palliative care in patients with cancer	Clinical Posting (P):Unit IV (Dr. A K Singh)SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU26.4.1 At the end of session phase 3 part 2 student must be able to Discuss the etiology of lung tumors	OR13.2 Participate as a member in team for resuscitation of polytrauma victim by doing all of the following : (a) I.V. access central - peripheral (b) bladder catheterisation (C) Endotracheal intubation (d) Splintage	27.06.24
Friday	PE23.3 Discuss the etio-pathogenesis, clinical presentation and management of cardiac failure in infant and children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 18.3 Describe and discuss the diagnosis of birth asphyxia	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU28.9 Demonstrate the correct technique of examination of a patient with disorders of the stomach	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU26.4.1 At the end of session phase 3 part 2 student must be able to Discuss the etiology of lung tumors		28.06.24
Saturday	AETCOM Session: Module 4.3: Case studies in medico-legal and ethical situations	SU27.4.2 At the end of session , phase 3 part 2 schedule must be able to discuss the pathophysiology of gangrene.	Clinical Posting (P)Unit in Rotation SU28.11 Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post-	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 18.3 Describe and discuss the diagnosis of birth asphyxia	Integration: IM4.15Perform and interpret a malarial smear; IM 4.22 Describe and discuss the pharmacology, indications, adverse reactions, interactions of antimalarial drugs and basis of resistance	29.06.24
Monday	SU26.4.1 At the end of session phase 3 part 2 student must be able to Discuss the etiology of lung tumors	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 18.4 Describe the principles of resuscitation of the newborn and enumerate the common problems encountered	Clinical Posting (P):Unit I (Dr. N.K. Singh)SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver	IM17.2: Identifying the Cause of headache (Tutorial)	PE16.3 Assess children >2 to 5 years using IMNCI guidelines and Stratify Risk	01.07.24
Tuesday	OR14.1 Demonstrate the ability to counsel patients regarding prognosis in patients with various Orthopaedics Illnesses like : (a)fractures and disabilities (b) Fractures and required prolonged bed stay (C) Bone tumours (d) Congenital disabilities	IM10.16- Enumerate the indications for and interpret the results of renal function, tests, calcium, phosphorus, PTH, urine electrolytes, osmolality, anion gap	Clinical Posting (P):Unit II (Dr. Vipin Agarwal SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 19.1 Describe and discuss the physiology of puerperium, its complications, diagnosis and management; counselling for contraception, puerperal sterilization		02.07.24

Week 19

Wednesday	IM11.2 Describe and discuss the epidemiology and pathogenesis and risk factors and clinical evolution of type 1 diabetes	SU27.4.3 At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of gangrene.	Clinical Posting (P): Unit III(Dr. R K Kaul) SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 19.1 Describe and discuss the physiology of puerperium, its complications, diagnosis and management; counselling for contraception, puerperal sterilization	IM17.1- Define and classify headache and describe the presenting features, precipitating factors, aggravating and relieving factors of various kinds of headache	Clinical Posting (P):Unit IV(Dr. A K Singh) SU22.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management
Friday	PE23.4 Discuss the etio-pathogenesis, clinical presentation and management of Acute Rheumatic Fever in children PE23.5 Discuss the clinical features, complications, diagnosis, management and prevention of Acute Rheumatic Fever	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 19.2 Counsel in a simulated environment, contraception and puerperal sterilisation	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU29.1 Describe the causes, investigations and principles of management of Hematuria
Saturday	AETCOM Session: Module 4.5: Case studies in ethics: the doctor-industry relationship	SU27.4.4 At the end of session , phase 3 part 2 schedule must be able to discuss the complication of gangrene.	Clinical Posting (P): Unit in Rotation SU29.5 Describe the clinical features,investigations and principles of management of renal calculi
Monday	SU26.4.2 At the end of session phase 3 part 2 student must be able to Discuss the pathogenesis of lung tumors.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 20.1 Enumerate the indications and describe and discuss the legal aspects, indications, methods for first and second trimester MTP; complications and management of complications of Medical Termination of Pregnancy	Clinical Posting (P):Unit I (Dr. N.K. Singh)SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver
Tuesday	OR14.3 Demonstrate the ability to convince the patient for referral to a higher center in various orthopaedic illnesses, based on the detection on the warning signals and need for sophisticated management.	IM10.17- Describe and calculate indices of renal function based on available laboratories including FENa (fraction excretion excretion of Sodium) and CrCl (creatinine clearance)	Clinical Posting (P):Unit II (Vipin Agarwal) SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system
Wednesday	IM11.3 Describe and discuss the epidemiology and pathogenesis and risk factors economic impact and clinical evolution of type 2 diabetes	SU27.4.5 At the end of session , phase 3 part 2schedule must be able to describe pregangrenous changes in gangrene.	Clinical Posting (P): Unit III(Dr. R K Kaul) SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 20.1 Enumerate the indications and describe and discuss the legal aspects, indications, methods for first and second trimester MTP; complications and management of	IM17.6- Choose and interpret diagnostic testing based on the clinical diagnosis including imaging	Clinical Posting (P):Unit IV(Dr. A K Singh) SU22.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management

Week 20

IM9.17: Blood Component Therapy (Seminar)			03.07.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.4.3 At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of gangrene.	OR14.2 Demonstrate the ability to counsel patients to obtained consent for various orthopaedic procedures like limb amputation, permanent fixations etc.		04.07.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.4.3 At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of gangrene.			05.07.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 19.4 Enumerate the indications for, describe the steps in and insert and remove an intrauterine device in a simulated environment	Integration: IM4.23 Prescribe drugs for malaria based on the species identified, prevalence of drug resistance and national programs; PA10.1 Define and describe the pathogenesis and pathology of malaria		06.07.24
IM17.7: Interpretation of CSF analysis (Tutorial)	PE20.19 Discuss the etiology, clinical features and management of Neonatal hyperbilirubinemia		08.07.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 20.2 In a simulated environment administer informed consent to a person wishing to undergo Medical Termination of Pregnancy			09.07.24
IM9.18: Blood Transfusion Reaction (Seminar)			10.07.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU26.4.2 At the end of session phase 3 part 2 student must be able to Discuss the pathogenesis of lung tumors.	OR.1.1 Describe and discuss the Principles of pre hospital care and casualty management of a trauma victim including principles of triage.		11.07.24

Friday	PE23.6 Discuss the etio-pathogenesis, clinical features and management of Infective endocarditis in children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 20.1 Enumerate the indications and describe and discuss the legal aspects, indications, methods for first and second trimester MTP; complications and management of complications of Medical Termination of Pregnancy	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU29.1 Describe the causes, investigations and principles of management of Hematuria	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU26.4.2 At the end of session phase 3 part 2 student must be able to Discuss the pathogenesis of lung tumors.		12.07.24
Saturday	AETCOM Session: Module 4.7: Case studies in ethics and patient autonomy	SU27.4.6 At the end of session , phase 3 part 2 schedule must be able to discuss the indication of amputation.	Clinical Posting (P): Unit in Rotation SU29.5 Describe the clinical features,investigations and principles of management of renal calculi	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 20.3 Discuss Pre-conception and Pre Natal Diagnostic Techniques (PC& PNNT) Act 1994 & its amendments	Integration: MI2.5 Describe the etio-pathogenesis and discuss the clinical evolution and the laboratory diagnosis of malaria; MI2.6 Identify the causative agent of malaria	13.07.24
Monday	SU26.4.3 At the end of session phase 3 part 2 student must be able to Discuss the clinical features of lung tumors	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 21.1 Describe and discuss the temporary and permanent methods of contraception, indications, technique and complications; selection of patients, side effects and failure rate including Ocs, male contraception, emergency contraception and IUCD	Clinical Posting (P):Unit I (Dr. N.K. Singh)SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver	IM17.13: Treatment of Meningitis (Tutorial)	PE27.10 Observe the various methods of administering Oxygen	15.07.24
Tuesday	OR.1.2 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of shock.	IM10.25- Identify and describe the priorities in the management of ARF including diet, volume management, alteration in doses of drugs, monitoring and indications for dialysis.	Clinical Posting (P):Unit II (Dr. Vipin Agarwal)SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.21.2Describe & discuss PPIUCD programme		16.07.24
Wednesday	IM11.4 Describe and discuss the genetic background and the influence of the environment on diabetes	SU27.4.7 At the end of session , phase 3 part 2 schedule must be able to discuss the contraindication of amputation.	Clinical Posting (P): Unit III(Dr. R K Kaul) SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis	IM10.2: Acute Kidney Injury (Seminar)		17.07.24
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 21.1 Describe and discuss the temporary and permanent methods of contraception, indications, technique and complications; selection of patients, side effects and failure rate including Ocs, male contraception, emergency contraception and IUCD	IM17.10- Enumerate the indications for emergency care admission and immediate supportive care in patients with headache	Clinical Posting (P):Unit IV(Dr. A K Singh) SU28.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU26.4.3 At the end of session phase 3 part 2 student must be able to Discuss the clinical features of lung tumors	OR. 1.3 Describe and discuss the aetiopathogenesis, Clinical features, investigations and principles of management of soft tissue injuries	18.07.24
Friday	PE22.3 Describe the diagnosis and management of common vasculitic disorders including Henoch Schonlein Purpura, Kawasaki Disease, SLE, JIA	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.21.2Describe & discuss PPIUCD programme	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU29.1 Describe the causes, investigations and principles of management of Hematuria	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU26.4.3 At the end of session phase 3 part 2 student must be able to Discuss the clinical features of lung tumors		19.07.24
Saturday	AETCOM Session: Module 4.9: Medical Negligence	SU27.4.8 At the end of session , phase 3 part 2 schedule must be able to discuss the type of amputation.	Clinical Posting (P): Unit in Rotation SU29.5 Describe the clinical features,investigations and principles of management of renal calculi	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.21.2Describe & discuss PPIUCD programme	Integration: PH1.47 Describe the mechanisms of action, types, doses, side effects, indications and contraindications of the drugs used in malaria; IM4.23 Prescribe drugs for malaria based on the species identified, prevalence of drug resistance and national programs	20.07.24

Monday	SU26.4.4 At the end of session phase 3 part 2 student must be able to Discuss the principles of management of lung tumors	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 22.1 Describe the clinical characteristics of physiological vaginal discharge.	Clinical Posting (P):Unit I(Dr. N.K. Singh) SU30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis
Tuesday	OR.1.4 Describe and discuss the Principles of Management of Soft Tissue Injuries.	IM10.26- Describe and discuss supportive therapy in CKD including diet, anti hypertensives, glycemc therapy, dyslipidemia, anemia, hyperkalemia, hyperphosphatemia and secondary	Clinical Posting (P):Unit II (Dr. Vipin Agarwal)SU29.10 Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent
Wednesday	IM11.5 Describe and discuss the pathogenesis and temporal evolution of microvascular and macrovascular complications of diabetes	SU27.4.9 At the end of session , phase 3 part 2 schedule must be able to discuss the complication of amputation.	Clinical Posting (P)Unit III(Dr. R K Kaul) SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 22.1 Describe the clinical characteristics of physiological vaginal discharge.	IM17.11- Describe the indications, pharmacology, dose, side effects of abortive therapy in migraine	Clinical Posting (P):Unit IV(Dr. A K Singh) SU28.14 Describe the clinical features, investigations and principles of management of disorders of small and large intestine
Friday	PE22.3 Describe the diagnosis and management of common vasculitic disorders including Henoch Schonlein Purpura, Kawasaki Disease, SLE, JIA	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OG.22.2 Describe and discuss the etiology (with special emphasis on Candida, T. vaginalis, bacterial vaginosis), characteristics, clinical diagnosis, investigations, genital hygiene, management of common causes and the syndromic management	Clinical Posting (P): Unit V (Dr.C K JHAKMOLA)SU30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele
Saturday	AETCOM Session: Module 4.2: Case studies in medico-legal and ethical situations	SU27.5.1 At the end of session , phase 3 part 2 schedule must be able to describe the anatomy of venous system of lower limb.	Clinical Posting (P): Unit on rotation- SU30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis
Monday	SU27.6.1 At the end of session , phase 3 part 2 schedule must be able to discuss the pathophysiology of DVT.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 23.1 Describe and discuss the physiology of puberty, features of abnormal puberty, common problems and their management	Clinical Posting (P):Unit I(Dr. N.K. Singh) SU30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis; SU27.6.2 At the end of session , phase 3 part 2 schedule must be able to discuss the pathophysiology of varicose veins.
Tuesday	OR 1.6 Participate as a member in the team for closed reduction of Shoulder dislocation/ hip dislocation/ knee dislocation.	IM10.27- Describe and discuss the indications for renal dialysis	Clinical Posting (P):Unit II (Dr. Vipin Agarwal)SU29.10 Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent

IM18.10: Brain imaging in Stroke (Tutorial)	PE27.15 Assess airway and breathing: recognise signs of severe respiratory distress. Check for cyanosis, severe chest indrawing, grunting PE27.16 Assess airway and breathing. Demonstrate the method of positioning of an infant & child to open airway in a simulated environment		22.07.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OG.22.2 Describe and discuss the etiology (with special emphasis on Candida, T. vaginalis, bacterial vaginosis), characteristics, clinical diagnosis, investigations, genital hygiene, management of common causes and the syndromic management			23.07.24
IM10.27: Haemodialysis (Seminar)			24.07.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.4.9 At the end of session , phase 3 part 2 schedule must be able to discuss the complication of amputation.	OR 1.5 Describe and discuss the aetiopathogenesis , clinical features ,investigations and principles of management of dislocation of major joints, shoulder, knee, hip		25.07.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2) : SU27.4.9 At the end of session , phase 3 part 2 schedule must be able to discuss the complication of amputation.			26.07.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OG.22.2 Describe and discuss the etiology (with special emphasis on Candida, T. vaginalis, bacterial vaginosis), characteristics, clinical diagnosis, investigations, genital hygiene, management of common causes and the syndromic management	Integration: IM6.13 Describe and enumerate the indications and side effects of drugs for bacterial, viral and other types of diarrhea; IM 16.1 Describe and discuss the aetiology of acute and chronic diarrhea including infectious and non infectious causes		27.07.24
IM18.13: Antiplatelet Drugs in Stroke (Tutorial)	PE27.17 Assess airway and breathing: administer oxygen using correct technique and appropriate flow rate PE27.18 Assess airway and breathing: perform assisted ventilation by Bag and mask in a simulated environment		29.07.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.23.2 Enumerate the causes of delayed puberty. Describe the investigation and management of common causes			30.07.24

Week 23

Wednesday	IM11.5 Describe and discuss the pathogenesis and temporal evolution of microvascular and macrovascular complications of diabetes	SU27.5.2 At the end of session , phase 3 part 2 schedule must be able to enumerate different disorder of venous system .	Clinical Posting (P)Unit III(Dr. R K Kaul) SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 23.1 Describe and discuss the physiology of puberty, features of abnormal puberty, common problems and their management	IM17.12- Describe the indications, pharmacology, dose, side effects of prophylactic therapy in migraine	Clinical Posting (P):Unit IV(Dr. A K Singh) SU28.14 Describe the clinical features, investigations and principles of management of disorders of small and large intestine
Friday	PE30.1 Discuss the etio-pathogenesis, clinical features , complications, management and prevention of meningitis in children PE30.2 Distinguish bacterial, viral and tuberculous meningitis	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.23.3 Enumerate the causes of precocious puberty	Clinical Posting (P): Unit V (Dr.C K JHAKMOLA)SU30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele
Saturday	AETCOM Session: Module 4.3: Case studies in medico-legal and ethical situations	SU27.5.4 At the end of session , phase 3 part 2 schedule must be able to describe the causes of varicosity of lower limb; SU27.6.2 At the end of session , phase 3 part 2 schedule must be able to discuss the pathophysiology of varicose veins.	Clinical Posting (P): Unit on rotation- - SU30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis

IM10.28: Renal Replacement Therapy (Seminar)		31.07.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.5.2 At the end of session , phase 3 part 2 schedule must be able to enumerate different disorder of venous system .	OR2.1 Describe and discuss the , mechanism of injury, clinical features, investigations and principles of management of fractures of Clavicle	01.08.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.5.2 At the end of session , phase 3 part 2 schedule must be able to enumerate different disorder of venous system .		02.08.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 24.1 Define, classify and discuss abnormal uterine bleeding, its aetiology, clinical features, investigations, diagnosis and management	Integration: IM 16.2 Describe and discuss the acute systemic consequences of diarrhea including its impact on fluid balance; IM 16.3 Describe and discuss the chronic effects of diarrhea including malabsorption	03.08.24

Second Terminal Exam - 05.08.24 to 17.08.24

Week 24

Monday	Holiday		
Tuesday	OR 1.6 Participate as a member in the team for closed reduction of Shoulder dislocation/ hip dislocation/ knee dislocation.	IM10.27- Describe and discuss the indications for renal dialysis	Clinical Posting (P):Unit II (Dr. Vipin Agarwal)SU29.10 Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent
Wednesday	IM11.6 Describe and discuss the pathogenesis and precipitating factors, recognition and management of diabetic emergencies	SU27.5.5 At the end of session , phase 3 part 2 schedule must be able to describe the complication in venous system of lower limb.	Clinical Posting (P)Unit III(Dr. R K Kaul) SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.25.1 Describe and discuss the causes of primary and secondary amenorrhoea.	IM17.12- Describe the indications, pharmacology, dose, side effects of prophylactic therapy in migraine	Clinical Posting (P):Unit IV(Dr. A K Singh) SU28.14 Describe the clinical features, investigations and principles of management of disorders of small and large intestine
Friday	PE30.3 Discuss the etio-pathogenesis, classification, clinical features, complication and management of Hydrocephalus in children; PE27.19 Check for signs of shock i.e. pulse, Blood pressure, CRT	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.25.1 Describe and discuss the causes of primary and secondary amenorrhoea, its investigation and the principles of management.	Clinical Posting (P): Unit V (Dr.C K JHAKMOLA)SU30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele
Saturday	AETCOM Session: Module 4.6: Case studies in ethics and the doctor industry relationship	SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins; SU27.6.3 At the end of session , phase 3 part 2 schedule must be able to discuss the pathophysiology of varicose veins..	Clinical Posting (P): Unit on rotation- - SU30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis
Monday	Holiday		

Holiday		19.08.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.23.2 Enumerate the causes of delayed puberty. Describe the investigation and management of common causes		20.08.24
IM19.1: Approach to a case of Primary Headache (Tutorial); IM10.28- Describe and discuss the indications for renal replacement therapy; IM11.2: Type 1 Diabetes Mellitus (Seminar)		21.08.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.6.2 At the end of session , phase 3 part 2 schedule must be able to discuss the pathophysiology of	OR 2.2 Describe and discuss the, mechanism of injury, clinical features, investigations and plan management of fractures of proximal humerus; OR 2.3 Select, prescribe and communicate appropriate medications for relief of joint pain	22.08.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.6.2 At the end of session , phase 3 part 2 schedule must be able to discuss the pathophysiology of varicose veins.		23.08.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.25.1 Describe and discuss the causes of primary and secondary amenorrhoea, its investigation and the principles of management.	Integration: IM 16.6 Distinguish between diarrhea and dysentery based on clinical features; IM 16.9 Identify common parasitic causes of diarrhea under the microscope in a stool specimen	24.08.24
Holiday		26.08.24

Tuesday	OR 2.4 Describe and discuss the mechanism of injury, clinical features, Investigation and principles of management of fracture of shaft humerus and intercondylar fracture humerus with emphasis on neurovascular deficit.	IM10.29- Describe discuss and communicate the ethical and legal issues involved in renal replacement therapy	OG8.2.The student should be able to Elicit, document & present an Obstetric history in detail, which includes elicitation of symptoms, history of previous obstetric, medical & surgical history, significant family & personal history, high risk factors for complications in the present pregnancy, menstrual history, history of patient's antenatal care- past & present, Immunization and contraceptive history. To be able to demonstrate ethical behavior in all aspects of history taking - Unit 1 (Dr. M Kaur)
Wednesday	IM11.6 Describe and discuss the pathogenesis and precipitating factors, recognition and management of diabetic emergencies	SU27.6.5 At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of DVT.	OG8.3.To perform a detailed Abdominal examination followed by an Obstetrical examination in a normal pregnancy. To be able to estimate the period of gestation from the patient history and examination. A DOAP on obstetric examination of a pregnant woman. Unit 1 (Dr. M Kaur)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.26.1 Describe and discuss the etiopathogenesis, clinical features; investigation and implications on health and fertility and management of endometriosis and adenomyosis	IM17.13- Describe the pharmacology, dose, adverse reactions and regimens of drugs used in the treatment of bacterial, tubercular and viral meningitis	OG8.1.To be able to define Gravida, Para & Abortion & write an Obstetric formula. To be able to reach a diagnosis of a pregnant woman with a normal pregnancy Unit 1 (Dr. M Kaur)
Friday	PE30.4 Discuss the etiopathogenesis, classification, clinical features, and management of Microcephaly in children; PE27.21 Choose the type of fluid and calculate the fluid requirement in shock	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.26.1 Describe and discuss the etiopathogenesis, clinical features; investigation and implications on health and fertility and management of endometriosis and adenomyosis	OG8.4.To observe & be able to demonstrate clinical monitoring of maternal & fetal wellbeing.To be able to apply different tests to determine fetal well being.To be able to identify high risk factors in the mother. Unit 1 (Dr. M Kaur)
Saturday	AETCOM Session: Module 4.8: Dealing with death	SU27.6.6 At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of varicose veins.	OG8.5.To be able to describe & demonstrate pelvic assessment in a model. To be able to identify abnormalities in the pelvis in different models and be able to describe the obstetrical implications of common abnormalities of the pelvis. Unit 1 (Dr. M Kaur)
Monday	SU27.6.4 At the end of session, phase 3 part 2 schedule must be able to discuss the clinical features of varicose veins.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 26.2 Describe the causes, prevention, clinical features, principles of management of genital injuries and fistulae	OG8.6.To be able to counsel the pregnant woman and her relatives in a simulated environment the importance of correct antenatal care, diet & immunization and of seeking help in case of a perceived abnormality in health.To be able to

Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.26.1 Describe and discuss the etiopathogenesis, clinical features; investigation and implications on health and fertility and management of endometriosis and adenomyosis		27.08.24
IM20.6: Lab Tests in Snake Bite (Tutorial); IM11.2: Acute emergencies in Diabetes (Seminar)		28.08.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.6.3 At the end of session , phase 3 part 2 schedule must be able to discuss the pathophysiology of varicose veins.	OR 2.5 Describe and discuss the aetiopathogenesis, clinical features, mechanism of injury Investigation and principles of management of fracture of both bone forearm and Galeazzi and Monteggia injury	29.08.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.6.3 At the end of session , phase 3 part 2 schedule must be able to discuss the pathophysiology of varicose veins.		30.08.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 26.2 Describe the causes, prevention, clinical features, principles of management of genital injuries and fistulae	Integration: IM 16.11 Enumerate the indications for stool cultures and blood cultures in patients with acute diarrhea; IM 16.13 Describe and enumerate the indications, pharmacology and side effects of pharmacotherapy for parasitic causes of diarrhea	31.08.24
IM20.7: Complications Of Snake Bite And Anti Snake Venom (Tutorial)	PE27.22 Assess level of consciousness & provide emergency treatment to a child with convulsions/ coma - Position an unconscious child - Position a child with suspected trauma - Administer IV/per rectal Diazepam for a convulsing child in a simulated environment	02.09.24

Tuesday	OR 2.6 Describe and discuss Etiopathogenesis, mechanism of injury, clinical feature, investigation and principles of management of fracture of distal radius	IM10.30- Recognise the impact of CKD on patient's quality of life well being work and family; IM11.18 Describe and discuss the pharmacology, indications, adverse reactions and interactions of drugs used in the prevention and treatment of target organ damage and complications of Type II Diabetes including neuropathy, nephropathy, retinopathy, hypertension, dyslipidemia and cardiovascular disease	OG8.7, OG8.8.To be able to enumerate indications for & types of vaccinations in pregnancy.To be able to enumerate the indications & describe the routine investigations in a pregnant woman, including the use of ultrasound in the initial assessment & monitoring in pregnancy; OG35.1, OG35.2.To be able to elicit, document & present a gynecology
Wednesday	IM11.6 Describe and discuss the pathogenesis and precipitating factors, recognition and management of diabetic emergencies	SU27.6.5 At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of DVT.	OG8.3.To perform a detailed Abdominal examination followed by an Obstetrical examination in a normal pregnancy. To be able to estimate the period of gestation from the patient history and examination. A DOAP on obstetric examination of a pregnant woman. Unit 1 (Dr. M Kaur)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.1 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of sexually transmitted infections	IM18.1- Describe the functional and the vascular anatomy of the brain	OG35.6 – OG35.8. To be able to apply the principles of Medical ethics in history taking & examination of a gynecology patient. To be able to do a General Physical Examination of a gynec case, gynec examination of the patient upto per abdominal examination and be familiar with per speculum and per vaginal examinations in a simulated environment. DOAP of a per abdominal examination of a gynec case. Unit 1 (Dr. M Kaur)
Friday	PE30.5 Enumerate the Neural tube defects. Discuss the causes, clinical features, types, and management of Neural Tube defect	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.1 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of sexually transmitted infections	OG9.1.To be able to diagnose from history and examination a case of Abortion, Define, classify, & discuss the etiology of abortions, including Threatened, Inevitable, Missed, Incomplete, Complete & Septic abortions. To be able to formulate appropriate management plans for
Saturday	AETCOM Session: Module 4.2: Case studies in medico-legal and ethical	SU27.6.8 At the end of session , phase 3 part 2 schedule must be able to discuss the management of varicosity of veins	OG9.2,OG20.1-20.3.To define and classify MTP, describe the procedures and steps, observe and assist in the performance of an MTP evacuation. To be able to enumerate the indications and describe & discuss the legal aspects, indications, methods for first & second trimester MTP; Complications and management of complications. Administer Informed consent to patient or guardian in a simulated environment. Discuss the PC & PNDDT Act 1994 & 2021. Unit 1 (Dr. M Kaur)
Monday	SU27.6.8 At the end of session , phase 3 part 2 schedule must be able to discuss the management of varicosity of veins	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.1 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of sexually transmitted infections	OG9.3. To be able to diagnose from history & examination, a patient of Acute Pain Abdomen in early pregnancy(with a focus on ectopic pregnancy) & enumerate the principles of Medical & surgical management . Unit 1 (Dr. M Kaur)

Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 26.2 Describe the causes, prevention, clinical features, principles of management of genital injuries and fistulae		03.09.24
IM20.6: Lab Tests in Snake Bite (Tutorial); IM11.2: Acute emergencies in Diabetes (Seminar)		04.09.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.6.7 At the end of session , phase 3 part 2 schedule must be able to discuss the medical management of DVT.	OR 2.7 Describe and discuss the Etiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of pelvic injury with emphasis on hemodynamic instability	05.09.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.6.7 At the end of session , phase 3 part 2 schedule must be able to discuss the medical management of DVT.		06.09.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.1 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of sexually transmitted infections	Integration: MI 3.1 Enumerate the microbial agents causing diarrhea and dysentery; MI3.2 Identify the common etiologic agents of diarrhea and dysentery	07.09.24
IM22.3: management of hypercalcemia (Tutorial)	PE27.23 Assess for signs of severe dehydration	09.09.24

Tuesday	OR 2.8 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, Investigations and principles of management of spine injuries with emphasis on mobilization of the patient.	IM10.31- Incorporate patient preferences in to the care of CKD	OG9.4. To be able to provisionally diagnose a case of Gestational Trophoblastic Disease or Neoplasm from history & examination, discuss clinical features, laboratory investigations, Ultrasound findings, Differential diagnosis, principles of management and follow up of a patient of Gestational Trophoblastic Disease. Unit 1 (Dr. M Kaur)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.2 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of genital tuberculosis	10.09.24
Wednesday	IM11.18 Describe and discuss the pharmacology, indications, adverse reactions and interactions of drugs used in the prevention and treatment of target organ damage and complications of Type II Diabetes including neuropathy, nephropathy, retinopathy, hypertension, dyslipidemia and cardiovascular disease	SU27.6.9 At the end of session , phase 3 part 2 schedule must be able to discuss the surgical management of DVT.	OG9.5. To be able to diagnose a case of Hyperemesis Gravidarum by history, examination & investigations. To know the principles of management & the impact of Hyperemesis Gravidarum on maternal & fetal health; OG10.1; OG10.2; OG16.1. To be able to reach a provisional diagnosis of Antepartum Hemorrhage. Describe the first aid to be provided to the patient, confirmation of diagnosis and general & obstetric management of Abruptio Placentae. To be able to select the correct blood products to manage APH & its complications. Unit 1 (Dr. M Kaur)	IM11.23: Diagnosis and Management of DKA (Seminar); IM18.2- Classify cerebrovascular accidents and describe the aetiology, predisposing genetic and risk factors pathogenesis of hemorrhagic and non hemorrhagic stroke	11.09.24
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.1 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of sexually transmitted infections	IM18.1- Describe the functional and the vascular anatomy of the brain	OG35.6 – OG35.8. To be able to apply the principles of Medical ethics in history taking & examination of a gynecology patient. To be able to do a General Physical Examination of a gynec case, gynec examination of the patient upto per abdominal examination and be familiar with per speculum and per vaginal examinations in a simulated environment. DOAP of a per abdominal examination of a gynec case. Unit 1 (Dr. M Kaur)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.6.7 At the end of session , phase 3 part 2 schedule must be able to discuss the medical management of DVT.	12.09.24
Friday	PE30.8 Define epilepsy. Discuss the pathogenesis, clinical types, presentation and management of Epilepsy in children PE30.9 Define status Epilepticus. Discuss the clinical presentation and management	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.2 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of genital tuberculosis	OG16.1- To be able to reach a provisional diagnosis of Antepartum Hemorrhage. Describe the first aid to be provided to the patient, confirmation of diagnosis and general & obstetric management of Placenta Previa. Unit 1 (Dr. M Kaur)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.6.9 At the end of session , phase 3 part 2 schedule must be able to discuss the surgical management of DVT.	13.09.24
Saturday	AETCOM Session: Module 4.4: Case studies in ethics empathy and the doctor-patient relationship	SU27.6.11 At the end of session , phase 3 part 2 schedule must be able to discuss the complication of surgery in DVT.	OG11.1. To diagnose a case of Multifetal gestation. To describe etiopathology, clinical features, diagnosis and investigations, principles of management & complications of Multiple gestations. Unit 1 (Dr. M Kaur)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.2 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of genital tuberculosis	14.09.24
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.6.9 At the end of session , phase 3 part 2 schedule must be able to discuss the surgical management of DVT.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.3 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of HIV	OG12.1. To be able to diagnose a case of Hypertension in Pregnancy, with correct method of Blood Pressure measurement, classify Hypertension of Pregnancy according to severity, get the appropriate investigations, Interpretation of the investigations,	IM22.9: Metabolic Acidosis (Tutorial) PE27.27 Assess for hypothermia and maintain temperature	16.09.24

Tuesday	OR.2.10 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of proximal femur; OR 2.9 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of acetabular fracture	IM22.1 - Enumerate the causes of hypercalcemia and distinguish the features of PTH vs non PTH mediated hypercalcemia	OG12.1-To know the Etiology, pathophysiology, symptoms & signs, of Eclampsia. To know the Immediate management, investigations , General & Obstetric management of a case of Eclampsia.complications Unit 1 (Dr. M Kaur)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.3 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of HIV	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.3 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of HIV	17.09.24
Wednesday	IM11.22 Enumerate the causes of hypoglycaemia and describe the counter hormone response and the initial approach and treatment	SU27.7 Describe pathophysiology, clinical features, investigations and principles of management of Lymph edema, lymphangitis and Lymphomas	OG12.2.To be able to identify anemia in pregnancy, severity of anemia clinically & by investigations, be able to describe etiology, pathophysiology, diagnosis, investigations, cause, severity and gestational age appropriate management of anemia. To be able to describe the Maternal & fetal complications of Anemia in pregnancy Unit 1 (Dr. M Kaur)	IM11.24: Diagnosis and Management of Hyperosmolar Coma (Seminar)		18.09.24
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.3 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of HIV	IM18.10- Choose and interpret the appropriate diagnostic testing in youngpatients with a cerebrovascular accident (CVA)	OG12.3.To be able to define, classify & describe the pathophysiology, diagnosis, investigations, aderse maternal & fetal effects of Diabetes in pregnancy. To ba able to screen for gestational Diabetes Mellitus (GDM) & diagnose it. To describe the general & obstetric management for a case of GDM. Unit 1 (Dr. M Kaur)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.7 Describe pathophysiology, clinical features, investigations and principles of management of Lymph edema, lymphangitis and Lymphomas	OR2.11 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of (a) Fracture patella (b) Fracture distal femur (C) Fracture proximal tibia with special focus on neurovascular injury and compartment syndrome	19.09.24
Friday	PE30.10 Discuss the etio-pathogenesis, clinical features and management of Mental retardation in children PE30.11 Discuss the etio-pathogenesis, clinical features and management of children with cerebral palsy	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.4 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of Pelvic Inflammatory Disease	OG12.4. To be able to recognise, classify Heart Disease as Cyanotic/ acyanotic & according to NYHA , Cardiac Disease in pregnancy, its management during antenatal period, management of different stages of labor, puerperium, advice for contraception, maternal & fetal complications of heart disease in pregnancy. Unit 1 (Dr. M Kaur)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.7 Describe pathophysiology, clinical features, investigations and principles of management of Lymph edema, lymphangitis and Lymphomas		20.09.24
Saturday	AETCOM Session: Module 4.6: Case studies in ethics and the doctor industry relationship	SU27.7.1 At the end of session , phase 3 part 2 schedule must be able to describe the lymphedema,Lymphangitis, Lymphomas.	OG12.5. To be able to describe the clinical features, investigations, diagnosis, complications, treatment effects of urinary tract infections during pregnancy Unit 1 (Dr. M Kaur)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.4 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of Pelvic Inflammatory Disease	Integration: PE 24.2 Discuss the classification and clinical presentation of various types of diarrheal dehydration; PE 24.4 Discuss the types of fluid used in Paediatric diarrheal diseases and their composition	21.09.24
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.7 Describe pathophysiology, clinical features, investigations and principles of management of Lymph edema, lymphangitis and Lymphomas	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.4 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of Pelvic Inflammatory Disease	OG12.6. To recognise Jaundice in pregnancy.To describe the clinical features, detection, effects of pregnancy on the liver disease, effects of the disease on pregnancy & management of Liver disease in pregnancy. To know the Liver diseases specific to pregnancy and coincidental to pregnancy. Unit 2 (Dr. K Rani)	IM22.10: Metabolic Alkalosis (Tutorial)	PE22.2 Counsel a patient with Chronic illness	23.09.24

Tuesday	OR2.12 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of Fracture shaft of femur in all age groups and the recognition and management of fat embolism as a complication	IM22.2- Describe the aetiology, clinical manifestations, diagnosis and clinical approach to primary hyperparathyroidism	OG12.7. To be able to describe and discuss screening, risk factors, management of mother with HIV in pregnancy and of the newborn of an HIV positive mother Unit 2 (Dr. K Rani)
Wednesday	IM11.23 Describe the precipitating causes, pathophysiology, recognition, clinical features, diagnosis, stabilisation and management of diabetic ketoacidosis	SU27.7.2 At the end of session , phase 3 part 2 schedule must be able to discuss the clinical features of lymphedema, Lymphangitis, Lymphomas.	OG12.8. To be able to describe the mechanism, prophylaxis, Fetal complications, diagnosis and management of Isoimmunization in Pregnancy. Unit 2 (Dr. K Rani)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.1 Describe and discuss the common causes, pathogenesis, clinical features, differential diagnosis; investigations; principles of management of infertility – methods of tubal patency, ovulation induction, assisted reproductive techniques	IM18.11- Describe the initial supportive management of a patient presenting with a cerebrovascular accident (CVA)	OG14.1,14.2;13.1,13.4. To be able to enumerate & discuss the diameters of the Maternal Pelvis and the types of pelvises. To know & be able to describe the landmarks & diameters of the Fetal Skull. To discuss mechanism of Normal Labor. Enumerate & discuss Physiology, stages and mechanism of Normal Labor with Occipito-anterior position. Unit 2 (Dr. K Rani)
Friday	PE30.12 Enumerate the causes of floppiness in an infant and discuss the clinical features, differential diagnosis and management	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.1 Describe and discuss the common causes, pathogenesis, clinical features, differential diagnosis; investigations; principles of management of infertility – methods of tubal patency, ovulation induction, assisted reproductive techniques	OG13.3,13.5. To know the monitoring of labor, plotting the Partograms, observe & assist in artificial rupture of membranes and observe & assist in the conduct of a normal vaginal delivery. Unit 2 (Dr. K Rani)
Saturday	AETCOM Session: Module 4.8: Dealing with death	SU27.7.3 At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of lymphedema, lymphangitis, Lymphomas.	OG13.2. To be able to define, describe the causes, pathophysiology, diagnosis, investigations and the management of Preterm Labor, PPRM, PROM & Post term pregnancies. Unit 2 (Dr. K Rani)
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.21.1 Describe surgical anatomy of the salivary glands, pathology, and clinical presentation of disorders of salivary glands	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.1 Describe and discuss the common causes, pathogenesis, clinical features, differential diagnosis; investigations; principles of management of infertility – methods of tubal patency, ovulation induction, assisted reproductive techniques	OG14.2. To be able to describe pelvic assessment in an abnormal pelvic type in a model, describe Cephalopelvic disproportion (CPD), Obstructed Labor, its symptoms, signs, prevention & management. Unit 2 (Dr. K Rani)
Tuesday	OR2.14 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of ankle fractures	IM22.3- Describe the approach to the management of hypercalcemia; IM11.24 Describe the precipitating causes, pathophysiology, recognition, clinical features, diagnosis, stabilisation and management of Hyperosmolar non ketotic state	OG14.3. To be able to describe & discuss Rupture Uterus, causes, diagnosis & management. To know the principles of Peripartum Hysterectomy (Obstetric Hysterectomy-OH). Unit 2 (Dr. K Rani)
Wednesday	Holiday		

Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.4 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of Pelvic Inflammatory Disease		24.09.24
IM12.1: Approach to a patient of Thyroid Dysfunction (Seminar); IM13.4: Recognition of Common Malinancies (Seminar)		25.09.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.7.2 At the end of session , phase 3 part 2 schedule must be able to discuss the clinical features of lymphedema, Lymphangitis, Lymphomas.	OR 2.13 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of: (a) Fracture both bones leg (b) Calcaneus (c) Small bones of foot	26.09.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.7.2 At the end of session , phase 3 part 2 schedule must be able to discuss the clinical features of lymphedema, Lymphangitis, Lymphomas.		27.09.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.1 Describe and discuss the common causes, pathogenesis, clinical features, differential diagnosis; investigations; principles of management of infertility – methods of tubal patency, ovulation induction, assisted reproductive techniques	Integration: PE 24.5 Discuss the role of antibiotics, antispasmodics, anti-secretory drugs, probiotics, anti-emetics in acute diarrheal diseases; PE 24.9 Elicit, document and present history pertaining to diarrheal diseases	28.09.24
IM22.11: Respiratory Acidosis (Tutorial)	PE34.5 Able to elicit, document and present history of contact with tuberculosis in every patient encounter PE34.6 Identify a BCG scar PE34.7 Interpret a Mantoux test	30.09.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.2 Enumerate the assessment and restoration of tubal latency		01.10.24
Holiday		02.10.24

Week

Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.2 Enumerate the assessment and restoration of tubal latency	IM18.12- Enumerate the indications for and describe acute therapy of nonhemorrhagic stroke including the use of thrombolytic agents	OG14.4. To be able to describe & discuss the classification, Diagnosis, causes & management of Abnormal Labor in Malpresentations & Malpositions - Face Presentation. Unit 2 (Dr. K Rani)
Friday	PE30.13 Discuss the etio-pathogenesis, clinical features, management and prevention of Poliomyelitis in children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.2 Enumerate the assessment and restoration of tubal latency	OG15.1. To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques, Postoperative management and their complications.
Saturday	AETCOM Session: Module 4.4: Case studies in ethics empathy and the doctor-patient relationship	SU 27.7.5 At the end of session , phase 3 part 2 schedule must be able to enumerate the causes of lymphedema, Lymphangitis, Lymphomas.	OG15.1. To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques, postoperative management and their complications Vacuum extraction, Low Forceps delivery. Unit 2 (Dr. K Rani)
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 22.1 Describe the applied anatomy and physiology of thyroid	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.3 Describe the principles of ovulation induction	OG15.1. To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques, postoperative management and the complications
Tuesday	OR 2.16 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of open fractures with focus on secondary infection, prevention and management	IM22.4- Enumerate the components and describe the genetic basis of the multiple endocrine neoplasia syndrome	OG15.1 To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques and their complications of Assisted Breech Delivery Unit 2 (Dr. K Rani)
Wednesday	IM12.1 Describe the epidemiology and pathogenesis of hypothyroidism and hyperthyroidism including the influence of Iodine deficiency and autoimmunity in the pathogenesis of thyroid disease	SU27.7.6 At the end of session , phase 3 part 2 schedule must be able to discuss the management of lymphedema, Lymphangitis, Lymphomas; SU27.7.7 At the end of session , phase 3 part 2 schedule must be able to discuss the complication of lymphedema, Lymphangitis, Lymphomas.	OG15.1. To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques, postoperative management and the complications of Cervical Enceclage. Unit 2 (Dr. K Rani)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.4 Enumerate the various Assisted Reproduction Techniques	IM18.13- Enumerate the indications for and describe the role of anti plateletagents in non hemorrhagic stroke	OG 15.2- Observe/assist Episiotomy procedure during Labour room Posting Perform episiotomy closure using the appropriate suture material on skill learning modules Observe LSCS procedure during Labour room Posting Unit 2 (Dr. K Rani) Observe outlet forceps/Vaccum Extraction procedure during Labour room Posting Observe assisted vaginal breech delivery during Labour room Posting
Friday	PE30.7 Discuss the etio-pathogenesis, clinical features, complications and management of Febrile seizures in children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.4 Enumerate the various Assisted Reproduction Techniques	OG16.1, OG 16.2- Enumerate various complications of third stage of labour Define post partum haemorrhage Discuss the causes and types of post partum haemorrhage Discuss the diagnosis of post partum haemorrhage Describe the
Saturday	Holiday		

Week 31

Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.21.1 Describe surgical anatomy of the salivary glands, pathology, and clinical presentation of disorders of salivary glands	OR 2.15 Plan and interpret the investigations to diagnose complications of fractures like malunion, non-union, infection, compartmental syndrome	03.10.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 21.2 Enumerate the appropriate investigations and describe the Principles of treatment of disorders of salivary glands; SU27.7.4 At the end of session , phase 3 part 2 schedule must be able to discuss the pathophysiology of lymphedema,Lymphangitis, Lymphomas.		04.10.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.3 Describe the principles of ovulation induction	Integration: PH 1.28 Describe the mechanisms of action, types, doses, side effects, indications and contraindications of the drugs used in ischemic heart disease; IM 2.1 Discuss and describe the epidemiology, antecedents and risk factors for atherosclerosis and ischemic heart disease	05.10.24
IM22.12: Respiratory Alkalosis (Tutorial)	PE34.8 Interpret a Chest Radiograph PE34.9 Interpret blood tests in the context of laboratory evidence for tuberculosis	07.10.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.3 Describe the principles of ovulation induction		08.10.24
IM13.12: Tumour markers (Seminar)		09.10.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 22.2 Describe the etiopathogenesis of thyroidal swellings	OR 3.1 Describe and discuss the aetiopathogenesis, clinical features, Investigations and principles of management of Bone and Joint infections a) Acute Osteomyelitis b) Subacute osteomyelitis c) Acute Suppurative arthritis d) Septic arthritis & HIV infection e) Spirochaetal infection f) Skeletal Tuberculosis	10.10.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.22.3 Demonstrate and document the correct clinical examination of thyroid swellings and discus the differential diagnosis and their management		11.10.24
Holiday		12.10.24

Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 22.4 Describe the clinical features, classification and principles of management of thyroid cancer	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.29.1 Describe and discuss the etiology; pathology; clinical features; differential diagnosis; investigations; principles of management, complications of fibroid uterus	OG16.3-Enumerate the causes of FGR Discuss the clinical features of FGR Discuss the diagnostic modalities of FGR. Describe various antepartum fetal surveillance tests for monitoring and principles of management of FGR Discuss the preventive methods of FGR Describe
Tuesday	OR 2.16 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of open fractures with focus on secondary infection, prevention and management	IM22.4- Enumerate the components and describe the genetic basis of the multiple endocrine neoplasia syndrome	OG15.1 To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques and their complications of Assisted Breech Delivery Unit 2 (Dr. K Rani)
Wednesday	IM12.2 Describe and discuss the genetic basis of some forms of thyroid dysfunction; IM22.5- Enumerate the causes and describe the clinical features and the correct approach to the diagnosis and management of the patient with hyponatremia	SU27.8.1 At the end of session , phase 3 part 2 schedule must be able to enumerate different lymphatic disorder.	.OG17.3- Discuss the Breast complications during Lactation, Discuss the clinical features & Management of Breast Engorgement, Crack & Fissure Nipple, Mastitis, Breast abscess Differentiate between mastitis and breast abscess Unit 2 (Dr. K Rani)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.29.1 Describe and discuss the etiology; pathology; clinical features; differential diagnosis; investigations; principles of management, complications of fibroid uterus	IM18.14- Describe the initial management of a hemorrhagic stroke	OG18.1, OG18.2, OG18.3, OG18.4- Discuss the criteria for assessment of gestational age at birth. Discuss the basic principles of resuscitation of newborns. Discuss the diagnosis of birth asphyxia. Enumerate the common problems of normal newborn. Describe APGAR score. Unit 2 (Dr. K Rani)
Friday	PE30.14 Discuss the etiopathogenesis, clinical features and management of Duchene muscular dystrophy	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.30.1 Describe and discuss the etiopathogenesis; clinical features; differential diagnosis; investigations; management, complications of PCOS	OG19.1. Discuss various methods of temporary contraception available for the couple after delivery. Describe the various methods of permanent contraception. Describe the steps of puerperal sterilization. Discuss the complications of puerperal
Saturday	AETCOM Session: Module 4.8: Dealing with death	SU27.8.2 At the end of session , phase 3 part 2 schedule must be able to discuss the clinical features of lymphatic disorder	OG19.2- Counsel in a simulated environment about the advantages and disadvantages of various contraceptive methods properly. Unit 2 (Dr. K Rani)
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 23.1 Describe the applied anatomy of adrenal glands	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.30.1 Describe and discuss the etiopathogenesis; clinical features; differential diagnosis; investigations; management, complications of PCOS	OG12.6. To recognise Jaundice in pregnancy. To describe the clinical features, detection, effects of pregnancy on the liver disease, effects of the disease on pregnancy & management of Liver disease in pregnancy. To know the Liver

IM22.13: Case based ABG interpretation (Tutorial)	PE32.2 Identify the clinical features of Down's Syndrome PE32.3 Interpret normal Karyotype and recognize Trisomy 21		14.10.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.3 Describe the principles of ovulation induction			15.10.24
IM14.3: Obesity : Genetics (Seminar)			16.10.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.22.5 Describe the applied anatomy of parathyroid	OR 3.2 Participate as a member in team for aspiration of joints under supervision; OR 3.3 Participate as a member in team for procedures like drainage of abscess, sequestrectomy/ saucerisation and arthrotomy		17.10.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 22.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management			18.10.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.30.1 Describe and discuss the etiopathogenesis; clinical features; differential diagnosis; investigations; management, complications of PCOS	Integration: IM 2.2 Discuss the aetiology of risk factors of both modifiable and non modifiable of atherosclerosis and IHD; IM2.11 Order and interpret a Chest X-ray and markers of acute myocardial infarction		19.10.24
IM25.2: Tetanus (Tutorial)	PE32.7 Identify the clinical features of Turner Syndrome PE32.8 Interpret normal Karyotype and recognize the Turner Karyotype		21.10.24

Tuesday	OR 4.1 Describe and discuss the clinical features, Investigation and principles of management of Tuberculosis affecting major joints (Hip, Knee) including cold abscess and caries spine	IM22.6- Enumerate the causes and describe the clinical and laboratory features and the correct approach to the diagnosis and management of the patient with hypernatremia	OG21.1.Demonstrate about the suitable contraception to the couple. Counsel regarding the indications, contraindications, side effects, complications and failure rates of hormonal contraception. Counsel regarding the indication, contraindications, side effects, complications and failure rate of non – hormonal contraception. Describe Methods of Emergency Contraception. Unit 3 (Dr. S Agarwal)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.30.1 Describe and discuss the etiopathogenesis; clinical features; differential diagnosis; investigations; management, complications of PCOS	22.10.24	
Wednesday	IM12.3 Describe and discuss the physiology of the hypothalamopituitary -thyroid axis, principles of thyroid function testing and alterations in physiologic function	SU27.8.3 At the end of session , phase 3 part 2 schedule must be able to discuss the complication of lymphatic disorder.	OG21.1.Enumerate the indications for using Intrauterine Contraceptive devices. Discuss the pre-requisites before inserting IUCD in the procedure room. Describe the steps for insertion I of IUCD in the procedure room. Identify the instruments used in IUCD insertion. Discuss the contraindications and side effects of IUCD. Describe the management of complications with IUCD insertion. Discuss various indications for IUCD removal. Describe the steps of IUCD removal in the procedure room. Identify the instruments used in removal of IUCD.Management of Missing Cu-T thread. Unit 3 (Dr. S Agarwal)	IM14.5: Obesity : effects on the body (Seminar)	23.10.24	
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.30.2 Enumerate the causes and describe the investigations and management of hyperandrogenism	IM18.15- Enumerate the indications for surgery in a hemorrhagic stroke	OG21.1- Describe the types, advantages, disadvantages and failure rate of male condom correctly. Describe the techniques, complications and follow up of vasectomy correctly. Unit 3 (Dr. S Agarwal)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 23.2 Describe the etiology, clinical features and principles of management of disorders of adrenal gland	OR 5.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of various inflammatory disorder of joints	24.10.24
Friday	PE20.7 Discuss the etiology, clinical features and management of Birth asphyxia	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.30.2 Enumerate the causes and describe the investigations and management of hyperandrogenism	OG21.2 - Describe the timing of PPIUCD insertion, mechanism of action and failure rate of PPIUCD correctly. enumerate the advantages and side-effects of PPIUCD correctly enumerate the contraindications of PPIUCD correctly. describe the methods of PPIUCD insertion and post insertion care correctly. Unit 3 (Dr. S Agarwal)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2):S.U.23.3 Describe the clinical features, principles of investigation and management of Adrenal tumors	25.10.24	
Saturday	AETCOM Session: Module 4.2: Case studies in medico-legal and ethical	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.23.3 Describe the clinical features, principles of investigation and management of Adrenal tumors	OG22.1, OG22.2- Describe the characteristics of physiological vaginal discharge correctly. enumerate the causes of vaginal discharge in children, reproductive age and post-menopausal age group correctly, differentiate between bacterial vaginosis, vaginal candidiasis, and trichomonas vaginitis correctly, describe the clinical features, investigations and treatment of vaginal candidiasis, trichomonas vaginitis and bacterial vaginosis correctly, describe syndromic management of vaginal discharge correctly. Unit 3 (Dr. A Lakshmi)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.30.2 Enumerate the causes and describe the investigations and management of hyperandrogenism	Integration: IM 2.4 Discuss and describe the pathogenesis natural history, evolution and complications of atherosclerosis and IHD; IM 2.6 Elicit document and present an appropriate history that includes onset evolution, presentation risk factors, family history, comorbid conditions, complications, medication, history of atherosclerosis, IHD and coronary syndromes	26.10.24

Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.23.3 Describe the clinical features, principles of investigation and management of Adrenal tumors	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.30.2 Enumerate the causes and describe the investigations and management of hyperandrogenism	OG24.1- Define abnormal uterine bleeding. Discuss the etiology of abnormal uterine bleeding as per PALM-COEIN classification. Describe various clinical features, investigations and management of patient with abnormal uterine bleeding. Unit 3 (Dr.S Agarwal)	IM25.3: Rabies (Tutorial)	PE32.12 Identify the clinical features of Klinefelter Syndrome PE32.13 Interpret normal Karyotype and recognize the Klinefelter Karyotype	04.11.24
Tuesday	OR 6.1 Describe and discuss the clinical features, investigations and principles of management of degenerative condition of spine (Cervical Spondylosis, Lumbar Spondylosis, PID)	IM22.7- Enumerate the causes and describe the clinical and laboratory features and the correct approach to the diagnosis and management of the patient with hypokalaemia	OG23.1, OG23.2, OG23.3- Describe the physiology and changes in puberty correctly. List the common disorders of puberty correctly. Define precocious puberty and delayed puberty accurately. Describe the evaluation and management of delayed puberty correctly. Enumerate the causes of delayed puberty correctly. Classify and enumerate the causes of precocious puberty accurately. Describe the evaluation and treatment of precocious puberty correctly. Unit 3 (Dr. S Agarwal)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2) O.G.31.1 Describe and discuss the etiology, classification, clinical features, diagnosis, investigations, principles of management and preventive aspects of prolapse of uterus		05.11.24
Wednesday	IM12.4 Describe and discuss the principles of radio iodine uptake in the diagnosis of thyroid disorders	SU28.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias	OG25.1. Define the primary amenorrhea correctly. Define the secondary amenorrhea correctly. Enumerate the causes of primary amenorrhea. Describe the principles of management including investigation and Treatment in patient presenting with primary amenorrhea. Unit 3 (Dr. S Agarwal)	IM14.14: Basics of Bariatric Surgery (Seminar)		06.11.24
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.31.1 Describe and discuss the etiology, classification, clinical features, diagnosis, investigations, principles of management and preventive aspects of prolapse of uterus	IM18.16- Enumerate the indications describe and observe themultidisciplinary rehabilitation of patients with a CVA	OG25.1. Enumerate the causes of Secondary Amenorrhoea. Discuss the management of secondary amenorrhoea. Unit 3 (Dr. S Agarwal)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.24.2 Describe the clinical features, principles of investigation, prognosis and management of pancreatic endocrine tumours	OR 7.1 Describe and discuss the aetiopathogenesis, clinical features, investigation and principles of management of metabolic bone disorders in particular osteoporosis, osteomalacia, rickets, Paget's disease	07.11.24
Friday	PE20.8 Describe the etiology, clinical features and management of respiratory distress in New born including meconium aspiration and transient tachypnoea of newborn	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.31.1 Describe and discuss the etiology, classification, clinical features, diagnosis, investigations, principles of management and preventive aspects of prolapse of uterus	OG 26.1- Define endometriosis. Describe the etiology and pathogenesis of endometriosis. Describe clinical features of endometriosis and Adenomyosis. Discuss effect of endometriosis on fertility. Define difference between endometriosis and adenomyosis. Describe investigations and management of Endometriosis. Unit 3 (Dr. S Agarwal)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.24.2 Describe the clinical features, principles of investigation, prognosis and management of pancreatic endocrine tumours		08.11.24
Saturday	AETCOM Session: Module 4.4: Case studies in ethics empathy and the doctor-patient relationship	SU28.1.1 At the end of phase III students must be able to define hernia.	OG26.2- Enumerate causes of genital injuries. List the types of genital injuries. Describe clinical features of genital injuries. Discuss principles of management of genital injuries. Discuss the ways /methods of prevention of genital injuries. Unit 3 (Dr. A Lalwani)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.31.1 Describe and discuss the etiology, classification, clinical features, diagnosis, investigations, principles of management and preventive aspects of prolapse of uterus	Integration: BI6.13 Describe the functions of the thyroid glands; BI 6.14 Describe the tests that are commonly done in clinical practice to assess the functions of these organs	09.11.24

Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.24.3 Describe the principles of investigation and management of Pancreatic disorders including pancreatitis and endocrine tumors.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.32.1 Describe and discuss the physiology of menopause, symptoms, prevention, management and the role of hormone replacement therapy.	OG27.1- Define Sexually Transmitted Disease, discuss aetio-pathogenesis of different sexually transmitted infections, discuss clinical features of different sexually transmitted infections, discuss long term implications of sexually transmitted infections, discuss investigations and management of sexually transmitted infections. Unit 3 (Dr. S Agarwal)
Tuesday	OR 8.1 Describe and discuss the aetiopathogenesis, clinical features, assessment and principles of management a patient with Post Polio Residual Paralysis	IM22.8- Enumerate the causes and describe the clinical and laboratory features and the correct approach to the diagnosis and management of the patient with hyperkalaemia	OG27.1-To be able to discuss aetio-pathogenesis of Genital Tuberculosis. Discuss clinical features of Genital TB, its long term implications and complications, discuss investigations and management of Genital TB.To be able to discuss aetio-pathogenesis, clinical features, long term implications and complications, investigations and management of HIV in a gynec patient . Unit 3 (Dr. A Lalwani)
Wednesday	IM12.12 Describe and discuss the iodisation programs of the government of India	SU28.1.2 At the end of phase III students must be able to describe the pathophysiology of hernia , enumerate the clinical features of hernia.	OG27.4- Define Pelvic Inflammatory Disease and types of Pelvic Inflammatory disease. Discuss aetio-pathogenesis of Pelvic Inflammatory Disease. Describe the pathology in acute and chronic Pelvic Inflammatory disease correctly.Discuss clinical features of Pelvic Inflammatory Disease. Discuss investigations of Pelvic Inflammatory Disease. Discuss management of Pelvic Inflammatory Disease. Enumerate the long term implications of Pelvic Inflammatory Disease. Unit 3 (Dr. S Agarwal)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.32.1 Describe and discuss the physiology of menopause, symptoms, prevention, management and the role of hormone replacement therapy.	IM18.16- Enumerate the indications describe and observe themultidisciplinary rehabilitation of patients with a CVA	OG28.1- Define Infertility, Primary Infertility, And Secondary Infertility. Report prevalence of Infertility. Describe factors essential for conception. Enumerate common causes of infertility [Male, Female]. Discuss how to investigate male factor infertility. Describe treat of male partner infertility. Discuss how to investigate & treat Anovulatory infertility. Unit 3 (Dr. S Agarwal)
Friday	Holiday		

IM25.8: Tests In Zoonotic Infections (Tutorial)	PE18.6 Perform Postnatal assesment of newborn and mother, provide advice on breast feeding, weaning and on family planning	11.11.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.32.1 Describe and discuss the physiology of menopause, symptoms, prevention, management and the role of hormone replacement therapy.		12.11.24
IM15.6: Approach to a patient of GI bleeding (Seminar)		13.11.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.24.3 Describe the principles of investigation and management of Pancreatic disorders including pancreatitis and endocrine tumors.	OR 9.1 Describe and discuss the aetiopathogenesis, clinical features, assessment and principles of management of Cerebral palsy patient	14.11.24
Holiday		15.11.24

Saturday	AETCOM Session: Module 4.8: Dealing with death	SU28.1.3 At the end of phase III students must be able to list out the principles of management of hernia with the knowledge that how hernia is repaired; S.U.25.1 Describe applied anatomy and appropriate investigations for breast disease	OG28.4- Define ART (Assisted Reproduction Technique). Enumerate different methods of ART. Describe principal steps of ART; OG29.1- Define fibroid correctly. The types of fibroid accurately. Discuss the etiology of fibroid uterus correctly. Describe the pathology of fibroid uterus correctly. Describe the clinical features of fibroid uterus correctly. Discuss the differential diagnosis of fibroid uterus correctly. Enumerate all the investigations of fibroid uterus correctly. Discuss the principles of management of fibroid uterus correctly. Discuss the complications of fibroid uterus. Unit 3 (Dr. S Agarwal)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.32.1 Describe and discuss the physiology of menopause, symptoms, prevention, management and the role of hormone replacement therapy.	Integration: BI 11.17 Explain the basis and rationale of biochemical tests done in the thyroid disorder; PA 32.1 Enumerate, classify and describe the etiology, pathogenesis, pathology and iodine dependency of thyroid swellings	16.11.24
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.24.3 Describe the principles of investigation and management of Pancreatic disorders including pancreatitis and endocrine tumors.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.32.1 Describe and discuss the physiology of menopause, symptoms, prevention, management and the role of hormone replacement therapy.	OG28.2. Discuss the Investigation & Treatment of Tubal Factor Infertility, including Tubal Patency tests & Tubal recanalisation operations. Unit 3 (Dr. S Agarwal)	IM25.8: Tests In Zoonotic Infections (Tutorial)	PE20.11 Discuss the clinical characteristics, complications and management of Low birth weight (preterm and Small for gestation); PE19.6 Assess patient for fitness for immunization and prescribe an age appropriate immunization schedule	18.11.24
Tuesday	OR10.1 Describe and discuss the etiopathogenesis, clinical features, investigations and principles of management of benign and malignant bone tumours and pathological fractures.	IM22.9- Enumerate the causes and describe the clinical and laboratory features of metabolic acidosis	OG31.1- Describe the etiology of prolapse of uterus. Describe the classification of prolapse of uterus. Describe clinical features of prolapse of uterus. Discuss diagnosis and investigation of prolapse of uterus. Discuss preventive aspect of prolapse of uterus. Discuss management of prolapse of uterus. Describe the etiology of prolapse of uterus. Describe the classification of prolapse of uterus. Describe clinical features of prolapse of uterus. Discuss diagnosis and investigation of prolapse of uterus. Discuss preventive aspect of prolapse of uterus. Discuss management of prolapse of uterus. Unit 3 (Dr. A Lalwani)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.32.2. Enumerate the causes of postmenopausal bleeding and describe its management		19.11.24
Wednesday	IM12.13 Describe the pharmacology, indications, adverse reaction, interactions of thyroxine and antithyroid drugs	SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.	OG32.2- Enumerate the causes of post menopausal bleeding correctly. describe the evaluation and management of Postmenopausal bleeding correctly. Unit 3 (Dr. S Agarwal)	IM15.12: Management of Mismatched Blood transfusion (Seminar); IM26.10: Confidentiality in Patient Care (Tutorial)		20.11.24
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.32.2. Enumerate the causes of postmenopausal bleeding and describe its management	IM19.1- Define and classify headache and describe the presenting features, precipitating factors, aggravating and relieving factors of various kinds of headache	OG33.1- Describe classification of cervical cancer. Describe etiology and pathology of cervical cancer. Discuss clinical features and differential diagnosis of cervical cancer. Discuss investigations and staging of cervical cancer. OG33.2- Describe management of benign lesions of cervix. Describe management of premalignant lesions of cervix. Unit 3 (Dr. S Agarwal)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast	OR11.1 Describe and discuss the etiopathogenesis, clinical features, investigations and principles of management peripheral nerve injuries in diseases like foot drop, wrist drop, claw hand, palsies of radial, ulnar, median, lateral popliteal and sciatic nerves.	21.11.24

Friday	PE20.12 Discuss the temperature regulation in neonates, clinical features and management of Neonatal Hypothermia	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.32.2. Enumerate the causes of postmenopausal bleeding and describe its management	OG33.2.Describe management of malignant lesions of cervix. Unit 3 (Dr. S Agarwal)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast	22.11.24	
Saturday	AETCOM Session: Module 4.2: Case studies in medico-legal and ethical	SU28.2.1 At the end of phase III students must be able to demonstrate the different test to Diagnose hernia.	OG33.3-Enumerate, Describe & demonstrate in a simulated environment (DOAP Session) the methods of cervical cancer screening. Unit 3 (Dr. A Lalwani)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.32.2. Enumerate the causes of postmenopausal bleeding and describe its management	Integration: PA 32.3 Describe the etiology, pathogenesis, manifestations, laboratory and imaging features and course of thyrotoxicosis/hypothyroidism; PH 1.36 Describe the mechanism of action, types, doses, side effects, indications and contraindications of drugs used in endocrine disorders	23.11.24
Monday	SU28.2.1 At the end of phase III students must be able to demonstrate the different test to Diagnose hernia.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.32.2. Enumerate the causes of postmenopausal bleeding and describe its management	Clinical Posting (P) OR 2.6 Describe and discuss Etiopathogenesis, mechanism of injury, clinical feature, investigation and principles of management of fracture of distal radius. Unit 1 (Dr. A Saraf)	IM21.1: Approach to a case of Poisoning (Tutorial)	PE19.10 Observe the handling and storing of vaccines PE19.11 Document Immunization in an immunization record	25.11.24
Tuesday	OR12.1 Describe and discuss the clinical features, investigations and principles of management of congenital and acquired malformations and deformities of: a. limbs and spine - scoliosis and spina bifida, b.congenital dislocation of hip, torticollis, c. congenital talipes equino varus.	IM22.10- Enumerate the causes and describe the clinical and laboratory features of metabolic alkalosis	Clinical Posting (P) OR 2.5 Describe and discuss the aetiopathogenesis, clinical features, mechanism of injury, Investigation and principles of management of fracture of both bone forearm and Galeazzi and Monteggia injury. Unit 1 (Dr. A Saraf)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.33.1 Classify, describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations and staging of cervical cancer		26.11.24
Wednesday	IM13.1 Describe the clinical epidemiology and inherited & modifiable risk factors for common malignancies in India	SU28.2.2 At the end of phase III student must be able to differentiate between direct and indirect inguinal hernia.	Clinical Posting (P) OR 2.4 Describe and discuss the mechanism of injury, clinical features, Investigation and principles of management of fracture of shaft humerus and intercondylar fracture humerus with emphasis on neurovascular deficit. Unit 1 (Dr. A Saraf)	IM16.1: Approach to Diarrhoea (Seminar)		27.11.24
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.33.1 Classify, describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations and staging of cervical cancer	IM19.1- Define and classify headache and describe the presenting features, precipitating factors, aggravating and relieving factors of various kinds of headache	Clinical Posting (P) OR 2.3 Select, prescribe and communicate appropriate medications for relief of joint pain. Unit 1 (Dr. A Saraf)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast	OR13.1 Participate in a team for procedures in patients and demonstrating the ability to perform on mannequins/ simulated patients in the following: i. Above elbow plaster ii. Below knee plaster iii. Above knee plaster iv. Thomas splint v. splinting for long bone fractures vi. strapping for shoulder and clavicle trauma	28.11.24
Friday	PE20.13 Discuss the temperature regulation in neonates, clinical features and management of Neonatal Hypoglycemia PE20.14 Discuss the etiology, clinical features and management of Neonatal hypocalcemia PE20.15 Discuss the etiology, clinical features and management of Neonatal seizures	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.33.1 Classify, describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations and staging of cervical cancer	Clinical Posting (P)OR 2.2 Describe and discuss the, mechanism of injury, clinical features, investigations and plan management of fractures of proximal humerus. Unit 2 (Dr. S Singh)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast		29.11.24
Saturday	AETCOM Session: Module 4.4: Case studies in ethics empathy and the doctor-patient relationship	SU28.2.3 At the end of phase III student must be able to identify all abdominal wall hernia & congenital hernia in children	Clinical Posting (P) OR2.1 Describe and discuss the, mechanism of injury, clinical features, investigations and principles of management of fractures of Clavicle. Unit 2 (Dr. S Singh)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.33.1 Classify, describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations and staging of cervical cancer	Integration: DR18.2 Enumerate the cutaneous features of hypo- & hyperthyroidism; PE 6.9 Perform routine Adolescent Health check up including eliciting history, performing examination including thyroid exam and the HEADSS screening	30.11.24

Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 25.4 Counsel the patient and obtain informed consent for treatment of malignant conditions of the breast	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.33.1 Classify, describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations and staging of cervical cancer	Clinical Posting (P) OR 1.6 Participate as a member in the team for closed reduction of Shoulder dislocation/ hip dislocation/ knee dislocation. Unit 2 (Dr. S Singh)
Tuesday	OR13.2 Participate as a member in team for resuscitation of polytrauma victim by all of the following : (a) I.V. access central - peripheral (b) bladder catheterisation (C) Endotracheal intubation (d) Splintage	IM22.11- Enumerate the causes and describe the clinical and laboratory features of respiratory acidosis	Clinical Posting (P) OR 1.5 Describe and discuss the aetiopathogenesis , clinical features ,investigations and principles of management of dislocation of major joints, shoulder, knee, hip . Unit 2 (Dr. S Singh)
Wednesday	IM13.2 Describe the genetic basis of selected cancers	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 25.4 Counsel the patient and obtain informed consent for treatment of malignant conditions of the breast	Clinical Posting (P) OR.1.4 Describe and discuss the Principles of Management of Soft Tissue Injuries. Unit 3 (Dr. M Sharma)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.33.3 Describe and demonstrate the screening for cervical cancer in a simulated environment	IM19.1- Define and classify headache and describe the presenting features, precipitating factors, aggravating and relieving factors of various kinds of headache	Clinical Posting (P) OR. 1.3 Describe and discuss the aetiopathogenesis, Clinical features, investigations and principles of management of soft tissue injuries. Unit 3 (Dr. M Sharma)
Friday	PE20.16 Discuss the etiology, clinical features and management of Neonatal Sepsis PE20.17 Discuss the etiology, clinical features and management of Perinatal infection	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 33.4 Enumerate the methods to prevent cancer of cervix including visual inspection with acetic acid (VIA), visual inspection of cervix with Lugol's iodine (VILI), pap smear and colposcopy	Clinical Posting (P) OR.1.2 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of shock. Unit 3 (Dr. M Sharma)
Saturday	AETCOM Session: Module 4.6: Case studies in ethics and the doctor industry relationship	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent	Clinical Posting (P) OR.1.1 Describe and discuss the Principles of pre hospital care and casualty management of a trauma victim including principles of triage. Unit 3 (Dr. M Sharma)
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.26.1 Outline the role of surgery in the management of coronary heart disease, valvular heart diseases and congenital heart diseases	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.34.1 Describe and discuss aetiology, pathology, staging clinical features, differential diagnosis, investigations, staging laparotomy and principles of management of endometrial cancer	PE1.4-Perform Anthropometric measurements, document in growth charts and interpret - Unit 1 (Dr. R R Singh)
Tuesday	OR14.2 Demonstrate the ability to counsel patients to obtain consent for various orthopaedic procedures like limb amputation, permanent fixations etc.	IM22.11- Enumerate the causes and describe the clinical and laboratory features of respiratory acidosis	PE1.7-Perform Developmental assessment and interpret - Unit 1 (Dr. R R Singh)

IM21.3: Approach to a case of Corrosive Poisoning (Tutorial)	PE24.9 Elicit, document and present history pertaining to diarrheal diseases PE24.10 Assess for signs of dehydration, document and present		02.12.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.33.2 Describe the principles of management including surgery and radiotherapy of Benign, Pre-malignant (CIN) and Malignant Lesions of the Cervix			03.12.24
IM17.1: Differential Diagnosis Of Headache (Seminar)			04.12.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent	OR14.1 Demonstrate the ability to counsel patients regarding prognosis in patients with various Orthopaedics Illnesses like : (a)fractures and disabilities (b) Fractures and required prolonged bed stay (C) Bone tumours (d) Congenital disabilities		05.12.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent			06.12.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.34.1 Describe and discuss aetiology, pathology, staging clinical features, differential diagnosis, investigations, staging laparotomy and principles of management of endometrial cancer	Integration: PE 33.1 Describe the etio-pathogenesis clinical features, management of Hypothyroidism in children; PE 33.3 Interpret and explain neonatal thyroid screening report		07.12.24
IM22.1: Approach to a case of Hypercalcemia (Tutorial)	PE24.14 Plan fluid management as per the WHO criteria		09.12.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.34.2 Describe and discuss the etiology, pathology, classification, staging of ovarian cancer, clinical features, differential diagnosis, investigations, principal of management including staging laparotomy			10.12.24

Wednesday	IM13.3 Describe the relationship between infection and cancers	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.26.1 Outline the role of surgery in the management of coronary heart disease, valvular heart diseases and congenital heart diseases	PE3.4-Counsel a parent of a child with developmental delay - Unit 1 (Dr. R R Singh)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 34.3 Describe and discuss the etiology, pathology, classification, staging, clinical features, differential diagnosis, investigations and management of gestational trophoblastic disease	IM19.2- Classify movement disorders of the brain based on distribution, rhythm, repetition, exacerbating and relieving factors	PE7.5-Observe the correct technique of breast feeding and distinguish right from wrong techniques - Unit 1 (Dr. R R Singh)
Friday	PE20.19 Discuss the etiology, clinical features and management of Neonatal hyperbilirubinemia	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 34.3 Describe and discuss the etiology, pathology, classification, staging, clinical features, differential diagnosis, investigations and management of gestational trophoblastic disease	PE10.3-Assessment of a patient with SAM and MAM, diagnosis, classification and planning management including hospital and community based intervention, rehabilitation and prevention - Unit 1 (Dr. R R Singh)
Saturday	AETCOM Session: Module 4.8: Dealing with death	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 26.3 Describe the clinical features of mediastinal diseases and the principles of management	PE9.5-Calculate the age related calorie requirement in Health and Disease and identify gap - Unit 1 (Dr. R R Singh)
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.26.1 Outline the role of surgery in the management of coronary heart disease, valvular heart diseases and congenital heart diseases	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.34.1 Describe and discuss aetiology, pathology, staging clinical features, differential diagnosis, investigations, staging laparotomy and principles of management of endometrial cancer	PE1.4-Perform Anthropometric measurements, document in growth charts and interpret - Unit 1 (Dr. R R Singh)
Tuesday	OR.1.1 Describe and discuss the Principles of pre hospital care and casualty management of a trauma victim including principles of triage	IM22.12- Enumerate the causes and describe the clinical and laboratory features of respiratory acidosis	PE12.8-Identify the clinical features of dietary deficiency of Vitamin - Unit 2 (Dr. R Jain)
Wednesday	IM13.4 Describe the natural history, presentation, course, complications and cause of death for common cancers	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.26.4 Describe the etiology, pathogenesis, clinical features of tumors of lung and the principles of management	PE1.4-Perform Anthropometric measurements, document in growth charts and interpret - Unit 2 (Dr. R Jain)

IM17.3: Primary Headache : Migraine (Seminar)		
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.26.1 Outline the role of surgery in the management of coronary heart disease, valvular heart diseases and congenital heart diseases	OR14.3 Demonstrate the ability to convince the patient for referral to a higher center in various orthopaedic illnesses, based on the detection on the warning signals and need for sophisticated management.	11.12.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 26.3 Describe the clinical features of mediastinal diseases and the principles of management		12.12.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 26.3 Describe the clinical features of mediastinal diseases and the principles of management		13.12.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.34.4 Operative Gynaecology : Understand and describe the technique and complications: Dilatation & Curettage (D&C); EA-ECC; cervical biopsy; abdominal hysterectomy; myomectomy; surgery for ovarian tumours; staging laparotomy; vaginal hysterectomy including pelvic floor repair; Fothergill's operation, Laparoscopy; hysteroscopy; management of postoperative complications	Integration: IM 12.2 Describe and discuss the genetic basis of some forms of thyroid dysfunction; IM 12.3 Describe and discuss the physiology of the hypothalamopituitary - thyroid axis, principles of thyroid function testing and alterations in physiologic function	14.12.24
IM22.1: Approach to a case of Hypercalcemia (Tutorial)	PE24.14 Plan fluid management as per the WHO criteria	16.12.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.35.1 Obtain a logical sequence of history, and perform a humane and thorough clinical examination, excluding internal examinations (per- rectal and per-vaginal)		17.12.24
IM18.1: Blood Supply of the Brain (Seminar); IM22.5: Approach to a case of Hyponatemia (Tutorial)		18.12.24

Week 40

Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.35.2 Arrive at a logical provisional diagnosis after examination.	IM19.2- Classify movement disorders of the brain based on distribution, rhythm, repetition, exacerbating and relieving factors	PE1.7-Perform Developmental assessment and interpret - Unit 2 (Dr. R Jain)
Friday	PE20.10 Discuss the etiology, clinical features and management of Hemorrhagic disease of New born	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.35.3 Recognize situations, which call for urgent or early treatment at secondary and tertiary centres and make a prompt referral of such patients after giving first aid or emergency treatment.	PE3.4-Counsel a parent of a child with developmental delay - Unit 2 (Dr. R Jain)
Saturday	AETCOM Session: Module 4.9: Medical Negligence	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.26.4 Describe the etiology, pathogenesis, clinical features of tumors of lung and the principles of management	PE7.5-Observe the correct technique of breast feeding and distinguish right from wrong techniques - Unit 2 (Dr. R Jain)
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.29.1 Describe the causes, investigations and principles of management of Hematuria	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.35.5 Determine gestational age, EDD and obstetric formula; 35.6 Demonstrate ethical behavior in all aspects of medical practice; 35.7 Obtain informed consent for any examination / procedure	PE10.3-Assessment of a patient with SAM and MAM, diagnosis, classification and planning management including hospital and community based intervention, rehabilitation and prevention - Unit 3 (Dr. Chitambaram)
Tuesday	OR. 1.3 Describe and discuss the aetiopathogenesis, Clinical features, investigations and principles of management of soft tissue injuries	IM22.12- Enumerate the causes and describe the clinical and laboratory features of respiratory alkalosis; IM13.5 Describe the common issues encountered in patients at the end of life and principles of managements	PE9.5-Calculate the age related caloric requirement in Health and Disease and identify gap - Unit 3 (Dr. Chitambaram); PE12.8-Identify the clinical features of dietary deficiency of Vitamin D - Unit 3 (Dr. Chitambaram)
Wednesday	Holiday		
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.35.12 Obtain a PAP smear in a stimulated environment; 35.13 Demonstrate the correct technique to perform artificial rupture of membranes in a simulated / supervised environment	IM19.8- Describe the functional anatomy of the locomotor system of the brain	PE15.3-Calculate the fluid and electrolyte requirement in health - Unit 3 (Dr. Chitambaram)
Friday	PE27.2 Describe the etio-pathogenesis, clinical approach and management of cardiorespiratory arrest in children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.35.14 Demonstrate the correct technique to perform and suture episiotomies in a simulated/ supervised environment; 35.15 Demonstrate the correct technique to insert and remove an IUD in a simulated/ supervised environment	PE1.4-Perform Anthropometric measurements, document in growth charts and interpret - Unit 3 (Dr. Chitambaram)

Week 41

Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.26.4 Describe the etiology, pathogenesis, clinical features of tumors of lung and the principles of management	OR.1.2 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of shock.		19.12.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.26.4 Describe the etiology, pathogenesis, clinical features of tumors of lung and the principles of management			20.12.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.35.4 Demonstrate interpersonal and communication skills befitting a physician in order to discuss illness and its outcome with patient and family	Integration: IM 12.4 Describe and discuss the principles of radio iodine uptake in the diagnosis of thyroid disorders; IM 12.5 Elicit document and present an appropriate history that will establish the diagnosis cause of thyroid dysfunction and its severity		21.12.24
IM22.6: Approach to case of Hyponatremia (Tutorial)	PE26.9 Interpret Liver Function Tests, viral markers, ultra sonogram report		23.12.24
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.35.8 Write a complete case record with all necessary details; 35.9 Write a proper discharge summary with all relevant information; 35.11 Demonstrate the correct use of appropriate universal precautions for self-protection against HIV and hepatitis and counselepatients			24.12.24
Holiday			25.12.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.29.1 Describe the causes, investigations and principles of management of Hematuria; S.U.29.2 Describe the clinical features, investigations and principles of management of congenital anomalies of genitourinary system	OR.1.4 Describe and discuss the Principles of Management of Soft Tissue Injuries.		26.12.24
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.29.2 Describe the clinical features, investigations and principles of management of congenital anomalies of genitourinary system			27.12.24

Saturday	AETCOM Session: Module 4.2: Case studies in medico-legal and ethical situations	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.29.3 Describe the Clinical features, Investigations and principles of management of urinary tract infections	PE1.7-Perform Developmental assessment and interpret - Unit 3 (Dr. Chitambaram)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 35.16 Diagnose and provide emergency management of antepartum and postpartum hemorrhage in a simulated / guided environment; 35.17 Demonstrate the correct technique of urinary catheterisation in a simulated/ supervised environment	Integration: IM 4.1 Describe and discuss the febrile response and the influence of host immune status, risk factors and comorbidities on the febrile response; IM 4.2 Describe and discuss the influence of special populations on the febrile response including: the elderly, immune suppression, malignancy and neutropenia, HIV and travel	28.12.24
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.29.4 Describe the clinical features, investigations and principles of management of hydronephrosis	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 36.1 Plan and institute a line of treatment, which is need based, cost effective and appropriate for common conditions taking into consideration (a) Patient (b) Disease (c) Socio-economic status (d) Institution/ Governmentalguidelines	PE3.4-Counsel a parent of a child with developmental delay - Unit 1 (Dr. R R Singh)	IM22.7: Approach to Case of Hypokalemia (Tutorial)	PE29.11 Identify external markers for hematological disorders e.g.. Jaundice, Pallor, Petechiae purpura, Ecchymosis, Lymphadenopathy, bone tenderness, loss of weight, Mucosal and large joint bleed	30.12.24
Tuesday	OR 1.5 Describe and discuss the aetiopathogenesis , clinical features ,investigations and principles of management of dislocation of major joints, shoulder, knee, hip	IM22.12- Enumerate the causes and describe the clinical and laboratory features of respiratory alkalosis	PE7.5-Observe the correct technique of breast feeding and distinguish right from wrong techniques - Unit 1 (Dr. R R Singh)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.36.2 Organise antenatal, postnatal, well-baby and family welfare clinics		31.12.24
Wednesday	IM13.5 Describe the common issues encountered in patients at the end of life and principles of managements	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.29.5 Describe the clinical features,investigations and principles of management of renal calculi	PE10.3-Assessment of a patient with SAM and MAM, diagnosis, classification and planning management including hospital and community based intervention, rehabilitation and prevention - Unit 2	IM18.2: Approach to a Stroke patient (Seminar); IM18.8: Bladder Dysfunction in CNS diseases (Seminar)		01.01.25
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.36.3 Demonstrate the correct technique of punch biopsy of uterus in a simulated/ supervised environment	IM19.8- Describe the functional anatomy of the locomotor system of the brain	PE9.5-Calculate the age related calorie requirement in Health and Disease and identify gap - Unit 2 (Dr. B Maini)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.29.6 Describe the clinical features, investigations and principles of management of renal tumours	OR 1.6 Participate as a member in the team for closed reduction of Shoulder dislocation/ hip dislocation/ knee dislocation.	02.01.25
Friday	PE20.20 Identify clinical presentations of common surgical conditions in the new born including TEF, esophageal atresia, anal atresia, cleft lip and palate, congenital diaphragmatic hernia and causes of acute abdomen	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 29.8 Describe the performance of a Caesarean section	PE12.8-Identify the clinical features of dietary deficiency of Vitamin - Unit 3 (Dr. Chitambaram)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 29.7 Describe the principles of management of acute and chronic retention of urine		03.01.25
Saturday	AETCOM Session: Module 4.4: Case studies in ethics empathy and the doctor-patient relationship	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 29.8 Describe the clinical features, investigations and principles of management of bladder cancer	PE15.3-Calculate the fluid and electrolyte requirement in health - Unit 3 (Dr. Chitambaram)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.37.2 Observe and assist in the performance of Laparotomy	Integration: IM 4.18 Enumerate the indications for use of imaging in the diagnosis of febrile syndromes; PE 30.7 Discuss the etio-pathogenesis, clinical features, complications and management of Febrile seizures in children	04.01.25
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.29.9 Describe the clinical features, investigations and principles of management of disorders of prostate	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 37.3 Observe and assist in the performance of Hysterectomy – abdominal/vaginal	Clinical Posting (P) : D.R.1.2 Identify and grade the various common types of acne - Dr. K S Dhillon	IM22.8: Approach to a Case of Hyperkalemia (Tutorial)	PE 20.18 identify and stratify risk in a sick neonate using IMNCI guidelines	06.01.25

Tuesday	OR2.1 Describe and discuss the , mechanism of injury, clinical features, investigations and principles of management of fractures of Clavicle	IM22.12- Enumerate the causes and describe the clinical and laboratory features of respiratory alkalosis	Clinical Posting (P): D.R. 2.1 Identify and differentiate Vitiligo from other causes of hypopigmented lesions - Dr. K S Dhillon
Wednesday	IM13.6 Describe and distinguish the difference between curative and palliative care in patients with cancer	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 29.10 Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent	Clinical Posting (P): D.R.3.1 Identify and distinguish psoriatic lesions from other causes; D.R.3.2 Demonstrate the grattage test - Dr. K S Dhillon
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 37.5 Observe and assist in the performance of Endometrial aspiration - endocervical curettage (EA-ECC)	IM22.13- Identify the underlying acid based disorders correctly based on ABG report and clinical situation	Clinical Posting (P): D.R.4.1 Identify and distinguish lichen planus lesions from other causes; D.R.5.2 Identify and differentiate scabies from other lesions in adults and children -Dr. K S Dhillon
Friday	PE27.8 Discuss the common types, clinical presentations and management of poisoning in children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 37.6 Observe and assist in the performance of outlet forceps application of vacuum and breech delivery	Clinical Posting (P): D.R. 7.2 Identify Candida species in fungal scrapings and KOH mount - Dr. Manu Singh
Saturday	AETCOM Session: Module 4.6: Case studies in ethics and the doctor industry relationship	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 30.2 Describe the applied anatomy clinical features, investigations and principles of management of undescended testis	Clinical Posting (P): D.R. 8.2 Identify and distinguish herpes simplex and herpes labialis from other skin lesions ; D.R. 8.3 identify and distinguish herpes zoster and varicella from other skin lesions - Dr. Manu Singh
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 30.3 Describe the applied anatomy clinical features, investigations and principles of management of epididymo-orchitis	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 38.1 Laparoscopy	Clinical Posting (P): D.R.8.4 Identify and distinguish viral warts from other skin lesions ; D.R.8.5 Identify and distinguish molluscum contagiosum from other skin lesions - Dr. Manu Singh
Tuesday	OR 2.3 Select, prescribe and communicate appropriate medications for relief of joint pain	IM22.13- Identify the underlying acid based disorders correctly based on ABG report and clinical situation	Clinical Posting (P): D.R. 9.2 Demonstrate (and classify based on) the clinical features of leprosy including an appropriate neurologic examination; D.R.10.1 Identify and classify syphilis based on the presentation and clinical manifestation - Dr. Manu Singh
Wednesday	IM13.6 Describe and distinguish the difference between curative and palliative care in patients with cancer	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.30.4 Describe the applied anatomy clinical features, investigations and principles of management of varicocele	Clinical Posting (P) : D.R.10.2 Identify spirochete in a dark ground microscopy; D.R.10.5 Counsel in a non-judgemental and empathetic manner patients on prevention of sexually transmitted diseases - Dr. D Meena

Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 37.4 Observe and assist in the performance of Dilatation & Curettage (D&C)		07.01.25
IM18.11: Management of a Patient of Ischemic Stroke (Seminar)		08.01.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 29.11 Describe clinical features, investigations and management of urethral strictures	OR 2.2 Describe and discuss the, mechanism of injury, clinical features, investigations and plan management of fractures of proximal humerus	09.01.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis.		10.01.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.37.7 Observe and assist in the performance of MTP in the first trimester and evacuation in incomplete abortion	Integration: Integrated Teaching as decided by AITo - SU22.4 - Describe the clinical features, classification and principles of management of thyroid cancer; IM12.4 - Describe and discuss the principles of radio iodine uptake in the diagnosis of thyroid disorders	11.01.25
IM25.1: Approach to a case of Tetanus (Tutorial)	PE26.12 discuss the prevention of hepatitis B infection ,Universal precaution and Immunisation and counselling; PE27.5 Describe the etio-pathogenesis, clinical approach and management of Shock in children	13.01.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 38.1 Laparoscopy		14.01.25
IM18.14: Management of Haemorrhagic Stroke (Seminar)		15.01.25

Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 38.2 Hysteroscopy	IM19.9- Enumerate the indications for use of surgery and botulinum toxin in the treatment of movement disorders	Clinical Posting (P): D.R. 11.2 Identify and distinguish the dermatologic manifestations of HIV, its complications, opportunistic infections and adverse reactions -Dr. D Meena	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele	OR 2.4 Describe and discuss the mechanism of injury, clinical features, Investigation and principles of management of fracture of shaft humerus and intercondylar fracture humerus with emphasis on neurovascular deficit.	16.05.25
Friday	PE27.8 Discuss the common types, clinical presentations and management of poisoning in children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 37.6 Observe and assist in the performance of outlet forceps application of vacuum and breech delivery	Clinical Posting (P): D.R. 7.2 Identify Candida species in fungal scrapings and KOH mount - Dr. Manu Singh	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis.		17.01.25
Saturday	AETCOM Session: Module 4.8: Dealing with death	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis	Clinical Posting (P) D.R.12.6 Identify and distinguish exfoliative dermatitis from other skin lesions; D.R. 16.1-18.1 Identify and Distinguish Skin lesions - Dr. R K Singh	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 38.2 Hysteroscopy	Integration: Integrated Teaching as decided by AITo - PE33.1 - Describe the etio- pathogenesis clinical features, management of Hypothyroidism in children; PA23.3 - Describe and interpret the abnormalities in thyroid function tests	18.01.25

Teerthanker Mahaveer Medical College & Research Center
Teerthanker Mahaveer University
Delhi Road, Moradabad - 244001
Time Table Schedule (Consolidated as per New Curriculum w.e.f AUGUST 2019) w.e.f. January 2024

Day/Time	10:00 am - 1:00 pm	Date
Electives Week 1	Monday IM9.3- Elicit document and present a medical history that includes symptoms, risk factors including GI bleeding, prior history, medications, menstrual history, and family history - Unit 1 (Dr. V K Singh)	22.01.24
	Tuesday IM9.4- Perform a systematic examination that includes: general examination for pallor, oral examination, DOAP session of hyperdynamic circulation, lymph node and splenic examination - Unit 1 (Dr. V K Singh)	23.01.24
	Wednesday IM9.5- Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology - Unit 1 (Dr. V K Singh)	24.01.24
	Thursday IM9.6- Describe the appropriate diagnostic work up based on the presumed aetiology - Unit 1 (Dr. V K Singh)	25.01.24
	Friday IM9.9- Order and interpret tests for anaemia including hemogram, red cell indices, reticulocyte count, iron studies, B12 and folate - Unit 1 (Dr. V K Singh)	26.01.24
	Saturday IM9.10- Describe, perform and interpret a peripheral smear and stool occult blood - Unit 2 (Dr. Vishvanayak)	27.01.24
Electives Week 2	Monday IM9.13- Prescribe replacement therapy with iron, B12, folate - Unit 2 (Dr. Vishvanayak)	29.01.24
	Tuesday IM9.15- Communicate the diagnosis and the treatment appropriately to patients - Unit 2 (Dr. Vishvanayak)	30.01.24
	Wednesday IM9.16- Incorporate patient preferences in the management of anaemia - Unit 2 (Dr. Vishvanayak)	31.01.24
	Thursday IM9.19- Assist a blood transfusion Unit 2 (Dr. Vishvanayak)	01.02.24
	Friday IM9.20- Communicate and counsel patients with methods to prevent nutritional anaemia - Unit 3 (Dr. K Gopal)	02.02.24
Electives Week 3	Saturday IM10.12- Elicit document and present a medical history that will differentiate the etiologies of disease, distinguish acute and chronic disease, identify predisposing conditions, nephrotoxic drugs and systemic causes Unit 3 (Dr. K Gopal)	03.02.24
	Monday IM10.13- Perform a systemic examination that establishes the diagnosis and severity including determining of volume status, presence of edema and heart failure, features of uremia and associated systemic disease. Unit 3 (Dr. K Gopal)	05.02.24
	Tuesday IM10.14- Generate a differential diagnosis and prioritise based on clinical features that suggest specific etiology Unit 3 (Dr. K Gopal)	06.02.24
	Wednesday IM10.18- Identify the ECG findings in Hyperkalemia. Unit 3 (Dr. K Gopal)	07.02.24
	Thursday IM10.19- Enumerate the indications and describe the findings in renal ultrasound. - Unit 4 (Dr. J Haria)	08.02.24
	Friday IM10.20- Describe and discuss the indications to perform arterial blood gas analysis: interpret the data - Unit 4 (Dr. J Haria)	09.02.24
	Saturday IM10.21- Describe and discuss the indications for and insert a peripheral intravenous catheter - Unit 4 (Dr. J Haria)	10.02.24
Electives Week 4	Monday IM10.22- Describe and discuss the indications, demonstrate in a model and assist in the insertion of a central venous or a dialysis catheter - Unit 4 (Dr. J Haria)	12.02.24
	Tuesday IM10.23- Communicate diagnosis treatment plan and subsequent followup to patients - Unit 4 (Dr. J Haria)	13.02.24
	Wednesday IM10.24- Counsel patients on renal diet - Unit 5 (Dr. A Kumar)	14.02.24
	Thursday IM11.7- Elicit document and present a medical history that will differentiate the aetiologies of diabetes including risk factors, precipitating factors, lifestyle, nutritional history, family history, medication history, co-morbidities and target organ disease - Unit 5 (Dr. A Kumar)	15.02.24
	Friday IM11.8- Perform a systematic examination that establishes the diagnosis and severity that includes skin, peripheral pulses, blood pressure measurement, fundus examination, detailed examination of the foot (pulses, nervous and deformities and injuries) - Unit 5 (Dr. A Kumar)	16.02.24
	Saturday IM11.9- Describe and recognise the clinical features of patients who present with a diabetic emergency - Unit 5 (Dr. A Kumar)	17.02.24

Students will be divided into three batches of 50 each and posted for 4 weeks in Medicine, Surgery and Obstetrics & Gynecology during their Electives

A Batch of 10 students will be allocated to each unit of medicine and they would further be distributed in five faculty members of each unit and would be assigned the bed number of patients whom they would follow as per competencies decided

Day/Time	10:00 am - 1:00 pm	Date
Week 1	Monday IM11.10- Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology - Unit 1 (Dr. V K Singh)	19.02.24
	Tuesday IM11.11- Order and interpret laboratory tests to diagnose diabetes and its complications including: glucoses, glucose tolerance test, glycosylated hemoglobin, urinary micro albumin, ECG, electrolytes, ABG, ketones, renal function tests and lipid profile - Unit 1 (Dr. V K Singh)	20.02.24

We	Wednesday	IM11.12- Perform and interpret a capillary blood glucose test - Unit 1 (Dr. V K Singh)	21.02.24
	Thursday	IM11.12- Perform and interpret a capillary blood glucose test - Unit 1 (Dr. V K Singh)	22.02.24
Week 2	Friday	IM11.13- Perform and interpret a urinary ketone estimation with a dipstick - Unit 1 (Dr. V K Singh)	23.02.24
	Saturday	IM11.14- Recognise the presentation of hypoglycaemia and outline the principles on its therapy Unit 1 (Dr. V K Singh)	24.04.24
	Monday	IM11.15- Recognise the presentation of diabetic emergencies and outline the principles of	26.02.24
	Tuesday	IM11.16- Discuss and describe the pharmacologic therapies for diabetes their indications, contraindications, adverse reactions and interactions - Unit 1 (Dr. V K Singh)	27.02.24
	Wednesday	IM11.17- Outline a therapeutic approach to therapy of T2Diabetes based on presentation, severity and complications in a cost effective manner - Unit 1 (Dr. V K Singh)	28.02.24
	Thursday	IM11.17- Outline a therapeutic approach to therapy of T2Diabetes based on presentation, severity and complications in a cost effective manner - Unit 1 (Dr. V K Singh)	29.02.24
	Friday	IM11.19- Demonstrate and counsel patients on the correct technique to administer insulin - Unit 1 (Dr. V K Singh)	01.03.24
	Saturday	IM11.20- Demonstrate to and counsel patients correct technique on the of self-monitoring of blood glucoses - Unit 1 (Dr. V K Singh)	02.03.24
	Monday	IM11.21- Recognise the importance of patient preference while selecting therapy for diabetes - Unit 1 (Dr. V K Singh)	04.03.24
	Tuesday	IM12.5- Elicit document and present an appropriate history that will establish the diagnosis cause of thyroid dysfunction and its severity - Unit 1 (Dr. V K Singh)	05.03.24
Week 3	Wednesday	IM12.6- Perform and demonstrate a systematic examination based on the history that will help establish the diagnosis and severity including systemic signs of thyrotoxicosis and	06.03.24
	Thursday	IM12.7- Demonstrate the correct technique to palpate the thyroid - Unit 1 (Dr. V K Singh)	07.03.24
	Friday	IM12.8- Generate a differential diagnosis based on the clinical presentation and prioritise it	08.03.24
	Saturday	IM12.9- Order and interpret diagnostic testing based on the clinical diagnosis including CBC, thyroid function tests and ECG and radio iodine uptake and scan - Unit 1 (Dr. V K Singh)	09.03.24
	Monday	IM12.10- Identify atrial fibrillation, pericardial effusion and bradycardia on ECG - Unit 2 (Dr. Vishvanayak)	11.03.24
	Tuesday	IM12.11- Interpret thyroid function tests in hypo and hyperthyroidism Unit 2 (Dr. Vishvanayak)	12.03.24
Week 4	Wednesday	IM12.14- Write and communicate to the patient appropriately a prescription for thyroxine based on age, sex, and clinical and biochemical status Unit 2 (Dr. Vishvanayak)	13.03.24
	Thursday	IM12.15- Describe and discuss the indications of thionamide therapy, radio iodine therapy and surgery in the management of thyrotoxicosis Unit 2 (Dr. Vishvanayak)	14.03.24
	Friday	IM13.7- Elicit document and present a history that will help establish the aetiology of cancer and includes the appropriate risk factors, duration and evolution Unit 2 (Dr. Vishvanayak)	15.03.24
	Saturday	IM13.8- Perform and demonstrate a physical examination that includes an appropriate general and local examination that excludes the diagnosis, extent spread and complications of cancer	16.03.24
	Monday	IM13.9- Demonstrate in a mannequin the correct technique for performing breast exam, rectal examination and cervical examination and pap smear Unit 2 (Dr. Vishvanayak)	18.03.24
Week 5	Tuesday	IM13.10- Generate a differential diagnosis based on the presenting symptoms and clinical features and prioritise based on the most likely diagnosis Unit 2 (Dr. Vishvanayak)	19.03.24
	Wednesday	IM13.11- Order and interpret diagnostic testing based on the clinical diagnosis including CBC and stool occult blood and prostate specific antigen Unit 2 (Dr. Vishvanayak)	20.03.24
	Thursday	IM13.12- Describe the indications and interpret the results of Chest X Ray, mammogram, skin	21.03.24
	Friday	IM9.13- Describe and assess pain and suffering objectively in a patient with cancer Unit 2 (Dr. Vishvanayak)	22.03.24
	Saturday	IM13.14- Describe the indications for surgery, radiation and chemotherapy for malignancies Unit 2 (Dr. Vishvanayak)	23.03.24
Holi Vacations 25.03.24-30.03.24			
Week 6	Monday	IM13.15- Describe the need, tests involved, their utility in the prevention of common malignancies Unit 2 (Dr. Vishvanayak)	01.04.24
	Tuesday	IM13.16- Demonstrate an understanding and needs and preferences of patients when choosing curative and palliative therapy Unit 2 (Dr. Vishvanayak)	02.04.24
	Wednesday	IM13.17- Describe and enumerate the indications, use, side effects of narcotics in pain alleviation in patients with cancer Unit 2 (Dr. Vishvanayak)	03.04.24
	Thursday	IM13.18- Describe and discuss the ethical and the medico legal issues involved in end of life care - Unit 3 (Dr. K Gopal)	04.04.24
	Friday	IM13.19- Describe the therapies used in alleviating suffering in patients at the end of life - Unit 3 (Dr. K Gopal)	05.04.24
	Saturday	IM14.6- Elicit and document and present an appropriate history that includes the natural history, dietary history, modifiable risk factors, family history, clues for secondary causes and motivation to lose weight - Unit 3 (Dr. K Gopal)	06.04.24

Students will be divided into three batches of 50 each and posted for 8 weeks in Medicine, Surgery and Obstetrics & Gynecology

Week 7	Monday	IM 14.7- Perform, document and demonstrate a physical examination based on the history that includes general examination, measurement of abdominal obesity, signs of secondary causes and co-morbidities - Unit 3 (Dr. K Gopal)	08.04.24
	Tuesday	IM 14.8- Generate a differential diagnosis based on the presenting symptoms and clinical features and prioritise based on the most likely diagnosis - Unit 3 (Dr. K Gopal)	09.04.24
	Wednesday	IM 14.9- Order and interpret diagnostic tests based on the clinical diagnosis including blood glucose, lipids, thyroid function tests etc - Unit 3 (Dr. K Gopal)	10.04.24
	Thursday	IM14.10- Describe the indications and interpret the results of tests for secondary causes of obesity - Unit 3 (Dr. K Gopal)	11.04.24
	Friday	IM14.11- Communicate and counsel patient on behavioural, dietary and lifestyle modifications - Unit 3 (Dr. K Gopal)	12.04.24
	Saturday	IM14.12- Demonstrate an understanding of patient's inability to adhere to lifestyle instructions and counsel them in a non-judgemental way - Unit 3 (Dr. K Gopal)	13.04.24
First Terminal Exam 01.04.24 to 13.04.24			
Week 8	Monday	IM17.2- Elicit and document and present an appropriate history including aura, precipitating aggravating and relieving factors, associated symptoms that help identify the cause of headaches - Unit 3 (Dr. K Gopal)	15.04.24
	Tuesday	IM17.3- Classify migraine and describe the distinguishing features between classical and non classical forms of migraine - Unit 3 (Dr. K Gopal)	16.04.24
	Wednesday	IM17.4- Perform and demonstrate a general neurologic examination and a focused examination for signs of intracranial tension including neck signs of meningitis - Unit 3 (Dr. K Gopal)	17.04.24
	Thursday	IM17.5- Generate document and present a differential diagnosis based on the clinical features and prioritise the diagnosis based on the presentation - Unit 3 (Dr. K Gopal)	18.04.24
	Friday	IM17.7- Enumerate the indications and describe the findings in the CSF in patients with meningitis - Unit 3 (Dr. K Gopal)	19.04.24
	Saturday	IM17.8- Demonstrate in a mannequin or equivalent the correct technique for performing a lumbar puncture - Unit 3 (Dr. K Gopal)	20.04.24
Week 9	Monday	IM17.14- Counsel patients with migraine and tension headache on lifestyle changes and need for prophylactic therapy - Unit 4 (Dr. J Haria)	22.04.24
	Tuesday	IM18.3- Elicit and document and present an appropriate history including onset, progression, precipitating and aggravating relieving factors, associated symptoms that help identify the cause of the cerebrovascular accident - Unit 4 (Dr. J Haria)	23.04.24
	Wednesday	IM18.4- Identify the nature of the cerebrovascular accident based on the temporal evolution and resolution of the illness - Unit 4 (Dr. J Haria)	24.04.24
	Thursday	IM18.5- Perform, demonstrate & document physical examination that includes general and a detailed neurologic examination as appropriate, based on the history - Unit 4 (Dr. J Haria)	25.04.24
	Friday	IM18.6- Distinguish the lesion based on upper vs lower motor neuron, side, site and most probable nature of the lesion - Unit 4 (Dr. J Haria)	26.04.24
	Saturday	IM18.7- Describe the clinical features and distinguish, based on clinical examination, the various disorders of speech - Unit 4 (Dr. J Haria)	27.04.24
Week 10	Monday	IM18.8- Describe and distinguish, based on the clinical presentation, the types of bladder dysfunction seen in CNS disease - Unit 4 (Dr. J Haria)	29.04.24
	Tuesday	IM18.9- Choose and interpret the appropriate diagnostic and imaging test that will delineate the anatomy and underlying cause of the lesion - Unit 4 (Dr. J Haria)	30.04.24
	Wednesday	IM18.17- Counsel patient and family about the diagnosis and therapy in an empathetic manner - Unit 4 (Dr. J Haria)	01.05.24
	Thursday	IM19.3- Elicit and document and present an appropriate history including onset, progression precipitating and aggravating relieving factors, associated symptoms that help identify the cause of the movement disorders - Unit 4 (Dr. J Haria)	02.05.24
	Friday	IM19.4- Perform, demonstrate and document a physical examination that includes a general examination and a detailed neurologic examination using standard movement rating scales - Unit 4 (Dr. J Haria)	03.05.24
	Saturday	IM19.5- Generate document and present a differential diagnosis and prioritise based on the history and physical examination - Unit 4 (Dr. J Haria)	04.05.24
Week 11	Monday	IM19.6- Make a clinical diagnosis regarding on the anatomical location, nature and cause of the lesion based on the clinical presentation and findings - Unit 5 (Dr. A Kumar)	06.05.24
	Tuesday	IM19.7- Choose and interpret diagnostic and imaging tests in the diagnosis of movement disorders - Unit 5 (Dr. A Kumar)	07.05.24
	Wednesday	M26.1- Enumerate and describe professional qualities and roles of a physician - Unit 5 (Dr. A Kumar)	08.05.24
	Thursday	M26.2- Describe and discuss the commitment to lifelong learning as an important part of physician growth - Unit 5 (Dr. A Kumar)	09.05.24
	Friday	M26.3- Describe and discuss the role of non maleficence as a guiding principle in patient care - Unit 5 (Dr. A Kumar)	10.05.24
	Saturday	M26.4- Describe and discuss the role of autonomy and shared responsibility as a guiding principle in patient care - Unit 5 (Dr. A Kumar)	11.05.24

Week 12	Monday	M26.5- Describe and discuss the role of beneficence of a guiding principle in patient care - Unit 5 (Dr. A Kumar)	13.05.24	Students will be divided into three batches of 50 each and posted for 8 weeks in Medicine, Surgery and Obstetrics & Gynecology
	Tuesday	M26.6- Describe and discuss the role of a physician in health care system - Unit 5 (Dr. A Kumar)	14.05.24	
	Wednesday	M26.7- Describe and discuss the role of justice as a guiding principle in patient care - Unit 5 (Dr. A Kumar)	15.05.24	
	Thursday	M26.8- Identify discuss medicolegal, socioeconomic and ethical issues as it pertains to organ donation - Unit 5 (Dr. A Kumar)	16.05.24	
	Friday	M26.9- Identify, discuss and defend medicolegal, sociocultural, economic and ethical issues as it pertains to rights, equity and justice in access to health care- Unit 5 (Dr. A Kumar)	17.05.24	
	Saturday	M26.10- Identify, discuss and defend medicolegal, socio-cultural and ethical issues as it pertains to confidentiality in patient care - Unit 5 (Dr. A Kumar)	18.05.24	
Week 13	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh) - SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling	20.05.24	
	Tuesday	Clinical Posting (P): Unit II(Dr.Vipin Agarwal - SU28.18 Describe and demonstrate clinical examination of abdomen. Order relevant investigations	21.05.24	
	Wednesday	Clinical Posting (P): Unit III(Dr. R K Kaul)-SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast	22.05.24	
	Thursday	Clinical Posting (P): Unit IV(Dr. A K Singh)-SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast.	23.05.24	
	Friday	Clinical Posting (P): Unit V(Dr.C K JHAKMOLA)-SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent	24.05.24	
	Saturday	Clinical Posting (P):Unit in Rotation -SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease	25.05.24	
Week 14	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh - SU27.5 Describe the applied anatomy of venous system of lower limb	27.05.24	
	Tuesday	Clinical Posting (P)Unit II(Dr. Vipin Agarwal SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins	28.05.24	
	Wednesday	Clinical Posting (P):Unit III(Dr. R K Kaul) SU28.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias	29.05.24	
	Thursday	Clinical Posting (P)::Unit IV (Dr. A K Singh)SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.	30.05.24	
	Friday	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU28.9 Demonstrate the correct technique of examination of a patient with disorders of the stomach	31.05.24	
	Saturday	Clinical Posting (P)Unit in Rotation SU28.11 Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post-splenectomy sepsis - prophylaxis	01.06.24	
Week 15	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh) - SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling	03.06.24	
	Tuesday	Clinical Posting (P): Unit II(Dr. Vipin Agarwal - SU28.18 Describe and demonstrate clinical examination of abdomen. Order relevant investigations	04.06.24	
	Wednesday	Clinical Posting (P): Unit III(Dr. R K Kaul)-SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast	05.06.24	
	Thursday	Clinical Posting (P): Unit IV(Dr. A K Singh)-SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast.	06.06.24	
	Friday	Clinical Posting (P): Unit V(Dr.C K JHAKMOLA)-SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent	07.06.24	
	Saturday	Clinical Posting (P):Unit in Rotation -SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease	08.06.24	
Week 16	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh - SU27.5 Describe the applied anatomy of venous system of lower limb	10.06.24	
	Tuesday	Clinical Posting (P)Unit II(Dr. Vipin Agarwal SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins	11.06.24	
	Wednesday	Clinical Posting (P):Unit III(Dr. R K Kaul) SU28.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias	12.06.24	
	Thursday	Clinical Posting (P)::Unit IV (Dr. A K Singh)SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.	13.06.24	
	Friday	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU28.9 Demonstrate the correct technique of examination of a patient with disorders of the stomach	14.06.24	
	Saturday	Clinical Posting (P)Unit in Rotation SU28.11 Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post-splenectomy sepsis - prophylaxis	15.06.24	
	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh) - SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling	17.06.24	

Week 17	Tuesday	Clinical Posting (P): Unit II(Dr. Vipin Agarwal SU28.18 Describe and demonstrate clinical examination of abdomen. Order relevant investigations	18.06.24
	Wednesday	Clinical Posting (P): Unit III(Dr. R K Kaul)-SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast	19.06.24
	Thursday	Clinical Posting (P): Unit IV(Dr. A K Singh)-SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast.	20.06.24
	Friday	Clinical Posting (P): Unit V(Dr.C K JHAKMOLA)-SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent	21.06.24
	Saturday	Clinical Posting (P):Unit in Rotation -SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease	22.06.24
	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh - SU27.5 Describe the applied anatomy of venous system of lower limb	24.06.24
Week 18	Tuesday	Clinical Posting (P)Unit II(Dr. Vipin Agarwal SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins	25.06.24
	Wednesday	Clinical Posting (P):Unit III(Dr. R K Kaul) SU28.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias	26.06.24
	Thursday	Clinical Posting (P)::Unit IV (Dr. A K Singh)SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.	27.06.24
	Friday	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU28.9 Demonstrate the correct technique of examination of a patient with disorders of the stomach	28.06.24
	Saturday	Clinical Posting (P)Unit in Rotation SU28.11 Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the	29.06.24
	Monday	Clinical Posting (P):Unit I (Dr. N.K. Singh)SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver	01.07.24
Week 19	Tuesday	Clinical Posting (P):Unit II (Dr. Vipin Agarwal SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system	02.07.24
	Wednesday	Clinical Posting (P): Unit III(Dr. R K Kaul) SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis	03.07.24
	Thursday	Clinical Posting (P):Unit IV(Dr. A K Singh) SU22.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management	04.07.24
	Friday	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU29.1 Describe the causes, investigations and principles of management of Hematuria	05.07.24
	Saturday	Clinical Posting (P): Unit in Rotation SU29.5 Describe the clinical features,investigations and principles of management of renal calculi	06.07.24
	Monday	Clinical Posting (P):Unit I (Dr. N.K. Singh)SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver	08.07.24
Week 20	Tuesday	Clinical Posting (P):Unit II (Vipin Agarwal SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system	09.07.24
	Wednesday	Clinical Posting (P): Unit III(Dr. R K Kaul) SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis	10.07.24
	Thursday	Clinical Posting (P):Unit IV(Dr. A K Singh) SU22.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management	11.07.24
	Friday	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU29.1 Describe the causes, investigations and principles of management of Hematuria	12.07.24
	Saturday	Clinical Posting (P): Unit in Rotation SU29.5 Describe the clinical features,investigations and principles of management of renal calculi	13.07.24
	Monday	Clinical Posting (P):Unit I (Dr. N.K. Singh)SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver	15.07.24
Week 21	Tuesday	Clinical Posting (P):Unit II (Dr. Vipin Agarwal SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system	16.07.24
	Wednesday	Clinical Posting (P): Unit III(Dr. R K Kaul) SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis	17.07.24
	Thursday	Clinical Posting (P):Unit IV(Dr. A K Singh) SU22.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management	18.07.24
	Friday	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU29.1 Describe the causes, investigations and principles of management of Hematuria	19.07.24

Students will be divided into three batches of 50 each and posted for 8 weeks in Medicine, Surgery and Obstetrics & Gynecology

Week 22	Saturday	Clinical Posting (P): Unit in Rotation SU29.5 Describe the clinical features, investigations and principles of management of renal calculi	20.07.24
	Monday	Clinical Posting (P): Unit I (Dr. N.K. Singh SU30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis	22.07.24
	Tuesday	Clinical Posting (P): Unit II (Dr. Vipin Agarwal SU29.10 Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent	23.07.24
	Wednesday	Clinical Posting (P): Unit III (Dr. R K Kaul) SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases	24.07.24
	Thursday	Clinical Posting (P): Unit IV (Dr. A K Singh) SU28.14 Describe the clinical features, investigations and principles of management of disorders of small and large intestine	25.07.24
	Friday	Clinical Posting (P): Unit V (Dr. C K JHAKMOLA) SU30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele	26.07.24
	Saturday	Clinical Posting (P): Unit on rotation-- SU30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis	27.07.24
Week 23	Monday	Clinical Posting (P): Unit I (Dr. N.K. Singh SU30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis	29.07.24
	Tuesday	Clinical Posting (P): Unit II (Dr. Vipin Agarwal SU29.10 Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent	30.07.24
	Wednesday	Clinical Posting (P): Unit III (Dr. R K Kaul) SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases	31.07.24
	Thursday	Clinical Posting (P): Unit IV (Dr. A K Singh) SU28.14 Describe the clinical features, investigations and principles of management of disorders of small and large intestine	01.08.24
	Friday	Clinical Posting (P): Unit V (Dr. C K JHAKMOLA) SU30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele	02.08.24
	Saturday	Clinical Posting (P): Unit on rotation-- SU30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis	03.08.24
	Second Terminal Exam - 05.08.24 to 17.08.24		
Week 24	Monday	Clinical Posting (P): Unit I (Dr. N.K. Singh SU30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis	19.08.24
	Tuesday	Clinical Posting (P): Unit II (Dr. Vipin Agarwal SU29.10 Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent	20.08.24
	Wednesday	Clinical Posting (P): Unit III (Dr. R K Kaul) SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases	21.08.24
	Thursday	Clinical Posting (P): Unit IV (Dr. A K Singh) SU28.14 Describe the clinical features, investigations and principles of management of disorders of small and large intestine	22.08.24
	Friday	Clinical Posting (P): Unit V (Dr. C K JHAKMOLA) SU30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele	23.08.24
	Saturday	Clinical Posting (P): Unit on rotation-- SU30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis	24.08.24
	Week 25	Monday	OG8.2. The student should be able to Elicit, document & present an Obstetric history in detail, which includes elicitation of symptoms, history of previous obstetric, medical & surgical history, significant family & personal history, high risk factors for complications in the present pregnancy, menstrual history, history of patient's antenatal care- past & present, Immunization and contraceptive history. To be able to demonstrate ethical behavior in all aspects of history taking - Unit 1 (Dr. M Kaur)
Tuesday		OG8.3. The student should be able to perform a systematic examination of the patient, which includes -General Physical Examination- examination for Pallor, icterus, cyanosis, clubbing, thyroid examination, lymphadenopathy, edema & Breast examination. To be able to identify the abnormalities in General Physical examination & be able to describe the implications of each	27.08.24
Wednesday		OG8.3. To perform a detailed Abdominal examination followed by an Obstetrical examination in a normal pregnancy. To be able to estimate the period of gestation from the patient history and	28.08.24
Thursday		OG8.1. To be able to define Gravida, Para & Abortion & write an Obstetric formula. To be able to reach a diagnosis of a pregnant woman with a normal pregnancy Unit 1 (Dr. M Kaur)	29.08.24
Friday		OG8.4. To observe & be able to demonstrate clinical monitoring of maternal & fetal wellbeing. To be able to apply different tests to determine fetal well being. To be able to identify high risk factors in the mother. Unit 1 (Dr. M Kaur)	30.08.24
Saturday		OG8.5. To be able to describe & demonstrate pelvic assessment in a model. To be able to identify abnormalities in the pelvis in different models and be able to describe the obstetrical implications of common abnormalities of the pelvis. Unit 1 (Dr. M Kaur)	31.08.24
Monday		OG8.6. To be able to counsel the pregnant woman and her relatives in a simulated environment the importance of correct antenatal care, diet & immunization and of seeking help in case of a perceived abnormality in health. To be able to identify co-morbid conditions in a pregnant woman. Unit 1 (Dr. M Kaur)	02.09.24

Week 26	Tuesday	OG8.7, OG8.8. To be able to enumerate indications for & types of vaccinations in pregnancy. To be able to enumerate the indications & describe the routine investigations in a pregnant woman, including the use of ultrasound in the initial assessment & monitoring in pregnancy. Unit 1 (Dr. M Kaur)	03.09.24
	Wednesday	OG35.1, OG35.2. To be able to elicit, document & present a gynecology case history in detail which includes elicitation of symptoms, previous gynec & obstetric history, medical, surgical, significant family history, significant personal history, risk factors for gynec pathologies & normal menstrual history. Unit 1 (Dr. M Kaur)	04.09.24
	Thursday	OG35.6 – OG35.8. To be able to apply the principles of Medical ethics in history taking & examination of a gynecology patient. To be able to do a General Physical Examination of a gynec case, gynec examination of the patient upto per abdominal examination and be familiar with per speculum and per vaginal examinations in a simulated environment. DOAP of a per	05.09.24
	Friday	OG9.1. To be able to diagnose from history and examination a case of Abortion, Define, classify, & discuss the etiology of abortions, including Threatened, Inevitable, Missed, Incomplete, Complete & Septic abortions. To be able to formulate appropriate management plans for the type of abortion. Unit 1 (Dr. M Kaur)	06.09.24
	Saturday	OG9.2, OG20.1-20.3. To define and classify MTP, describe the procedures and steps, observe and assist in the performance of an MTP evacuation. To be able to enumerate the indications and describe & discuss the legal aspects, indications, methods for first & second trimester MTP;	07.09.24
	Monday	OG9.3. To be able to diagnose from history & examination, a patient of Acute Pain Abdomen in early pregnancy (with a focus on ectopic pregnancy) & enumerate the principles of Medical & surgical management. Unit 1 (Dr. M Kaur)	09.09.24
Week 27	Tuesday	OG9.4. To be able to provisionally diagnose a case of Gestational Trophoblastic Disease or Neoplasm from history & examination, discuss clinical features, laboratory investigations, Ultrasound findings, Differential diagnosis, principles of management and follow up of a patient	10.09.24
	Wednesday	OG9.5. To be able to diagnose a case of Hyperemesis Gravidarum by history, examination & investigations. To know the principles of management & the impact of Hyperemesis Gravidarum on maternal & fetal health. Unit 1 (Dr. M Kaur)	11.09.24
	Thursday	OG10.1; OG10.2; OG16.1. To be able to reach a provisional diagnosis of Antepartum Hemorrhage. Describe the first aid to be provided to the patient, confirmation of diagnosis and general & obstetric management of Abruptio Placentae. To be able to select the correct blood	12.09.24
	Friday	OG16.1. To be able to reach a provisional diagnosis of Antepartum Hemorrhage. Describe the first aid to be provided to the patient, confirmation of diagnosis and general & obstetric management of Placenta Previa. Unit 1 (Dr. M Kaur)	13.09.24
	Saturday	OG11.1. To diagnose a case of Multifetal gestation. To describe etiopathology, clinical features, diagnosis and investigations, principles of management & complications of Multiple gestations. Unit 1 (Dr. M Kaur)	14.09.24
	Monday	OG12.1. To be able to diagnose a case of Hypertension in Pregnancy, with correct method of Blood Pressure measurement, classify Hypertension of Pregnancy according to severity, get the appropriate investigations, Interpretation of the investigations, etiology, pathophysiology of	16.09.24
Week 28	Tuesday	OG12.1. To know the Etiology, pathophysiology, symptoms & signs, of Eclampsia. To know the Immediate management, investigations, General & Obstetric management of a case of Eclampsia. complications Unit 1 (Dr. M Kaur)	17.09.24
	Wednesday	OG12.2. To be able to identify anemia in pregnancy, severity of anemia clinically & by investigations, be able to describe etiology, pathophysiology, diagnosis, investigations, cause, severity and gestational age appropriate management of anemia. To be able to describe the Maternal & fetal complications of Anemia in pregnancy Unit 1 (Dr. M Kaur)	18.09.24
	Thursday	OG12.3. To be able to define, classify & describe the pathophysiology, diagnosis, investigations, adverse maternal & fetal effects of Diabetes in pregnancy. To be able to screen for gestational Diabetes Mellitus (GDM) & diagnose it. To describe the general & obstetric management for a case of GDM. Unit 1 (Dr. M Kaur)	19.09.24
	Friday	OG12.4. To be able to recognise, classify Heart Disease as Cyanotic/ acyanotic & according to NYHA, Cardiac Disease in pregnancy, its management during antenatal period, management of	20.09.24
	Saturday	OG12.5. To be able to describe the clinical features, investigations, diagnosis, complications, treatment effects of urinary tract infections during pregnancy Unit 1 (Dr. M Kaur)	21.09.24
	Monday	OG12.6. To recognise Jaundice in pregnancy. To describe the clinical features, detection, effects of pregnancy on the liver disease, effects of the disease on pregnancy & management of Liver	23.09.24
Week 29	Tuesday	OG12.7. To be able to describe and discuss screening, risk factors, management of mother with HIV in pregnancy and of the newborn of an HIV positive mother Unit 2 (Dr. K Rani)	24.09.24
	Wednesday	OG12.8. To be able to describe the mechanism, prophylaxis, Fetal complications, diagnosis and management of Isoimmunization in Pregnancy. Unit 2 (Dr. K Rani)	25.09.24
	Thursday	OG14.1, 14.2; 13.1, 13.4. To be able to enumerate & discuss the diameters of the Maternal Pelvis and the types of pelvises. To know & be able to describe the landmarks & diameters of the Fetal Skull. To discuss mechanism of Normal Labor. Enumerate & discuss Physiology, stages and mechanism of Normal Labor with Occipito-anterior position. Unit 2 (Dr. K Rani)	26.09.24

Week 30	Friday	OG13.3,13.5. To know the monitoring of labor, plotting the Partograms, observe & assist in artificial rupture of membranes and observe & assist in the conduct of a normal vaginal delivery. Unit 2 (Dr. K Rani)	27.09.24
	Saturday	OG13.2. To be able to define, describe the causes, pathophysiology, diagnosis, investigations and the management of Preterm Labor, PPRM, PROM & Post term pregnancies. Unit 2 (Dr. K Rani)	28.09.24
	Monday	OG14.2.To be able to describe pelvic assessment in an abnormal pelvic type in a model, describe Cephalopelvic disproportion (CPD), Obstructed Labor, its symptoms, signs, prevention & management. Unit 2 (Dr. K Rani)	30.09.24
	Tuesday	OG14.3. To be able to describe & discuss Rupture Uterus, causes, diagnosis & management. To know the principles of Peripartum Hysterectomy (Obstetric Hysterectomy-OH). Unit 2 (Dr. K Rani)	01.10.24
	Wednesday	OG14.4. To be able to describe & discuss the classification, Diagnosis, causes & management of Abnormal Labor in Malpresentations & Malpositions - Occipito-posterior Unit 2 (Dr. K Rani)	02.10.24
	Thursday	OG14.4. To be able to describe & discuss the classification, Diagnosis, causes & management of Abnormal Labor in Malpresentations & Malpositions - Face Presentation. Unit 2 (Dr. K Rani)	03.10.24
	Friday	OG15.1. To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques, Postoperative management and their complications. Episiotomy Unit 2 (Dr. K Rani)	04.10.24
	Saturday	OG15.1. To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques, postoperative management and their complications Vacuum extraction, Low Forceps delivery. Unit 2 (Dr. K Rani)	05.10.24
	Monday	OG15.1. To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques, postoperative management and the complications of LSCS & Upper segment cesarean section Unit 2 (Dr. K Rani)	07.10.24
	Tuesday	OG15.1 To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques and their complications of Assisted Breech Delivery Unit 2 (Dr. K Rani)	08.10.24
Week 31	Wednesday	OG15.1. To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques, postoperative management and the complications of Cervical Encerclage. Unit 2 (Dr. K Rani)	09.10.24
	Thursday	OG 15.2- Observe/assist Episiotomy procedure during Labour room Posting Perform episiotomy closure using the appropriate suture material on skill learning modules Observe LSCS procedure during Labour room Posting Observe outlet forceps/Vacuum Extraction procedure during Labour room Posting Observe assisted vaginal breech delivery during Labour room Posting Unit 2 (Dr. K Rani)	10.10.24
	Friday	OG16.1, OG 16.2- Enumerate various complications of third stage of labour Define post partum haemorrhage Discuss the causes and types of post partum haemorrhage Discuss the diagnosis of post partum haemorrhage Describe the management of post partum haemorrhage Discuss active management of third stage of labour Discuss preventive methods for post partum haemorrhage Discuss the use of various blood products in management of post partum haemorrhage. Unit 2 (Dr. K Rani)	11.10.24
	Saturday	OG 16.2-Define uterine inversion. Discuss the causes of uterine inversion Discuss the diagnosis of uterine inversion Describe the management of uterine inversion Enumerate the methods to prevent uterine inversion Unit 2 (Dr. K Rani)	12.10.24
	Monday	OG16.3-Enumerate the causes of FGR Discuss the clinical features of FGR Discuss the diagnostic modalities of FGR. Describe various antepartum fetal surveillance tests for monitoring and principles of management of FGR Discuss the preventive methods of FGR Describe counseling regarding fetal prognosis in FGR cases Unit 2 (Dr. K Rani)	14.10.24
	Tuesday	OG17.1,OG17.2,OG17.3-Describe the physiology of lactation in terms of mammogenesis. Describe the physiology of lactation in terms of,lactogenesis galactogenesis and galactopoeisis Counsel about importance of breast feeding. In simulated environment student should be able to demonstrate the care of breast and correct technique of breast feeding. Unit 2 (Dr. K Rani)	15.10.24
	Wednesday	,OG17.3- Discuss the Breast complications during Lactation,Discuss the clinical features & Management of Breast Engorgement, Crack & Fissure Nipple,Mastitis, Breast abscess Differentiate between mastitis and breast abscess Unit 2 (Dr. K Rani)	16.10.24
	Thursday	OG18.1,OG18.2,OG18.3, OG18.4- Discuss the criteria for assessment of gestational age at birth. Discuss the basic principles of resuscitation of newborns. Discuss the diagnosis of birth asphyxia. Enumerate the common problems of normal newborn. Describe APGAR score. Unit 2 (Dr. K Rani)	17.10.24
	Friday	OG19.1.Discuss various methods of temporary contraception available for the couple after delivery. Describe the various methods of permanent contraception. Describe the steps of puerperal sterilization. Discuss the complications of puerperal sterilization, Unit 2 (Dr. K Rani)	18.10.24
	Week 32		

Week 33

Saturday	OG19.2- Counsel in a simulated environment about the advantages and disadvantages of various contraceptive methods properly. Unit 2 (Dr. K Rani)	19.10.24
Monday	OG12.6. To recognise Jaundice in pregnancy.To describe the clinical features, detection, effects of pregnancy on the liver disease, effects of the disease on pregnancy & management of Liver disease in pregnancy. To know the Liver diseases specific to pregnancy and coincidental to pregnancy. Unit 3 (Dr. S Agarwal)	21.10.24
Tuesday	OG21.1.Demonstrate about the suitable contraception to the couple. Counsel regarding the indications, contraindications, side effects, complications and failure rates of hormonal contraception. Counsel regarding the indication, contraindications, side effects, complications and failure rate of non – hormonal contraception. Describe Methods of Emergency Contraception. Unit 3 (Dr. S Agarwal)	22.10.24
Wednesday	OG21.1.Enumerate the indications for using Intrauterine Contraceptive devices. Discuss the pre-requisites before inserting IUCD in the procedure room. Describe the steps for insertion l of IUCD in the procedure room. Identify the instruments used in IUCD insertion. Discuss the contraindications and side effects of IUCD. Describe the management of complications with IUCD insertion. Discuss various indications for IUCD removal. Describe the steps of IUCD removal in the procedure room. Identify the instruments used in removal of IUCD.Management of Missing Cu-T thread. Unit 3 (Dr. S Agarwal)	23.10.24
Thursday	OG21.1- Describe the types, advantages, disadvantages and failure rate of male condom correctly. Describe the techniques, complications and follow up of vasectomy correctly. Unit 3 (Dr. S Agarwal)	24.10.24
Friday	OG21.2 - Describe the timing of PPIUCD insertion, mechanism of action and failure rate of PPIUCD correctly. enumerate the advantages and side-effects of PPIUCD correctly enumerate the contraindications of PPIUCD correctly. describe the methods of PPIUCD insertion and post insertion care correctly. Unit 3 (Dr. S Agarwal)	25.10.24
Saturday	OG22.1, OG22.2- Describe the characteristics of physiological vaginal discharge correctly. enumerate the causes of vaginal discharge in children, reproductive age and post-menopausal age group correctly, differentiate between bacterial vaginosis, vaginal candidiasis, and trichomonas vaginitis correctly, describe the clinical features, investigations and treatment of vaginal candidiasis, trichomonas vaginitis and bacterial vaginosis correctly, describe syndromic management of vaginal discharge correctly. Unit 3 (Dr. S Agarwal)	26.10.24
Diwali 28.10.24 to 02.11.24		
Monday	OG24.1- Define abnormal uterine bleeding. Discuss the etiology of abnormal uterine bleeding as per PALM-COEIN classification. Describe various clinical features, investigations and management of patient with abnormal uterine bleeding. Unit 3 (Dr. S Agarwal)	04.11.24
Tuesday	OG23.1, OG23.2, OG23.3- Describe the physiology and changes in puberty correctly. List the common disorders of puberty correctly. Define precocious puberty and delayed puberty accurately. Describe the evaluation and management of delayed puberty correctly. Enumerate the causes of delayed puberty correctly. Classify and enumerate the causes of precocious puberty accurately. Describe the evaluation and treatment of precocious puberty correctly. Unit 3 (Dr. S Agarwal)	05.11.24
Wednesday	OG25.1.Define the primary amenorrhea correctly. Define the secondary amenorrhea correctly. Enumerate the causes of primary amenorrhea. Describe the principles of management including investigation and Treatment in patient presenting with primary amenorrhea. Unit 3 (Dr. S Agarwal)	06.11.24
Thursday	OG25.1.Enumerate the causes of Secondary Amenorrhoea. Discuss the management of secondary amenorrhea. Unit 3 (Dr. S Agarwal)	07.11.24
Friday	OG 26.1- Define endometriosis. Describe the etiology and pathogenesis of endometriosis. Describe clinical features of endometriosis and Adenomyosis. Discuss effect of endometriosis on fertility. Define difference between endometriosis and adenomyosis. Describe investigations and management of Endometriosis. Unit 3 (Dr. S Agarwal)	08.11.24
Saturday	OG26.2- Enumerate causes of genital injuries. List the types of genital injuries. Describe clinical features of genital injuries. Discuss principles of management of genital injuries. Discuss the ways /methods of prevention of genital injuries. Unit 3 (Dr. S Agarwal)	09.11.24
Monday	OG27.1- Define Sexually Transmitted Disease. discuss aetio-pathogenesis of different sexually transmitted infections, discuss clinical features of different sexually transmitted infections, discuss long term implications of sexually transmitted infections, discuss investigations and management of sexually transmitted infections. Unit 3 (Dr. S Agarwal)	11.11.24
Tuesday	OG27.1-To be able to discuss aetio-pathogenesis of Genital Tuberculosis. Discuss clinical features of Genital TB, its long term implications and complications, discuss investigations and management of Genital TB.To be able to discuss aetio-pathogenesis, clinical features, long term implications and complications, investigations and management of HIV in a gynec patient . Unit 3 (Dr. S Agarwal)	12.11.24

Students will be divided into 5 groups of 30 students each and posted for slot of 4 weeks in Medicine, Surgery, Obstetrics & Gynecology, Pediatrics. The Fifth Group will be further subdivided into two sub groups of 2 weeks each in Orthopedics and Dermatology

Week 34

Week 35	Wednesday	OG27.4- Define Pelvic Inflammatory Disease and types of Pelvic Inflammatory disease. Discuss aetio-pathogenesis of Pelvic Inflammatory Disease. Describe the pathology in acute and chronic Pelvic Inflammatory disease correctly. Discuss clinical features of Pelvic Inflammatory Disease. Discuss investigations of Pelvic Inflammatory Disease. Discuss management of Pelvic Inflammatory Disease. Enumerate the long term implications of Pelvic Inflammatory Disease. Unit 3 (Dr. S Agarwal)	13.11.24
	Thursday	OG28.1- Define Infertility, Primary Infertility, And Secondary Infertility. Report prevalence of Infertility. Describe factors essential for conception. Enumerate common causes of infertility [Male, Female]. Discuss how to investigate male factor infertility. Describe treatment of male partner infertility. Discuss how to investigate & treat Anovulatory infertility. Unit 3 (Dr. S Agarwal)	14.11.24
	Friday	OG28.2. Discuss the Investigation & Treatment of Tubal Factor Infertility, including Tubal Patency tests & Tubal recanalisation operations. Unit 3 (Dr. S Agarwal)	15.11.24
	Saturday	OG28.4- Define ART (Assisted Reproduction Technique). Enumerate different methods of ART. Describe principal steps of ART. Unit 3 (Dr. S Agarwal)	16.11.24
Week 36	Monday	OG29.1- Define fibroid correctly. The types of fibroid accurately. Discuss the etiology of fibroid uterus correctly. Describe the pathology of fibroid uterus correctly. Describe the clinical features of fibroid uterus correctly. Discuss the differential diagnosis of fibroid uterus correctly. Enumerate all the investigations of fibroid uterus correctly. Discuss the principles of management of fibroid uterus correctly. Discuss the complications of fibroid uterus. Unit 3 (Dr. S Agarwal)	18.11.24
	Tuesday	OG31.1- Describe the etiology of prolapse of uterus. Describe the classification of prolapse of uterus. Describe clinical features of prolapse of uterus. Discuss diagnosis and investigation of prolapse of uterus. Discuss preventive aspect of prolapse of uterus. Discuss management of prolapse of uterus. Describe the etiology of prolapse of uterus. Describe the classification of prolapse of uterus. Describe clinical features of prolapse of uterus. Discuss diagnosis and investigation of prolapse of uterus. Discuss preventive aspect of prolapse of uterus. Discuss management of prolapse of uterus. Unit 3 (Dr. S Agarwal)	19.11.24
	Wednesday	OG32.2- Enumerate the causes of post menopausal bleeding correctly. Describe the evaluation and management of Postmenopausal bleeding correctly. Unit 3 (Dr. S Agarwal)	20.11.24
	Thursday	OG33.1- Describe classification of cervical cancer. Describe etiology and pathology of cervical cancer. Discuss clinical features and differential diagnosis of cervical cancer. Discuss investigations and staging of cervical cancer. OG33.2- Describe management of benign lesions of cervix. Describe management of premalignant lesions of cervix. Unit 3 (Dr. S Agarwal)	21.11.24
	Friday	OG33.2- Describe management of malignant lesions of cervix. Unit 3 (Dr. S Agarwal)	22.11.24
Week 37	Saturday	OG33.3- Enumerate, Describe & demonstrate in a simulated environment (DOAP Session) the methods of cervical cancer screening. Unit 3 (Dr. S Agarwal)	23.11.24
	Monday	Clinical Posting (P) OR 2.6 Describe and discuss Etiopathogenesis, mechanism of injury, clinical features, investigation and principles of management of fracture of distal radius. Unit 1 (Dr. A Saraf)	25.11.24
	Tuesday	Clinical Posting (P) OR 2.5 Describe and discuss the aetiopathogenesis, clinical features, mechanism of injury, Investigation and principles of management of fracture of both bone forearm and Galeazzi and Monteggia injury. Unit 1 (Dr. A Saraf)	26.11.24
	Wednesday	Clinical Posting (P) OR 2.4 Describe and discuss the mechanism of injury, clinical features, Investigation and principles of management of fracture of shaft humerus and intercondylar fracture humerus with emphasis on neurovascular deficit. Unit 1 (Dr. A Saraf)	27.11.24
	Thursday	Clinical Posting (P) OR 2.3 Select, prescribe and communicate appropriate medications for relief of joint pain. Unit 1 (Dr. A Saraf)	28.11.24
	Friday	Clinical Posting (P) OR 2.2 Describe and discuss the, mechanism of injury, clinical features, investigations and plan management of fractures of proximal humerus. Unit 2 (Dr. S Singh)	29.11.24
	Saturday	Clinical Posting (P) OR 2.1 Describe and discuss the, mechanism of injury, clinical features, investigations and principles of management of fractures of Clavicle. Unit 2 (Dr. S Singh)	30.11.24
	Monday	Clinical Posting (P) OR 1.6 Participate as a member in the team for closed reduction of Shoulder dislocation/ hip dislocation/ knee dislocation. Unit 2 (Dr. S Singh)	02.12.24
	Tuesday	Clinical Posting (P) OR 1.5 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of dislocation of major joints, shoulder, knee, hip. Unit 2 (Dr. S Singh)	03.12.24
	Wednesday	Clinical Posting (P) OR 1.4 Describe and discuss the Principles of Management of Soft Tissue Injuries. Unit 3 (Dr. M Sharma)	04.12.24
Week 38	Thursday	Clinical Posting (P) OR 1.3 Describe and discuss the aetiopathogenesis, Clinical features, investigations and principles of management of soft tissue injuries. Unit 3 (Dr. M Sharma)	05.12.24
	Friday	Clinical Posting (P) OR 1.2 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of shock. Unit 3 (Dr. M Sharma)	06.12.24
	Saturday	Clinical Posting (P) OR 1.1 Describe and discuss the Principles of pre hospital care and casualty management of a trauma victim including principles of triage. Unit 3 (Dr. M Sharma)	07.12.24

Week 39	Monday	PE1.4-Perform Anthropometric measurements, document in growth charts and interpret - Unit 1 (Dr. R R Singh)	09.12.24
	Tuesday	PE1.7-Perform Developmental assessment and interpret - Unit 1 (Dr. R R Singh)	10.12.24
	Wednesday	PE3.4-Counsel a parent of a child with developmental delay - Unit 1 (Dr. R R Singh)	11.12.24
	Thursday	PE7.5-Observe the correct technique of breast feeding and distinguish right from wrong techniques - Unit 1 (Dr. R R Singh)	12.12.24
	Friday	PE10.3-Assessment of a patient with SAM and MAM, diagnosis, classification and planning management including hospital and community based intervention, rehabilitation and prevention - Unit 1 (Dr. R R Singh)	13.12.24
	Saturday	PE9.5-Calculate the age related calorie requirement in Health and Disease and identify gap - Unit 1 (Dr. R R Singh)	14.12.24
Week 40	Monday	PE12.8-Identify the clinical features of dietary deficiency of Vitamin - Unit 2 (Dr. R Jain)	16.12.24
	Tuesday	PE15.3-Calculate the fluid and electrolyte requirement in health - Unit 2 (Dr. R Jain)	17.12.24
	Wednesday	PE1.4-Perform Anthropometric measurements, document in growth charts and interpret - Unit 2 (Dr. R Jain)	18.12.24
	Thursday	PE1.7-Perform Developmental assessment and interpret - Unit 2 (Dr. R Jain)	19.12.24
	Friday	PE3.4-Counsel a parent of a child with developmental delay - Unit 2 (Dr. R Jain)	20.12.24
	Saturday	PE7.5-Observe the correct technique of breast feeding and distinguish right from wrong techniques - Unit 2 (Dr. R Jain)	21.12.24
Week 41	Monday	PE10.3-Assessment of a patient with SAM and MAM, diagnosis, classification and planning management including hospital and community based intervention, rehabilitation and prevention - Unit 3 (Dr. Chitambaram)	23.12.24
	Tuesday	PE9.5-Calculate the age related calorie requirement in Health and Disease and identify gap - Unit 3 (Dr. Chitambaram)	24.12.24
	Wednesday	PE12.8-Identify the clinical features of dietary deficiency of Vitamin D - Unit 3 (Dr. Chitambaram)	25.12.24
	Thursday	PE15.3-Calculate the fluid and electrolyte requirement in health - Unit 3 (Dr. Chitambaram)	26.12.24
	Friday	PE1.4-Perform Anthropometric measurements, document in growth charts and interpret - Unit 3 (Dr. Chitambaram)	27.12.24
	Saturday	PE1.7-Perform Developmental assessment and interpret - Unit 3 (Dr. Chitambaram)	28.12.24
Week 42	Monday	PE3.4-Counsel a parent of a child with developmental delay - Unit 1 (Dr. R R Singh)	30.12.24
	Tuesday	PE7.5-Observe the correct technique of breast feeding and distinguish right from wrong techniques - Unit 1 (Dr. R R Singh)	31.12.24
	Wednesday	PE10.3-Assessment of a patient with SAM and MAM, diagnosis, classification and planning management including hospital and community based intervention, rehabilitation and prevention - Unit 2 (Dr. R Jain)	01.01.25
	Thursday	PE9.5-Calculate the age related calorie requirement in Health and Disease and identify gap - Unit 2 (Dr. R Jain)	02.01.25
	Friday	PE12.8-Identify the clinical features of dietary deficiency of Vitamin - Unit 3 (Dr. Chitambaram)	03.01.25
	Saturday	PE15.3-Calculate the fluid and electrolyte requirement in health - Unit 3 (Dr. Chitambaram)	04.01.25
Week 43	Monday	Clinical Posting (P) : D.R.1.2 Identify and grade the various common types of acne - Dr. K S Dhillon	06.01.25
	Tuesday	Clinical Posting (P): D.R. 2.1 Identify and differentiate Vitiligo from other causes of hypopigmented lesions - Dr. K S Dhillon	07.01.25
	Wednesday	Clinical Posting (P): D.R.3.1 Identify and distinguish psoriatic lesions from other causes; D.R.3.2 Demonstrate the grattage test - Dr. K S Dhillon	08.01.25
	Thursday	Clinical Posting (P): D.R.4.1 Identify and distinguish lichen planus lesions from other causes; D.R.5.2 Identify and differentiate scabies from other lesions in adults and children -Dr. K S Dhillon	09.01.25
	Friday	Clinical Posting (P): D.R 7.2 Identify Candida species in fungal scrapings and KOH mount - Dr. Manu Singh	10.01.25
	Saturday	Clinical Posting (P): D.R. 8.2 Identify and distinguish herpes simplex and herpes labialis from other skin lesions ; D.R. 8.3 identify and distinguish herpes zoster and varicella from other skin lesions - Dr. Manu Singh	11.01.25
Week 44	Monday	Clinical Posting (P): D.R.8.4 Identify and distinguish viral warts from other skin lesions ; D.R.8.5 Identify and distinguish molluscum contagiosum from other skin lesions - Dr. Manu Singh	13.01.25
	Tuesday	Clinical Posting (P): D.R. 9.2 Demonstrate (and classify based on) the clinical features of leprosy including an appropriate neurologic examination; D.R.10.1 Identify and classify syphilis based on the presentation and clinical manifestation - Dr. Manu Singh	14.01.25
