EC 4.1 Quiz On Unothical EC 4.2 Values of Integrity & Honesty

	Tuesday	Biochemistry (L) Metabolism in fed state (B6.1)		pressure of normal bject.	AETCOM - Physiology 1.2. What it meas to be a Patient?	Anatomy F Osteology o AN 14.1	of Fibula	SGT- Physiology (P) Hemostasis
-	Wednesday	Anatomy Lecture Muscles of Gluteal Region AN 16.1			ECE Anatomy Psoos Abscen & Femoral Hernia AN 15.4	SGT-Physiology Myelination of nerve fiber.PY 3.2	Lecture - Biochemistry Starvation & Metabolism (B6.1)	SDL Sciatic Nerve Injory AN 16.2
week 9	Thursday	Anatomy Lecture Vessels & Nerves of Gluteal Region AN 16.1	Physiology (L) Conduction of nerve impulse -I	Lecture Embryology AN 8.3, 8.4	SDL- Biochemistry Biochemical processes involved in energy generation (B6.6)	Anatomy F Vessels & Nerves o AN 1	f Gluteal Region	SGT Biochemistry Integration of Metabolism (B6.1)
Ψ.	Friday	CM2.2 Describe the socio-cultural factors, family (types), its role in health and disease & demonstrate in a simulated environment the correct assessment of socio-economic status (P)	Physiology (L) Conduction of nerve impulse - II	Lecture Muscles of Back of Thigh AN 16.4	SGT Physiology (P) Transmission conduction & local response.Chronaxie, rheobase	Anatomy F Muscles of Ba AN I	ck of Thigh	SDL - Physiology (P)Types of muscles & differentiating features of muscles. PY3.7
	Saturday	Anatomy Lecture Histology of Lymphoid Tissue AN 70.2	Physiology (L) Degeneration & Regeneration of nerve fiber.PY3.3	Biochemistry (L) Metabolism in fasting state (B6.1)	AETCOM Anatomy - 1.1 - What it means to be a Doctor? Reflections	Anatomy F Osteology of T AN 14.1	arsal Bones	SGT Trendelenberg Sign AN 16.3
	Monday	Physiology (L) Structure of nuromuscular junction &transmission of impulse across NMJ.PY3.4	Biochemistry colorimetry (B11, (P)To determine time Physiolo	(P) Principle of 6) Physiology bleeding & clotting gy (P) To record of normal subject.	Lecture Vessels & Nerves of Thigh Back AN 16.5	Anatomy Practical Nerves of Thigh Bacl 16.		SGT Biochemistry Common disorders associated with nucleotides metabolims (B6.3)
	Tuesday	Biochemistry (L) Metabolism of purine nucleotides (B6.2)			SGT Physiology (P)Energy source of muscle contraction & muscle metabolism.	Anatomy Practical Nerves of Thigh Back 16.0		SDL - Physiology (P)Types of muscles & differentiating features of muscles. PY3.7
week 10	Wednesday	Anatomy Lecture Hip Joint AN 17.1			ECE Anatomy Complication of Fracture Neck Femur AN 17.5	Physiology VIT with pharma. Action of NMJ blocking drugs & pathophysiology of Myasthenia gravis.PY 3.5,3.6	SDL - Biochemistry Lab. Results associated with gout (B6.4)	SDL Dislocation of Hip Join AN 17.3
wee	Thursday	Anatomy Lecture Popliteal Fossa AN 16.6	Structure of skeletal muscle.PY 3.8	Lecture Embryology AN 78.5, 79.1	ECE- Biochemistry Clinical Case - -Gout, -Orotic -Aciduria (B6.2)	Anatomy Practical Fossa 16.0	Popliteal AN 5	SGT Biochemistry Lysch Nyhan Syndrome + orotic Aciduria (B6.4
	Friday	CM2.3 Describe and demonstrate in a simulated environment the assessment of barriers to good health and health seeking behavior (L)	Physiology (L)Excitation contraction couplingPY3.8	Lecture Muscles of Leg (Anterior) AN 8.3, 8.4	SGT Physiology (P)Energy source of muscle contraction & muscle metabolism.	Anatomy Practical Leg (Ant AN 1)		SGT - Physiology WBCs
	Saturday	Anatomy Lecture Histology of Lymphoid Tissue AN 70.2	Physiology (L): Molecular basis of muscle contraction- I.PY3.8	Biochemistry (L) Metabolism of purine nucleotides (B6.2)	AETCOM Anatomy - 1.1 What it means to be a Doctor? Reflections	Anatomy Practical of Tarsal AN 14.1		SGT Osteology Tarsal Bone: AN 14.1, 14.2
-	Monday	Physiology (L): Molecular basis of muscle contraction- II.PY3.8	Biochemistry (P) creatinine & calc clearance (B11.7	Estimation of serum ulation of creatinine) Physiology (P): aining of blood film	Lecture Vessels & Nerves of Ant. Leg AN 18.2	Anatomy Practical Nerves of A AN 1		SGT Biochemistry Def Classification of vitamins (B6.5)
	Tuesday	Biochemistry (L) Fat soluble vitamins (A,D,E,K) (B6.5)	Physiology (P)E	iffect of posture on BP	SGT - Physiology To understand destribution & functioning of Cardiac, skeletal & smooth muscle	Anatomy Practical Lower Lim	Revision of b Bones	SDL - Physiology (P) Functional anatomy of heart. PY5.1
11	Wednesday	Anatomy Lecture Knee Joint AN 18.4			ECE Anatomy Foot Drop AN 18.3	SGT Physiology (P)Isotonic & isometric contraction.PY3.9	SDL- Biochemistry Deficiency manifestations of fat soluble vitamins (B6.5)	SDL Locking & Unlocking o Knee AN 18.5
week11	Thursday	Anatomy Lecture Knee Joint AN 18.4	Physiology -(L) Properties of skeletal muscle. PY3.8	Lecture Embryology AN 79.2, 79.3	ECE- Biochemistry Clinical case:- -Rickets,-Osteomalacia (B6.5)	Anatomy F Knee J AN 1	Practical oint	SGT Biochemistry Enlist water soluble vitamins with structure (B6.5)

Friday	CM2.3 Describe and demonstrate in a simulated environment the assessment of barriers to good health and health seeking behavior (P)	Physiology (L) Fast & slow muscle fibers, Length tension relationship, O2 debt. PY3.7	Lecture Muscles of Back of Leg AN 19.1	SGT Physiology (P) Structure, types& properties of smooth muscle, NMJ in smooth muscle PY3.9	Anatomy Practical Muscles of Back of Leg AN 19.1		SGT Physiology (P) Structure & Properties c Cardiac muscle PY3.7		
Saturday	Anatomy Lecture Histology of Bone AN 71.1	Physiology (L) Comparison of skeletal & smooth muscle contraction	Biochemistry (L) Water soluble vitamins (B6.5)	AETCOM Anatomy 1.5 The Cadaver as the First Teacher	Anatomy Practical Muscles of Back of Leg AN 19.1		SGT Knee Joint Injory Osteoarthritis AN 18.6, 18.7		
Monday	Physiology (L) Functional anatomy of Heart.PY5.1	protein, albumin	Estimation of serum & A/G ratio (B11.8) P): Preparation &	Lecture Vessels & Nerves of Back of Leg AN 19.2	Anatomy F Vessels & Nerves AN 1	of Back of Leg	SGT Biochemistry RDA+Dietary sources of vitamins (B6.5)		
Tuesday	Biochemistry (L) Water soluble vitamins (B6.5)	staining of blood	film Physiology posture on BP	SDL - Physiology Understanding structure & conducting system of	Anatomy F Surface Anatomy AN 20	Practical of Lower Limb	SGT - Physiology. Properties of skeletal muscle.PY 3.7		
Wednesday	Anatomy Lecture Arches of Foot AN 19.5			heart.PY5.1 ECE Anatomy Rupture of Calcaneal Tendon AN 18.3	ECE Physiology (P) Defination , indication & leads of ECG py5.5	SDL - Biochemistry Deficiency manifestations of water soluble vitamins (B6.5)	SDL Peripheral Heart AN 19.3		
Thursday	Anatomy Lecture Ankle Joint & Joints of Foot AN 20.1, 20.2	Physiology (L) Mechanical properties of heart - Cardiac cyclePY 5.3	Lecture Embryology AN 79.4, 79.6	ECE- Biochemistry Clinical case- -ScurvyBeri-Beri etc. (B6.5)	Anatomy Practical Ankle Joint AN 20.1		SGT Biochemistry RDA Water soluble vitamins (B6.5)		
Friday	CM2.3 Describe and demonstrate in a simulated environment the assessment of barriers to good health and health seeking behavior (P)	AETCOM - Com 1.4 - The Foundat Communication	tion of	with cardiac cycle.PY 5.3	Anatomy Practical Radiologyical Anatomy of Lower Limb AN 20.6		Radiologyical Anatomy of Lower Limb AN 20.6		SGT Physiology (P) Normal ECG waves, segments and intervals PY5.3
Saturday	Anatomy Lecture Histology of Cartilage AN 71.2	Physiology (L) Pressure & volume changes during cardiac cycle. Heart sounds & abnormalitie. PY5.3	(SGT) Coenzyme role of water soluble vitamins (B6.5)	AETCOM SDL - The Doctor-Patient relationship	Anatomy Practical Palpation of Vessels of Lower Limb AN 20.8		SGT Flat & Clut Food Metatarsalgia AN 19.6, 19.7		
Monday	Physiology (L) Conducting system and generation & conduction of cardiac impulse PY5.5	Serum cholestero (B11.9) Identification of	(P) Estimation of l & HDL cholesterol Physiology (P) blood cells & DLC. Effect of different	Lecture Venous & Lymphatic Drainage AN 20.3, 20.10	Anatomy F Venous & Lympl AN 20	hatic Drainage	SGT Biochemistry Disorders associated with water & electrolyt balance (B6.7)		
Tuesday	Biochemistry (L) Water & Electrolyte and Balance (B6.7)	grades of exerci PY	ise on pulse & BP. 75.12	SDL - Physiology Conducting system, generation & conduction of cardiac impulse	Anatomy F Revis AN 20	ion	SGT Physiology (P) Electrophysiology of heart		
Wednesday	Anatomy Lecture Embryology AN 80.1			ECE Anatomy Varicose Veins AN 20.5	SGT Physiology (P) Normal ECG	Lecture - Biochemistry Body buffers & pH maintenance (B6.7)	SDL Enlarged Inguinal Lymphnodes AN 20.4		
Date/ Day/Time	9:00-10:00am	10:00-11:00am	11:00-12:00pm	1:00-2:00pm	2:00-3:00pm	3:00-4:00pm	4:00-5:00pm		
Thursday	Anatomy Lecture Histology of Skin AN 72.1	Physiology (L) Normal ECG & interpretation PY5.5	Lecture Introduction of Thorax AN 21.3	ECE- Biochemistry Clinical case discussion Dehydration - Overhydration - Acidosis & Alkalosis (B6.7)	Part Completion Test Lower Limb		SGT Biochemistry Disorders associated with acid- base balance (B6.8)		
Friday	CM2.4 Describe social psychology, community behaviour and community relationship and their impact on health and disease (L)	Physiology (L) Applied - MI, Heart blocks, effects of electrolyte imbalance on ECG PY5.5	Lecture Intercostal Muscles AN 21.4	ECE - Physiology (P) Interpretation of normal ECG& clinical corelates with abnormal ECG record.PY 5.5	Anatomy Practical Osteology of Typical Rib AN 21.1		SGT - Physiology. Immunity		
Saturday	Anatomy Lecture Typical Intercostal Nerve AN 21.5	Physiology (L) haemodynamics I.PY 5.7	Biochemistry (L) Acid Base Balance (B6.7)	SGT Osteology of Sternum AN 21.1	Anatomy Practical Intercostal Muscle & Nerve AN 21.1		SGT Osteology of Sternum AN 21.1		

	Engineering College -	
	Computer Lab & Other	
Enhancement of Language /Computer Skills - 40 Hours	Areas	

week 13

Students would be divided into three groups for feedback session (Group A, B and C) and will be attending the session in Department of Anatomy, Physiology and Biochemistry of 2 hours each (On Saturdayof 15th Week)

	Monday	Physiology (L) haemodynamics II. PY 5.7	TG's (B11.10)	Estimation of serum Physiology (P) blood cells & DLC	Lecture Intercostal Vessels AN 21.6, 21.7	Anatomy I Osteology of A AN 2	typical Ribs	SGT Biochemistry Classification of Minerals (B6.9)
	Tuesday	Biochemistry (L) Minerals Ca,P, (B6.9)	grades of exerci	Effect of different se on pulse & BP. 5.12	AETCOM Physiology 1.2 What it means to be a patient?	Anatomy I Osteology of AN 2	Practical f Vertebral	SDL - Physiology (P) Components & functions of vascular system, Peripheral resistance
16	Wednesday	Anatomy Lecture Joints of Thorax AN 21.8, 21.10			ECE Anatomy Types of Respiration AN 21.9	SGT Physiology (P) Cardiac output - definition & measurement	SDL- Biochemistry Minor Minerals-I (B68)	Mechanism of Respiration AN 21.9
week 16	Thursday	Anatomy Lecture Mediastinum AN 21.11	Physiology (L) Cardiac output - I PY 5.9	Lecture Umbilical Cord	SGT Biochemistry ABG analysis (B6.8)	Anatomy I Joints of AN 2	Thorax	SGT Biochemistry Minor Minerals-II & their metabolism (B6.8)
~ ~	Friday	CM2.4 Describe social psychology, community behaviour and community relationship and their impact on health and disease (L)	Physiology (L) Cardiac output - II PY 5.9	AN 80.2, 80.7 Lecture Pericardium AN 22.1	SGT Physiology (P) Regulation of cardiac output. PY 5.9	Anatomy I Pericar AN 2	Practical dium	SDL- Physiology (P) Corelation of ECG with cardiac events. PY 5.5
	Saturday	Anatomy Lecture Placenta AN 80.3, 80.5	Physiology (L) Cardiac output - III PY 5.9	Biochemistry (L) Minerals Fe, Cu, Zn (B6.9)	SGT Twins AN 80.4, 80.6	Anatomy I Revis		SGT Twins AN 80.4, 80.6
	Monday	Physiology (L) Local & systemic- chemical & neural regulation of Heart I PY5.9	Bilirubin (B11.1	Estimation of serum 2) Physiology Revision	Lecture External Features of Heart AN 22.2	Anatomy I External Featu AN 2	ires of Heart	SGT Biochemistry Disorders associated with minerals metabolism (B6.10)
	Tuesday	Biochemistry (L) Minerals I,Fl, Na, K, Cl (B6.8)	Bilirubin (B11.1	Estimation of serum 2) Physiology tevision	SGT- Physiology Cardiac output	Anatomy Practical Surface Anatomy of Heart AN 25.9		SGT Physiology (P) Blood pressure - definition, types, factors affecting it
2	Wednesday	Anatomy Lecture Coronary Circulation AN 22.3			ECE Anatomy Ischaemic Heart Disease AN 22.4	SGT Physiology (P) Determinants of BP. PY 5.9	SDL - Biochemistry RDA of Minerals (B6.9)	SDL Methods of Prenatal Diagnosis AN 21.9
week 17	Thursday	Anatomy Lecture Development of Heart AN 25.2	Physiology (L) Local & systemic- chemical & neural regulation II PY5.9	Lecture Coronary Circulation AN 22.3	ECE- Biochemistry Clinical cases related to Mineral deficiencies (B6.10)	Anatomy I Coronary C AN 2	irculation	SGT Biochemistry Disorders associated with minerals metabolism (B6.10)
-	Friday	CM2.5 Describe poverty and social security measures and its relationship to health and disease (L)	Physiology (L) Short term regulation of BP PY 5.9	Lecture Development of Heart AN 25.2	SGT - Physiology (P) Long term regulation of BP. PY 5.9	Anatomy I Coronary C AN 2	irculation	SGT - Physiology. Regulation of heart rate .PY 5.9
	Saturday	Anatomy Lecture Fetal Circulation AN 25.3	Physiology (L) Hypovolumic shock	SGT functions of various minerals (B6.9)	SGT Fibrous Skeleton of Heart AN 22.6	Anatomy I Models of Heart		SGT Fibrous Skeleton of Heart AN 22.6
-	Monday	Physiology (L) Shock	SGPT/ SGOT (E	Estimation of serum 811.13) Physiology & Assessment	Lecture Coronary Sinus AN 22.5	Anatomy Practical Sint AN 2		SGT Biochemistry Porphyrias and diagnosis (B6. 11)
-	Tuesday	Biochemistry (L) Heme synthesis (B6 11)	(-)		SGT- Physiology Management & treatment	Conducting System of Heart AN 22.7	VSD, ASD AN 25.4	SDL - Physiology (P) Events of cardiac cycle.
	Wednesday	Anatomy Lecture Esophagus & Thoracic Duct AN 23.1, 23.2			of shock. ECE Anatomy Ischaemic Heart Disease AN 22.4	SGT Physiology (P) Determinants of BP. PY 5.9	RDA of Minerals (B6.9)	PY 5.3 SGT Fibrous Skeleton of Heart AN 22.6
week 18	Thursday	Anatomy Lecture Esophagus & Thoracic Duct AN 23.1, 23.3	Physiology (L) Heart failure	Lecture Development of Aortic Arch AN 25.5	ECE- Biochemistry Clinical case - Jaundice D/D (B6.11)	Anatomy Practical AN 2	Esophagus 3.1	SGT Biochemistry Lab. Diagnosis of Jaundice (B6.11)
Wet	Friday	CM9.1 Define and describe the principles of Demography, Demographic cycle, Vital statistics (L)	CM9.2 Define, calculate and interpret demographic indices including birth rate, death rate, fertility rates (P)	CM9.5 Describe the methods of population control (P)	ECE - Physiology (P) Correlation of cardiac cycle with H.S. venous pulse & ECG. PY 5.3	Anatomy Practical Duct 23.		SDL - Physiology (P) Applied aspects of ECG . PY 5.6
-	Saturday	Anatomy Lecture SVC, Azygos, Hemiazygos AN 23.3	Physiology (L) Coronary circulationPY5.1 0	Lecture Splanctinic Nerves AN 23.6, 23.7	SDL/AETCOM/ECE- Biochemistry/ Physiology Pathological relevance of Hemoglobin (B6.12)	Anatomy I SVC, Azygos, AN 2	Hemiazygos	SGT Biochemistry Derivatives of hemoglobin (B6.12)
-	Monday	Physiology (L) Functions of respiratory tract. PY6.1	ALP (B11.14) (P)Study of Hae	Estimation of serum Physiology mocytometer & its logy (P)General	Lecture Pleura AN 24.1	Anatomy Practical Marking of Pla AN 2	eura & Lung	SGT Biochemistry Deffiernt form of Hemoglobin (B6.12)
	Tuesday	Biochemistry (L) Hemoglobin structure & functions (B6.12)		of given subject.	AETCOM - Physiology 1.2 What it means to be a Patient?	Anatomy I Pleu AN 2	ira	SDL - Physiology (P) Lung vol & capacities PY6.7

Wednesday	Anatomy Lecture Root of Lung AN 24.2			ECE Anatomy Chest Xray AN 25.7	SGT Physiology (P)Dead space - Types &methods to measure it.	AETCOM Biochemistry 1.3 The Doctor- Patient Relationship	SDL Barium Swallow AN 25.8
Date/ Day/Time	9:00-10:00am	10:00-11:00am	11:00-12:00pm	1:00-2:00pm	2:00-3:00pm	3:00-4:00pm	4:00-5:00pm
Thursday	Anatomy Lecture Broncho pulmonary Segment & Lung AN 24.3, 24.5	Physiology (L) Structure of alveolus, surface tension & surfactant PY 6.2	Lecture Phrenic Nerve AN 24.4	AETCOM Biochemistry 1.3 -The Doctor-Patient Relationship	Anatomy F Lun AN 24.3	g	SGT Biochemistry (P)
Friday	CM3.1 Describe the health hazards of air, water, noise, radiation and pollution (L)	Physiology (L) Lung compliance & airways resistance PY 6.2	Lecture Phrenic Nerve AN 24.5	SGT Physiology (P) Interpretation & Clinical significance of lung vol & capacities PY 6.2	Anatomy I Phrenic AN 2	Nerve	SDL Physiology (P)Dead space . PY 61
Saturday	Anatomy Lecture Trachea AN 24.6	Physiology (L) Mechanism of respiration PY 6.2	Biochemistry (L) Heme Degradation & Jaundice (B6.11)	AETCOM - Enumerate and describe professional qualities and role of Physician	Anatomy Practical	Revision	SGT Histology of Lung & Trachea AN 25.1
Monday	Mechanics of respiration PY6.2	colorime Physiology(p)	(P) Principle of try (B11.6) Total leucocyte ount	Lecture Development of Lung AN 25.2	Anatomy Practical	Revision	SDL- Biochemistry Disorders of Carbohydrate metabolism (B3.10)
Tuesday	Biochemistry (L) Metabolism of pyrimidine nucleotides (B6.2)	Physiology (P)	Clinical exam. Of VS	SDL - Physiology Advanced techniques for Lung function assessment PY 6.2	Part Comple Thor	etion Test ax	SGT Physiology (P) Composition of atmospheric air, inspired air, alveolar air & expired air & concept of
Wednesday	Anatomy Lecture Scalp AN 27.1			SGT Anatomical Planes of Skull Membranous Ossification AN 26.1, 26.6	SGT Physiology (P)Dead space - Types &methods to measure it.	AETCOM Biochemistry 1.3 The Doctor- Patient Relationship	SGT Anatomical Planes of Skull Membranous Ossification AN 26.1, 26.6
Thursday	Anatomy Lecture Scalp AN 27.2	Physiology - Revision - Mechanism & mechanics of respiration. PY 6.3	Biochemistry (L) Heme Degradation & Jaundice (B6.11)	AETCOM Biochemistry 1.3 -The Doctor-Patient Relationship	Anatomy I Norma V AN 2	erticals	SDL- Biochemistry Disorders of Carbohydrate metabolism (B3.10)
Friday	CM2.5 Describe poverty and social security measures and its relationship to health and disease (L)	Physiology (L) Cutaneous ciculation	Lecture Thoracic Sympathetic Chain AN 23.5	ECE - Physiology (P)Shock ,Heart failure, Hypertension.	Anatomy Practical Sympathetic Chain 23.:	Thoracic AN 5	SGT Physiology (P) - Heart rate regulation
Saturday	Anatomy Lecture Arch of Aorta AN 23.4	Physiology (L) Functional Anatomy respiratory tract I PY 6.1	Biochemistry (L) Haemoglobion pathies (B6.12)	SGT Congenital A nomalis of Blood Vessels AN 25.5	Anatomy Practical Bones of	Revision of Thorax	SGT Congenital A nomalis of Blood Vessels AN 25.5
Monday	Physiology (L) - Pulmonary circulation. PY 6.2	colorime Physiology(p)	(P) Principle of try (B11.6) Total leucocyte	Lecture Muscles of Face AN 28.1, 26.6	Anatomy H Norma Fr AN 2	ontalis	SGT Biochemistry Bilirubin and its fractions (B6.13)
Tuesday	Biochemistry (L) Liver function tests-1 (B6.13)	Physiology (P)	ount Clinical exam. Of CVS	AETCOM - Physiology 1.2 SDL - What does it mean to be a patient?	Anatomy I Muscles o AN 2	of Face 8.1	SGT Physiology (P)ECG
Wednesday	Anatomy Lecture Sensory & Motor Supply of Face AN 28.2, 28.4			ECE Anatomy Facial Nerve Palsy AN 28.7	SDL Physiology Understanding of different types of hypoxia & their manifestations PY6.3	Biochemistry (L) Kidney function tests (B6.13+ B6.14)	SDL Emissary Veins AN 27.2
Thursday	Anatomy Lecture Parotid Gland AN 28.9	Physiology (L) Ventillation perfusion ratio & diffusion capacity of lungs PY6.2	Lecture Classification of Chromosomes AN 73.1	ECE- Biochemistry Clinical case:- Types of Jaundice (B6.13)	Anatomy F Facial Vessel AN 28.1	ls & Nerve , 28.5	SGT Biochemistry Liver enzymes (B6.13)
Friday	CM3.2 Describe concepts of safe and wholesome water, sanitary sources of water, water purification processes, water quality standards, concepts of water conservation and rainwater harvesting (P)	Physiology (L) Transport of oxygen PY6.3	Lecture Classification of Chromosomes AN 73.2	SDL- Physiology (P) Oxygen dissociation curve & factors affecting dissociation of Oxygen PY6.3	Anatomy I Parotid 1 AN 2	Gland	SGT Physiology (P) O2 transport
Saturday	Anatomy Lecture Muscles of Neck AN 29.1, 29.4	Physiology (L) Transport of carbondioxide PY6.3	Biochemistry (L) Liver function Tests-2 (B6.13)	SDL Emissary Veins AN 27.2	Anatomy I Muscles o AN 29.1	of Neck	SGT Frey's Syndrome AN 26.1, 26.6

Monday	Physiology (L) Hypoxia PY6.3	colorime Physiology(p) co Physiology (P)	(P) Principle of try (B11.6) Total leucocyte ount Clinical exam. Of VS	Lecture Anterior Triangle 1 AN 32.1	Anatomy I Norma L AN 2	ateralis	SGT Biochemistry Adrenal glands & function tests (B6.13 & B6. 14)
Tuesday	Biochemistry (L) Liver function tests-1 (B6.13)			ECE Anatomy Facial Nerve Palsy AN 28.7	Anatomy I Norma L AN 2	ateralis	SGT Physiology (P)Hypoxia
Wednesday	Anatomy Lecture Anterior Triangle of Neck AN 32.2			ECE Anatomy Frb's Klumpke's Paralysis, Wry Neck AN 29.2, 29.3	SGT Physiology (P) Respiratory centers	Lecture - Biochemistry Gastric analysis (B6.13 & B6.14)	SDL Amniocentesis Chorion Villus Sampling AN 81.2, 81.3
Thursday	Anatomy Lecture Dural Folds AN 30.2	Physiology (L) Neural regulation of respiration I	Lecture Phoryngeal Arches l	ECE- Biochemistry Clinical Case discussion Renal profile (B6.13 & B6.14)	Anatomy I Anterior Triar AN 32.1	igle of Neck	SGT Biochemistry pancreatic function tests (B6.13 & B6.14)
Friday	CM3.2 Describe concepts of safe and wholesome water, sanitary sources of water, water purification processes, water quality standards, concepts of water conservation and rainwater harvesting (P)	Physiology (L) Neural regulation of respiration II	Lecture Dural Venous Sinuses AN 30.2	ECE - Physiology (P) Pathophysiology of dyspncea, asphyxia, drowning, cyanosis PY6.6	Anatomy Practical Cranial Fossa 1 AN 30.1, 30.2 Anatomy Practical Cranial Fossa 2		SGT Physiology (P)Hypoxia
Saturday	Anatomy Lecture Pharyngeal Arches 2	Physiology (L) Chemical regulation of respiration	Biochemistry (L) Thyroid function tests (B6.13 + B6. 14)	SDL Amniocentesis Chorion Villus Sampling AN 81.2, 81.3	Anatomy I Cranial F AN 30.1	Fossa 2	SGT Clinical Importance of Dural Venous Sinus AN 30.4
Monday	Physiology (L) Chemical regulation of respiration	P (B11.11) Total leuc	Estimation of Ca & Physiology(p) ocyte count	Lecture Dural Venous Sinus AN 30.2	Anatomy I Dural Veno AN 3	ous Sinus	SGT Biochemistry Derangements in liver function (B6.15)
Tuesday	Biochemistry (L) Structure & functions of DNA & RNA (B7 1)	Physiology (F interpretation	P): Recording & of normal ECG	SGT Physiology. Grades of muscular exercise & oxygen debt PY3.15	Anatomy I Norma I AN 2	Basalis	SGT Physiology (P) Neural regulation of respiration.
Wednesday	Anatomy Lecture Extra Occular Muscles AN 31.1			ECE Anatomy Pitutary Tumors on Visual Pathway AN 30.5	ECE - Physiology (P)Periodic breathing - PY6.6	SGT- Biochemistry Derangements in thyroid function (B6.15)	SDL Horner's Syndrome AN 31.3
Thursday	Anatomy Lecture Vessels & Nerves of Orbit AN 31.2	Physiology (L) Cardiorespiratory & other systemic changes during muscular exercise & oxygen debt.PY3.15	Lecture Lacrimal Apparatus AN 31.4	SGT- Biochemistry Derangements in adrenal function (B6.15)	Anatomy I Norma I AN 2 Muscles, Vessels & AN 31.1	Basalis 16.1 Nerves of Eyeball	SGT Biochemistry Derangements in pancreatic function (B6.15)
Friday	CM3.3 Describe the etiology and basis of water borne diseases /jaundice/hepatitis/ diarrheal diseases (L)	AETCOM -Comn - Foundatio of Co	nunity Medicine 1.4 mmunication	SGT Physiology (P) Artificial respiration PY 6.5	Anatomy I Norma Oc AN 2	cipitalis	SDL - Physiology (P) CO2 transport CO2 dissociation curve.
Saturday	Anatomy Lecture Temporal & Infratemporal Fossa AN 33.1	Physiology (L) General organisation of excretory system & functions of kidney PY7.1	Biochemistry (L) Cell cycle & cell cycle regulators (B7.1)	ECE Anatomy Clinical Importance of Pterygoid Venous Plexus AN 33.4	Anatomy I Norma I AN 2	Basalis	SGT Stabis Muscles AN 31.5
Monday	Physiology(L) Oxygen therapy & its effects PY6.5	(B l Physiolo	P) CSF Analysis 1.15) gy (P)TLC	Lecture Muscles of Mastication AN 33.2	Anatomy I Temporal & Infra AN 3	temporal Fossa 3.1	SGT Biochemistry DNA organization in cell (B7.2)
Tuesday	Biochemistry (L) DNA replication mechanism (B7.2)	interpretation	P)Recording & of normal ECG (5.13)	ECE Physiology- Indication & Demonstration of different methods ofartificial respiration- I PY6.5	Anatomy I Osteology of AN 2	f Mandible	SGT Physiology (P) Artificial respiration PY 6.5

week 23

week 24	Wednesday	Anatomy Lecture Mandibular Nerve AN 33.2			ECE Anatomy Clinical Importance of Pterygoid Venous Plexus AN 33.4	ECE Physiology- Demonstration of different methods of artificial respiration on Dummy- II PY6.5	SDL - Biochemistry Enlist key enzymes of DNA replication (B7.2)	SDL Karyotyping AN 73.2
Ð	Date/ Day/Time	9:00-10:00am	10:00-11:00am	11:00-12:00pm	1:00-2:00pm	2:00-3:00pm	3:00-4:00pm	4:00-5:00pm
we	Thursday	Anatomy Lecture Temporomandibular Joint AN 33.3	Physiology (L) Renal blood circulation	Lecture Modes of Inheritance AN 74.1, 74.2, 74.3	Lecture- Biochemistry Regulation of cell cycle and its relation with DNA replication (B7.2)	Anatomy I Muscles of M AN 3	Aastication 3.2	SGT Biochemistry Inhibitors of DNA replication (B7.2)
	Friday	CM3.3 Describe the etiology and basis of water borne diseases /jaundice/hepatitis/ diarrheal diseases (L)	Physiology (L) Renal blood circulation	Lecture Modes of Inheritance AN 74.1, 74.2, 74.4	SGT Physiology (p) Peculiarities of renal circulation	Anatomy I TM AN 33.3 1st & 2nd 0 AN 2	J Cervical Vertebra 6.1	SGT - Phygiology Endocrinal functions of kidney . PY 7.1
	Saturday	Anatomy Lecture Submandibular Gland AN 34.1	Physiology (L) Glomerular filtration & factors affecting GFR. PY 7.3	Biochemistry (L) DNA repair mechanism (B7.2)	SDL Karyotyping AN 73.2	Anatomy I Submandibu AN 3	ılar Gland	SGT Dislocations of TMJ AN 33.5
	Monday	Physiology (L) Structure & functions of Juxtaglomerular apparatus & Renin - Angiotensin system. PY 7.2	Agarose/ PAGi (B11.16) Phy Physiology (P)C	Demonstrotions of E Electrophoresis rsiology (P)TLC linical examination f RS	Anatomy Lecture Submandibular Ganglion AN 34.1	Anatomy F Cervical V AN 2	ertebrae	SGT Biochemistry Enlist diseases due to gene mutations (B7.3)
	Tuesday	Biochemistry (L) Mutations (B7.3)			AETCOM Physiology 1.2 - SDL - What does it mean to be a patient?	Anatomy I Revision o	Practical of Skull	SGT Physiology Glomrrular filtration rate & filtration fraction.PY7.3
week 25	Wednesday	Anatomy Lecture Deep Cervical Fsacia AN 35.1			ECE Anatomy Submandibular Stones AN 34.2	ECE - Physiology (P) Visit to ward to see patients of CCF, LVF, IHD. PY 5.8, 5.9	SDL - Biochemistry Details of mutations (B7.3)	SDL Lyon's hypothesis AN 73.2
wee	Thursday	Anatomy Lecture Thyroid Gland AN 35.2	Physiology (L) Tubular reabsorption & secretion.I PY 7 3	Lecture Development of Thyroid & Pitutary Gland AN 43.4	SDL- Biochemistry Mutations & Cancer (B7.3)	МІ	•	SGT Biochemistry Types of mutations responsible for various diseases (B7.3)
	Friday	CM3.3 Describe the etiology and basis of water borne diseases /jaundice/hepatitis/ diarrheal diseases (P)	Physiology (L) Tubular reabsorption & secretion.II PY 7 3	Lecture Subclavian Artery AN 35.3	SGT Physiology (P) Tubular reabsorption & secretion.III PY 7.3	Anatomy I Subclavia AN 3	n Artery	SDL- Physiology (P) Concept of clearance & its significance in renal function tests.PY 7.4
	Saturday	Anatomy Lecture Internal Jugular Brachiocepnalic AN 35.4	Physiology (L) Formation of dilute & concentrated urine I PY 7.3	Biochemistry (L) Regulation of gene expression in prokaryotes (B7.3)	AETCOM - Enumerate and describe professional qualities and role of Physician	Anatomy F Internal Jugular E AN 3	Brachiocephalic	SGT Clinical Features of Diseases AN 74.4
	Monday	Physiology (L) Formation of dilute & concentrated urine II	Biochemistry (P paper chromato Physiology (P) Demonstration of ography (B11.16)): RBC COUNT Clinical examination	Anatomy Lecture Cervical Sympathetic Chain	Anatomy I Cervical Sympa AN 3	Practical athetic Chain 5.6	SGT Biochemistry Applications of Recombinant DNA
	Tuesday	Biochemistry (L) Regulation of gene expression is eukaryotes (B7.3)	of RS	PY 6.9	AETCOM Physiology 1.2 - SDL - What does it mean to be a patient?	Anatomy I Micro-anatomy of Pi Parathyroid Glands		Technology (B7.4) SGT Physiology (P) Tubuloglomerular feedback & tubular functions, PY7.3
26	Wednesday	Anatomy Lecture Glossopharyngal Nerve AN 35.7			ECE Anatomy Cervical Lymph Nodes AN 35.5	SDL Physiology (P) To understsnd arrangement of counter current system & functionPY 7.3	SDL - Biochemistry Terms- Vectors + Types Palindromes restriction endonucleases	SDL Thyroid Swellings AN 35.8
week 26	Thursday	Anatomy Lecture Vagus Nerve AN 35.7	Physiology (L) Concept of renal clearance &clearance tests I PY 7.4	Lecture Chromosomal Abberations AN 75.1	Lecture- Biochemistry Therapeutic uses of Recombinant DNA Technology (B7.4)	Anatomy I Micro-anatomy of ' Gland, Tonsil AN 4	Tongue, Salivary s, Epiglinis 3.2	SGT Biochemistry Types & Nomenclature of Restriction Endonucleases (B7.4)
	Friday	CM3.3 Describe the etiology and basis of water borne diseases /jaundice/hepatitis/ diarrheal diseases (P)	Physiology (L) Renal clearance tests.II PY7.4	Lecture XI & XII Nerve AN 35.7	SDL - Physiology - Buffer sustems in kidney . PY 7.5	Anatomy I Micro-anatomy of Ocfactory, Eyelid, L 43.	Cornea, Retina, ip AN	SGT Physiology (P) Mechanism of Concentrated or dilute urine formation. PY 7.3
	Saturday	Anatomy Lecture Soft Palate AN 36.1	Physiology (L) Renal regulation of fluid, electrolyte & acid base balance & imbalance related disordersPY7.5	Biochemistry (L) Recombinant DNA technology (B7.4)	SDL Thyroid Swellings AN 35.8	Anatomy I Micro-anatomy of Sc Nerve, Organ of C AN 4	lero-corneal, Optic ortipineal Gland	SGT Fascial Spaces of Neck AN 35.10
	Monday	Physiology (L) Innervation of Urinary bladder, Physiology of micturition PY 7.6	Biochemistry (P ECISA/ELFA/Im (B11.16) Demonstration of) Demonstration of munological Assays Physiology (P): f Haematocrit, ESR ction tests PY 6.8	Anatomy Lecture Tonsils, Woldeyer Lymphatic AN 36.1, 36.2	Anatomy I AN 4	Practical 3.5	SGT Biochemistry Requirments of PCR (B7.4)

	Tuesday	Biochemistry (L) PCR technique (B7.4)	ECISA/ELFA/Im (B11.16) Demonstration o) Demonstration of munological Assays Physiology (P): f Haematocrit, ESR ction tests PY 6.8	SDL Physiology Understanding clinical significance of renal function tests. PY 7.8	Anatomy I AN 4		SGT Physiology (P) - Demonstration of correct technique to measure peak expiratory flow rate PY6.10
Ī	Wednesday	Anatomy Lecture Nasal Septum AN 37.1			ECE Anatomy AN 35.9	SDL Physiology (P Calculating the GFR, RBF, urea	ECE - Biochemistry Demonstration of	SDL AN 36.4
	Thursday	Anatomy Lecture Lateral Wall of Nose AN 37.1	Physiology (L) Abnormalities of micturation, Cystometry & normal cystometrogram. PY 7.9	Lecture Development of Face, Palate, Tongue AN 43.4	ECE- Biochemistry Blotting techniques (B7.4)	Anatomy I No: AN 3	se	SGT Biochemistry Applications of PCR (B7.4)
	Friday	CM3.4 Describe the concept of solid waste, human excreta and sewage disposal - SDL	AETCOM Comm The Foundation o	unity Medicine 1.4 - f Communication	ECE - Physiology . Significance & clinical correlation of urine examination. PY7.8	Anatomy AN 4		SGT Physiology (P) Introduction, structure & functions of digestive system
	Saturday	Anatomy Lecture Para-nasal Sinus AN 37.2, 37.3	Physiology (L) Renal function tests I PY 7.8	SGT Biochemistry Principle of Immuno assay (B11.16)	AETCOM Demosntarte empathy in patient encounter	Anatomy I AN 43.8		SGT pyriform Fossa Killan's Dehiscence AN 36.3, 36.5
	Monday	Physiology (L) Renal function tests I PY 7.8	Chemical lab (B) Physiology (P): I RBCS	Working of ISE in (Demonstration) 11.16) Demo.of Fragility of Physiology (P) To	Anatomy Lecture Para-nasal Sinus AN 37.2, 37.3	Anatomy AN 43.8		SGT Biochemistry Details of conjugating agents in detoxification (B7.5)
	Tuesday	Biochemistry (L) Phase I Reactions of Xenobiotics (B7.5)	Record mov	Respiratory ements.	ECE Physiology Principle of artificial kidney, dialysis & renal transplantation PY7.7	Anatomy I Atlanto-occipital, A AN 4	Atlanto-axial joint	SGT Physiology (P) Diuresis & diuretics. PY 7.5
	Wednesday	Anatomy Lecture Larynx AN 38.1			ECE Anatomy AN 38.2, 38.3	SGT Physiology (P) Applied aspect of salivary secretion, deglutition reflex & Aspiration PY 4.2	Lecture - Biochemistry Cytochrome P450 + its role (B7.5)	SDL Hyoglossal Nerve Palsy AN 39.2
_	Thursday	Anatomy Lecture Larynx AN 38.1	Physiology (L) Functional anatomy of stomach, composition of gastric juice, functions of stomach PY4.2	Lecture External & Middle Ear AN 40.1, 40.2	SDL- Biochemistry Purpose/ Need of Detoxification (B7. 5) (Dr. Anil Kumar)	Anatomy External & I AN 40.1	Middle ear	SGT Biochemistry Details of conjugating agents in detoxification (B7.5)
	Friday	CM3.4 Describe the concept of solid waste, human excreta and sewage disposal (P)	Physiology (L) Phases & regulation of gastric juice secretion PY4.2	Lecture Internal Ear, Auditory Tube AN 40.2, 40.3	SGT Physiology (P) Gastric motility & gastric emptying PY 4.2	Anatomy Practical Vertebral Canal	Contents of AN 42.1	SGT Physiology (P)Micturition & applied. PY 7.6
	Date/ Day/Time	9:00-10:00am	10:00-11:00am	11:00-12:00pm	1:00-2:00pm	2:00-3:00pm	3:00-4:00pm	4:00-5:00pm
	Saturday	Anatomy Lecture Eye ball AN 41.1, 41.2, 41.3	Physiology (L) Mechanism & regulation of HCl secretion & applied - peptic ulcer PY4.9	Biochemistry (L) Phase II reactions of Xenobiotics (B7.5)	AETCOM Demosntarte empathy in patient encounter	Anatomy I Sub-occipita AN 42.2	al Triangle	SGT AN 40.4, 40.5
	Monday	Physiology (L) Composition, functions & regulation of Pancreatic juice & applied PY4.2	exercise Physiology (P) count.	 Quality control e (B11.16) Demo. Of platelet Physiology of sensory system. 	Anatomy Lecture Genetics AN 75.2, 75.3	Revis	sion	SGT Biochemistry List the ROS (B7.7)
	Tuesday	Biochemistry (L) Oxidative stress and Antioxidant Defence systems in the body (B7.6 & B7.7)			AETCOM Physiology 1.2 What it means to be a Patient?	Part Compl (Head &		SGT - Physiology. Functions & actions of Saliva. PY4.2
	Wednesday	Anatomy Lecture Meninges AN 56.1			ECE Anatomy Spinal Cord AN 38.2, 38.3	SGT Physiology (P) GIT hormones & their actions PY 4.5	SDL - Biochemistry Pathogenesis of cancer oxidative stress (B7.7)	SDL Polymorphism & Mutation AN 75.4
	Thursday	Anatomy Lecture CSF Circulation AN 56.2	Physiology (L) Structure & functions of liver PY 4.2	Lecture Spinal Cord AN 57.1 - 57.3	ECE- Biochemistry/ Clinical case Discussion:- Cancer Diabetes mellitus Atherosclerosis (B7.7)	Anatomy Spinal AN 57.1	Practical Cord	SGT Biochemistry Pathogenesis of Diabete- mellitus Artherosclerosi- giving emphasis to oxidative stress (B7.7)
	Friday	CM3.4 Describe the concept of solid waste, human excreta and sewage disposal (P)	Physiology (L) Composition, functions & regulation of bile PY4.2	Lecture Spinal Cord AN 57.4	SGT Physiology (P) Structure & functions of gall bladder, applied- gall stones PY 4.2, 4.7	Anatomy Micro-anatomy o Cerebrum & Cerebe 64.	of Dpinal Cord, llum AN	SGT Physiology (P) Secretion of HCL & Applied. Py 4.9

Saturday	Anatomy Lecture External Features of Brain Stem AN 58.1, 59.1, 61.1	Physiology (L) Composition & functions Of succus entericus PY4.2	Biochemistry (L) Importance of various dietary components + Importance of diertary fibre (B7.6 & B7.7)	AETCOM Demosntarte empathy in patient encounter	Anatomy I External Features AN 58.1	of Brain Stem	SGT Genetic Counselling AN 75.5
		Week		nd Terminal l	Exam		I
			0	ips for feedba epartment of			
anu w				ch (On Sature			igy and
Monday	Physiology (L) Movements of small intestine & applied PY 4.3	profile for dysli Physiology (P)) Evaluation of lipid pidemias (B11.17) Demonstration of ocyte count	Anatomy Lecture Transverse Section of Medulla AN 58.2, 58.3	Revis	ion	SGT Biochemistry Types of dietary Fibres egs. (B8.1)
Tuesday	Biochemistry (L) PEM:- types, causes & effects (B8.2)	Physiology (P	P)Examination of al sensations	HIT Physiology & Biochemistry - Liver function tests PY 4.8	Revis	ion	ECE - Physiology (P) Peptic ulcer & other gastric function related disorders.PY 4.2
Wednesday	Anatomy Lecture Internal Features of Pons & Midbrain AN 59.2, 59.3, 61.1, 61.2			ECE Anatomy Medial & Lateral Medullary Syndrome AN 58.4	SGT Physiology (P) Gastric & pancreatic exocrine function tests PY 4.8	SGT - Biochemistry Identify PEM types with the help of pictures differences B/W Kwashiorkor & Marasmus (B8.2)	SDL Open Neural Tube Defects AN 64.3
Thursday	Anatomy Lecture Cerebellum AN 60.1, 60.2	Physiology (L) Secretions & functions of large intestine PY 4.3	Lecture Development of Brain & Spinal Cord AN 64.2	ECE- Biochemistry Clinical Case:- Kwashiorkor Marasmus (B8.2)	Anatomy I Cerebe AN 6	llum	ECE - Biochemistry Differences b/w kwashiorkor & marasmus (B8.2)
Friday	CM3.5 Describe the standards of housing and the effect of housing on health (L)	Physiology (L) GIT movements, defecation reflex & dietary fibres PY 4.3	Lecture Cerebrum AN 62.2	ECE - Physiology (P) Gastroesophageal reflux disease, diarrhoea, vomiting, constipation, adynamic ileus & Hirschsprung disease PY 4.9	Anatomy F Cereb AN 6	rum	SGT Physiology (P) Introduction to endocrinology
Saturday	Anatomy Lecture Cerebellum AN 60.1, 60.2	Physiology (L) GIT movements, defecation reflex & dietary fibres PY 4.3	SGT - Biochemistry Identify PEM types with the help of pictures differences B/W Kwashiorkor & Marasmus (B8.2)	AETCOM Demosntarte empathy in patient encounter	Anatomy I Cereb AN 6	rum	SDL Open Neural Tube Defects AN 64.3
Monday	Physiology (L) classification of hormones, synthesis, transport & clearance of hormones PY 8.2	Profile for diagn gout, nephroti (B11.17)	Evaluation of renal osis of renal failure, ic syndrome, etc. Physiology (P): Physiology (P):	Lecture White Matter of Cerebrum AN 62.3	Anatomy I Histology Esoph AN 5	agus, Stomach	SGT Biochemistry Lis of commonly used food items (B8.5)
Tuesday	Biochemistry (L) ECM:- Compnents & functions (B9.1)	Examination	of Motor System	SGT Physiology Physiology of thymus & pineal gland PY 8.3	Anatomy I Histology of Duodeu AN 5	m, Jejunum, Ileum	SGT Physiology (P) Bile . PY 4.1
Wednesday	Anatomy Lecture Internal Capsule AN 62.3			ECE Anatomy Lumbar Puncture AN 50.3	SDL Physiology (P) To understand role of Hypothalamo Hypophyseal endocrinal axis in endocrinnal regulation	Lecture - Biochemistry Importance of commonly usesd food items (B8.5)	SDL Subthalamus, Meta Malamus AN 62.5
Thursday	Anatomy Lecture Basal Ganglion AN 62.4	Physiology (L) General regulatory mechanisms for release of hormones PY 8.2	Lecture Thalamus AN 62.5	ECE- Biochemistry Clinical case:- Marfan's syndrome, Ehler's Danlor syndrome, Duchenne's muscular dystrophy etc. (B9.1+B9.2)	Anatomy I Histology of Large In AN 5	ntestine, Appendix	SGT Biochemistry Biochemical basis of diseases related to ECN with egs (B9.1 + B9.2)
Friday	CM9.4 Enumerate and describe the causes and consequences of population explosion and population dynamics of India (L.).	Physiology (L) Structure of pituitary gland & hormones released from Anterior pituitary PY 8.2	Lecture Thalamus AN 62.6	SGT Physiology (P) Secretion regulation & Actions of prolactin. PY 8.2	Anatomy Practical Histology of Liver, Gall Bladder AN 52.1		SGT Physiology (P) Pancreatic juice. PY4.1

week 33

	Saturday	Anatomy Lecture Circle of Willis AN 62.6	Physiology (L) Synthesis, regulation of release & actions of growth hormone PY 8.2	Biochemistry (L) Involvement of ECM in Health + disease (B9.2)	SGT Epithalamus, Hypothalamus AN 62.5	Anatomy I Histology of Pancre Glat AN 5	eas & Supra-renal nd	SGT Epithalamus, Hypothalamus AN 62.5
	Monday	Physiology (L) Effects of hypo & hyper secretion of growth hormones PY 8 2	Biochemistry (F profile (Demonst (P): Revision Eliciattaion of	P) ELISA: Thyroid tration) Physiology Physiology (P): Deep Reflexes on I subjects	Lecture Lateral Ventricle AN 63.1	Anatomy I Circle of AN 6	Willis i2.6	SGT Biochemistry Protein degradation (Lysosomal & Proteasomal) (B9.3)
	Tuesday	Biochemistry (L) Protein targeting and sorting (B9.3)			ECE- Physiology Pituitory dwarf & patients with acromegali & gaigantism should be shown to the students if available. If not then simuated environment should be used to make them understand PY8 2 ECE Anatomy	Anatomy I Lateral V AN 6	3.1	SGT Physiology (P) Test on digestive system Short notes.
week 34	Wednesday	Anatomy Lecture Third Ventricle AN 63.1			ECE Anatomy Congenital Hydrocephalus AN 63.2	SGT Physiology (P) Trophic hormones from ant. Pituitory gland. PY 8.2	SDL - Biochemistry Enlist Disorders associated with protein targetting + Sorting (B9.3)	SDL AN 50.4
>	Thursday	Anatomy Lecture Fourth Ventricle AN 63.1	Physiology (L) Functional anatomy of thyroid gland & synthesis of thyroid hormones PY 8.2	Anatomy (L)	Lecture- Biochemistry Biochemical basis of disorders associated with protein targeting & Sorting (B9.3)	Part Compl Neuroan		SGT Biochemistry Define Cancer & distinguish b/w Benign and Malignant cancers. (B10.1)
	Friday				HOLIDAY			
	Saturday	Anatomy Lecture Anterior Abdominal Wall AN 44.6	Physiology (L) Structure & hormones released by adrenal cortex PY 8 2	Biochemistry (L) Cancer (B10.1 & B10.2)	SGT Rectus Sheath AN 44.3	Anatomy I Osteology of Lu AN 5	mbar Vertebra	SGT Rectus Sheath AN 44.3
	Date/ Day/Time	9:00-10:00am	10:00-11:00am	11:00-12:00pm	1:00-2:00pm	2:00-3:00pm	3:00-4:00pm	4:00-5:00pm
	Monday	Physiology (L) Adrenocortical hormones with applied aspects I PY 8.2	proteinuria & Physiology(P): R (P): Eliciattic	(P) Diagnosis of : types (B11.17) evision Physiology on of Superficial flexes	Lecture Histology of Exeretory System AN 52.2	Anatomy I Osteology o AN 5	of Sacrum	SGT Biochemistry Discussion of terms: Oncogenes, Proto oncogenes Tumour markers, Tumour suppressor (B101)
	Tuesday	Biochemistry (L) Apoptosis (B10.1)			AETCOM Physiology 1.2 What it means to be a Patient?	Anatomy I Ant. Abdon AN 4	ninal Wall	SGT Physiology (P) Growth hormonePY 8.2
veek 35	Wednesday	Anatomy Lecture Inguinal Canal AN 44.4			ECE Anatomy Inguinal Hernia AN 44.5	ECE -Physiology (P) Hypo thyroid (Cretin & myxiedema) & Hyperthyroid patients should be if shown possible, Photos of patient with endocrinal disorders should be shown & important sign & symptoms explainedPY8.2	Lecture - Biochemistry Enzymes involved in apoptosis & importance of apoptosis (B10.1)	SDL Abdominal Incisions AN 50.4
Ň	Thursday	Anatomy Lecture Development of Rep. System AN 52.8	Physiology (L) Adrenocortical hormones with applied aspects II PY 8.2	Lecture Development & Anomalies of Diaphragm AN 52.5	ECE- Biochemistry Use of Tumour markers in clinical BC lab (B10.2)	Anatomy I Inguinal AN 4	Canal	SGT Biochemistry Tumour markers (B10.2)
	Friday	CM3.7 Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures (P)	Physiology (L) Physiology of bone & calcium metabolism I PY 8.1	Lecture Ratation of Gut AN 52.6	SGT- Physiology Discuss & explain about adaptation to altered temperature-hot & cold.PY11.1	Anatomy I Radio AN 5	logy	SGT - Physiology (P) Thyroid gland & applied. Py 8.2
	Saturday	Anatomy Lecture Lumbar Plexus AN 45.2	Physiology (L) Physiology of bone & calcium metabolism II PY 8.1	Biochemistry (L) Biochemistry of metastases & Basis of cancer Therapy (B10.1 & B10.2)	SGT AN 53.3	Anatomy I Lumbar AN 5	Plexus	SGT AN 53.3
	Monday	Physiology (L) Temperature regulation . PY 8.1	Revision Physiol	D/D of Jaundice by .17) Physiology (P): ogy (P): Assessment or System	Lecture Male Rep. System AN 46.1 - 46.3	Anatomy I Test AN 4	les	SGT Biochemistry Term:- Antigen Antibody Hapten Immunogenicity etc. (B10.3)

	Tuesday	Biochemistry(L) Houmoral Immunity (B10.3)			SGT - Physiology (P) Discuss & compare cardio- respiratory changes in exercise with that in resting state & under different environmental	Anatomy F Histology of Mal AN 5:	e Rep. System 2.5	SGT Physiology (P) Adrenal cortex - GlucocorticoidsPY 8.2
week 36	Wednesday	Anatomy Lecture Thoracolumbar Fascia AN 45.1			ECE Anatomy Varicocele Phimosis AN 46.4, 46.5	SGT Physiology (P) Discuss & compare cardio- respiratory changes in exercise with that in resting state & under different environmental conditions.II PY 11.8	ECE - Biochemistry Innate v/s Adaptive immunity (B10.3)	SDL Lumbarization Sacrafization AN 53.4
>	Thursday	Anatomy Lecture Peritoneum AN 47.1	Physiology (L) Endocrinal functions of pancreas PY 8.2	Anatomy Lecture Development of Urinary System AN 52.7	SDL- Biochemistry Premary v/s Secondary Immune response (B10.4)	Anatomy F Periton AN 4	eum	SGT Biochemistry What are antigens epitopes (B10.5)
	Friday	AETCOM - Communi Communication	ty Medicine - 1.4 F	oundation of	SGT Physiology Discuss & explain about adaptation to altered temperature-hot & coldPY 11.3	Anatomy F Histology of Fema AN 5	ile Rep. System	SGT Physiology (P) Adrenal cortex - Mineralocorticoids & androgens. Applied
	Saturday	Anatomy Lecture Peritoneum AN 47.2	Physiology (L) Regulation of release & Physiological actions of glucagon PY 8.2	Biochemistry (L) Cell Mediated Immunity (B10.3 & B10.4)	AETCOM - Demonstrate ability to communicate to patient in a patient, respectful, non threatening, non judgemental and empathetic manner	Anatomy F Osteology o AN 5	of Pelvis	SGT Ascites, Peritonitis Subphrenic abscess AN 44.3
	Monday	Physiology (L) Explain the concept, criteria for diagnosis of brain death & its implications PY11.11	Lipase delem Phyaiology (P): R (P): Assessme) Serum amylase & ination (B11.17) Revision Physiology ent of cerebellar action	Lecture Stomach AN 47.5	Anatomy F Stoma AN 4	ach	SGT Biochemistry Self tolerance & Autoimmunity (B10.4)
	Tuesday	Biochemistry (L) Body fluid analysis: Urine (B11.4 & B11.5)			ECE Physiology Obesity, metabolic syndrome pertaining to psychiatric component, stress response PY 8.5	Anatomy F AN 4'		SGT Physiology (P) Bone physiology & calcium & phosphate metabolism
week 37	Wednesday	Anatomy Lecture Spleen AN 47.6			ECE Anatomy Calot's Triangle AN 47.7	ECE- Physiology (P) To explain clinical significance & interpretation of growth charts & anthropometric assessment of infants PY11.9, 11.10	Lecture - Biochemistry Vaccine development (B10.5)	SDL AN 51.1
wee	Thursday	Anatomy Lecture Liver AN 47.5	Physiology (L) General organisation of nervous system PY 10.1	Anatomy Lecture Kidney AN 47.5	ECE- Biochemistry Clinical Case:- D/D of Meningitis (B11.5)	Anatomy F Liver, K AN 4	idney	SGT Biochemistry Importance of urine analysis in the diagnosis of different clinical condition (B11.4 & 11.5)
	Friday	CM3.7 Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures (P)	sensation PY 10.2	Anatomy Lecture Portal V, IVC Renal V AN 47.8	SGT Physiology (P) Discussion of MCQs.	Anatomy F AN 4	7.8	SGT Physiology (P) Question paper discussion
	Saturday	Anatomy Lecture Abdominal aorta AN 47.9	Physiology (L) Structure of synapse, mechanism of transmission PY10.2	Biochemistry (L) Body fluid analysis : CSF (B11.5)	AETCOM - Demonstrate ability to communicate to patient in a patient, respectful, non threatening, non judgemental and	Anatomy F AN 4	7.9	SGT AN 54.2, 54.3
	Monday	Physiology (L) Properties of synapse & synaptic inhibition PY 10.2	Biochemistry (Interpretation of (B11.17) (P): Revision	P) Performance & of ABG Analysis Phyaiology Physiology (P): nsory-motor System	Lecture Pancreas AN 47.5	Anatomy F AN 4	7.5	SGT Biochemistry Principle of ABG analyser (B11.16)
	Tuesday	Biochemistry (L) Electrophoresis & Chromatography (B11.16)			AETCOM Physiology 1.2 - What it means to be a patient?	Anatomy F Surface A AN 55.1	natomy	SGT Physiology (P) Synapse, its properties & synaptic inhibition

	Wednesday	Anatomy Lecture Portosystemic Anastomosis AN 47.11			ECE Anatomy Caput Medusa Hematemesis AN 47.11	ECE - Physiology. Tetany & other bone related disorders.	SDL - Biochemistry Steps of DNA isolation (B11 16)	SDL Nerve Plexus of Posterior Abd Wall AN 47.12
	Thursday	Anatomy Lecture Thoraco-abdominal Diaphragm AN 47.13, 47.14	Physiology (L) Reflex action, types, components & properties of reflex arc I PY 10 2	Anatomy Lecture Pelvic Diaphragm AN 48.1	ECE- Biochemistry Demonstration of ELISA technique (B11.16)	Anatomy F AN 47.1		SGT Biochemistry Uses of DNA isolation (B11.16)
	Friday	CM3.7 Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures (P)	Physiology (L) Reflex action, types, components & properties of	Anatomy Lecture Pelvic Diaphragm AN 48.1	SGT Physiology (P) Discussion of MCQs.	Anatomy I AN 47.1:		SGT Physiology (P) Synapse, its properties & synaptic inhibition
	Saturday	Anatomy Lecture Uterus AN 48.2	Physiology (L) Conditioned reflex & its properties PY 10.2	Biochemistry (L) Automation & Quality Control (B11.16)	SGT AN 48.5	Anatomy I Uter AN 4	us	SGT AN 48.5
	Monday	Physiology (L) Receptors - structure & properties PY 10.2	Physiology (P): R (P): Assessment of	pH metry (B11.2) evision Physiology of Superificial-Deep lexes	Lecture Bladder AN 48.4	Anatomy F Micro-anatomy of c function & Cor AN 5	cardio-esophagus rpus Luteum	SGT Biochemistry Lab Diagnosis of Acid Base imbalance (B11.17)
	Tuesday	Biochemistry (L) Rationale of biochemical tests in various clinical condition-I (B11.17)			ECE -Physiology. Observe & describe management of unconscious patient and basic set up process of a ventillation PY7.3,7.4	Anatomy I Revis	Practical ion	ECE - Physiology (P) Applied aspects of superficial & deep reflexes. PY 10.2
1		9:00-10:00am	10:00-11:00am	11:00-12:00pm	1:00-2:00pm	2:00-3:00pm	3:00-4:00pm	4:00-5:00pm
	Wednesday	Anatomy Lecture Prostate Ovary AN 48.2	(B1 Physiology Physiology (P)	y (P) pH metry 11.2) (P): Revision : Assessment of Deep Reflexes	ECE Anatomy Automatic Bladder AN 48.6	SGT Physiology (P) Describe anatomical correlates & Physiology of pain, elicit & determine level, quality & quantity of pain & its tolerance in patients PY8.1, 8.2	SDL - Biochemistry Dm DyslipidemiasMI (B11.17)	SDL AN 48.7, 48.8
	Thursday	Anatomy Lecture Superficial & Deep Perineal Pouch AN 49.1	Physiology (L) Structure of spinal cord & spinal reflexes I PY 10.2	Anatomy Lecture Perineal Body & Membrane AN 49.2, 49.3	ECE- Biochemistry Renal failiure - Gout -edema Jaundice etc. (B11.17)	Anatomy F AN 49.1		SGT Biochemistry Formative Assessment
	Friday	CM3.8 Describe the mode of action, application cycle of commonly used insecticides and rodenticides (L)	Physiology (L) Sensory pathways - dorsal column tracts PY 10.3	Anatomy Lecture Ischiorectal Fossa AN 49.4	SGT Physiology (P) Physiological effects of Meditation. PY 11.12	Pandemic Modul Control: 1 Infection Contro Hand washing, Do Use of PPEs - N	Part - I ol Practices – econtamination Microbiology	SGT Physiology (P) Spinal cord & its reflexes
	Saturday	Anatomy Lecture Extrabiliary Apparatus AN 48.2	Physiology (L) Spinothalamic & spinocerebellar tracts PY 10.2	Biochemistry (L) Rationale of biochemical tests in various clinical condition-II (B11.17)	hemoglobinopathies; PY2 and explain its breakdown.	onstrate the surface pro Describe and discuss hips in relevant areas e 3 Describe and discus	ojections of Liver, F functions of protein g, hemoglobin and s is the synthesis and moglobin; PY2.4 regulation) and its	Fundus of gall bladder, ns and structure-function selected functions of Hemoglobin Describe RBC formation
	Monday	Physiology (L) Motor cortex & motor pathways I PY 10.4	Chromatogra Physiology (P)	(P) Thin Layer aphy (B11.16) CAL for amphibian e experiments I	SGT AN 49.5	Revision Anato	omy DH (P)	SGT Biochemistry Glycemic index (B11.23)
	Tuesday	Biochemistry (L) Energy content of different food items (B11.23)	Physiology (P) A	assessment of taste, ing modalities	ECE Physiology Disorders related to sensory tracts PY 10.3	Revision Anato	omy DH (P)	SGT Physiology (P) Sensory pathways & dorsal column tracts

Wednesday	Revison Anatomy (L)			ECE Anatomy - Revision	SGT -Physiology Physiology of taste sensation. PY 10.13	Lecture - Biochemistry Calculation of glycemic index of carbohydrates (B11 24)	SDL Anatomy - Revision
Thursday	Revison Anatomy (L)	Physiology (L) Motor cortex & motor pathways II PY 10.4	Revison Anatomy (L)	ECE- Biochemistry Determinations of balanced diet in terms of cal/day requirement (B11.23)	Revision Anat		SGT Biochemistry Divide the food items into 2 groups high & low glyeomic index (B11.24)
Friday	CM 3.6 Describe the role of vectors in the causation of diseases. Also discuss National Vector Borne disease Control Program (SDL)	AETCOM - SDL communications I	- Foundation of	ECE - Physiology (P) Upper & lower motor neuron lesions PY 10.4	Revision Anat	omy DH (P)	SGT Physiology (P) Motor cortex & motor pathways
Saturday	Revison Anatomy (L)	Physiology (L) Skeletal muscle tone I PY 10.4	Biochemistry (L) Role of Saturated/ Unsaturated Trans fats in diet (B11.24)	Revision Anatomy	Revision Anat	omy DH (P)	SGT Anatomy - Revision
Monday	Physiology (L) Functional anatomy & connections of thalamus PY 10.7	skeletal musc Physiology (P) cranial nerves3,4,	AL for Amphibian le experiment II : Examination of 6 Biochemistry(P): vision	Revison Anatomy (L)	Revision Anat	omy DH (P)	SGT Biochemistry (P)
Tuesday	Revsions Biochemistry (L)	skeletal musc Physiology (P) cranial nerves3,4,	CAL for Amphibian le experiment II : Examination of 6 Biochemistry(P): vision	ECE Physiology Spinal cord lesions PY 10.6	Pandemic Modul Control: Infection Contr Hand washing, D Use of PPEs - !	Part - I ol Practices – econtamination	SGT Physiology (P) Skeletal muscle tone II PY 10.4
Wednesday	Revison Anatomy (L)	skeletal musc Physiology (P) cranial nerves3,4,	CAL for Amphibian le experiment II : Examination of 6 Biochemistry(P): vision	SGT Anatomy - Revision	SGT Physiology (P) Anatomy & connections of thalamus	AETCOM Biochemistry 1.3 The Doctor- Patient Relationship	SGT Anatomy - Revision
Thursday	Revison Anatomy (L)	Physiology (L) Functions & abnormalities of thalamus PY 10.7	Revison Anatomy (L)	AETCOM - Reflections	Revision Anat	omy DH (P)	AETCOM Biochemistry 1.3 -The Doctor-Patient Relationship
Friday	CM3.7 Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures (SD1)	Physiology (L) Functional anatomy & functions of basal ganglia PY10.7	Revison Anatomy (L)	SGT Physiology (P) Disorders of basal ganglia PY 10.7	Revision Anat	omy DH (P)	ECE - Physiology (P) Functions & abnormalities of thalamus& Basal ganglia.PY 10.7
Saturday	Revison Anatomy (L)	Physiology (L) Functional anatomy & neuronal circuits of cerebellum PY 10.7	SGT Biochemistry Revision (P)	µanatomical features of the liver, gall bladder; B to assess the functions of th	16.14 Describe the test	r, & Pancreas; BI6. ts that are common ribe the abnormalit	13 Describe the functions by done in clinical practice ies of liver function tests ;
Monday	Physiology (L) Cerebellar connections & functions PY 10.7	Physiology Biochemistr	(P) : Revision y (P): Revision	Revison Anatomy (L)	Revision Anat	omy DH (P)	SGT Biochemistry Revision (P)
Tuesday	SGT Biochemistry Revision (P)			ECE Physiology Cerebellar dysfunctions PY 10.7	Revision Anat		SGT Physiology (P) Anatomy & functions of basal ganglia
Wednesday	Revison Anatomy (L)			ECE Anatomy	SGT Physiology (P) Structure of vestibular apparatus PY 10.4	SGT Biochemistry Revision (P)	SDL Anatomy
Thursday	Revison Anatomy (L)	Physiology (L) Mechanism of functioning of vestibular apparatus PY 10 4	Revison Anatomy (L)	AETCOM- Physiology	Revision Anat		SGT Biochemistry Revision (P)
Friday	CM3.8 Describe the mode of action, application cycle of commonly used insecticides and rodenticides (P)	Physiology (L) Postural reflexes I PY 10.4	Revison Anatomy (L)	SGT - Physiology (P) Functional anatomy of ear & mechnism of hearing.PY 10.15	Revision Anat		ECE Physiology (P) Tests for Cerebellar functions.PY 10.7
Saturday	rodenticides (P) Revison Anatomy (L)	Physiology (L) Postural reflexes II PY 10.4	Revision Biochemistry (L)	AETCOM/SDL - Anatomy	Revision Anat	omy DH (P)	SGT Anatomy (P)

	Monday	Physiology (L) Functions of hypothalamus PY 10.4		(P) : Revision y (P): Revision	Revison Anatomy (L)	Revision Anato	omy DH (P)	SGT Biochemistry Revision (P)
	Tuesday	SGT Biochemistry Revision (P)			SGT- Physiology Sex determination & differentiation PY 9.1Onset of puberty PY 9.2	Revision Anato	omy DH (P)	SGT Physiology (P) Physiology of smell sensation. PY 10.13
	Date/ Day/Time	9:00-10:00am	10:00-11:00am	11:00-12:00pm	1:00-2:00pm	2:00-3:00pm	3:00-4:00pm	4:00-5:00pm
43	Wednesday	Revison Anatomy (L)	Biochemistr	(P) : Revision y (P): Revision	ECE Anatomy	SGT Physiology (P) Body temperature regulation PY 10.4	SGT Biochemistry Revision (P)	SDL Anatomy
week 43	Thursday	Revison Anatomy (L)	Physiology (L) Limbic system PY 10.4	Revison Anatomy (L)	AETCOM- Physiology	Revision Anato	omy DH (P)	SGT Biochemistry Revision (P)
×	Friday	CM9.2 Define, calculate and interpret demographic indices including birth rate, death rate, fertility rates (SDL)	Physiology (L) Reticular activating system PY 10.4	Revison Anatomy (L)	ECE- Physiology (P) Auditory pathway, Deafness, Tests for Hearing.PY10.15 & 10.16	Revision Anato	omy DH (P)	SGT Physiology Physiological effects of sex hormones PY 9.5
	Saturday	Revison Anatomy (L)	Physiology (L) Reticular activating system PY 10.4	SGT Biochemistry Revision (P)	AETCOM/SDL - Anatomy	Revision Anato	omy DH (P)	SDL Anatomy
	Monday	Physiology (L)Sleep & EEG.PY 10.8		Physiology (P) CAL 1 skeletal muscle	Revison Anatomy (L)	Revision Anato		SGT Biochemistry Revision (P)
	Monday	Physiology (L)Sleep & EEG.PY 10.9	experiments III Examination of	Physiology (P) cranial nerves - V,	Revison Anatomy (L)	Revision Anato	omy DH (P)	SGT Biochemistry Revision (P)
	Tuesday	SGT Biochemistry Revision (P)	VII, IX, X, XI, X	II Biochemistry Revision	SGT - Physiology Functional anatomy of eye. PY 10.17	Revision Anato	omy DH (P)	SGT Physiology (P) Male reproductive system II PY 9.3
< 44	Wednesday	Revison Anatomy (L)			ECE Anatomy	SGT Physiology (P) .Image formation & refractive errors.PY 10.7	SGT Biochemistry Revision (P)	SDL Anatomy
week 44	Thursday	Revison Anatomy (L)	Physiology (L) Visual pathway PY 10.7	Revison Anatomy (L)	SGT - Physiology . Accomodation, Light reflex, colour	Revision Anato	omy DH (P)	SGT Biochemistry (P)
-	Friday	CM9.3 Enumerate and describe the causes of declining sex ratio and its social and health implications (SDL)	Physiology (L)- Female reproducive system I PY 9.4	Revison Anatomy (L)	ECE Physiology Explain common causes of infertility to the couple & role of IVF in its treatment	Revision Anato	omy DH (P)	SGT Physiology (P) Physiology of lactation PY9.8
	Saturday	Revison Anatomy (L)	Physiology (L) Female reproducive	Revision Biochemistry (L)	AETCOM/SDL - Anatomy	Revision Anato	omy DH (P)	SGT Anatomy (P)
	Monday	Physiology (L)Sleep & EEG.PY 10.9	Physiology (P) : I	Physiology (P) CAL 1 skeletal muscle	Revison Anatomy (L)	Revision Anato	omy DH (P)	SGT Biochemistry Revision (P)
< 45	Tuesday	SGT Biochemistry Revision (P)	experiments III Examination of	Physiology (P) cranial nerves - V,	SGT - Physiology Functional anatomy of eye.	Revision Anato	omy DH (P)	SGT Physiology (P) Male reproductive
week 45	Wednesday	Revison Anatomy (L)		(II Biochemistry Revision	PY 10.17 ECE Anatomy	SGT Physiology (P) .Image formation & refractive errors.PY	SGT Biochemistry Revision (P)	system II PY 9.3 SDL Anatomy

L - Lecture	P - Practical/S GT/Tutori al/IT			DH - Dissecti	on Hall	
Last Friday every mon	SGT - Small Group Teaching					
Sports - Outdoor Week 4-5 (Last 2 Saturdays)				SDL - Self Directed Learning		
- Indoor Week 10-11 (Last 2 Saturdays)				AETCOM - Attitude, Ethics & Communication		
				ECE - Early	Clinical Expo	sure
1st Internal Exam -We	Integration will be done along with Practical/SGT/Tutorial - two Saturday's in Week 39 & 41 as decided by AIT					
2nd Intertnal Exam - V						
Pre University Exams -						
						1
Diwali Vacations - One						
Holi Vacations - One V	leek
