

Teerthanker Mahaveer Medical College & Research Center

Teerthanker Mahaveer University

Delhi Road, Moradabad - 244001

Time Table Schedule (Phase 3 MBBS (Part 1) as per New Curriculum w.e.f AUGUST 2019) (Batch 2022-23) w.e.f 16.01.25

Day/Time	8:00-9:00 am	9:00-10:00 am	10:00 am - 1:00 pm	1:00-2:00pm	2:00-3:00pm	3:00-4:00pm	
Monday	Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Dermatology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Clinical Posting (P)	LUNCH	Community Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning		
Tuesday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Respiratory Medicine/ Radiology # - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Clinical Posting (P)		Community Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	# - First 18 weeks are for Respiratory medicine and Next 17 weeks are for Radiology
Wednesday	Pediatrics - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Community Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Clinical Posting (P)		Forensic Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning		
Thursday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Otorhinolaryngology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Clinical Posting (P)		Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	
Friday	Psychiatry - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Clinical Posting (P)		Integrated Teaching as decided by AITo	Pediatrics/ Anesthesia* - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	*First 18 weeks are for Anesthesia and next 17 weeks are for Pediatrics
Saturday	Orthopedics - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	AETCOM Module/ Pandemic Module	Clinical Posting (P)		Community Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning		1 week Holi Vacations (10.3.25-15.3.25); 1 week Diwali Vacations(20.10.25-25.10.25); 2 weeks each for 1st Terminal (07.4.25-19.4.25), 2nd Terminal (07.7.25-19.7.25) and Pre-University Exam (03/11/25 onwards); Four Days Every Year - Annual Sports (Weekend / Holidays).
		AETCOM Module 3.5 - Community Medicine; Module 3.3 by ENT; Module 3.1 & 3.2 by Eye and Module 3.3 & 3.4 by Forensic Medicine: Pandemic Module:3.1-3.3 by Community Medicine	Clinical Posting - 4weeks in General Medicine; General Surgery, Obstetrics & Gynecology, Pediatrics, Community Medicine; 3weeks in Eye and ENT; 2 weeks in Dermatology, Respiratory Medicine and Orthopedics; 1 week in Psychiatry, Radiodiagnosis, OT

Time Table Schedule (Phase 3 MBBS (Part 1) as per New Curriculum w.e.f AUGUST 2019) (Batch 2022-23) w.e.f 16.01.2025

Day/Time	10:00 am - 1:00 pm	Date	
Week 1	Monday	IM 2.9 Distinguish and differentiate between stable and unstable angina and AMI based on the clinical presentation Unit - 3/ IM 7.14 Describe the appropriate diagnostic work up based on the presumed aetiology Unit - 1	Students are divided into Three Groups with Each posting of 4 weeks from 16.01.25 to 22.02.25; 24.02.25 to 22.03.25 and 24.03.25 to 03.05.25
	Tuesday	Clinical Posting (P):IM 2.10 Order, perform and interpret an ECG Unit - 4/ IM 7.13 Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology Unit - 5	
	Wednesday	Clinical Posting (P):IM 2.11 Order and interpret a Chest X-ray and markers of acute myocardial infarction Unit - 2/ IM 7.12 Perform a systematic examination of y all joints, muscle and skin that will establish the diagnosis and severity of disease Unit - 1	
	Thursday	Clinical Posting (P)IM 2.12 Choose and interpret a lipid profile and identify the desirable lipid profile in the clinical context Unit - 1/ IM 7.11 Elicit document and present a medical history that will differentiate the aetiologies of disease Unit - 2	
	Friday	Clinical Posting (P):IM 2.21 Observe and participate in a controlled environment an ACLS program Unit - 5/IM 6.23 Demonstrate a non-judgemental attitude to patients with HIV and to their lifestyles Unit - 4	
	Saturday	Clinical Posting (P):IM 2.22 Perform and demonstrate in a mannequin BLS Unit - 1/ IM 6.22 Demonstrate understanding of ethical and legal issues regarding patient confidentiality and disclosure in patients with HIV Unit - 3	
Week 2	Monday	Clinical Posting (P):IM 2.23 Describe and discuss the indications for nitrates, anti-platelet agents, gpIIb IIIa inhibitors, beta blockers, ACE inhibitors etc in the management of coronary syndromes Unit - 3/IM 6.21 Communicate with patients on the importance of medication adherence Unit - 1	
	Tuesday	Clinical Posting (P):IM 2.24 Counsel and communicate to patients with empathy lifestyle changes in atherosclerosis / post coronary syndromes Unit - 4/ IM 6.20 Communicate diagnosis, treatment plan and subsequent follow up plan to patients Unit - 5	
	Wednesday	Clinical Posting (P):IM 3.4 Elicit document and present an appropriate history including the evolution, risk factors including immune status and occupational risk Unit - 2/ IM 6.19 Counsel patients on prevention of HIV transmission Unit - 1	
	Thursday	Clinical Posting (P): IM 3.5 Perform, document and demonstrate a physical examination including general examination and appropriate examination of the lungs that establishes the diagnosis, complications and severity of disease Unit - 1/ IM 6.15 Demonstrate in a model the correct technique to perform a lumbar puncture Unit - 2	
	Friday	Clinical Posting (P):IM 3.6 Generate document and present a differential diagnosis based on the clinical features, and prioritise the diagnosis based on the presentation Unit - 5/ IM 6.14 Perform and interpret AFB sputum Unit - 4	
	Saturday	Clinical Posting (P):IM 3.7 Order and interpret diagnostic tests based on the clinical presentation including: CBC, Chest X ray PA view, Mantoux, sputum gram stain, sputum culture and sensitivity, pleural fluid examination and culture, HIV testing and ABG; Unit - 1/IM 6.12 Enumerate the indications for and interpret the results of: pulse oximetry, ABG, Chest Radiograph Unit - 3	
	Monday	Clinical Posting (P):IM 3.8 Demonstrate in a mannequin and interpret results of an arterial blood gas examination Unit - 3/ IM 6.11 Enumerate the indications and describe the findings for CT of the chest and brain and MRI Unit - 1	
Week 3	Tuesday	Clinical Posting (P):IM 3.9 Demonstrate in a mannequin and interpret results of a pleural fluid Aspiration Unit - 4/; IM 6.10 Choose and interpret appropriate diagnostic tests to diagnose opportunistic infections including CBC, sputum examination and cultures, blood cultures, stool analysis, CSF analysis and Chest radiographs Unit - 5	
	Wednesday	Clinical Posting (P):IM 3.10 Demonstrate in a mannequin and interpret results of a blood culture Unit - 2/IM 6.9 Choose and interpret appropriate diagnostic tests to diagnose and classify the severity of HIV-AIDS including specific tests of HIV, CDC Unit - 1	

Wee

Thursday	Clinical Posting (P)IM 3.11 Describe and enumerate indications for further testing including HRCT,viral cultures,PCR and specialized testing Unit - 1/ IM 6.8 Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology for the presenting symptom Unit - 2
Friday	Clinical Posting (P)IM 3.13 Select, describe and prescribe based on the most likely aetiology, an appropriate empirical antimicrobial based on the pharmacology and antimicrobial spectrum Unit - 5/IM 6.7 Elicit document and present a medical history that helps delineate the aetiology of the current presentation and includes risk factors for HIV, mode of infection, other sexually transmitted diseases, risks for opportunistic infections and nutritional status Unit - 4
Saturday	Clinical Posting (P)IM 3.14 Perform and interpret a sputum gram stain and AFB Unit - 1/ IM 4.26 Counsel the patient on malaria prevention Unit - 3
Monday	Clinical Posting (P): IM 3.18 Communicate and counsel patient on family on the diagnosis and therapy of pneumonia Unit - 3/ IM 4.25 Communicate to the patient and family the diagnosis and treatment Unit - 1
Tuesday	Clinical Posting (P):IM 4.12 Order and interpret diagnostic tests based on the differential diagnosis including CBC with differential, peripheral smear, urinary analysis with sediment, chest xray, blood and urine cultures, sputum gram stain and culture, sputum AFB & cultures, CSF analysis, pleural and body fluid analysis, stool routine and culture and QBC Unit - 4/ IM 4.24 Develop an appropriate empiric treatment plan based on the patient's clinical and immune status pending definitive diagnosis Unit - 5
Wednesday	Clinical Posting (P):IM 4.13 Perform and interpret a sputum gram stain Unit - 2/ IM 4.23 Prescribe drugs for malaria based on the species identified, prevalence of drug resistance and national programmes Unit - 1
Thursday	Clinical Posting (P)IM 4.14 Perform and interpret a sputum AFB Unit - 1/ IM 4.21 Develop and present an appropriate diagnostic plan based on the clinical presentation, most likely diagnosis in a prioritised and cost effective manner Unit - 2
Friday	Clinical Posting (P)IM 4.15 Perform and interpret a malaria smear Unit - 5/ IM 4.20 Interpret a PPD (Mantoux) Unit - 4
Saturday	Clinical Posting (P)IM 4.17 Observe and assist in the performance of a bone marrow aspiration and biopsy in a simulated environment Unit - 1/ IM 4.19 Assist in the collection of blood and wound cultures Unit - 3

Week 4

Holi Vacations 10.03.25 to 15.03.25

Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh) - SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling
Tuesday	Clinical Posting (P): Unit II(Dr. V Kumar) SU28.18 Describe and demonstrate clinical examination of abdomen. Order relevant investigations
Wednesday	Clinical Posting (P): Unit III (Dr R K Kaul)-SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast
Thursday	Clinical Posting (P): Unit IV(Dr.A K Singh) -SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast.
Friday	Clinical Posting (P): Unit V(Dr.C K JHAKMOLA)-SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent
Saturday	Clinical Posting (P):Unit in Rotation -SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease
Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh) - SU27.5 Describe the applied anatomy of venous system of lower limb
Tuesday	Clinical Posting (P)Unit II(Dr. V Kumar) SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins
Wednesday	Clinical Posting (P):Unit III (Dr R K Kaul) SU28.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias
Thursday	Clinical Posting (P)::Unit IV (Dr.A K Singh)SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.
Friday	Clinical Posting (P)::Unit V (Dr.C K JHAKMOLA)SU28.9 Demonstrate the correct technique of examination of a patient with disorders of the stomach

Week 5

Week 6

Students are divided into Three Groups with Each posting of 4 weeks from 116.01.25 to 22.02.25; 24.02.25 to 22.03.25 and 24.03.25 to 03.05.25

Week 7

Saturday	Clinical Posting (P)Unit in Rotation SU28.11 Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post-splenectomy sepsis - prophylaxis
Monday	Clinical Posting (P):Unit I (Dr. N.K. Singh)SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver
Tuesday	Clinical Posting (P):Unit II (Dr. V Kumar) SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system
Wednesday	Clinical Posting (P): Unit III (Dr R K Kaul) SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis
Thursday	Clinical Posting (P):Unit IV(Dr.A K Singh) SU22.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management
Friday	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU29.1 Describe the causes, investigations and principles of management of Hematuria
Saturday	Clinical Posting (P): Unit in Rotation SU29.5 Describe the clinical features,investigations and principles of management of renal calculi

Week 8

Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh) SU30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis
Tuesday	Clinical Posting (P):Unit II (Dr. V Kumar) SU29.10 Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent
Wednesday	Clinical Posting (P)Unit III (Dr R K Kaul) SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases
Thursday	Clinical Posting (P):Unit IV(Dr.A K Singh) SU28.14 Describe the clinical features, investigations and principles of management of disorders of small and large intestine
Friday	Clinical Posting (P): Unit V (Dr.C K JHAKMOLA)SU30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele
Saturday	Clinical Posting (P): Unit on rotation-- SU30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis

Students are divided into Three Groups with Each posting of 4 weeks from 16.01.25 to 22.02.25; 24.02.25 to 22.03.25 and 24.03.25 to 03.05.25

Week 9

Monday	Clinical Posting (P):OG8.2 Elicit, document and present an obstetric history including menstrual history, last menstrual period, previous obstetric history, comorbid conditions, past medical history and surgical history
Tuesday	Clinical Posting (P): OG9.1 Classify, define and discuss the aetiology and management of abortions including threatened, incomplete, inevitable, missed and septic
Wednesday	Clinical Posting (P):OG13.2 Define, describe the causes, pathophysiology, diagnosis, investigations and management of preterm labor, PROM
Thursday	Clinical Posting (P): OG10.1 Define, classify and describe the aetiology, pathogenesis, clinical features, ultrasonography, differential diagnosis and management of antepartum haemorrhage in pregnancy
Friday	Clinical Posting (P):OG12.2 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of anemia in pregnancy
Saturday	Clinical Posting (P): OG12.3 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of diabetes in pregnancy

Students are divided into Three Groups with Each posting of 4 weeks from 16.01.25 to 22.02.25; 24.02.25 to 22.03.25 and 24.03.25 to 03.05.25

Week 10

Monday	Clinical Posting (P):OG12.4 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of
Tuesday	Clinical Posting (P):OG12.1 Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of
Wednesday	Clinical Posting (P):OG16.1 Enumerate and discuss causes, prevention, diagnosis, management, appropriate use of blood and blood products in postpartum haemorrhage
Thursday	Clinical Posting (P):OG12.8 Describe the mechanism, prophylaxis, fetal complications, diagnosis and management of isoimmunization in pregnancy
Friday	Clinical Posting (P):OG13.2 Define, describe the causes, pathophysiology, diagnosis, investigations and management of Postdated pregnancy

Week 11

Saturday	Clinical Posting (P):OG35.1 Obtain a logical sequence of history, and perform a humane and thorough clinical examination, excluding internal examinations (per- rectal and per-vaginal) of a gynaecological patient
Monday	Clinical Posting (P):OG24.1 Define, classify and discuss abnormal uterine bleeding in peri-menopausal women, its aetiology, clinical features, investigations, diagnosis and management
Tuesday	Clinical Posting (P):OG24.1 Define, classify and discuss abnormal uterine bleeding in reproductive age group, its aetiology, clinical features, investigations, diagnosis and management
Wednesday	Clinical Posting (P):OG24.2 Define, classify and discuss abnormal uterine bleeding in puberty, its aetiology, clinical features, investigations, diagnosis and management
Thursday	Clinical Posting (P):OG24.3 Define, classify and discuss abnormal uterine bleeding in post menopausal bleeding, its aetiology, clinical features, investigations, diagnosis and management
Friday	Clinical Posting (P):OG29.1 Describe and discuss the etiology; pathology; clinical features; differential diagnosis; investigations; principles of management, complications of fibroid uterus
Saturday	Clinical Posting (P): OG31.1 Describe and discuss the etiology, classification, clinical features, diagnosis, investigations, principles of management and preventive aspects of prolapse of uterus
Monday	Clinical Posting (P):OG30.1 Describe and discuss the etiopathogenesis; clinical features; differential diagnosis; investigations; management, complications of PCOS
Tuesday	Clinical Posting (P):OG33.3 Describe and demonstrate the screening for cervical cancer in a simulated environment
Wednesday	Clinical Posting (P):OG26.1 Describe and discuss the etiopathogenesis, clinical features; investigation and implications on health and fertility and management of endometriosis
Thursday	Clinical Posting (P): OG26.1 Describe and discuss the etiopathogenesis, clinical features; investigation and implications on health and fertility and management of adenomyosis
Friday	Clinical Posting (P):OG27.4 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of Acute Pelvic Inflammatory Disease
Saturday	Clinical Posting (P):WARD LEAVING TEST

Week 12

First Terminal Exam 07.04.25 to 19.04.25

Week 13

Monday	Clinical Posting (P): PE2.2 Dr R Jain Assessment of a child with failing to thrive including eliciting an appropriate history and examination
Tuesday	Clinical Posting (P): PE2.3 Dr N Chitambaram Counselling a parent with failing to thrive child
Wednesday	Clinical Posting (P): PE2.5 Dr Rupa Singh Assessment of a child with short stature: Elicit history, perform examination, document and present
Thursday	Clinical Posting (P): PE3.3 Dr R Jain Assessment of a child with developmental delay - Elicit document and present history
Friday	Clinical Posting (P): PE3.4 Dr N Chitambaram Counsel a parent of a child with developmental delay
Saturday	Clinical Posting (P): IPE6.8 Dr Rupa Singh Respecting patient privacy and maintaining confidentiality while dealing with adolescence
Monday	Clinical Posting (P): PE6.9 Dr R Jain Perform routine Adolescent Health check up including eliciting history, performing examination including SMR (Sexual Maturity Rating), growth assessments (using Growth charts) and systemic exam including thyroid and Breast exam and the HEADSS screening
Tuesday	Clinical Posting (P): PE6.11 Dr N Chitambaram Visit to the Adolescent Clinic
Wednesday	Clinical Posting (P): PE7.5 Dr Rupa Singh Observe the correct technique of breast feeding and distinguish right from wrong techniques
Thursday	Clinical Posting (P): PE7.7 Dr R Jain Perform breast examination and identify common problems during lactation such as retracted nipples, cracked nipples, breast engorgement, breast abscess
Friday	Clinical Posting (P): PE7.8 Dr Dr N Chitambaram Educate mothers on ante natal breast care and prepare mothers for lactation
Saturday	Clinical Posting (P):PE7.9 Dr Rupa Singh Educate and counsel mothers for best practices in Breast feeding
Monday	Clinical Posting (P):PE7.10 Dr R Jain Respects patient privacy
Tuesday	Clinical Posting (P): PE7.11 Dr Dr N Chitambaram Participate in Breast Feeding Week Celebration
Wednesday	Clinical Posting (P):PE8.4 Dr Rupa Singh Elicit history on the Complementary Feeding habits

Students are divided into two Groups with Each posting of 4 weeks from 05.05.25 to 31.05.25 and 02.06.25 to 28.06.25

5

Week 1

Thursday	Clinical Posting (P): PE8.5 Dr R Jain Counsel and educate mothers on the best practices in Complimentary Feeding
Friday	Clinical Posting (P): PE9.4 Dr Dr N Chitamaram Elicit document and present an appropriate nutritional history and perform a dietary recall
Saturday	Clinical Posting (P): PE10.3 Dr Rupa Singh Assessment of a patient with SAM and MAM, diagnosis, classification and planning management including hospital and community based intervention, rehabilitation and prevention

Week 16

Monday	Clinical Posting (P)CM 1.1(Define & describe the concept of public health)
Tuesday	Clinical Posting (P):CM 7.1 (Define Epidemiology and describe and enumerate the principles, concepts and uses)
Wednesday	Clinical Posting (P):CM .4(Define, calculate and interpret morbidity and mortality indicators based on given set of data)
Thursday	Clinical Posting (P)CM :7.5(Enumerate, define, describe and discuss epidemiological study designs),7.6(Enumerate and evaluate the need of screening tests)
Friday	Clinical Posting (P)CM :6.1(Formulate a research question for a study),6.2(Describe and discuss the principles and demonstrate the methods of collection, classification, analysis, interpretation and presentation of statistical data)
Saturday	Clinical Posting (P):CM :6.3(Describe, discuss and demonstrate the application of elementary statistical methods including test of significance in various study designs)

Week 17

Monday	Clinical Posting (P)CM ::6.4(Enumerate, discuss and demonstrate Common sampling techniques, simple statistical methods, frequency distribution, measures of central tendency and dispersion)
Tuesday	Clinical Posting (P)CM :3.7(Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures)
Wednesday	Clinical Posting (P):CM :3.7(Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures)
Thursday	Clinical Posting (P) CM 10.3(Describe local customs and practices during pregnancy, childbirth, lactation and child feeding practices),10.4(Describe the reproductive, maternal, newborn & child health (RMCH); child survival and safe
Friday	Clinical Posting (P) CM 10.3(Describe local customs and practices during pregnancy, childbirth, lactation and child feeding practices),10.4(Describe the reproductive, maternal, newborn & child health (RMCH); child survival and safe
Saturday	Clinical Posting (P):CM 10.7(Enumerate and describe the basis and principles of the Family Welfare Program including the organization, technical and operational aspects),10.8(Describe the physiology, clinical management and principles of

Week 18

Monday	Clinical Posting (P):CM 10.7(Enumerate and describe the basis and principles of the Family Welfare Program including the organization, technical and operational aspects),10.8(Describe the physiology, clinical management and principles of
Tuesday	Clinical Posting (P):CM 10.7(Enumerate and describe the basis and principles of the Family Welfare Program including the organization, technical and operational aspects),10.8(Describe the physiology, clinical management and principles of
Wednesday	Clinical Posting (P) : 17.3(Describe health care delivery in India),17.5(Describe health care delivery in India),10.5(Describe Universal Immunization Program)
Thursday	Clinical Posting (P):CM 14.1(Define and classify hospital waste),14.2(Describe various methods of treatment of hospital waste),14.3(Describe laws related to hospital waste management); CM :3.5(Describe the standards of housing and the
Friday	Clinical Posting (P):CM 14.1(Define and classify hospital waste),14.2(Describe various methods of treatment of hospital waste),14.3(Describe laws related to hospital waste management); CM :3.5(Describe the standards of housing and the

Week 19

Saturday	Clinical Posting (P)CM ::8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke,
Monday	Clinical Posting (P)CM ::8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke,
Tuesday	Clinical Posting (P)CM ::8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke,
Wednesday	Clinical Posting (P)CM ::8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke,
Thursday	Clinical Posting (P)CM :2.1(Define and describe the concept of Geriatric services),12.2(Describe health problems of aged population),12.3(Describe the prevention of health problems of aged population)
Friday	Clinical Posting (P):CM 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases)
Saturday	Clinical Posting (P):CM 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases)

Students are divided into two Groups with Each posting of 4 weeks from 05.05.25 to 31.05.25 and 02.06.25 to 28.06.25

Week 20

Monday	Clinical Posting (PCM)::8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.); 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases)
Tuesday	Clinical Posting (PCM)::2.1(Define and describe the concept of Geriatric services),12.2(Describe health problems of aged population),12.3(Describe the prevention of health problems of aged population)
Wednesday	Clinical Posting (P):CM 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases)
Thursday	Clinical Posting (P):CM 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases)
Friday	Clinical Posting (PCM)::8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.); 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases)
Saturday	Clinical Posting (PCM)::8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.); 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases)

Week 21

Monday	Clinical Posting (P): EN 2.1: Elicit and document an appropriate history in a patient presenting with an ENT complaint
Tuesday	Clinical Posting (P): EN 2.2: Present an appropriate history in a patient presenting with an ENT complaint
Wednesday	Clinical Posting (P): EN 2.3: Demonstrate the correct technique of examination of the ear including Otoscopy
Thursday	Clinical Posting (P): EN 2.4: Demonstrate the correct method of performance and interpret tuning fork tests
Friday	Clinical Posting (P): EN 2.5: Demonstrate the correct technique of examination of the nose & paranasal sinuses including the use of nasal speculum
Saturday	Clinical Posting (P):EN 2.6: Demonstrate the correct technique of examining the throat including the use of a tongue depressor; EN 2.10: Identify and describe the use of common instruments used in ENT surgery

Week 22

Monday	Clinical Posting (P):EN 2.7: Demonstrate the correct technique of examination of neck including elicitation of laryngeal crepitus
Tuesday	Clinical Posting (P): EN 2.8: Demonstrate the correct technique to perform and interpret pure tone audiogram & impedance audiogram
Wednesday	Clinical Posting (P): EN 2.9: Choose correctly and interpret radiological, microbiological & histological investigations relevant to the ENT disorders
Thursday	Clinical Posting (P):EN 2.10: Identify and describe the use of common instruments used in ENT surgery
Friday	Clinical Posting (P): EN 2.10: Identify and describe the use of common instruments used in ENT surgery
Saturday	Clinical Posting (P): EN 2.10: Identify and describe the use of common instruments used in ENT surgery

23

Monday	Clinical Posting (P): EN 2.11: Describe and identify by clinical examination malignant and Premalignant ENT disease
Tuesday	Clinical Posting (P): EN 2.12: Counsel and administer informed consent to patients and their families in a simulated environment; EN 3.6: Observe and describe the indications for and steps involved in the skills of emergency procedures in ear, nose & throat

Students are divided into two Groups with Each posting of 3 weeks from 30.06.25 to 02.08.25 and 04.08.25 to 23.08.25

Week

Wednesday	Clinical Posting (P): EN 2.13: Identify, Resuscitate and manage ENT emergencies in a simulated environment (including tracheostomy, anterior nasal packing, removal of foreign bodies in ear, nose, measles and upper respiratory tract)
Thursday	Clinical Posting (P): EN 2.14: Demonstrate the correct technique to instilling topical medications into the ear, nose and throat in a simulated environment; EN 3.5: Observe and describe the indications for and steps involved in the surgical procedures in ear, nose & throat
Friday	Clinical Posting (P): EN 2.15: Describe the national programs for prevention of deafness, cancer, noise & environmental pollution; EN 3.2: Observe and describe the indications for and steps involved in the performance of diagnostic nasal Endoscopy
Saturday	Clinical Posting (P): EN 3.1: Observe and describe the indications for and steps involved in the performance of Otomicroscopic examination in a simulated environment; EN 3.3: Observe and describe the indications for and steps involved in the performance of Rigid/Flexible Laryngoscopy; EN 3.4: Observe and describe the indications for and steps involved in the removal of foreign bodies from ear, nose & throat
Monday	Clinical Posting (P): Eye OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes.
Tuesday	Clinical Posting (P): Eye OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes.
Wednesday	Clinical Posting (P): Eye OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes.
Thursday	Clinical Posting (P): Eye OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes.
Friday	Clinical Posting (P): Eye OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes.
Saturday	Clinical Posting (P): Eye OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes.

Week 24

Second Terminal Exam 07.07.25 to 19.07.25

Week 25

Monday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly.
Tuesday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly; OP7.3 Demonstrate the correct technique of ocular examination in a patient with a cataract correctly.
Wednesday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly; OP7.3 Dr. K Agnihotri Demonstrate the correct technique of ocular examination in a patient with a cataract correctly.
Thursday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly.
Friday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly.
Saturday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly.
Monday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly; OP7.3 Demonstrate the correct technique of ocular examination in a patient with a cataract correctly
Tuesday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly; OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unioocular & Binocular)
Wednesday	Clinical Posting (P): Eye OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness; OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unioocular & Binocular)
Thursday	Clinical Posting (P): Eye OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness; OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unioocular & Binocular)
Friday	Clinical Posting (P): Eye OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness
Saturday	Clinical Posting (P): Eye OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness; OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unioocular & Binocular)

Week 26

Students are divided into two Groups with Each posting of 3 weeks from 30.06.25 to 02.08.25 and 04.08.25 to 23.08.25

Week 27

Monday	Clinical Posting (P): OR1.1 Describe and discuss the Principles of pre-hospital care and Casualty management of a trauma victim including principles of triage Dr Amit Saraf	Students are divided into three Groups with Each posting of 2 weeks from 25.08.25 to 06.09.25; 08.09.25 to 20.09.25 and 22.09.25 to 04.10.25
Tuesday	Clinical Posting (P):OR1.6 Participate as a member in the team for closed reduction of shoulder dislocation / hip dislocation / knee dislocation, Dr Sudhir Singh	
Wednesday	Clinical Posting (P):OR2.10 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of proximal femur, Dr Manmohan sharma	
Thursday	Clinical Posting (P): OR3.2 Participate as a member in team for aspiration of joints under supervision, Dr Sudhir Singh	
Friday	Clinical Posting (P): OR3.3 Participate as a member in team for procedures like drainage of abscess, sequestrectomy/ saucerisation and arthrotoomy , Dr Sandeep Bishnoi	
Saturday	Clinical Posting (P): OR13.1 Participate in a team for procedures in patients and demonstrating the ability to perform on mannequins / simulated patients in the following: i. Above elbow plaster ii. Below knee plaster iii. Above knee plaster iv. Thomas splint v. splinting for long bone fractures vi. Strapping for shoulder and clavicle trauma, Dr Amit Saraf	

Week 28

Monday	Clinical Posting (P):OR13.2 Participate as a member in team for Resuscitation of Polytrauma victim by doing all of the following : (a) I.V. access central - peripheral (b) Bladder catheterization (c) Endotracheal intubation (d) Splintage, Dr Manmohan Sharma	Students are divided into three Groups with Each posting of 2 weeks from 25.08.25 to 06.09.25; 08.09.25 to 20.09.25 and 22.09.25 to 04.10.25
Tuesday	Clinical Posting (P): OR14.1 Demonstrate the ability to counsel patients regarding prognosis in patients with various orthopedic illnesses like a. fractures with disabilities b. fractures that require prolonged bed stay c. bone tumours d. congenital disabilities, Dr Manmohan Sharma	
Wednesday	Clinical Posting (P): OR14.2 Demonstrate the ability to counsel patients to obtain consent for various orthopedic procedures like limp amputation, permanent fixations etc, Dr Sudhir Singh	
Thursday	Clinical Posting (P):OR14.3 Demonstrate the ability to convince the patient for referral to a higher centre in various orthopedic illnesses, based on the detection of warning signals and need for sophisticated management, Dr Sandeep Bishnoi	
Friday	Clinical Posting (P):AN50.4 Explain the anatomical basis of Scoliosis, Lordosis, Prolapsed disc, Spondylolisthesis & Spina bifida, Dr Amit Saraf	
Saturday	Clinical Posting (P): AN33.1 Classify and describe the etiology, pathogenesis, manifestations, radiologic and morphologic features and complications of osteomyelitis, Dr Sudhir Singh	

Week 29

Monday	Dermatology: Clinical Posting (P):DR 1.1 , 1.3 Acne vulgaris	Students are divided into three Groups with Each posting of 2 weeks from 25.08.25 to 06.09.25; 08.09.25 to 20.09.25 and 22.09.25 to 04.10.25
Tuesday	Dermatology: Clinical Posting (P): DR 2.2 Vitiligo vulgaris	
Wednesday	Dermatology: Clinical Posting (P): DR3.3 Psoriasis	
Thursday	Dermatology: Clinical Posting (P): DR 4.2 Lichen planus	
Friday	Dermatology: Clinical Posting (P): DR 5.1, 5.3 Scabies	
Saturday	Dermatology: Clinical Posting (P): DR 6.1 Pediculosis	

Week 30

Monday	Dermatology: Clinical Posting (P):DR 7.1, 7.3 Fungal infections
Tuesday	Dermatology: Clinical Posting (P): DR 8.1, 8.7 Viral infections
Wednesday	Dermatology: Clinical Posting (P):DR 9. Classify, describe the epidemiology, aetiology, microbiology, pathogenesis, clinical presentations and diagnostic features of Leprosy
Thursday	Dermatology: Clinical Posting (P): DR 9.4 Enumerate, describe and identify lepra reactions and supportive measures and therapy of lepra reactions
Friday	Dermatology: Clinical Posting (P):DR 9.5, 9.6 Management of leprosy
Saturday	Dermatology: Clinical Posting (P):DR 9.7 Complications of Leprosy

Diwali Vacations 20.10.25-25.10.2025

Week 31

Monday	Respiratory Medicine: C T 1.8: Generate a differential diagnosis based on the clinical history and evolution of the disease that prioritises the most likely diagnosis	Students are divided into three Groups with Each posting of 2 weeks from 25.08.25 to 06.09.25; 08.09.25 to 20.09.25 and 22.09.25 to 04.10.25
Tuesday		
Wednesday		
Thursday		
Friday		

Week 32

Saturday	Respiratory Medicine: CT 1.6: Demonstrate and perform a systematic examination that establishes the diagnosis based on the clinical presentation that includes a) general examination, b) examination of the chest and lung including loss of volume, mediastinal shift, percussion and auscultation (including DOAP session of lung sounds and added sounds) c) examination of the lymphatic system and d) relevant CNS examination
Monday	
Tuesday	
Wednesday	
Thursday	
Friday	
Saturday	

Week 33

Monday	Clinical Posting (P): Unit-1 AS2.1- Enumerate the indications, describe the steps and demonstrate in a simulated environment, Basic Life Support in adults, children and neonates; AS2.2- Enumerate the indications, describe the steps and demonstrate in a simulated environment, Advanced Life Support in adults and children; AS7.1- Visit, enumerate and describe the functions of an Intensive Care Unit AS7.3- Observe and describe the management of an unconscious patient	Students are divided into Three Groups with Each posting of 1 week from 06.10.25 to 11.10.25; 13.10.25 to 18.10.25 and 27.10.25 to 01.11.25
Tuesday	Clinical Posting (P): Unit-1 AS3.5- Determine the readiness for General Surgery in a patient based on the preoperative evaluation AS3.6- Choose and write a prescription for appropriate premedications for patients undergoing surgery; AS7.4- Observe and describe the basic setup process of a ventilator AS7.5- Observe and describe the principles of monitoring in an ICU	
Wednesday	Clinical Posting (P): Unit-2-AS4.3- Observe and describe the principles and the practical aspects of induction and maintenance of anaesthesia AS4.5- Observe and describe the principles and the steps/ techniques in monitoring patients during anaesthesia; Unit-2- (Prof Pallavi Ahluwalia) AS4.7- Observe and describe the principles and the steps/ techniques involved in anaesthesia outside the operating room	
Thursday	Clinical Posting (P):Unit-3 AS5.3- Observe and describe the principles and steps/ techniques involved in peripheral nerve blocks AS5.4- Observe and describe the pharmacology and correct use of commonly used drugs and adjuvant agents in regional anaesthesia; AS8.2- Elicit and determine the level, quality and quantity of pain and its tolerance in patient or surrogate AS9.1- Establish intravenous access in a simulated environment	

Friday	Clinical Posting (P): Unit-3 AS5.5- Observe and describe the principles and steps/ techniques involved in caudal epidural in adults and children AS5.6- Observe and describe the principles and steps/ techniques involved in common blocks used in surgery (including brachial plexus blocks); AS9.2- Establish central venous access in a simulated environment AS9.3- Describe the principles of fluid therapy in the preoperative period; AS10.1- Enumerate the hazards of incorrect patient positioning AS10.2- Enumerate the hazards encountered in the perioperative period and steps/techniques taken to prevent them	Students are divided into Three Groups with Each posting of 1 week from 06.10.25 to 11.10.25; 13.10.25 to 18.10.25 and 27.10.25 to 01.11.25
Saturday	Clinical Posting (P):Unit-1 AS6.1- Describe the principles of monitoring and resuscitation in the recovery room AS6.2- Observe and enumerate the contents of the crash cart and describe he equipment used in the recovery room	
Monday	Clinical Posting (Psychiatry) DOAP session PS1.1Establish rapport and empathy with patients.PS1.3 Demonstrate breaking of bad news in a simulated environment.PS1.4 Describe and demonstrate the importance of confidentiality in patient encounters; PS 9.2 Enumerate, elicit, describe and document clinical features in patients with stress related disorders.PS9.3 Enumerate and describe the indications and interpret laboratory and other tests used in stress related disorders. PS9.5 Demonstrate family education in a patient with stress related disorders in a simulated environment.	
Tuesday	PS3.3 Elicit,present and document a history in patients presenting with a mental disorders.PS3.4 Describe the importance of establishing rapport with patients. P.S3.5 perform, demonstrate and document a minimal examination. PS3.9 Describe the steps and demonstrate in a simulated environment family education in patients with organic psychiatric disorders; PS10.2 Enumerate, elicit, describe and document clinical features in patients with somatoform,dissociative and conversion disorders. PS10.3Enumerate and describe the indications and interpret laboratory and other tests used in somatoform,dissociative and conversion disorders.PS10.5 Demonstrate family describe the pharmacologic basis and side effects of drugs used in somatoform environment	
Wednesday	PS4.2 Elicit,describe and document clinical features of alcohol and substance use disorders.PS 4.3 Enumerate and describe the indications and other tests used in alcohol and substance abuse disorders PS4.5 Demonstrate family education in a patient with alcohol and substance abuse in a simulated environment. PS5.2 Enumerate, elicit describe and document clinical features, positive skill. PS5.4 Demonstrate family education in a patient with schizophrenia in a simulated environment; PS11.2 Enumerate,elicit,describe and document clinical features in patients with personality disorders.PS11.3 Enumerate and describe the indications and interpret laboratory and other tests used in personality disorders.PS11.5 Demonstrate family education in a patient with personality disorders in a simulated environment	
Thursday	PS6.2 Enumerate,elicit,describe and document clinical features in patients with depression.PS6.3 Enumerate and describe the indications and interpret laboratory and other tests used in depression.PS6.5 Demonstrate family education in a patient with depression in a simulated environment; PS12.2 Enumerate,elicit,describe and document clinical features in patients with magnitude and etiology of psychosomatic disorders.PS12.3 Enumerate and describe the indications and interpret laboratory and other tests of psychosomatic disorders.PS12.5 Demonstrate family education in a patientwith psychosomatic disorders in a simulated	
Friday	PS7.2 Enumerate, elicit,describe and document clinical features in patients with bipolar disorders. PS7.3 Enumerate and describe the indications and interpret laboratory and other tests used in bipolar disorders. PS7.5 Demonstrate family education in a patient with bipolar disorders in a simulated environment; PS13.2 Enumerate,elicit,describe and documentclinical features in patients with magnitude and etiology of psychosexual and gender identity disorders. P.S13.3Enumerate and describe the indications and interpret laboratory and other tests used in psychosexual and gender identity disorders.PS13.5 Demonstrate family education in a patient with psychosexual and gender identity disorders in a simulated environment.	
Saturday	PS8.2 Enumerate,elicit,describe and document clinical features in patients with anxiety disorders.PS8.3 Enumerate and describe the describe the indications and interpret laboratory and other tests used in anxiety disorders. PS8.5 Demonstrate family education in a patient with anxiety disorders in a simulated environment; PS14.2 Enumerate,elicit,describe and document clinical features in patients with psychiatric disorders occurring in childhood and adolescence.PS14.4 Demonstrate family education in a patient with psychiatric disorders occurring in childhood and adolescence in a simulated environment.PS15.3 Elicit and document a history and clinical examination and choose appropriate investigations in a patient with mental retradation.PS16.4 Demonstrate family education in a patient with psychiatric disorders occurring in the elderly in a simulated environment.	
Monday	RD 1.1: Understand various aspects of radioactivity & Radiation & its interaction with matter	Students are divided into Three Groups with Each posting of 1 week from 06.10.25 to 11.10.25; 13.10.25 to 18.10.25 and 27.10.25 to 01.11.25
Tuesday	R.D 1.2: Understand evolution pattern of Radiodiagnosis & principles of various modern imaging tools	
Wednesday	RD 1.3: Understand various imaging techniques employed in various ENT conditions their radiological features	

Wee

Thursday	RD 1.4: USG applications in the diagnosis & management of pregnancy	
Friday	RD 1.5: Radiological techniques used in diagnosis of various neurological conditions including spine	
Saturday	RD 1.6: Radiological techniques used in diagnosis of various Urogenital conditions & their radiological features; RD 1.7: Radiological techniques employed in diagnosis of common paediatric disease & their radiological features and Ward Relieving	

Pre University Exams from 03.11.25 onwards followed by University Exams from Third Week of November 2025

Teerthanker Mahaveer Medical College & Research Center							
Teerthanker Mahaveer University							
Delhi Road, Moradabad - 244001							
Time Table Schedule (Phase 3 MBBS (Part 1) as per New Curriculum w.e.f AUGUST 2019) (Batch 2022-23) w.e.f 16.01.25							
Day/Time	8:00-9:00 am	9:00-10:00 am	10:00 am - 1:00 pm	1:00-2:00pm	2:00-3:00pm	3:00-4:00pm	
Monday	Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Dermatology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Clinical Posting (P)	LUNCH	Community Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning		
Tuesday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Respiratory Medicine/ Radiology # - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Clinical Posting (P)		Community Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	# - First 18 weeks are for Respiratory medicine and Next 17 weeks are for Radiology
Wednesday	Pediatrics - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Community Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Clinical Posting (P)		Forensic Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning		
Thursday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Otorhinolaryngology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Clinical Posting (P)		Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	
Friday	Psychiatry - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Clinical Posting (P)		Integrated Teaching as decided by AITo	Pediatrics/ Anesthesia* - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	*First 18 weeks are for Anesthesia and next 17 weeks are for Pediatrics
Saturday	Orthopedics - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	AETCOM Module/ Pandemic Module	Clinical Posting (P)		Community Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning		1 week Holi Vacations (10.3.25-15.3.25); 1 week Diwali Vacations (20.10.25-25.10.25); 2 weeks each for 1st Terminal (07.4.25-19.4.25), 2nd Terminal (07.7.25-19.7.25) and Pre-University Exam
		AETCOM Module 3.5 - Community Medicine; Module 3.3 by ENT; Module 3.1 & 3.2 by Eye and Module 3.3 & 3.4 by Forensic Medicine; Pandemic Module:3.1-3.3 by Community Medicine	Clinical Posting - 4weeks in General Medicine; General Surgery, Obstetrics & Gynecology, Pediatrics, Community Medicine; 3weeks in Eye and ENT; 2 weeks in Dermatology, Respiratory Medicine and Orthopedics; 1 week in Psychiatry, Radiodiagnosis, OT				

Day/Time	8:00-9:00 am	9:00-10:00 am	10:00 am - 1:00 pm	1:00-2:00pm	2:00-3:00pm	3:00-4:00pm	Date
Thursday	SU11.3 Demonstrate maintenance of an airway in a mannequin or equivalents; SU.11.4 Describe principles of providing post-operative pain relief and management of chronic pain.	Otorhinolaryngology - Lecture/EN 1.1: Anatomy & physiology of ear, nose, throat, head & neck	IM 2.9 Distinguish and differentiate between stable and unstable angina and AMI based on the clinical presentation; Unit - 3/IM 7.14 Describe the appropriate diagnostic work up based on the presumed aetiology Unit - 1; Clinical Posting (P)IM 2.12 Choose and interpret a lipid profile and identify the desirable lipid profile in the clinical context - Unit - 1/IM 7.11 Elicit document and present a medical history that will differentiate the aetiologies of disease Unit - 2		OG13.1 Enumerate and discuss the physiology of normal labor, mechanism of labor in occipito-anterior presentation; monitoring of labor including partogram; conduct of labor, pain relief; principles of induction and acceleration of labor; management of third stage of labor.	(IM02.14) Discuss and describe the indications for admission to a coronary care unit and supportive therapy for a patient with acute coronary syndrome	16.01.25
Friday	PS2.1 Define stress and describe its components and causes. PS2.2 Describe the role of time management, study skills, balanced diet and sleep wake habits in stress avoidance. PS2.3 Define and describe the principles+C57 and components of learning memory and emotions.	Ophthalmology - Lecture/ OP1.4 Enumerate the indications and describe the principles of refractive surgery	Clinical Posting (P):IM 2.10 Order, perform and interpret an ECG; Unit - 4/IM 7.13 Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology Unit - 5; Clinical Posting (P):IM 2.21 Observe and participate in a controlled environment an ACLS program; Unit - 5/IM 6.23 Demonstrate a non-judgemental attitude to patients with HIV and to their lifestyles; Unit - 4		Integrated Teaching as decided by AITo: AN35.8: Describe the anatomically relevant clinical features of Thyroid swellings; SU22.3 - Demonstrate and document the correct clinical examination of thyroid swellings and discuss the differential diagnosis and their management	AS1.1-Describe the evolution of Anaesthesiology as a modern speciality	17.01.25
Saturday	Orthopedics OR1.2 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of shock	AETCOM Module 3.1: The Foundation of Communication - 3 - Ophthalmology	Clinical Posting (P):IM 2.11 Order and interpret a Chest X-ray and markers of acute myocardial infarction; Unit - 2/IM 7.12 Perform a systematic examination of y all joints, muscle and skin that will establish the diagnosis and severity of disease; Unit - 1 Clinical Posting (P):IM 2.22 Perform and demonstrate in a mannequin BLS Unit - 1/IM 6.22 Demonstrate understanding of ethical and legal issues regarding patient confidentiality and disclosure in patients with HIV Unit - 3		Ophthalmology - Tutorial/OP3.8 Demonstrate correct technique of removal of foreign body from the eye in a simulated environment correctly.		18.01.25

Week 1

Monday	(IM02.13) Discuss and enumerate the indications for and findings on echocardiogram, stress testing and coronary angiogram; IM02.15 Discuss and describe the medications used in patients with an acute coronary syndrome based on the clinical presentation	DR 10.9-11 Syndromic management of STDs; DR 1.1 , 1.3 Acne vulgaris	Clinical Posting (P);IM 2.23 Describe and discuss the indications for nitrates, anti-platelet agents, gpIIb IIIa inhibitors, beta blockers, ACE inhibitors etc in the management of coronary syndromes Unit - 3/IM 6.21 Communicate with patients on the importance of medication adherence Unit - 1
Tuesday	OG12.1 - Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia.	Respiratory Medicine - Lecture-Respiratory Medicine - Lecture-(CT1.1)Describe and discuss the epidemiology of tuberculosis and its impact on the work, life and economy of India; (CT1.2.) Describe and discuss the microbiology of tubercle bacillus, mode of transmission, pathogenesis, clinical evolution and natural history of pulmonary and extra pulmonary forms (including lymph node, bone and CNS)	Clinical Posting (P);IM 2.24 Counsel and communicate to patients with empathy lifestyle changes in atherosclerosis / post coronary syndromes -Unit - 4/IM 6.20 Communicate diagnosis, treatment plan and subsequent follow up plan to patients Unit - 5
Wednesday	PE1.1 Define the terminologies Growth and development and discuss the factors affecting normal growth and development; PE1.5 Define development and discuss the normal developmental milestones with respect to motor, behaviour, social, adaptive and language	Community Medicine - 8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.)	Clinical Posting (P);IM 3.4 Elicit document and present an appropriate history including the evolution, risk factors including immune status and occupational risk Unit - 2/IM 6.19 Counsel patients on prevention of HIV transmission Unit - 1
Thursday	SU 11.4 Describe principles of providing post-operative pain relief and management of chronic pain.	Otorhinolaryngology - Lecture/EN 1.1: Anatomy & physiology of ear, nose, throat, head & neck	Clinical Posting (P)IM 2.12 Choose and interpret a lipid profile and identify the desirable lipid profile in the clinical context - Unit - 1/IM 7.11 Elicit document and present a medical history that will differentiate the aetiologies of disease Unit - 2
Friday	PS2.4 Describe the principles of personality development and motivation PS2.5 Define and distinguish normality and abnormality; P.S3.1 Describe the growth of psychiatry as a medical specialty, its history and contribution to society. PS 3.2 Enumerate, describe and discuss important signs/symptoms of common mental disorders. PS 3.6 Describe and discuss biological, psychological & social factors & their interactions in the causation of mental disorders.	Ophthalmology - Lecture/ OP1.5 Define, enumerate the types and the mechanism by which strabismus leads to amblyopia correctly; OP2.1 Enumerate the causes, describe and discuss the aetiology, clinical presentations and diagnostic features of common conditions of the lid and adnexa including Hordeolum externum/ internum, blepharitis, preseptal cellulitis, dacryocystitis, hemangioma, dermoid, ptosis, entropion, lid lag, lagophthalmos	Clinical Posting (P): IM 3.5 Perform, document and demonstrate a physical examination including general examination and appropriate examination of the lungs that establishes the diagnosis, complications and severity of disease Unit - 1/ IM 6.15 Demonstrate in a model the correct technique to perform a lumbar puncture Unit - 2; Clinical Posting (P);IM 3.6 Generate document and present a differential diagnosis based on the clinical features, and prioritise the diagnosis based on the presentation Unit - 5/IM 6.14 Perform and interpret AFB sputum Unit - 4
Saturday	OR1.3 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of soft tissue injuries	AETCOM Module 3.1: The Foundation of Communication - 3 - Ophthalmology	Clinical Posting (P);IM 3.7 Order and interpret diagnostic tests based on the clinical presentation including: CBC, Chest X ray PA view, Mantoux, sputum gram stain, sputum culture and sensitivity, pleural fluid examination and culture, HIV testing and ABG Unit - 1/IM 6.12 Enumerate the indications for and interpret the results of: pulse oximetry, ABG, Chest Radiograph Unit - 3
Monday	IM02.17 Discuss and describe the indications and methods of cardiac rehabilitation	DR 2.2 Vitiligo vulgaris	Clinical Posting (P);IM 3.8 Demonstrate in a mannequin and interpret results of an arterial blood gas examination Unit - 3/IM 6.11 Enumerate the indications and describe the findings for CT of the chest and brain and MRI Unit - 1
Tuesday	OG12.2 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of anemia in pregnancy	Respiratory Medicine - Lecture-(CT1.3)Discuss and describe the impact of co-infection with HIV and other co-morbid conditions. Like diabetes on the natural history of tuberculosis	Clinical Posting (P);IM 3.9 Demonstrate in a mannequin and interpret results of a pleural fluid Aspiration Unit - 4/IM 6.10 Choose and interpret appropriate diagnostic tests to diagnose opportunistic infections including CBC, sputum examination and cultures, blood cultures, stool analysis, CSF analysis and Chest radiographs Unit - 5
Wednesday	PE2.1 Discuss the etio-pathogenesis, clinical features and management of a child who fails to thrive	Community Medicine -8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.)	Clinical Posting (P);IM 3.10 Demonstrate in a mannequin and interpret results of a blood culture Unit - 2/IM 6.9 Choose and interpret appropriate diagnostic tests to diagnose and classify the severity of HIV-AIDS including specific tests of HIV, CDC Unit - 1

Community Medicine - Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases),9.2(Define, calculate and interpret demographic indices including birth rate, death rate, fertility rates),9.3(Enumerate and describe the causes of declining sex ratio and its social and health implications), 9.4(Enumerate and describe the causes and consequences of population explosion and population dynamics of India)		20.01.25
Otorhinolaryngology - Tutorial/ EN 2.2: Demonstrate the correct use of a headlamp in the examination of the ear, nose and throat; Tutorial/EN 2.3: Demonstrate the correct technique of examination of the ear including Otoscopy	SU 14.2 Describe Surgical approaches, incisions and the use of appropriate instruments in Surgery in general	21.01.25
Forensic Medicine - Lecture--FM2.22 Mechanical asphyxia: Describe and discuss Patho-physiology, clinical features, post- mortem findings and medico-legal aspects of traumatic asphyxia, obstruction of nose & mouth, suffocation and sexual asphyxia; P-SGD- FM2.23 Describe and discuss types, Patho-physiology, clinical features, post mortem findings and medico-legal aspects of drowning, diatom test and, gettler test. FM14.4 Conduct and prepare report of estimation of age of a person for medico-legal and other purposes & prepare medico-legal report in a simulated/ supervised environment		22.01.25
OG13.1 Enumerate and discuss the physiology of normal labor, mechanism of labor in occipito-anterior presentation; monitoring of labor including partogram; conduct of labor, pain relief; principles of induction and acceleration of labor; management of third stage of labor.	(IM02.14) Discuss and describe the indications for admission to a coronary care unit and supportive therapy for a patient with acute coronary syndrome	23.01.25
Integrated Teaching as decided by AITo - B16.15: Describe the abnormalities of thyroid gland; IM12.8 - Generate a differential diagnosis based on the clinical presentation and prioritise it based on the most likely diagnosis; PA32.1 - Enumerate, classify and describe the etiology, pathogenesis, pathology and iodine dependency of thyroid swellings; IM12.5 - Elicit document and present an appropriate history that will establish the diagnosis cause of thyroid dysfunction and its severity	Pediatrics/ Anesthesia* - AS1.2- Describe the roles of Anaesthesiologist in the medical profession (including as a peri-operative physician, in the intensive care and high dependency units, in the management of acute and chronic pain, including labour analgesia, in the resuscitation of acutely ill); AS1.3- Enumerate and describe the principle of ethics as it relates to Anaesthesiology	24.01.25
Ophthalmology - Tutorial / OP 3.9 Demonstrate the correct technique of instillation of eye drops in a simulated environment accurately.		25.01.25
Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases),9.5(Describe the methods of population control),9.6(Describe the National Population Policy),9.7(Enumerate the sources of vital statistics including census, SRS, NFHS, NSSO etc)		27.01.25
Otorhinolaryngology -Tutorial/EN 2.4: Demonstrate the correct method of performance and interpret tuning fork tests	SU 17.2 Demonstrate the steps in Basic Life Support. Transport of injured patient in a simulated environment	28.01.25
Forensic Medicine - Lecture--FM2.24 Thermal deaths: Describe the clinical features, post-mortem finding and medicolegal aspects of injuries due to physical agents like heat (heat-hyperpyrexia, heat stroke, sun stroke, heat exhaustion/prostration, heat cramps [miner's cramp] or cold (systemic and localized hypothermia, frostbite, trench foot, immersion foot).		29.01.25

Thursday	SU 11.6 (L) Describe Principles of safe General Surgery. SU 11.5 (L) Describe principles of providing post-operative pain relief and management of chronic pain.	Otorhinolaryngology - Lecture/EN 1.1: Anatomy & physiology of ear, nose, throat, head & neck;	Clinical Posting (P)IM 3.11 Describe and enumerate indications for further testing including HRCT,viral cultures,PCR and specialized testing Unit - 1/IM 6.8 Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology for the presenting symptom Unit - 2
Friday	PS2.4 Describe the principles of personality development and motivation PS2.5 Define and distinguish normality and abnormality; P.S3.1 Describe the growth of psychiatry as a medical speciality, its history and contribution to society. PS 3.2 Enumerate,describe and discuss important sign&symptoms of common mental disorders. PS 3.6 Describe and discuss biological,psychological& social factors& their interactions in the causation of mental disorders.	Ophthalmology - LectureOP2.1 Enumerate the causes, describe and discuss the aetiology, clinical presentations and diagnostic features of common conditions of the lid and adnexa including Hordeolum externum/ internum, blepharitis, preseptal cellulitis, dacryocystitis, hemangioma, dermoid, ptosis, entropion, lid lag, lagophthalmos	Clinical Posting (P): IM 3.5 Perform, document and demonstrate a physical examination including general examination and appropriate examination of the lungs that establishes the diagnosis, complications and severity of disease Unit - 1/ IM 6.15 Demonstrate in a model the correct technique to perform a lumbar puncture Unit - 2; Clinical Posting (P):IM 3.6 Generate document and present a differential diagnosis based on the clinical features, and prioritise the diagnosis based on the presentation Unit - 5/IM 6.14 Perform and interpret AFB sputum Unit - 4
Saturday	OR1.4 Describe and discuss the Principles of management of soft tissue injuries	AETCOM Module 3.1: The Foundation of Communication - 3 - Ophthalmology	Clinical Posting (P)IM 3.14 Perform and interpret a sputum gram stain and AFB Unit - 1/IM 4.26 Counsel the patient on malaria prevention Unit - 3
Monday	IM02.19 Discuss and describe the pathogenesis, recognition and management of complications of acute coronary syndromes including arrhythmias, shock, LV dysfunction, papillary muscle rupture and pericarditis	DR3.3 Psoriasis	Clinical Posting (P): IM 3.18 Communicate and counsel patient on family on the diagnosis and therapy of pneumonia Unit - 3/IM 4.25 Communicate to the patient and family the diagnosis and treatment Unit - 1
Tuesday	OG12.2 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of anemia in pregnancy	Respiratory Medicine - Lecture-(CT1.4)Describe the epidemiology, the predisposing factors and microbial and therapeutic factors that determine resistance to drugs ; Lecture-(CT1.12) Enumerate the indications for tests including: serology, special cultures and polymerase chain reaction and sensitivity testing	Clinical Posting (P):IM 4.12 Order and interpret diagnostic tests based on the differential diagnosis including CBC with differential, peripheral smear, urinary analysis with sediment, chest xray, blood and urine cultures, sputum gram stain and culture, sputum AFB & cultures, CSF analysis, pleural and body fluid analysis, stool routine and culture and QBC Unit - 4/IM 4.24 Develop an appropriate empiric treatment plan based on the patient's clinical and immune status pending definitive diagnosis Unit - 5
Wednesday	PE2.4 Discuss the etio-pathogenesis, clinical features and management of a child with short stature	Community Medicine -8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.)	Clinical Posting (P):IM 4.13 Perform and interpret a sputum gram stain Unit - 2/IM 4.23 Prescribe drugs for malaria based on the species identified, prevalence of drug resistance and national programmes Unit - 1
Thursday	SU 12.1 (L) Enumerate the causes and consequences of malnutrition; SU 17.10 Manage Tension pneumothorax, hemothorax, flail chest in simulated environment surgical patient	Otorhinolaryngology - Lecture/EN 1.1: Anatomy & physiology of ear, nose, throat, head & neck	Clinical Posting (P)IM 4.14 Perform and interpret a sputum AFB Unit - 1/IM 4.21 Develop and present an appropriate diagnostic plan based on the clinical presentation, most likely diagnosis in a prioritised and cost effective manner Unit - 2
Friday	PS 3.7 Enumerate and describe common organic psychiatric disorders, magnitude,etiology and clinical features. PS 3.8 Enumerate and describe the essential investigations in patients with organic psychiatric disorders.	Ophthalmology - Lecture/ OP2.4 Describe the aetiology, clinical presentation. Discuss the complications and management of orbital cellulitis	Clinical Posting (P)IM 4.15 Perform and interpret a malaria smear Unit - 5/IM 4.20 Interpret a PPD (Mantoux) Unit - 4
Saturday	OR1.5 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of dislocation of major joints, shoulder, knee, hip; OR2.1 Describe and discuss the mechanism of Injury, clinical features, investigations and plan management of fracture of clavicle	AETCOM Module 3.2: The Foundation of Communication - 3 - Community Medicine Ophthalmology	Clinical Posting (P)IM 4.17 Observe and assist in the performance of a bone marrow aspiration and biopsy in a simulated environment Unit - 1/IM 4.19 Assist in the collection of blood and wound cultures Unit - 3
Monday	IM 3.1 Define, discuss, describe and distinguish community acquired pneumonia, nosocomial pneumonia and aspiration pneumonia	DR 4.2 Lichen planus	Clinical Posting (P): IM 3.18 Communicate and counsel patient on family on the diagnosis and therapy of pneumonia Unit - 3/IM 4.25 Communicate to the patient and family the diagnosis and treatment Unit - 1

LUNCH

OG13.3 Observe/ assist in the performance of an artificial rupture of membranes; OG 13.4 Demonstrate the stages of normal labor in a simulated environment	IM02.16 Discuss and describe the indications for acute thrombolysis, PTCA and CABG; IM02.18 Discuss and describe the indications, formulations, doses, side effects and monitoring for drugs used in the management of dyslipidemia	30.01.25
Integrated Teaching as decided by AITo - B16.15: Describe the abnormalities of thyroid gland; IM12.8 - Generate a differential diagnosis based on the clinical presentation and prioritise it based on the most likely diagnosis; PA32.1 - Enumerate, classify and describe the etiology, pathogenesis, pathology and iodine dependency of thyroid swellings; IM12.5 - Elicit document and present an appropriate history that will establish the diagnosis cause of thyroid dysfunction and its severity	Pediatrics/ Anesthesia* - AS1.2- Describe the roles of Anaesthesiologist in the medical profession (including as a peri-operative physician, in the intensive care and high dependency units, in the management of acute and chronic pain, including labour analgesia, in the resuscitation of acutely ill); AS1.3- Enumerate and describe the principle of ethics as it relates to Anaesthesiology	31.01.25
Ophthalmology - OP2.3 Tutorial/ Demonstrate under supervision clinical procedures performed in the lid including: bells phenomenon, assessment of entropion/ ectropion, perform the regurgitation test of lacrimal sac, massage technique in cong. dacryocystitis, and trichiatric cilia removal by epilation		01.02.25
Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases),10.1(Describe the current status of Reproductive, maternal, newborn and Child Health)		03.02.25
Otorhinolaryngology - Tutorial/EN 2.5: Demonstrate the correct technique of examination of the nose & paranasal sinuses including the use of nasal speculum; Tutorial/EN 2.6: Demonstrate the correct technique of examining the throat including the use of a tongue depressor	SU 17.1 Describe the Principles of FIRST AID	04.02.25
Forensic Medicine - P-SGD-FM2.25 Describe types of injuries, clinical features, Patho-physiology, post- mortem findings and medico-legal aspects in cases of burns, scalds, lightning, electrocution and radiations. FM14.20 To record and certify dying declaration in a simulated/ supervised		05.02.25
OG13.5 Observe and assist the conduct of a normal vaginal delivery	IM02.20 Discuss and describe the assessment and relief of pain in acute coronary syndromes	06.02.25
Integrated Teaching as decided by AITo - PY8.2 - Describe the synthesis, secretion, regulation and effect of altered (hypo and hyper) secretion of thyroid gland; IM12.3 Describe and discuss the physiology of the hypothalamopituitary - thyroid axis, principles of thyroid function testing and alterations in physiologic function	Pediatrics/ Anesthesia* - AS1.4- Describe the prospects of Anaesthesiology as a career	07.02.25
Ophthalmology - Tutorial / OP 3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly; Tutorial/ OP4.8 Demonstrate technique of removal of foreign body in the cornea in a simulated environment accurately.		08.02.25
Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases),10.3(Describe local customs and practices during pregnancy, childbirth, lactation and child feeding practices)		10.02.25

LUNCH

Week 5

Tuesday	OG12.2 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of anemia in pregnancy	Respiratory Medicine - Lecture-(CT1.4)Describe the epidemiology, the predisposing factors and microbial and therapeutic factors that determine resistance to drugs ; Lecture-(CT1.12) Enumerate the indications for tests including: serology, special cultures and polymerase chain reaction and sensitivity testing	Clinical Posting (P):IM 4.12 Order and interpret diagnostic tests based on the differential diagnosis including CBC with differential, peripheral smear, urinary analysis with sediment, chest xray, blood and urine cultures, sputum gram stain and culture, sputum AFB & cultures, CSF analysis, pleural and body fluid analysis, stool routine and culture and QBC Unit - 4/IM 4.24 Develop an appropriate empiric treatment plan based on the patient's clinical and immune status pending definitive diagnosis Unit - 5
Wednesday	PE3.1 Define, enumerate and discuss the causes of developmental delay and disability including intellectual disability in children	Community Medicine -8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.)	Clinical Posting (P):IM 4.13 Perform and interpret a sputum gram stain Unit - 2/IM 4.23 Prescribe drugs for malaria based on the species identified, prevalence of drug resistance and national programmes Unit - 1
Thursday	SU 12.2 (L) Describe and discuss the methods of estimation and replacement of the fluid and electrolyte requirements in the surgical patient	Otorhinolaryngology - Lecture/EN 1.1: Anatomy & physiology of ear, nose, throat, head & neck	Clinical Posting (P)IM 4.14 Perform and interpret a sputum AFB Unit - 1/IM 4.21 Develop and present an appropriate diagnostic plan based on the clinical presentation, most likely diagnosis in a prioritised and cost effective manner Unit - 2
Friday	PS 3.10 Enumerate and describe the pharmacologic basis and side effects of drugs used in psychiatric disorders.	Ophthalmology - Lecture/ OP 2.5 Describe the clinical features on ocular examination and management of a patient with cavernous sinus thrombosis correctly.	Clinical Posting (P)IM 4.15 Perform and interpret a malaria smear Unit - 5/IM 4.20 Interpret a PPD (Mantoux) Unit - 4
Saturday	OR1.5 Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of dislocation of major joints, shoulder, knee, hip; OR2.1 Describe and discuss the mechanism of Injury, clinical features, investigations and plan management of fracture of clavicle	AETCOM Module 3.2: The Foundation of Communication - 3 - Ophthalmology	Clinical Posting (P)IM 4.17 Observe and assist in the performance of a bone marrow aspiration and biopsy in a simulated environment Unit - 1/IM 4.19 Assist in the collection of blood and wound cultures Unit - 3
Monday	IM 3.3 Discuss and describe the pathogenesis, presentation, natural history and complications of pneumonia	DR 5.1, 5.3 Scabies	Clinical Posting (P):Unit I - SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling
Tuesday	OG12.3 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of diabetes in pregnancy	Respiratory Medicine - Lecture-(CT1.13)Describe and discuss the origin, indications, technique of administration, efficacy and complications of the BCG vaccine	Clinical Posting (P):Unit I SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling
Wednesday	PE3.8 Discuss the etio-pathogenesis, clinical presentation and multi- disciplinary approach in the management of Cerebral palsy; PE4.1 Discuss the causes and approach to a child with scholastic backwardness	Community Medicine - 8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.)	Clinical Posting (P): Unit II-SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast
Thursday	SU 12.3 (L)Discuss the nutritional requirements of surgical patients, the methods of providing nutritional support and their complications	Otorhinolaryngology - Lecture/EN 1.1: Anatomy & physiology of ear, nose, throat, head & neck	Clinical Posting (P): Unit IV-SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast.
Friday	PS 3.10 Enumerate and describe the pharmacologic basis and side effects of drugs used in psychiatric disorders.	Ophthalmology - Lecture/ OP2.6 Enumerate the causes and describe the differentiating features, and clinical features and management of proptosis	Clinical Posting (P): Unit V-SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent; SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease

LUNCH

Otorhinolaryngology - Tutorial/EN 2.5: Demonstrate the correct technique of examination of the nose & paranasal sinuses including the use of nasal speculum; Tutorial/EN 2.6: Demonstrate the correct technique of examining the throat including the use of a tongue depressor	SU 17.1Describe the Principles of FIRST AID	11.02.25
Forensic Medicine - P-SGD- FM2.27 Define and discuss infanticide, feticide and stillbirth. FM4.13 Describe social aspects of Medico-legal cases with respect to victims of assault, rape, attempted suicide, homicide, domestic violence, dowry-relatedcases		12.02.25
OG14.1 Enumerate and discuss the diameters of maternal pelvis and types	IM 3.2 Discuss and describe the aetiologies of various kinds of pneumonia and their microbiology depending on the setting and immune status of the host	13.02.25
Integrated Teaching as decided by AITo - PHT.36 - Describe the mechanism of action, types, doses, side effects, indications and contraindications of drugs used in thyroid disorders; IM12.13 - Describe the pharmacology, indications,	Pediatrics/ Anesthesia* - AS3.1- Describe the principles of preoperative evaluation	14.02.25
Ophthalmology - Tutorial / OP 3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly; Tutorial/ OP4.8 Demonstrate technique of removal of foreign body in the cornea in a simulated environment accurately.		15.02.25
Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases),10.3(Describe local customs and practices during pregnancy, childbirth, lactation and child feeding practices)		17.02.25
Otorhinolaryngology -Tutorial/EN 2.8: Demonstrate the correct technique to perform and interpret pure tone audiogram & impedance audiogram	SU 18.3Describe and demonstrate the clinical examination of surgical patient including swelling	18.02.25
Forensic Medicine - LectureFM3.29 Describe and discuss child abuse and battered baby syndrome FM2.28 Describe and discuss signs of intrauterine death, signs of live birth, viability of foetus, age determination of foetus, DOAP session of ossification centres, Hydrostatic test, Sudden Infants Death syndrome and Munchausen's syndrome by proxy. Forensic Medicine - -P-SGD- FM14.18 To examine & prepare medico-legal report of a person in police, judicial custody or		19.02.25
OG 14.2 Discuss the mechanism of normal labor, Define and describe obstructed labor, its clinical features; prevention; and management	IM 3.15 Describe and enumerate the indications for hospitalisation in patients with pneumonia	20.02.25
Integrated Teaching as decided by AITo - SU22.4 - Describe the clinical features, classification and principles of management of thyroid cancer; IM12.4 - Describe and discuss the principles of radio iodine uptake in the diagnosis of thyroid disorders	Pediatrics/ Anesthesia* - AS4.1- Describe and discuss the pharmacology of drugs used in induction and maintenance of general anaesthesia (including intravenous and inhalation induction agents, opiate and non-opiate analgesics, depolarising and non depolarising muscle relaxants, anticholinesterases)	21.02.25

LUNCH

Week 6

Week 7

Saturday	OR2.2 Describe and discuss the mechanism of Injury, clinical features, investigations and plan management of fractures of proximal humerus	Pandemic Module 3.1: Outbreak Management including Quarantine, Isolation, Contact Tracing - Community Medicine	Clinical Posting (P): Unit V-SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent; SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease
Monday	IM 3.16 Describe and enumerate the indications for isolation and barrier nursing in patients with pneumonia	DR 6.1 Pediculosis	Clinical Posting (P):Unit I - SU27.5 Describe the applied anatomy of venous system of lower limb
Tuesday	OG12.3 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of diabetes in pregnancy	Respiratory Medicine - Lecture-(CT1.14)Describe and discuss the pharmacology of various anti-tuberculous agents, their indications, contraindications, interactions and adverse reactions	Clinical Posting (P)Unit II SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins
Wednesday	HOLIDAY		
Thursday	SU13.1 Describe the immunological basis of organ transplantation	Otorhinolaryngology - Lecture/EN 1.1: Anatomy & physiology of ear, nose, throat, head & neck	Clinical Posting (P):Unit III SU28.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias; Unit III SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis
Friday	PS 3.11 Enumerate the appropriate conditions for specialist referral in patients with psychiatric disorders. PS 3.12 Describe, discuss and distinguish psychotic & non-psychotic (Mood, Anxiety, stress related) disorders.	Ophthalmology - Lecture/ OP 2.7 Classify the various types of orbital tumours. Differentiate the symptoms and signs of the presentation of various types of ocular tumours correctly.	Clinical Posting (P):Unit IV SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.
Saturday	OR2.3 Select, prescribe and communicate appropriate medications for relief of joint pain	Pandemic Module 3.1: Outbreak Management including Quarantine, Isolation, Contact Tracing - Community Medicine	Clinical Posting (P):Unit V SU28.9 Demonstrate the correct technique of examination of a patient with disorders of the stomach
Monday	IM 3.19 Discuss, describe, enumerate the indications and communicate to patients on pneumococcal and influenza vaccines	DR 7.1, 7.3 Fungal infections	Clinical Posting (P)Unit in Rotation SU28.11 Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post-splenectomy sepsis - prophylaxis
Tuesday	OG12.4 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of heart diseases in pregnancy	Respiratory Medicine - Lecture-(CT1.15) Prescribe an appropriate antituberculosis regimen based on the location of disease, smear positivity and negativity and comorbidities based on current national guidelines including directly observed tuberculosis therapy (DOTS)	Clinical Posting (P):Unit I SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver
Wednesday	PE4.4 Discuss the etiology, clinical features, diagnosis and management of a child with Autism; PE5.1 Describe the clinical features, diagnosis and management of thumb sucking	Community Medicine - 8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.)	Clinical Posting (P):Unit II SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system
Thursday	SU13.2 Discuss the Principles of immunosuppressive therapy. Enumerate Indications, describe surgical principles, management of organ transplantation	Otorhinolaryngology - Lecture/EN 1.1: Anatomy & physiology of ear, nose, throat, head & neck	Clinical Posting (P):Unit IV SU22.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management
Friday	PS 4.1 Describe the magnitude and etiology of alcohol and substance use disorders. PS 4.4 Describe the treatment of alcohol and substance abuse disorders including behavioural and pharmacologic therapy.	Ophthalmology - Lecture/ OP2.8 List the investigations helpful in diagnosis of orbital tumors. Enumerate the indications for appropriate referral	Clinical Posting (P):Unit V SU29.1 Describe the causes, investigations and principles of management of Hematuria

LUNCH

Ophthalmology - Self directed learning/ OP 4.10 Counsel patients and family about eye donation in a simulated environment correctly.		22.02.25
Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases),10.4(Describe the reproductive, maternal, newborn & child health (RMCH); child survival and safe motherhood interventions)		24.02.25
Otorhinolaryngology -Tutorial/EN 2.10: Identify and describe the use of common instruments used in ENT surgery	SU13.4 Counsel patients and relatives on organ donation in a simulated environment	25.02.25
HOLIDAY		26.02.25
OG12.3 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of diabetes in pregnancy	IM 3.17 Describe and discuss the supportive therapy in patients with pneumonia including oxygen use and indications for ventilation	27.02.25
Integrated Teaching as decided by AITo - PE33.1 - Describe the etio-pathogenesis clinical features, management of Hypothyroidism in children; PA23.3 - Describe and interpret the abnormalities in thyroid function tests	Pediatrics/ Anesthesia* - AS4.2- Describe the anatomy of the airway and its implications for general anaesthesia	28.02.25
Ophthalmology - Tutorial/OP6.6 Identify and demonstrate the clinical features and distinguish and diagnose common clinical conditions affecting the anterior chamber accurately.		01.03.25
Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases),10.4(Describe the reproductive, maternal, newborn & child health (RMCH); child survival and safe motherhood interventions)		03.03.25
Otorhinolaryngology - Tutorial/EN 2.13: Identify, Resuscitate and manage ENT emergencies in a simulated environment (including tracheostomy, anterior nasal packing, removal of foreign bodies in ear, nose, measles and upper respiratory tract)	SU14.4 Demonstrate the techniques of asepsis and suturing in a simulated environment	04.03.25
Forensic Medicine - P-SGD-FM3.4 Mechanical injuries and wounds: Define injury, assault & hurt. Describe IPC pertaining to injuries FM3.5 Mechanical injuries and wounds: Describe accidental, suicidal and homicidal injuries. Describe simple, grievous and dangerous injuries. Describe ante-mortem and post-mortem injuries FM14.10 Demonstrate ability to identify & prepare medicolegal inference from specimens obtained from various types of injuries e.g. contusion, abrasion, laceration, firearm wounds, burns, head injury and fracture of bone; FM2.33 Demonstrate		05.03.25
OG15.1 Enumerate and describe the indications and steps of common obstetric procedures, technique and complications: Episiotomy, vacuum extraction; low forceps; Caesarean section, assisted breech delivery; external cephalic version; cervical cerclage	IM 4.1 Describe and discuss the febrile response and the influence of host immune status, risk factors and comorbidities on the febrile response	06.03.25
Integrated Teaching as decided by AITo - PE33.3 - Interpret and explain neonatal thyroid screening report; PA32.3 - Describe the etiology, pathogenesis, manifestations, laboratory and imaging features and course of thyrotoxicosis/ hypothyroidism	Pediatrics/ Anesthesia* - AS4.4- Observe and describe the principles and the steps/ techniques in maintenance of vital organ functions in patients undergoing surgical procedures	07.03.25

Week 8

LUNCH

Saturday	OR2.4 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of fracture of shaft of humerus and intercondylar fracture humerus with emphasis on neurovascular deficit	Pandemic Module 3.1: Outbreak Management including Quarantine, Isolation, Contact Tracing - Community Medicine	Clinical Posting (P): Unit in Rotation SU29.5 Describe the clinical features, investigations and principles of management of renal calculi	Ophthalmology - Tutorial/ OP6.10 Counsel patients with conditions of the iris and anterior chamber about their diagnosis, therapy and prognosis in an empathetic manner in a simulated environment	08.03.25	
Holi Vacations: 10.03.25 to 15.03.25						
Monday	IM 4.2 Describe and discuss the influence of special populations on the febrile response including: the elderly, immune suppression, malignancy and neutropenia, HIV and travel	DDR 8.1, 8.7 Viral infections	Clinical Posting (P): Unit I SU30.1 Describe the clinical features, investigations and principles of management of phimosi, paraphimosi and carcinoma penis	Community Medicine - 8.1 (Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases); 10.4 (Describe the reproductive, maternal, newborn & child health (RMCH); child survival and safe motherhood interventions)	17.03.25	
Tuesday	OG12.4 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of heart diseases in pregnancy	Respiratory Medicine - Lecture-(CT1.17) Define criteria for the cure of Tuberculosis; describe and recognise the features of drug resistant tuberculosis, prevention and therapeutic regimens	Clinical Posting (P): Unit II SU29.10 Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent; SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases	Otorhinolaryngology - Tutorial/EN 2.14: Demonstrate the correct technique to instilling topical medications into the ear, nose and throat in a simulated environment	SU17.2 Demonstrate the steps in Basic Life Support. Transport of injured patient in a simulated environment	18.03.25
Wednesday	PE4.4 Discuss the etiology, clinical features, diagnosis and management of a child with Autism; PE5.1 Describe the clinical features, diagnosis and management of thumb sucking	Community Medicine - 8.2 (Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.))	Clinical Posting (P): OG13.2 Define, describe the causes, pathophysiology, diagnosis, investigations and management of preterm labor, PROM	Forensic Medicine - P-SGD-FM3.4 Mechanical injuries and wounds: Define injury, assault & hurt. Describe IPC pertaining to injuries FM3.5 Mechanical injuries and wounds: Describe accidental, suicidal and homicidal injuries. Describe simple, grievous and dangerous injuries. Describe ante-mortem and post-mortem injuries FM14.10 Demonstrate ability to identify & prepare medicolegal inference from specimens obtained from various types of injuries e.g. contusion, abrasion, laceration, firearm wounds, burns, head injury and fracture of bone; FM2.33 Demonstrate ability to use local resources whenever required like in mass disaster situations FM2.34 Demonstrate ability to use local resources whenever required like in mass disaster situations FM4.28 Demonstrate respect to laws relating to medical practice and Ethical code of conduct prescribed by Medical Council of India and rules and regulations prescribed by it from time to time	19.03.25	
Thursday	SU13.3 Discuss the legal and ethical issues concerning organ donation	Otorhinolaryngology - Lecture/EN 4.1: Principles of management of Otitis; Lecture/EN 4.2: Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of diseases of the external Ear	Clinical Posting (P): Unit IV SU28.14 Describe the clinical features, investigations and principles of management of disorders of small and large intestine	OG15.2 Observe and assist in the performance of an episiotomy and demonstrate the correct suturing technique of an episiotomy in a simulated environment. Observe/ Assist in operative obstetrics cases - including - CS, Forceps, vacuum extraction, and breech delivery	IM 4.3 Discuss and describe the common causes, pathophysiology and manifestations of fever in various regions in India including bacterial, parasitic and viral causes (e.g. Dengue, Chikungunya, Typhus)	20.03.25
Friday	PS 4.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in alcohol and substance abuse. PS4.7 Enumerate the appropriate conditions for specialist referral in patients with alcohol and substance abuse disorders.	Ophthalmology - Lecture/ OP 3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly.	Clinical Posting (P): Unit V SU30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele	Integrated Teaching as decided by AITo - IM12.6 - Perform and demonstrate a systematic examination based on the history that will help establish the diagnosis and severity including systemic signs of thyrotoxicosis and hypothyroidism; PE33.2 - Recognize the clinical signs of Hypothyroidism and refer	Pediatrics/ Anesthesia* - AS4.6- Observe and describe the principles and the steps/ techniques involved in day care anesthesia	21.03.25
Saturday	OR2.5 Describe and discuss the aetiopathogenesis, clinical features, mechanism of injury, investigation & principles of management of fractures of both bones forearm and Galeazzi and Monteggia injury	Pandemic Module 3.1: Outbreak Management including Quarantine, Isolation, Contact Tracing - Community Medicine	Clinical Posting (P): Unit on rotation-- SU30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis	Ophthalmology Tutorial/ OP 3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly.	22.03.25	
Monday	IM 4.4 Describe and discuss the pathophysiology and manifestations of inflammatory causes of fever; IM 4.5 Describe and discuss the pathophysiology and manifestations of malignant causes of fever including hematologic and lymph node malignancies; IM 4.6 Discuss and describe the pathophysiology and manifestations of malaria	DR 9.1 Classify, describe the epidemiology, aetiology, microbiology, pathogenesis, clinical presentations and diagnostic features of Leprosy; DR 9.4 Enumerate, describe and identify lepra reactions and supportive measures and therapy of lepra reactions	Clinical Posting (P): OG8.2 Elicit, document and present an obstetric history including menstrual history, last menstrual period, previous obstetric history, comorbid conditions, past medical history and surgical history	Community Medicine -8.1 (Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases); 10.4 (Describe the reproductive, maternal, newborn & child health (RMCH); child survival and safe motherhood interventions); 8.3 (Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case); 10.5 (Describe Universal Immunization Program; Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Programs)	24.03.25	

Week 9

LUNCH

Week 10

Tuesday	OG12.5 Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management of urinary tract infections in pregnancy	Respiratory Medicine - Lecture-(CT2.1) Define and classify obstructive airway disease (CT2.2) Describe and discuss the epidemiology, risk factors and evolution of obstructive airway disease; Lecture-(CT2.3)Enumerate and describe the causes of acute episodes in patients with obstructive airway disease (CT2.6)Describe the role of the environment in the cause and exacerbation of obstructive airway disease (CT2.7) Describe and discuss allergic and non-allergic precipitants of obstructive airway disease	Clinical Posting (P): OG9.1 Classify, define and discuss the aetiology and management of abortions including threatened, incomplete, inevitable, missed and septic
Wednesday	PE5.8 Discuss the etiology, clinical features and management of Enuresis	Community Medicine - 8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.)	Clinical Posting (P):OG13.2 Define, describe the causes, pathophysiology, diagnosis, investigations and management of preterm labor, PROM
Thursday	SU13.3 Discuss the legal and ethical issues concerning organ donation	Otorhinolaryngology - Lecture/EN 4.1: Principles of management of Otaglia; Lecture/EN 4.2: Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of diseases of the external Ear	Clinical Posting (P): OG10.1 Define, classify and describe the aetiology, pathogenesis, clinical features, ultrasonography, differential diagnosis and management of antepartum haemorrhage in pregnancy
Friday	PS 5.1 Classify and describe the magnitude and etiology of schizophrenia& other psychotic disorders.PS 5.3 Describe the treatment of schizophrenia including behavioural and pharmacologic therapy.	Ophthalmology - Lecture/ OP 7.4 Enumerate the types of cataract surgery and describe the steps, intra-operative and post-operative complications of extracapsular cataract extraction surgery	Clinical Posting (P):OG12.2 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of anemia in pregnancy
Saturday	OR2.6 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of distal radius	Pandemic Module 3.1: Outbreak Management including Quarantine, Isolation, Contact Tracing - Community Medicine	Clinical Posting (P): OG12.3 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of diabetes in

LUNCH

Otorhinolaryngology - Tutorial/EN 2.15: Describe the national programs for prevention of deafness, cancer, noise & environmental pollution; Tutorial/ EN 4.6: Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Discharging ear	SU17.1 Describe the Principles of FIRST AID; SU14.1 Describe Aseptic techniques, sterilization and disinfection; SU22.3 Demonstrate and document the correct clinical examination of thyroid swellings and discuss the differential diagnosis and their management	25.03.25
Forensic Medicine - P-SGP-FM14.11 To identify & describe weapons of medicolegal importance which are commonly used e.g. lathi, knife, kripaan, axe, gandas, gupti, farsha, dagger, bhalla, razor &stick.Able to prepare report of the weapons brought by police and to give opinion regarding injuries present on the person as described in injury report/ PM report so as to connect weapon with the injuries. (Prepare injury report/ PM report must be provided to connect the weapon with the injuries) FM14.12 Describe the contents and structure of bullet and cartridges used & to provide medico-legal interpretation from these		26.03.25
OG15.2 Observe and assist in the performance of an episiotomy and demonstrate the correct suturing technique of an episiotomy in a simulated environment. Observe/Assist in operative obstetrics cases - including - CS, Forceps, vacuum extraction, and breech delivery	IM 4.3 Discuss and describe the common causes, pathophysiology and manifestations of fever in various regions in India including bacterial, parasitic and viral causes (e.g.Dengue, Chikungunya, Typhus)	27.03.25
Integrated Teaching as decided by AITo - IM23.1 - Discuss and describe the methods of nutritional assessment in an adult and calculation of caloric requirements during illnesses; PE10.1 - Define, describe the etio-pathogenesis, classify including WHO classification, clinical features, complication and management of severe Acute	Pediatrics/ Anesthesia* - AS5.1- Enumerate the indications for and describe the principles of regional anaesthesia (including spinal, epidural and combined)	28.03.25
Ophthalmology Tutorial/ OP 7.4 Enumerate the types of cataract surgery and describe the steps, intra-operative and post-operative complications of extracapsular cataract extraction surgery		29.03.25

Week 11

Monday	Holiday		
Tuesday	OG12.5 Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management of urinary tract infections in pregnancy	Respiratory Medicine - Lecture-(CT2.1) Define and classify obstructive airway disease (CT2.2) Describe and discuss the epidemiology, risk factors and evolution of obstructive airway disease; Lecture-(CT2.3)Enumerate and describe the causes of acute episodes in patients with obstructive airway disease (CT2.6)Describe the role of the environment in the cause and exacerbation of obstructive airway disease (CT2.7) Describe and discuss allergic and non-allergic precipitants of obstructive airway disease	Clinical Posting (P):OG12.4 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of heart diseases in pregnancy
Wednesday	PE6.1 Define Adolescence and stages of adolescence	Community Medicine - 8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.)	Clinical Posting (P):OG12.1 Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia.
Thursday	SU14.2 Describe Surgical approaches, incisions and the use of appropriate instruments in Surgery in general	Otorhinolaryngology - Lecture/EN 4.3: Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of ASOM	Clinical Posting (P):OG16.1 Enumerate and discuss causes, prevention, diagnosis, management, appropriate use of blood and blood products in postpartum haemorrhage

LUNCH

Holiday		31.03.25
Otorhinolaryngology - Tutorial/EN 2.15: Describe the national programs for prevention of deafness, cancer, noise & environmental pollution; Tutorial/ EN 4.6: Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Discharging ear	SU17.1 Describe the Principles of FIRST AID; SU14.1 Describe Aseptic techniques, sterilization and disinfection; SU22.3 Demonstrate and document the correct clinical examination of thyroid swellings and discuss the differential diagnosis and their management	01.04.25
Forensic Medicine - Lecture - FM3.9 Firearm injuries: Describe different types of firearms including structure and components. Along with description of ammunition propellant charge and mechanism of fire-arms, different types of cartridges and bullets and various terminology in relation of firearm - caliber, range, choking FM3.10 Firearm injuries: Describe and discuss wound ballistics-different types of firearm injuries, blast injuries and their interpretation, preservation and dispatch of trace evidences in cases of firearm and blast injuries, various tests related to confirmation of use of firearms		02.04.25
OG17.2 Counsel in a simulated environment, care of the breast, importance and the technique of breast feeding	IM 4.7 Discuss and describe the pathophysiology and manifestations of the sepsis syndrome	03.04.25

Friday	PS 5.5 Enumerate and describe the pharmacologic basis and side effects of drugs used in schizophrenia. PS 5.6 Enumerate the appropriate conditions for specialist referral in patients with psychotic disorders.	Ophthalmology - Lecture/ OP3.3 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications, and management of various causes of conjunctivitis	Clinical Posting (P):OG16.1 Enumerate and discuss causes, prevention, diagnosis, management, appropriate use of blood and blood products in postpartum haemorrhage	Integrated Teaching as decided by AITo - IM23.1 - Discuss and describe the methods of nutritional assessment in an adult and calculation of caloric requirements during illnesses; PE10.1 - Define, describe the etio-pathogenesis, classify including WHO classification, clinical features, complication and management of severe Acute Malnourishment and Moderate Acute Malnutrition	Pediatrics/ Anesthesia* - AS5.2- Describe the correlative anatomy of the brachial plexus, subarachnoid and epidural spaces	04.04.25
Saturday	OR2.7 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of pelvic injuries with emphasis on hemodynamic instability	AETCOM Module 3.3: ENT	Clinical Posting (P):OG13.2 Define, describe the causes, pathophysiology, diagnosis, investigations and management of Postdated pregnancy; Clinical Posting (P):OG24.1 Define, classify and discuss abnormal uterine bleeding in peri-menopausal women, its aetiology, clinical features, investigations, diagnosis and	Ophthalmology - Tutorial/ OP 7.4 Enumerate the types of cataract surgery and describe the steps, intra-operative and post-operative complications of extracapsular cataract extraction surgery		05.04.25

First Terminal Exam: 07.04.25-19.04.25

Monday	IM 4.8 Discuss and describe the pathophysiology, aetiology and clinical manifestations of fever of unknown origin (FUO) including in a normal host neutropenic host nosocomial host and a host with HIV disease; IM 4.10 Perform a systematic examination that establishes the diagnosis and severity of presentation that includes: general skin mucosal and lymph node examination, chest and abdominal examination (including examination of liver and spleen)	DR 9.5, 9.6 Management of leprosy; DR 9.7 Complications of Leprosy	Clinical Posting (P):OG35.1 Obtain a logical sequence of history, and perform a humane and thorough clinical examination, excluding internal examinations (per- rectal and per-vaginal) of a gynaecological patient	Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases),10.5(Describe Universal Immunization Program; Integrated Management of Neonatal and Childhood Illness (IMNCI) and other existing Programs); 10.6(Enumerate and describe various family planning methods, their advantages and shortcomings)		21.04.25
Tuesday	OG12.6 Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management of liver disease in pregnancy	Respiratory Medicine - Lecture-(CT2.4)Describe and discuss the physiology and pathophysiology of hypoxia and hypercapnea ; Lecture-(CT2.5) Describe and discuss the genetics of alpha 1 antitrypsin deficiency in emphysema	Clinical Posting (P):OG12.1 Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia.	Otorhinolaryngology - Tutorial/EN 4.9: Demonstrate the correct technique for syringing wax from the ear in a simulated environment; Tutorial/EN 4.16: Observe and describe the indications for and steps involved in the performance of pure tone audiometry	SU25.4 Counsel (the patient and obtain informed consent for treatment of malignant conditions of the breast; SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent	22.04.25
Wednesday	PE6.6 Discuss the common Adolescent eating disorders (Anorexia Nervosa, Bulimia)	Community Medicine - 8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.)	Clinical Posting (P):OG24.2 Define, classify and discuss abnormal uterine bleeding in puberty, its aetiology, clinical features, investigations, diagnosis and management	Forensic Medicine - Lecture---FM3.11 Regional Injuries: Describe and discuss regional injuries to head (Scalp wounds, fracture skull, intracranial hemorrhages, coup and countercoup injuries), neck, chest, abdomen, limbs, genital organs, spinal cord and skeleton FM3.12 Regional Injuries Describe and discuss injuries related to fall from height and vehicular injuries – Primary and Secondary impact, Secondary injuries, crush syndrome, railway spine		23.04.25
Thursday	SU14.3 Describe the materials and methods used for surgical wound closure and anastomosis (sutures, knots and needles)	Otorhinolaryngology - Lecture/EN 4.4: Demonstrate the correct technique to hold visualize and assess the mobility of the tympanic membrane and interpret and diagrammatically represent the findings	Clinical Posting (P):OG24.3 Define, classify and discuss abnormal uterine bleeding in post menopausal bleeding, its aetiology, clinical features, investigations, diagnosis and management	OG18.1 Describe and discuss the assessment of maturity of the newborn, diagnosis of birth asphyxia, principles of resuscitation, common problems.	IM 4.9 Elicit document and present a medical history that helps delineate the aetiology of fever that includes the evolution and pattern of fever, associated symptoms, immune status, comorbidities, risk factors, exposure	24.04.25
Friday	PS 6.1 Classify and describe the magnitude and etiology of depression. PS6.4 Describe the treatment of depression including behavioural and pharmacologic therapy. PS 6.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in depression.PS 6.7 Enumerate the appropriate conditions for specialist referral in patients with depression.	Ophthalmology - Lecture/ OP3.4 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of trachoma.	Clinical Posting (P):OG29.1 Describe and discuss the etiology; pathology; clinical features; differential diagnosis; investigations; principles of management, complications of fibroid uterus	Integrated Teaching as decided by AITo - IM24.22 - Describe and discuss the aetiopathogenesis, clinical presentation, complications, assessment and management of nutritional disorders in the elderly; PE10.3 - Assessment of a patient with SAM and MAM, diagnosis, classification and planning management including hospital and community based intervention, rehabilitation and prevention	Pediatrics/ Anesthesia* - AS5.3- Observe and describe the principles and steps/ techniques involved in peripheral nerve blocks	25.04.25
Saturday	OR2.8 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of spine injuries with emphasis on mobilisation of the patient; OR2.9 Describe and discuss the mechanism of injury, Clinical features, investigations and principle of management of acetabular fracture	AETCOM Module 3.3: ENT	Clinical Posting (P):OG31.1 Describe and discuss the etiology, classification, clinical features, diagnosis, investigations, principles of management and preventive aspects of prolapse of uterus	Ophthalmology - Tutorial/ OP7.6 Administer informed consent and counsel patients for cataract surgery in a simulated environment.		26.04.25
Monday	IM 4.16 Enumerate the indications and describe the findings in tests of inflammation and specific rheumatological tests, serological testing for pathogens including HIV, bone marrow aspiration and biopsy	DR 10.3, 10.4 Syphilis	Clinical Posting (P):OG30.1 Describe and discuss the etiopathogenesis; clinical features; differential diagnosis; investigations; management, complications of PCOS	Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases),10.6(Enumerate and describe various family planning methods, their advantages and shortcomings)		28.04.25

Week 12

LUNCH

Week 13

Tuesday	OG12.6 Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management of liver disease in pregnancy	Respiratory Medicine - Lecture-(CT2.4)Describe and discuss the physiology and pathophysiology of hypoxia and hypercapnea ; Lecture-(CT2.5) Describe and discuss the genetics of alpha 1 antitrypsin deficiency in emphysema	Clinical Posting (P):OG33.3 Describe and demonstrate the screening for cervical cancer in a simulated environment
Wednesday	PE7.1 Awareness on the cultural beliefs and practices of breast feeding	Community Medicine -8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case	Clinical Posting (P):OG26.1 Describe and discuss the etiopathogenesis, clinical features; investigation and implications on health and fertility and management of endometriosis
Thursday	SU15.1 Describe classification of hospital waste and appropriate methods of disposal	Otorhinolaryngology - Lecture/EN 4.5: Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of OME	Clinical Posting (P): OG26.1 Describe and discuss the etiopathogenesis, clinical features; investigation and implications on health and fertility and management of adenomyosis
Friday	PS 7.1 classify and describe the magnitude and etiology of bipolar disorders.	Ophthalmology - Lecture/ OP.3.5 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of vernal catarrh	Clinical Posting (P):OG27.4 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of Acute Pelvic Inflammatory Disease
Saturday	OR2.9 Describe and discuss the mechanism of injury, Clinical features, investigations and principle of management of acetabular fracture	AETCOM Module 3.3: ENT	Clinical Posting (P):WARD LEAVING TEST
Monday	IM 4.16 Enumerate the indications and describe the findings in tests of inflammation and specific rheumatological tests, serological testing for pathogens including HIV, bone marrow aspiration and biopsy	DR 10.3. 10.4 Syphilis	Clinical Posting (P): PE2.2 Dr R Jain Assessment of a child with failing to thrive including eliciting an appropriate history and examination
Tuesday	OG12.7 Describe and discuss screening, risk factors, management of mother and newborn with HIV	Respiratory Medicine - Lecture-(CT2.10) Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology	Clinical Posting (P): PE2.3 Dr N Chitambaram Counselling a parent with failing to thrive child
Wednesday	PE8.1 Define the term Complementary Feeding	Community Medicine - 8.3 Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case	Clinical Posting (P): PE2.5 Dr Rupa Singh Assessment of a child with short stature: Elicit history, perform examination, document and present
Thursday	SU16.1 Minimally invasive General Surgery: Describe indications advantages and disadvantages of Minimally invasive General Surgery	Otorhinolaryngology - Lecture/EN 4.7: Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of CSOM	Clinical Posting (P): PE3.3 Dr R Jain Assessment of a child with developmental delay - Elicit document and present history
Friday	PS7.4 Describe the treatment of bipolar disorders including behavioural and pharmacologic therapy. PS 7.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in bipolar disorders. PS 7.7 Enumerate the appropriate conditions for specialist referral in patients with bipolar disorders.	Ophthalmology - Lecture/ OP3.6 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of pterygium correctly.	Clinical Posting (P): PE3.4 Dr N Chitambaram Counsel a parent of a child with developmental delay
Saturday	OR2.11 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of (a) Fracture patella (b) Fracture distal femur (c) Fracture proximal tibia with special focus on neurovascular injury and compartment syndrome	AETCOM Module 3.3: Forensic Medicine	Clinical Posting (P): IPE6.8 Dr Rupa Singh Respecting patient privacy and maintaining confidentiality while dealing with adolescence
Monday	IM 4.22 Describe and discuss the pharmacology, indications, adverse reactions, interactions of antimalarial drugs and basis of resistance	DR 10.6 Chancroid, donovanosis and LGV	Clinical Posting (P): PE2.2 Dr R Jain Assessment of a child with failing to thrive including eliciting an appropriate history and examination

Week 14

LUNCH

LUNCH

Otorhinolaryngology - Tutorial/EN 4.9: Demonstrate the correct technique for syringing wax from the ear in a simulated environment; Tutorial/EN 4.16: Observe and describe the indications for and steps involved in the performance of pure tone audiometry	SU25.4 Counsel the patient and obtain informed consent for treatment of malignant conditions of the breast; SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or	29.04.25
Forensic Medicine - Lecture--FM3.13 Describe different types of sexual offences. Describe various sections of IPC regarding rape including definition of rape (Section 375 IPC), Punishment for Rape (Section 376 IPC) and recent amendments notified till date FM3.18		30.04.25
OG18.2 Demonstrate the steps of neonatal resuscitation in a simulated environment	IM 4.11 Generate a differential diagnosis and prioritise based on clinical features that help distinguish between, infective, inflammatory, malignant and rheumatologic causes.	01.05.25
Integrated Teaching as decided by AITo - IM24.22 - Describe and discuss the aetiopathogenesis, clinical presentation, complications, assessment and management of nutritional disorders in the elderly; PE10.3 - Assessment of a patient with SAM and MAM, diagnosis, classification and planning management including hospital and community based intervention, rehabilitation and prevention	Pediatrics/ Anesthesia* - AS5.4- Observe and describe the pharmacology and correct use of commonly used drugs and adjuvant agents in regional anaesthesia	02.05.25
Ophthalmology - Tutorial/ OP7.6 Administer informed consent and counsel patients for cataract surgery in a simulated environment.		03.05.25
Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases),10.6(Enumerate and describe various family planning methods, their advantages and shortcomings)		05.05.205
Otorhinolaryngology - Tutorial/EN 4.17: Enumerate the indications and interpret the results of an audiogram	SU27.8 Demonstrate the correct examination of the lymphatic system	06.05.25
Forensic Medicine - P-SGD---FM3.14 SEXUAL OFFENCES Describe and discuss the examination of the victim of an alleged case of rape, and the preparation of report, framing the opinion and preservation and dispatch of trace evidences in such cases FM14.15 To examine & prepare medico-legal report of a victim of sexual offence/unnatural sexual offence in a simulated/ supervised environment; FM4.1 Describe Medical Ethics and explain its historical emergence FM4.2 Describe the Code of Medical Ethics 2002 conduct, Etiquette and Ethics in medical practice and unethical practices & the dichotomy FM8.1 Describe the history of Toxicology FM8.2 Define the terms Toxicology, Forensic Toxicology, Clinical Toxicology and poison FM8.3 Describe the various types of poisons, Toxic kinetics, and Toxic dynamics and diagnosis of poisoning in living and dead		07.05.25
OG19.1 Describe and discuss the physiology of puerperium, its complications, diagnosis and management; counselling for contraception, puerperal sterilization	IM 4.18 Enumerate the indications for use of imaging in the diagnosis of febrile syndrome	08.05.25
Integrated Teaching as decided by AITo - SU12.1 - Enumerate the causes and consequences of malnutrition in the surgical patient; B18.2 - Describe the types and causes of protein energy malnutrition and its effects.	Pediatrics/ Anesthesia* - AS6.3- Describe the common complications encountered by patients in the recovery room, their recognition and principles of management	09.05.25
Ophthalmology - Tutorial/ OP7.5 To participate in the team of cataract surgery.		10.05.25
Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases),10.6(Enumerate and describe various family planning methods, their advantages and shortcomings)		12.05.25

Week 15

Tuesday	OG12.7 Describe and discuss screening, risk factors, management of mother and newborn with HIV	Respiratory Medicine - Lecture-(CT2.14) Part (1) Enumerate the indications for and interpret the results of : pulse oximetry, ABG,	Clinical Posting (P): PE6.11 Dr N Chitambaram Visit to the Adolescent Clinic
Wednesday	PE9.1 Describe the age related nutritional needs of infants, children and adolescents including micronutrients and vitamins	Community Medicine -11.1(Enumerate and describe the presenting features of patients with occupational illness including agriculture),11.2(Describe the role, benefits and functioning of the employees state insurance scheme)	Clinical Posting (P): PE7.5 Dr Rupa Singh Observe the correct technique of breast feeding and distinguish right from wrong techniques
Thursday	SU17.1 Describe the Principles of FIRST AID	Otorhinolaryngology - Lecture/EN 4.8: Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of CSOM	Clinical Posting (P): PE7.7 Dr R Jain Perform breast examination and identify common problems during lactation such as retracted nipples, cracked nipples, breast engorgement, breast abscess
Friday	PS 8.1 Enumerate and describe the magnitude and etiology of anxiety disorders. PS 8.4 Describe the treatment of anxiety disorders including behavioural and pharmacological therapy. PS 8.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in anxiety disorders. PS 8.7 Enumerate the appropriate conditions for specialist referral in anxiety disorders.	Ophthalmology - Lecture/ OP3.7 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of symblepharon	Clinical Posting (P): PE7.8 Dr Dr N Chitambaram Educate mothers on ante natal breast care and prepare mothers for lactation
Saturday	OR2.12 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Fracture shaft of femur in all age groups and the recognition an management of fat embolism as a complication	AETCOM Module 3.3: Forensic Medicine	Clinical Posting (P): PE7.9 Dr Rupa Singh Educate and counsel mothers for best practices in Breast feeding

LUNCH

Otorhinolaryngology - Tutorial/EN 4.44: Describe the clinical features, investigations and principles of management of Benign lesions of the vocal cord	SU28.9 Demonstrate the correct technique of examination of a patient with disorders of the stomach	13.05.25
Forensic Medicine -P-SGD---FM3.15 SEXUAL OFFENCES Describe and discuss examination of accused and victim of sodomy, preparation of report, framing of opinion, preservation and dispatch of trace evidences in such cases FM.14.14 ---To examine & prepare report of an alleged accused in rape/unnatural sexual offence in a simulated supervised environment.		14.05.25
OG18.1 Describe and discuss the assessment of maturity of the newborn, diagnosis of birth asphyxia, principles of resuscitation, common problems.	IM 5.1 Describe and discuss the physiologic and biochemical basis of hyperbilirubinemia	15.05.25
Integrated Teaching as decided by AITo - PA12.2 - Describe the pathogenesis of disorders caused by protein calorie malnutrition and starvation; IM23.1 - Discuss and describe the methods of nutritional assessment in an adult and calculation of caloric requirements during illnesses	Pediatrics/ Anesthesia* - AS7.2- Enumerate and describe the criteria for admission and discharge of a patient to an ICU	16.05.25
Ophthalmology - Tutorial/OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unicocular & Binocular)		17.05.25

Week 16

Monday	IM 5.2 Describe and discuss the aetiology and pathophysiology of liver injury	DR 10.9-11 Syndromic management of STDs	Clinical Posting (P): PE7.10 Dr R Jain Respects patient privacy
Tuesday	OG12.8 Describe the mechanism, prophylaxis, fetal complications, diagnosis and management of isoimmunization in pregnancy	Respiratory Medicine - Lecture-(CT2.14) Part (2) Enumerate the indications for and interpret the results of Chest Radiograph; (CT2.24) Recognise the impact of OAD on patient's quality of life, well being, work and family (CT2.25) Discuss and describe the impact of OAD on the society and workplace (CT2.26) Discuss and describe preventive measures to reduce OAD in workplaces	Clinical Posting (P): PE7.11 Dr Dr N Chitambaram Participate in Breast Feeding Week Celebration
Wednesday	PE10.1 Define and describe the etio-pathogenesis, classify including WHO classification, clinical features, complication and management of Severe Acute Malnourishment (SAM) and Moderate Acute Malnutrition (MAM)	Community Medicine -11.3(Enumerate and describe specific occupational health hazards, their risk factors and preventive measures)	Clinical Posting (P): PE8.4 Dr Rupa Singh Elicit history on the Complementary Feeding habits
Thursday	SU17.3 Describe the Principles in management of mass casualties	Otorhinolaryngology - Lecture/EN 4.11: Enumerate the indications and describe the steps of mastoidectomy	Clinical Posting (P): PE8.5 Dr R Jain Counsel and educate mothers on the best practices in Complimentary Feeding
Friday	PS 9.1 Enumerate and describe the magnitude and etiology of stress related disorders. PS 9.4 Describe the treatment of stress related disorders including behavioural and psychosocial therapy.	Ophthalmology - Lecture/ OP1.2 Define, classify and describe the types and methods of correcting refractive errors	Clinical Posting (P): PE9.4 Dr Dr N Chitambaram Elicit document and present an appropriate nutritional history and perform a dietary recall
Saturday	OR2.13 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of: (a) Fracture both bones leg (b) Calcaneus (c) Small bones of foot	AETCOM Module 3.3: The Foundation of Communication - 4 - Community Medicine	Clinical Posting (P): PE10.3 Dr Rupa Singh Assessment of a patient with SAM and MAM, diagnosis, classification and planning management including hospital and community based intervention, rehabilitation and prevention

LUNCH

Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases),10.7(Enumerate and describe the basis and principles of the Family Welfare Program including the organization, technical and operational aspects)		19.05.25
Otorhinolaryngology -Tutorial/EN 4.45: Describe the clinical features, investigations and principles of management of Vocal cord palsy	SU29.1 Describe the causes, investigations and principles of management of Hematuria	20.05.25
Forensic Medicine - Lecture---FM3.16 SEXUAL OFFENCES Describe and discuss adultery and unnatural sexual offences- sodomy, incest, lesbianism, buccal coitus, bestiality, indecent assault and preparation of report, framing the opinion and preservation and dispatch of trace evidences in such cases FM3.17 Describe and discuss the sexual perversions fetishism, transvestism, voyeurism, sadism, necrophagia, masochism, exhibitionism, frotteurism, Necrophilia FM3.19 Discuss the medicolegal aspects of pregnancy and delivery, signs of pregnancy, precipitate labour superfoetation, superfecundation and signs of recent and remote delivery in living and dead FM3.2 Discuss disputed paternity and maternity		21.05.25
OG18.2 Demonstrate the steps of neonatal resuscitation in a simulated environment	IM 5.3 Describe and discuss the pathologic changes in various forms of liver disease	22.05.25
Integrated Teaching as decided by AITo - PA12.2 - Describe the pathogenesis of disorders caused by protein calorie malnutrition and starvation; IM23.1 - Discuss and describe the methods of nutritional assessment in an adult and calculation of caloric requirements during illnesses	Pediatrics/ Anesthesia* - AS8.1- Describe the anatomical correlates and physiologic principles of pain; AS10.3- Describe the role of communication in patient safety/AS10.2- Enumerate the hazards encountered in the perioperative period and steps/techniques taken to prevent them	23.05.25
Ophthalmology - Seminar/OP9.4 Enumerate, describe and discuss the causes of avoidable blindness and the National Programs for Control of Blindness (including vision 2020)		24.05.25

Monday	IM 5.4 Describe and discuss the epidemiology, microbiology, immunology and clinical evolution of infective (viral) hepatitis	DR 11.1, 11.3 HIV	Clinical Posting (P): PE10.4 DrDr R Jain Identify children with under nutrition as per IMNCI criteria and plan referral	LUNCH	Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases).10.7(Enumerate and describe the basis and principles of the Family Welfare Program including the organization, technical and operational aspects)	26.05.25	
Tuesday	OG12.8 Describe the mechanism, prophylaxis, fetal complications, diagnosis and management of isoimmunization in pregnancy	Respiratory Medicine - Lecture-(CT2.16) Discuss and describe therapies for OAD including bronchodilators, leukotriene inhibitors, mast cell stabilisers, theophylline, inhaled and systemic steroids, oxygen and immunotherapy (CT2.17) Describe and discuss the indications for vaccinations in OAD; (CT2.20) Describe and discuss the principles and use of oxygen therapy in the hospital and at home	Clinical Posting (P): PE10.5 Dr N Chitambaram Counsel parents of children with SAM and MAM		Otorhinolaryngology - Tutorial/ EN 4.46: Describe the clinical features, investigations and principles of management of Malignancy of the Larynx & Hypopharynx	SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease	27.05.25
Wednesday	PE11.1 Describe the common etiology, clinical features and management of obesity in children	Community Medicine - 11.4(Describe the principles of ergonomics in health preservation),11.5(Describe occupational disorders of health professionals and their prevention & management)	Clinical Posting (P): PE11.3 Dr Rupa Singh Assessment of a child with obesity with regard to eliciting history including physical activity, charting and dietary recall		Forensic Medicine - Lecture----FM3.21 Discuss Pre-conception and Pre Natal Diagnostic Techniques (PC&PNDT) - Prohibition of Sex Selection Act 2003 and Domestic Violence Act 2005 FM3.22 Define and discuss impotence, sterility, frigidity, sexual dysfunction, premature ejaculation. Discuss the causes of impotence and sterility in male and female FM3.23 Discuss Sterilization of male and female, artificial insemination, Test Tube Baby, surrogate mother, hormonal replacement therapy with respect to appropriate national and state laws FM3.24 Discuss the relative importance of surgical methods of contraception (vasectomy and tubectomy) as methods of contraception in the National Family Planning Programme FM3.25 Discuss the major results of the National Family Health Survey FM3.26 Discuss the national Guidelines for accreditation, supervision & regulation of ART Clinics in India	28.05.25	
Thursday	SU17.4 Describe Pathophysiology, mechanism of head injuries	Otorhinolaryngology - Lecture/EN 4.12: Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Hearing loss	Clinical Posting (P): PE11.4 Dr Dr R Jain Examination including calculation of BMI, measurement of waist hip ratio, identifying external markers like acanthosis, striae, pseudogynaecomastia etc		OG18.4 Describe the principles of resuscitation of the newborn and enumerate the common problems encountered	IM 5.5 Describe and discuss the pathophysiology and clinical evolution of alcoholic liver disease	29.05.25
Friday	PS 9.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in stress related disorders.	Ophthalmology - Lecture/ OP4.1 Enumerate, describe and discuss the types and causes of corneal ulceration	Clinical Posting (P): PE12.17 Dr N Chitambaram Identify the clinical features of Vitamin B complex deficiency		Integrated Teaching as decided by AITo - IM24.22 - Describe and discuss the aetiopathogenesis, clinical presentation, complications, assessment and management of nutritional disorders in the elderly; SU12.3 - Discuss the nutritional requirements of surgical patients, the methods of providing nutritional support and their complications	Pediatrics/ Anesthesia* - AS8.3- Describe the pharmacology and use of drugs in the management of pain; AS9.4- Enumerate blood products and describe the use of blood products in the preoperative period/AS8.4- Describe the principles of pain management in palliative care /AS2.1- Enumerate the indications, describe the steps and demonstrate in a simulated environment, Basic Life Support in adults, children and neonates	30.05.25
Saturday	OR2.14 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of ankle fractures; OR2.15 Plan and interpret the investigations to diagnose complications of fractures like malunion, non-union, infection, compartmental syndrome	AETCOM Module 3.3: ENT	Clinical Posting (P): PE12.18 Dr Rupa Singh Diagnose patients with Vitamin B complex deficiency and plan management		Ophthalmology - Tutorial/ OP 9.5 Describe the evaluation and enumerate the steps involved in the stabilisation, initial management and indication for referral in a patient with ocular injury; OP 7.3 Demonstrate the correct technique of ocular examination in a patient with a cataract correctly.	31.05.25	
Monday	IM 5.6 Describe and discuss the pathophysiology, clinical evolution and complications of cirrhosis and portal hypertension including ascites, spontaneous bacterial peritonitis, hepatorenal syndrome and hepatic encephalopathy	DR 12.1, 12.3, 12.4 Eczema	Clinical Posting (P)CM 1.1(Define & describe the concept of public health)	LUNCH	Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases).10.7(Enumerate and describe the basis and principles of the Family Welfare Program including the organization, technical and operational aspects)	02.06.25	
Tuesday	OG13.1 Enumerate and discuss the physiology of normal labor, mechanism of labor in occipito-anterior presentation; monitoring of labor including partogram, conduct of labor, pain relief; principles of induction and acceleration of labor; management of third stage of labor.	Respiratory Medicine - Lecture-(CT2.18) Develop a therapeutic plan including use of bronchodilators and inhaled corticosteroids; (CT2.19) Develop a management plan for acute exacerbations including bronchodilators, systemic steroids, antimicrobial therapy	Clinical Posting (P):CM 7.1 (Define Epidemiology and describe and enumerate the principles, concepts and uses)		Otorhinolaryngology - Tutorial/ EN 4.47: Describe the clinical features, investigations and principles of management of Stridor	SU27.8 Demonstrate the correct examination of the lymphatic system	03.06.25
Wednesday	PE12.1 Discuss the RDA, dietary sources of Vitamin A and their role in Health and disease	Community Medicine -14.1(Define and classify hospital waste),14.2(Describe various methods of treatment of hospital waste),14.3(Describe laws related to hospital waste management)	Clinical Posting (P):CM .4(Define, calculate and interpret morbidity and mortality indicators based on given set of data)		Forensic Medicine - Lecture----FM3.27 Define, classify and discuss abortion, methods of procuring MTP and criminal abortion and complication of abortion. MTP Act1971 FM3.28 Describe evidences of abortion - living and dead, duties of doctor in cases of abortion, investigations of death due to criminal abortion	04.06.25	
Thursday	SU17.5 Describe clinical features for neurological assessment and GCS in head injuries	Otorhinolaryngology - Lecture/EN 4.13: Describe the clinical features, investigations and principles of management of Otosclerosis	Clinical Posting (P)CM :7.5(Enumerate, define, describe and discuss epidemiological study designs).7.6(Enumerate and evaluate the need of screening tests)		OG 19.3 Observe/ assist in the performance of tubal ligation	IM 5.7 Enumerate and describe the causes and pathophysiology of drug induced liver injury	05.06.25

Friday	PS 9.7 Enumerate the appropriate conditions for specialist referral in stress disorders.	Ophthalmology - Lecture/OP4.2 Enumerate and discuss the differential diagnosis of infective keratitis	Clinical Posting (P):CM :6.1(Formulate a research question for a study);6.2(Describe and discuss the principles and demonstrate the methods of collection, classification, analysis, interpretation and presentation of statistical data); CM :6.3(Describe, discuss and demonstrate the application of elementary statistical methods including test of significance in various study designs)
Saturday	Holiday		
Monday	IM 5.14 Outline a diagnostic approach to liver disease based on hyperbilirubinemia, liver function changes and hepatitis serology	DR 18.1 Cutaneous features of Type 2 diabetes	Clinical Posting (P):CM :6.4(Enumerate, discuss and demonstrate Common sampling techniques, simple statistical methods, frequency distribution, measures of central tendency and dispersion)
Tuesday	OG13.1 Enumerate and discuss the physiology of normal labor, mechanism of labor in occipito-anterior presentation; monitoring of labor including partogram; conduct of labor, pain relief; principles of induction and acceleration of labor; management of third stage of labor.	RD1.1 & 1.12 Understanding radiation its interaction with biological matter, value, importance & application of radiation protection.	Clinical Posting (P):CM :3.7(Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures)
Wednesday	PE14.3 Discuss the risk factors, clinical features, diagnosis and management of Organophosphorous poisoning	Community Medicine -13.1(Define and describe the concept of Disaster management);13.2(Describe disaster management cycle); 15.3(Describe National Mental Health program)	Clinical Posting (P):CM :4(Define, calculate and interpret morbidity and mortality indicators based on given set of data); CM 10.3(Describe local customs and practices during pregnancy, childbirth, lactation and child feeding practices);10.4(Describe the reproductive, maternal, newborn & child health (RMCH); child survival and safe motherhood interventions); CM 10.5(Describe Universal Immunization Program);17.5(Describe health care delivery in India)
Thursday	SU17.9 Describe the clinical features and principles of management of chest injuries; SU18.1 Describe the pathogenesis, clinical features and management of various cutaneous and subcutaneous infections	Otorhinolaryngology - Lecture/EN 4.20: Describe the clinical features, investigations and principles of management of Meniere's Disease ; Lecture/EN 4.23: Describe the clinical features, investigations and principles of management of DNS	Clinical Posting (P) CM 10.3(Describe local customs and practices during pregnancy, childbirth, lactation and child feeding practices);10.4(Describe the reproductive, maternal, newborn & child health (RMCH); child survival and safe motherhood interventions); CM 10.5(Describe Universal Immunization Program);17.5(Describe health care delivery in India)
Friday	PS 11.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in personality disorders.PS11.7 Enumerate the appropriate conditions for specialist referral.	Ophthalmology - Lecture/ OP4.6 Enumerate the indications and the types of keratoplasty correctly.	Clinical Posting (P):CM 10.7(Enumerate and describe the basis and principles of the Family Welfare Program including the organization, technical and operational aspects);10.8(Describe the physiology, clinical management and principles of adolescent health including ARSH); CM :17.3(Describe health care delivery in India);17.5(Describe health care delivery in India)
Saturday	OR5.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of various inflammatory disorder of joints	Pandemic Module 3.2:Interdisciplinary Collaboration, Principles of Public Health Administration, Health Economics, International Health - Community Medicine	Clinical Posting (P):CM 10.7(Enumerate and describe the basis and principles of the Family Welfare Program including the organization, technical and operational aspects);10.8(Describe the physiology, clinical management and principles of adolescent health including ARSH); CM :17.3(Describe health care delivery in India);17.5(Describe health care delivery in India)
Monday	IM 5.16 Describe and discuss the management of hepatitis, cirrhosis, portal hypertension, ascites spontaneous, bacterial peritonitis and hepatic encephalopathy	DR 18.2 Cutaneous features of hypo/hyper-thyroidism	Clinical Posting (P) : 17.3(Describe health care delivery in India);17.5(Describe health care delivery in India);10.5(Describe Universal Immunization Program)
Tuesday	OG13.2 Define, describe the causes, pathophysiology, diagnosis, investigations and management of preterm labor, PROM and postdated pregnancy	RD1.2 Evaluation of imaging technology & its present role in diagnosis & management of various disease pattern.	Clinical Posting (P):CM 14.1(Define and classify hospital waste);14.2(Describe various methods of treatment of hospital waste);14.3(Describe laws related to hospital waste management); CM :3.5(Describe the standards of housing and the effect of housing on health)
Wednesday	PE15.1 Discuss the fluid and electrolyte requirement in health and disease	Community Medicine -18.1(Define and describe the concept of International health)	Clinical Posting (P):CM 14.1(Define and classify hospital waste);14.2(Describe various methods of treatment of hospital waste);14.3(Describe laws related to hospital waste management); CM :3.5(Describe the standards of housing and the effect of housing on health)

Integrated Teaching as decided by AITo - IM24.22 - Describe and discuss the aetiopathogenesis, clinical presentation, complications, assessment and management of nutritional disorders in the elderly; SU12.3 - Discuss the nutritional requirements of surgical patients, the methods of providing nutritional support and their complications	Pediatrics/ Anesthesia* - AS8.5- Describe the principles of pain management in the terminally ill; AS10.4- Define and describe common medical and medication errors in anaesthesia	06.06.25
Holiday		07.06.25
Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases) ,10.9(Describe and discuss gender issues and women empowerment)		09.06.25
Otorhinolaryngology -Tutorial/ EN 4.51: Observe and describe the care of the patient with a tracheostomy	AN9.2 Breast-Describe the location, extent, deep relations, structure, age changes, blood supply, lymphatic drainage, microanatomy and applied anatomy of breast	10.06.25
Forensic Medicine - P- SGD----FM4.7 Describe and discuss the ethics related to HIV patients FM4.8 Describe the Consumer Protection Act-1986 (Medical Indemnity Insurance, Civil Litigations and Compensations), Workman's Compensation Act & ESI Act FM8.9 Describe the procedure of intimation of suspicious cases or actual cases of foul play to the police, maintenance of records, preservation and dispatch of relevant samples for laboratory analysis. FM8.10 Describe the general principles of Analytical Toxicology and give a brief description of analytical methods available for toxicological analysis: Chromatography – Thin Layer Chromatography, Gas Chromatography, Liquid Chromatography and Atomic Absorption Spectroscopy		11.06.25
OG19.4 Enumerate the indications for, describe the steps in and insert and remove an intrauterine device in a simulated environment; OG20.1 Enumerate the indications and describe and discuss the legal aspects, indications, methods for first and second trimester MTP; complications and management of complications of Medical Termination of Pregnancy	IM 5.15 Assist in the performance and interpret the findings of an ascetic fluid analysis; IM 5.17 Enumerate the indications, precautions and counsel patients on vaccination for hepatitis	12.06.25
Integrated Teaching as decided by AITo - IM4.2 - Describe and discuss the influence of special populations on the febrile response including: the elderly, immune suppression, malignancy and neutropenia, HIV and travel; MI1.8 - Describe the mechanisms of immunity and response of the host immune system to infections	PE1.4 Perform Anthropometric measurements, document in growth charts and interpret	13.06.25
Ophthalmology - Seminar/ OP4.7 Enumerate the indications and describe the methods of tarsorrhaphy correctly.		14.06.25
Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases);10.9(Describe and discuss gender issues and women empowerment)		16.06.25
Otorhinolaryngology -Tutorial/ EN 4.52: Describe the Clinical features, Investigations and principles of management of diseases of Oesophagus	AN10.4 Describe the anatomical groups of axillary lymph nodes and specify their areas of drainage	17.06.25
Forensic Medicine - Lecture----FM4.9 Describe the medico - legal issues in relation to family violence, violation of human rights, NHRC and doctors FM4.10 Describe communication between doctors, public and media FM9.1 Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to: Caustics Inorganic – sulphuric, nitric, and hydrochloric acids; Organic- Carbolic Acid (phenol), Oxalic and acetylsalicylic acids		18.06.25

Week 20

Thursday	SU18.1 Describe the pathogenesis, clinical features and management of various cutaneous and subcutaneous infections	Otorhinolaryngology - Lecture/EN 4.23: Describe the clinical features, investigations and principles of management of DNS	Clinical Posting (P):CM 10.7(Enumerate and describe the basis and principles of the Family Welfare Program including the organization, technical and operational aspects),10.8(Describe the physiology, clinical management and principles of adolescent health including ARSH); CM :17.3(Describe health care delivery in India),17.5(Describe health care delivery in India)
Friday	PS 12.1 Enumerate and describe the magnitude and etiology of psychosomatic disorders. PS12.4 Describe the treatment of psychosomatic disorders including behavioural,psychosocial and pharmacologic therapy.	Ophthalmology - Lecture/ OP4.7 Enumerate the indications and describe the methods of tarsorrhaphy correctly.	Clinical Posting (P)CM ::8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.); 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases)
Saturday	OR6.1 Describe and discuss the clinical features, investigations and principles of management of degenerative condition of spine (Cervical Spondylosis, Lumbar Spondylosis,PID)	Pandemic Module 3.2:Interdisciplinary Collaboration, Principles of Public Health Administration, Health Economics, International Health - Community Medicine	Clinical Posting (P)CM ::8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.); 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases)
Monday	IM 5.18 Enumerate the indications for hepatic transplantation	DR 18.1 Cutaneous features of Type 2 diabetes	Clinical Posting (P)CM ::8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.); 8.1(Describe and discuss the epidemiological and control measures
Tuesday	OG13.2 Define, describe the causes, pathophysiology, diagnosis, investigations and management of preterm labor, PROM and postdated pregnancy	RD1.3 (a) Radiological methods in diagnosis & interpretation of upper respiratory tract diseases.	Clinical Posting (P)CM :2.1(Define and describe the concept of Geriatric services),12.2(Describe health problems of aged population),12.3(Describe the prevention of health problems of aged population)
Wednesday	PE16.1 Explain the components of Integrated Management of Neonatal and Childhood Illnesses (IMNCI) guidelines and method of Risk stratification	Community Medicine -18.2(Describe roles of various international health agencies)	Clinical Posting (P):CM 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases)
Thursday	SU18.2 Classify skin tumors Differentiate different skin tumors and discuss their management	Otorhinolaryngology - Lecture/EN 4.24: Enumerate the indications , observe and describe the steps in a Septoplasty	Clinical Posting (P):CM 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases)
Friday	PS 12.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in psychosomatic disorders. PS12.7 Enumerate the appropriate conditions for specialist referral.	Ophthalmology - Lecture/ OP4.9 Describe and discuss the importance and protocols involved in eye donation and eye banking correctly.	Clinical Posting (P)CM ::8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.); 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases)
Saturday	OR7.1 Describe and discuss the aetiopathogenesis, clinical features, investigation and principles of management of metabolic bone disorders in particular osteoporosis, steomalacia,rickets, Paget's disease	Pandemic Module 3.2:Interdisciplinary Collaboration, Principles of Public Health Administration, Health Economics, International Health - Community Medicine	Clinical Posting (P)CM ::8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity and cancer etc.); 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases)
Monday	IM 6.2 Define and classify HIV AIDS based on the CDC criteria	DR 18.2 Cutaneous features of hypo/hyper-thyroidism	Clinical Posting (P): EN 2.1: Elicit and document an appropriate history in a patient presenting with an ENT complaint
Tuesday	OG13.2 Define, describe the causes, pathophysiology, diagnosis, investigations and management of preterm labor, PROM and postdated pregnancy	(b) Radiological methods in diagnosis & interpretation of esophageal disorders.	Clinical Posting (P): EN 2.2: Present an appropriate history in a patient presenting with an ENT complaint

LUNCH

OG20.1 Enumerate the indications and describe and discuss the legal aspects, indications, methods for first and second trimester MTP; complications and management of complications of Medical Termination of Pregnancy	IM 5.17 Enumerate the indications, precautions and counsel patients on vaccination for hepatitis	19.06.25
Integrated Teaching as decided by AITo - MI2.4 - List the common microbial agents causing anemia. Describe the morphology, mode of infection and discuss the pathogenesis, clinical course, diagnosis and prevention and treatment of the common microbial agents; IM4 3 - Discuss and describe the common causes, pathophysiology and manifestations of fever in various regions in India	PE2.6 Enumerate the referral criteria for growth related problems	20.06.25
Ophthalmology - Tutorial/ OP 4.9 Describe and discuss the importance and protocols involved in eye donation and eye banking correctly.		21.06.25
Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases),12.1(Define and describe the concept of Geriatric services)12.2(Describe health problems of aged population)		23.06.25
Otorhinolaryngology - Tutorial/ EN 4.53: Describe the clinical features, investigations and principles of management of HIV manifestations of the ENT	AN35.8 Describe the anatomically relevant clinical features of Thyroid swellings	24.06.25
Forensic Medicine - Lecture----FM4.11 Describe and discuss euthanasia FM4.12 Discuss legal and ethical issues in relation to stem cell research FM9.2 Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to Phosphorus, Iodine, Barium		25.06.25
OG20.3 Discuss Pre-conception and Pre Natal Diagnostic Techniques (PC& PNDT) Act 1994 & its amendments	IM06.1 Describe and discuss the symptoms and signs of acute HIV seroconversion	26.06.25
Integrated Teaching as decided by AITo - MI2.4 - List the common microbial agents causing anemia. Describe the morphology, mode of infection and discuss the pathogenesis, clinical course, diagnosis and prevention and treatment of the common microbial agents; IM4 3 - Discuss and describe the common causes, pathophysiology and manifestations of fever in various regions in India	PE9.5 Calculate the age related caloric requirement in Health and Disease and identify gap	27.06.25
Ophthalmology - Seminar/ OP4.9 Describe and discuss the importance and protocols involved in eye donation and eye banking correctly.		28.06.25
Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases),12.3(Describe the prevention of health problems of aged population),12.4(Describe National program for elderly)		30.06.25
Otorhinolaryngology -Tutorial/EN 3.1: Observe and describe the indications for and steps involved in the performance of Otomicroscopic examination in a simulated environment	AN44.1 Describe & demonstrate the Planes (transpyloric, transtuberular, subcostal, lateral vertical, linea alba, linea semilunaris), regions & Quadrants of abdomen	01.07.25

LUNCH

Week 21

Week 22

Wednesday	PE17.1 State the vision and outline the goals, strategies and plan of action of NHM and other important national programs pertaining to maternal and child health including RMNCH A+, RBSK, RKSK, JSSK mission Indradhanush and ICDS	Community Medicine - 6.1(Formulate a research question for a study)	Clinical Posting (P): EN 2.3: Demonstrate the correct technique of examination of the ear including Otoscopy
Thursday	SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling and order relevant investigation for diagnosis. Describe and discuss appropriate treatment plan	Otorhinolaryngology - Lecture/EN 4.25: Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamousal type of Nasal Polyps	Clinical Posting (P): EN 2.4: Demonstrate the correct method of performance and interpret tuning fork tests
Friday	PS13.1 Enumerate and describe the magnitude and etiology of psychosexual and gender identity disorders.PS13.4 Describe the treatment of psychosexual and gender identity disorders including behavioural psychosocial and pharmacologic therapy. PS 13.6 Enumerate and describe the pharmacologic basis and side effects of drugs used in psychosexual and gender identity	Ophthalmology - Lecture/ OP 5.1 Define, enumerate and describe the aetiology, associated systemic conditions, clinical features complications indications for referral and management of episcleritis	Clinical Posting (P): EN 2.5: Demonstrate the correct technique of examination of the nose & paranasal sinuses including the use of nasal speculum
Saturday	OR8.1 Describe and discuss the aetiopathogenesis, clinical features, assessment and principles of management a patient with PostPolio Residual Paralysis	Pandemic Module 3.2:Interdisciplinary Collaboration, Principles of Public Health Administration, Health Economics, International Health - Community Medicine	Clinical Posting (P):EN 2.6: Demonstrate the correct technique of examining the throat including the use of a tongue depressor; EN 2.10: Identify and describe the use of common instruments used in ENT surgery

LUNCH

Forensic Medicine - Lecture----FM 4.13-Describe social aspects of medicolegal cases with respect to victims of assault, rape, attempted suicide, homicide, domestic violence, drowy-related cases. FM4.14 Describe & discuss the challenges in managing medico-legal cases including development of skills in relationship management – Human behavior, communication skills, conflict resolution techniques FM4.15 Describe the principles of handling pressure – definition, types, causes, sources and skills for managing the pressure while	02.07.25	
OG21.1 Describe and discuss the temporary and permanent methods of contraception, indications, technique and complications; selection of patients, side effects and failure rate including Ocs, male contraception, emergency contraception and IUCD	IM 6.3 Describe and discuss the relationship between CDC count and the risk of opportunistic infections	03.07.25
Integrated Teaching as decided by AITo - IM4.18 - Enumerate the indications for use of imaging in the diagnosis of febrile syndromes; PE30.7 - Discuss the etio-pathogenesis, clinical features, complications and management of Febrile seizures in children	PE9.6 Assess and classify the nutrition status of infants, children and adolescents and recognize deviations	04.07.25
Ophthalmology - Seminar/OP 5.1. Define, enumerate and describe the aetiology, associated systemic conditions, clinical features complications indications for referral and management of episcleritis	05.07.25	

Second Terminal Exam: 07.07.25-19.07.25

Week 23

Monday	IM 6.4 Describe and discuss the pathogenesis, evolution and clinical features of common HIV related opportunistic infections	Dermatology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning	Clinical Posting (P):EN 2.7: Demonstrate the correct technique of examination of neck including elicitation of laryngeal crepitus
Tuesday	OG13.2 Define, describe the causes, pathophysiology, diagnosis, investigations and management of preterm labor, PROM and postdated pregnancy	RD1.4 (a) Role of ultrasonography in evaluation of fetal growth & pregnancy related disorders.	Clinical Posting (P): EN 2.8: Demonstrate the correct technique to perform and interpret pure tone audiogram & impedance audiogram
Wednesday	PE18.1 List and explain the components, plan, outcome of Reproductive Child Health (RCH) program and appraise its monitoring and evaluation	Community Medicine - 6.2(Describe and discuss the principles and demonstrate the methods of collection, classification, analysis, interpretation and presentation of statistical data)	Clinical Posting (P): EN 2.9: Choose correctly and interpret radiological, microbiological & histological investigations relevant to the ENT disorders
Thursday	SU19.1 Describe the etiology and classification of cleft lip and palate	Otorhinolaryngology - Lecture/EN 4.26: Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamousal type of Adenoids	Clinical Posting (P):EN 2.10: Identify and describe the use of common instruments used in ENT surgery
Friday	PS 14.1 Enumerate and describe the magnitude and etiology of psychiatric disorders occurring in childhood and adolescence.PS 14.3 Describe the treatment of stress related disorders including behavioural,psychosocial and pharmacologic therapy.	Ophthalmology - Lecture/ OP 5.2 Define, enumerate and describe the aetiology, associated systemic conditions, clinical features, complications, indications for referral and management of scleritis	Clinical Posting (P): EN 2.10: Identify and describe the use of common instruments used in ENT surgery
Saturday	OR9.1 Describe and discuss the aetiopathogenesis, clinical features, assessment and principles of management of Cerebral palsy patient	AETCOM Module 3.4: Forensic Medicine	Clinical Posting (P): EN 2.10: Identify and describe the use of common instruments used in ENT surgery
Monday	IM 6.6 Describe and discuss the pathogenesis, evolution and clinical features of common HIV related skin and oral lesions; IM 6.16 Discuss and describe the principles of HAART, the classes of antiretrovirals used, adverse reactions and interactions	DR 17.1-17.4 Nutritional Deficiencies and Skin: DR 15.3 Pyoderma	Clinical Posting (P): EN 2.11: Describe and identify by clinical examination maglignant and Premalignant ENT disease

LUNCH

Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases),4.1(Describe various methods of health education with their advantages and limitations)	21.07.25	
Otorhinolaryngology - Tutorial/ EN 3.2: Observe and describe the indications for and steps involved in the performance of diagnostic nasal Endoscopy	AN44.4 Describe & demonstrate extent, boundaries, contents of Inguinal canal including Hesselbach's triangle	22.07.25
Forensic Medicine - Lecture---FM9.3 Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to Arsenic, lead, mercury, copper, iron, cadmium and thallium	23.07.25	
OG21.2 Describe & discuss PPIUCD programme	IM 6.5 Describe and discuss the pathogenesis, evolution and clinical features of common HIV related malignancies	24.07.25
Integrated Teaching as decided by AITo - IM4.18 - Enumerate the indications for use of imaging in the diagnosis of febrile syndromes; PE30.7 - Discuss the etio-pathogenesis, clinical features, complications and management of Febrile seizures in children	PE9.7 Plan an appropriate diet in health and disease	25.07.25
Ophthalmology - Self Directed Learning OP5.2 / Define, enumerate and describe the aetiology, associated systemic conditions, clinical features, complications, indications for referral and management of scleritis	26.07.25	
Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases),4.2(Describe the methods of organizing health promotion and education and counseling activities at individual family and community settings)	28.07.25	

Week 24

Tuesday	OG13.2 Define, describe the causes, pathophysiology, diagnosis, investigations and management of preterm labor, PROM and postdated pregnancy	(b) Radiological methods in diagnosis & interpretation of various gynecological conditions.	Clinical Posting (P): EN 2.12: Counsel and administer informed consent to patients and their families in a simulated environment; EN 3.6: Observe and describe the indications for and steps involved in the skills of emergency procedures in ear, nose & throat
Wednesday	PE19.1 Explain the components of the Universal Immunization Program and the National Immunization Program	Community Medicine -6.3(Describe, discuss and demonstrate the application of elementary statistical methods including test of significance in various study designs)	Clinical Posting (P): EN 2.13: Identify, Resuscitate and manage ENT emergencies in a simulated environment (including tracheostomy, anterior nasal packing, removal of foreign bodies in ear, nose, measles and upper respiratory tract)
Thursday	SU19.1 Describe the etiology and classification of cleft lip and palate	Otorhinolaryngology - Lecture/EN 4.26: Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Adenoids	Clinical Posting (P): EN 2.14: Demonstrate the correct technique to instilling topical medications into the ear, nose and throat in a simulated environment; EN 3.5: Observe and describe the indications for and steps involved in the surgical procedures in ear, nose & throat
Friday	PS 14.5 Enumerate and describe the pharmacologic basis and side effects of drugs used in psychiatric disorders occurring in childhood and adolescence.PS 14.6 Enumerate the appropriate conditions for specialist referral in children and adolescents with psychiatric disorders	Ophthalmology - Lecture/ OP 6.1 Describe clinical signs of intraocular inflammation and enumerate the features that distinguish granulomatous from non-granulomatous inflammation. Identify acute iridocyclitis from chronic condition; 6.2 Identify and distinguish acute iridocyclitis from chronic iridocyclitis	Clinical Posting (P): EN 2.15: Describe the national programs for prevention of deafness, cancer, noise & environmental pollution; EN 3.2: Observe and describe the indications for and steps involved in the performance of diagnostic nasal Endoscopy
Saturday	OR10.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of benign and malignant bone tumours and pathological fractures; OR11.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of peripheral nerve injuries in diseases like foot drop,wrist drop, claw hand, palsies of Radial, Ulnar, Median, Lateral Popliteal and Sciatic Nerves	AETCOM Module 3.5: Community Medicine	Clinical Posting (P): EN 3.1: Observe and describe the indications for and steps involved in the performance of Otomicroscopic examination in a simulated environment; EN 3.3: Observe and describe the indications for and steps involved in the performance of Rigid/Flexible Laryngoscopy; EN 3.4: Observe and describe the indications for and steps involved in the removal of foreign bodies from ear, nose & throat
Monday	IM 6.6 Describe and discuss the pathogenesis, evolution and clinical features of common HIV related skin and oral lesions; IM 6.16 Discuss and describe the principles of HAART, the classes of antiretrovirals used, adverse reactions and interactions	DR 17.1-17.4 Nutritional Deficiencies and Skin; DR 15.3 Pyoderma	Clinical Posting (P): Eye OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes.
Tuesday	OG14.3 Describe and discuss rupture uterus, causes, diagnosis and management	RD1.13 PCPNDT act in Nutshell.	Clinical Posting (P): Eye OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes.
Wednesday	PE19.4 Define cold chain and discuss the methods of safe storage and handling of vaccines; PE11.6 Discuss criteria for referral	Community Medicine - 6.4(Enumerate, discuss and demonstrate Common sampling techniques, simple statistical methods, frequency distribution, measures of central tendency and dispersion)	Clinical Posting (P): Eye OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes.
Thursday	SU20.1 Describe etiopathogenesis of oral cancer symptoms and signs of oropharyngeal cancer	Otorhinolaryngology - Lecture/EN 4.28: Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Vasomotor Rhinitis; EN 4.27: Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Allergic Rhinitis	Clinical Posting (P): Eye OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes.

LUNCH

LUNCH

Week 25

Otorhinolaryngology - Tutorial/ EN 3.3: Observe and describe the indications for and steps involved in the performance of Rigid/Flexible Laryngoscopy	AN44.7 Enumerate common Abdominal incisions; SU19.2 Describe the Principles of reconstruction of cleft lip and palate	29.07.25
Forensic Medicine - Lecture----FM4.16 Describe and discuss Bioethics FM4.17 Describe and discuss ethical Principles: Respect for autonomy, non- malfeasance, beneficence & justice FM5.3 Describe Civil and criminal responsibilities of a mentally ill person FM5.4 Differentiate between true insanity from feigned insanity		30.07.25
OG21.2 Describe & discuss PPIUCD programme	IM 6.5 Describe and discuss the pathogenesis, evolution and clinical features of common HIV related malignancies	31.07.25
Integrated Teaching as decided by AITo - IM4.18 - Enumerate the indications for use of imaging in the diagnosis of febrile syndromes; PE30.7 - Discuss the etiopathogenesis, clinical features, complications and management of Febrile seizures in children	PE11.5 Calculate BMI, document in BMI chart and interpret	01.08.25
Ophthalmology - Self Directed Learning / OP 6.1 Describe clinical signs of intraocular inflammation and enumerate the features that distinguish granulomatous from non-granulomatous inflammation. Identify acute iridocyclitis from chronic condition; OP 6.2 Identify and distinguish acute iridocyclitis from chronic iridocyclitis		02.08.25
Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases).4.2(Describe the methods of organizing health promotion and education and counseling activities at individual family and community settings)		04.08.25
Otorhinolaryngology -Tutorial/ EN 3.4: Observe and describe the indications for and steps involved in the removal of foreign bodies from ear, nose & throat	AN47.7 Mention the clinical importance of Calot's triangle	05.08.25
Forensic Medicine - Lecture----FM4.18 Describe and discuss medical negligence including civil and criminal negligence, contributory negligence, corporate negligence, vicarious liability, Res Ipsa Loquitur, prevention of medical negligence and defenses in medical negligence litigations FM4.21 Describe Products liability and Medical Indemnity Insurance FM5.5 Describe & discuss Delirium tremens FM5.6 Describe the Indian Mental Health Act, 1987 with special reference to admission, care and discharge of a mentally ill person		06.08.25
OG21.1 Describe and discuss the temporary and permanent methods of contraception, indications, technique and complications; selection of patients, side effects and failure rate including Ocs, male contraception, emergency contraception and IUCD; OG22.1 Describe the clinical characteristics of physiological vaginal discharge.	IM 6.13 Describe and enumerate the indications and side effects of drugs for bacterial, viral and other types of diarrhea; IM 6.17 Discuss and describe the principles and regimens used in post exposure prophylaxis	07.08.25

Friday	PS 14.5 Enumerate and describe the pharmacologic basis and side effects of drugs used in psychiatric disorders occurring in childhood and adolescence.PS 14.6 Enumerate the appropriate conditions for specialist referral in children and adolescents with psychiatric disorders; PS16.1 Enumerate and describe common psychaitric disorders in the elderly including dementia, depression and psychosis.PS16.2 Describe the aetiology and magnitude of psychiatric illness in the elderly.	Ophthalmology - Lecture/ OP 6.1 Describe clinical signs of intraocular inflammation and enumerate the features that distinguish granulomatous from non-granulomatous inflammation. Identify acute iridocyclitis from chronic condition; 6.2 Identify and distinguish acute iridocyclitis from chronic iridocyclitis; OP 6.3 Enumerate systemic conditions that can present as iridocyclitis and describe their ocular manifestations	Clinical Posting (P): Eye OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes.
Saturday	Holiday		
Monday	IM 6.18 Enumerate the indications and discuss prophylactic drugs used to prevent HIV related opportunistic infections	DR 14.1, 14.5 Urticaria and angioedema	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly.
Tuesday	OG14.4 Describe and discuss the classification; diagnosis; management of abnormal labor	RD1.5 (a) Chest: Infection – Radiological methods of investigation & interpretation.	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly; OP7.3 Demonstrate the correct technique of ocular examination in a patient with a cataract correctly.
Wednesday	PE19.4 Define cold chain and discuss the methods of safe storage and handling of vaccines; PE11.6 Discuss criteria for referral	Community Medicine - 6.4(Enumerate, discuss and demonstrate Common sampling techniques, simple statistical methods, frequency distribution, measures of central tendency and dispersion)	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly; OP7.3 Dr. K Agnihotri Demonstrate the correct technique of ocular examination in a patient with a cataract correctly.
Thursday	SU20.2 Enumerate the appropriate investigations and discuss the Principles of treatment	Otorhinolaryngology - Lecture/EN 4.29: Elicit, document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Acute & Chronic Rhinitis	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly.
Friday	Holiday		
Saturday	Holiday		
Monday	IM 7.2 Describe the genetic basis of autoimmune disease	DR 12.1, 12.3, 12.4 Eczema	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly; OP7.3 Demonstrate the correct technique of ocular examination in a patient with a cataract correctly
Tuesday	OG14.4 Describe and discuss the classification; diagnosis; management of abnormal labor	(b) Chest: Neoplastic lesion, Radiological methods of diagnosis & interpretation.	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly; OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unicocular & Binocular)
Wednesday	PE19.8 Demonstrate willingness to participate in the National and sub national immunisation days; PE20.1 Define the common neonatal nomenclatures including the classification and describe the characteristics of a Normal Term Neonate and High Risk Neonates	Community Medicine - 7.6(Enumerate and evaluate the need of screening tests); 7.7(Describe and demonstrate the steps in the Investigation of an epidemic of communicable disease and describe the principles of control measures)	Clinical Posting (P): Eye OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness; OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unicocular & Binocular)

Integrated Teaching as decided by ATFo - IM4.18 - Enumerate the indications for use of imaging in the diagnosis of febrile syndromes; PE30.7 - Discuss the etio-pathogenesis, clinical features, complications and management of Febrile seizures in children; MI7.1 - Describe the etio-pathogenesis and discuss the laboratory diagnosis of infections of genitourinary system; OG12.5 - Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management of urinary tract infections in pregnancy	PE11.5 Calculate BMI, document in BMI chart and interpret; PE12.3 Identify the clinical features of dietary deficiency / excess of Vitamin A	08.08.25
Holiday		
Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases),4.3(Demonstrate and describe the steps in evaluation of health promotion and education program		11.08.25
Otorhinolaryngology -Tutorial/ EN 3.5: Observe and describe the indications for and steps involved in the surgical procedures in ear, nose & throat	AN55.2 Demonstrate the surface projections of; stomach, liver, fundus of gall bladder, spleen, duodenum, pancreas, ileocaecal junction, kidneys & root of mesenter	12.08.25
Forensic Medicine - Lecture----FM4.18 Describe and discuss medical negligence including civil and criminal negligence, contributory negligence, corporate negligence, vicarious liability, Res Ipsa Loquitur, prevention of medical negligence and defenses in medical negligence litigations FM4.21 Describe Products liability and Medical Indemnity Insurance FM5.5 Describe & discuss Delirium tremens FM5.6 Describe the Indian Mental Health Act, 1987 with special reference to admission, care and discharge of a mentally ill person		13.08.25
OG22.2 Describe and discuss the etiology (with special emphasis on Candida, T. vaginalis, bacterial vaginosis), characteristics, clinical diagnosis, investigations, genital hygiene, management of common causes and the syndromic management	IM 7.1 Describe the pathophysiology of autoimmune disease	14.08.25
Holiday		
Holiday		
Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases),3.6(Describe the role of vectors in the causation of diseases. Also discuss National Vector Borne disease Control Program),4.3(Demonstrate and describe the steps in evaluation of health promotion and education program)		18.08.25
Otorhinolaryngology - Tutorial/ EN 3.6: Observe and describe the indications for and steps involved in the skills of emergency procedures in ear, nose & throat	PA6.3 Define and describe shock, its pathogenesis and its stages	19.08.25
Forensic Medicine - Lecture----FM4.19 Define Consent. Describe different types of consent and ingredients of informed consent. Describe the rules of consent and importance of consent in relation to age, emergency situation, mental illness and alcohol intoxication FM4.20 Describe therapeutic privilege, Malingering, Therapeutic Misadventure, Professional Secrecy, Human Experimentation FM4.25 Clinical research and ethics , discuss human experimentation including clinical trial; Lecture----FM4.22 Explain Oath – Hippocrates, Charaka and Sushruta and procedure for administration of Oath. FM4.23 Describe the modified Declaration of Geneva and its relevance FM4.24 Enumerate rights, privileges and duties of a Registered Medical Practitioner. Discuss doctor- patient relationship; professional secrecy and privileged communication FM4.26 Discuss the constitution and functions of ethical committees FM4.27 Describe and discuss Ethical Guidelines for Biomedical Research on Human Subjects & Animals		20.08.25

Week

Thursday	SU21.1 Describe surgical anatomy of the salivary glands, pathology, and clinical presentation of disorders of salivary glands; SU21.2 Enumerate the appropriate investigations and describe the Principles of treatment of disorders of salivary glands	Otorhinolaryngology - Lecture/EN 4.30: Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Epistaxis; Lecture/EN 4.31: Describe the clinical features, investigations and principles of management of trauma to the face & neck	Clinical Posting (P): Eye OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness; OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unioocular & Binocular)
Friday	PS 15.1 Describe the aetiology and magnitude of mental retardation. PS 15.2 Describe and discuss intelligence quotient and its measurement. PS15.4 Describe the psychosocial interventions and treatment used in mental retardation.; PS 16.3 Describe the therapy of psychiatric illness in elderly including psychosocial and behavioural therapy. PS16.5 Enumerate the appropriate conditions for specialist referral in psychiatric disorders in the elderly.	Ophthalmology - Lecture/ OP6.4 Describe and distinguish hyphema and hypopyon	Clinical Posting (P): Eye OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness
Saturday	OR12.1 Describe and discuss the clinical features, investigations and principles of management of Congenital and acquired malformations and deformities of: a. limbs and spine - Scoliosis and spinal bifida b. Congenital dislocation of Hip,Torticollis, c. congenital talipes equino varus	AETCOM Module 3.5: Community Medicine	Clinical Posting (P): Eye OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness; OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unioocular & Binocular)
Monday	IM 7.4 Develop a systematic clinical approach to joint pain based on the pathophysiology	DR 11.1, 11.3 HIV	Clinical Posting (P): ORI.1 Describe and discuss the Principles of pre-hospital care and Casualty management of a trauma victim including principles of triage
Tuesday	OG14.4 Describe and discuss the classification; diagnosis; management of abnormal labor	(c) Radiological interpretation of congenital heart disease.	Clinical Posting (P):OR1.6 Participate as a member in the team for closed reduction of shoulder dislocation / hip dislocation / knee dislocation
Wednesday	PE20.7 Discuss the etiology, clinical features and management of Birth asphyxia	Community Medicine -10.2(Enumerate and describe the methods of screening high risk groups and common health problems)	Clinical Posting (P):OR2.10 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of proximal femur
Thursday	SU21.2 Enumerate the appropriate investigations and describe the Principles of treatment of disorders of salivary glands	Otorhinolaryngology - Lecture/EN 4.31: Describe the clinical features, investigations and principles of management of trauma to the face & neck	Clinical Posting (P): OR3.2 Participate as a member in team for aspiration of joints under supervision
Friday	PS17.1 Enumerate and describe the recognition and clinical presentation of psychiatric emergencies (Suicide,Deliberate Self Harm, Violent behaviour)PS17.2 Describe the initial stabilisation and management of psychiatric emergencies. PS 17.3 Enumerate the appropriate conditions for specialist referral in patients with psychiatric emergencies.	Ophthalmology - Tutorial/ OP6.5 Describe and discuss the angle of the anterior chamber and its clinical correlates	Clinical Posting (P): OR3.3 Participate as a member in team for procedures like drainage of abscess, sequestrectomy/ saucerisation and arthrotoomy
Saturday	AN2.5 Describe various joints with subtypes and examples	AETCOM Module 3.5: Community Medicine	Clinical Posting (P): OR13.1 Participate in a team for procedures in patients and demonstrating the ability to perform on mannequins / simulated patients in the following: i. Above elbow plaster ii. Below knee plaster iii. Above knee plaster iv. Thomas splint v. splinting for long bone fractures vi. Strapping for shoulder and clavicle trauma

LUN

OG23.1 Describe and discuss the physiology of puberty, features of abnormal puberty, common problems and their management, OG23.2 Enumerate the causes of delayed puberty. Describe the investigation and management of common causes	IM 7.3 Classify cause of joint pain based on the pathophysiology; IM 7.5 Describe and discriminate acute, subacute and chronic causes of joint pain	21.08.25
Integrated Teaching as decided by AITo - MI7.1 - Describe the etio-pathogenesis and discuss the laboratory diagnosis of infections of genitourinary system; OG12.5 - Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management of urinary tract infections in pregnancy	PE12.4 Diagnose patients with Vitamin A deficiency, classify and plan management	22.08.25
Ophthalmology - Seminar/ OP 6.3 Enumerate systemic conditions that can present as iridocyclitis and describe their ocular manifestations		23.08.25
Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases,19.1(Define and describe the concept of Essential Medicine List (EML)		25.08.25
Otorhinolaryngology -Tutorial/ EN 1.1: Anatomy & physiology of ear, nose, throat, head & neck	PA19.2 Describe the pathogenesis and pathology of tuberculous lymphadenitis	26.08.25
Forensic Medicine -P-SGD- FM6.1 Describe different types of specimen and tissues to be collected both in the living and dead: Body fluids (blood, urine, semen, faces saliva), Skin, Nails, tooth pulp, vaginal smear, viscera, skull, specimen for Histo-pathological examination, blood grouping, HLA Typing and DNA Finger printing. Describe Locard's Exchange Principle FM6.2 Describe the methods of sample collection, preservation, labelling, dispatch, and interpretation of reports FM6.3 Demonstrate professionalism while sending the biological or trace evidences to Forensic Science laboratory, specifying the required tests to be carried out, objectives of preservation of evidences sent for examination, personal discussions on interpretation of findings FM7.1 Enumerate the indications, personal describe the principles and appropriate use for: - DNA profiling - Facial reconstruction- Polygraph (Lie Detector) - Narco analysis, - Brain Mapping, - Digital autopsy,- Virtual Autopsy, - Imaging technologies		27.08.25
OG23.2 Enumerate the causes of delayed puberty. Describe the investigation and management of common causes	IM 7.3 Classify cause of joint pain based on the pathophysiology; IM 7.5 Describe and discriminate acute, subacute and chronic causes of joint pain	28.08.25
Integrated Teaching as decided by AITo - PA26.4 - Define and describe the etiology, types, pathogenesis, stages, morphology, microscopic appearance and complications of tuberculosis; PE34.1 - Discuss the epidemiology, clinical features, clinical types, complications of Tuberculosis in Children and Adolescents	PE12.8 Identify the clinical features of dietary deficiency of Vitamin D	29.08.25
Ophthalmology - Self Directed Learning OP 6.5 Describe and discuss the angle of the anterior chamber and its clinical correlates		30.08.25

LUNCH

Week 28

Week 29

Monday	IM 7.6 Discriminate, describe and discuss arthralgia from arthritis and mechanical from inflammatory causes of joint pain	DR 10.9-11 Syndromic management of STDs	Clinical Posting (P):OR13.2 Participate as a member in team for Resuscitation of Polytrauma victim by doing all of the following : (a) I.V. access central - peripheral (b) Bladder catheterization (c) Endotracheal intubation (d) Splintage
Tuesday	OG14.4 Describe and discuss the classification; diagnosis; management of abnormal labor	(d) Radiological interpretation of acquired heart diseases – Ischemic & Non-ischemic.	Clinical Posting (P): OR14.1 Demonstrate the ability to counsel patients regarding prognosis in patients with various orthopedic illnesses like a. fractures with disabilities b. fractures that require prolonged bed stay c. bone tumours d. congenital disabilities
Wednesday	PE20.8 Discuss the etiology, clinical features and management of respiratory distress in New born including meconium aspiration and transient tachypnoea of newborn	Community Medicine - 16.1(Define and describe the concept of Health planning),16.2(Describe planning cycle)	Clinical Posting (P): OR14.2 Demonstrate the ability to counsel patients to obtain consent for various orthopedic procedures like limb amputation, permanent fixations etc
Thursday	SU22.1 Describe the applied anatomy and physiology of thyroid	Otorhinolaryngology - Lecture/EN 4.32: Describe the clinical features, investigations and principles of management of nasopharyngeal Angiofibroma	Clinical Posting (P):OR14.3 Demonstrate the ability to convince the patient for referral to a higher centre in various orthopedic illnesses, based on the detection of warning signals and need for sophisticated management
Friday	PS 18.1 Enumerate the indications and describe the pharmacology,dose and side effects of commonly use drugs in psychiatric disorders.	Ophthalmology - Seminar/ OP 6.7 Enumerate and discuss the aetiology, the clinical distinguishing features of various glaucomas associated with shallow and deep anterior chamber. Choose appropriate investigations and treatment for patients with above conditions.	Clinical Posting (P):AN50.4 Explain the anatomical basis of Scoliosis, Lordosis, Prolapsed disc, Spondylolisthesis & Spina bifida
Saturday	AN8.4 Demonstrate important muscle attachment on the given bone	AETCOM Module 3.4: Forensic Medicine	Clinical Posting (P): AN33.1 Classify and describe the etiology, pathogenesis, manifestations, radiologic and morphologic features and complications of osteomyelitis

LUNCH

Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases,19.2(Describe roles of essential medicine in primary health care),19.3(Describe counterfeit medicine and its prevention)	01.09.25	
Otorhinolaryngology - Tutorial/ EN 1.1: Anatomy & physiology of ear, nose, throat, head & neck	PA19.6 Enumerate and differentiate the causes of splenomegaly	02.09.25
Forensic Medicine -P-SGD---FM8.1 Describe the history of Toxicology FM8.2 Define the terms Toxicology, Forensic Toxicology, Clinical Toxicology and poison FM8.3 Describe the various types of poisons, Toxic kinetics, and Toxic dynamics and diagnosis of poisoning in living and dead FM14.2 Demonstrate the correct technique of clinical examination in a suspected case of poisoning & prepare medico-legal report in a simulated/ supervised environment FM14.3 Assist and demonstrate the proper technique in collecting, preserving and dispatch of the exhibits in a suspected case of poisoning, along with clinical examination	03.09.25	
OG23.3 Enumerate the causes of precocious puberty	IM 7.7 Discriminate, describe and discuss distinguishing articular from periarticular complaints	04.09.25
Integrated Teaching as decided by AITo - PA26.4 - Define and describe the etiology, types, pathogenesis, stages, morphology, microscopic appearance and complications of tuberculosis; PE34.1 - Discuss the epidemiology, clinical features, clinical types, complications of Tuberculosis in Children and Adolescents	PE12.9 Assess patients with Vitamin D deficiency, diagnose, classify and plan management	05.09.25
Ophthalmology - Tutorial/ OP 6.7 Enumerate and discuss the aetiology, the clinical distinguishing features of various glaucomas associated with shallow and deep anterior chamber. Choose appropriate investigations and treatment for patients with above conditions.	06.09.25	

Week 30

Monday	IM 7.8 Determine the potential causes of joint pain based on the presenting features of joint involvement	DR 10.6 Chancroid, donovanosis and LGV	Dermatology: Clinical Posting (P):DR 1.1 , 1.3 Acne vulgaris
Tuesday	OG16.1 Enumerate and discuss causes, prevention, diagnosis, management, appropriate use of blood and blood products in postpartumhaemorrhage	RD1.6 (a) Various radiological investigation & its clinical utility in GIT conditions.	Dermatology: Clinical Posting (P): DR 2.2 Vitiligo vulgaris
Wednesday	PE20.8 Discuss the etiology, clinical features and management of respiratory distress in New born including meconium aspiration and transient tachypnoea of newborn	Community Medicine - 16.1(Define and describe the concept of Health planning),16.2(Describe planning cycle)	Dermatology: Clinical Posting (P): Psoriasis
Thursday	SU22.2 Describe the etiopathogenesis of thyroidal swellings	Otorhinolaryngology - Lecture/EN 4.33: Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Acute & Chronic Sinusitis	Dermatology: Clinical Posting (P): DR 4.2 Lichen planus
Friday	PS 18.1 Enumerate the indications and describe the pharmacology,dose and side effects of commonly use drugs in psychiatric disorders	Ophthalmology - Seminar/ OP 6.8 Enumerate and choose the appropriate investigation for patients with conditions affecting the Uvea	Dermatology: Clinical Posting (P): DR 4.2 Lichen planus
Saturday	AN8.6 Describe scaphoid fracture and explain the anatomical basis of avascular necrosis	AETCOM Module 3.2 Ophthalmology	Dermatology: Clinical Posting (P): DR 6.1 Pediculosis

LUNCH

Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases	08.09.25	
Otorhinolaryngology - Tutorial/ EN 1.1: Anatomy & physiology of ear, nose, throat, head & neck	MII 4 Classify and describe the different methods of sterilization and disinfection. Discuss the application of the different methods in the laboratory, in clinical and surgical practice	09.09.25
Forensic Medicine -P-SGD---FM8.1 Describe the history of Toxicology FM8.2 Define the terms Toxicology, Forensic Toxicology, Clinical Toxicology and poison FM8.3 Describe the various types of poisons, Toxic kinetics, and Toxic dynamics and diagnosis of poisoning in living and dead FM14.2 Demonstrate the correct technique of clinical examination in a suspected case of poisoning & prepare medico-legal report in a simulated/ supervised environment FM14.3 Assist and demonstrate the proper technique in collecting, preserving and dispatch of the exhibits in a suspected case of poisoning, along with clinical examination	10.09.25	
OG24.1 Define, classify and discuss abnormal uterine bleeding, its aetiology, clinical features, investigations, diagnosis and management	IM 7.9 Describe the common signs and symptoms of articular and periarticular diseases	11.09.25
Integrated Teaching as decided by AITo - PH1 45 - Describe the drugs used in MDR and XDR Tuberculosis; PE34.1 - Discuss the epidemiology, clinical features, clinical types, complications of Tuberculosis in Children and Adolescents	PE13.4 Interpret hemogram and Iron Panel; PE20.9 Discuss the etiology, clinical features and management of Birth injuries	12.09.25
Ophthalmology - Tutorial/ OP 6.8 Enumerate and choose the appropriate investigation for patients with conditions affecting the Uvea	13.09.25	

Week 31

Monday	IM 7.10 Describe the systemic manifestations of rheumatologic disease; IM 8.2 Describe and discuss the pathophysiology of hypertension	DR 10.3, 10.4 Syphilis. DR 9.7 Complications of Leprosy	Dermatology: Clinical Posting (P):DR 7.1, 7.3 Fungal infections
Tuesday	OG16.1 Enumerate and discuss causes, prevention, diagnosis, management, appropriate use of blood and blood products in postpartumhaemorrhage	(b) Radiological approach in abdominal Tuberculosis.	Dermatology: Clinical Posting (P): DR 8.1, 8.7 Viral infections
Wednesday	PE20.11 Discuss the clinical characteristics, complications and management of Low birth weight (preterm and Small for gestation); PE13.5 Propose a management plan for Fe deficiency anaemia	Community Medicine -16.3(Describe Health management techniques); 16.4(Describe health planning in India and National policies related to health and health planning)	Dermatology: Clinical Posting (P):DR 9.1 Classify, describe the epidemiology, aetiology, microbiology, pathogenesis, clinical presentations and diagnostic features of Leprosy
Thursday	SU22.3 Demonstrate and document the correct clinical examination of thyroid swellings and discuss the differential diagnosis and their management	Otorhinolaryngology - Lecture/EN 4.34: Describe the clinical features, investigations and principles of management of Tumors of Maxilla	Dermatology: Clinical Posting (P): DR 9.4 Enumerate, describe and identify lepra reactions and supportive measures and therapy of lepra reactions
Friday	PS 18.1 Enumerate the indications and describe the pharmacology,dose and side effects of commonly use drugs in psychiatric disorders	Ophthalmology - Seminar/ OP 6.8 Enumerate and choose the appropriate investigation for patients with conditions affecting the Uvea	Dermatology: Clinical Posting (P):DR 9.5, 9.6 Management of leprosy
Saturday	AN10.12 Describe and demonstrate Shoulder joint for– type, articular surfaces, capsule, synovial membrane, ligaments, relations, movements, muscles involved, blood supply, nerve supply and applied anatomy	AETCOM Module 3.2: Ophthalmology	Dermatology: Clinical Posting (P):DR 9.7 Complications of Leprosy

LUNCH

Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases)		15.09.25
Otorhinolaryngology -Tutorial/ EN 1.1: Anatomy & physiology of ear, nose, throat, head & neck	AS3.1 Describe the principles of preoperative evaluation	16.09.25
Forensic Medicine - P--SGD--FM14.16 To examine & prepare medico-legal report of drunk person in a simulated/ supervised environment FM14.21 To collect, preserve, seal and dispatch exhibits for DNA-Finger printing using various formats of different laboratories, FM14.22 To give expert medical/ medico-legal evidence in Court of law; P-SGD--FM14.6 Demonstrate and interpret medico-legal aspects from examination of hair (human & animal) fiber, semen & other biological fluids FM14.7 Demonstrate & identify that a particular stain is blood and identify the species of its origin FM14.8 Demonstrate the correct technique to perform and identify ABO &RH blood group of aperson FM14.9 Demonstrate examination of & present an opinion after examination of skeletal remains in a simulated/ supervised environment FM14.5 Conduct & prepare post-mortem examination report of varied etiologies (at least 15) in a simulated/ supervised environment		17.09.25
OG27.1 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of sexually transmitted infections	IM 8.1 Describe and discuss the epidemiology, aetiology and the prevalence of primary and secondary hypertension	18.09.25
Integrated Teaching as decided by AITo - PHI 45 - Describe the drugs used in MDR and XDR Tuberculosis; PE34.1 - Discuss the epidemiology, clinical features, clinical types, complications of Tuberculosis in Children and Adolescents	PE13.4 Interpret hemogram and Iron Panel; PE20.9 Discuss the etiology, clinical features and management of Birth injuries	19.09.25
Ophthalmology - Tutorial / OP6.10 Choose the correct local and systemic therapy for conditions of the anterior chamber and enumerate their indications, adverse events and interactions accurately.		20.09.25

Week 32

Monday	IM 8.2 Describe and discuss the pathophysiology of hypertension	DR 9.7 Complications of Leprosy	Respiratory Medicine: C T 1.8: Generate a differential diagnosis based on the clinical history and evolution of the disease that prioritises the most likely diagnosis
Tuesday	OG16.2 Describe and discuss uterine inversion – causes, prevention, diagnosis and management.	(c) Radiological methods of evaluation in various acute abdominal conditions.	
Wednesday	PE20.12 Discuss the temperature regulation in neonates, clinical features and management of Neonatal Hypothermia	Community Medicine -8.5(Describe and discuss the principles of planning, implementing and evaluating control measures for disease at community level bearing in mind the public health importance of the disease)	
Thursday	SU22.4 Describe the clinical features, classification and principles of management of thyroid cancer; SU22.5 Describe the applied anatomy of parathyroid	Otorhinolaryngology - Lecture/EN 4.35: Describe the clinical features, investigations and principles of management of Tumors of Nasopharynx; EN 4.36: Describe the clinical features, investigations and principles of management of diseases of the Salivary glands	
Friday	PS 18.2 Enumerate the indications for modified electroconvulsive therapy.	Ophthalmology - Seminar/ OP7.1 Describe the surgical anatomy and the metabolism of the lens	
Saturday	AN11.4 Describe the anatomical basis of Saturday night paralysis	AETCOM Module 3.3: ENT	Respiratory Medicine: CT 1.6: Demonstrate and perform a systematic examination that establishes the diagnosis based on the clinical presentation that

LUNCH

Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases)		22.09.25
Otorhinolaryngology - Tutorial/ EN 1.2: Describe the pathophysiology of common diseases in ENT	AS3.2 Elicit, present and document an appropriate history including medication history in a patient undergoing Surgery as it pertains to a preoperative anaesthetic evaluation	23.09.25
Forensic Medicine -P--SGD--FM9.4 Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to Ethanol, methanol, ethylene glycol		24.09.25
OG27.1 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of sexually transmitted infections	IM 8.3 Describe and discuss the genetic basis of hypertension; IM 8.5 Describe and discuss the differences between primary and secondary hypertension	25.09.25
Integrated Teaching as decided by AITo - PE34.2 - Discuss the various diagnostic tools for childhood tuberculosis; PHI.55 - Describe and discuss the following National Health programmes including Tuberculosis	PE15.3 Calculate the fluid and electrolyte requirement in health	26.09.25
Ophthalmology - Tutorial / OP 7.1 Describe the surgical anatomy and the metabolism of the lens		27.09.25

Week 33

Monday	IM 8.4 Define and classify hypertension	DR 9.5, 9.6 Management of leprosy	includes a a) general examination, b) examination of the chest and lung including loss of volume, mediastinal shift, percussion and auscultation (including DOAP session of lung sounds and added sounds) c) examination of the lymphatic system and d) relevant CNS examination
Tuesday	OG17.1 Describe and discuss the physiology of lactation; OG27.2 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of genital tuberculosis; OG17.3 Describe and discuss the clinical features, diagnosis and management of mastitis and breast abscess	(d) Radiological approach to diagnosis of intestinal malignancies.	
Wednesday	PE20.15 Discuss the etiology, clinical features and management of Neonatal seizures	Community Medicine -17.1(Define and describe the concept of health care to community)	
Thursday	Holiday		
Friday	PS 18.3 Enumerate and describe the principles and role of psychosocial interventions in psychiatric illness including psychotherapy,behavioural therapy and rehabilitation.	Ophthalmology - Lecture/ OP7.2 Describe and discuss the aetio-pathogenesis, stages of maturation and complications of cataract	Respiratory MedicineCT 1.6: Demonstrate and perform a systematic examination that establishes the diagnosis based on the clinical presentation that includes a) general examination, b) examination of the chest and lung including loss of volume, mediastinal shift, percussion and auscultation (including DOAP session of lung sounds and added sounds) c) examination of the lymphatic system and d) relevant CNS examination
Saturday	AN17.2 Describe anatomical basis of complications of fracture neck of femur.	Pandemic Module 3.3: Operational Research, Field work, Surveillance - Community Medicine	Respiratory Medicine: Ward Relieving
Monday	IM 8.6 Define, describe and discuss and recognise hypertensive urgency and emergency	DR 9.4 Enumerate, describe and identify lepra reactions and supportive measures and therapy of lepra reactions	Clinical Posting (P): Unit-1 AS2.1- Enumerate the indications, describe the steps and demonstrate in a simulated environment, Basic Life Support in adults, children and neonates; AS2.2- Enumerate the indications, describe the steps and demonstrate in a simulated environment, Advanced Life Support in adults and children; AS7.1- Visit, enumerate and describe the functions of an Intensive Care Unit AS7.3- Observe and describe the management of an unconscious patient
Tuesday	OG17.1 Describe and discuss the physiology of lactation; OG19.1Describe and discuss the physiology of puerperium, its complications, diagnosis and management; counselling for contraception, puerperal sterilization	(d) Radiological approach to diagnosis of intestinal malignancies; RD1.7 - (a) Imaging & interpretation of metabolic bone diseases; RD1.8 Radiological methods in oncological diagnosis & evaluation (Nuclear Medicine).	Clinical Posting (P): Unit-1 AS3.5- Determine the readiness for General Surgery in a patient based on the preoperative evaluation AS3.6- Choose and write a prescription for appropriate premedications for patients undergoing surgery; AS7.4- Observe and describe the basic setup process of a ventilator AS7.5- Observe and describe the principles of monitoring in an ICU
Wednesday	PE20.17 Discuss the etiology, clinical features and management of Perinatal infections	Community Medicine -17.2(Describe community diagnosis)	Clinical Posting (P): Unit-2-AS4.3- Observe and describe the principles and the practical aspects of induction and maintenance of anesthesia AS4.5- Observe and describe the principles and the steps/ techniques in monitoring patients during anaesthesia; Unit-2-(Prof Pallavi Ahluwalia) AS4.7- Observe and describe the principles and the steps/ techniques involved in anaesthesia outside the operating room
Thursday	SU22.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management	Otorhinolaryngology - Lecture/EN 4.37: Describe the clinical features, investigations and principles of management of Ludwig's angina	Clinical Posting (P):Unit-3 AS5.3- Observe and describe the principles and steps/ techniques involved in peripheral nerve blocks AS5.4- Observe and describe the pharmacology and correct use of commonly used drugs and adjuvant agents in regional anaesthesia; AS8.2- Elicit and determine the level, quality and quantity of pain and its tolerance in patient or surrogate AS9.1- Establish intravenous access in a simulated environment
Friday	PS 18.3 Enumerate and describe the principles and role of psychosocial interventions in psychiatric illness including psychotherapy,behavioural therapy and rehabilitation.	Ophthalmology - Seminar/ OP8.1 Discuss the aetiology, pathology, clinical features and management of vascular occlusions of the retina	Clinical Posting (P): Unit-3 AS5.5- Observe and describe the principles and steps/ techniques involved in caudal epidural in adults and children AS5.6- Observe and describe the principles and steps/ techniques involved in common blocks used in surgery (including brachial plexus blocks); AS9.2- Establish central venous access in a simulated environment AS9.3- Describe the principles of fluid therapy in the preoperative period; AS10.1- Enumerate the hazards of incorrect patient positioning AS10.2- Enumerate the hazards encountered in the perioperative period and steps/techniques taken to prevent them

Week 34

LUNCH	Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases.8.3(Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case)		29.09.25	
	Otorhinolaryngology - Tutorial/ EN 2.1: Elicit document and present an appropriate history in a patient presenting with an ENT complaint	AS3.3 Demonstrate and document an appropriate clinical examination in a patient undergoing General Surgery	30.09.25	
	Forensic Medicine - P--SGD--FM9.5 Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to Organophosphates, Carbamates, Organochlorines, Pyrethroids, Paraquat, Aluminium and Zincphosphide			01.10.25
	Holiday			02.10.25
LUNCH	Integrated Teaching as decided by AITo - PE34.2 - Discuss the various diagnostic tools for childhood tuberculosis; PH1.55 - Describe and discuss the following National Health programmes including Tuberculosis	PE15.4 Interpret electrolyte report	03.10.25	
	Ophthalmology - Tutorial/ OP7.2 Describe and discuss the aetio-pathogenesis, stages of maturation and complications of cataract		04.10.25	
	Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases,		06.10.25	
	Otorhinolaryngology - Tutorial/ EN 2.1: Elicit document and present an appropriate history in a patient presenting with an ENT complaint; Tutorial/ EN 2.3: Demonstrate the correct technique of examination of the ear including Otoscopy	AS3.3 Demonstrate and document an appropriate clinical examination in a patient undergoing General Surgery; AS3.5 Determine the readiness for General Surgery in a patient based on the preoperative evaluation	07.10.25	
Forensic Medicine - P--SGD--FM9.6 Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to Ammonia, carbon monoxide, hydrogen cyanide & derivatives, methyl isocyanate, tear (riot control)gases			08.10.25	
OG27.3 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of HIV	IM 8.7 Describe and discuss the clinical manifestations of the various aetiologies of secondary causes of hypertension		09.10.25	
Integrated Teaching as decided by AITo - CT1.15 - Prescribe an appropriate antituberculosis regimen based on the location of disease, smear positivity and negativity and comorbidities based on current national guidelines including directly observed tuberculosis therapy (DOTS); PH1.45 - Describe the drugs used in MDR and XDR Tuberculosis	PE15.5 Calculate fluid and electrolyte imbalance		10.10.25	

Saturday	AN17.3 Describe dislocation of hip joint and surgical hip replacement	Pandemic Module 3.3: Operational Research, Field work, Surveillance - Community Medicine	Clinical Posting (P):Unit-1 AS6.1- Describe the principles of monitoring and resuscitation in the recovery room AS6.2- Observe and enumerate the contents of the crash cart and describe he equipment used in the recovery room
Monday	IM 8.8 Describe, discuss and identify target organ damage due to hypertension	DR 9.1 Classify, describe the epidemiology, aetiology, microbiology, pathogenesis, clinical presentations and diagnostic features of Leprosy	Clinical Posting (Psychiatry) DOAP session PS1.1 Establish rapport and empathy with patients.PS1.3 Demonstrate breaking of bad news in a simulated environment.PS1.4 Describe and demonstrate the importance of confidentiality in patient encounters; PS 9.2 Enumerate, elicit, describe and document clinical features in patients with stress related disorders.PS9.3 Enumerate and describe the indications and interpret laboratory and other tests used in stress related disorders. PS9.5 Demonstrate family education in a patient with stress related disorders in a simulated environment.
Tuesday	OG19.1 Describe and discuss the physiology of puerperium, its complications, diagnosis and management; counselling for contraception, puerperal sterilization	RD1.8 Radiological methods in oncological diagnosis & evaluation (Nuclear Medicine).	PS3.3 Elicit,present and document a history in patients presenting with a mental disorders.PS3.4 Describe the importance of establishing rapport with patients. P.S3.5 perform, demonstrate and document a minimal examination. PS3.9 Describe the steps and demonstrate in a simulated environment family education in patients with organic psychiatric disorders; PS10.2 Enumerate, elicit, describe and document clinical features in patients with somatoform,dissociative and conversion disorders. PS10.3 Enumerate and describe the indications and interpret laboratory and other tests used in somatoform,dissociative and conversion disorders.PS10.5 Demonstrate family describe the pharmacologic basis and side effects of drugs used in somatoform environment
Wednesday	PE20.19 Discuss the etiology, clinical features and management of Neonatal hyperbilirubinemia	Community Medicine - 17.3(Describe primary health care, its components and principles)	PS4.2 Elicit,describe and document clinical features of alcohol and substance use disorders.PS 4.3 Enumerate and describe the indications and other tests used in alcohol and substance abuse disorders PS4.5 Demonstrate family education in a patient with alcohol and substance abuse in a simulated environment. PS5.2 Enumerate, elicit describe and document clinical features, positive skill. PS5.4 Demonstrate family education in a patient with schizophrenia in a simulated environment; PS11.2 Enumerate,elicit,describe and document clinical features in patients with personality disorders.PS11.3 Enumerate and describe the indications and interpret laboratory and other tests used in personality disorders.PS11.5 Demonstrate family education in a patient with personality disorders in a simulated environment
Thursday	SU23.1 Describe the applied anatomy of adrenal glands	Otorhinolaryngology - Lecture/EN 4.38: Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of type of dysphagia	PS6.2 Enumerate,elicit,describe and document clinical features in patients with depression.PS6.3 Enumerate and describe the indications and interpret laboratory and other tests used in depression.PS6.5 Demonstrate family education in a patient with depression in a simulated environment; PS12.2 Enumerate,elicit,describe and document clinical features in patients with magnitude and etiology of psychosomatic disorders.PS12.3 Enumerate and describe the indications and interpret laboratory and other tests of psychosomatic disorders.PS12.5 Demonstrate family education in a patientwith psychosomatic disorders in a simulated
Friday	PS 19.1 Describe the relevance, role and status of community psychiatry.	Ophthalmology - Tutorial / OP 8.2 Enumerate the indications for laser therapy in the treatment of retinal diseases (including retinal detachment, retinal degenerations, diabetic retinopathy & hypertensive retinopathy)	PS7.2 Enumerate, elicit,describe and document clinical features in patients with bipolar disorders. PS7.3 Enumerate and describe the indications and interpret laboratory and other tests used in bipolar disorders. PS7.5 Demonstrate family education in a patient with bipolar disorders in a simulated environment; PS13.2 Enumerate,elicit,describe and documentclinical features in patients with magnitude and etiology of psychosexual and gender identity disorders. P.S13.3 Enumerate and describe the indications and interpret laboratory and other tests used in psychosexual and gender identity disorders.PS13.5 Demonstrate family education in a patient with psychosexual and gender identity disorders in a simulated environment.

Ophthalmology - Tutorial /OP8.1 Discuss the aetiology, pathology, clinical features and management of vascular occlusions of the retina	11.10.25	
Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases,	13.10.25	
Otorhinolaryngology - Tutorial/ EN 2.3: Demonstrate the correct technique of examination of the ear including Otoscopy	AS3.5 Determine the readiness for General Surgery in a patient based on the preoperative evaluation	14.10.25
Forensic Medicine - P-- SGD - FM10.1 Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to: i. Antipyretics – Paracetamol, Salicylates ii. Anti-Infectives (Common antibiotics – an overview) iii. Neuropsychotoxicology Barbiturates, benzodiazepines phenytoin, lithium, haloperidol, neuroleptics, tricyclics iv. Narcotic Analgesics, Anesthetics, and Muscle Relaxants v. Cardiovascular Toxicology Cardio toxic plants – oleander, odollam, aconite, digitalis vi. Gastro-Intestinal and Endocrinal Drugs – Insulin	15.10.25	
OG27.3 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of HIV	IM 8.20 Determine the need for specialist consultation	16.10.25
Integrated Teaching as decided by AITo - CT1.15 - Prescribe an appropriate antituberculosis regimen based on the location of disease, smear positivity and negativity and comorbidities based on current national guidelines including directly observed tuberculosis therapy (DOTS); PH1.45 - Describe the drugs used in MDR and XDR Tuberculosis	PE21.11 Perform and interpret the common analytes in a Urine examination	17.10.25

Saturday	AN18.6 Describe knee joint injuries with its applied anatomy	Pandemic Module 3.3: Operational Research, Field work, Surveillance - Community Medicine	PS8.2 Enumerate, elicit, describe and document clinical features in patients with anxiety disorders. PS8.3 Enumerate and describe the indications and interpret laboratory and other tests used in anxiety disorders. PS8.5 Demonstrate family education in a patient with anxiety disorders in a simulated environment; PS14.2 Enumerate, elicit, describe and document clinical features in patients with psychiatric disorders occurring in childhood and adolescence. PS14.4 Demonstrate family education in a patient with psychiatric disorders occurring in childhood and adolescence in a simulated environment. PS15.3 Elicit and document a history and clinical examination and choose appropriate investigations in a patient with mental retardation. PS16.4 Demonstrate family education in a patient with psychiatric disorders occurring in the elderly in a simulated environment.	Ophthalmology -Tutorial / OP8.2 Enumerate the indications for laser therapy in the treatment of retinal diseases (including retinal detachment, retinal degenerations, diabetic retinopathy & hypertensive retinopathy)	18.10.25
----------	--	--	---	---	----------

Diwali Vacation: 20.10.25-25.10.25

Week 36	Monday	IM 9.1 Define, describe and classify anaemia based on red blood cell size and reticulocyte count	DR 8.1, 8.7 Viral infections	RD 1.1: Understand various aspects of radioactivity & Radiation & its interaction with matter	Community Medicine - 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases,	27.10.25	
	Tuesday	OG19.1 Describe and discuss the physiology of puerperium, its complications, diagnosis and management: counselling for contraception, puerperal sterilization	RD1.9 Role of interventional radiology in various common clinical conditions.	R.D 1.2: Understand evolution pattern of Radiodiagnosis & principles of various modern imaging tools	Otorhinolaryngology -Tutorial/ EN 2.4: Demonstrate the correct method of performance and interpret tuning fork tests; Tutorial/ EN 2.2: Demonstrate the correct use of a headlamp in the examination of the ear, nose and throat	28.10.25	
	Wednesday	PE21.1 Enumerate the etio-pathogenesis, clinical features, complications and management of Urinary Tract infection in children	Community Medicine - 17.4(Describe National policies related to health and health planning and millennium development goals)	RD 1.3: Understand various imaging techniques employed in various ENT conditions their radiological features	Forensic Medicine -P-SGD-FM11.1 Describe features and management of Snake bite, scorpion sting, bee and wasp sting and spider bite	29.10.25	
	Thursday	SU23.2 Describe the etiology, clinical features and principles of management of disorders of adrenal gland	Otorhinolaryngology - Lecture/EN 4.39: Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Acute & Chronic Tonsillitis	RD 1.4: USG applications in the diagnosis & management of pregnancy	OG29.1 Describe and discuss the etiology; pathology; clinical features; differential diagnosis; investigations; principles of management, complications of fibroid uterus	IM 9.2 Describe and discuss the morphological characteristics, aetiology and prevalence of each of the causes of anaemia	30.10.25
	Friday	PS 19.2 Describe the objectives strategies and contents of the National Mental issues. PS19.3 Describe and discuss the basic legal issues in psychiatry.	Ophthalmology - Seminar/ OP8.4 Enumerate and discuss treatment modalities in management of diseases of the retina.	RD 1.5: Radiological techniques used in diagnosis of various neurological conditions including spine	Integrated Teaching as decided by AITo - CT1.15 - Prescribe an appropriate antituberculosis regimen based on the location of disease, smear positivity and negativity and comorbidities based on current national guidelines including directly observed tuberculosis therapy (DOTS); PH1.45 - Describe the drugs used in MDR and XDR Tuberculosis	PE21.12 Interpret report of Plain X Ray of KUB	31.10.25
	Saturday	AN18.7 Explain anatomical basis of Osteoarthritis	Pandemic Module 3.3: Operational Research, Field work, Surveillance - Community Medicine	RD 1.6: Radiological techniques used in diagnosis of various Urogenital conditions & their radiological features; RD 1.7: Radiological techniques employed in diagnosis of common paediatric disease & their radiological features and Ward Relieving	Ophthalmology - Tutorial / OP 8.4 Enumerate and discuss treatment modalities in management of diseases of the retina.		01.11.25

LUNCH

Pre University Exams from 03.11.25 onwards followed by University Exams from Third Week of November 2025

Teerthanker Mahaveer Medical College & Research Center

Teerthanker Mahaveer University

Delhi Road, Moradabad - 244001

Time Table Schedule (Phase 3 MBBS (Part 1) as per New Curriculum w.e.f AUGUST 2019) (Batch 2022-23) w.e.f 16.01.2025

Week 1

Week 2

Week 3

Day/Time	10:00 am - 1:00 pm	Date	Unit/Faculty Incharge
Monday	IM 2.9 Distinguish and differentiate between stable and unstable angina and AMI based on the clinical presentation Unit - 3/ IM 7.14 Describe the appropriate diagnostic work up based on the presumed aetiology Unit - 1	Students are divided into Three Groups with Each posting of 4 weeks from 16.01.25 to 22.02.25; 24.02.25 to 22.03.25 and 24.03.25 to 03.05.25	Unit 1 (Dr. V K Singh)/ Unit 3 (Dr. K Gopal)
Tuesday	Clinical Posting (P):IM 2.10 Order, perform and interpret an ECG Unit - 4/ IM 7.13 Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology Unit - 5		Unit 4 (Dr. J Haria)/ Unit 5 (Dr. A Kumar)
Wednesday	Clinical Posting (P):IM 2.11 Order and interpret a Chest X-ray and markers of acute myocardial infarction Unit - 2/ IM 7.12 Perform a systematic examination of y all joints, muscle and skin that will establish the diagnosis and severity of disease Unit - 1		Unit 2 (Dr. Vishvanayak)/ Unit 1 (Dr. V K Singh)
Thursday	Clinical Posting (P)IM 2.12 Choose and interpret a lipid profile and identify the desirable lipid profile in the clinical context Unit - 1/ IM 7.11 Elicit document and present a medical history that will differentiate the aetiologies of disease Unit - 2		Unit 2 (Dr. Vishvanayak)/ Unit 1 (Dr. V K Singh)
Friday	Clinical Posting (P):IM 2.21 Observe and participate in a controlled environment an ACLS program Unit - 5/IM 6.23 Demonstrate a non-judgemental attitude to patients with HIV and to their lifestyles Unit - 4		Unit 4 (Dr. J Haria)/ Unit 5 (Dr. A Kumar)
Saturday	Clinical Posting (P):IM 2.22 Perform and demonstrate in a mannequin BLS Unit - 1/ IM 6.22 Demonstrate understanding of ethical and legal issues regarding patient confidentiality and disclosure in patients with HIV Unit - 3		Unit 1 (Dr. V K Singh)/ Unit 3 (Dr. K Gopal)
Monday	Clinical Posting (P):IM 2.23 Describe and discuss the indications for nitrates, anti-platelet agents, gpIIb IIIa inhibitors, beta blockers, ACE inhibitors etc in the management of coronary syndromes Unit - 3/IM 6.21 Communicate with patients on the importance of medication adherence Unit - 1		Unit 1 (Dr. V K Singh)/ Unit 3 (Dr. K Gopal)
Tuesday	Clinical Posting (P):IM 2.24 Counsel and communicate to patients with empathy lifestyle changes in atherosclerosis / post coronary syndromes Unit - 4/ IM 6.20 Communicate diagnosis, treatment plan and subsequent follow up plan to patients Unit - 5		Unit 4 (Dr. J Haria)/ Unit 5 (Dr. A Kumar)
Wednesday	Clinical Posting (P):IM 3.4 Elicit document and present an appropriate history including the evolution, risk factors including immune status and occupational risk Unit - 2/ IM 6.19 Counsel patients on prevention of HIV transmission Unit - 1		Unit 2 (Dr. Vishvanayak)/ Unit 1 (Dr. V K Singh)
Thursday	Clinical Posting (P): IM 3.5 Perform, document and demonstrate a physical examination including general examination and appropriate examination of the lungs that establishes the diagnosis, complications and severity of disease Unit - 1/ IM 6.15 Demonstrate in a model the correct technique to perform a lumbar puncture Unit - 2		Unit 2 (Dr. Vishvanayak)/ Unit 1 (Dr. V K Singh)
Friday	Clinical Posting (P):IM 3.6 Generate document and present a differential diagnosis based on the clinical features, and prioritise the diagnosis based on the presentation Unit - 5/ IM 6.14 Perform and interpret AFB sputum Unit - 4		Unit 4 (Dr. J Haria)/ Unit 5 (Dr. A Kumar)
Saturday	Clinical Posting (P):IM 3.7 Order and interpret diagnostic tests based on the clinical presentation including: CBC, Chest X ray PA view, Mantoux, sputum gram stain, sputum culture and sensitivity, pleural fluid examination and culture, HIV testing and ABG; Unit - 1/IM 6.12 Enumerate the indications for and interpret the results of: pulse oximetry, ABG, Chest Radiograph Unit - 3		Unit 1 (Dr. V K Singh)/ Unit 3 (Dr. K Gopal)
Monday	Clinical Posting (P):IM 3.8 Demonstrate in a mannequin and interpret results of an arterial blood gas examination Unit - 3/ IM 6.11 Enumerate the indications and describe the findings for CT of the chest and brain and MRI Unit - 1		Unit 1 (Dr. V K Singh)/ Unit 3 (Dr. K Gopal)
Tuesday	Clinical Posting (P):IM 3.9 Demonstrate in a mannequin and interpret results of a pleural fluid Aspiration Unit - 4/; IM 6.10 Choose and interpret appropriate diagnostic tests to diagnose opportunistic infections including CBC, sputum examination and cultures, blood cultures, stool analysis, CSF analysis and Chest radiographs Unit - 5		Unit 4 (Dr. J Haria)/ Unit 5 (Dr. A Kumar)
Wednesday	Clinical Posting (P):IM 3.10 Demonstrate in a mannequin and interpret results of a blood culture Unit - 2/IM 6.9 Choose and interpret appropriate diagnostic tests to diagnose and classify the severity of HIV-AIDS including specific tests of HIV, CDC Unit - 1	Unit 2 (Dr. Vishvanayak)/ Unit 1 (Dr. V K Singh)	

A Batch of 10 students will be allocated to each unit of medicine and they would further be distributed in five faculty members of each unit and would be assigned the bed number of patients whom they would follow as per competencies decided

Wee

Thursday	Clinical Posting (P)IM 3.11 Describe and enumerate indications for further testing including HRCT,viral cultures,PCR and specialized testing Unit - 1/ IM 6.8 Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology for the presenting symptom Unit - 2	Unit 2 (Dr. Vishvanayak)/ Unit 1 (Dr. V K Singh)
Friday	Clinical Posting (P)IM 3.13 Select, describe and prescribe based on the most likely aetiology, an appropriate empirical antimicrobial based on the pharmacology and antimicrobial spectrum Unit - 5/IM 6.7 Elicit document and present a medical history that helps delineate the aetiology of the current presentation and includes risk factors for HIV, mode of infection, other sexually transmitted diseases, risks for opportunistic infections and nutritional status Unit - 4	Unit 4 (Dr. J Haria)/ Unit 5 (Dr. A Kumar)
Saturday	Clinical Posting (P)IM 3.14 Perform and interpret a sputum gram stain and AFB Unit - 1/ IM 4.26 Counsel the patient on malaria prevention Unit - 3	Unit 1 (Dr. V K Singh)/ Unit 3 (Dr. K Gopal)
Monday	Clinical Posting (P): IM 3.18 Communicate and counsel patient on family on the diagnosis and therapy of pneumonia Unit - 3/ IM 4.25 Communicate to the patient and family the diagnosis and treatment Unit - 1	Unit 1 (Dr. V K Singh)/ Unit 3 (Dr. K Gopal)
Tuesday	Clinical Posting (P):IM 4.12 Order and interpret diagnostic tests based on the differential diagnosis including CBC with differential, peripheral smear, urinary analysis with sediment, chest xray, blood and urine cultures, sputum gram stain and culture, sputum AFB & cultures, CSF analysis, pleural and body fluid analysis, stool routine and culture and QBC Unit - 4/ IM 4.24 Develop an appropriate empiric treatment plan based on the patient's clinical and immune status pending definitive diagnosis Unit - 5	Unit 4 (Dr. J Haria)/ Unit 5 (Dr. A Kumar)
Wednesday	Clinical Posting (P):IM 4.13 Perform and interpret a sputum gram stain Unit - 2/ IM 4.23 Prescribe drugs for malaria based on the species identified, prevalence of drug resistance and national programmes Unit - 1	Unit 2 (Dr. Vishvanayak)/ Unit 1 (Dr. V K Singh)
Thursday	Clinical Posting (P)IM 4.14 Perform and interpret a sputum AFB Unit - 1/ IM 4.21 Develop and present an appropriate diagnostic plan based on the clinical presentation, most likely diagnosis in a prioritised and cost effective manner Unit - 2	Unit 2 (Dr. Vishvanayak)/ Unit 1 (Dr. V K Singh)
Friday	Clinical Posting (P)IM 4.15 Perform and interpret a malaria smear Unit - 5/ IM 4.20 Interpret a PPD (Mantoux) Unit - 4	Unit 4 (Dr. J Haria)/ Unit 5 (Dr. A Kumar)
Saturday	Clinical Posting (P)IM 4.17 Observe and assist in the performance of a bone marrow aspiration and biopsy in a simulated environment Unit - 1/ IM 4.19 Assist in the collection of blood and wound cultures Unit - 3	Unit 1 (Dr. V K Singh)/ Unit 3 (Dr. K Gopal)

Week 4

Holi Vacations 10.03.2025 to 15.03.2025

Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh) - SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling	Students are divided into Three Groups with Each posting of 4 weeks from 16.01.25 to 22.02.25; 24.02.25 to 22.03.25 and 24.03.25 to 03.05.25	Unit 1 (Dr. N K Singh)
Tuesday	Clinical Posting (P): Unit II(Dr. V Kumar) SU28.18 Describe and demonstrate clinical examination of abdomen. Order relevant investigations		Unit 2 (Dr. V Kumar)
Wednesday	Clinical Posting (P): Unit III (Dr R K Kaul)-SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast		Unit 3 (Dr. R K Kaul)
Thursday	Clinical Posting (P): Unit IV(Dr.A K Singh) -SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast.		Unit 4 (Dr. A K Singh)
Friday	Clinical Posting (P): Unit V(Dr.C K JHAKMOLA)-SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent		Unit 5 (Dr. C K Jhakmola)
Saturday	Clinical Posting (P):Unit in Rotation -SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease		Unit 1 (Dr. N K Singh)
Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh) - SU27.5 Describe the applied anatomy of venous system of lower limb		Unit 1 (Dr. N K Singh)
Tuesday	Clinical Posting (P)Unit II(Dr. V Kumar) SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins		Unit 2 (Dr. V Kumar)
Wednesday	Clinical Posting (P):Unit III (Dr R K Kaul) SU28.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias		Unit 3 (Dr. R K Kaul)
Thursday	Clinical Posting (P)::Unit IV (Dr.A K Singh)SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.	Unit 4 (Dr. A K Singh)	
Friday	Clinical Posting (P)::Unit V (Dr.C K JHAKMOLA)SU28.9 Demonstrate the correct technique of examination of a patient with disorders of the stomach	Unit 5 (Dr. C K Jhakmola)	

Week 5

Week 6

Week 7

Saturday	Clinical Posting (P):Unit in Rotation SU28.11 Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post-splenectomy sepsis - prophylaxis		Unit 2 (Dr. V Kumar)
Monday	Clinical Posting (P):Unit I (Dr. N.K. Singh)SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver		Unit 1 (Dr. N K Singh)
Tuesday	Clinical Posting (P):Unit II (Dr. V Kumar) SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system		Unit 2 (Dr. V Kumar)
Wednesday	Clinical Posting (P): Unit III (Dr R K Kaul) SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis		Unit 3 (Dr. R K Kaul)
Thursday	Clinical Posting (P):Unit IV(Dr.A K Singh) SU22.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management		Unit 4 (Dr. A K Singh)
Friday	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU29.1 Describe the causes, investigations and principles of management of Hematuria		Unit 5 (Dr. C K Jhakmola)
Saturday	Clinical Posting (P): Unit in Rotation SU29.5 Describe the clinical features,investigations and principles of management of renal calculi		Unit 3 (Dr. R K Kaul)

Week 8

Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh) SU30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis	Students are divided into Three Groups with Each posting of 4 weeks from 16.01.25 to 22.02.25; 24.02.25 to 22.03.25 and 24.03.25 to 03.05.25	Unit 1 (Dr. N K Singh)
Tuesday	Clinical Posting (P):Unit II (Dr. V Kumar) SU29.10 Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent		Unit 2 (Dr. V Kumar)
Wednesday	Clinical Posting (P)Unit III (Dr R K Kaul) SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases		Unit 3 (Dr. R K Kaul)
Thursday	Clinical Posting (P):Unit IV(Dr.A K Singh) SU28.14 Describe the clinical features, investigations and principles of management of disorders of small and large intestine		Unit 4 (Dr. A K Singh)
Friday	Clinical Posting (P): Unit V (Dr.C K JHAKMOLA)SU30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele		Unit 5 (Dr. C K Jhakmola)
Saturday	Clinical Posting (P): Unit on rotation-- SU30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis		Unit 4 (Dr. A K Singh)

Week 9

Monday	Clinical Posting (P):OG8.2 Elicit, document and present an obstetric history including menstrual history, last menstrual period, previous obstetric history, comorbid conditions, past medical history and surgical history	Students are divided into Three Groups with Each posting of 4 weeks from 16.01.25 to 22.02.25; 24.02.25 to 22.03.25 and 24.03.25 to 03.05.25	Unit 1 (Dr. Manpreet Kaur)
Tuesday	Clinical Posting (P): OG9.1 Classify, define and discuss the aetiology and management of abortions including threatened, incomplete, inevitable, missed and septic		Unit 1 (Dr. Manpreet Kaur)
Wednesday	Clinical Posting (P):OG13.2 Define, describe the causes, pathophysiology, diagnosis, investigations and management of preterm labor, PROM		Unit 1 (Dr. Manpreet Kaur)
Thursday	Clinical Posting (P): OG10.1 Define, classify and describe the aetiology, pathogenesis, clinical features, ultrasonography, differential diagnosis and management of antepartum haemorrhage in pregnancy		Unit 1 (Dr. Manpreet Kaur)
Friday	Clinical Posting (P):OG12.2 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of anemia in pregnancy		Unit 2 (Dr. K Rani)
Saturday	Clinical Posting (P): OG12.3 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of diabetes in pregnancy		Unit 2 (Dr. K Rani)

Week 10

Monday	Clinical Posting (P):OG12.4 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of	Unit 2 (Dr. K Rani)
Tuesday	Clinical Posting (P):OG12.1 Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of	Unit 2 (Dr. K Rani)
Wednesday	Clinical Posting (P):OG16.1 Enumerate and discuss causes, prevention, diagnosis, management, appropriate use of blood and blood products in postpartum haemorrhage	Unit 2 (Dr. K Rani)
Thursday	Clinical Posting (P):OG12.8 Describe the mechanism, prophylaxis, fetal complications, diagnosis and management of isoimmunization in pregnancy	Unit 3 (Dr.S Agarwal)
Friday	Clinical Posting (P):OG13.2 Define, describe the causes, pathophysiology, diagnosis, investigations and management of Postdated pregnancy	Unit 3 (Dr.S Agarwal)

Week 11

Saturday	Clinical Posting (P):OG35.1 Obtain a logical sequence of history, and perform a humane and thorough clinical examination, excluding internal examinations (per- rectal and per-vaginal) of a gynaecological patient		Unit 3 (Dr.S Agarwal)
Monday	Clinical Posting (P):OG24.1 Define, classify and discuss abnormal uterine bleeding in peri-menopausal women, its aetiology, clinical features, investigations, diagnosis and management		Unit 2 (Dr. K Rani)
Tuesday	Clinical Posting (P):OG24.1 Define, classify and discuss abnormal uterine bleeding in reproductive age group, its aetiology, clinical features, investigations, diagnosis and management		Unit 2 (Dr. K Rani)
Wednesday	Clinical Posting (P):OG24.2 Define, classify and discuss abnormal uterine bleeding in puberty, its aetiology, clinical features, investigations, diagnosis and management		Unit 1 (Dr. Manpreet Kaur)
Thursday	Clinical Posting (P):OG24.3 Define, classify and discuss abnormal uterine bleeding in post menopausal bleeding, its aetiology, clinical features, investigations, diagnosis and management		Unit 1 (Dr. Manpreet Kaur)
Friday	Clinical Posting (P):OG29.1 Describe and discuss the etiology; pathology; clinical features; differential diagnosis; investigations; principles of management, complications of fibroid uterus		Unit 1 (Dr. Manpreet Kaur)
Saturday	Clinical Posting (P): OG31.1 Describe and discuss the etiology, classification, clinical features, diagnosis, investigations, principles of management and preventive aspects of prolapse of uterus		Unit 1 (Dr. Manpreet Kaur)
Monday	Clinical Posting (P):OG30.1 Describe and discuss the etiopathogenesis; clinical features; differential diagnosis; investigations; management, complications of PCOS		Unit 1 (Dr. Manpreet Kaur)
Tuesday	Clinical Posting (P):OG33.3 Describe and demonstrate the screening for cervical cancer in a simulated environment		Unit 1 (Dr. Manpreet Kaur)
Wednesday	Clinical Posting (P):OG26.1 Describe and discuss the etiopathogenesis, clinical features; investigation and implications on health and fertility and management of endometriosis		Unit 1 (Dr. Manpreet Kaur)
Thursday	Clinical Posting (P): OG26.1 Describe and discuss the etiopathogenesis, clinical features; investigation and implications on health and fertility and management of adenomyosis		Unit 1 (Dr. Manpreet Kaur)
Friday	Clinical Posting (P):OG27.4 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of Acute Pelvic Inflammatory Disease		Unit 3 (Dr. S Agarwal)
Saturday	Clinical Posting (P):WARD LEAVING TEST		Unit 3 (Dr. S Agarwal)

Week 12

First Terminal Exam 07.04.2025 to 19.04.2025

Week 13

Monday	Clinical Posting (P): PE2.2 Dr R Jain Assessment of a child with failing to thrive including eliciting an appropriate history and examination	Students are divided into two Groups with Each posting of 4 weeks from 05.05.25 to 31.05.25 and 02.06.25 to 28.06.25	Unit 2 (Dr. B Gaur)
Tuesday	Clinical Posting (P): PE2.3 Dr N Chitambaram Counselling a parent with failing to thrive child		Unit 3 (Dr. N Chitambaram)
Wednesday	Clinical Posting (P): PE2.5 Dr Rupa Singh Assessment of a child with short stature: Elicit history, perform examination, document and present		Unit 1 (Dr. R Singh)
Thursday	Clinical Posting (P): PE3.3 Dr R Jain Assessment of a child with developmental delay - Elicit document and present history		Unit 2 (Dr. B Gaur)
Friday	Clinical Posting (P): PE3.4 Dr N Chitambaram Counsel a parent of a child with developmental delay		Unit 3 (Dr. N Chitambaram)
Saturday	Clinical Posting (P): IPE6.8 Dr Rupa Singh Respecting patient privacy and maintaining confidentiality while dealing with adolescence		Unit 1 (Dr. R Singh)
Monday	Clinical Posting (P): PE6.9 Dr R Jain Perform routine Adolescent Health check up including eliciting history, performing examination including SMR (Sexual Maturity Rating), growth assessments (using Growth charts) and systemic exam including thyroid and Breast exam and the HEADSS screening		Unit 2 (Dr. B Gaur)
Tuesday	Clinical Posting (P): PE6.11 Dr N Chitambaram Visit to the Adolescent Clinic		Unit 3 (Dr. N Chitambaram)
Wednesday	Clinical Posting (P): PE7.5 Dr Rupa Singh Observe the correct technique of breast feeding and distinguish right from wrong techniques		Unit 1 (Dr. R Singh)
Thursday	Clinical Posting (P): PE7.7 Dr R Jain Perform breast examination and identify common problems during lactation such as retracted nipples, cracked nipples, breast engorgement, breast abscess		Unit 2 (Dr. B Gaur)
Friday	Clinical Posting (P): PE7.8 Dr N Chitambaram Educate mothers on ante natal breast care and prepare mothers for lactation		Unit 3 (Dr. N Chitambaram)
Saturday	Clinical Posting (P):PE7.9 Dr Rupa Singh Educate and counsel mothers for best practices in Breast feeding		Unit 1 (Dr. R Singh)
Monday	Clinical Posting (P):PE7.10 Dr R Jain Respects patient privacy		Unit 2 (Dr. B Gaur)
Tuesday	Clinical Posting (P): PE7.11 Dr N Chitambaram Participate in Breast Feeding Week Celebration		Unit 3 (Dr. N Chitambaram)
Wednesday	Clinical Posting (P):PE8.4 Dr Rupa Singh Elicit history on the Complementary Feeding habits	Unit 1 (Dr. R Singh)	

5

Week 14

Week 1	Thursday	Clinical Posting (P): PE8.5 Dr R Jain Counsel and educate mothers on the best practices in Complimentary Feeding		Unit 2 (Dr. B Gaur)	
	Friday	Clinical Posting (P): PE9.4 Dr N Chitambaram Elicit document and present an appropriate nutritional history and perform a dietary recall		Unit 3 (Dr. N Chitambaram)	
	Saturday	Clinical Posting (P): PE10.3 Dr Rupa Singh Assessment of a patient with SAM and MAM, diagnosis, classification and planning management including hospital and community based intervention, rehabilitation and prevention		Unit 1 (Dr. R Singh)	
Week 16	Monday	Clinical Posting (P): PE10.4 DrDr R Jain Identify children with under nutrition as per IMNCI criteria and plan referral		Unit 2 (Dr. B Gaur)	
	Tuesday	Clinical Posting (P): PE10.5 Dr N Chitambaram Counsel parents of children with SAM and MAM		Unit 3 (Dr. N Chitambaram)	
	Wednesday	Clinical Posting (P): PE11.3 Dr Rupa Singh Assessment of a child with obesity with regard to eliciting history including physical activity, charting and dietary recall		Unit 1 (Dr. R Singh)	
Week 17	Thursday	Clinical Posting (P): PE11.4 Dr Dr R Jain Examination including calculation of BMI, measurement of waist hip ratio, identifying external markers like acanthosis, striae, pseudogynaecomastia etc		Unit 2 (Dr. B Gaur)	
	Friday	Clinical Posting (P): PE12.17 Dr N Chitambaram Identify the clinical features of Vitamin B complex deficiency		Unit 3 (Dr. N Chitambaram)	
	Saturday	Clinical Posting (P): PE12.18 Dr Rupa Singh Diagnose patients with Vitamin B complex deficiency and plan management		Unit 1 (Dr. R Singh)	
Week 18	Monday	Clinical Posting (P)CM 1.1(Define & describe the concept of public health)		Students are divided into two Groups with Each posting of 4 weeks from 05.05.25 to 31.05.25 and 02.06.25 to 28.06.25	Dr. C Choudhary
	Tuesday	Clinical Posting (P):CM 7.1 (Define Epidemiology and describe and enumerate the principles, concepts and uses)			Dr. C Choudhary
	Wednesday	Clinical Posting (P):CM .4(Define, calculate and interpret morbidity and mortality indicators based on given set of data)			Dr. C Choudhary
	Thursday	Clinical Posting (P)CM :7.5(Enumerate, define, describe and discuss epidemiological study designs),7.6(Enumerate and evaluate the need of screening tests)	Dr. S Singh		
	Friday	Clinical Posting (P)CM :6.1(Formulate a research question for a study),6.2(Describe and discuss the principles and demonstrate the methods of collection, classification, analysis, interpretation and presentation of statistical data)	Dr. S Singh		
	Saturday	Clinical Posting (P):CM :6.3(Describe, discuss and demonstrate the application of elementary statistical methods including test of significance in various study designs)	Dr. S Singh		
	Monday	Clinical Posting (P)CM :6.4(Enumerate, discuss and demonstrate Common sampling techniques, simple statistical methods, frequency distribution, measures of central tendency and dispersion)	Dr. B Watode		
	Tuesday	Clinical Posting (P)CM :3.7(Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures)	Dr. B Watode		
	Wednesday	Clinical Posting (P):CM :3.7(Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures)	Dr. B Watode		
	Thursday	Clinical Posting (P) CM 10.3(Describe local customs and practices during pregnancy, childbirth, lactation and child feeding practices),10.4(Describe the reproductive, maternal, newborn & child health (RMCH); child survival and safe feeding practices),10.4(Describe the reproductive, maternal, newborn & child health (RMCH); child survival and safe feeding practices)	Dr. C Choudhary		
	Friday	Clinical Posting (P) CM 10.3(Describe local customs and practices during pregnancy, childbirth, lactation and child feeding practices),10.4(Describe the reproductive, maternal, newborn & child health (RMCH); child survival and safe feeding practices)	Dr. C Choudhary		
	Week 19	Saturday	Clinical Posting (P):CM 10.7(Enumerate and describe the basis and principles of the Family Welfare Program including the organization, technical and operational aspects),10.8(Describe the physiology, clinical management and principles of the organization, technical and operational aspects),10.8(Describe the physiology, clinical management and principles of the organization, technical and operational aspects)		Dr. C Choudhary
Monday		Clinical Posting (P):CM 10.7(Enumerate and describe the basis and principles of the Family Welfare Program including the organization, technical and operational aspects),10.8(Describe the physiology, clinical management and principles of the organization, technical and operational aspects),10.8(Describe the physiology, clinical management and principles of the organization, technical and operational aspects)	Dr. S Singh		
Tuesday		Clinical Posting (P):CM 10.7(Enumerate and describe the basis and principles of the Family Welfare Program including the organization, technical and operational aspects),10.8(Describe the physiology, clinical management and principles of the organization, technical and operational aspects),10.8(Describe the physiology, clinical management and principles of the organization, technical and operational aspects)	Dr. S Singh		
Wednesday		Clinical Posting (P) : 17.3(Describe health care delivery in India),17.5(Describe health care delivery in India),10.5(Describe Universal Immunization Program)	Dr. S Singh		
Thursday		Clinical Posting (P):CM 14.1(Define and classify hospital waste),14.2(Describe various methods of treatment of hospital waste),14.3(Describe laws related to hospital waste management); CM :3.5(Describe the standards of housing and the effect of housing on health)	Dr. S Reddy		
Friday		Clinical Posting (P):CM 14.1(Define and classify hospital waste),14.2(Describe various methods of treatment of hospital waste),14.3(Describe laws related to hospital waste management); CM :3.5(Describe the standards of housing and the effect of housing on health)	Dr. S Reddy		
Saturday	Clinical Posting (P)CM :8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, etc.)	Dr. S Reddy			

Week 20

Monday	Clinical Posting (P)CM ::8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke,
Tuesday	Clinical Posting (P)CM ::8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke,
Wednesday	Clinical Posting (P)CM ::8.2(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke,
Thursday	Clinical Posting (P)CM :.2.1(Define and describe the concept of Geriatric services),12.2(Describe health problems of aged population),12.3(Describe the prevention of health problems of aged population)
Friday	Clinical Posting (P):CM 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases)
Saturday	Clinical Posting (P):CM 8.1(Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for communicable diseases)

Dr. D Sharma
Dr. D Sharma
Dr. V Ghoshal
Dr. S Singh
Dr. S Singh
Dr. S Singh

Week 21

Monday	Clinical Posting (P): EN 2.1: Elicit and document an appropriate history in a patient presenting with an ENT complaint
Tuesday	Clinical Posting (P): EN 2.2: Present an appropriate history in a patient presenting with an ENT complaint
Wednesday	Clinical Posting (P): EN 2.3: Demonstrate the correct technique of examination of the ear including Otoscopy
Thursday	Clinical Posting (P): EN 2.4: Demonstrate the correct method of performance and interpret tuning fork tests
Friday	Clinical Posting (P): EN 2.5: Demonstrate the correct technique of examination of the nose & paranasal sinuses including the use of nasal speculum
Saturday	Clinical Posting (P):EN 2.6: Demonstrate the correct technique of examining the throat including the use of a tongue depressor; EN 2.10: Identify and describe the use of common instruments used in ENT surgery

Students are divided into two Groups with Each posting of 3 weeks from 30.06.25 to 02.08.25 and 04.08.25 to 23.08.25

Dr. P Chaterji
Dr. Himanshu Kumar
Dr. A Jain
Dr. Himanshu Kumar
Dr. P Chaterji
Dr. Sanu Devi

Week 22

Monday	Clinical Posting (P):EN 2.7: Demonstrate the correct technique of examination of neck including elicitation of laryngeal crepitus
Tuesday	Clinical Posting (P): EN 2.8: Demonstrate the correct technique to perform and interpret pure tone audiogram & impedance audiogram
Wednesday	Clinical Posting (P): EN 2.9: Choose correctly and interpret radiological, microbiological & histological investigations relevant to the ENT disorders
Thursday	Clinical Posting (P):EN 2.10: Identify and describe the use of common instruments used in ENT surgery
Friday	Clinical Posting (P): EN 2.10: Identify and describe the use of common instruments used in ENT surgery
Saturday	Clinical Posting (P): EN 2.10: Identify and describe the use of common instruments used in ENT surgery

Dr. A Jain
Dr. S Kala
Dr. P Chaterji
Dr. S Kala
Dr. Sanu Devi
Dr. A Jain

Week 23

Monday	Clinical Posting (P): EN 2.11: Describe and identify by clinical examination malignant and Premalignant ENT disease
Tuesday	Clinical Posting (P): EN 2.12: Counsel and administer informed consent to patients and their families in a simulated environment; EN 3.6: Observe and describe the indications for and steps involved in the skills of emergency procedures in ear, nose & throat
Wednesday	Clinical Posting (P): EN 2.13: Identify, Resuscitate and manage ENT emergencies in a simulated environment (including tracheostomy, anterior nasal packing, removal of foreign bodies in ear, nose, measles and upper respiratory tract)
Thursday	Clinical Posting (P): EN 2.14: Demonstrate the correct technique to instilling topical medications into the ear, nose and throat in a simulated environment; EN 3.5: Observe and describe the indications for and steps involved in the surgical procedures in ear, nose & throat
Friday	Clinical Posting (P): EN 2.15: Describe the national programs for prevention of deafness, cancer, noise & environmental pollution; EN 3.2: Observe and describe the indications for and steps involved in the performance of diagnostic nasal Endoscopy

Dr. A Bhatnagar
Dr. P Chaterji
Dr. A Bhatnagar
Dr. A Jain
Dr. Himanshu Kumar

Week 24

Saturday	Clinical Posting (P): EN 3.1: Observe and describe the indications for and steps involved in the performance of Otomicroscopic examination in a simulated environment; EN 3.3: Observe and describe the indications for and steps involved in the performance of Rigid/Flexible Laryngoscopy; EN 3.4: Observe and describe the indications for and steps involved in the removal of foreign bodies from ear, nose & throat		Dr. Sanu Devi
Monday	Clinical Posting (P): Eye OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes.		Dr. A Chander
Tuesday	Clinical Posting (P): Eye OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes.		Dr. A Chander
Wednesday	Clinical Posting (P): Eye OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes.		Dr. A Chander
Thursday	Clinical Posting (P): Eye OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes.		Dr. A Chauhan
Friday	Clinical Posting (P): Eye OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes.		Dr. A Chauhan
Saturday	Clinical Posting (P): Eye OP1.3 Demonstrate the steps in performing the visual acuity assessment for distance vision, near vision, colour vision, the pin hole test and the menace and blink reflexes.		Dr. A Chauhan

Second Terminal Exam 07.07.2025 to 19.07.2025

Week 25

Monday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly.	Students are divided into two Groups with Each posting of 3 weeks from 30.06.25 to 02.08.25 and 04.08.25 to 23.08.25	Dr. P S Rastogi
Tuesday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly; OP7.3 Demonstrate the correct technique of ocular examination in a patient with a cataract correctly.		Dr. P S Rastogi
Wednesday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly; OP7.3 Dr. K Agnihotri Demonstrate the correct technique of ocular examination in a patient with a cataract correctly.		Dr. P S Rastogi
Thursday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly.		Dr. K Agnihotri
Friday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly.		Dr. K Agnihotri
Saturday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly.		Dr. K Agnihotri

Week 26

Monday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly; OP7.3 Demonstrate the correct technique of ocular examination in a patient with a cataract correctly	Students are divided into three Groups with Each posting of 3 weeks from 30.06.25 to 02.08.25 and 04.08.25 to 23.08.25	Dr. R Sarkar
Tuesday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly; OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unioocular & Binocular)		Dr. R Sarkar
Wednesday	Clinical Posting (P): Eye OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness; OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unioocular & Binocular)		Dr. R Sarkar
Thursday	Clinical Posting (P): Eye OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness; OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unioocular & Binocular)		Dr. A A Khan
Friday	Clinical Posting (P): Eye OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness		Dr. K Yadav
Saturday	Clinical Posting (P): Eye OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness; OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unioocular & Binocular)		Dr. D K Gangwar
Monday	Clinical Posting (P): OR1.1 Describe and discuss the Principles of pre-hospital care and Casualty management of a trauma victim including principles of triage Dr Amit Saraf	Students are divided into three Groups with Each posting of 3 weeks from 30.06.25 to 02.08.25 and 04.08.25 to 23.08.25	Unit 1 (Dr. A Saraf)

Week 27

Tuesday	Clinical Posting (P):OR1.6 Participate as a member in the team for closed reduction of shoulder dislocation / hip dislocation / knee dislocation, Dr Sudhir Singh	posting of 2 weeks from 25.08.25 to 06.09.25; 08.09.25 to 20.09.25 and 22.09.25 to 04.10.25	Unit 2 (Dr. S Singh)
Wednesday	Clinical Posting (P):OR2.10 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of proximal femur, Dr Manmohan sharma		Unit 3 (Dr. M Sharma)
Thursday	Clinical Posting (P): OR3.2 Participate as a member in team for aspiration of joints under supervision, Dr Sudhir Singh		Unit 2 (Dr. S Singh)
Friday	Clinical Posting (P): OR3.3 Participate as a member in team for procedures like drainage of abscess, sequestrectomy/ saucerisation and arthrotomy , Dr Sandeep Bishnoi		Unit 2 (Dr. S Bishnoi)
Saturday	Clinical Posting (P): OR13.1 Participate in a team for procedures in patients and demonstrating the ability to perform on mannequins / simulated patients in the following: i. Above elbow plaster ii. Below knee plaster iii. Above knee plaster iv. Thomas splint v. splinting for long bone fractures vi. Strapping for shoulder and clavicle trauma, Dr Amit Saraf		Unit 1 (Dr. A Saraf)
Monday	Clinical Posting (P):OR13.2 Participate as a member in team for Resuscitation of Polytrauma victim by doing all of the following : (a) I.V. access central - peripheral (b) Bladder catheterization (c) Endotracheal intubation (d) Splintage, Dr Manmohan Sharma		Unit 3 (Dr. M Sharma)
Tuesday	Clinical Posting (P): OR14.1 Demonstrate the ability to counsel patients regarding prognosis in patients with various orthopedic illnesses like a. fractures with disabilities b. fractures that require prolonged bed stay c. bone tumours d. congenital disabilities, Dr Manmohan Sharma		Unit 3 (Dr. M Sharma)
Wednesday	Clinical Posting (P): OR14.2 Demonstrate the ability to counsel patients to obtain consent for various orthopedic procedures like limb amputation, permanent fixations etc, Dr Sudhir Singh	Unit 2 (Dr. S Singh)	
Thursday	Clinical Posting (P):OR14.3 Demonstrate the ability to convince the patient for referral to a higher centre in various orthopedic illnesses, based on the detection of warning signals and need for sophisticated management, Dr Sandeep Bishnoi	Unit 2 (Dr. S Bishnoi)	
Friday	Clinical Posting (P):AN50.4 Explain the anatomical basis of Scoliosis, Lordosis, Prolapsed disc, Spondylolisthesis & Spina bifida, Dr Amit Saraf	Unit 1 (Dr. A Saraf)	
Saturday	Clinical Posting (P): AN33.1 Classify and describe the etiology, pathogenesis, manifestations, radiologic and morphologic features and complications of osteomyelitis, Dr Sudhir Singh	Unit 2 (Dr. S Singh)	
Monday	Dermatology: Clinical Posting (P):DR 1.1 , 1.3 Acne vulgaris	Students are divided into three Groups with Each posting of 2 weeks from 25.08.25 to 06.09.25; 08.09.25 to 20.09.25 and 22.09.25 to 04.10.25	Dr. Parvathi
Tuesday	Dermatology: Clinical Posting (P): DR 2.2 Vitiligo vulgaris		Dr. Dilip
Wednesday	Dermatology: Clinical Posting (P): DR3.3 Psoriasis		Dr. M R Tilwani
Thursday	Dermatology: Clinical Posting (P): DR 4.2 Lichen planus		Dr. Parvathi
Friday	Dermatology: Clinical Posting (P): DR 5.1, 5.3 Scabies		Dr.R K Singh
Saturday	Dermatology: Clinical Posting (P): DR 6.1 Pediculosis		Dr. Dilip
Monday	Dermatology: Clinical Posting (P):DR 7.1, 7.3 Fungal infections		Dr. Parvathi

Week 28

Week 29

Week 30

Tuesday	Dermatology: Clinical Posting (P): DR 8.1, 8.7 Viral infections		Dr. M R Tilwani
Wednesday	Dermatology: Clinical Posting (P):DR 9. Classify, describe the epidemiology, aetiology, microbiology, pathogenesis, clinical presentations and diagnostic features of Leprosy		Dr. R K Singh
Thursday	Dermatology: Clinical Posting (P): DR 9.4 Enumerate, describe and identify lepra reactions and supportive measures and therapy of lepra reactions		Dr. Dilip
Friday	Dermatology: Clinical Posting (P):DR 9.5, 9.6 Management of leprosy		Dr. Parvathi
Saturday	Dermatology: Clinical Posting (P):DR 9.7 Complications of Leprosy		Dr. M R Tilwani

Diwali Vacations 20.10.2025 to 25.10.2025

Week 31

Monday	Respiratory Medicine: C T 1.8: Generate a differential diagnosis based on the clinical history and evolution of the disease that prioritises the most likely diagnosis	Students are divided into three Groups with Each posting of 2 weeks from 25.08.25 to 06.09.25; 08.09.25 to 20.09.25 and 22.09.25 to 04.10.25	Dr. M Maqusood
Tuesday			Dr. P Nirala
Wednesday			Dr. R S Mishra
Thursday			Dr. Abhishek
Friday			Dr. Anjali
Saturday			Dr. M Maqusood
Monday	Respiratory Medicine: CT 1.6: Demonstrate and perform a systematic examination that establishes the diagnosis based on the clinical presentation that includes a a) general examination, b) examination of the chest and lung including loss of volume, mediastinal shift, percussion and auscultation (including DOAP session of lung sounds and added sounds) c) examination of the lymphatic system and d) relevant CNS examination		Dr. P Nirala
Tuesday			Dr. R S Mishra
Wednesday			Dr. Abhishek
Thursday			Dr. Anjali
Friday			Dr. M Maqusood
Saturday			Dr. P Nirala

Week 32

Monday	Clinical Posting (P): Unit-1 AS2.1- Enumerate the indications, describe the steps and demonstrate in a simulated environment, Basic Life Support in adults, children and neonates; AS2.2- Enumerate the indications, describe the steps and demonstrate in a simulated environment, Advanced Life Support in adults and children; AS7.1- Visit, enumerate and describe the functions of an Intensive Care Unit AS7.3- Observe and describe the management of an unconscious patient	Students are divided into Three Groups with Each posting of 1 week from 06.10.25 to 11.10.25; 13.10.25 to 18.10.25 and 27.10.25 to 01.11.25	Dr. M K Prasad
Tuesday	Clinical Posting (P): Unit-1 AS3.5- Determine the readiness for General Surgery in a patient based on the preoperative evaluation AS3.6- Choose and write a prescription for appropriate premedications for patients undergoing surgery; AS7.4- Observe and describe the basic setup process of a ventilator AS7.5- Observe and describe the principles of monitoring in an ICU		Dr. M K Prasad
Wednesday	Clinical Posting (P): Unit-2-AS4.3- Observe and describe the principles and the practical aspects of induction and maintenance of anesthesia AS4.5- Observe and describe the principles and the steps/ techniques in monitoring patients during anaesthesia; Unit-2- (Prof Pallavi Ahluwalia) AS4.7- Observe and describe the principles and the steps/ techniques involved in anaesthesia outside the operating room		Dr. Pallavi Ahluwalia
Thursday	Clinical Posting (P):Unit-3 AS5.3- Observe and describe the principles and steps/ techniques involved in peripheral nerve blocks AS5.4- Observe and describe the pharmacology and correct use of commonly used drugs and adjuvant agents in regional anaesthesia; AS8.2- Elicit and determine the level, quality and quantity of pain and its tolerance in patient or surrogate AS9.1- Establish intravenous access in a simulated environment		Dr. Pallavi Ahluwalia
Friday	Clinical Posting (P): Unit-3 AS5.5- Observe and describe the principles and steps/ techniques involved in caudal epidural in adults and children AS5.6- Observe and describe the principles and steps/ techniques involved in common blocks used in surgery (including brachial plexus blocks); AS9.2- Establish central venous access in a simulated environment AS9.3- Describe the principles of fluid therapy in the preoperative period; AS10.1- Enumerate the hazards of incorrect patient positioning AS10.2- Enumerate the hazards encountered in the perioperative period and steps/techniques taken to prevent them		Dr. M S Alam

Week 33

Saturday	Clinical Posting (P):Unit-1 AS6.1- Describe the principles of monitoring and resuscitation in the recovery room AS6.2- Observe and enumerate the contents of the crash cart and describe he equipment used in the recovery room		Dr. P Jain
Monday	Clinical Posting (Psychiatry) DOAP session PS1.1Establish rapport and empathy with patients.PS1.3 Demonstrate breaking of bad news in a simulated environment.PS1.4 Describe and demonstrate the importance of confidentiality in patient encounters; PS 9.2 Enumerate, elicit, describe and document clinical features in patients with stress related disorders.PS9.3 Enumerate and describe the indications and interpret laboratory and other tests used in stress related disorders. PS9.5 Demonstrate family education in a patient with stress related disorders in a simulated environment.	Students are divided into Three Groups with Each posting of 1 week from 06.10.25 to 11.10.25; 13.10.25 to 18.10.25 and 27.10.25 to 01.11.25	Dr. S Nagendran
Tuesday	PS3.3 Elicit,present and document a history in patients presenting with a mental disorders.PS3.4 Describe the importance of establishing rapport with patients. P.S3.5 perform, demonstrate and document a minimal examination. PS3.9 Describe the steps and demonstrate in a simulated environment family education in patients with organic psychiatric disorders; PS10.2 Enumerate, elicit, describe and document clinical features in patients with somatoform,dissociative and conversion disorders. PS10.3Enumerate and describe the indications and interpret laboratory and other tests used in somatoform,dissociative and conversion disorders.PS10.5 Demonstrate family describe the pharmacologic basis and side effects of drugs used in somatoform environment		Dr. S Nagendran
Wednesday	PS4.2 Elicit,describe and document clinical features of alcohol and substance use disorders.PS 4.3 Enumerate and describe the indications and other tests used in alcohol and substance abuse disorders PS4.5 Demonstrate family education in a patient with alcohol and substance abuse in a simulated environment. PS5.2 Enumerate, elicit describe and document clinical features, positive skill. PS5.4 Demonstrate family education in a patient with schizophrenia in a simulated environment; PS11.2 Enumerate,elicit,describe and document clinical features in patients with personality disorders.PS11.3 Enumerate and describe the indications and interpret laboratory and other tests used in personality disorders.PS11.5 Demonstrate family education in a patient with personality disorders in a simulated environment		Dr. P Gupta
Thursday	PS6.2 Enumerate,elicit,describe and document clinical features in patients with depression.PS6.3 Enumerate and describe the indications and interpret laboratory and other tests used in depression.PS6.5 Demonstrate family education in a patient with depression in a simulated environment; PS12.2 Enumerate,elicit,describe and document clinical features in patients with magnitude and etiology of psychosomatic disorders.PS12.3 Enumerate and describe the indications and interpret laboratory and other tests of psychosomatic disorders.PS12.5 Demonstrate family education in a patientwith psychosomatic disorders in a simulated		Dr. P Gupta
Friday	PS7.2 Enumerate, elicit,describe and document clinical features in patients with bipolar disorders. PS7.3 Enumerate and describe the indications and interpret laboratory and other tests used in bipolar disorders. PS7.5 Demonstrate family education in a patient with bipolar disorders in a simulated environment; PS13.2 Enumerate,elicit,describe and documentclinical features in patients with magnitude and etiology of psychosexual and gender identity disorders. P.S13.3Enumerate and describe the indications and interpret laboratory and other tests used in psychosexual and gender identity disorders.PS13.5 Demonstrate family education in a patient with psychosexual and gender identity disorders in a simulated environment.		Dr. M Tyagi
Saturday	PS8.2 Enumerate,elicit,describe and document clinical features in patients with anxiety disorders.PS8.3 Enumerate and describe the describe the indications and interpret laboratory and other tests used in anxiety disorders. PS8.5 Demonstrate family education in a patient with anxiety disorders in a simulated environment; PS14.2 Enumerate,elicit,describe and document clinical features in patients with psychiatric disorders occurring in childhood and adolescence.PS14.4 Demonstrate family education in a patient with psychiatric disorders occurring in childhood and adolescence in a simulated environment.PS15.3 Elicit and document a history and clinical examination and choose appropriate investigations in a patient with mental retradation.PS16.4 Demonstrate family education in a patient with psychiatric disorders occurring in the elderly in a simulated environment.		Dr. M Tyagi
Monday	RD 1.1: Understand various aspects of radioactivity & Radiation & its interaction with matter		Students are divided into Three Groups with Each posting of 1 week from 06.10.25 to 11.10.25; 13.10.25 to 18.10.25 and 27.10.25 to 01.11.25
Tuesday	R.D 1.2: Understand evolution pattern of Radiodiagnosis & principles of various modern imaging tools	Dr. R Rastogi	

Week 35

Wednesday	RD 1.3: Understand various imaging techniques employed in various ENT conditions their radiological features		
Thursday	RD 1.4: USG applications in the diagnosis & management of pregnancy		Dr S Chandak
Friday	RD 1.5: Radiological techniques used in diagnosis of various neurological conditions including spine		Dr. A Agarwal
Saturday	RD 1.6: Radiological techniques used in diagnosis of various Urogenital conditions & their radiological features; RD 1.7: Radiological techniques employed in diagnosis of common paediatric disease & their radiological features and Ward Relieving		Dr. A Malhotra
			Dr. S Kumar
