

Teerthanker Mahaveer Medical College & Research Center						
Teerthanker Mahaveer University						
Delhi Road, Moradabad - 244001						
Time Table Schedule (Consolidated as per New Curriculum w.e.f AUGUST 2019) w.e.f. 03.03.2025						
Day/Time	8:00-9:00 am	9:00-10:00 am	10:00 am - 1:00 pm	1:00-2:00pm	2:00-3:00pm	3:00-4:00pm
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Pediatrics - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)
Tuesday	Orthopedics - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	
Wednesday	Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Orthopedics - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)
Friday	Pediatrics - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)
Saturday	AETCOM Session	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Integration as Decided by ATTO
			Clinical Posting - 8 + 4 weeks in General Medicine; General Surgery, Obstetrics & Gynecology; and 2 weeks in Orthopedics, Pediatrics, Ophthalmology, ENT, and Dermatology		Saturday 3-4 pm: 1st Week Pediatrics, 2nd Week OBG, 3rd Week Surgery, 4th Week Medicine	
SGT - Small Group Teaching Includes: Tutorials, Seminars, Integrated Learning; SDL - Self Directed Learning; L - Lecture; P - Practical						
AETCOM - 1st Saturday - Medicine; 2nd Saturday - Surgery; 3rd Saturday - OBG; 4th Saturday - Pediatrics. Module 4.1 & 4.3 - Medicine; Module 4.4, 4.5 & 4.6 - Surgery; Module 4.2, 4.7 & 4.8 - OBG; and Module 4.9 - Pediatrics						

Electives to be held in Preclinical and Paraclinical (2 weeks) + Clinical (2 weeks) from 03.02.2025; 1 weeks Holi Vacation (10.03.25-15.03.25), 1 week Diwali Vacation (20.10.25-25.10.25), 3 weeks for First Internal (23.06.25-12.07.25) and 2nd Internal (03.11.25-22.11.25); Preuniversity Exam in Mar 2026 23.03.26) end and University Exam in April 2026

Electives Week 1

Day/Time	8:00-9:00 am	9:00-10:00 am	10:00 am - 1:00 pm	1:00-2:00pm	2:00-3:00pm	3:00-4:00pm	Date
Monday	Electives		IM9.3- Elicit document and present a medical history that includes symptoms, risk factors including GI bleeding, prior history, medications, menstrual history, and family history -		Electives		03.02.25
Tuesday			IM9.4- Perform a systematic examination that includes: general examination for pallor, oral examination, DOAP session of hyperdynamic circulation, lymph node				04.02.25
Wednesday			IM9.5- Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology - Unit 1 (Dr. V K Singh)				05.02.25
Thursday			IM9.6- Describe the appropriate diagnostic work up based on the presumed aetiology - Unit 1 (Dr. V K Singh)				06.02.25
Friday			IM9.9- Order and interpret tests for anaemia including hemogram, red cell indices, reticulocyte count, iron studies, B12 and folate - Unit 1 (Dr. V K Singh)				07.02.25
Saturday			IM9.10- Describe, perform and interpret a peripheral smear and stool occult blood - Unit 2 (Dr. V K Singh)				08.02.25
Monday	Electives		IM9.13- Prescribe replacement therapy with iron, B12, folate - Unit 2		Electives		10.02.25

Electives Week 2	Tuesday		IM9.15- Communicate the diagnosis and the treatment appropriately to patients - Unit 2 (Dr. Vishvanayak)		11.02.25
	Wednesday		IM9.16- Incorporate patient preferences in the management of anaemia - Unit 2 (Dr. Vishvanayak)		12.02.25
	Thursday		IM9.19- Assist a blood transfusion Unit 2 (Dr. Vishvanayak)		13.02.25
	Friday		IM9.20- Communicate and counsel patients with methods to prevent nutritional anaemia - Unit 3 (Dr. K		14.02.25
	Saturday		IM10.12- Elicit document and present a medical history that will differentiate the etiologies of disease,distinguish acute and chronic disease,identify predisposing conditions, nephrotoxic drugs and systemic causes Unit 3 (Dr. K Gopal)		15.02.25
	Monday	Electives		IM10.13- Perform a systemic examination that establishes the diagnosis and severity including determining of volume status, presence of edema and heart failure,features of uremia and associated systemic disease. Unit 3 (Dr. K Gopal)	Electives
Electives Week 3	Tuesday		IM10.14- Generate a differential diagnosis and prioritise based on clinical features that suggest specific etiology Unit 3 (Dr. K Gopal)		18.02.25
	Wednesday		IM10.18- Identify the ECG findings in Hyperkalemia. Unit 3 (Dr. K Gopal)		19.02.25
	Thursday		IM10.19- Enumerate the indications and describe the findings in renal ultrasound. - Unit 4 (Dr. J Haria)		20.02.25
	Friday		IM10.20- Describe and discuss the indications to perform arterial blood gas analysis: interpret the data - Unit 4 (Dr. J Haria)		21.02.25
	Saturday		IM10.21- Describe and discuss the indications for and insert a peripheral intravenous catheter - Unit 4 (Dr. J Haria)		22.02.25
	Monday	Electives		IM10.22- Describe and discuss the indications, demonstrate in a model and assist in the insertion of a central venous or a dialysis catheter - Unit 4 (Dr. J Haria)	Electives
Electives Week 4	Tuesday		IM10.23- Communicate diagnosis treatment plan and subsequent followup to patients - Unit 4 (Dr. J Haria)		25.02.25
	Wednesday		IM10.24- Counsel patients on renal diet - Unit 5 (Dr. A Kumar)		26.02.25
	Thursday		IM11.7- Elicit document and present a medical history that will differentiate the aetiologies of diabetes including risk factors, precipitating factors, lifestyle, nutritional history, family history, medication history, co-morbidities and target organ disease - Unit 5 (Dr. A Kumar)		27.02.25

Friday			IM11.8- Perform a systematic examination that establishes the diagnosis and severity that includes skin, peripheral pulses, blood pressure measurement, fundus examination, detailed examination of the foot (pulses, nervous and deformities and injuries) - Unit 5 (Dr. A Kumar)				28.02.25
Saturday			IM11.9- Describe and recognise the clinical features of patients who present with a diabetic emergency - Unit 5 (Dr. A Kumar)				01.03.25

Week 1

Day/Time	8:00-9:00 am	9:00-10:00 am	10:00 am - 1:00 pm	1:00-2:00pm	2:00-3:00pm	3:00-4:00pm	
Monday	SU 24.3.1 At the end of session phase 3 part 2 student must be able to Discuss the principles of investigations in a patient of Pancreatic disorders.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 4.1 Describe and discuss the basic embryology of fetus, factors influencing fetal growth and development, anatomy and physiology of placenta, and teratogenesis	IM11.10- Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology - Unit 1 (Dr. V K Singh)		IM01.5: Clinical recognition of heart failure types (Tutorial)	PE28.14 Develop a treatment plan and document appropriately in a child with upper respiratory symptoms PE28.15 Stratify risk in children with stridor using IMNCI guideline	03.03.25
Tuesday	OR.1.1 Describe and discuss the Principles of pre hospital care and casualty management of trauma victim including principles of triage.	IM3.1 Define, discuss, describe and distinguish community acquired pneumonia, nosocomial pneumonia and aspiration pneumonia	IM11.11- Order and interpret laboratory tests to diagnose diabetes and its complications including: glucoses, glucose tolerance test, glycosylated hemoglobin, urinary micro albumin, ECG, electrolytes, ABG, ketones, renal function tests and lipid profile - Unit 1 (Dr. V K Singh)		Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 4.1 Describe and discuss the basic embryology of fetus, factors influencing fetal growth and development, anatomy and physiology of placenta, and teratogenesis		04.03.25
Wednesday	IM7.1 Describe the pathophysiology of autoimmune disease	SU25.2.5 At the end of session phase 3 part 2 student must be able to Describe the symptoms and signs breast infections.	IM11.12- Perform and interpret a capillary blood glucose test - Unit 1 (Dr. V K Singh)		IM01.3: Rheumatic Fever : pathogenesis, clinical features (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2) : 4.9: Demonstrate the correct technique for	05.03.25
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 5.1 :Describe, discuss and identify pre-existing medical disorders and discuss their management; discuss evidence-based intrapartum care	IM9.1- Define, describe and classify anaemia based on red blood cell size and reticulocyte count	IM11.12- Perform and interpret a capillary blood glucose test - Unit 1 (Dr. V K Singh)		SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent	OR.1.2 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of shock.	06.03.25
Friday	PE28.6 Discuss the etio-pathogenesis, clinical features and management of Acute laryngo-trachea-bronchitis PE28.7 Discuss the etiology, clinical features and management of Stridor in children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 5.1 :Describe, discuss and identify pre-existing medical disorders and discuss their management; discuss evidence-based intrapartum care	IM11.13- Perform and interpret a urinary ketone estimation with a dipstick		SU25.5.1 At the end of session phase 3 part 2 student must be able to Demonstrate the correct technique to palpate the breast for a breast lump in a mannequin or equivalent.	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP3.4 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of trachoma.	07.03.25
Saturday	AETCOM Session: Module 4.1: The foundations of communication - 5	SU25.2.6 At the end of session phase 3 part 2 student must be able to Describe the symptoms and signs of breast infections.	IM11.14- Recognise the presentation of hypoglycaemia and outline the principles on its therapy - Unit 1 (Dr. V K Singh)		Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 5.1 :Describe, discuss and identify pre-existing medical disorders and discuss their management; discuss evidence-based intrapartum care	Integration Teaching as Decided by AITto: CM8.2: Describe and discuss the epidemiological and control measures including the use of essential laboratory tests at the primary care level for Non Communicable diseases (diabetes, Hypertension, Stroke, obesity.); IM 11.5: Describe and discuss the pathogenesis and temporal evolution of microvascular and macrovascular complications of diabetes	08.03.25
Holi Vacations 10.03.25-15.03.25							
Monday	SU 24.3.2 At the end of session phase 3 part 2 student must be able to Discuss the plan of management in a patient of Pancreatic disorders	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 5.2Determine maternal high risk factors and verify immunization status	IM11.15- Recognise the presentation of diabetic emergencies and outline the principles of therapy - Unit 1 (Dr. V K Singh)		IM02.6: approach to a patient of CAD/IHD (Tutorial)	PE28.19 Describe the etio-pathogenesis, diagnosis, clinical features, management and prevention of asthma in children PE28.20 Counsel the child with asthma on the correct use of inhalers in a simulated environment	17.03.25

Week 2

Tuesday	OR. 1.3 Describe and discuss the aetiopathogenesis, Clinical features, investigations and principles of management of soft tissue injuries.	IM 3.2 Discuss and describe the aetiologies of various kinds of pneumonia and their microbiology depending on the setting and immune status of the host	IM11.16- Discuss and describe the pharmacologic therapies for diabetes their indications, contraindications, adverse reactions and interactions - Unit 1 (Dr. V K Singh)
Wednesday	IM7.2 Describe the genetic basis of autoimmune disease	SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast.	IM11.17- Outline a therapeutic approach to therapy of T2Diabetes based on presentation, severity and complications in a cost effective manner - Unit 1 (Dr. V K Singh)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.7.1 Describe and discuss the changes in the genital tract, cardiovascular system, respiratory, haematology, renal and gastrointestinal system in pregnancy	IM9.2- Describe and discuss the morphological characteristics, aetiology and prevalence of each of the causes of anaemia	IM11.17- Outline a therapeutic approach to therapy of T2Diabetes based on presentation, severity and complications in a cost effective manner - Unit 1 (Dr. V K Singh)
Friday	PE28.18 Describe the etiopathogenesis, diagnosis, clinical features, management and prevention of lower respiratory infections including bronchiolitis, wheeze associated LRTI Pneumonia and empyema; PE31.5 Discuss the etiopathogenesis, clinical types, presentations, management and prevention of childhood Asthma	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.7.1 Describe and discuss the changes in the genital tract, cardiovascular system, respiratory, haematology, renal and gastrointestinal system in pregnancy	IM11.19- Demonstrate and counsel patients on the correct technique to administer insulin - Unit 1 (Dr. V K Singh)
Saturday	AETCOM Session: Module 4.5: Case studies in ethics: the doctor-industry relationship	SU25.3.1 At the end of session phase 3 part 2 student must be able to Discuss the etiopathogenesis of benign tumors of the breast.	IM11.20- Demonstrate to and counsel patients correct technique on the of self-monitoring of blood glucoses - Unit 1 (Dr. V K Singh)
Monday	SU 25.1 Describe applied anatomy and appropriate investigations for breast disease.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.6 Assess and counsel a patient in a simulated environment regarding appropriate nutrition in pregnancy	IM11.21- Recognise the importance of patient preference while selecting therapy for diabetes - Unit 1 (Dr. V K Singh)
Tuesday	OR 1.5 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of dislocation of major joints, shoulder, knee, hip	IM 3.3 Discuss and describe the pathogenesis, presentation, natural history and complications of pneumonia	IM12.5- Elicit document and present an appropriate history that will establish the diagnosis cause of thyroid dysfunction and its severity - Unit 1 (Dr. V K Singh)
Wednesday	IM7.3 Classify cause of joint pain based on the pathophysiology	SU25.3.2 At the end of session phase 3 part 2 student must be able to Discuss the clinical features of benign tumors of the breast	IM12.6- Perform and demonstrate a systematic examination based on the history that will help establish the diagnosis and severity including systemic signs of thyrotoxicosis and hypothyroidism, palpation of the pulse for rate and rhythm abnormalities, neck palpation of the
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.1 Enumerate, describe and discuss the objectives of antenatal care, assessment of period of gestation; screening for high-risk factors.	IM9.7- Describe and discuss the meaning and utility of various components of the hemogram	IM12.7- Demonstrate the correct technique to palpate the thyroid - Unit 1 (Dr. V K Singh); IM12.8- Generate a differential diagnosis based on the clinical presentation and prioritise it based on the most likely diagnosis - Unit 1 (Dr. V K Singh)

Week 3

Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 6.1 Describe, discuss and demonstrate the clinical features of pregnancy, derive and discuss its differential diagnosis, elaborate the principles underlying and interpret pregnancy tests.		18.03.25
IM01.6: Heart failure Pathogenesis (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); EN 4.4: Demonstrate the correct technique to hold visualize and assess the mobility of the tympanic membrane and interpret and	19.03.25
SU27.2.2 At the end of session, phase 3 part 2 schedule must be able to enumerate the clinical examination for vascular disorders.	OR.1.4 Describe and discuss the Principles of Management of Soft Tissue Injuries.	20.03.25
SU27.2.6 At the end of session, phase 3 part 2 schedule must be able to demonstrate the examination of arterial disease.	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP7.6 Administer informed consent and counsel patients for cataract surgery in a simulated environment.	21.03.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.7.1 Describe and discuss the changes in the genital tract, cardiovascular system, respiratory, haematology, renal and gastrointestinal system in pregnancy	Integration: IM11.7: Elicit document and present a medical history that will differentiate the aetiologies of diabetes including risk factors, precipitating factors, lifestyle, nutritional history, family history, medication history, co-morbidities and target organ disease; BI 17.7: Describe the role of oxidative stress in the pathogenesis of conditions such as cancer, complications of diabetes mellitus and atherosclerosis	22.03.25
IM3.19: Adult Vaccination : Influenza, Pneococcal vaccine (Tutorial)	PE28.18 Describe the etio-pathogenesis, diagnosis, clinical features, management and prevention of lower respiratory infections including bronchiolitis, wheeze associated LRTI Pneumonia and empyema PE31.6 Recognise symptoms and signs of Asthma PE31.7 Develop a treatment plan for Asthma appropriate to clinical presentation & severity PE31.11 Observe administration of Nebulisation	24.03.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.1 Enumerate, describe and discuss the objectives of antenatal care, assessment of period of gestation; screening for high-risk factors.		25.03.25
IM01.9: Rheumatic Fever : Diagnosis, treatment, prophylaxis (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): 4.9: Demonstrate the correct technique for syringing wax from the ear in a simulated environment; Tutorial/EN 4.16: Observe and describe the indications for and steps involved in the performance of pure tone audiometry	26.03.25
SU27.5 Describe the applied anatomy of venous system of lower limb; SU27.5.3 At the end of session, phase 3 part 2 schedule must be able to describe the level of perforation in lower limb.	OR 1.6 Participate as a member in the team for closed reduction of Shoulder dislocation/ hip dislocation/ knee dislocation.	27.03.25

Friday	<b>PE28.18</b> Describe the etio-pathogenesis, diagnosis, clinical features, management and prevention of lower respiratory infections including bronchiolitis, wheeze associated LRTI Pneumonia and empyema; PE31.5 Discuss the etio-pathogenesis, clinical types, presentations, management and prevention of childhood Asthma	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.7.1 Describe and discuss the changes in the genital tract, cardiovascular system, respiratory, haematology, renal and gastrointestinal system in pregnancy	IM11.19- Demonstrate and counsel patients on the correct technique to administer insulin - Unit 1 (Dr. V K Singh)	SU27.2.6 At the end of session, phase 3 part 2 schedule must be able to demonstrate the examination of arterial disease.	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP.3.5 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of vernal catarrh	28.03.25
Saturday	AETCOM Session: Module 4.7: Case studies in ethics and patient autonomy	SU25.3.3 At the end of session phase 3 part 2 student must be able to Discuss the etio-pathogenesis of malignant tumors of the breast; SU 25.1.1 At the end of session phase 3 part 2 student must be able to Discuss the Applied anatomy of breast	IM12.9- Order and interpret diagnostic testing based on the clinical diagnosis including CBC, thyroid function tests and ECG and radio iodine uptake and scan - Unit 1 (Dr. V K Singh); IM12.10- Identify atrial fibrillation, pericardial effusion and bradycardia on ECG - Unit 2 (Dr. Vishvanayak)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.2 Elicit document and present an obstetric history including menstrual history, last menstrual period, previous obstetric history, comorbid conditions, past medical history and surgical history	Integration: IM 11.21 Recognise the importance of patient preference while selecting therapy for diabetes; B18.3 Provide dietary advice for optimal health in childhood and adult, in disease conditions like diabetes mellitus, coronary artery disease and in pregnancy.	29.03.25
Monday	Holiday					
Tuesday	OR2.1 Describe and discuss the , mechanism of injury, clinical features, investigations and principles of management of fractures of Clavicle	IM 3.15 Describe and enumerate the indications for hospitalisation in patients with pneumonia	IM12.11- Interpret thyroid function tests in hypo and hyperthyroidism Unit 2 (Dr. Vishvanayak)	Holiday		31.03.25
Wednesday	IM7.4 Develop a systematic clinical approach to joint pain based on the pathophysiology	SU253.4 At the end of session phase 3 part 2 student must be able to Discuss the clinical features of malignant tumors of the breast	IM12.14- Write and communicate to the patient appropriately a prescription for thyroxine based on age, sex, and clinical and biochemical status Unit 2 (Dr. Vishvanayak)	<b>IM01.21: Infective endocarditis (Seminar); IM05.1: Approach to Hyperbilirubinemia/ interpretation of LFT (Tutorial)</b>	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 4.5: Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of OME	01.04.25
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.3 Describe, demonstrate, document and perform an obstetrical examination including a general and abdominal examination and clinical monitoring of maternal and fetal well-being;	IM9.8 - Describe and discuss the various tests for iron deficiency	IM12.15- Describe and discuss the indications of thionamide therapy, radio iodine therapy and surgery in the management of thyrotoxicosis Unit 2 (Dr. Vishvanayak)	SU27.6.10 At the end of session , phase 3 part 2 schedule must be able to describe the examination of lower limb for varicose veins.	OR 2.2 Describe and discuss the, mechanism of injury, clinical features, investigations and plan management of fractures of proximal humerus; OR 2.4 Describe and discuss the mechanism of injury, clinical features, Investigation and principles of management of fracture of shaft humerus and intercondylar fracture humerus with emphasis on neurovascular deficit; OR 2.3 Select , prescribe and communicate appropriate	02.04.25
Friday	<b>PE29.1</b> Discuss the etio-pathogenesis, clinical features, classification and approach to a child with anaemia	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.4 Describe and demonstrate clinical monitoring of maternal and fetal well-being	IM13.7- Elicit document and present a history that will help establish the aetiology of cancer and includes the appropriate risk factors, duration and evolution Unit 2 (Dr. Vishvanayak)	SU27.7.8 Demonstrate the correct examination of the lymphatic system; SU27.8.4 At the end of session , phase 3 part 2 schedule must be able to demonstrate the examination of lymphatic disorder	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP.7.6 Administer informed consent and counsel patients for cataract surgery in a simulated environment.	03.04.25
Saturday	AETCOM Session: Module 4.1: The foundations of communication - 5	SU25.3.5 At the end of session phase 3 part 2 student must be able to Discuss what investigations should be done in patients of suspected benign tumor of the breast.	IM13.8- Perform and demonstrate a physical examination that includes an appropriate general and local examination that excludes the diagnosis, extent spread and complications of cancer Unit 2 (Dr. Vishvanayak)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.4 Describe and demonstrate clinical monitoring of maternal and fetal well-being	Integration: IM 11.18: Describe and discuss the pharmacology, indications, adverse reactions and interactions of drugs used in the prevention and treatment of target organ damage and complications of Type II Diabetes including neuropathy, nephropathy, retinopathy, hypertension, dyslipidemia and cardiovascular disease; PA 32.4 Classify and describe the epidemiology, etiology, pathogenesis, pathology, clinical laboratory features, complications and progression of diabetes mellitus	04.04.25
Monday	SU25.1.2 At the end of session phase 3 part 2 student must be able to Discuss the investigations which need to be done in a patient of breast disease.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.4 Describe and demonstrate clinical monitoring of maternal and fetal well-being; O.G. 8.5. Describe and demonstrate pelvic assessment in a model	IM13.9- Demonstrate in a mannequin the correct technique for performing breast exam, rectal examination and cervical examination and pap smear Unit 2 (Dr. Vishvanayak); IM13.10- Generate a differential diagnosis based on the presenting symptoms and clinical features and prioritise based on the most likely diagnosis Unit 2 (Dr. Vishvanayak)	<b>IM06.12: Chest Xray Interpretation/ABG Analysis (Tutorial); IM 3.16 Describe and enumerate the indications for isolation and barrier nursing in patients with pneumonia</b>	<b>PE21.9</b> Identify external markers for Kidney disease, like Failing to thrive, hypertension, pallor, Icthyosis, anasarca <b>PE21.10</b> Analyse symptom and interpret the physical findings and arrive at an appropriate provisional / differential diagnosis; PE29.14 Interpret CBC, LFT PE29.15 Perform and interpret peripheral smear	05.04.25
						07.04.25

Week 5

Tuesday	OR2.1 Describe and discuss the , mechanism of injury, clinical features, investigations and principles of management of fractures of Clavicle	IM 3.15 Describe and enumerate the indications for hospitalisation in patients with pneumonia	IM12.11- Interpret thyroid function tests in hypo and hyperthyroidism Unit 2 (Dr. Vishvanayak)
Wednesday	IM7.4 Develop a systematic clinical approach to joint pain based on the pathophysiology; IM9.11- Describe the indications and interpret the results of a bone marrow aspirations and biopsy	SU25.3.6 At the end of session phase 3 part 2 student must be able to Discuss what investigations should be done in patients of suspected malignant tumor of the breast	IM13.11- Order and interpret diagnostic testing based on the clinical diagnosis including CBC and stool occult blood and prostate specific antigen Unit 2 (Dr. Vishvanayak); IM13.12- Describe the indications
Thursday	Holiday		
Friday	PE29.3 Discuss the etiopathogenesis, clinical features and management of VIT B12, Folate deficiency anaemia	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.6 Assess and counsel a patient in a simulated environment regarding appropriate nutrition	IM9.13- Describe and assess pain and suffering objectively in a patient with cancer Unit 2 (Dr. Vishvanayak)
Saturday	AETCOM Session: Module 4.3: Case studies in medico-legal and ethical situations	SU25.4 Counsel the patient and obtain informed consent for treatment of malignant conditions of the breast.	IM13.14- Describe the indications for surgery, radiation and chemotherapy for malignancies Unit 2 (Dr. Vishvanayak)
Monday	SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 9.1 Classify, define and discuss the aetiology and management of abortions including threatened, incomplete, inevitable, missed and septic	IM13.15- Describe the need, tests involved, their utility in the prevention of common malignancies Unit 2 (Dr. Vishvanayak)
Tuesday	OR 2.5 Describe and discuss the aetiopathogenesis, clinical features, mechanism of injury Investigation and principles of management of fracture of both bone forearm and Galeazzi and Monteggia injury	IM 3.17- Describe and discuss the supportive therapy in patients with pneumonia including oxygen use and indications for ventilation	IM13.16- Demonstrate an understanding and needs and preferences of patients when choosing curative and palliative therapy Unit 2 (Dr. Vishvanayak)
Wednesday	IM7.4 Develop a systematic clinical approach to joint pain based on the pathophysiology	SU25.4.1 At the end of session phase 3 part 2 student must be able to Discuss the prognosis after modern surgical treatment of carcinoma of the breast.	IM13.17- Describe and enumerate the indications, use, side effects of narcotics in pain alleviation in patients with cancer Unit 2 (Dr. Vishvanayak)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 9.1 Classify, define and discuss the aetiology and management of abortions including threatened, incomplete, inevitable, missed and septic	IM9.12- Describe, develop a diagnostic plan to determine the aetiology of anaemia	IM13.18- Describe and discuss the ethical and the medico legal issues involved in end of life care - Unit 3 (Dr. K Gopal)
Friday	PE29.4 Discuss the etiopathogenesis, clinical features and management of Hemolytic anaemia, Thalassemia Major, Sickle cell anaemia, Hereditary spherocytosis, Auto-immune hemolytic anaemia and hemolytic uremic syndrome	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 9.2 Describe the steps and observe/ assist in the performance of an MTP evacuation; O.G.9.3 Discuss the aetiology, clinical features, differential diagnosis of acute abdomen in early pregnancy (with a focus on ectopic pregnancy) and enumerate the principles of medical and surgical management	IM13.19- Describe the therapies used in alleviating suffering in patients at the end of life - Unit 3 (Dr. K Gopal); IM14.6- Elicit and document and present an appropriate history that includes the natural history, dietary history, modifiable risk factors, family history, clues for secondary causes and motivation to lose weight - Unit 3 (Dr. K Gopal)

Week 6

Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.2 Elicit document and present an obstetric history including menstrual history, last menstrual period, previous obstetric history, comorbid conditions, past medical history and surgical history		08.04.25
IM01.24: drugs treatment of heart failure (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 4.17: Enumerate the indications and interpret the results of an audiogram	09.04.25
Holiday		10.04.25
SU27.8.5 At the end of session , phase 3 part 2 schedule must be able to demonstrate the examination of different groups of lymph nodes.	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP3.6 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of	11.04.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.8 Enumerate the indications and describe the investigations including the use of ultrasound in the initial assessment and monitoring in pregnancy	Integration: IM11.8 Perform a systematic examination that establishes the diagnosis and severity that includes skin, peripheral pulses, blood pressure measurement, fundus examination, detailed examination of the foot (pulses, nervous and deformities and injuries); PH1.36 Describe the mechanism of action, types, doses, side effects, indications and contraindications of drugs used in endocrine disorders (diabetes mellitus)	12.04.25
IM08.5: Clinical approach to recognise Secondary Hypertension (Tutorial)	PE21.14 Recognize common surgical conditions of the abdomen and genitourinary system and enumerate the indications for referral including acute and subacute intestinal obstruction, appendicitis, pancreatitis, perforation intussusception, Phimosi, undescended testis, Chordee, hypospadias, Torsion testis, hernia Hydrocele, Vulval Synechiae	14.04.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 9.2 Describe the steps and observe/ assist in the performance of an MTP evacuation		15.04.25
IM3.3: Community Acquired Pneumonia (Seminar); IM4.7: Sepsis (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 4.7: Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of CSOM	16.04.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU25.4.1 At the end of session phase 3 part 2 student must be able to Discuss the prognosis after modern surgical treatment of carcinoma of the breast.	OR 2.6 Describe and discuss Etiopathogenesis, mechanism of injury, clinical feature, investigation and principles of management of fracture of distal radius	17.04.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU25.4.1 At the end of session phase 3 part 2 student must be able to Discuss the prognosis after modern surgical treatment of carcinoma of the breast; SU25.4.2 At the end of session phase 3 part 2 student must be able to Counsel a patient of Ca. breast about her disease and convince her that	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP7.5 To participate in the team of cataract surgery	18.04.25

Saturday	AETCOM Session: Module 4.3: Case studies in medico-legal and ethical situations	SU25.4 Counsel the patient and obtain informed consent for treatment of malignant conditions of the breast.	IM13.19- Describe the therapies used in alleviating suffering in patients at the end of life - Unit 3 (Dr. K Gopal); IM14.6- Elicit and document and present an appropriate history that includes the natural history, dietary history, modifiable risk factors, family history, clues for secondary causes and motivation to lose weight - Unit 3 (Dr. K Gopal)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 8.8 Enumerate the indications and describe the investigations including the use of ultrasound in the initial assessment and monitoring in pregnancy	Integration: IM11.8 Perform a systematic examination that establishes the diagnosis and severity that includes skin, peripheral pulses, blood pressure measurement, fundus examination, detailed examination of the foot (pulses, nervous and deformities and injuries); PH1.36 Describe the mechanism of action, types, doses, side effects, indications and contraindications of drugs used in endocrine disorders (diabetes mellitus)	19.04.25
Monday	SU25.2.1 At the end of session phase 3 part 2 student must be able to Discuss the etio-pathogenesis of benign breast diseases; SU25.4.3 At the end of session phase 3 part 2 student must be able to Obtain an informed consent from this patient for surgical treatment of her disease.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.9.3 Discuss the aetiology, clinical features, differential diagnosis of acute abdomen in early pregnancy (with a focus on ectopic pregnancy) and enumerate the principles of medical and surgical management	IM 14.7- Perform, document and demonstrate a physical examination based on the history that includes general examination, measurement of abdominal obesity, signs of secondary causes and co-morbidities - Unit 3 (Dr. K Gopal)	<b>IM9.7: How to interpret A Hemogram (Tutorial)</b>	<b>PE23.7</b> Elicit appropriate history for a cardiac disease, analyse the symptoms e.g. breathlessness, chest pain, tachycardia, feeding difficulty, failing to thrive, reduced urinary output, swelling, syncope, cyanotic spells, Suck rest cycle, frontal swelling in infants. <b>PE23.8</b> Identify external markers of a cardiac disease e.g. Cyanosis, Clubbing, dependent edema, dental caries, arthritis, erythema rash, chorea, subcutaneous nodules, Oslers node, Janeway lesions and document	21.04.25
Tuesday	OR 2.7 Describe and discuss the Etiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of pelvic injury with emphasis on hemodynamic instability	IM 3.19- Discuss, describe, enumerate the indications and communicate to patients on pneumococcal and influenza vaccines; IM7.5 Describe and discriminate acute, subacute and chronic causes of joint pain	IM 14.8- Generate a differential diagnosis based on the presenting symptoms and clinical features and prioritise based on the most likely diagnosis - Unit 3 (Dr. K Gopal); IM 14.9- Order and interpret diagnostic tests based on the clinical diagnosis.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.9.3 Discuss the aetiology, clinical features, differential diagnosis of acute abdomen in early pregnancy (with a focus on ectopic pregnancy) and enumerate the principles of medical and surgical management		22.04.25
Wednesday	IM7.4 Develop a systematic clinical approach to joint pain based on the pathophysiology	SU25.4.1 At the end of session phase 3 part 2 student must be able to Discuss the prognosis after modern surgical treatment of carcinoma of the breast.	IM13.17- Describe and enumerate the indications, use, side effects of narcotics in pain alleviation in patients with cancer Unit 2 (Dr. Vishvanayak)	<b>IM3.3: Community Acquired Pneumonia (Seminar); IM4.7: Sepsis (Seminar)</b>	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): 4.44: Describe the clinical features, investigations and principles of management of Benign lesions of the vocal cord	23.04.25
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 9.4 Discuss the clinical features, laboratory investigations, ultrasonography, differential diagnosis, principles of management and follow up of gestational Trophoblastic neoplasms.	IM9.14- Describe the national programs for anaemia prevention	IM14.10- Describe the indications and interpret the results of tests for secondary causes of obesity - Unit 3 (Dr. K Gopal)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU25.4.2 At the end of session phase 3 part 2 student must be able to Counsel a patient of Ca. breast about her disease and convince her that surgical treatment of her disease will give her the best chances of survival	OR 2.8 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, Investigations and principles of management of spine injuries with emphasis on mobilization of the patient.	24.04.25
Friday	<b>PE29.6</b> Discuss the cause of thrombocytopenia in children: describe the clinical features and management of Idiopathic Thrombocytopenic Purpura (ITP)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 9.4 Discuss the clinical features, laboratory investigations, ultrasonography, differential diagnosis, principles of management and follow up of gestational Trophoblastic neoplasms	IM14.11- Communicate and counsel patient on behavioural, dietary and lifestyle modifications - Unit 3 (Dr. K Gopal)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU25.4.3 At the end of session phase 3 part 2 student must be able to Obtain an informed consent from this patient for surgical treatment of her disease.	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP3.7 Describe the aetiology, pathophysiology, ocular features, differential diagnosis, complications and management of symblepharon	25.04.25
Saturday	AETCOM Session: Module 4.7: Case studies in ethics and patient autonomy	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU25.4.3 At the end of session phase 3 part 2 student must be able to Obtain an informed consent from this patient for surgical treatment of her disease.	IM14.12- Demonstrate an understanding of patient's inability to adhere to lifestyle instructions and counsel them in a non-judgemental way - Unit 3 (Dr. K Gopal)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 9.4 Discuss the clinical features, laboratory investigations, ultrasonography, differential diagnosis, principles of management and follow up of gestational Trophoblastic neoplasms	Integration: PM8.4 Describe metabolic co-morbidities diabetes mellitus following TBI; CT1.3 Discuss and describe the impact of co-infection with HIV and other co-morbid conditions. Like diabetes on the natural history of tuberculosis	26.04.25
Monday	SU25.2.2 At the end of session phase 3 part 2 student must be able to Describe the symptoms and signs of benign breast disease; SU25.2.2 At the end of session phase 3 part 2 student must be able to Describe the symptoms and signs of benign breast disease	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 9.4 Discuss the clinical features, laboratory investigations, ultrasonography, differential diagnosis, principles of management and follow up of gestational Trophoblastic neoplasms	IM17.2- Elicit and document and present an appropriate history including aura, precipitating aggravating and relieving factors, associated symptoms that help identify the cause of headaches - Unit 3 (Dr. K Gopal)	<b>IM9.12: How to investigate a Case of Anaemia (Tutorial)</b>	<b>PE23.11</b> Develop a treatment plan and prescribe appropriate drugs including fluids in cardiac diseases, anti-failure drugs, and inotropic agents	28.04.25

Week 8

Tuesday	OR 2.9 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of acetabular fracture	IM10.1 - Define, describe and differentiate between acute and chronic renal failure; IM7.5 Describe and discriminate acute, subacute and chronic causes of joint pain	IM17.3- Classify migraine and describe the distinguishing features between classical and non classical forms of migraine - Unit 3 (Dr. K Gopal); IM17.4- Perform and demonstrate a general neurologic examination and a focused examination for signs of intracranial tension including neck signs of
Wednesday	IM7.5 Describe and discriminate acute, subacute and chronic causes of joint pain	SU27.1 Describe the etiopathogenesis, clinical features, investigations and principles of treatment of occlusive arterial disease.	IM18.4- Identify the nature of the cerebrovascular accident based on thetemporal evolution and resolution of the illness - Unit 4 (Dr. J Haria)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 9.5Describe the etiopathology, impact on maternal and fetal health and principles of management of hyperemesis gravidarum	IM9.17- Describe the indications for blood transfusion and the appropriate use of blood components	IM17.5- Generate document and present a differential diagnosis based on the clinical featuresand prioritise the diagnosis based on the presentation - Unit 3 (Dr. K Gopal)
Friday	PE29.7 Discuss the etiology, classification, pathogenesis and clinical features of Hemophilia in children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 9.5Describe the etiopathology, impact on maternal and fetal health and principles of management of hyperemesis gravidarum	IM17.7- Enumerate the indications and describe the findings in the CSF in patients with meningitis - Unit 3 (Dr. K Gopal)
Saturday	AETCOM Session: Module 4.9: Medical Negligence	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU25.2.2 At the end of session phase 3 part 2 student must be able to Describe the symptoms and signs of benign breast disease	IM17.8- Demonstrate in a mannequin or equivalent the correct technique for performing a lumbar puncture - Unit 3 (Dr. K Gopal)
Monday	SU25.2.3 At the end of session phase 3 part 2 student must be able to Discuss the principles of management of benign breast diseases.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 10.1 Define, classify and describe the aetiology, pathogenesis, clinical features, ultrasonography, differential diagnosis and management of antepartum haemorrhage in pregnancy	IM17.14- Counsel patients with migraine and tension headache on lifestyle changes and need for prophylactic therapy - Unit 4 (Dr. J Haria)
Tuesday	OR2.11 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of (a) Fracture patella (b) Fracture distal femur (C) Fracture proximal tibia with special focus on neurovascular injury and compartment syndrome	IM10.2 - Classify, describe and differentiate the pathophysiologic causes of acute renal failure.	IM18.3- Elicit and document and present an appropriate history includingonset, progression, precipitating and aggravating relieving factors.associated symptoms that help identify the cause of thecerebrovascular accident - Unit 4 (Dr. J Haria)
Wednesday	IM7.5 Describe and discriminate acute, subacute and chronic causes of joint pain	SU27.1 Describe the etiopathogenesis, clinical features, investigations and principles of treatment of occlusive arterial disease.	IM18.4- Identify the nature of the cerebrovascular accident based on thetemporal evolution and resolution of the illness - Unit 4 (Dr. J Haria)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 10.2 Enumerate the indications and describe the appropriate use of blood and blood products, their complications and management.	IM9.18- Describe the precautions required necessary when performing a blood transfusion	IM18.5- Perform, demonstrate & document physical examination thatincludes general and a detailed neurologic examination asappropriate, based on the history - Unit 4 (Dr. J Haria)

Week 9

Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 9.5Describe the etiopathology, impact on maternal and fetal health and principles of management of hyperemesis gravidarum			29.04.25
IM05.6: Acute Viral Hepatitis (Seminar); IM04.8: FUO - Immunocompetent patient; FUO - immunocompromised patient (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 4.8: Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of CSOM		30.04.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU25.2.2 At the end of session phase 3 part 2 student must be able to Describe the symptoms and signs of benign breast disease	OR 2.10 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of proximal femur		01.05.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU25.2.2 At the end of session phase 3 part 2 student must be able to Describe the symptoms and signs of benign breast disease	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unicolar & Binocular)		02.05.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 10.1 Define, classify and describe the aetiology, pathogenesis, clinical features, ultrasonography, differential diagnosis and management of antepartum haemorrhage in pregnancy	Integration: PE33.4Discuss the etiopathogenesis, clinical types, presentations, complication and management of Diabetes mellitus in children; PE33.5Interpret Blood sugar reports and explain the diagnostic criteria for Type 1 Diabetes		03.05.25
IM10.3: Etiology of AKI (Tutorial)	PE23.12 Interpret a chest X ray and recognize Cardiomegaly PE23.13 Choose and Interpret blood reports in Cardiac illness		05.05.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 10.1 Define, classify and describe the aetiology, pathogenesis, clinical features, ultrasonography, differential diagnosis and management of antepartum haemorrhage in pregnancy			06.05.25
IM05.6: Acute Viral Hepatitis (Seminar); IM04.8: FUO - Immunocompetent patient; FUO - immunocompromised patient (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): 4.45: Describe the clinical features, investigations and principles of management of Vocal cord palsy		07.05.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.1 Describe the etiopathogenesis, clinical features, investigations and principles of treatment of occlusive arterial disease.	OR 2.12 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of Fracture shaft of femur in all age groups and the recognition and management of fat embolism as a complication		08.05.25

Friday	<b>PE29.8</b> Discuss the etiology, clinical presentation and management of Acute Lymphoblastic Leukemia in children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 10.2 Enumerate the indications and describe the appropriate use of blood and blood products, their complications and management.	IM18.6- Distinguish the lesion based on upper vs lower motor neuron, side,site and most probable nature of the lesion - Unit 4 (Dr. J Haria)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); SU27.1 Describe the etiopathogenesis, clinical features, investigations and principles of treatment of occlusive arterial disease.	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP1.2 Define, classify and describe the types and methods of correcting refractive errors	09.05.25
Saturday	AETCOM Session: Module 4.1: The foundations of communication - 5	SU27.1.1 At the end of session, phase 3 part 2 schedule must be able to discuss clinical features of occlusive arterial disease correctly.	IM18.7- Describe the clinical features and distinguish, based on clinicalexamination, the various disorders of speech- Unit 4 (Dr. J Haria)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 10.2 Enumerate the indications and describe the appropriate use of blood and blood products, their complications and management.	Integration: PH1.55Describe and discuss the following National Health programmes including Tuberculosis; PE 34.3 Discuss the various regimens for management of Tuberculosis as per National Guidelines	10.05.25
Monday	SU25.2.4 At the end of session phase 3 part 2 student must be able to Discuss the etio-pathogenesis of breast infections.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 11.1.Describe the etiopathology, clinical features; diagnosis and investigations, complications, principles of management of multiple pregnancies	IM18.8- Describe and distinguish, based on the clinical presentation, thetypes of bladder dysfunction seen in CNS disease - Unit 4 (Dr. J Haria)	<b>IM10.7: Approach to a patient with deranged renal function (Tutorial)</b>	<b>PE23.14</b> Interpret Pediatric ECG	12.05.25
Tuesday	OR 2.13 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of: (a) Fracture both bones leg (b) Calcaneus (c) Small bones of foot	IM10.3- Describe the pathophysiology and causes of pre renal ARF,renal and post renal ARF	IM18.9- Choose and interpret the appropriate diagnostic and imaging testthat will delineate the anatomy and underlying cause of the lesion - Unit 4 (Dr. J Haria)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 11.1.Describe the etiopathology, clinical features; diagnosis and investigations, complications, principles of management of multiple pregnancies		13.05.25
Wednesday	IM7.6 Discriminate, describe and discuss arthralgia from arthritis and mechanical from inflammatory causes of joint pain	SU27.1.2 At the end of session, phase 3 part 2 schedule must be able to discuss investigation of occlusive arterial disease	IM18.17- Counsel patient and family about the diagnosis and therapy in anepathetic manner - Unit 4 (Dr. J Haria)	<b>IM05.4: Complications of Portal Hypertension (Seminar)</b>	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): 4.11: Enumerate the indications and describe the steps of mastoidectomy	14.05.25
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 12.1 Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia.	IM9.21- Determine the need for specialist consultation	IM19.3- Elicit and document and present an appropriate history including onset, progression precipitating and aggravating relieving factors, associated symptoms that help identify the cause of the movement disorders - Unit 4 (Dr. J Haria)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); SU27.1.2 At the end of session, phase 3 part 2 schedule must be able to discuss investigation of occlusive arterial disease	OR2.14 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of ankle fractures	15.05.25
Friday	<b>PE21.1</b> Enumerate the etiopathogenesis, clinical features, complications and management of Urinary Tract infection in children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 12.1 Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia.	IM19.4- Perform, demonstrate and document a physical examination that includes a general examination and a detailed neurologic examination using standard movement rating scales - Unit 4 (Dr. J Haria)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); SU27.1.2 At the end of session, phase 3 part 2 schedule must be able to discuss investigation of occlusive arterial disease	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP9.4 Enumerate, describe and discuss the causes of avoidable blindness and the National Programs for Control of Blindness (including vision 2020)	16.05.25
Saturday	AETCOM Session: Module 4.3: Case studies in medico-legal and ethical situations	SU27.1.3 At the end of session, phase 3 part 2 schedule must be able to describe the line of treatment of occlusive arterial disease.	IM19.5- Generate document and present a differential diagnosis and prioritise based on the history and physical examination - Unit 4 (Dr. J Haria)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 12.1 Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia.	Integration: PE 34.3 Discuss the preventive strategies adopted and the objectives and outcome of the National Tuberculosis Control Program; CT1.1 Describe and discuss the epidemiology of tuberculosis and its impact on the work, life and economy of India	17.05.25

Monday	SU26.1 Outline the role of surgery in the management of coronary heart disease, valvular heart diseases and congenital heart diseases.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 12.2 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of anemia in pregnancy	IM19.6- Make a clinical diagnosis regarding on the anatomical location, nature and cause of the lesion based on the clinical presentation and findings - Unit 5 (Dr. A Kumar)
Tuesday	OR 2.15 Plan and interpret the investigations to diagnose complications of fractures like malunion, non-union, infection, compartmental syndrome	IM10.4- Describe the evolution, natural history and treatment of ARF	IM19.7- Choose and interpret diagnostic and imaging tests in the diagnosis of movement disorders - Unit 5 (Dr. A Kumar)
Wednesday	IM7.6 Discriminate, describe and discuss arthralgia from arthritis and mechanical from inflammatory causes of joint pain	SU27.1.4 At the end of session, phase 3 part 2 schedule must be able to describe the etiopathogenesis of occlusive arterial disease accurately	M26.1- Enumerate and describe professional qualities and roles of a physician - Unit 5 (Dr. A Kumar)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 12.3 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of diabetes in pregnancy	IM13.1- Describe the clinical epidemiology and inherited & modifiable risk factors for common malignancies in India	M26.2- Describe and discuss the commitment to lifelong learning as an important part of physician growth - Unit 5 (Dr. A Kumar)
Friday	PE21.2 Enumerate the etiopathogenesis, clinical features, complications and management of acute post-streptococcal Glomerular Nephritis in children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 12.3 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of diabetes in pregnancy	M26.3- Describe and discuss the role of non maleficence as a guiding principle in patient care - Unit 5 (Dr. A Kumar)
Saturday	AETCOM Session: Module 4.5: Case studies in ethics: the doctor-industry relationship	SU27.1.5 At the end of session, phase 3 part 2 schedule must be able to discuss complication of occlusive arterial disease.	M26.4- Describe and discuss the role of autonomy and shared responsibility as a guiding principle in patient care - Unit 5 (Dr. A Kumar)
Monday	SU26.1.1 At the end of session phase 3 part 2 student must be able to Discuss the role of surgery in Coronary heart disease.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 12.4 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of heart diseases in pregnancy	M26.5- Describe and discuss the role of beneficence of a guiding principle in patient care - Unit 5 (Dr. A Kumar)
Tuesday	OR 3.1 Describe and discuss the aetiopathogenesis, clinical features, Investigations and principles of management of Bone and Joint infections a) Acute Osteomyelitis b) Subacute osteomyelitis c) Acute Suppurative arthritis d) Septic arthritis & HIV infection e) Spirochaetal infection f) Skeletal Tuberculosis	IM10.5- Describe and discuss the aetiology of CRF	M26.6- Describe and discuss the role of a physician in health care system - Unit 5 (Dr. A Kumar)

IM10.8: Approach to a Patient of Proteinuria (Tutorial)	PE30.20 Interpret and explain the findings in a CSF analysis		19.05.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 12.2 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of anemia in pregnancy			20.05.25
IM05.12: Approach to a patient with liver Dysfunction (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN4.46: Describe the clinical features, investigations and principles of management of Malignancy of the Larynx & Hypopharynx		21.05.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.1.4 At the end of session, phase 3 part 2 schedule must be able to describe the etiopathogenesis of occlusive arterial disease accurately	OR 2.16 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of open fractures with focus on secondary infection, prevention and management		22.05.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.1.4 At the end of session, phase 3 part 2 schedule must be able to describe the etiopathogenesis of occlusive arterial disease accurately	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP4.1 Enumerate, describe and discuss the types and causes of corneal ulceration		23.05.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 12.3 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of diabetes in pregnancy	Integration: CT1.15 Prescribe an appropriate antituberculosis regimen based on the location of disease, smear positivity and negativity and comorbidities based on current national guidelines including directly observed tuberculosis therapy (DOTS); CT1.18: Educate health care workers on national programs of Tuberculosis and administering and monitoring the DOTS program		24.05.25
IM11.9: Approach to a patient ofDKA/Hyperosmolar Coma (Tutorial)	PE30.22 Interpret the reports of EEG, CT, MRI		26.05.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 12.4 Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of heart diseases in pregnancy			27.05.25

Week 12

Wednesday	IM7.7 Discriminate, describe and discuss distinguishing articular from periarticular complaints	SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease.	M26.7- Describe and discuss the role of justice as a guiding principle in patient care - Unit 5 (Dr. A Kumar)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.12.5 Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management of urinary tract infections in pregnancy	IM13.2- Describe the genetic basis of selected cancers	M26.8- Identify discuss medicolegal, socioeconomic and ethical issues as it pertains to organ donation - Unit 5 (Dr. A Kumar)
Friday	PE21.3 Discuss the approach and referral criteria to a child with Proteinuria PE21.4 Discuss the approach and referral criteria to a child with Hematuria	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.12.5 Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management of urinary tract infections in pregnancy	M26.9- Identify, discuss and defend medicolegal, socio-cultural, economic and ethical issues as it pertains to rights, equity and justice in access to health care - Unit 5 (Dr. A Kumar)
Saturday	AETCOM Session: Module 4.7: Case studies in ethics and patient autonomy	SU27.2.1 At the end of session, phase 3 part 2 schedule must be able to enumerate different vascular disorders.	M26.10- Identify, discuss and defend medicolegal, socio-cultural and ethical issues as it pertains to confidentiality in patient care - Unit 5 (Dr. A Kumar)
Monday	SU26.1.2 At the end of session phase 3 part 2 student must be able to Discuss the role of surgery in Valvular heart disease	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 12.7 Describe and discuss screening, risk factors, management of mother and newborn with HIV	Clinical Posting (P): Unit I(Dr. N.K. Singh) - SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling
Tuesday	OR 3.3 Participate as a member in team for procedures like drainage of abscess, sequestrectomy/ saucerisation and arthrotomy	IM10.6- Stage chronic kidney disease	Clinical Posting (P): Unit II(Dr.Vipin Agarwal -SU28.18 Describe and demonstrate clinical examination of abdomen. Order relevant investigations
Wednesday	IM7.8 Determine the potential causes of joint pain based on the presenting features of joint involvement	SU27.2.3 At the end of session, phase 3 part 2 schedule must be able to describe clinical features of venous diseases.	Clinical Posting (P): Unit III(Dr. R K Kaul)-SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 13.1 Enumerate and discuss the physiology of normal labor, mechanism of labor in occipito-anterior presentation; monitoring of labor including partogram; conduct of labor, pain relief; principles of induction and acceleration of labor; management of third stage of labor.	IM13.3- Describe the relationship between infection and cancers	Clinical Posting (P): Unit IV(Dr. A K Singh)-SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast.
Friday	PE21.5 Enumerate the etiopathogenesis, clinical features, complications and management of Acute Renal Failure in children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.13.2 Define, describe the causes, pathophysiology, diagnosis, investigations and management of preterm labor, PROM and postdated pregnancy	Clinical Posting (P): Unit V(Dr.C K JHAKMOLA)-SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent; SU27.2 Demonstrate the correct examination of the vascular system and enumerate
Saturday		Holiday	

Week 13

	IM06.18: Chemoprophylaxis in HIV (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 4.12: Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of Hearing loss	28.05.25
	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease.	OR 3.2 Participate as a member in team for aspiration of joints under supervision	29.05.25
	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease.	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP 9.5 Describe the evaluation and enumerate the steps involved in the stabilisation, initial management and indication for referral in a patient with ocular injury	30.05.25
	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 12.6 Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management of liver disease in pregnancy	Integration: PA26.4 Define and describe the etiology, types, pathogenesis, stages, morphology microscopic appearance and complications of tuberculosis; C.T.1.3 Discuss and describe the impact of co-infection with HIV and other co-morbid conditions. Like diabetes on the natural history of tuberculosis	31.05.25
	IM11.14: Approach to a patient with Hypoglycemia (Tutorial)	PE30.23 Perform in a mannequin lumbar puncture. Discuss the indications, contraindication of the procedure	02.06.25
	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 12.8 Describe the mechanism, prophylaxis, fetal complications, diagnosis and management of isoimmunization in pregnancy		03.06.25
	IM7.5: Approach to a patient of Arthritis (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 4.47: Describe the clinical features, investigations and principles of management of Stridor	04.06.25
	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.2.3 At the end of session, phase 3 part 2 schedule must be able to describe clinical features of venous diseases.	OR 4.1 Describe and discuss the clinical features, Investigation and principles of management of Tuberculosis affecting major joints (Hip, Knee) including cold abscess and caries spine	05.06.25
	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.2.4 At the end of session, phase 3 part 2 schedule must be able to describe the various investigation of vascular disorder.	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP4.2 Enumerate and discuss the differential diagnosis of infective keratitis	06.06.25
		Holiday	07.06.25

Week 14

Monday	SU26.1.3 At the end of session phase 3 part 2 student must be able to Discuss the role of surgery in Congenital heart disease.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.13.4 Demonstrate the stages of normal labor in a simulated environment	Clinical Posting (P);Unit I(Dr. N.K. Singh - SU27.5 Describe the applied anatomy of venous system of lower limb
Tuesday	OR 5.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of various inflammatory disorder of joints	IM10.7- Describe and discuss the pathophysiology and clinical findings of uraemia.	Clinical Posting (P)Unit II(Dr. Vipin Agarwal)SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins
Wednesday	IM7.8 Determine the potential causes of joint pain based on the presenting features of joint involvement	SU27.2.5 At the end of session, phase 3 part 2 schedule must be able to discuss various arterial and venous diseases.	Clinical Posting (P);Unit III(Dr. R K Kaul) SU28.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 14.1 Enumerate and discuss the diameters of maternal pelvis and types	IM13.4- Describe the natural history, presentation, course, complications and cause of death for common cancers	Clinical Posting (P);:Unit IV (Dr. A K Singh)SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.
Friday	PE21.6 Enumerate the etio-pathogenesis, clinical features, complications and management of Chronic Renal Failure in Children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 14.2 Discuss the mechanism of normal labor, Define and describe obstructed labor, its clinical features; prevention; and management	Clinical Posting (P);Unit V (Dr.C K JHAKMOLA)SU28.9 Demonstrate the correct technique of examination of a patient with disorders of the stomach
Saturday	AETCOM Session: Module 4.3: Case studies in medico-legal and ethical situations	SU27.3 Describe clinical features, investigations and principles of management of vasospastic disorders.	Clinical Posting (P)Unit in Rotation SU28.11 Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post-splenectomy sepsis - prophylaxis
Monday	SU26.3 Describe the clinical features of mediastinal diseases and the principles of management.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.14.4 Describe and discuss the classification; diagnosis; management of abnormal labor	Clinical Posting (P);Unit I(Dr. N.K. Singh) - SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling
Tuesday	OR 7.1 Describe and discuss the aetiopathogenesis, clinical features, investigation and principles of management of metabolic bone disorders in particular osteoporosis, osteomalacia, rickets, Paget's disease	IM10.8- Classify, describe and discuss the significance of proteinuria in CKD	Clinical Posting (P): Unit II(Dr. Vipin Agarwal) SU28.18 Describe and demonstrate clinical examination of abdomen. Order relevant investigations
Wednesday	IM7.9 Describe the common signs and symptoms of articular and periarticular diseases	SU27.3.1 At the end of session, phase 3 part 2 schedule must be able to enumerate different vasospastic disorders	Clinical Posting (P): Unit III(Dr. R K Kaul)-SU25.2 Describe the etio-pathogenesis, clinical features and principles of management of benign breast disease including infections of
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 15.1 Enumerate and describe the indications and steps of common obstetric procedures, technique and complications: Episiotomy, vacuum extraction; low forceps; Caesarean section, assisted breech delivery; external cephalic version; cervical cerclage.	IM13.5- Describe the common issues encountered in patients at the end of life and principles of managements	Clinical Posting (P): Unit IV(Dr. A K Singh)-SU25.3 Describe the etio-pathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast.

Week 15

IM11.17: Drug therapy of Diabetes (Tutorial)	PE20.3 Perform Neonatal resuscitation in a manikin		09.06.25
	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.13.3 Observe/ assist in the performance of an artificial rupture of membranes		10.06.25
IM7.15: Autoantibodies in diagnosis tests (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 4.13: Describe the clinical features, investigations and principles of management of Otitosclerosis		11.06.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU26.1.3 At the end of session phase 3 part 2 student must be able to Discuss the role of surgery in Congenital heart disease.	OR 6.1 Describe and discuss the clinical features, investigations and principles of management of degenerative condition of spine (Cervical Spondylosis, Lumbar Spondylosis, PID)		12.06.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU26.1.3 At the end of session phase 3 part 2 student must be able to Discuss the role of surgery in Congenital heart disease.	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP 7.3 Demonstrate the correct technique of ocular examination in a patient with a cataract correctly		13.06.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 14.3 Describe and discuss rupture uterus, causes, diagnosis and management	Integration: PHI.45 Describe the drugs used in MDR and XDR Tuberculosis; PE34.1 Discuss the epidemiology, clinical features, clinical types, complications of Tuberculosis in Children and Adolescents		14.06.25
IM14.13: Management of Obesity (Tutorial)	PE20.4 Assessment of a normal neonate		16.06.25
	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 15.1 Enumerate and describe the indications and steps of common obstetric procedures, technique and complications: Episiotomy, vacuum extraction; low forceps; Caesarean section, assisted breech delivery; external cephalic version; cervical cerclage		17.06.25
IM08.1: Primary hypertension/ Secondary hypertension (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 4.51: Observe and describe the care of the patient with a tracheostomy		18.06.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU26.3 Describe the clinical features of mediastinal diseases and the principles of management.	OR 8.1 Describe and discuss the aetiopathogenesis, clinical features, assessment and principles of management a patient with Post Polio Residual Paralysis		19.06.25

Friday	<b>PE21.7</b> Enumerate the etiopathogenesis, clinical features, complications and management of Wilms Tumor	Obstetrics & Gynecology - Lecture/Tutorial/Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 15.1 Enumerate and describe the indications and steps of common obstetric procedures, technique and complications: Episiotomy, vacuum extraction; low forceps; Caesarean section, assisted breech delivery; external cephalic version; cervical cerclage	Clinical Posting (P): Unit V(Dr.C K JHAKMOLA)-SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU26.3 Describe the clinical features of mediastinal diseases and the principles of management.	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2):OP4.6 Enumerate the indications and the types of keratoplasty correctly.	20.06.25
Saturday	AETCOM Session: Module 4.5: Case studies in ethics: the doctor-industry relationship	<b>SU27.3.2</b> At the end of session , phase 3 part 2 schedule must be able to discuss the clinical features of vasospastic disorders.	Clinical Posting (P):Unit in Rotation - SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 15.1 Enumerate and describe the indications and steps of common obstetric procedures, technique and complications: Episiotomy, vacuum extraction; low forceps; Caesarean section, assisted breech delivery; external cephalic version; cervical cerclage	Integration: PE 34.2 Discuss the various diagnostic tools for childhood tuberculosis; PE 34.3 Discuss the various regimens for management of Tuberculosis as per National Guidelines	21.06.25
First Terminal Exam 23.06.2025 to 12.07.2025						
Monday	<b>SU26.3.1</b> At the end of session phase 5 part 2 student must be able to Discuss the clinical features of mediastinal diseases	Obstetrics & Gynecology - Lecture/Tutorial/Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 16.1 Enumerate and discuss causes, prevention, diagnosis, management, appropriate use of blood and blood products in postpartumhaemorrhage	Clinical Posting (P):Unit I(Dr. N.K. Singh - SU27.5 Describe the applied anatomy of venous system of lower limb	<b>IM15.10: Interventions in Upper GI bleed (Tutorial)</b>	<b>PE20.6</b> Explain the follow up care for neonates including Breast Feeding, Temperature maintenance, immunization, importance of growth monitoring and red flags	14.07.25
Tuesday	OR 9.1 Describe and discuss the etiopathogenesis, clinical features, assessment and principles of management of Cerebral palsy patient	<b>IM10.10-</b> Describe and discuss the association between CKD, glycemia and hypertension.	Clinical Posting (P)Unit II(Dr. Vipin Agarwal SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 16.1 Enumerate and discuss causes, prevention, diagnosis, management, appropriate use of blood and blood products in postpartumhaemorrhage		15.07.25
Wednesday	<b>IM7.10</b> Describe the systemic manifestations of rheumatologic disease	<b>SU27.3.3</b> At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of vasospastic disorders	Clinical Posting (P):Unit III(Dr. R K Kaul) SU28.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias	<b>IM08.6: Emergencies in Hypertension (Seminar)</b>	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 4.20: Describe the clinical features, investigations and principles of management of Meniere's Disease ; Lecture/EN 4.23: Describe the clinical features, investigations and principles of management of DNS	16.07.25
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 16.2 Describe and discuss uterine inversion – causes, prevention, diagnosis and management.	<b>IM13.5-</b> Describe the common issues encountered in patients at the end of life and principles of managements	Clinical Posting (P)::Unit IV (Dr. A K Singh)SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.3.3 At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of vasospastic disorders	OR10.1 Describe and discuss the etiopathogenesis, clinical features, investigations and principles of management of benign and malignant bone tumours and pathological fractures.	17.07.25
Friday	<b>PE23.1</b> Discuss the Hemodynamic changes, clinical presentation, complications and management of Acyanotic Heart Diseases –VSD, ASD and PDA; PE7.5 Observe the correct technique of breast feeding and distinguish right from wrong techniques	Obstetrics & Gynecology - Lecture/Tutorial/Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 16.3 Describe and discuss causes, clinical features, diagnosis, investigations; monitoring of fetal well-being, including ultrasound and fetal Doppler; principles of management; prevention and counselling in intrauterine growth retardation	Clinical Posting (P)::Unit V (Dr.C K JHAKMOLA)SU28.9 Demonstrate the correct technique of examination of a patient with disorders of the stomach	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2) : SU27.3.3 At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of vasospastic disorders	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP4.7 Enumerate the indications and describe the methods of tarsorrhaphy correctly.	18.07.25
Saturday	AETCOM Session: Module 4.7: Case studies in ethics and patient autonomy	<b>SU27.3.4</b> At the end of session , phase 3 part 2 schedule must be able to discuss the line of management of vasospastic disorders; <b>SU26.3.2</b> At the end of session phase 3 part 2 student must be able to Discuss the principles of management of mediastinal diseases	Clinical Posting (P)Unit in Rotation SU28.11 Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post-splenectomy sepsis - prophylaxis; Clinical Posting (P):Unit I(Dr. N.K. Singh) - SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 16.3 Describe and discuss causes, clinical features, diagnosis, investigations; monitoring of fetal well-being, including ultrasound and fetal Doppler; principles of management; prevention and counselling in intrauterine growth retardation	Integration: PE 34.4 Discuss the preventive strategies adopted and the objectives and outcome of the National Tuberculosis Control Program; PE 34.13 Enumerate the newer diagnostic tools for Tuberculosis including BACTEC CBNAAT and their indications	19.07.25

Monday	SU26.3.1 At the end of session phase 3 part 2 student must be able to Discuss the clinical features of mediastinal diseases	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 16.1 Enumerate and discuss causes, prevention, diagnosis, management, appropriate use of blood and blood products in postpartumhaemorrhage	Clinical Posting (P):Unit I(Dr. N.K. Singh - SU27.5 Describe the applied anatomy of venous system of lower limb
Tuesday	OR11.1 Describe and discuss the etiopathogenesis, clinical features, investigations and principles of management peripheral nerve injuries in diseases like foot drop, wrist drop, claw hand, palsies of radial, ulnar, median, lateral popliteal and sciatic nerves; OR12.1 Describe and discuss the clinical features, investigations and principles of management of congenital and acquired malformations and deformities of: a. limbs and spine - scoliosis and spina bifida, b.congenital dislocation of hip, torticollis, c. congenital talipes equino varus.	IM10.11- Describe and discuss the relationship between CAD risk factors and CKD and in dialysis	Clinical Posting (P): Unit II(Dr. Vipin Agarwal - SU28.18 Describe and demonstrate clinical examination of abdomen. Order relevant investigations
Wednesday	IM11.1 Define and classify diabetes; IM13.6- Describe and distinguish the difference between curative and palliative care in patients with cancer	SU27.3.3 At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of vasospastic disorders	Clinical Posting (P): Unit III(Dr. R K Kaul)-SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast; SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 16.2 Describe and discuss uterine inversion – causes, prevention, diagnosis and management.	IM13.5- Describe the common issues encountered in patients at the end of life and principles of managements	Clinical Posting (P)::Unit IV (Dr. A K Singh)SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.
Friday	PE23.2 Discuss the Hemodynamic changes, clinical presentation, complications and management of Cyanotic Heart Diseases – Fallot's Physiology	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 17.3 Describe and discuss the clinical features, diagnosis and management of mastitis and breast abscess	Clinical Posting (P): Unit V(Dr.C K JHAKMOLA)-SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent
Saturday	AETCOM Session: Module 4.1: The foundations of communication - 5	SU27.4 Describe the types of gangrene and principles of amputation.	Clinical Posting (P):Unit in Rotation - SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease
Monday	SU26.4 Describe the etiology, pathogenesis, clinical features of tumors of lung and the principles of management.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 18.1 Describe and discuss the assessment of maturity of the newborn, diagnosis of birth asphyxia, principles of resuscitation, common problems.	Clinical Posting (P):Unit I(Dr. N.K. Singh - SU27.5 Describe the applied anatomy of venous system of lower limb

IM15.10: Interventions in Upper GI bleed (Tutorial)	PE20.6 Explain the follow up care for neonates including Breast Feeding, Temperature maintenance, immunization, importance of growth monitoring and red flags		21.07.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 17.1 Describe and discuss the physiology of lactation; O.G. 17.2 Counsel in a simulated environment, care of the breast, importance and the technique of breast feeding; O.G. 17.3 Describe and discuss the clinical features, diagnosis and management of mastitis and breast abscess			22.07.25
IM16.11: Approach to a patient of Acute Diarrhoeal Disease (Tutorial); IM9.1: Approach to a case of Anaemia - Labs (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 4.5.2: Describe the Clinical features, Investigations and principles of management of diseases of Oesophagus		23.07.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.3.3 At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of vasospastic disorders	OR10.1 Describe and discuss the etiopathogenesis, clinical features, investigations and principles of management of benign and malignant bone tumours and pathological fractures.		24.07.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.4 Describe the types of gangrene and principles of amputation; SU27.3.3 At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of vasospastic disorders	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP4.7 Enumerate the indications and describe the methods of tarsorrhaphy correctly		25.07.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 18.1 Describe and discuss the assessment of maturity of the newborn, diagnosis of birth asphyxia, principles of resuscitation, common problems.	Integration: PH.1.55 Describe and discuss the following National Health programmes Malaria; IM4.6 Discuss and describe the pathophysiology and manifestations of malaria		26.07.25
IM16.12: Approach to a patient of Chronic Diarrhoea (Tutorial)	PE16.2 Assess children <2 months using IMNCI Guidelines		28.07.25

Week 18

Tuesday	OR13.1 Participate in a team for procedures in patients and demonstrating the ability to perform on mannequins/ simulated patients in the following; i. Above elbow plaster ii. Below knee plaster iii. Above knee plaster iv. Thomas splint v. splinting for long bone fractures vi. strapping for shoulder and clavicle trauma	IM10.15- Describe the appropriate diagnostic workup based on presumed etiology.	Clinical Posting (P):Unit III(Dr. Vipin Agarwal SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins
Wednesday	IM11.1 Define and classify diabetes	SU27.4.1 At the end of session , phase 3 part 2 schedule must be able to enumerate the different type of gangrene.	Clinical Posting (P):Unit III(Dr. R K Kaul) SU28.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 18.2 Demonstrate the steps of neonatal resuscitation in a simulated environment	IM13.6- Describe and distinguish the difference between curative and palliative care in patients with cancer	Clinical Posting (P)::Unit IV (Dr. A K Singh)SU28.1 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.
Friday	PE23.3 Discuss the etio-pathogenesis, clinical presentation and management of cardiac failure in infant and children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 18.3 Describe and discuss the diagnosis of birth asphyxia	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU28.9 Demonstrate the correct technique of examination of a patient with disorders of the stomach
Saturday	AETCOM Session: Module 4.3: Case studies in medico-legal and ethical situations	SU27.4.2 At the end of session , phase 3 part 2 schedule must be able to discuss the pathophysiology of gangrene.	Clinical Posting (P):Unit in Rotation SU28.11 Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post-splenectomy sepsis - prophylaxis
Monday	SU26.4.1 At the end of session phase 3 part 2 student must be able to Discuss the etiology of lung tumors	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 18.4 Describe the principles of resuscitation of the newborn and enumerate the common problems encountered	Clinical Posting (P):Unit I (Dr. N.K. Singh)SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver
Tuesday	OR14.1 Demonstrate the ability to counsel patients regarding prognosis in patients with various Orthopaedics Illnesses like : (a)fractures and disabilities (b) Fractures and required prolonged bed stay (C) Bone tumours (d) Congenital disabilities	IM10.16- Enumerate the indications for and interpret the results of renal function, tests, calcium, phosphorus, PTH, urine electrolytes, osmolality, anion gap	Clinical Posting (P):Unit II (Dr. Vipin Agarwal SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system
Wednesday	IM11.2 Describe and discuss the epidemiology and pathogenesis and risk factors and clinical evolution of type 1 diabetes	SU27.4.3 At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of gangrene.	Clinical Posting (P): Unit III(Dr. R K Kaul) SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 19.1 Describe and discuss the physiology of puerperium, its complications, diagnosis and management; counselling for contraception, puerperal sterilization	IM17.1- Define and classify headache and describe the presenting features, precipitating factors, aggravating and relieving factors of various kinds of headache	Clinical Posting (P):Unit IV(Dr. A K Singh) SU22.6 Describe and discuss the clinical features of hypo- and hyperparathyroidism and the principles of their management

Week 19

Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 18.1 Describe and discuss the assessment of maturity of the newborn, diagnosis of birth asphyxia, principles of resuscitation, common problems.		29.07.25
IM9.2: Clinical approach to a case of Anaemia (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); EN 4.23; Describe the clinical features, investigations and principles of management of DNS	30.07.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU26.4.1 At the end of session phase 3 part 2 student must be able to Discuss the etiology of lung tumors	OR13.2 Participate as a member in team for resuscitation of polytrauma victim by doing all of the following : (a) I.V. access central - peripheral (b) bladder catheterisation (C) Endotracheal intubation (d) Splintage	31.07.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU26.4.1 At the end of session phase 3 part 2 student must be able to Discuss the etiology of lung tumors	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP 4.9 Describe and discuss the importance and protocols involved in eye donation and eye banking correctly.	01.08.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 18.3 Describe and discuss the diagnosis of birth asphyxia	Integration: IM4.15Perform and interpret a malarial smear; IM 4.22 Describe and discuss the pharmacology, indications, adverse reactions, interactions of antimalarial drugs and basis of resistance	02.08.25
IM17.2: Identifying the Cause of headache (Tutorial)	PE16.3 Assess children >2 to 5 years using IMNCI guidelines and Stratify Risk	04.08.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 19.1 Describe and discuss the physiology of puerperium, its complications, diagnosis and management; counselling for contraception, puerperal sterilization		05.08.25
IM9.17: Blood Component Therapy (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); EN 4.53; Describe the clinical features, investigations and principles of management of HIV manifestations of the ENT	06.08.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.4.3 At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of gangrene.	OR14.2 Demonstrate the ability to counsel patients to obtain consent for various orthopaedic procedures like limb amputation, permanent fixations etc.	07.08.25

Friday	<b>PE23.4</b> Discuss the etio-pathogenesis, clinical presentation and management of Acute Rheumatic Fever in children <b>PE23.5</b> Discuss the clinical features, complications, diagnosis, management and prevention of Acute Rheumatic Fever	Obstetrics & Gynecology - Lecture/Tutorial/Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 19.2 Counsel in a simulated environment, contraception and puerperal sterilisation	Clinical Posting (P);Unit V (Dr.C K JHAKMOLA)SU29.1 Describe the causes, investigations and principles of management of Hematuria; SU29.5 Describe the clinical features,investigations and principles of management of renal calculi
Saturday	Holiday		
Monday	<b>SU26.4.2</b> At the end of session phase 3 part 2 student must be able to Discuss the pathogenesis of lung tumors.	Obstetrics & Gynecology - Lecture/Tutorial/Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 20.1 Enumerate the indications and describe and discuss the legal aspects, indications, methods for first and second trimester MTP; complications and management of complications of Medical Termination of Pregnancy	Clinical Posting (P);Unit I (Dr. N.K. Singh)SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver
Tuesday	OR14.3 Demonstrate the ability to convince the patient for referral to a higher center in various orthopaedic illnesses, based on the detection on the warning signals and need for sophisticated management.	IM10.17- Describe and calculate indices of renal function based on available laboratories including FENa (fraction excretion excretion of Sodium) and CrCl (creatinine clearance)	Clinical Posting (P);Unit II (Vipin Agarwal SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system
Wednesday	IM11.3 Describe and discuss the epidemiology and pathogenesis and risk factors economic impact and clinical evolution of type 2 diabetes	<b>SU27.4.5</b> At the end of session , phase 3 part 2 schedule must be able to describe pregangrenous changes in gangrene; <b>SU27.4.6</b> At the end of session , phase 3 part 3 schedule must be able to discuss the	Clinical Posting (P): Unit III(Dr. R K Kaul) SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 20.1 Enumerate the indications and describe and discuss the legal aspects, indications, methods for first and second trimester MTP; complications and management of complications of	IM17.6- Choose and interpret diagnostic testing based on the clinical diagnosis including imaging	Clinical Posting (P);Unit IV(Dr. A K Singh) SU28.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management
Friday	Holiday		
Saturday	Holiday		
Monday	<b>SU26.4.3</b> At the end of session phase 3 part 2 student must be able to Discuss the clinical features of lung tumors; <b>SU26.4.2</b> At the end of session phase 3 part 2 student must be able to Discuss the pathogenesis of lung tumors.	Obstetrics & Gynecology - Lecture/Tutorial/Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 21.1 Describe and discuss the temporary and permanent methods of contraception, indications, technique and complications; selection of patients, side effects and failure rate including Ocs, male contraception, emergency contraception and IUCD	Clinical Posting (P);Unit I (Dr. N.K. Singh)SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver
Tuesday	OR.1.2 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of shock.	IM10.25- Identify and describe the priorities in the management of ARF including diet, volume management, alteration in doses of drugs, monitoring and indications for dialysis.	Clinical Posting (P);Unit II (Dr. Vipin Agarwal SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system
Wednesday	IM11.4 Describe and discuss the genetic background and the influence of the environment on diabetes	<b>SU27.4.7</b> At the end of session , phase 3 part 2 schedule must be able to discuss the contraindication of amputation.	Clinical Posting (P): Unit III(Dr. R K Kaul) SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis

Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.4.3 At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of gangrene.	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP4.9 Describe and discuss the importance and protocols involved in eye donation and eye banking correctly.	08.08.25
Holiday		09.08.25
<b>IM17.7: Interpretation of CSF analysis (Tutorial)</b>	<b>PE20.19</b> Discuss the etiology, clinical features and management of Neonatal hyperbilirubinemia	11.08.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 20.2 In a simulated environment administer informed consent to a person wishing to undergo Medical Termination of Pregnancy; O.G. 19.4 Enumerate the indications for, describe the steps in and insert and remove an intrauterine device in a simulated environment		12.08.25
<b>IM9.18: Blood Transfusion Reaction (Seminar)</b>	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): /EN 4.24: Enumerate the indications , observe and describe the steps in a Septoplasty	13.08.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU26.4.2 At the end of session phase 3 part 2 student must be able to Discuss the pathogenesis of lung tumors.	OR.1.1 Describe and discuss the Principles of pre hospital care and casualty management of a trauma victim including principles of triage.	14.08.25
Holiday		15.08.25
Holiday		16.08.25
<b>IM17.13: Treatment of Meningitis (Tutorial)</b>	<b>PE27.10</b> Observe the various methods of administering Oxygen; PE23.6 Discuss the etio-pathogenesis, clinical features and management of Infective endocarditis in children	18.08.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.21.2Describe & discuss PPIUCD programme; O.G. 20.3 Discuss Pre-conception and Pre Natal Diagnostic Techniques (PC& PNDD) Act 1994 & its amendments		19.08.25
<b>IM10.2: Acute Kidney Injury (Seminar)</b>	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 3.1: Observe and describe the indications for and steps involved in the performance of Otomicroscopic examination in a simulated environment	20.08.25

Week 21

Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 21.1 Describe and discuss the temporary and permanent methods of contraception, indications, technique and complications; selection of patients, side effects and failure rate including Ocs, male contraception, emergency contraception and IUCD	IM17.10- Enumerate the indications for emergency care admission and immediate supportive care in patients with headache	Clinical Posting (P):Unit IV(Dr. A K Singh) SU22.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management
Friday	PE22.3 Describe the diagnosis and management of common vasculitic disorders including Henoch Schonlein Purpura, Kawasaki Disease, SLE, JIA	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.21.2Describe & discuss PPIUCD programme	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU29.1 Describe the causes, investigations and principles of management of Hematuria
Saturday	AETCOM Session: Module 4.9: Medical Negligence	SU27.4.8 At the end of session , phase 3 part 2 schedule must be able to discuss the type of amputation.	Clinical Posting (P): Unit in Rotation SU29.5 Describe the clinical features,investigations and principles of management of renal calculi
Monday	SU26.4.4 At the end of session phase 3 part 2 student must be able to Discuss the principles of management of lung tumors	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 22.1 Describe the clinical characteristics of physiological vaginal discharge.	Clinical Posting (P):Unit I(Dr. N.K. Singh)SU30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis
Tuesday	OR.1.4 Describe and discuss the Principles of Management of Soft Tissue Injuries.	IM10.26- Describe and discuss supportive therapy in CKD including diet, anti hypertensives, glycemic therapy, dyslipidemia, anemia, hyperkalemia, hyperphosphatemia and secondary	Clinical Posting (P):Unit II (Dr. Vipin Agarwal)SU29.10 Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent
Wednesday	IM11.5 Describe and discuss the pathogenesis and temporal evolution of microvascular and macrovascular complications of diabetes	SU27.4.9 At the end of session , phase 3 part 2 schedule must be able to discuss the complication of amputation.	Clinical Posting (P)Unit III(Dr. R K Kaul) SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 22.1 Describe the clinical characteristics of physiological vaginal discharge.	IM17.11- Describe the indications, pharmacology, dose, side effects of abortive therapy in migraine	Clinical Posting (P):Unit IV(Dr. A K Singh) SU28.14 Describe the clinical features, investigations and principles of management of disorders of small and large intestine
Friday	PE22.3 Describe the diagnosis and management of common vasculitic disorders including Henoch Schonlein Purpura, Kawasaki Disease, SLE, JIA	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OG.22.2 Describe and discuss the etiology (with special emphasis on Candida, T. vaginalis, bacterial vaginosis), characteristics, clinical diagnosis, investigations, genital hygiene, management of common causes and the syndromic management	Clinical Posting (P): Unit V (Dr.C K JHAKMOLA)SU30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele

Week 22

Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU26.4.3 At the end of session phase 3 part 2 student must be able to Discuss the clinical features of lung tumors	OR. 1.3 Describe and discuss the aetiopathogenesis, Clinical features, investigations and principles of management of soft tissue injuries	21.08.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU26.4.3 At the end of session phase 3 part 2 student must be able to Discuss the clinical features of lung tumors	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP 5.1 Define, enumerate and describe the aetiology, associated systemic conditions, clinical features complications indications for referral and management of episcleritis	22.08.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.21.2Describe & discuss PPIUCD programme	Integration: PH1.47 Describe the mechanisms of action, types, doses, side effects, indications and contraindications of the drugs used in malaria; IM4.23 Prescribe drugs for malaria based on the species identified, prevalence of drug resistance and national programs	23.08.25
IM18.10: Brain imaging in Stroke (Tutorial)	PE27.15 Assess airway and breathing: recognise signs of severe respiratory distress. Check for cyanosis, severe chest indrawing, grunting PE27.16 Assess airway and breathing. Demonstrate the method of positioning of an infant & child to open airway in a simulated environment	25.08.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OG.22.2 Describe and discuss the etiology (with special emphasis on Candida, T. vaginalis, bacterial vaginosis), characteristics, clinical diagnosis, investigations, genital hygiene, management of common causes and the syndromic management	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 4.25: Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Nasal Polyps	26.08.25
IM10.27: Haemodialysis (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 4.25: Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Nasal Polyps	27.08.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.4.9 At the end of session , phase 3 part 2 schedule must be able to discuss the complication of amputation.	OR 1.5 Describe and discuss the aetiopathogenesis , clinical features ,investigations and principles of management of dislocation of major joints, shoulder, knee, hip	28.08.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2) : SU27.4.9 At the end of session , phase 3 part 2 schedule must be able to discuss the complication of amputation.	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP 5.1 Define, enumerate and describe the aetiology, associated systemic conditions, clinical features complications indications for referral and management of episcleritis	29.08.25

Saturday	AETCOM Session: Module 4.2: Case studies in medico-legal and ethical situations	SU27.5.1 At the end of session , phase 3 part 2 schedule must be able to describe the anatomy of venous system of lower limb.	Clinical Posting (P): Unit on rotation-SU30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OG.22.2 Describe and discuss the etiology (with special emphasis on Candida, T. vaginalis, bacterial vaginosis), characteristics, clinical diagnosis, investigations, genital hygiene, management of common causes and the syndromic management	Integration: IM6.13 Describe and enumerate the indications and side effects of drugs for bacterial, viral and other types of diarrhea; IM 16.1 Describe and discuss the aetiology of acute and chronic diarrhea including infectious and non infectious causes	30.08.25
Monday	SU27.6.1 At the end of session , phase 3 part 2 schedule must be able to discuss the pathophysiology of DVT.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 23.1 Describe and discuss the physiology of puberty, features of abnormal puberty, common problems and their management	Clinical Posting (P);Unit I(Dr. N.K. Singh SU30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis; SU27.6.2 At the end of session , phase 3 part 2 schedule must be able to discuss the pathophysiology of varicose veins.	<b>IM18.13: Antiplatelet Drugs in Stroke (Tutorial)</b>	<b>PE27.17</b> Assess airway and breathing: administer oxygen using correct technique and appropriate flow rate <b>PE27.18</b> Assess airway and breathing: perform assisted ventilation by Bag and mask in a simulated environment	01.09.25
Tuesday	OR 1.6 Participate as a member in the team for closed reduction of Shoulder dislocation/ hip dislocation/ knee dislocation.	IM10.27- Describe and discuss the indications for renal dialysis	Clinical Posting (P);Unit II (Dr. Vipin Agarwal SU29.10 Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.23.2 Enumerate the causes of delayed puberty. Describe the investigation and management of common causes		02.09.25
Wednesday	IM11.5 Describe and discuss the pathogenesis and temporal evolution of microvascular and macrovascular complications of diabetes	SU27.5.2 At the end of session , phase 3 part 2 schedule must be able to enumerate different disorder of venous system .	Clinical Posting (P);Unit III(Dr. R K Kaul) SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases	<b>IM10.28: Renal Replacement Therapy (Seminar)</b>	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 3.2: Observe and describe the indications for and steps involved in the performance of diagnostic nasal Endoscopy	03.09.25
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 23.1 Describe and discuss the physiology of puberty, features of abnormal puberty, common problems and their management	IM17.12- Describe the indications, pharmacology, dose, side effects of prophylactic therapy in migraine	Clinical Posting (P);Unit IV(Dr. A K Singh) SU28.14 Describe the clinical features, investigations and principles of management of disorders of small and large intestine	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.5.2 At the end of session , phase 3 part 2 schedule must be able to enumerate different disorder of venous system .	OR2.1 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of fractures of Clavicle	04.09.25
Friday	<b>PE30.1</b> Discuss the etio-pathogenesis, clinical features , complications, management and prevention of meningitis in children <b>PE30.2</b> Distinguish bacterial, viral and tuberculous meningitis	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.23.3 Enumerate the causes of precocious puberty	Clinical Posting (P); Unit V (Dr.C K JHAKMOLA)SU30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.5.2 At the end of session , phase 3 part 2 schedule must be able to enumerate different disorder of venous system .	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP 5.2 Define, enumerate and describe the aetiology, associated systemic conditions, clinical features, complications, indications for referral and management of scleritis.	05.09.25
Saturday	AETCOM Session: Module 4.3: Case studies in medico-legal and ethical situations	SU27.5.4 At the end of session , phase 3 part 2 schedule must be able to describe the causes of varicosity of lower limb; SU27.6.2 At the end of session , phase 3 part 2 schedule must be able to discuss the pathophysiology of varicose veins.	Clinical Posting (P): Unit on rotation-SU30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 24.1 Define, classify and discuss abnormal uterine bleeding, its aetiology, clinical features, investigations, diagnosis and management	Integration: IM 16.2 Describe and discuss the acute systemic consequences of diarrhea including its impact on fluid balance; IM 16.3 Describe and discuss the chronic effects of diarrhea including malabsorption	06.09.25
Monday	SU27.6.1 At the end of session , phase 3 part 2 schedule must be able to discuss the pathophysiology of DVT.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 23.1 Describe and discuss the physiology of puberty, features of abnormal puberty, common problems and their management	Clinical Posting (P);Unit I(Dr. N.K. Singh SU30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis; SU27.6.2 At the end of session , phase 3 part 2 schedule must be able to discuss the pathophysiology of varicose veins.	<b>IM18.13: Antiplatelet Drugs in Stroke (Tutorial)</b>	<b>PE27.17</b> Assess airway and breathing: administer oxygen using correct technique and appropriate flow rate <b>PE27.18</b> Assess airway and breathing: perform assisted ventilation by Bag and mask in a simulated environment	08.09.25
Tuesday	OR 1.6 Participate as a member in the team for closed reduction of Shoulder dislocation/ hip dislocation/ knee dislocation.	IM10.27- Describe and discuss the indications for renal dialysis	Clinical Posting (P);Unit II (Dr. Vipin Agarwal SU29.10 Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.23.2 Enumerate the causes of delayed puberty. Describe the investigation and management of common causes		09.09.25

Week 24

Wednesday	IM11.6 Describe and discuss the pathogenesis and precipitating factors, recognition and management of diabetic emergencies	SU27.5.5 At the end of session , phase 3 part 2 schedule must be able to describe the complication in venous system of lower limb.	Clinical Posting (P)Unit III(Dr. R K Kaul) SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.25.1 Describe and discuss the causes of primary and secondary amenorrhea, its investigation and the principles of	IM17.12- Describe the indications, pharmacology, dose, side effects of prophylactic therapy in migraine	Clinical Posting (P):Unit IV(Dr. A K Singh) SU28.14 Describe the clinical features, investigations and principles of management of disorders of small and large intestine
Friday	PE30.3 Discuss the etiopathogenesis, classification, clinical features, complication and management of Hydrocephalus in children; PE27.19 Check for signs of shock i.e. pulse, Blood pressure, CRT	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.25.1 Describe and discuss the causes of primary and secondary amenorrhea, its investigation and the principles of management.	Clinical Posting (P): Unit V (Dr.C K JHAKMOLA)SU30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele
Saturday	AETCOM Session: Module 4.6: Case studies in ethics and the doctor - industry relationship	SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins; SU27.6.3 At the end of session , phase 3 part 2 schedule must be able to discuss the pathophysiology of varicose veins..	Clinical Posting (P): Unit on rotation-SU30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis
Monday	SU27.6.4 At the end of session, phase 3 part 2 schedule must be able to discuss the clinical features of varicose veins.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 26.2 Describe the causes, prevention, clinical features, principles of management of genital injuries and fistulae	OG8.6.To be able to counsel the pregnant woman and her relatives in a simulated environment the importance of correct antenatal care, diet & immunization and of seeking help in case of a perceived abnormality in health.To be able to identify co-morbid conditions in a pregnant woman. Unit 1 (Dr. M Kaur)
Tuesday	OR 2.4 Describe and discuss the mechanism of injury, clinical features, Investigation and principles of management of fracture of shaft humerus and intercondylar fracture humerus with emphasis on neurovascular deficit.	IM10.29- Describe discuss and communicate the ethical and legal issues involved in renal replacement therapy	OG8.2.The student should be able to Elicit, document & present an Obstetric history in detail, which includes elicitation of symptoms, history of previous obstetric, medical & surgical history, significant family & personal history, high risk factors for complications in the present pregnancy, menstrual history, history of patient's antenatal care- past & present, Immunization and contraceptive history. To be able to demonstrate ethical behavior in all aspects of history taking - Unit 1 (Dr. M Kaur)
Wednesday	IM11.6 Describe and discuss the pathogenesis and precipitating factors, recognition and management of diabetic emergencies	SU27.6.5 At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of DVT.	OG8.3.To perform a detailed Abdominal examination followed by an Obstetrical examination in a normal pregnancy. To be able to estimate the period of gestation from the patient history and examination. A DOAP on obstetric examination of a pregnant woman. Unit 1 (Dr. M Kaur)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.26.1 Describe and discuss the etiopathogenesis, clinical features; investigation and implications on health and fertility and management of endometriosis and adenomyosis	IM17.13- Describe the pharmacology, dose, adverse reactions and regimens of drugs used in the treatment of bacterial, tubercular and viral meningitis	OG8.1.To be able to define Gravida, Para & Abortion & write an Obstetric formula. To be able to reach a diagnosis of a pregnant woman with a normal pregnancy Unit 1 (Dr. M Kaur)

Week 25

IM19.1: Approach to a case of Primary Headache (Tutorial); IM10.28- Describe and discuss the indications for renal replacement therapy; IM11.2: Type 1 Diabetes Mellitus (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 4.2.6: Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Adenoids	10.09.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.6.2 At the end of session , phase 3 part 2 schedule must be able to discuss the pathophysiology of varicose veins.	OR 2.2 Describe and discuss the, mechanism of injury, clinical features, investigations and plan management of fractures of proximal humerus; OR 2.3 Select, prescribe and communicate appropriate medications for relief of joint pain	11.09.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.6.2 At the end of session , phase 3 part 2 schedule must be able to discuss the pathophysiology of varicose veins.	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP 5.2 Define, enumerate and describe the aetiology, associated systemic conditions, clinical features, complications, indications for referral and management of scleritis	12.09.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.25.1 Describe and discuss the causes of primary and secondary amenorrhea, its investigation and the principles of management.	Integration: IM 16.6 Distinguish between diarrhea and dysentery based on clinical features; IM 16.9 Identify common parasitic causes of diarrhea under the microscope in a stool specimen	13.09.25
IM20.7: Complications Of Snake Bite And Anti Snake Venom (Tutorial)	PE27.22 Assess level of consciousness & provide emergency treatment to a child with convulsions/ coma - Position an unconscious child - Position a child with suspected trauma - Administer IV/per rectal Diazepam for a convulsing child in a simulated environment	15.09.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.26.1 Describe and discuss the etiopathogenesis, clinical features; investigation and implications on health and fertility and management of endometriosis and adenomyosis		16.09.25
IM20.6: Lab Tests in Snake Bite (Tutorial); IM11.2: Acute emergencies in Diabetes (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 3.3: Observe and describe the indications for and steps involved in the performance of Rigid/Flexible Laryngoscopy	17.09.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.6.3 At the end of session , phase 3 part 2 schedule must be able to discuss the pathophysiology of varicose veins.	OR 2.5 Describe and discuss the aetiopathogenesis, clinical features, mechanism of injury Investigation and principles of management of fracture of both bone forearm and Galeazzi and Monteggia injury	18.09.25

Friday	<b>PE30.4</b> Discuss the etiopathogenesis, classification, clinical features, and management of Microcephaly in children; PE27.21 Choose the type of fluid and calculate the fluid requirement in shock	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.26.1 Describe and discuss the etiopathogenesis, clinical features; investigation and implications on health and fertility and management of endometriosis and adenomyosis	OG8.4.To observe & be able to demonstrate clinical monitoring of maternal & fetal wellbeing.To be able to apply different tests to determine fetal well being.To be able to identify high risk factors in the mother. Unit 1 (Dr. M Kaur)
Saturday	AETCOM Session: Module 4.8: Dealing with death	<b>SU27.6.6</b> At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of varicose veins.	OG8.5.To be able to describe & demonstrate pelvic assessment in a model. To be able to identify abnormalities in the pelvis in different models and be able to describe the obstetrical implications of common abnormalities of the pelvis. Unit 1 (Dr. M Kaur)
Monday	<b>SU27.6.4</b> At the end of session, phase 3 part 2 schedule must be able to discuss the clinical features of varicose veins.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 26.2 Describe the causes, prevention, clinical features, principles of management of genital injuries and fistulae	OG8.6.To be able to counsel the pregnant woman and her relatives in a simulated environment the importance of correct antenatal care, diet & immunization and of seeking help in case of a perceived abnormality in health.To be able to identify co-
Tuesday	OR 2.6 Describe and discuss Etiopathogenesis, mechanism of injury, clinical feature, investigation and principles of management of fracture of distal radius	<b>IM10.30-</b> Recognise the impact of CKD on patient's quality of life well being work and family; <b>IM11.18</b> Describe and discuss the pharmacology, indications, adverse reactions and interactions of drugs used in the prevention and treatment of target organ damage and complications of Type II Diabetes including neuropathy, nephropathy, retinopathy, hypertension, dyslipidemia and cardiovascular disease	OG8.7, OG8.8.To be able to enumerate indications for & types of vaccinations in pregnancy.To be able to enumerate the indications & describe the routine investigations in a pregnant woman, including the use of ultrasound in the initial assessment & monitoring in pregnancy; OG35.1, OG35.2.To be able to elicit, document & present a gynecology case history
Wednesday	<b>IM11.6</b> Describe and discuss the pathogenesis and precipitating factors, recognition and management of diabetic emergencies	<b>SU27.6.5</b> At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of DVT.	OG8.3.To perform a detailed Abdominal examination followed by an Obstetrical examination in a normal pregnancy. To be able to estimate the period of gestation from the patient history and examination. A DOAP on obstetric examination of a pregnant woman. Unit 1 (Dr. M Kaur)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.1 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of sexually transmitted infections	<b>IM18.1-</b> Describe the functional and the vascular anatomy of the brain	OG35.6 – OG35.8. To be able to apply the principles of Medical ethics in history taking & examination of a gynecology patient. To be able to do a General Physical Examination of a gynec case, gynec examination of the patient upto per abdominal examination and be familiar with per speculum and per vaginal examinations in a simulated environment. DOAP of a per abdominal examination of a gynec case. Unit 1 (Dr. M Kaur)
Friday	<b>PE30.5</b> Enumerate the Neural tube defects. Discuss the causes, clinical features, types, and management of Neural Tube defect	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.1 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of sexually transmitted infections	OG9.1.To be able to diagnose from history and examination a case of Abortion, Define, classify, & discuss the etiology of abortions, including Threatened, Inevitable, Missed, Incomplete, Complete & Septic abortions. To be able to formulate appropriate management plans for the type of abortion. Unit 1 (Dr. M Kaur)

Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.6.3 At the end of session , phase 3 part 2 schedule must be able to discuss the pathophysiology of varicose veins.	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP 6.1 Describe clinical signs of intraocular inflammation and enumerate the features that distinguish granulomatous from non-granulomatous inflammation. Identify acute iridocyclitis from chronic condition; 6.2 Identify and distinguish acute iridocyclitis from chronic iridocyclitis	19.09.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 26.2 Describe the causes, prevention, clinical features, principles of management of genital injuries and fistulae	Integration: IM 16.11 Enumerate the indications for stool cultures and blood cultures in patients with acute diarrhea; IM 16.13 Describe and enumerate the indications, pharmacology and side effects of pharmacotherapy for parasitic causes of diarrhea	20.09.25
<b>IM20.7: Complications Of Snake Bite And Anti Snake Venom (Tutorial)</b>	<b>PE27.22</b> Assess level of consciousness & provide emergency treatment to a child with convulsions/ coma - Position an unconscious child - Position a child with suspected trauma - Administer IV/per rectal Diazepam for a convulsing child in a simulated environment	22.09.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 26.2 Describe the causes, prevention, clinical features, principles of management of genital injuries and fistulae		23.09.25
<b>IM20.6: Lab Tests in Snake Bite (Tutorial); IM11.2: Acute emergencies in Diabetes (Seminar)</b>	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 4.2.6: Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Adenoids	24.09.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.6.7 At the end of session , phase 3 part 2 schedule must be able to discuss the medical management of DVT.	OR 2.7 Describe and discuss the Etiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of pelvic injury with emphasis on hemodynamic instability	25.09.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.6.7 At the end of session , phase 3 part 2 schedule must be able to discuss the medical management of DVT.	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP 6.1 Describe clinical signs of intraocular inflammation and enumerate the features that distinguish granulomatous from non-granulomatous inflammation. Identify acute iridocyclitis from chronic condition; 6.2 Identify and distinguish acute iridocyclitis from chronic iridocyclitis	26.09.25

Saturday	AETCOM Session: Module 4.2: Case studies in medico-legal and ethical	SU27.6.8 At the end of session , phase 3 part 2 schedule must be able to discuss the management of varicosity of veins	OG9.2,OG20.1-20.3.To define and classify MTP, describe the procedures and steps, observe and assist in the performance of an MTP evacuation. To be able to enumerate the indications and describe & discuss the legal aspects, indications, methods for first & second trimester MTP; Complications and management of complications. Administer Informed consent to patient or guardian in a simulated environment. Discuss the PC & PNDT Act 1994 & 2021. Unit 1 (Dr. M Kaur)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.1 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of sexually transmitted infections	Integration: MI 3.1 Enumerate the microbial agents causing diarrhea and dysentery; MI3.2 Identify the common etiologic agents of diarrhea and dysentery	27.09.25
Monday	SU27.6.8 At the end of session , phase 3 part 2 schedule must be able to discuss the management of varicosity of veins	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.1 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of sexually transmitted infections	OG9.3. To be able to diagnose from history & examination, a patient of Acute Pain Abdomen in early pregnancy(with a focus on ectopic pregnancy) & enumerate the principles of Medical & surgical management . Unit 1 (Dr. M Kaur)	IM22.3: management of hypercalcemia (Tutorial)	PE27.23 Assess for signs of severe dehydration	29.09.25
Tuesday	OR 2.8 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, Investigations and principles of management of spine injuries with emphasis on mobilization of the patient; OR 2.7 Describe and discuss the Etiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of	IM10.31- Incorporate patient preferences in to the care of CKD	OG9.4. To be able to provisionally diagnose a case of Gestational Trophoblastic Disease or Neoplasm from history & examination, discuss clinical features, laboratory investigations, Ultrasound findings, Differential diagnosis, principles of management and follow up of a patient of Gestational Trophoblastic Disease. Unit 1.(Dr. M Kaur)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.2 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of genital tuberculosis		30.09.25
Wednesday	IM11.18 Describe and discuss the pharmacology, indications, adverse reactions and interactions of drugs used in the prevention and treatment of target organ damage and complications of Type II Diabetes including neuropathy, nephropathy, retinopathy, hypertension, dyslipidemia and cardiovascular disease	SU27.6.9:At the end of session , phase 3 part 2 schedule must be able to discuss the surgical management of DVT; SU27.6.7 At the end of session , phase 3 part 2 schedule must be able to discuss the medical management of DVT..	OG9.5. To be able to diagnose a case of Hyperemesis Gravidarum by history, examination & investigations.To know the principles of management & the impact of Hyperemesis Gravidarum on maternal & fetal health; OG10.1; OG10.2; OG16.1. To be able to reach a provisional diagnosis of Antepartum Hemorrhage. Describe the first aid to be provided to the patient, confirmation of diagnosis and general & obstetric management of Abruptio Placentae. To be able to select the correct blood products to manage APH & its complications. Unit 1 (Dr. M.Kaur)	IM11.23: Diagnosis and Management of DKA (Seminar); IM18.2- Classify cerebrovascular accidents and describe the aetiology,predisposing genetic and risk factors pathogenesis of hemorrhagicand non hemorrhagic stroke; IM18.1- Describe the functional and the vascular anatomy of the brain	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 3.4: Observe and describe the indications for and steps involved in the removal of foreign bodies from ear, nose & throat	01.10.25
Thursday	Holiday					
Friday	PE30.8 Define epilepsy. Discuss the pathogenesis, clinical types, presentation and management of Epilepsy in children PE30.9 Define status Epilepticus. Discuss the clinical presentation and management	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.2 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of genital tuberculosis	OG16.1-To be able to reach a provisional diagnosis of Antepartum Hemorrhage. Describe the first aid to be provided to the patient, confirmation of diagnosis and general & obstetric management of Placenta Previa. Unit 1 (Dr. M Kaur)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.6.9 At the end of session , phase 3 part 2 schedule must be able to discuss the surgical management of DVT.	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP 6.1 Describe clinical signs of intraocular inflammation and enumerate the features that distinguish granulomatous from non-granulomatous inflammation. Identify acute iridocyclitis from chronic condition; 6.2 Identify and distinguish acute iridocyclitis from chronic iridocyclitis	02.10.25
Saturday	AETCOM Session: Module 4.4: Case studies in ethics empathy and the doctor-patient relationship	SU27.6.11 At the end of session , phase 3 part 2 schedule must be able to discuss the complication of surgery in DVT.	OG11.1.To diagnose a case of Multifetal gestation.To describe etiopathology, clinical features, diagnosis and investigations, principles of management & complications of Multiple gestations. Unit 1 (Dr. M Kaur)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.2 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of genital tuberculosis	Integration: CM3.3 Describe the aetiology and basis of water borne diseases/jaundice/hepatitis/ diarrheal diseases; PE 24.1 Discuss the etio-pathogenesis, classification, clinical presentation and management of diarrheal diseases in children	04.10.25

Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.6.9 At the end of session , phase 3 part 2 schedule must be able to discuss the surgical management of DVT.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.3 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of HIV	OG12.1. To be able to diagnose a case of Hypertension in Pregnancy, with correct method of Blood Pressure measurement, classify Hypertension of Pregnancy according to severity, get the appropriate investigations, Interpretation of the investigations, etiology, pathophysiology of
Tuesday	OR 2.10 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of proximal femur; OR 2.9 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of acetabular fracture	IM22.1 - Enumerate the causes of hypercalcemia and distinguish the features of PTH vs non PTH mediated hypercalcemia	OG12.1-To know the Etiology, pathophysiology, symptoms & signs, of Eclampsia. To know the Immediate management, investigations , General & Obstetric management of a case of Eclampsia.complications Unit 1 (Dr. M Kaur)
Wednesday	IM11.22 Enumerate the causes of hypoglycaemia and describe the counter hormone response and the initial approach and treatment	SU27.7 Describe pathophysiology, clinical features, investigations and principles of management of Lymph edema, lymphangitis and Lymphomas	OG12.2.To be able to identify anemia in pregnancy, severity of anemia clinically & by investigations, be able to describe etiology, pathophysiology, diagnosis, investigations, cause, severity and gestational age appropriate management of anemia. To be able to describe the Maternal & fetal complications of Anemia in pregnancy Unit 1 (Dr. M Kaur)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.3 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of HIV	IM18.10- Choose and interpret the appropriate diagnostic testing in youngpatients with a cerebrovascular accident (CVA)	OG12.3.To be able to define, classify & describe the pathophysiology, diagnosis, investigations, aderse maternal & fetal effects of Diabetes in pregnancy. To ba able to screen for gestational Diabetes Mellitus(GDM) & diagnose it. To describe the general & obstetric management for a case of GDM. Unit 1 (Dr. M Kaur)
Friday	PE30.10 Discuss the etio-pathogenesis, clinical features and management of Mental retardation in children PE30.11 Discuss the etio-pathogenesis, clinical features and management of children with cerebral palsy	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.4 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of Pelvic Inflammatory Disease	OG12.4. To be able to recognise, classify Heart Disease as Cyanotic/ acyanotic & according to NYHA , Cardiac Disease in pregnancy, its management during antenatal period, management of different stages of labor, puerperium, advice for contraception, maternal & fetal complications of heart disease in pregnancy. Unit 1 (Dr. M Kaur)
Saturday	AETCOM Session: Module 4.6: Case studies in ethics and the doctor - industry relationship	SU27.7.1 At the end of session , phase 3 part 2 schedule must be able to describe the lymphedema,Lymphangitis, Lymphomas.	OG12.5. To be able to describe the clinical features, investigations, diagnosis, complications, treatment effects of urinary tract infections during pregnancy Unit 1 (Dr. M Kaur)
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.7 Describe pathophysiology, clinical features, investigations and principles of management of Lymph edema, lymphangitis and Lymphomas	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.4 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of Pelvic Inflammatory Disease	OG12.6. To recognise Jaundice in pregnancy.To describe the clinical features, detection, effects of pregnancy on the liver disease, effects of the disease on pregnancy & management of Liver disease in pregnancy. To know the Liver diseases specific to pregnancy and coincidental to pregnancy. Unit 2 (Dr. K Ram)

IM22.9: Metabolic Acidosis (Tutorial)	PE27.27 Assess for hypothermia and maintain temperature		06.10.25
	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.3 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of HIV		07.10.25
IM11.24: Diagnosis and Management of Hyperosmolar Coma (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 4.28: Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Vasomotor Rhinitis; EN 4.27: Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Allergic Rhinitis		08.10.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.7 Describe pathophysiology, clinical features, investigations and principles of management of Lymph edema, lymphangitis and Lymphomas	OR2.11 Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of (a) Fracture patella (b) Fracture distal femur (C) Fracture proximal tibia with special focus on neurovascular injury and compartment syndrome		09.10.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.7 Describe pathophysiology, clinical features, investigations and principles of management of Lymph edema, lymphangitis and Lymphomas	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP 6.1 Describe clinical signs of intraocular inflammation and enumerate the features that distinguish granulomatous from non-granulomatous inflammation. Identify acute iridocyclitis from chronic condition; 6.2 Identify and distinguish acute iridocyclitis from chronic iridocyclitis		10.10.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.4 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of Pelvic Inflammatory Disease	Integration: PE 24.2 Discuss the classification and clinical presentation of various types of diarrheal dehydration; PE 24.4 Discuss the types of fluid used in Paediatric diarrheal diseases and their composition		11.10.25
IM22.10: Metabolic Alkalosis (Tutorial)	PE22.2 Counsel a patient with Chronic illness		13.10.25

Tuesday	OR 2.12 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of Fracture shaft of femur in all age groups and the recognition and management of fat embolism as a complication	IM22.2- Describe the aetiology, clinical manifestations, diagnosis and clinical approach to primary hyperparathyroidism	OG12.7. To be able to describe and discuss screening, risk factors, management of mother with HIV in pregnancy and of the newborn of an HIV positive mother Unit 2 (Dr. K Rani)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.27.4 Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of Pelvic Inflammatory Disease	14.10.25
Wednesday	IM11.23 Describe the precipitating causes, pathophysiology, recognition, clinical features, diagnosis, stabilisation and management of diabetic ketoacidosis	SU27.7.2 At the end of session , phase 3 part 2 schedule must be able to discuss the clinical features of lymphedema, Lymphangitis, Lymphomas.	OG12.8.To be able to describe the mechanism, prophylaxis, Fetal complications, diagnosis and management of Isoimmunization in Pregnancy. Unit 2 (Dr. K Rani)	<b>IM12.1: Approach to a patient of Thyroid Dysfunction (Seminar); IM13.4: Recognition of Common Malinancies (Seminar)</b>	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 3.5: Observe and describe the indications for and steps involved in the surgical procedures in ear, nose & throat
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.1 Describe and discuss the common causes, pathogenesis, clinical features, differential diagnosis; investigations; principles of management of infertility – methods of tubal patency, ovulation induction, assisted reproductive techniques	IM18.11- Describe the initial supportive management of a patient presenting with a cerebrovascular accident (CVA)	OG14.1,14.2:13.1,13.4. To be able to enumerate & discuss the diameters of the Maternal Pelvis and the types of pelvises. To know & be able to describe the landmarks & diameters of the Fetal Skull. To discuss mechanism of Normal Labor. Enumerate & discuss Physiology, stages and mechanism of Normal Labor with Occipito-anterior position. Unit 2 (Dr. K Rani)	<b>Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.7.2 At the end of session , phase 3 part 2 schedule must be able to discuss the clinical features of lymphedema, Lymphangitis, Lymphomas.</b>	OR 2.13 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of: (a) Fracture both bones leg (b) Calcaneus (c) Small bones of foot
Friday	<b>PE30.12</b> Enumerate the causes of floppiness in an infant and discuss the clinical features, differential diagnosis and management	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.1 Describe and discuss the common causes, pathogenesis, clinical features, differential diagnosis; investigations; principles of management of infertility – methods of tubal patency, ovulation induction, assisted reproductive techniques	OG13.3,13.5. To know the monitoring of labor, plotting the Partograms, observe & assist in artificial rupture of membranes and observe & assist in the conduct of a normal vaginal delivery. Unit 2 (Dr. K Rani)	<b>Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): SU27.7.2 At the end of session , phase 3 part 2 schedule must be able to discuss the clinical features of lymphedema, Lymphangitis, Lymphomas.</b>	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP 6.3 Enumerate systemic conditions that can present as iridocyclitis and describe their ocular manifestations
Saturday	AETCOM Session: Module 4.8: Dealing with death	SU27.7.3 At the end of session , phase 3 part 2 schedule must be able to discuss the investigation of lymphedema, lymphangitis, Lymphomas.	OG13.2. To be able to define, describe the causes, pathophysiology, diagnosis, investigations and the management of Preterm Labor, PPRM, PROM & Post term pregnancies. Unit 2 (Dr. K Rani)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.1 Describe and discuss the common causes, pathogenesis, clinical features, differential diagnosis; investigations; principles of management of infertility – methods of tubal patency, ovulation induction, assisted reproductive techniques	Integration: PE 24.5 Discuss the role of antibiotics, antispasmodics, anti-secretory drugs, probiotics, anti-emetics in acute diarrheal diseases; PE 24.9 Elicit, document and present history pertaining to diarrheal diseases
Diwali 20.10.25 to 25.10.25					
Monday	<b>Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.21.1</b> Describe surgical anatomy of the salivary glands, pathology, and clinical presentation of disorders of salivary glands	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.1 Describe and discuss the common causes, pathogenesis, clinical features, differential diagnosis; investigations; principles of management of infertility – methods of tubal patency, ovulation induction, assisted reproductive techniques	OG14.2.To be able to describe pelvic assessment in an abnormal pelvic type in a model, describe Cephalopelvic disproportion (CPD), Obstructed Labor, its symptoms, signs, prevention & management. Unit 2 (Dr. K Rani)	<b>IM22.11: Respiratory Acidosis (Tutorial)</b>	<b>PE34.5</b> Able to elicit, document and present history of contact with tuberculosis in every patient encounter <b>PE34.6</b> Identify a BCG scar <b>PE34.7</b> Interpret a Mantoux test
Tuesday	OR2.14 Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of ankle fractures	IM22.3- Describe the approach to the management of hypercalcemia; IM11.24 Describe the precipitating causes, pathophysiology, recognition, clinical features, diagnosis, stabilisation and management of Hyperosmolar non ketotic state	OG14.3. To be able to describe & discuss Rupture Uterus, causes, diagnosis & management. To know the principles of Peripartum Hysterectomy (Obstetric Hysterectomy-OH). Unit 2 (Dr. K Rani)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.2 Enumerate the assessment and restoration of tubal latency	28.10.25
Wednesday	IM11.23 Describe the precipitating causes, pathophysiology, recognition, clinical features, diagnosis, stabilisation and management of diabetic ketoacidosis	SU27.7.2 At the end of session , phase 3 part 2 schedule must be able to discuss the clinical features of lymphedema, Lymphangitis, Lymphomas.	OG12.8.To be able to describe the mechanism, prophylaxis, Fetal complications, diagnosis and management of Isoimmunization in Pregnancy. Unit 2 (Dr. K Rani)	<b>IM12.1: Approach to a patient of Thyroid Dysfunction (Seminar); IM13.4: Recognition of Common Malinancies (Seminar)</b>	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 4.29: Elicit, document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Acute & Chronic Rhinitis
					29.10.25

Week 30

Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.2 Enumerate the assessment and restoration of tubal latency	IM18.12- Enumerate the indications for and describe acute therapy of nonhemorrhagic stroke including the use of thrombolytic agents	OG14.4. To be able to describe & discuss the classification, Diagnosis, causes & management of Abnormal Labor in Malpresentations & Malpositions - Face Presentation. Unit 2 (Dr. K Rani)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.21.1 Describe surgical anatomy of the salivary glands, pathology, and clinical presentation of disorders of salivary glands	OR 2.15 Plan and interpret the investigations to diagnose complications of fractures like malunion, non-union, infection, compartmental syndrome	30.10.25
Friday	PE30.13 Discuss the etio-pathogenesis, clinical features, management and prevention of Poliomyelitis in children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.2 Enumerate the assessment and restoration of tubal latency	OG15.1. To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques, Postoperative management and their complications. Episiotomy Unit 2 (Dr. K Rani)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 21.2 Enumerate the appropriate investigations and describe the Principles of treatment of disorders of salivary glands; SU27.7.4 At the end of session , phase 3 part 2 schedule must be able to discuss the pathophysiology of lymphedema.Lymphangitis, Lymphomas.	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP 6.3 Enumerate systemic conditions that can present as iridocyclitis and describe their ocular manifestations	31.10.25
Saturday	AETCOM Session: Module 4.4: Case studies in ethics empathy and the doctor-patient relationship	SU 27.7.5 At the end of session , phase 3 part 2 schedule must be able to enumerate the causes of lymphedema, Lymphangitis, Lymphomas.	OG15.1. To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques, postoperative management and their complications Vacuum extraction, Low Forceps delivery. Unit 2 (Dr. K Rani)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.3 Describe the principles of ovulation induction	Integration: PH 1.28 Describe the mechanisms of action, types, doses, side effects, indications and contraindications of the drugs used in ischemic heart disease; IM 2.1 Discuss and describe the epidemiology, antecedents and risk factors for atherosclerosis and ischemic heart disease	01.11.25

Second Terminal Exam - 03.11.25 to22.11.25

Week 31

Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 22.1 Describe the applied anatomy and physiology of thyroid	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.3 Describe the principles of ovulation induction	OG15.1. To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques, postoperative management and the complications of	IM22.12: Respiratory Alkalosis (Tutorial)	PE34.8 Interpret a Chest Radiograph PE34.9 Interpret blood tests in the context of laboratory evidence for tuberculosis	24.11.25
Tuesday	OR 2.16 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of open fractures with focus on secondary infection, prevention and management	IM22.4- Enumerate the components and describe the genetic basis of the multiple endocrine neoplasia syndrome	OG15.1 To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques and their complications of Assisted Breech Delivery Unit 2 (Dr. K Rani)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.3 Describe the principles of ovulation induction		25.11.25
Wednesday	IM12.1 Describe the epidemiology and pathogenesis of hypothyroidism and hyperthyroidism including the influence of Iodine deficiency and autoimmunity in the pathogenesis of thyroid disease	SU27.7.6 At the end of session , phase 3 part 2 schedule must be able to discuss the management of lymphedema, Lymphangitis, Lymphomas; SU27.7.7 At the end of session , phase 3 part 2 schedule must be able to discuss the complication of lymphedema, Lymphangitis, Lymphomas.	OG15.1. To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques, postoperative management and the complications of Cervical Encerclage. Unit 2 (Dr. K Rani)	IM13.12: Tumour markers (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 3.6: Observe and describe the indications for and steps involved in the skills of emergency procedures in ear, nose & throat	26.11.25
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.4 Enumerate the various Assisted Reproduction Techniques	IM18.13- Enumerate the indications for and describe the role of anti plateletagents in non hemorrhagic stroke	OG 15.2- Observe/assist Episiotomy procedure during Labour room Posting Perform episiotomy closure using the appropriate suture material on skill learning modules Observe LSCS procedure during Labour room Posting Unit 2 (Dr. K Rani) Observe outlet forceps/Vacuum Extraction procedure during Labour room Posting Observe assisted vaginal breech delivery during Labour room Posting	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 22.2 Describe the etio-pathogenesis of thyroidal swellings	OR 3.1 Describe and discuss the aetiopathogenesis, clinical features, Investigations and principles of management of Bone and Joint infections a) Acute Osteomyelitis b) Subacute osteomyelitis c) Acute Suppurative arthritis d) Septic arthritis & HIV infection e) Spirochaetal infection f) Skeletal Tuberculosis	27.11.25
Friday	PE30.7 Discuss the etio-pathogenesis, clinical features, complications and management of Febrile seizures in children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.28.4 Enumerate the various Assisted Reproduction Techniques	OG16.1, OG 16.2- Enumerate various complications of third stage of labour Define post partum haemorrhage Discuss the causes and types of post partum haemorrhage Discuss the diagnosis of post partum haemorrhage Describe the	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.22.3 Demonstrate and document the correct clinical examination of thyroid swellings and discuss the differential diagnosis and their management	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP6.4 Describe and distinguish hyphema and hypopyon	28.11.25

Saturday	AETCOM Session: Module 4.4: Case studies in ethics empathy and the doctor-patient relationship	SU 27.7.5 At the end of session , phase 3 part 2 schedule must be able to enumerate the causes of lymphedema, Lymphangitis, Lymphomas.	OG15.1. To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques, postoperative management and their complications Vacuum extraction, Low Forceps delivery. Unit 2 (Dr. K Rani)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); O.G.28.3 Describe the principles of ovulation induction	Integration: PH 1.28 Describe the mechanisms of action, types, doses, side effects, indications and contraindications of the drugs used in ischemic heart disease; IM 2.1 Discuss and describe the epidemiology, antecedents and risk factors for atherosclerosis and ischemic heart disease	29.11.25
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); S.U. 22.4 Describe the clinical features, classification and principles of management of thyroid cancer	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); O.G.29.1 Describe and discuss the etiology; pathology; clinical features; differential diagnosis; investigations; principles of management, complications of fibroid uterus	OG16.3-Enumerate the causes of FGR Discuss the clinical features of FGR Discuss the diagnostic modalities of FGR. Describe various antepartum fetal surveillance tests for monitoring and principles of management of FGR Describe the preventive methods of FGR Describe	IM22.13: Case based ABG interpretation (Tutorial)	PE32.2 Identify the clinical features of Down's Syndrome PE32.3 Interpret normal Karyotype and recognize Trisomy 21	01.12.25
Tuesday	OR 2.16 Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of open fractures with focus on secondary infection, prevention and management	IM22.4- Enumerate the components and describe the genetic basis of the multiple endocrine neoplasia syndrome	OG15.1 To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques and their complications of Assisted Breech Delivery Unit 2 (Dr. K Rani)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); O.G.28.3 Describe the principles of ovulation induction		02.12.25
Wednesday	IM12.2 Describe and discuss the genetic basis of some forms of thyroid dysfunction; IM22.5- Enumerate the causes and describe the clinical features and the correct approach to the diagnosis and management of the patient with hyponatremia	SU27.8.1 At the end of session , phase 3 part 2 schedule must be able to enumerate different lymphatic disorder.	OG17.3- Discuss the Breast complications during Lactation, Discuss the clinical features & Management of Breast Engorgement, Crack & Fissure Nipple, Mastitis, Breast abscess Differentiate between mastitis and breast abscess Unit 2 (Dr. K Rani)	IM14.3: Obesity : Genetics (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); EN 4.30: Elicit document and present a correct history, demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamous type of Epistaxis; Lecture/EN 4.31; Describe the clinical features, investigations and principles of management of trauma to the face & neck	03.12.25
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); O.G.29.1 Describe and discuss the etiology; pathology; clinical features; differential diagnosis; investigations; principles of management, complications of fibroid uterus	IM18.14- Describe the initial management of a hemorrhagic stroke	OG18.1, OG18.2, OG18.3, OG18.4- Discuss the criteria for assessment of gestational age at birth. Discuss the basic principles of resuscitation of newborns. Discuss the diagnosis of birth asphyxia. Enumerate the common problems of normal newborn. Describe APGAR score. Unit 2 (Dr. K Rani)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); S.U.22.5 Describe the applied anatomy of parathyroid	OR 3.2 Participate as a member in team for aspiration of joints under supervision; OR 3.3 Participate as a member in team for procedures like drainage of abscess, sequestrectomy/ saucerisation and arthrotoomy	04.12.25
Friday	PE30.14 Discuss the etiopathogenesis, clinical features and management of Duchene muscular dystrophy	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); O.G.30.1 Describe and discuss the etiopathogenesis; clinical features; differential diagnosis; investigations; management, complications of PCOS	OG19.1. Discuss various methods of temporary contraception available for the couple after delivery. Describe the various methods of permanent contraception. Describe the steps of puerperal sterilization. Discuss the complications of puerperal sterilization, Unit 2 (Dr. K Rani)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); S.U. 22.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2) : OP6.4 Describe and distinguish hyphema and hypopyon	05.12.25
Saturday	AETCOM Session: Module 4.8: Dealing with death	SU27.8.2 At the end of session , phase 3 part 2 schedule must be able to discuss the clinical features of lymphatic disorder	OG19.2- Counsel in a simulated environment about the advantages and disadvantages of various contraceptive methods properly. Unit 2 (Dr. K Rani)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); O.G.30.1 Describe and discuss the etiopathogenesis; clinical features; differential diagnosis; investigations; management, complications of PCOS	Integration: IM 2.2 Discuss the aetiology of risk factors of both modifiable and non modifiable of atherosclerosis and IHD; IM2.11 Order and interpret a Chest X-ray and markers of acute myocardial infarction	06.12.25
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); S.U. 23.1 Describe the applied anatomy of adrenal glands	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); O.G.30.1 Describe and discuss the etiopathogenesis; clinical features; differential diagnosis; investigations; management, complications of PCOS	OG12.6. To recognise Jaundice in pregnancy. To describe the clinical features, detection, effects of pregnancy on the liver disease, effects of the disease on pregnancy & management of Liver disease in pregnancy. To know the Liver diseases specific to pregnancy and coincidental to pregnancy. Unit 3 (Dr. A Lalwani)	IM25.2: Tetanus (Tutorial)	PE32.7 Identify the clinical features of Turner Syndrome PE32.8 Interpret normal Karyotype and recognize the Turner Karyotype	08.12.25

Tuesday	OR 4.1 Describe and discuss the clinical features, Investigation and principles of management of Tuberculosis affecting major joints (Hip, Knee) including cold abscess and caries spine	IM22.6- Enumerate the causes and describe the clinical and laboratory features and the correct approach to the diagnosis and management of the patient with hyponatremia	OG21.1.Demonstrate about the suitable contraception to the couple. Counsel regarding the indications, contraindications, side effects, complications and failure rates of hormonal contraception. Counsel regarding the indication, contraindications, side effects, complications and failure rate of non – hormonal contraception. Describe Methods of Emergency Contraception. Unit 3 (Dr. S Agarwal)
Wednesday	IM12.3 Describe and discuss the physiology of the hypothalamopituitary -thyroid axis, principles of thyroid function testing and alterations in physiologic function	SU27.8.3 At the end of session , phase 3 part 2 schedule must be able to discuss the complication of lymphatic disorder.	OG21.1.Enumerate the indications for using Intrauterine Contraceptive devices. Discuss the pre-requisites before inserting IUCD in the procedure room. Describe the steps for insertion l of IUCD in the procedure room. Identify the instruments used in IUCD insertion. Discuss the contraindications and side effects of IUCD. Describe the management of complications with IUCD insertion. Discuss various indications for IUCD removal. Describe the steps of IUCD removal in the procedure room. Identify the instruments used in removal of IUCD.Management of Missing Cu-T thread. Unit 3 (Dr. S Agarwal)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.30.2 Enumerate the causes and describe the investigations and management of hyperandrogenism	IM18.15- Enumerate the indications for surgery in a hemorrhagic stroke	OG21.1- Describe the types, advantages, disadvantages and failure rate of male condom correctly. Describe the techniques, complications and follow up of vasectomy correctly. Unit 3 (Dr. S Agarwal)
Friday	PE20.7 Discuss the etiology, clinical features and management of Birth asphyxia	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.30.2 Enumerate the causes and describe the investigations and management of hyperandrogenism	OG21.2 - Describe the timing of PPIUCD insertion, mechanism of action and failure rate of PPIUCD correctly. enumerate the advantages and side-effects of PPIUCD correctly enumerate the contraindications of PPIUCD correctly. describe the methods of PPIUCD insertion and post insertion care correctly. Unit 3 (Dr. S Agarwal)
Saturday	AETCOM Session: Module 4.2: Case studies in medico-legal and ethical	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.23.3 Describe the clinical features, principles of investigation and management of Adrenal tumors	OG22.1, OG22.2- Describe the characteristics of physiological vaginal discharge correctly. enumerate the causes of vaginal discharge in children, reproductive age and post-menopausal age group correctly. differentiate between bacterial vaginosis, vaginal candidiasis, and trichomonas vaginitis correctly. describe the clinical features, investigations and treatment of vaginal candidiasis, trichomonas vaginitis and bacterial vaginosis correctly. describe syndromic management of vaginal discharge correctly. Unit 3 (Dr. A Lalwani)
Monday	Surgery -Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.23.3 Describe the clinical features, principles of investigation and management of Adrenal tumors	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.30.2 Enumerate the causes and describe the investigations and management of hyperandrogenism	OG24.1- Define abnormal uterine bleeding. Discuss the etiology of abnormal uterine bleeding as per PALM-COEIN classification. Describe various clinical features, investigations and management of patient with abnormal uterine bleeding. Unit 3 (Dr.S Agarwal)

Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.30.1 Describe and discuss the etiopathogenesis; clinical features; differential diagnosis; investigations; management, complications of PCOS		09.12.25
IM14.5: Obesity : effects on the body (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 1.1: Anatomy & physiology of ear, nose, throat, head & neck	10.12.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 23.2 Describe the etiology, clinical features and principles of management of disorders of adrenal gland	OR 5.1 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of various inflammatory disorder of joints	11.12.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2):S.U.23.3 Describe the clinical features, principles of investigation and management of Adrenal tumors	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP6.5 Describe and discuss the angle of the anterior chamber and its clinical correlates	12.12.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.30.2 Enumerate the causes and describe the investigations and management of hyperandrogenism	Integration: IM 2.4 Discuss and describe the pathogenesis natural history, evolution and complications of atherosclerosis and IHD; IM 2.6 Elicit document and present an appropriate history that includes onset evolution, presentation risk factors, family history, comorbid conditions, complications, medication, history of atherosclerosis, IHD and coronary syndromes	13.12.25
IM25.3: Rabies (Tutorial)	PE32.12 Identify the clinical features of Klinefelter Syndrome PE32.13 Interpret normal Karyotype and recognize the Klinefelter Karyotype	15.12.25

Tuesday	OR 6.1 Describe and discuss the clinical features, investigations and principles of management of degenerative condition of spine (Cervical Spondylosis, Lumbar Spondylosis, PID)	IM22.7- Enumerate the causes and describe the clinical and laboratory features and the correct approach to the diagnosis and management of the patient with hypokalaemia	OG23.1, OG23.2, OG23.3- Describe the physiology and changes in puberty correctly. List the common disorders of puberty correctly. Define precocious puberty and delayed puberty accurately. Describe the evaluation and management of delayed puberty correctly. Enumerate the causes of delayed puberty correctly. Classify and enumerate the causes of precocious puberty accurately. Describe the evaluation and treatment of precocious puberty correctly. Unit 3 (Dr. S Agarwal)
Wednesday	IM12.4 Describe and discuss the principles of radio iodine uptake in the diagnosis of thyroid disorders	SU28.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias	OG25.1. Define the primary amenorrhea correctly. Define the secondary amenorrhea correctly. Enumerate the causes of primary amenorrhea. Describe the principles of management including investigation and Treatment in patient presenting with primary amenorrhea. Unit 3 (Dr. S Agarwal)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.31.1 Describe and discuss the etiology, classification, clinical features, diagnosis, investigations, principles of management and preventive aspects of prolapse of uterus	IM18.16- Enumerate the indications describe and observe themultidisciplinary rehabilitation of patients with a CVA	OG25.1. Enumerate the causes of Secondary Amenorrhoea. Discuss the management of secondary amenorrhea. Unit 3 (Dr. S Agarwal)
Friday	PE20.8 Describe the etiology, clinical features and management of respiratory distress in New born including meconium aspiration and transient tachypnoea of newborn	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.31.1 Describe and discuss the etiology, classification, clinical features, diagnosis, investigations, principles of management and preventive aspects of prolapse of uterus	OG 26.1- Define endometriosis. Describe the etiology and pathogenesis of endometriosis. Describe clinical features of endometriosis and Adenomyosis. Discuss effect of endometriosis on fertility. Define difference between endometriosis and adenomyosis. Describe investigations and management of Endometriosis. Unit 3 (Dr. S Agarwal)
Saturday	AETCOM Session: Module 4.4: Case studies in ethics empathy and the doctor-patient relationship	SU28.1.1 At the end of phase III students must be able to define hernia.	OG26.2- Enumerate causes of genital injuries. List the types of genital injuries. Describe clinical features of genital injuries. Discuss principles of management of genital injuries. Discuss the ways /methods of prevention of genital injuries. Unit 3 (Dr. A Lalwani)
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.24.3 Describe the principles of investigation and management of Pancreatic disorders including pancreatitis and endocrine tumors.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.32.1 Describe and discuss the physiology of menopause, symptoms, prevention, management and the role of hormone replacement therapy.	OG27.1- Define Sexually Transmitted Disease. discuss aetio-pathogenesis of different sexually transmitted infections, discuss clinical features of different sexually transmitted infections, discuss long term implications of sexually transmitted infections, discuss investigations and management of sexually transmitted infections. Unit 3 (Dr. S Agarwal)

Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2) O.G.31.1 Describe and discuss the etiology, classification, clinical features, diagnosis, investigations, principles of management and preventive aspects of prolapse of uterus		16.12.25
IM14.14: Basics of Bariatric Surgery (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 4.31: Describe the clinical features, investigations and principles of management of trauma to the face & neck	17.12.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.24.2 Describe the clinical features, principles of investigation, prognosis and management of pancreatic endocrine tumours	OR 7.1 Describe and discuss the aetiopathogenesis, clinical features, investigation and principles of management of metabolic bone disorders in particular osteoporosis, osteomalacia, rickets, Paget's disease; OR 9.1 Describe and discuss the aetiopathogenesis, clinical features, assessment and principles of management of Cerebral palsy patient	18.12.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.24.2 Describe the clinical features, principles of investigation, prognosis and management of pancreatic endocrine tumours	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP6.5 Describe and discuss the angle of the anterior chamber and its clinical correlates	19.12.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.31.1 Describe and discuss the etiology, classification, clinical features, diagnosis, investigations, principles of management and preventive aspects of prolapse of uterus	Integration: B16.13 Describe the functions of the thyroid glands; B1 6.14 Describe the tests that are commonly done in clinical practice to assess the functions of these organs	20.12.25
IM25.8: Tests In Zoonotic Infections (Tutorial)	PE18.6 Perform Postnatal assessment of newborn and mother, provide advice on breast feeding, weaning and on family planning	22.12.25

Tuesday	OR 8.1 Describe and discuss the aetiopathogenesis, clinical features, assessment and principles of management a patient with Post Polio Residual Paralysis	IM22.8- Enumerate the causes and describe the clinical and laboratory features and the correct approach to the diagnosis and management of the patient with hyperkalaemia	OG27.1- To be able to discuss aetiopathogenesis of Genital Tuberculosis. Discuss clinical features of Genital TB, its long term implications and complications, discuss investigations and management of Genital TB. To be able to discuss aetiopathogenesis, clinical features, long term implications and complications, investigations and management of HIV in a gynec patient. Unit 3 (Dr. A Lalwani)
Wednesday	IM12.12 Describe and discuss the iodisation programs of the government of India	SU28.1.2 At the end of phase III students must be able to describe the pathophysiology of hernia, enumerate the clinical features of hernia; S.U.24.3 Describe the principles of investigation and management of Pancreatic disorders including pancreatitis and endocrine tumors.	OG27.4- Define Pelvic Inflammatory Disease and types of Pelvic Inflammatory disease. Discuss aetiopathogenesis of Pelvic Inflammatory Disease. Describe the pathology in acute and chronic Pelvic Inflammatory disease correctly. Discuss clinical features of Pelvic Inflammatory Disease. Discuss investigations of Pelvic Inflammatory Disease. Discuss management of Pelvic Inflammatory Disease. Enumerate the long term implications of Pelvic Inflammatory Disease. Unit 3 (Dr. S Agarwal)
Thursday	Holiday		
Friday	PE20.8 Describe the etiology, clinical features and management of respiratory distress in New born including meconium aspiration and transient tachypnoea of newborn	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.31.1 Describe and discuss the etiology, classification, clinical features, diagnosis, investigations, principles of management and preventive aspects of prolapse of uterus; O.G.32.1 Describe and discuss the physiology of menopause, symptoms, prevention, management and the role of hormone replacement therapy.	OG 26.1- Define endometriosis. Describe the etiology and pathogenesis of endometriosis. Describe clinical features of endometriosis and Adenomyosis. Discuss effect of endometriosis on fertility. Define difference between endometriosis and adenomyosis. Describe investigations and management of Endometriosis. Unit 3 (Dr. S Agarwal)
Saturday	AETCOM Session: Module 4.8: Dealing with death	SU28.1.3 At the end of phase III students must be able to list out the principles of management of hernia with the knowledge that how hernia is repaired; S.U.25.1 Describe applied anatomy and appropriate investigations for breast disease	OG28.4- Define ART (Assisted Reproduction Technique). Enumerate different methods of ART. Describe principal steps of ART; OG29.1- Define fibroid correctly. The types of fibroid accurately. Discuss the etiology of fibroid uterus correctly. Describe the pathology of fibroid uterus correctly. Describe the clinical features of fibroid uterus correctly. Discuss the differential diagnosis of fibroid uterus correctly. Enumerate all the investigations of fibroid uterus correctly. Discuss the principles of management of fibroid uterus correctly. Discuss the complications of fibroid uterus. Unit 3 (Dr. S Agarwal)
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.24.3 Describe the principles of investigation and management of Pancreatic disorders including pancreatitis and endocrine tumors.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.32.1 Describe and discuss the physiology of menopause, symptoms, prevention, management and the role of hormone replacement therapy.	OG28.2. Discuss the Investigation & Treatment of Tubal Factor Infertility, including Tubal Patency tests & Tubal recanalisation operations. Unit 3 (Dr. S Agarwal)

Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.32.1 Describe and discuss the physiology of menopause, symptoms, prevention, management and the role of hormone replacement therapy.		23.12.25
IM15.6: Approach to a patient of GI bleeding (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 1.1: Anatomy & physiology of ear, nose, throat, head & neck	24.12.25
Holiday		25.12.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.24.2 Describe the clinical features, principles of investigation, prognosis and management of pancreatic endocrine tumours	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP 6.7 Enumerate and discuss the aetiology, the clinical distinguishing features of various glaucomas associated with shallow and deep anterior chamber. Choose appropriate investigations and treatment for patients with above conditions.	26.12.25
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.32.1 Describe and discuss the physiology of menopause, symptoms, prevention, management and the role of hormone replacement therapy.	Integration: BI 11.17 Explain the basis and rationale of biochemical tests done in the thyroid disorder; PA 32.1 Enumerate, classify and describe the etiology, pathogenesis, pathology and iodine dependency of thyroid swellings	27.12.25
IM25.8: Tests In Zoonotic Infections (Tutorial); IM18.16- Enumerate the indications describe and observe themultidisciplinary rehabilitation of patients with a CVA	PE20.11 Discuss the clinical characteristics, complications and management of Low birth weight (preterm and Small for gestation); PE19.6 Assess patient for fitness for immunization and prescribe an age appropriate immunization schedule	29.12.25

Tuesday	OR10.1 Describe and discuss the etiopathogenesis, clinical features, investigations and principles of management of benign and malignant bone tumours and pathological fractures.	IM22.9- Enumerate the causes and describe the clinical and laboratory features of metabolic acidosis	OG31.1- Describe the etiology of prolapse of uterus. Describe the classification of prolapse of uterus. Describe clinical features of prolapse of uterus. Discuss diagnosis and investigation of prolapse of uterus. Discuss preventive aspect of prolapse of uterus. Describe the etiology of prolapse of uterus. Describe the classification of prolapse of uterus. Describe clinical features of prolapse of uterus. Discuss diagnosis and investigation of prolapse of uterus. Discuss preventive aspect of prolapse of uterus. Discuss management of prolapse of uterus. Unit 3 (Dr. A Lalwani)
Wednesday	IM12.13 Describe the pharmacology, indications, adverse reaction, interactions of thyroxine and antithyroid drugs	SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.	OG32.2- Enumerate the causes of post menopausal bleeding correctly. describe the evaluation and management of Postmenopausal bleeding correctly. Unit 3 (Dr. S Agarwal)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.32.2. Enumerate the causes of postmenopausal bleeding and describe its management	IM19.1- Define and classify headache and describe the presenting features, precipitating factors, aggravating and relieving factors of various kinds of headache	OG33.1- Describe classification of cervical cancer. Describe etiology and pathology of cervical cancer. Discuss clinical features and differential diagnosis of cervical cancer. Discuss investigations and staging of cervical cancer. OG33.2- Describe management of benign lesions of cervix. Describe management of premalignant lesions of cervix. Unit 3 (Dr. S Agarwal)
Friday	PE20.12 Discuss the temperature regulation in neonates, clinical features and management of Neonatal Hypothermia	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.32.2. Enumerate the causes of postmenopausal bleeding and describe its management	OG33.2- Describe management of malignant lesions of cervix. Unit 3 (Dr. S Agarwal)
Saturday	AETCOM Session: Module 4.2: Case studies in medico-legal and ethical	SU28.2.1 At the end of phase III students must be able to demonstrate the different test to Diagnose hernia.	OG33.3-Enumerate, Describe & demonstrate in a simulated environment (DOAP Session) the methods of cervical cancer screening. Unit 3 (Dr. A Lalwani)
Monday	SU28.2.1 At the end of phase III students must be able to demonstrate the different test to Diagnose hernia.	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.32.2. Enumerate the causes of postmenopausal bleeding and describe its management	Clinical Posting (P) OR 2.6 Describe and discuss Etiopathogenesis, mechanism of injury, clinical feature, investigation and principles of management of fracture of distal radius. Unit 1 (Dr. A Saraf)
Tuesday	OR12.1 Describe and discuss the clinical features, investigations and principles of management of congenital and acquired malformations and deformities of: a. limbs and spine - scoliosis and spina bifida, b. congenital dislocation of hip, torticollis, c. congenital talipes equino varus.	IM22.10- Enumerate the causes and describe the clinical and laboratory features of metabolic alkalosis	Clinical Posting (P) OR 2.5 Describe and discuss the aetiopathogenesis, clinical features, mechanism of injury, Investigation and principles of management of fracture of both bone forearm and Galeazzi and Monteggia injury. Unit 1 (Dr. A Saraf)

Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.32.2. Enumerate the causes of postmenopausal bleeding and describe its management		30.12.25
IM15.12: Management of Mismatched Blood transfusion (Seminar); IM26.10: Confidentiality in Patient Care (Tutorial)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 4.32: Describe the clinical features, investigations and principles of management of nasopharyngeal Angiofibroma	31.12.25
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast	OR11.1 Describe and discuss the etiopathogenesis, clinical features, investigations and principles of management peripheral nerve injuries in diseases like foot drop, wrist drop, claw hand, palsies of radial, ulnar, median, lateral popliteal and sciatic nerves.	01.01.26
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP 6.7 Enumerate and discuss the aetiology, the clinical distinguishing features of various glaucomas associated with shallow and deep anterior chamber. Choose appropriate investigations and treatment for patients with above conditions.	02.01.26
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.32.2. Enumerate the causes of postmenopausal bleeding and describe its management	Integration: PA 32.3 Describe the etiology, pathogenesis, manifestations, laboratory and imaging features and course of thyrotoxicosis/ hypothyroidism; PH 1.36 Describe the mechanism of action, types, doses, side effects, indications and contraindications of drugs used in endocrine disorders	03.01.26
IM21.1: Approach to a case of Poisoning (Tutorial)	PE19.10 Observe the handling and storing of vaccines PE19.11 Document Immunization in an immunization record	05.01.26
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.33.1 Classify, describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations and staging of cervical cancer		06.01.26

Wednesday	IM13.1 Describe the clinical epidemiology and inherited & modifiable risk factors for common malignancies in India	SU28.2.2 At the end of phase III student must be able to differentiate between direct and indirect inguinal hernia.	Clinical Posting (P) OR 2.4 Describe and discuss the mechanism of injury, clinical features, Investigation and principles of management of fracture of shaft humerus and intercondylar fracture humerus with emphasis on neurovascular deficit. Unit 1 (Dr. A Saraf)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); O.G.33.1 Classify, describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations and staging of cervical cancer	IM19.1- Define and classify headache and describe the presenting features, precipitating factors, aggravating and relieving factors of various kinds of headache	Clinical Posting (P) OR 2.3 Select, prescribe and communicate appropriate medications for relief of joint pain. Unit 1 (Dr. A Saraf)
Friday	PE20.13 Discuss the temperature regulation in neonates, clinical features and management of Neonatal Hypoglycemia PE20.14 Discuss the etiology, clinical features and management of Neonatal hypocalcemia PE20.15 Discuss the etiology, clinical features and management of Neonatal seizures	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); O.G.33.1 Classify, describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations and staging of cervical cancer	Clinical Posting (P) OR 2.2 Describe and discuss the, mechanism of injury, clinical features, investigations and plan management of fractures of proximal humerus. Unit 2 (Dr. S Singh)
Saturday	AETCOM Session: Module 4.4: Case studies in ethics empathy and the doctor-patient relationship	SU28.2.3 At the end of phase III student must be able to identify all abdominal wall hernia & congenital hernia in children	Clinical Posting (P) OR 2.1 Describe and discuss the, mechanism of injury, clinical features, investigations and principles of management of fractures of Clavicle. Unit 2 (Dr. S Singh)
Monday	Surgery -Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); S.U. 25.4 Counsel the patient and obtain informed consent for treatment of malignant conditions of the breast	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); O.G.33.1 Classify, describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations and staging of cervical cancer	Clinical Posting (P) OR 1.6 Participate as a member in the team for closed reduction of Shoulder dislocation/ hip dislocation/ knee dislocation. Unit 2 (Dr. S Singh)
Tuesday	OR13.2 Participate as a member in team for resuscitation of polytrauma victim by all of the following : (a) I.V. access central - peripheral (b) bladder catheterisation (c) Endotracheal intubation (d) Splintage	IM22.11- Enumerate the causes and describe the clinical and laboratory features of respiratory acidosis	Clinical Posting (P) OR 1.5 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of dislocation of major joints, shoulder, knee, hip. Unit 2 (Dr. S Singh)
Wednesday	IM13.2 Describe the genetic basis of selected cancers	Surgery -Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); S.U. 25.4 Counsel the patient and obtain informed consent for treatment of malignant conditions of the breast	Clinical Posting (P) OR 1.4 Describe and discuss the Principles of Management of Soft Tissue Injuries. Unit 3 (Dr. M Sharma)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); O.G.33.3 Describe and demonstrate the screening for cervical cancer in a simulated environment	IM19.1- Define and classify headache and describe the presenting features, precipitating factors, aggravating and relieving factors of various kinds of headache	Clinical Posting (P) OR. 1.3 Describe and discuss the aetiopathogenesis, Clinical features, investigations and principles of management of soft tissue injuries. Unit 3 (Dr. M Sharma)

IM16.1: Approach to Diarrhoea (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); EN 1.1: Anatomy & physiology of ear, nose, throat, head & neck		07.01.26
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); S.U.25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast	OR13.1 Participate in a team for procedures in patients and demonstrating the ability to perform on mannequins/ simulated patients in the following: i. Above elbow plaster ii. Below knee plaster iii. Above knee plaster iv. Thomas splint v. splinting for long bone fractures vi. strapping for shoulder and clavicle trauma		08.01.26
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); S.U.25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); OP 6.8 Enumerate and choose the appropriate investigation for patients with conditions affecting the Uvea		09.01.26
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); O.G.33.1 Classify, describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations and staging of cervical cancer	Integration: DR18.2 Enumerate the cutaneous features of hypo- & hyperthyroidism; PE 6.9 Perform routine Adolescent Health check up including eliciting history, performing examination including thyroid exam and the HEADSS screening		10.01.26
IM21.3: Approach to a case of Corrosive Poisoning (Tutorial)	PE24.9 Elicit, document and present history pertaining to diarrheal diseases PE24.10 Assess for signs of dehydration, document and present		12.01.26
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); O.G.33.2 Describe the principles of management including surgery and radiotherapy of Benign, Pre-malignant (CIN) and Malignant Lesions of the Cervix			13.01.26
IM17.1: Differential Diagnosis Of Headache (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); EN 4.33: Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of squamosal type of Acute & Chronic Sinusitis		14.01.26
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); S.U.25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent	OR14.1 Demonstrate the ability to counsel patients regarding prognosis in patients with various Orthopaedics Illnesses like : (a)fractures and disabilities (b) Fractures and required prolonged bed stay (c) Bone tumours (d) Congenital disabilities		15.01.26

Friday	<p><b>PE20.16</b> Discuss the etiology, clinical features and management of Neonatal Sepsis</p> <p><b>PE20.17</b> Discuss the etiology, clinical features and management of Perinatal infection</p>	<p>Obstetrics &amp; Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 33.4 Enumerate the methods to prevent cancer of cervix including visual inspection with acetic acid (VIA), visual inspection of cervix with Lugol's iodine (VILI), pap smear and colposcopy</p>	<p>Clinical Posting (P) OR.1.2 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of shock. Unit 3 (Dr. M Sharma)</p>	<p>Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent</p>	<p>Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP 6.8 Enumerate and choose the appropriate investigation for patients with conditions affecting the Uvea</p>	16.01.26
Saturday	<p>AETCOM Session: Module 4.6: Case studies in ethics and the doctor - industry relationship</p>	<p>Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent</p>	<p>Clinical Posting (P) OR.1.1 Describe and discuss the Principles of pre hospital care and casualty management of a trauma victim including principles of triage. Unit 3 (Dr. M Sharma)</p>	<p>Obstetrics &amp; Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.34.1 Describe and discuss aetiology, pathology, staging clinical features, differential diagnosis, investigations, staging laparotomy and principles of management of endometrial cancer</p>	<p>Integration: PE 33.1 Describe the etio-pathogenesis clinical features, management of Hypothyroidism in children; PE 33.3 Interpret and explain neonatal thyroid screening report</p>	17.01.26
Monday	<p>Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.26.1 Outline the role of surgery in the management of coronary heart disease, valvular heart diseases and congenital heart diseases</p>	<p>Obstetrics &amp; Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.34.1 Describe and discuss aetiology, pathology, staging clinical features, differential diagnosis, investigations, staging laparotomy and principles of management of endometrial cancer</p>	<p>PE1.4-Perform Anthropometric measurements, document in growth charts and interpret; PE10.3- Assessment of a patient with SAM and MAM, diagnosis, classification and planning management including hospital and community based intervention, rehabilitation and prevention - Unit 1 (Dr. R R Singh)</p>	<p><b>IM22.1: Approach to a case of Hypercalcemia (Tutorial)</b></p>	<p><b>PE24.14</b> Plan fluid management as per the WHO criteria;</p>	19.01.26
Tuesday	<p>OR14.2 Demonstrate the ability to counsel patients to obtained consent for various orthopaedic procedures like limb amputation, permanent fixations etc.</p>	<p>IM22.11- Enumerate the causes and describe the clinical and laboratory features of respiratory acidosis</p>	<p>PE1.7-Perform Developmental assessment and interpret; PE9.5- Calculate the age related caloric requirement in Health and Disease and identify gap - Unit 1 (Dr. R R Singh)</p>	<p>Obstetrics &amp; Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.34.2 Describe and discuss the etiology, pathology, classification, staging of ovarian cancer, clinical features, differential diagnosis, investigations, principal of management including staging laparotomy</p>		20.01.26
Wednesday	<p>IM13.3 Describe the relationship between infection and cancers</p>	<p>Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.26.1 Outline the role of surgery in the management of coronary heart disease, valvular heart diseases and congenital heart diseases</p>	<p>PE3.4-Counsel a parent of a child with developmental delay; PE12.8-Identify the clinical features of dietary deficiency of Vitamin D - Unit 1 (Dr. R R Singh)</p>	<p><b>IM17.3: Primary Headache : Migraine (Seminar); IM22.1: Approach to a case of Hypercalcemia (Tutorial)</b></p>	<p>ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2) : EN 1.2: Describe the pathophysiology of common diseases in ENT</p>	21.01.26
Thursday	<p>Obstetrics &amp; Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 34.3 Describe and discuss the etiology, pathology, classification, staging, clinical features, differential diagnosis, investigations and management of gestational trophoblastic disease</p>	<p>IM19.2- Classify movement disorders of the brain based on distribution, rhythm, repetition, exacerbating and relieving factors</p>	<p>PE7.5-Observe the correct technique of breast feeding and distinguish right from wrong techniques; PE15.3- Calculate the fluid and electrolyte requirement in health - Unit 3 (Dr. N S Chitambaram)</p>	<p>Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.26.1 Outline the role of surgery in the management of coronary heart disease, valvular heart diseases and congenital heart diseases</p>	<p>OR14.3 Demonstrate the ability to convince the patient for referral to a higher center in various orthopaedic illnesses, based on the detection on the warning signals and need for sophisticated management.</p>	22.01.26
Friday	<p><b>PE20.19</b> Discuss the etiology, clinical features and management of Neonatal hyperbilirubinemia</p>	<p>Obstetrics &amp; Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 34.3 Describe and discuss the etiology, pathology, classification, staging, clinical features, differential diagnosis, investigations and management of gestational trophoblastic disease</p>	<p>PE10.3-Assessment of a patient with SAM and MAM, diagnosis, classification and planning management including hospital and community based intervention, rehabilitation and prevention; PE1.4- Perform Anthropometric measurements, document in growth</p>	<p>Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 26.3 Describe the clinical features of mediastinal diseases and the principles of management</p>	<p>Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP7.1 Describe the surgical anatomy and the metabolism of the lens</p>	23.01.26
Saturday	<p>AETCOM Session: Module 4.8: Dealing with death</p>	<p>Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 26.3 Describe the clinical features of mediastinal diseases and the principles of management; S.U.26.1 Outline the role of surgery in the management of coronary heart disease, valvular heart diseases and congenital heart diseases</p>	<p>PE9.5-Calculate the age related caloric requirement in Health and Disease and identify gap; PE1.7- Perform Developmental assessment and interpret - Unit 3 (Dr. N S Chitambaram)</p>	<p>Obstetrics &amp; Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.34.4 Operative Gynaecology : Understand and describe the technique and complications: Dilatation &amp; Curettage (D&amp;C); EA-ECC; cervical biopsy; abdominal hysterectomy; myomectomy; surgery for ovarian tumours; staging laparotomy; vaginal hysterectomy including pelvic floor repair; Fothergill's operation, Laparoscopy; hysteroscopy; management of postoperative complications</p>	<p>Integration: IM 12.2 Describe and discuss the genetic basis of some forms of thyroid dysfunction; IM 12.3 Describe and discuss the physiology of the hypothalamopituitary - thyroid axis, principles of thyroid function testing and alterations in physiologic function</p>	24.01.26

Week-40

Monday	Holiday		
Tuesday	OR.1.1 Describe and discuss the Principles of pre hospital care and casualty management of a trauma victim including principles of triage	IM22.12- Enumerate the causes and describe the clinical and laboratory features of respiratory acidosis	PE15.3-Calculate the fluid and electrolyte requirement in health; PE7.5-Observe the correct technique of breast feeding and distinguish right
Wednesday	IM13.4 Describe the natural history, presentation, course, complications and cause of death for common cancers	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.26.4 Describe the etiology, pathogenesis, clinical features of tumors of lung and the principles of management	PE1.4-Perform Anthropometric measurements, document in growth charts and interpret - Unit 2 (Dr.B K Gaur)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.35.2 Arrive at a logical provisional diagnosis after examination.	IM19.2- Classify movement disorders of the brain based on distribution, rhythm, repetition, exacerbating and relieving factors	PE1.7-Perform Developmental assessment and interpret - Unit 1 (Dr. R R Singh)
Friday	<b>PE20.10</b> Discuss the etiology, clinical features and management of Hemorrhagic disease of New born	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.35.3 Recognize situations, which call for urgent or early treatment at secondary and tertiary centres and make a prompt referral of such patients after giving first aid or emergency treatment.	PE3.4-Counsel a parent of a child with developmental delay - Unit 1 (Dr. R R Singh)
Saturday	AETCOM Session: Module 4.9: Medical Negligence	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.26.4 Describe the etiology, pathogenesis, clinical features of tumors of lung and the principles of management	PE7.5-Observe the correct technique of breast feeding and distinguish right from wrong techniques - Unit 1 (Dr. R R Singh)
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.29.1 Describe the causes, investigations and principles of management of Hematuria	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.35.5 Determine gestational age, EDD and obstetric formula; 35.6 Demonstrate ethical behavior in all aspects of medical practice; 35.7 Obtain informed consent for any examination / procedure	Clinical Posting (P) : D.R.1.2 Identify and grade the various common types of acne - Dr. Parvathi CN
Tuesday	OR. 1.3 Describe and discuss the aetiopathogenesis, Clinical features, investigations and principles of management of soft tissue injuries	IM22.12- Enumerate the causes and describe the clinical and laboratory features of respiratory alkalosis; IM13.5 Describe the common issues encountered in patients at the end of life and principles of managements	Clinical Posting (P): D.R. 2.1 Identify and differentiate Vitiligo from other causes of hypopigmented lesions - Dr. Parvathi CN
Wednesday	IM13.4 Describe the natural history, presentation, course, complications and cause of death for common cancers	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.26.4 Describe the etiology, pathogenesis, clinical features of tumors of lung and the principles of management	Clinical Posting (P): D.R.3.1 Identify and distinguish psoriatic lesions from other causes; D.R.3.2 Demonstrate the grattage test - Dr. Tilwani
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.35.12 Obtain a PAP smear in a stimulated environment; 35.13 Demonstrate the correct technique to perform artificial rupture of membranes in a simulated / supervised environment	IM19.8- Describe the functional anatomy of the locomotor system of the brain	Clinical Posting (P): D.R.4.1 Identify and distinguish lichen planus lesions from other causes; D.R.5.2 Identify and differentiate scabies from other lesions in adults and children -Dr. Parvathi CN

Week-41

Holiday		26.01.26
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.35.1 Obtain a logical sequence of history, and perform a humane and thorough clinical examination, excluding internal examinations (per- rectal and per-vaginal)		27.01.26
IM18.1: Blood Supply of the Brain (Seminar); IM22.5: Approach to a case of Hyponatemia (Tutorial)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): /EN 4.35: Describe the clinical features, investigations and principles of management of Tumors of Nasopharynx	28.01.26
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.26.4 Describe the etiology, pathogenesis, clinical features of tumors of lung and the principles of management	OR.1.2 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of shock.	29.01.26
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.26.4 Describe the etiology, pathogenesis, clinical features of tumors of lung and the principles of management	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP7.1 Describe the surgical anatomy and the metabolism of the lens	30.01.26
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.35.4 Demonstrate interpersonal and communication skills befitting a physician in order to discuss illness and its outcome with patient andfamily	Integration: IM 12.4 Describe and discuss the principles of radio iodine uptake in the diagnosis of thyroid disorders; IM 12.5 Elicit document and present an appropriate history that will establish the diagnosis cause of thyroid dysfunction and its severity	31.01.26
IM22.6: Approach to case of Hyponatremia (Tutorial)	PE26.9 Interpret Liver Function Tests, viral markers, ultra sonogram report	02.02.26
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.35.8 Write a complete case record with all necessary details; 35.9 Write a proper discharge summary with all relevant information; 35.11 Demonstrate the correct use of appropriate universal precautions for self-protection against HIV and hepatitis and counselpatients		03.02.26
IM18.1: Blood Supply of the Brain (Seminar); IM22.5: Approach to a case of Hyponatemia (Tutorial)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 2.1: Elicit document and present an appropriate history in a patient presenting with an ENT complaint	04.02.26
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.29.1 Describe the causes, investigations and principles of management of Hematuria; S.U.29.2 Describe the clinical features, investigations and principles of management of congenital anomalies of genitourinary system	OR.1.4 Describe and discuss the Principles of Management of Soft Tissue Injuries.	05.02.26

Friday	<b>PE27.2</b> Describe the etio-pathogenesis, clinical approach and management of cardiorespiratory arrest in children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.35.14 Demonstrate the correct technique to perform and suture episiotomies in a simulated/ supervised environment; 35.15 Demonstrate the correct technique to insert and remove an IUD in a simulated/ supervised environment	Clinical Posting (P): D.R.7.2 Identify Candida species in fungal scrapings and KOH mount - Dr. Tilwani	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.29.2 Describe the clinical features, investigations and principles of management of congenital anomalies of genitourinary system	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP7.2 Describe and discuss the etio-pathogenesis, stages of maturation and complications of cataract	06.02.26
Saturday	AETCOM Session: Module 4.2: Case studies in medico-legal and ethical situations	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.29.3 Describe the Clinical features, Investigations and principles of management of urinary tract infections	Clinical Posting (P): D.R. 8.2 Identify and distinguish herpes simplex and herpes labialis from other skin lesions ; D.R. 8.3 identify and distinguish herpes zoster and varicella from other skin lesions - Dr. Tilwani	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 35.16 Diagnose and provide emergency management of antepartum and postpartum hemorrhage in a simulated / guided environment; 35.17 Demonstrate the correct technique of urinary catheterisation in a simulated/ supervised environment	Integration: IM 4.1 Describe and discuss the febrile response and the influence of host immune status, risk factors and comorbidities on the febrile response; IM 4.2 Describe and discuss the influence of special populations on the febrile response including: the elderly, immune suppression, malignancy and neutropenia, HIV and travel	07.02.26
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.29.4 Describe the clinical features, investigations and principles of management of hydronephrosis	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 36.1 Plan and institute a line of treatment, which is need based, cost effective and appropriate for common conditions taking into consideration (a) Patient (b) Disease (c) Socio-economic status (d) Institution/ Governmental guidelines	Clinical Posting (P): D.R.8.4 Identify and distinguish viral warts from other skin lesions ; D.R.8.5 Identify and distinguish molluscum contagiosum from other skin lesions - Dr. Tilwani	<b>IM22.7: Approach to Case of Hypokalemia (Tutorial)</b>	<b>PE29.11</b> Identify external markers for hematological disorders e.g., Jaundice, Pallor, Petechiae purpura, Ecchymosis, Lymphadenopathy, bone tenderness, loss of weight, Mucosal and large joint bleed	09.02.26
Tuesday	OR 1.5 Describe and discuss the aetiopathogenesis , clinical features, investigations and principles of management of dislocation of major joints, shoulder, knee, hip	<b>IM22.12-</b> Enumerate the causes and describe the clinical and laboratory features of respiratory alkalosis	Clinical Posting (P): D.R. 9.2 Demonstrate (and classify based on) the clinical features of leprosy including an appropriate neurologic examination; D.R.10.1 Identify and classify syphilis based on the	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.36.2 Organise antenatal, postnatal, well-baby and family welfare clinics		10.02.26
Wednesday	<b>IM13.5</b> Describe the common issues encountered in patients at the end of life and principles of managements	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.29.5 Describe the clinical features, investigations and principles of management of renal calculi	Clinical Posting (P) : D.R.10.2 Identify spirochete in a dark ground microscopy; D.R.10.5 Counsel in a non-judgemental and empathetic manner patients on prevention of sexually transmitted diseases - Dr. D	<b>IM18.2: Approach to a Stroke patient (Seminar); IM18.8: Bladder Dysfunction in CNS diseases (Seminar)</b>	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 4.36: Describe the clinical features, investigations and principles of management of diseases of the Salivary glands	11.02.26
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.36.3 Demonstrate the correct technique of punch biopsy of uterus in a simulated/ supervised environment	<b>IM19.8-</b> Describe the functional anatomy of the locomotor system of the brain	Clinical Posting (P): D.R. 11.2 Identify and distinguish the dermatologic manifestations of HIV, its complications, opportunistic infections and adverse reactions -Dr. D Meena	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.29.6 Describe the clinical features, investigations and principles of management of renal tumours	OR 1.6 Participate as a member in the team for closed reduction of Shoulder dislocation/ hip dislocation/ knee dislocation.	12.02.26
Friday	<b>PE20.20</b> Identify clinical presentations of common surgical conditions in the new born including TEF, esophageal atresia, anal atresia, cleft lip and palate, congenital diaphragmatic hernia and causes of acute abdomen	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 37.1 Observe and assist in the performance of a Caesarean section	Clinical Posting (P): D.R.12.6 Identify and distinguish exfoliative dermatitis from other skin lesions - Dr. R K Singh	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 29.7 Describe the principles of management of acute and chronic retention of urine	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP7.2 Describe and discuss the etio-pathogenesis, stages of maturation and complications of cataract	12.02.26
Saturday	AETCOM Session: Module 4.4: Case studies in ethics empathy and the doctor-patient relationship	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 29.8 Describe the clinical features, investigations and principles of management of bladder cancer	Clinical Posting (P) D.R. 16.1-18.1 Identify and Distinguish Skin lesions - Dr. R K Singh	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G.37.2 Observe and assist in the performance of Laparotomy	Integration: IM 4.18 Enumerate the indications for use of imaging in the diagnosis of febrile syndromes; PE 30.7 Discuss the etio-pathogenesis, clinical features, complications and management of Febrile seizures in children	14.02.26
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.29.9 Describe the clinical features, investigations and principles of management of disorders of prostate	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G 37.3 Observe and assist in the performance of Hysterectomy – abdominal/vaginal	Clinical Posting (P):EN 2.7: Demonstrate the correct technique of examination of neck including elicitation of laryngeal crepitus	<b>IM22.8: Approach to a Case of Hyperkalemia (Tutorial)</b>	<b>PE 20.18</b> identify and stratify risk in a sick neonate using IMNCI guidelines	16.02.26

Week 43

Tuesday	OR2.1 Describe and discuss the , mechanism of injury, clinical features, investigations and principles of management of fractures of Clavicle	IM22.12- Enumerate the causes and describe the clinical and laboratory features of respiratory alkalosis	Clinical Posting (P); EN 2.8: Demonstrate the correct technique to perform and interpret pure tone audiogram & impedance audiogram
Wednesday	IM13.6 Describe and distinguish the difference between curative and palliative care in patients with cancer	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); S.U. 29.10 Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent	Clinical Posting (P); EN 2.9: Choose correctly and interpret radiological, microbiological & histological investigations relevant to the ENT disorders
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); O.G. 37.5 Observe and assist in the performance of Endometrial aspiration - endocervical curettage (EA-ECC)	IM22.13- Identify the underlying acid based disorders correctly based on ABG report and clinical situation	Clinical Posting (P);EN 2.10: Identify and describe the use of common instruments used in ENT surgery
Friday	PE27.8 Discuss the common types, clinical presentations and management of poisoning in children	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); O.G. 37.6 Observe and assist in the performance of outlet forceps application of vacuum and breech delivery	Clinical Posting (P); EN 2.10: Identify and describe the use of common instruments used in ENT surgery
Saturday	AETCOM Session: Module 4.6: Case studies in ethics and the doctor - industry relationship	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); S.U. 30.2 Describe the applied anatomy clinical features, investigations and principles of management of undescended testis	Clinical Posting (P); EN 2.10: Identify and describe the use of common instruments used in ENT surgery
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); S.U. 30.3 Describe the applied anatomy clinical features, investigations and principles of management of epididymo-orchitis	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); O.G. 38.1 Laparoscopy	Clinical Posting (P); EN 2.11: Describe and identify by clinical examination malignant and Premalignant ENT disease
Tuesday	OR 2.3 Select, prescribe and communicate appropriate medications for relief of joint pain	IM22.13- Identify the underlying acid based disorders correctly based on ABG report and clinical situation	Clinical Posting (P); EN 2.12: Counsel and administer informed consent to patients and their families in a simulated environment; EN 3.6: Observe and describe the indications for and steps involved in the skills of emergency procedures in ear, nose & throat
Wednesday	IM13.6 Describe and distinguish the difference between curative and palliative care in patients with cancer	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); S.U.30.4 Describe the applied anatomy clinical features, investigations and principles of management of varicocele	Clinical Posting (P); EN 2.13: Identify, Resuscitate and manage ENT emergencies in a simulated environment (including tracheostomy, anterior nasal packing, removal of foreign bodies in ear, nose, measles and upper respiratory tract)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); O.G. 38.2 Hysteroscopy	IM19.9- Enumerate the indications for use of surgery and botulinum toxin in the treatment of movement disorders	Clinical Posting (P); EN 2.14: Demonstrate the correct technique to instilling topical medications into the ear, nose and throat in a simulated environment; EN 3.5: Observe and describe the indications for and steps involved in the surgical procedures in ear, nose & throat

Week 44

Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); O.G. 37.4 Observe and assist in the performance of Dilatation & Curettage (D&C)		17.02.26
IM18.11: Management of a Patient of Ischemic Stroke (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); EN 2.1: Elicit document and present an appropriate history in a patient presenting with an ENT complaint; Tutorial/ EN 2.3: Demonstrate the correct technique of examination of the ear including Otoscopy	18.02.26
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); S.U. 29.11 Describe clinical features, investigations and management of urethral strictures	OR 2.2 Describe and discuss the, mechanism of injury, clinical features, investigations and plan management of fractures of proximal humerus	19.02.26
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); S.U. 30.1 Describe the clinical features, investigations and principles of management of phimosis,	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); OP8.1 Discuss the aetiology, pathology, clinical features and management of vascular occlusions of the retina	20.02.26
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); O.G.37.7 Observe and assist in the performance of MTP in the first trimester and evacuation in incomplete abortion	Integration: Integrated Teaching as decided by ATTO - SU22.4 - Describe the clinical features, classification and principles of management of thyroid cancer; IM12.4 - Describe and discuss the principles of radio iodine uptake in the diagnosis of thyroid disorders	21.02.26
IM25.1: Approach to a case of Tetanus (Tutorial)	PE26.12 discuss the prevention of hepatitis B infection ,Universal precaution and Immunisation and counselling; PE27.5 Describe the etio-pathogenesis, clinical approach and management of Shock in children	23.02.26
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); O.G. 38.1 Laparoscopy		24.02.26
IM18.14: Management of Haemorrhagic Stroke (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); EN 4.37: Describe the clinical features, investigations and principles of management of Ludwig's angina	25.02.26
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2); S.U. 30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele	OR 2.4 Describe and discuss the mechanism of injury, clinical features, Investigation and principles of management of fracture of shaft humerus and intercondylar fracture humerus with emphasis on neurovascular deficit.	26.02.26

Friday	PE27.8 Discuss the common types, clinical presentations and management of poisoning in children	Obstetrics & Gynecology - Lecture/Tutorial/Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 37.6 Observe and assist in the performance of outlet forceps application of vacuum and breech delivery	Clinical Posting (P): EN 2.15: Describe the national programs for prevention of deafness, cancer, noise & environmental pollution; EN 3.2: Observe and describe the indications for and steps involved in the
Saturday	AETCOM Session: Module 4.8: Dealing with death	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis	Clinical Posting (P): EN 3.1: Observe and describe the indications for and steps involved in the performance of Otomicroscopic examination in a simulated environment; EN 3.3: Observe and describe the indications

Holi Vacations 02.03.26-07.03.26

Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 30.3 Describe the applied anatomy clinical features, investigations and principles of management of epididymo-orchitis	Obstetrics & Gynecology - Lecture/Tutorial/Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 38.1 Laparoscopy	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly.
Tuesday	OR 2.3 Select, prescribe and communicate appropriate medications for relief of joint pain	IM22.13- Identify the underlying acid based disorders correctly based on ABG report and clinical situation	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a
Wednesday	IM13.6 Describe and distinguish the difference between curative and palliative care in patients with cancer	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.30.4 Describe the applied anatomy clinical features, investigations and principles of management of varicocele	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly; OP7.3 Dr. K Agnihotri Demonstrate the correct
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 38.2 Hysteroscopy	IM19.9- Enumerate the indications for use of surgery and botulinum toxin in the treatment of movement disorders	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly.
Friday	PE27.8 Discuss the common types, clinical presentations and management of poisoning in children	Obstetrics & Gynecology - Lecture/Tutorial/Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 37.6 Observe and assist in the performance of outlet forceps application of vacuum and breech delivery	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly.
Saturday	AETCOM Session: Module 4.8: Dealing with death	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly.
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 30.3 Describe the applied anatomy clinical features, investigations and principles of management of epididymo-orchitis	Obstetrics & Gynecology - Lecture/Tutorial/Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 38.1 Laparoscopy	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly; OP7.3 Demonstrate the correct technique of ocular examination in a patient with a cataract correctly
Tuesday	OR 2.3 Select, prescribe and communicate appropriate medications for relief of joint pain	IM22.13- Identify the underlying acid based disorders correctly based on ABG report and clinical situation	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a
Wednesday	IM13.6 Describe and distinguish the difference between curative and palliative care in patients with cancer	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U.30.4 Describe the applied anatomy clinical features, investigations and principles of management of varicocele	Clinical Posting (P): Eye OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness; OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unioocular & Binocular)
Thursday		Holiday	

Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 30.1 Describe the clinical features, investigations and principles of management of phimosis.	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP8.1 Discuss the aetiology, pathology, clinical features and management of vascular occlusions of the retina	27.02.26
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 38.2 Hysteroscopy	Integration: Integrated Teaching as decided by AITo - PE33.1 - Describe the etio-pathogenesis clinical features, management of Hypothyroidism in children; PA23.3 - Describe and interpret the abnormalities in thyroid function tests	28.02.26

IM25.1: Approach to a case of Tetanus (Tutorial)	PE26.12 discuss the prevention of hepatitis B infection ,Universal precaution and Immunisation and counselling; PE27.5 Describe the etio-pathogenesis, clinical approach and management of Shock in children	09.03.26
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 38.1 Laparoscopy		10.03.26
IM18.14: Management of Haemorrhagic Stroke (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 2.3: Demonstrate the correct technique of examination of the ear including Otoscopy	11.03.26
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele	OR 2.4 Describe and discuss the mechanism of injury, clinical features, Investigation and principles of management of fracture of shaft humerus and intercondylar fracture humerus with emphasis on neurovascular deficit.	12.03.26
Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis.	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP8.2 Enumerate the indications for laser therapy in the treatment of retinal diseases (including retinal detachment, retinal degenerations, diabetic retinopathy & hypertensive retinopathy)	13.03.26
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 38.2 Hysteroscopy	Integration: Integrated Teaching as decided by AITo - PE33.1 - Describe the etio-pathogenesis clinical features, management of Hypothyroidism in children; PA23.3 - Describe and interpret the abnormalities in thyroid function tests	14.03.26
IM25.1: Approach to a case of Tetanus (Tutorial)	PE26.12 discuss the prevention of hepatitis B infection ,Universal precaution and Immunisation and counselling; PE27.5 Describe the etio-pathogenesis, clinical approach and management of Shock in children	16.03.26
Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 38.1 Laparoscopy		17.03.26
IM18.14: Management of Haemorrhagic Stroke (Seminar)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): EN 4.38: Elicit document and present a correct history demonstrate and describe the clinical features, choose the correct investigations and describe the principles of management of type of dysphagia	18.03.26
		19.03.26
	Holiday	

Week 45

Week 46

Friday	PE27.8 Discuss the common types, clinical presentations and management of poisoning in children	Obstetrics & Gynecology - Lecture/Tutorial/Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 37.6 Observe and assist in the performance of outlet forceps application of vacuum and breech delivery	Clinical Posting (P): Eye OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 30.1 Describe the clinical features, investigations and principles of management of phimosis,	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): OP8.4 Enumerate and discuss treatment modalities in management of diseases of the retina.	20.03.26
Saturday	AETCOM Session: Module 4.8: Dealing with death	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): S.U. 30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis	Clinical Posting (P): Eye OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness; OP9.1	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2): O.G. 38.2 Hysteroscopy	Integration: Integrated Teaching as decided by AITo - PE33.1 - Describe the etio-pathogenesis clinical features, management of Hypothyroidism in children: PA23.3 - Describe and interpret the abnormalities in thyroid function tests	21.03.26

Teerthanker Mahaveer Medical College & Research Center						
Teerthanker Mahaveer University						
Delhi Road, Moradabad - 244001						
Time Table Schedule (Consolidated as per New Curriculum w.e.f AUGUST 2019) w.e.f. 03.03.2025						
Day/Time	8:00-9:00 am	9:00-10:00 am	10:00 am - 1:00 pm	1:00-2:00pm	2:00-3:00pm	3:00-4:00pm
Monday	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Pediatrics - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)
Tuesday	Orthopedics - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	
Wednesday	Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	ENT - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)
Thursday	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Medicine - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Orthopedics - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)
Friday	Pediatrics - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Ophthalmology - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)
Saturday	AETCOM Session	Surgery - Lecture/ Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Clinical Posting (P)		Obstetrics & Gynecology - Lecture/Tutorial/ Seminar/ Integrated Teaching/ Self Directed Learning (Phase 3 Part 2)	Integration as Decided by AITo
			Clinical Posting - 8 + 4 weeks in General Medicine; General Surgery, Obstetrics & Gynecology; and 2 weeks in Orthopedics, Pediatrics, Ophthalmology, ENT, and Dermatology		Saturday 3-4 pm: 1st Week Pediatrics, 2nd Week OBG, 3rd Week Surgery, 4th Week Medicine	
SGT - Small Group Teaching Includes: Tutorials, Seminars, Integrated Learning; SDL - Self Directed Learning; L - Lecture; P - Practical AETCOM - 1st Saturday - Medicine; 2nd Saturday - Surgery; 3rd Saturday - OBG; 4th Saturday - Pediatrics. Module 4.1 & 4.3 - Medicine; Module 4.4, 4.5 & 4.6 - Surgery; Module 4.2, 4.7 & 4.8 - OBG; and Module 4.9 - Pediatrics						

Electives to be held in Preclinical and Paraclinical (2 weeks) + Clinical (2 weeks) from 03.02.2025; 1 weeks Holi Vacation (10.03.25-15.03.25), 1 week Diwali Vacation (20.10.25-25.10.25), 3 weeks for First Internal (23.06.25-12.07.25) and 2nd Internal (03.11.25-22.11.25); Preuniversity Exam in Mar 2026 (23.03.26) end and University Exam in April 2026

Teerthanker Mahaveer Medical College & Research Center
Teerthanker Mahaveer University
Delhi Road, Moradabad - 244001
<b>Time Table Schedule (Consolidated as per New Curriculum w.e.f AUGUST 2019) w.e.f. 03.03.2025</b>

Day/Time	10:00 am - 1:00 pm	Date	
Electives Week 1	Monday	IM9.3- Elicit document and present a medical history that includes symptoms, risk factors including GI bleeding, prior history, medications, menstrual history, and family history - Unit 1 (Dr. V K Singh)	03.02.25
	Tuesday	IM9.4- Perform a systematic examination that includes: general examination for pallor, oral examination, DOAP session of hyperdynamic circulation, lymph node and splenic examination - Unit 1 (Dr. V K Singh)	04.02.25
	Wednesday	IM9.5- Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology - Unit 1 (Dr. V K Singh)	05.02.25
	Thursday	IM9.6- Describe the appropriate diagnostic work up based on the presumed aetiology - Unit 1 (Dr. V K Singh)	06.02.25
	Friday	IM9.9- Order and interpret tests for anaemia including hemogram, red cell indices, reticulocyte count, iron studies, B12 and folate - Unit 1 (Dr. V K Singh)	07.02.25
	Saturday	IM9.10- Describe, perform and interpret a peripheral smear and stool occult blood - Unit 2 (Dr. Vishvanayak)	08.02.25
	Monday	IM9.13- Prescribe replacement therapy with iron, B12, folate - Unit 2 (Dr. Vishvanayak)	10.02.25
Electives Week 2	Tuesday	IM9.15- Communicate the diagnosis and the treatment appropriately to patients - Unit 2 (Dr. Vishvanayak)	11.02.25
	Wednesday	IM9.16- Incorporate patient preferences in the management of anaemia - Unit 2 (Dr. Vishvanayak)	12.02.25
	Thursday	IM9.19- Assist a blood transfusion Unit 2 (Dr. Vishvanayak)	13.02.25
	Friday	IM9.20- Communicate and counsel patients with methods to prevent nutritional anaemia - Unit 3 (Dr. K Gopal)	14.02.25
	Saturday	IM10.12- Elicit document and present a medical history that will differentiate the etiologies of disease, distinguish acute and chronic disease, identify predisposing conditions, nephrotoxic drugs and systemic causes Unit 3 (Dr. K Gopal)	15.02.25
Electives Week 3	Monday	IM10.13- Perform a systemic examination that establishes the diagnosis and severity including determining of volume status, presence of edema and heart failure, features of uremia and associated systemic disease. Unit 3 (Dr. K Gopal)	17.02.25
	Tuesday	IM10.14- Generate a differential diagnosis and prioritise based on clinical features that suggest specific etiology Unit 3 (Dr. K Gopal)	18.02.25
	Wednesday	IM10.18- Identify the ECG findings in Hyperkalemia. Unit 3 (Dr. K Gopal)	19.02.25
	Thursday	IM10.19- Enumerate the indications and describe the findings in renal ultrasound. - Unit 4 (Dr. J Haria)	20.02.25
	Friday	IM10.20- Describe and discuss the indications to perform arterial blood gas analysis: interpret the data - Unit 4 (Dr. J Haria)	21.02.25
	Saturday	IM10.21- Describe and discuss the indications for and insert a peripheral intravenous catheter - Unit 4 (Dr. J Haria)	22.02.25
	Monday	IM10.22- Describe and discuss the indications, demonstrate in a model and assist in the insertion of a central venous or a dialysis catheter - Unit 4 (Dr. J Haria)	24.02.25
Electives Week 4	Tuesday	IM10.23- Communicate diagnosis treatment plan and subsequent followup to patients - Unit 4 (Dr. J Haria)	25.02.25
	Wednesday	IM10.24- Counsel patients on renal diet - Unit 5 (Dr. A Kumar)	26.02.25
	Thursday	IM11.7- Elicit document and present a medical history that will differentiate the aetiologies of diabetes including risk factors, precipitating factors, lifestyle, nutritional history, family history, medication history, co-morbidities and target organ disease - Unit 5 (Dr. A Kumar)	27.02.25
	Friday	IM11.8- Perform a systematic examination that establishes the diagnosis and severity that includes skin, peripheral pulses, blood pressure measurement, fundus examination, detailed examination of the foot (pulses, nervous and deformities and injuries) - Unit 5 (Dr. A Kumar)	28.02.25
	Saturday	IM11.9- Describe and recognise the clinical features of patients who present with a diabetic emergency - Unit 5 (Dr. A Kumar)	01.03.25

Day/Time	10:00 am - 1:00 pm	Date
Monday	IM11.10- Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology - Unit 1 (Dr. V K Singh)	03.03.25

Week 1	Tuesday	IM11.11- Order and interpret laboratory tests to diagnose diabetes and its complications including: glucoses, glucose tolerance test, glycosylated hemoglobin, urinary micro albumin, ECG, electrolytes, ABG, ketones, renal function tests and lipid profile - Unit 1 (Dr. V K Singh)	04.03.25
	Wednesday	IM11.12- Perform and interpret a capillary blood glucose test - Unit 1 (Dr. V K Singh)	05.03.25
	Thursday	IM11.12- Perform and interpret a capillary blood glucose test - Unit 1 (Dr. V K Singh)	06.03.25
	Friday	IM11.13- Perform and interpret a urinary ketone estimation with a dipstick - Unit 1 (Dr. V K Singh)	07.03.25
	Saturday	IM11.14- Recognise the presentation of hypoglycaemia and outline the principles on its therapy - Unit 1 (Dr. V K Singh)	08.03.25
Holi Vacations 10.03.25-15.03.25			
Week 2	Monday	IM11.15- Recognise the presentation of diabetic emergencies and outline the principles of therapy - Unit 1 (Dr. V K Singh)	17.03.25
	Tuesday	IM11.16- Discuss and describe the pharmacologic therapies for diabetes their indications, contraindications, adverse reactions and interactions - Unit 1 (Dr. V K Singh)	18.03.25
	Wednesday	IM11.17- Outline a therapeutic approach to therapy of T2Diabetes based on presentation, severity and complications in a cost effective manner - Unit 1 (Dr. V K Singh)	19.03.25
	Thursday	IM11.17- Outline a therapeutic approach to therapy of T2Diabetes based on presentation, severity and complications in a cost effective manner - Unit 1 (Dr. V K Singh)	20.03.25
	Friday	IM11.19- Demonstrate and counsel patients on the correct technique to administer insulin - Unit 1 (Dr. V K Singh)	21.03.25
	Saturday	IM11.20- Demonstrate to and counsel patients correct technique on the of self-monitoring of blood glucoses - Unit 1 (Dr. V K Singh)	22.03.25
	Monday	IM11.21- Recognise the importance of patient preference while selecting therapy for diabetes - Unit 1 (Dr. V K Singh)	24.03.25
Week 3	Tuesday	IM12.5- Elicit document and present an appropriate history that will establish the diagnosis cause of thyroid dysfunction and its severity - Unit 1 (Dr. V K Singh)	25.03.25
	Wednesday	IM12.6- Perform and demonstrate a systematic examination based on the history that will help establish the diagnosis and severity including systemic signs of thyrotoxicosis and hypothyroidism, palpation of the pulse for rate and rhythm abnormalities, neck palpation of the thyroid and lymph nodes and cardiovascular findings - Unit 1 (Dr. V K Singh)	26.03.25
	Thursday	IM12.7- Demonstrate the correct technique to palpate the thyroid - Unit 1 (Dr. V K Singh)	27.03.25
	Friday	IM12.8- Generate a differential diagnosis based on the clinical presentation and prioritise it based on the most likely diagnosis - Unit 1 (Dr. V K Singh)	28.03.25
	Saturday	IM12.9- Order and interpret diagnostic testing based on the clinical diagnosis including CBC, thyroid function tests and ECG and radio iodine uptake and scan - Unit 1 (Dr. V K Singh)	29.03.25
	Monday	IM12.10- Identify atrial fibrillation, pericardial effusion and bradycardia on ECG - Unit 2 (Dr. Vishvanayak)	31.03.25
Week 4	Tuesday	IM12.11- Interpret thyroid function tests in hypo and hyperthyroidism Unit 2 (Dr. Vishvanayak)	01.04.25
	Wednesday	IM12.14- Write and communicate to the patient appropriately a prescription for thyroxine based on age, sex, and clinical and biochemical status Unit 2 (Dr. Vishvanayak)	02.04.25
	Thursday	IM12.15- Describe and discuss the indications of thionamide therapy, radio iodine therapy and surgery in the management of thyrotoxicosis Unit 2 (Dr. Vishvanayak)	03.04.25
	Friday	IM13.7- Elicit document and present a history that will help establish the aetiology of cancer and includes the appropriate risk factors, duration and evolution Unit 2 (Dr. Vishvanayak)	04.04.25
	Saturday	IM13.8- Perform and demonstrate a physical examination that includes an appropriate general and local examination that excludes the diagnosis, extent spread and complications of cancer Unit 2 (Dr. Vishvanayak)	05.04.25
	Monday	IM13.9- Demonstrate in a mannequin the correct technique for performing breast exam, rectal examination and cervical examination and pap smear Unit 2 (Dr. Vishvanayak)	07.04.25
Week 5	Tuesday	IM13.10- Generate a differential diagnosis based on the presenting symptoms and clinical features and prioritise based on the most likely diagnosis Unit 2 (Dr. Vishvanayak)	08.04.25
	Wednesday	IM13.11- Order and interpret diagnostic testing based on the clinical diagnosis including CBC and	09.04.25
	Thursday	IM13.12- Describe the indications and interpret the results of Chest X Ray, mammogram, skin and tissue biopsies and tumor markers used in common cancers Unit 2 (Dr. Vishvanayak)	10.04.25
	Friday	IM9.13- Describe and assess pain and suffering objectively in a patient with cancer Unit 2 (Dr. Vishvanayak)	11.04.25
	Saturday	IM13.14- Describe the indications for surgery, radiation and chemotherapy for malignancies Unit 2 (Dr. Vishvanayak)	12.04.25
	Monday	IM13.15- Describe the need, tests involved, their utility in the prevention of common malignancies Unit 2 (Dr. Vishvanayak)	14.04.25
Tuesday	IM13.16- Demonstrate an understanding and needs and preferences of patients when choosing curative and palliative therapy Unit 2 (Dr. Vishvanayak)	15.04.25	

Week 6	Wednesday	IM13.17- Describe and enumerate the indications, use, side effects of narcotics in pain alleviation in patients with cancer Unit 2 (Dr. Vishvanayak)	16.04.25
	Thursday	IM13.18- Describe and discuss the ethical and the medico legal issues involved in end of life care - Unit 3 (Dr. K Gopal)	17.04.25
	Friday	IM13.19- Describe the therapies used in alleviating suffering in patients at the end of life - Unit 3 (Dr. K Gopal)	18.04.25
	Saturday	IM14.6- Elicit and document and present an appropriate history that includes the natural history, dietary history, modifiable risk factors, family history, clues for secondary causes and motivation to lose weight - Unit 3 (Dr. K Gopal)	19.04.25
	Monday	IM 14.7- Perform, document and demonstrate a physical examination based on the history that includes general examination, measurement of abdominal obesity, signs of secondary causes and co-morbidities - Unit 3 (Dr. K Gopal)	21.04.25
Week 7	Tuesday	IM 14.8- Generate a differential diagnosis based on the presenting symptoms and clinical features and prioritise based on the most likely diagnosis - Unit 3 (Dr. K Gopal)	22.04.25
	Wednesday	IM 14.9- Order and interpret diagnostic tests based on the clinical diagnosis including blood glucose, lipids, thyroid function tests etc - Unit 3 (Dr. K Gopal)	23.04.25
	Thursday	IM14.10- Describe the indications and interpret the results of tests for secondary causes of obesity - Unit 3 (Dr. K Gopal)	24.04.25
	Friday	IM14.11- Communicate and counsel patient on behavioural, dietary and lifestyle modifications - Unit 3 (Dr. K Gopal)	25.04.25
	Saturday	IM14.12- Demonstrate an understanding of patient's inability to adhere to lifestyle instructions and counsel them in a non-judgemental way - Unit 3 (Dr. K Gopal)	26.04.25
Week 8	Monday	IM17.2- Elicit and document and present an appropriate history including aura, precipitating aggravating and relieving factors, associated symptoms that help identify the cause of headaches - Unit 3 (Dr. K Gopal)	28.04.25
	Tuesday	IM17.3- Classify migraine and describe the distinguishing features between classical and non classical forms of migraine - Unit 3 (Dr. K Gopal)	29.04.25
	Wednesday	IM17.4- Perform and demonstrate a general neurologic examination and a focused examination for signs of intracranial tension including neck signs of meningitis - Unit 3 (Dr. K Gopal)	30.04.25
	Thursday	IM17.5- Generate document and present a differential diagnosis based on the clinical features and prioritise the diagnosis based on the presentation - Unit 3 (Dr. K Gopal)	01.05.25
	Friday	IM17.7- Enumerate the indications and describe the findings in the CSF in patients with meningitis - Unit 3 (Dr. K Gopal)	02.05.25
Week 9	Saturday	IM17.8- Demonstrate in a mannequin or equivalent the correct technique for performing a lumbar puncture - Unit 3 (Dr. K Gopal)	03.05.25
	Monday	IM17.14- Counsel patients with migraine and tension headache on lifestyle changes and need for prophylactic therapy - Unit 4 (Dr. J Haria)	05.05.25
	Tuesday	IM18.3- Elicit and document and present an appropriate history including onset, progression, precipitating and aggravating relieving factors, associated symptoms that help identify the cause of the cerebrovascular accident - Unit 4 (Dr. J Haria)	06.05.25
	Wednesday	IM18.4- Identify the nature of the cerebrovascular accident based on the temporal evolution and resolution of the illness - Unit 4 (Dr. J Haria)	07.05.25
	Thursday	IM18.5- Perform, demonstrate & document physical examination that includes general and a detailed neurologic examination as appropriate, based on the history - Unit 4 (Dr. J Haria)	08.05.25
Week 10	Friday	IM18.6- Distinguish the lesion based on upper vs lower motor neuron, side, site and most probable nature of the lesion - Unit 4 (Dr. J Haria)	09.05.25
	Saturday	IM18.7- Describe the clinical features and distinguish, based on clinical examination, the various disorders of speech- Unit 4 (Dr. J Haria)	10.05.25
	Monday	IM18.8- Describe and distinguish, based on the clinical presentation, the types of bladder dysfunction seen in CNS disease - Unit 4 (Dr. J Haria)	12.05.25
	Tuesday	IM18.9- Choose and interpret the appropriate diagnostic and imaging test that will delineate the anatomy and underlying cause of the lesion - Unit 4 (Dr. J Haria)	13.05.25
	Wednesday	IM18.17- Counsel patient and family about the diagnosis and therapy in an empathetic manner - Unit 4 (Dr. J Haria)	14.05.25
Week 10	Thursday	IM19.3- Elicit and document and present an appropriate history including onset, progression precipitating and aggravating relieving factors, associated symptoms that help identify the cause of the movement disorders - Unit 4 (Dr. J Haria)	15.05.25
	Friday	IM19.4- Perform, demonstrate and document a physical examination that includes a general examination and a detailed neurologic examination using standard movement rating scales - Unit 4 (Dr. J Haria)	16.05.25
	Saturday	IM19.5- Generate document and present a differential diagnosis and prioritise based on the history and physical examination - Unit 4 (Dr. J Haria)	17.05.25
	Monday	IM19.6- Make a clinical diagnosis regarding the anatomical location, nature and cause of the lesion based on the clinical presentation and findings - Unit 5 (Dr. A Kumar)	19.05.25

Week 11	Tuesday	IM19.7- Choose and interpret diagnostic and imaging tests in the diagnosis of movement disorders - Unit 5 (Dr. A Kumar)	20.05.25	
	Wednesday	M26.1- Enumerate and describe professional qualities and roles of a physician - Unit 5 (Dr. A Kumar)	21.05.25	
	Thursday	M26.2- Describe and discuss the commitment to lifelong learning as an important part of physician growth - Unit 5 (Dr. A Kumar)	22.05.25	
	Friday	M26.3- Describe and discuss the role of non maleficence as a guiding principle in patient care - Unit 5 (Dr. A Kumar)	23.05.25	
	Saturday	M26.4- Describe and discuss the role of autonomy and shared responsibility as a guiding principle in patient care - Unit 5 (Dr. A Kumar)	24.05.25	
Week 12	Monday	M26.5- Describe and discuss the role of beneficence of a guiding principle in patient care - Unit 5 (Dr. A Kumar)	26.05.25	
	Tuesday	M26.6- Describe and discuss the role of a physician in health care system - Unit 5 (Dr. A Kumar)	27.05.25	
	Wednesday	M26.7- Describe and discuss the role of justice as a guiding principle in patient care - Unit 5 (Dr. A Kumar)	28.05.25	
	Thursday	M26.8- Identify discuss medicolegal, socioeconomic and ethical issues as it pertains to organ donation - Unit 5 (Dr. A Kumar)	29.05.25	
	Friday	M26.9- Identify, discuss and defend medicolegal, sociocultural, economic and ethical issues as it pertains to rights, equity and justice in access to health care- Unit 5 (Dr. A Kumar)	30.05.25	
Week 13	Saturday	M26.10- Identify, discuss and defend medicolegal, socio-cultural and ethical issues as it pertains to confidentiality in patient care - Unit 5 (Dr. A Kumar)	31.05.25	
	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh) - SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling	02.06.25	
	Tuesday	Clinical Posting (P): Unit II(Dr.Vipin Agarwal SU28.18 Describe and demonstrate clinical examination of abdomen. Order relevant investigations	03.06.25	
	Wednesday	Clinical Posting (P): Unit III(Dr. R K Kaul)-SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast	04.06.25	
	Thursday	Clinical Posting (P): Unit IV(Dr. A K Singh)-SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast.	05.06.25	
	Friday	Clinical Posting (P): Unit V(Dr.C K JHAKMOLA)-SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent	06.06.25	
	Saturday	Clinical Posting (P):Unit in Rotation -SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease	07.06.25	
	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh - SU27.5 Describe the applied anatomy of venous system of lower limb	09.06.25	
	Tuesday	Clinical Posting (P)Unit II(Dr. Vipin Agarwal SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins	10.06.25	
	Week 14	Wednesday	Clinical Posting (P):Unit III(Dr. R K Kaul) SU28.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias	11.06.25
Thursday		Clinical Posting (P)::Unit IV (Dr. A K Singh)SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.	12.06.25	
Friday		Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU28.9 Demonstrate the correct technique of examination of a patient with disorders of the stomach	13.06.25	
Saturday		Clinical Posting (P)Unit in Rotation SU28.11 Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post-splenectomy sepsis - prophylaxis	14.06.25	
Monday		Clinical Posting (P):Unit I(Dr. N.K. Singh) - SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling	16.06.25	
Week 15	Tuesday	Clinical Posting (P): Unit II(Dr. Vipin Agarwal SU28.18 Describe and demonstrate clinical examination of abdomen. Order relevant investigations	17.06.25	
	Wednesday	Clinical Posting (P): Unit III(Dr. R K Kaul)-SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast	18.06.25	
	Thursday	Clinical Posting (P): Unit IV(Dr. A K Singh)-SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast.	19.06.25	
	Friday	Clinical Posting (P): Unit V(Dr.C K JHAKMOLA)-SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent	20.06.25	
	Saturday	Clinical Posting (P):Unit in Rotation -SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease	21.06.25	
	First Terminal Exam 23.06.2025 to 12.07.2025			
	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh - SU27.5 Describe the applied anatomy of venous system of lower limb	14.07.25	
	Tuesday	Clinical Posting (P)Unit II(Dr. Vipin Agarwal SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins	15.07.25	

Week 16	Wednesday	Clinical Posting (P):Unit III(Dr. R K Kaul) SU28.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias	16.07.25
	Thursday	Clinical Posting (P):Unit IV (Dr. A K Singh)SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.	17.07.25
	Friday	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU28.9 Demonstrate the correct technique of examination of a patient with disorders of the stomach	18.07.25
	Saturday	Clinical Posting (P)Unit in Rotation SU28.11 Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post-splenectomy sepsis - prophylaxis	19.07.25
	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh) - SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling	21.07.25
	Tuesday	Clinical Posting (P): Unit II(Dr. Vipin Agarwal) SU28.18 Describe and demonstrate clinical examination of abdomen. Order relevant investigations	22.07.25
Week 17	Wednesday	Clinical Posting (P): Unit III(Dr. R K Kaul)-SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast	23.07.25
	Thursday	Clinical Posting (P): Unit IV(Dr. A K Singh)-SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast.	24.07.25
	Friday	Clinical Posting (P): Unit V(Dr.C K JHAKMOLA)-SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent	25.07.25
	Saturday	Clinical Posting (P):Unit in Rotation -SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease	26.07.25
	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh - SU27.5 Describe the applied anatomy of venous system of lower limb	28.07.25
	Tuesday	Clinical Posting (P)Unit II(Dr. Vipin Agarwal SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins	29.07.25
Week 18	Wednesday	Clinical Posting (P):Unit III(Dr. R K Kaul) SU28.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias	30.07.25
	Thursday	Clinical Posting (P):Unit IV (Dr. A K Singh)SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.	31.07.25
	Friday	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU28.9 Demonstrate the correct technique of examination of a patient with disorders of the stomach	01.08.25
	Saturday	Clinical Posting (P)Unit in Rotation SU28.11 Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post-	02.08.25
	Monday	Clinical Posting (P):Unit I (Dr. N.K. Singh)SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver	04.08.25
	Tuesday	Clinical Posting (P):Unit II (Dr. Vipin Agarwal SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system	05.08.25
Week 19	Wednesday	Clinical Posting (P): Unit III(Dr. R K Kaul) SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis	06.08.25
	Thursday	Clinical Posting (P):Unit IV(Dr. A K Singh) SU22.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management	07.08.25
	Friday	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU29.1 Describe the causes, investigations and principles of management of Hematuria	08.08.25
	Saturday	Clinical Posting (P): Unit in Rotation SU29.5 Describe the clinical features,investigations and principles of management of renal calculi	09.08.25
	Monday	Clinical Posting (P):Unit I (Dr. N.K. Singh)SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver	11.08.25
	Tuesday	Clinical Posting (P):Unit II (Vipin Agarwal SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system	12.08.25
Week 20	Wednesday	Clinical Posting (P): Unit III(Dr. R K Kaul) SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis	13.08.25
	Thursday	Clinical Posting (P):Unit IV(Dr. A K Singh) SU22.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management	14.08.25
	Friday	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU29.1 Describe the causes, investigations and principles of management of Hematuria	15.08.25
	Saturday	Clinical Posting (P): Unit in Rotation SU29.5 Describe the clinical features,investigations and principles of management of renal calculi	16.08.25

Week 21	Monday	Clinical Posting (P):Unit I (Dr. N.K. Singh)SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver	18.08.25
	Tuesday	Clinical Posting (P):Unit II (Dr. Vipin Agarwal)SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system	19.08.25
	Wednesday	Clinical Posting (P): Unit III(Dr. R K Kaul) SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis	20.08.25
	Thursday	Clinical Posting (P):Unit IV(Dr. A K Singh) SU22.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management	21.08.25
	Friday	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU29.1 Describe the causes, investigations and principles of management of Hematuria	22.08.25
	Saturday	Clinical Posting (P): Unit in Rotation SU29.5 Describe the clinical features,investigations and principles of management of renal calculi	23.08.25
Week 22	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh)SU30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis	25.08.25
	Tuesday	Clinical Posting (P):Unit II (Dr. Vipin Agarwal)SU29.10 Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent	26.08.25
	Wednesday	Clinical Posting (P)Unit III(Dr. R K Kaul) SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases	27.08.25
	Thursday	Clinical Posting (P):Unit IV(Dr. A K Singh) SU28.14 Describe the clinical features, investigations and principles of management of disorders of small and large intestine	28.08.25
	Friday	Clinical Posting (P): Unit V (Dr.C K JHAKMOLA)SU30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele	29.08.25
	Saturday	Clinical Posting (P): Unit on rotation-- SU30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis	30.08.25
Week 23	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh)SU30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis	01.09.25
	Tuesday	Clinical Posting (P):Unit II (Dr. Vipin Agarwal)SU29.10 Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent	02.09.25
	Wednesday	Clinical Posting (P)Unit III(Dr. R K Kaul) SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases	03.09.25
	Thursday	Clinical Posting (P):Unit IV(Dr. A K Singh) SU28.14 Describe the clinical features, investigations and principles of management of disorders of small and large intestine	04.09.25
	Friday	Clinical Posting (P): Unit V (Dr.C K JHAKMOLA)SU30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele	05.09.25
	Saturday	Clinical Posting (P): Unit on rotation-- SU30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis	06.09.25
Week 24	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh)SU30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis	08.09.25
	Tuesday	Clinical Posting (P):Unit II (Dr. Vipin Agarwal)SU29.10 Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent	09.09.25
	Wednesday	Clinical Posting (P)Unit III(Dr. R K Kaul) SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases	10.09.25
	Thursday	Clinical Posting (P):Unit IV(Dr. A K Singh) SU28.14 Describe the clinical features, investigations and principles of management of disorders of small and large intestine	11.09.25
	Friday	Clinical Posting (P): Unit V (Dr.C K JHAKMOLA)SU30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele	12.09.25
	Saturday	Clinical Posting (P): Unit on rotation-- SU30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis	13.09.25
Week 25	Monday	OG8.2.The student should be able to Elicit, document & present an Obstetric history in detail, which includes elicitation of symptoms, history of previous obstetric, medical & surgical history, significant family & personal history, high risk factors for complications in the present pregnancy, menstrual history, history of patient's antenatal care- past & present, Immunization and contraceptive history. To be able to demonstrate ethical behavior in all aspects of history taking - Unit 1 (Dr. M Kaur)	15.09.25
	Tuesday	OG8.3.The student should be able to perform a systematic examination of the patient, which includes -General Physical Examination- examination for Pallor, icterus, cyanosis, clubbing, thyroid examination, lymphadenopathy, edema & Breast examination. To be able to identify the abnormalities in General Physical examination & be able to describe the implications of each abnormality for the present pregnancy.To be able to apply all principles of ethics in taking consent for examination and the examination itself. Unit 1 (Dr. M Kaur)	16.09.25

Week 25	Wednesday	OG8.3.To perform a detailed Abdominal examination followed by an Obstetrical examination in a normal pregnancy. To be able to estimate the period of gestation from the patient history and examination. A DOAP on obstetric examination of a pregnant woman. Unit 1 (Dr. M Kaur)	17.09.25
	Thursday	OG8.1.To be able to define Gravida, Para & Abortion & write an Obstetric formula. To be able to reach a diagnosis of a pregnant woman with a normal pregnancy Unit 1 (Dr. M Kaur)	18.09.25
	Friday	OG8.4.To observe & be able to demonstrate clinical monitoring of maternal & fetal wellbeing.To be able to apply different tests to determine fetal well being.To be able to identify high risk factors in the mother. Unit 1 (Dr. M Kaur)	19.09.25
	Saturday	OG8.5.To be able to describe & demonstrate pelvic assessment in a model. To be able to identify abnormalities in the pelvis in different models and be able to describe the obstetrical implications of common abnormalities of the pelvis. Unit 1 (Dr. M Kaur)	20.09.25
	Monday	OG8.6.To be able to counsel the pregnant woman and her relatives in a simulated environment the importance of correct antenatal care, diet & immunization and of seeking help in case of a perceived abnormality in health.To be able to identify co-morbid conditions in a pregnant woman. Unit 1 (Dr. M Kaur)	22.09.25
	Tuesday	OG8.7, OG8.8.To be able to enumerate indications for & types of vaccinations in pregnancy.To be able to enumerate the indications & describe the routine investigations in a pregnant woman, including the use of ultrasound in the initial assessment & monitoring in pregnancy. Unit 1 (Dr. M Kaur)	23.09.25
	Wednesday	OG35.1, OG35.2.To be able to elicit, document & present a gynecology case history in detail which includes elicitation of symptoms, previous gyneec & obstetric history, medical, surgical, significant family history, significant personal history, risk factors for gyneec pathologies & normal menstrual history. Unit 1 (Dr. M Kaur)	24.09.25
Week 26	Thursday	OG35.6 – OG35.8. To be able to apply the principles of Medical ethics in history taking & examination of a gynecology patient. To be able to do a General Physical Examination of a gyneec case, gyneec examination of the patient upto per abdominal examination and be familiar with per speculum and per vaginal examinations in a simulated environment. DOAP of a per abdominal examination of a gyneec case. Unit 1 (Dr. M Kaur)	25.09.25
	Friday	OG9.1. To be able to diagnose from history and examination a case of Abortion, Define, classify, & discuss the etiology of abortions, including Threatened, Inevitable, Missed, Incomplete, Complete & Septic abortions. To be able to formulate appropriate management plans for the type of abortion. Unit 1 (Dr. M Kaur)	26.09.25
	Saturday	OG9.2,OG20.1-20.3.To define and classify MTP, describe the procedures and steps, observe and assist in the performance of an MTP evacuation. To be able to enumerate the indications and describe & discuss the legal aspects, indications, methods for first & second trimester MTP; Complications and management of complications. Administer Informed consent to patient or guardian in a simulated environment. Discuss the PC & PNDT Act 1994 & 2021. Unit 1 (Dr. M Kaur)	27.09.25
	Monday	OG9.3. To be able to diagnose from history & examination, a patient of Acute Pain Abdomen in early pregnancy(with a focus on ectopic pregnancy) & enumerate the principles of Medical & surgical management . Unit 1 (Dr. M Kaur)	29.09.25
	Tuesday	OG9.4. To be able to provisionally diagnose a case of Gestational Trophoblastic Disease or Neoplasm from history & examination, discuss clinical features, laboratory investigations, Ultrasound findings, Differential diagnosis, principles of management and follow up of a patient of Gestational Trophoblastic Disease. Unit 1 (Dr. M Kaur)	30.09.25
	Wednesday	OG9.5. To be able to diagnose a case of Hyperemesis Gravidarum by history, examination & investigations.To know the principles of management & the impact of Hyperemesis Gravidarum on maternal & fetal health. Unit 1 (Dr. M Kaur)	01.10.25
	Thursday	OG10.1; OG10.2; OG16.1. To be able to reach a provisional diagnosis of Antepartum Hemorrhage. Describe the first aid to be provided to the patient, confirmation of diagnosis and general & obstetric management of Abruptio Placentae. To be able to select the correct blood products to manage APH & its complications. Unit 1 (Dr. M Kaur)	02.10.25
Week 27	Friday	OG16.1-To be able to reach a provisional diagnosis of Antepartum Hemorrhage. Describe the first aid to be provided to the patient, confirmation of diagnosis and general & obstetric management of Placenta Previa. Unit 1 (Dr. M Kaur)	03.10.25
	Saturday	OG11.1.To diagnose a case of Multifetal gestation.To describe etiopathology, clinical features, diagnosis and investigations, principles of management & complications of Multiple gestations. Unit 1 (Dr. M Kaur)	04.10.25
	Monday	OG12.1. To be able to diagnose a case of Hypertension in Pregnancy, with correct method of Blood Pressure measurement, classify Hypertension of Pregnancy according to severity, get the appropriate investigations, Interpretation of the investigations, etiology, pathophysiology of Hypertensive disorders of pregnancy & Eclampsia & their complications. Unit 1 (Dr. M Kaur)	06.10.25

Week 28	Tuesday	OG12.1-To know the Etiology, pathophysiology, symptoms & signs, of Eclampsia. To know the Immediate management, investigations , General & Obstetric management of a case of Eclampsia.complications Unit 1 (Dr. M Kaur)	07.10.25	
	Wednesday	OG12.2.To be able to identify anemia in pregnancy, severity of anemia clinically & by investigations, be able to describe etiology, pathophysiology, diagnosis, investigations, cause, severity and gestational age appropriate management of anemia. To be able to describe the Maternal & fetal complications of Anemia in pregnancy Unit 1 (Dr. M Kaur)	08.10.25	
	Thursday	OG12.3.To be able to define, classify & describe the pathophysiology, diagnosis, investigations, aderse maternal & fetal effects of Diabetes in pregnancy. To ba able to screen for gestational Diabetes Mellitus(GDM) & diagnose it. To describe the general & obstetric management for a case of GDM. Unit 1 (Dr. M Kaur)	09.10.25	
	Friday	OG12.4. To be able to recognise, classify Heart Disease as Cyanotic/ acyanotic & according to NYHA , Cardiac Disease in pregnancy, its management during antenatal period, management of different stages of labor, puerperium, advice for contraception, maternal & fetal complications of heart disease in pregnancy. Unit 1 (Dr. M Kaur)	10.10.25	
	Saturday	OG12.5. To be able to describe the clinical features, investigations, diagnosis, complications, treatment effects of urinary tract infections during pregnancy Unit 1 (Dr. M Kaur)	11.10.25	
	Monday	OG12.6. To recognise Jaundice in pregnancy.To describe the clinical features, detection, effects of pregnancy on the liver disease, effects of the disease on pregnancy & management of Liver disease in pregnancy. To know the Liver diseases specific to pregnancy and coincidental to pregnancy. Unit 2 (Dr. K Rani)	13.10.25	
Week 29	Tuesday	OG12.7. To be able to describe and discuss screening, risk factors, management of mother with HIV in pregnancy and of the newborn of an HIV positive mother Unit 2 (Dr. K Rani)	14.10.25	
	Wednesday	OG12.8.To be able to describe the mechanism, prophylaxis, Fetal complications, diagnosis and management of Isoimmunization in Pregnancy. Unit 2 (Dr. K Rani)	15.10.25	
	Thursday	OG14.1,14.2:13.1,13.4. To be able to enumerate & discuss the diameters of the Maternal Pelvis and the types of pelvises. To know & be able to describe the landmarks & diameters of the Fetal Skull. To discuss mechanism of Normal Labor. Enumerate & discuss Physiology, stages and mechanism of Normal Labor with Occipito-anterior position. Unit 2 (Dr. K Rani)	16.10.25	
	Friday	OG13.3,13.5. To know the monitoring of labor, plotting the Partograms, observe & assist in artificial rupture of membranes and observe & assist in the conduct of a normal vaginal delivery. Unit 2 (Dr. K Rani)	17.10.25	
	Saturday	OG13.2. To be able to define, describe the causes, pathophysiology, diagnosis, investigations and the management of Preterm Labor, PPROM, PROM & Post term pregnancies. Unit 2 (Dr. K Rani)	18.10.25	
	Diwali 20.10.25 to 25.10.25			
Week 30	Monday	OG14.2.To be able to describe pelvic assessment in an abnormal pelvic type in a model, describe Cephalopelvic disproportion (CPD), Obstructed Labor, its symptoms, signs, prevention & management. Unit 2 (Dr. K Rani)	27.10.25	
	Tuesday	OG14.3. To be able to describe & discuss Rupture Uterus, causes, diagnosis & management. To know the principles of Peripartum Hysterectomy (Obstetric Hysterectomy-OH). Unit 2 (Dr. K Rani)	28.10.25	
	Wednesday	OG14.4. To be able to describe & discuss the classification, Diagnosis, causes & management of Abnormal Labor in Malpresentations & Malpositions - Occipito-posterior Unit 2 (Dr. K Rani)	29.10.25	
	Thursday	OG14.4. To be able to describe & discuss the classification, Diagnosis, causes & management of Abnormal Labor in Malpresentations & Malpositions - Face Presentation. Unit 2 (Dr. K Rani)	30.10.25	
	Friday	OG15.1. To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques, Postoperative management and their complications. Episiotomy Unit 2 (Dr. K Rani)	31.10.25	
	Saturday	OG15.1. To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques, postoperative management and their complications Vacuum extraction, Low Forceps delivery. Unit 2 (Dr. K Rani)	01.11.25	
	Second Terminal Exam - 03.11.25 to 22.11.25			
	Monday	OG15.1. To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques, postoperative management and the complications of LSCS & Upper segment cesarean section Unit 2 (Dr. K Rani)	24.11.25	
	Tuesday	OG15.1To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques and their complications of Assisted Breech Delivery Unit 2 (Dr. K Rani)	25.11.25	
Wednesday	OG15.1. To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques, postoperative management and the complications of Cervical Encerclage. Unit 2 (Dr. K Rani)	26.11.25		

Week 31	Thursday	OG 15.2- Observe/assist Episiotomy procedure during Labour room Posting Perform episiotomy closure using the appropriate suture material on skill learning modules Observe LSCS procedure during Labour room Posting Observe outlet forceps/Vacuum Extraction procedure during Labour room Posting Observe assisted vaginal breech delivery during Labour room Posting Unit 2 (Dr. K Rani)	27.11.25
	Friday	OG16.1, OG 16.2- Enumerate various complications of third stage of labour Define post partum haemorrhage Discuss the causes and types of post partum haemorrhage Discuss the diagnosis of post partum haemorrhage Describe the management of post partum haemorrhage Discuss active management of third stage of labour Discuss preventive methods for post partum haemorrhage Discuss the use of various blood products in management of post partum haemorrhage. Unit 2 (Dr. K Rani)	28.11.25
	Saturday	OG 16.2-Define uterine inversion. Discuss the causes of uterine inversion Discuss the diagnosis of uterine inversion Describe the management of uterine inversion Enumerate the methods to prevent uterine inversion Unit 2 (Dr. K Rani)	29.11.25
	Monday	OG16.3-Enumerate the causes of FGR Discuss the clinical features of FGR Discuss the diagnostic modalities of FGR. Describe various antepartum fetal surveillance tests for monitoring and principles of management of FGR Discuss the preventive methods of FGR Describe counseling regarding fetal prognosis in FGR cases Unit 2 (Dr. K Rani)	01.12.25
Week 32	Tuesday	OG17.1,OG17.2,OG17.3-Describe the physiology of lactation in terms of mammogenesis. Describe the physiology of lactation in terms of, lactogenesis galactogenesis and galactopoiesis Counsel about importance of breast feeding. In simulated environment student should be able to demonstrate the care of breast and correct technique of breast feeding. Unit 2 (Dr. K Rani)	02.12.25
	Wednesday	,OG17.3- Discuss the Breast complications during Lactation,Discuss the clinical features & Management of Breast Engorgement, Crack & Fissure Nipple,Mastitis, Breast abscess Differentiate between mastitis and breast abscess Unit 2 (Dr. K Rani)	03.12.25
	Thursday	OG18.1,OG18.2,OG18.3, OG18.4- Discuss the criteria for assessment of gestational age at birth. Discuss the basic principles of resuscitation of newborns. Discuss the diagnosis of birth asphyxia. Enumerate the common problems of normal newborn. Describe APGAR score. Unit 2 (Dr. K Rani)	04.12.25
	Friday	OG19.1.Discuss various methods of temporary contraception available for the couple after delivery. Describe the various methods of permanent contraception. Describe the steps of puerperal sterilization. Discuss the complications of puerperal sterilization, Unit 2 (Dr. K Rani)	05.12.25
	Saturday	OG19.2- Counsel in a simulated environment about the advantages and disadvantages of various contraceptive methods properly. Unit 2 (Dr. K Rani)	06.12.25
	Monday	OG12.6. To recognise Jaundice in pregnancy.To describe the clinical features, detection, effects of pregnancy on the liver disease, effects of the disease on pregnancy & management of Liver disease in pregnancy. To know the Liver diseases specific to pregnancy and coincidental to pregnancy. Unit 3 (Dr. S Agarwal)	08.12.25
	Tuesday	OG21.1.Demonstrate about the suitable contraception to the couple. Counsel regarding the indications, contraindications, side effects, complications and failure rates of hormonal contraception. Counsel regarding the indication, contraindications, side effects, complications and failure rate of non – hormonal contraception. Describe Methods of Emergency Contraception. Unit 3 (Dr. S Agarwal)	09.12.25
Week 33	Wednesday	OG21.1.Enumerate the indications for using Intrauterine Contraceptive devices. Discuss the pre-requisites before inserting IUCD in the procedure room. Describe the steps for insertion of IUCD in the procedure room. Identify the instruments used in IUCD insertion. Discuss the contraindications and side effects of IUCD. Describe the management of complications with IUCD insertion. Discuss various indications for IUCD removal. Describe the steps of IUCD removal in the procedure room. Identify the instruments used in removal of IUCD.Management of Missing Cu-T thread. Unit 3 (Dr. S Agarwal)	10.12.25
	Thursday	OG21.1- Describe the types, advantages, disadvantages and failure rate of male condom correctly. Describe the techniques, complications and follow up of vasectomy correctly. Unit 3 (Dr. S Agarwal)	11.12.25
	Friday	OG21.2 - Describe the timing of PPIUCD insertion, mechanism of action and failure rate of PPIUCD correctly. enumerate the advantages and side-effects of PPIUCD correctly enumerate the contraindications of PPIUCD correctly. describe the methods of PPIUCD insertion and post insertion care correctly. Unit 3 (Dr. S Agarwal)	12.12.25
	Saturday	OG22.1, OG22.2- Describe the characteristics of physiological vaginal discharge correctly. enumerate the causes of vaginal discharge in children, reproductive age and post-menopausal age group correctly, differentiate between bacterial vaginosis, vaginal candidiasis, and trichomonas vaginitis correctly, describe the clinical features, investigations and treatment of vaginal candidiasis, trichomonas vaginitis and bacterial vaginosis correctly, describe syndromic management of vaginal discharge correctly. Unit 3 (Dr. S Agarwal)	13.12.25

Week 34	Monday	OG24.1- Define abnormal uterine bleeding. Discuss the etiology of abnormal uterine bleeding as per PALM-COEIN classification. Describe various clinical features, investigations and management of patient with abnormal uterine bleeding. Unit 3 (Dr. S Agarwal)	15.12.25
	Tuesday	OG23.1, OG23.2, OG23.3- Describe the physiology and changes in puberty correctly. List the common disorders of puberty correctly. Define precocious puberty and delayed puberty accurately. Describe the evaluation and management of delayed puberty correctly. Enumerate the causes of delayed puberty correctly. Classify and enumerate the causes of precocious puberty accurately. Describe the evaluation and management of precocious puberty correctly. Unit 3 (Dr. S Agarwal)	16.12.25
	Wednesday	OG25.1. Define the primary amenorrhea correctly. Define the secondary amenorrhea correctly. Enumerate the causes of primary amenorrhea. Describe the principles of management including investigation and Treatment in patient presenting with primary amenorrhea. Unit 3 (Dr. S Agarwal)	17.12.25
	Thursday	OG25.1. Enumerate the causes of Secondary Amenorrhoea. Discuss the management of secondary amenorrhea. Unit 3 (Dr. S Agarwal)	18.12.25
	Friday	OG 26.1- Define endometriosis. Describe the etiology and pathogenesis of endometriosis. Describe clinical features of endometriosis and Adenomyosis. Discuss effect of endometriosis on fertility. Define difference between endometriosis and adenomyosis. Describe investigations and management of Endometriosis. Unit 3 (Dr. S Agarwal)	19.12.25
	Saturday	OG26.2- Enumerate causes of genital injuries. List the types of genital injuries. Describe clinical features of genital injuries. Discuss principles of management of genital injuries. Discuss the ways /methods of prevention of genital injuries. Unit 3 (Dr. S Agarwal)	20.12.25
	Monday	OG27.1- Define Sexually Transmitted Disease, discuss aetio-pathogenesis of different sexually transmitted infections, discuss clinical features of different sexually transmitted infections, discuss long term implications of sexually transmitted infections, discuss investigations and management of sexually transmitted infections. Unit 3 (Dr. S Agarwal)	22.12.25
Week 35	Tuesday	OG27.1- To be able to discuss aetio-pathogenesis of Genital Tuberculosis. Discuss clinical features of Genital TB, its long term implications and complications, discuss investigations and management of Genital TB. To be able to discuss aetio-pathogenesis, clinical features, long term implications and complications, investigations and management of HIV in a gynec patient. Unit 3 (Dr. S Agarwal)	23.12.25
	Wednesday	OG27.4- Define Pelvic Inflammatory Disease and types of Pelvic Inflammatory disease. Discuss aetio-pathogenesis of Pelvic Inflammatory Disease. Describe the pathology in acute and chronic Pelvic Inflammatory disease correctly. Discuss clinical features of Pelvic Inflammatory Disease. Discuss investigations of Pelvic Inflammatory Disease. Discuss management of Pelvic Inflammatory Disease. Enumerate the long term implications of Pelvic Inflammatory Disease. Unit 3 (Dr. S Agarwal)	24.12.25
	Thursday	OG28.1- Define Infertility, Primary Infertility, And Secondary Infertility. Report prevalence of Infertility. Describe factors essential for conception. Enumerate common causes of infertility [Male, Female]. Discuss how to investigate male factor infertility. Describe treat of male partner infertility. Discuss how to investigate & treat Anovulatory infertility. Unit 3 (Dr. S Agarwal)	25.12.25
	Friday	OG28.2. Discuss the Investigation & Treatment of Tubal Factor Infertility, including Tubal Patency tests & Tubal recanalisation operations. Unit 3 (Dr. S Agarwal)	26.12.25
	Saturday	OG28.4- Define ART (Assisted Reproduction Technique). Enumerate different methods of ART. Describe principal steps of ART. Unit 3 (Dr. S Agarwal)	27.12.25
	Monday	OG29.1- Define fibroid correctly. The types of fibroid accurately. Discuss the etiology of fibroid uterus correctly. Describe the pathology of fibroid uterus correctly. Describe the clinical features of fibroid uterus correctly. Discuss the differential diagnosis of fibroid uterus correctly. Enumerate all the investigations of fibroid uterus correctly. Discuss the principles of management of fibroid uterus correctly. Discuss the complications of fibroid uterus. Unit 3 (Dr. S Agarwal)	29.12.25
	Tuesday	OG31.1- Describe the etiology of prolapse of uterus. Describe the classification of prolapse of uterus. Describe clinical features of prolapse of uterus. Discuss diagnosis and investigation of prolapse of uterus. Discuss preventive aspect of prolapse of uterus. Discuss management of prolapse of uterus. Describe the etiology of prolapse of uterus. Describe the classification of prolapse of uterus. Describe clinical features of prolapse of uterus. Discuss diagnosis and investigation of prolapse of uterus. Discuss preventive aspect of prolapse of uterus. Discuss management of prolapse of uterus. Unit 3 (Dr. S Agarwal)	30.12.25
Week 36	Wednesday	OG32.2- Enumerate the causes of post menopausal bleeding correctly. Describe the evaluation and management of Postmenopausal bleeding correctly. Unit 3 (Dr. S Agarwal)	31.12.25
	Thursday	OG33.1- Describe classification of cervical cancer. Describe etiology and pathology of cervical cancer. Discuss clinical features and differential diagnosis of cervical cancer. Discuss investigations and staging of cervical cancer. OG33.2- Describe management of benign lesions of cervix. Describe management of premalignant lesions of cervix. Unit 3 (Dr. S Agarwal)	01.01.26
	Friday	OG33.2. Describe management of malignant lesions of cervix. Unit 3 (Dr. S Agarwal)	02.01.26

Week 37	Saturday	OG33.3-Enumerate, Describe & demonstrate in a simulated environment (DOAP Session) the methods of cervical cancer screening. Unit 3 (Dr. S Agarwal)	03.01.26	
	Monday	Clinical Posting (P) OR 2.6 Describe and discuss Etiopathogenesis, mechanism of injury, clinical feature, investigation and principles of management of fracture of distal radius. Unit 1 (Dr. A Saraf)	05.01.26	
	Tuesday	Clinical Posting (P) OR 2.5 Describe and discuss the aetiopathogenesis, clinical features, mechanism of injury. Investigation and principles of management of fracture of both bone forearm and Galeazzi and Monteggia injury. Unit 1 (Dr. A Saraf)	06.01.26	
	Wednesday	Clinical Posting (P) OR 2.4 Describe and discuss the mechanism of injury, clinical features, Investigation and principles of management of fracture of shaft humerus and intercondylar fracture humerus with emphasis on neurovascular deficit. Unit 1 (Dr. A Saraf)	07.01.26	
	Thursday	Clinical Posting (P) OR 2.3 Select, prescribe and communicate appropriate medications for relief of joint pain. Unit 1 (Dr. A Saraf)	08.01.26	
Week 38	Friday	Clinical Posting (P)OR 2.2 Describe and discuss the, mechanism of injury, clinical features, investigations and plan management of fractures of proximal humerus, Unit 2 (Dr. S Singh)	09.01.26	
	Saturday	Clinical Posting (P) OR2.1 Describe and discuss the , mechanism of injury, clinical features, investigations and principles of management of fractures of Clavicle. Unit 2 (Dr. S Singh)	10.01.26	
	Monday	Clinical Posting (P) OR 1.6 Participate as a member in the team for closed reduction of Shoulder dislocation/ hip dislocation/ knee dislocation. Unit 2 (Dr. S Singh)	12.01.26	
	Tuesday	Clinical Posting (P) OR 1.5 Describe and discuss the aetiopathogenesis , clinical features ,investigations and principles of management of dislocation of major joints, shoulder, knee, hip . Unit 2.(Dr. S Singh)	13.01.26	
	Wednesday	Clinical Posting (P) OR.1.4 Describe and discuss the Principles of Management of Soft Tissue Injuries. Unit 3 (Dr. M Sharma)	14.01.26	
	Thursday	Clinical Posting (P) OR. 1.3 Describe and discuss the aetiopathogenesis, Clinical features, investigations and principles of management of soft tissue injuries. Unit 3 (Dr. M Sharma)	15.01.26	
	Friday	Clinical Posting (P) OR.1.2 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of shock. Unit 3 (Dr. M Sharma)	16.01.26	
	Saturday	Clinical Posting (P) OR.1.1 Describe and discuss the Principles of pre hospital care and casualty management of a trauma victim including principles of triage. Unit 3 (Dr. M Sharma)	17.01.26	
	Week 39	Monday	PE1.4-Perform Anthropometric measurements, document in growth charts and interpret; PE10.3-Assessment of a patient with SAM and MAM, diagnosis, classification and planning management including hospital and community based intervention, rehabilitation and prevention - Unit 1 (Dr. R R Singh)	19.01.26
		Tuesday	PE1.7-Perform Developmental assessment and interpret; PE9.5-Calculate the age related calorie requirement in Health and Disease and identify gap - Unit 1 (Dr. R R Singh)	20.01.26
Wednesday		PE3.4-Counsel a parent of a child with developmental delay; PE12.8-Identify the clinical features of dietary deficiency of Vitamin D - Unit 1 (Dr. R R Singh)	21.01.26	
Thursday		PE7.5-Observe the correct technique of breast feeding and distinguish right from wrong techniques; PE15.3-Calculate the fluid and electrolyte requirement in health - Unit 3 (Dr. N S Chitambaram)	22.01.26	
Friday		PE10.3-Assessment of a patient with SAM and MAM, diagnosis, classification and planning management including hospital and community based intervention, rehabilitation and prevention; PE1.4-Perform Anthropometric measurements, document in growth charts and interpret - Unit 3 (Dr. N S Chitambaram)	23.01.26	
Saturday		PE9.5-Calculate the age related calorie requirement in Health and Disease and identify gap; PE1.7-Perform Developmental assessment and interpret - Unit 3 (Dr. N S Chitambaram)	24.01.26	
Monday		PE12.8-Identify the clinical features of dietary deficiency of Vitamin; -Counsel a parent of a child with developmental delay - Unit 2 (Dr.B K Gaur)	26.01.26	
Tuesday		PE15.3-Calculate the fluid and electrolyte requirement in health; PE7.5-Observe the correct technique of breast feeding and distinguish right from wrong techniques - Unit 2 (Dr.B K Gaur)	27.01.26	
Wednesday		PE1.4-Perform Anthropometric measurements, document in growth charts and interpret - Unit 2 (Dr.B K Gaur)	28.01.26	
Thursday		PE1.7-Perform Developmental assessment and interpret - Unit 1 (Dr. R R Singh)	29.01.26	
Week 40	Friday	PE3.4-Counsel a parent of a child with developmental delay - Unit 1 (Dr. R R Singh)	30.01.26	
	Saturday	PE7.5-Observe the correct technique of breast feeding and distinguish right from wrong techniques - Unit 1 (Dr. R R Singh)	31.01.26	
	Monday	Clinical Posting (P) : D.R.1.2 Identify and grade the various common types of acne - Dr. Parvathi CN	02.02.26	
	Tuesday	Clinical Posting (P): D.R. 2.1 Identify and differentiate Vitiligo from other causes of hypopigmented lesions - Dr. Parvathi CN	03.02.26	
	Wednesday	Clinical Posting (P): D.R.3.1 Identify and distinguish psoriatic lesions from other causes; D.R.3.2 Demonstrate the grattage test - Dr. Tilwani	04.02.26	

Week 4	Thursday	Clinical Posting (P): D.R.4.1 Identify and distinguish lichen planus lesions from other causes; D.R.5.2 Identify and differentiate scabies from other lesions in adults and children -Dr. Parvathi CN	05.02.26
	Friday	Clinical Posting (P): D.R.7.2 Identify Candida species in fungal scrapings and KOH mount - Dr. Tilwani	06.02.26
	Saturday	Clinical Posting (P): D.R.8.2 Identify and distinguish herpes simplex and herpes labialis from other skin lesions ; D.R.8.3 identify and distinguish herpes zoster and varicella from other skin lesions - Dr. Tilwani	07.02.26
Week 42	Monday	Clinical Posting (P): D.R.8.4 Identify and distinguish viral warts from other skin lesions ; D.R.8.5 Identify and distinguish molluscum contagiosum from other skin lesions - Dr. Tilwani	09.02.26
	Tuesday	Clinical Posting (P): D.R.9.2 Demonstrate (and classify based on) the clinical features of leprosy including an appropriate neurologic examination; D.R.10.1 Identify and classify syphilis based on the presentation and clinical manifestation - Dr. D Meena	10.02.26
	Wednesday	Clinical Posting (P) : D.R.10.2 Identify spirochete in a dark ground microscopy; D.R.10.5 Counsel in a non-judgemental and empathetic manner patients on prevention of sexually transmitted diseases - Dr. D Meena	11.02.26
	Thursday	Clinical Posting (P): D.R.11.2 Identify and distinguish the dermatologic manifestations of HIV, its complications, opportunistic infections and adverse reactions -Dr. D Meena	12.02.26
	Friday	Clinical Posting (P): D.R.12.6 Identify and distinguish exfoliative dermatitis from other skin lesions - Dr. R K Singh	12.02.26
	Saturday	Clinical Posting (P) D.R.16.1-18.1 Identify and Distinguish Skin lesions - Dr. R K Singh	14.02.26
Week 43	Monday	Clinical Posting (P):EN 2.7: Demonstrate the correct technique of examination of neck including elicitation of laryngeal crepitus	16.02.26
	Tuesday	Clinical Posting (P): EN 2.8: Demonstrate the correct technique to perform and interpret pure tone audiogram & impedance audiogram	17.02.26
	Wednesday	Clinical Posting (P): EN 2.9: Choose correctly and interpret radiological, microbiological & histological investigations relevant to the ENT disorders	18.02.26
	Thursday	Clinical Posting (P):EN 2.10: Identify and describe the use of common instruments used in ENT surgery	19.02.26
	Friday	Clinical Posting (P): EN 2.10: Identify and describe the use of common instruments used in ENT surgery	20.02.26
	Saturday	Clinical Posting (P): EN 2.10: Identify and describe the use of common instruments used in ENT surgery	21.02.26
	Monday	Clinical Posting (P): EN 2.11: Describe and identify by clinical examination malignant and Premalignant ENT disease	23.02.26
	Tuesday	Clinical Posting (P): EN 2.12: Counsel and administer informed consent to patients and their families in a simulated environment; EN 3.6: Observe and describe the indications for and steps involved in the skills of emergency procedures in ear, nose & throat	24.02.26
	Wednesday	Clinical Posting (P): EN 2.13: Identify, Resuscitate and manage ENT emergencies in a simulated environment (including tracheostomy, anterior nasal packing, removal of foreign bodies in ear, nose, measles and upper respiratory tract)	25.02.26
	Thursday	Clinical Posting (P): EN 2.14: Demonstrate the correct technique to instilling topical medications into the ear, nose and throat in a simulated environment; EN 3.5: Observe and describe the	26.02.26
Week 44	Friday	Clinical Posting (P): EN 2.15: Describe the national programs for prevention of deafness, cancer, noise & environmental pollution; EN 3.2: Observe and describe the indications for and steps	27.02.26
	Saturday	Clinical Posting (P): EN 3.1: Observe and describe the indications for and steps involved in the Holi Vacations 02.03.26-07.03.26	28.02.26
	Monday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly.	09.03.26
	Tuesday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly; OP7.3 Demonstrate	10.03.26
	Wednesday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly; OP7.3 Dr. K Agnihotri	11.03.26
	Thursday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly.	12.03.26
	Friday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly.	13.03.26
	Saturday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly.	14.03.26
Week 45	Monday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly; OP7.3 Demonstrate the correct technique of ocular examination in a patient with a cataract correctly	16.03.26

Tuesday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly; OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unioocular & Binocular)	17.03.26
Wednesday	Clinical Posting (P): Eye OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness; OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unioocular & Binocular)	18.03.26
Thursday	Clinical Posting (P): Eye OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness; OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unioocular & Binocular)	19.03.26
Friday	Clinical Posting (P): Eye OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness	20.03.26
Saturday	Clinical Posting (P): Eye OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness; OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unioocular & Binocular)	21.03.26

Teerthanker Mahaveer Medical College & Research Center
Teerthanker Mahaveer University
Delhi Road, Moradabad - 244001
<b>Time Table Schedule (Consolidated as per New Curriculum w.e.f AUGUST 2019) w.e.f. 03.03.2025</b>

Day/Time	10:00 am - 1:00 pm	Date	
Electives Week 1	Monday	IM9.3- Elicit document and present a medical history that includes symptoms, risk factors including GI bleeding, prior history, medications, menstrual history, and family history - Unit 1 (Dr. V K Singh)	03.02.25
	Tuesday	IM9.4- Perform a systematic examination that includes: general examination for pallor, oral examination, DOAP session of hyperdynamic circulation, lymph node and splenic examination - Unit 1 (Dr. V K Singh)	04.02.25
	Wednesday	IM9.5- Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology - Unit 1 (Dr. V K Singh)	05.02.25
	Thursday	IM9.6- Describe the appropriate diagnostic work up based on the presumed aetiology - Unit 1 (Dr. V K Singh)	06.02.25
	Friday	IM9.9- Order and interpret tests for anaemia including hemogram, red cell indices, reticulocyte count, iron studies, B12 and folate - Unit 1 (Dr. V K Singh)	07.02.25
	Saturday	IM9.10- Describe, perform and interpret a peripheral smear and stool occult blood - Unit 2 (Dr. Vishvanayak)	08.02.25
	Monday	IM9.13- Prescribe replacement therapy with iron, B12, folate - Unit 2 (Dr. Vishvanayak)	10.02.25
Electives Week 2	Tuesday	IM9.15- Communicate the diagnosis and the treatment appropriately to patients - Unit 2 (Dr. Vishvanayak)	11.02.25
	Wednesday	IM9.16- Incorporate patient preferences in the management of anaemia - Unit 2 (Dr. Vishvanayak)	12.02.25
	Thursday	IM9.19- Assist a blood transfusion Unit 2 (Dr. Vishvanayak)	13.02.25
	Friday	IM9.20- Communicate and counsel patients with methods to prevent nutritional anaemia - Unit 3 (Dr. K Gopal)	14.02.25
Electives Week 3	Saturday	IM10.12- Elicit document and present a medical history that will differentiate the etiologies of disease, distinguish acute and chronic disease, identify predisposing conditions, nephrotoxic drugs and systemic causes Unit 3 (Dr. K Gopal)	15.02.25
	Monday	IM10.13- Perform a systemic examination that establishes the diagnosis and severity including determining of volume status, presence of edema and heart failure, features of uremia and associated systemic disease. Unit 3 (Dr. K Gopal)	17.02.25
	Tuesday	IM10.14- Generate a differential diagnosis and prioritise based on clinical features that suggest specific etiology Unit 3 (Dr. K Gopal)	18.02.25
	Wednesday	IM10.18- Identify the ECG findings in Hyperkalemia. Unit 3 (Dr. K Gopal)	19.02.25
	Thursday	IM10.19- Enumerate the indications and describe the findings in renal ultrasound. - Unit 4 (Dr. J Haria)	20.02.25
	Friday	IM10.20- Describe and discuss the indications to perform arterial blood gas analysis: interpret the data - Unit 4 (Dr. J Haria)	21.02.25
	Saturday	IM10.21- Describe and discuss the indications for and insert a peripheral intravenous catheter - Unit 4 (Dr. J Haria)	22.02.25
	Monday	IM10.22- Describe and discuss the indications, demonstrate in a model and assist in the insertion of a central venous or a dialysis catheter - Unit 4 (Dr. J Haria)	24.02.25
	Tuesday	IM10.23- Communicate diagnosis treatment plan and subsequent followup to patients - Unit 4 (Dr. J Haria)	25.02.25
	Wednesday	IM10.24- Counsel patients on renal diet - Unit 5 (Dr. A Kumar)	26.02.25
Electives Week 4	Thursday	IM11.7- Elicit document and present a medical history that will differentiate the aetiologies of diabetes including risk factors, precipitating factors, lifestyle, nutritional history, family history, medication history, co-morbidities and target organ disease - Unit 5 (Dr. A Kumar)	27.02.25
	Friday	IM11.8- Perform a systematic examination that establishes the diagnosis and severity that includes skin, peripheral pulses, blood pressure measurement, fundus examination, detailed examination of the foot (nurses, nervous and deformities and injuries) - Unit 5 (Dr. A Kumar)	28.02.25
	Saturday	IM11.9- Describe and recognise the clinical features of patients who present with a diabetic emergency - Unit 5 (Dr. A Kumar)	01.03.25

A Batch of 10 students will be allocated to each unit of medicine and they would further be distributed in five faculty members of each unit and would be assigned the bed number of patients whom they would follow as per competencies decided

Students will be divided into three batches of 50 each and posted for 4 weeks in Medicine, Surgery and Obstetrics & Gynecology during their Electives

Day/Time	10:00 am - 1:00 pm	Date	
Monday	IM11.10- Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology - Unit 1 (Dr. V K Singh)	03.03.25	Students will be divided into three

Week 1	Tuesday	IM11.11- Order and interpret laboratory tests to diagnose diabetes and its complications including: glucoses, glucose tolerance test, glycosylated hemoglobin, urinary micro albumin, ECG, electrolytes, ABG, ketones, renal function tests and lipid profile - Unit 1 (Dr. V K Singh)	04.03.25	batches of 50 each and posted for 12 weeks in Medicine, Surgery and Obstetrics & Gynecology
	Wednesday	IM11.12- Perform and interpret a capillary blood glucose test - Unit 1 (Dr. V K Singh)	05.03.25	
	Thursday	IM11.12- Perform and interpret a capillary blood glucose test - Unit 1 (Dr. V K Singh)	06.03.25	
	Friday	IM11.13- Perform and interpret a urinary ketone estimation with a dipstick - Unit 1 (Dr. V K Singh)	07.03.25	
	Saturday	IM11.14- Recognise the presentation of hypoglycaemia and outline the principles on its therapy - Unit 1 (Dr. V K Singh)	08.03.25	
Holi Vacations 10.03.25-15.03.25				
Week 2	Monday	IM11.15- Recognise the presentation of diabetic emergencies and outline the principles of therapy	17.03.25	
	Tuesday	IM11.16- Discuss and describe the pharmacologic therapies for diabetes their indications, contraindications, adverse reactions and interactions - Unit 1 (Dr. V K Singh)	18.03.25	
	Wednesday	IM11.17- Outline a therapeutic approach to therapy of T2Diabetes based on presentation, severity and complications in a cost effective manner - Unit 1 (Dr. V K Singh)	19.03.25	
	Thursday	IM11.17- Outline a therapeutic approach to therapy of T2Diabetes based on presentation, severity and complications in a cost effective manner - Unit 1 (Dr. V K Singh)	20.03.25	
	Friday	IM11.19- Demonstrate and counsel patients on the correct technique to administer insulin - Unit 1 (Dr. V K Singh)	21.03.25	
	Saturday	IM11.20- Demonstrate to and counsel patients correct technique on the of self-monitoring of blood glucoses - Unit 1 (Dr. V K Singh)	22.03.25	
	Monday	IM11.21- Recognise the importance of patient preference while selecting therapy for diabetes - Unit 1 (Dr. V K Singh)	24.03.25	
Week 3	Tuesday	IM12.5- Elicit document and present an appropriate history that will establish the diagnosis cause of thyroid dysfunction and its severity - Unit 1 (Dr. V K Singh)	25.03.25	
	Wednesday	IM12.6- Perform and demonstrate a systematic examination based on the history that will help establish the diagnosis and severity including systemic signs of thyrotoxicosis and hypothyroidism.	26.03.25	
	Thursday	IM12.7- Demonstrate the correct technique to palpate the thyroid - Unit 1 (Dr. V K Singh)	27.03.25	
	Friday	IM12.8- Generate a differential diagnosis based on the clinical presentation and prioritise it based	28.03.25	
	Saturday	IM12.9- Order and interpret diagnostic testing based on the clinical diagnosis including CBC, thyroid function tests and ECG and radio iodine uptake and scan - Unit 1 (Dr. V K Singh)	29.03.25	
	Monday	IM12.10- Identify atrial fibrillation, pericardial effusion and bradycardia on ECG - Unit 2 (Dr. Vishvanayak)	31.03.25	
	Tuesday	IM12.11- Interpret thyroid function tests in hypo and hyperthyroidism Unit 2 (Dr. Vishvanayak)	01.04.25	
Week 4	Wednesday	IM12.14- Write and communicate to the patient appropriately a prescription for thyroxine based on age, sex, and clinical and biochemical status Unit 2 (Dr. Vishvanayak)	02.04.25	
	Thursday	IM12.15- Describe and discuss the indications of thionamide therapy, radio iodine therapy and surgery in the management of thyrotoxicosis Unit 2 (Dr. Vishvanayak)	03.04.25	
	Friday	IM13.7- Elicit document and present a history that will help establish the aetiology of cancer and includes the appropriate risk factors, duration and evolution Unit 2 (Dr. Vishvanayak)	04.04.25	
	Saturday	IM13.8- Perform and demonstrate a physical examination that includes an appropriate general and local examination that excludes the diagnosis, extent spread and complications of cancer Unit 2	05.04.25	
	Monday	IM13.9- Demonstrate in a mannequin the correct technique for performing breast exam, rectal examination and cervical examination and pap smear Unit 2 (Dr. Vishvanayak)	07.04.25	
Week 5	Tuesday	IM13.10- Generate a differential diagnosis based on the presenting symptoms and clinical features and prioritise based on the most likely diagnosis Unit 2 (Dr. Vishvanayak)	08.04.25	Students will be divided into three batches of 50 each and posted for 12 weeks in Medicine, Surgery and Obstetrics & Gynecology
	Wednesday	IM13.11- Order and interpret diagnostic testing based on the clinical diagnosis including CBC and stool occult blood and prostate specific antigen Unit 2 (Dr. Vishvanayak)	09.04.25	
	Thursday	IM13.12- Describe the indications and interpret the results of Chest X Ray, mammogram, skin and	10.04.25	
	Friday	IM9.13- Describe and assess pain and suffering objectively in a patient with cancer Unit 2 (Dr. Vishvanayak)	11.04.25	
	Saturday	IM13.14- Describe the indications for surgery, radiation and chemotherapy for malignancies Unit 2 (Dr. Vishvanayak)	12.04.25	
Week 6	Monday	IM13.15- Describe the need, tests involved, their utility in the prevention of common malignancies Unit 2 (Dr. Vishvanayak)	14.04.25	
	Tuesday	IM13.16- Demonstrate an understanding and needs and preferences of patients when choosing curative and palliative therapy Unit 2 (Dr. Vishvanayak)	15.04.25	
	Wednesday	IM13.17- Describe and enumerate the indications, use, side effects of narcotics in pain alleviation in patients with cancer Unit 2 (Dr. Vishvanayak)	16.04.25	
	Thursday	IM13.18- Describe and discuss the ethical and the medico legal issues involved in end of life care - Unit 3 (Dr. K Gopal)	17.04.25	
	Friday	IM13.19- Describe the therapies used in alleviating suffering in patients at the end of life - Unit 3 (Dr. K Gopal)	18.04.25	

Week 7	Saturday	IM14.6- Elicit and document and present an appropriate history that includes the natural history, dietary history, modifiable risk factors, family history, clues for secondary causes and motivation to lose weight - Unit 3 (Dr. K Gopal)	19.04.25	Students will be divided into three batches of 50 each and posted for 12 weeks in Medicine, Surgery and Obstetrics & Gynecology
	Monday	IM 14.7- Perform, document and demonstrate a physical examination based on the history that includes general examination, measurement of abdominal obesity, signs of secondary causes and co-morbidities - Unit 3 (Dr. K Gopal)	21.04.25	
	Tuesday	IM 14.8- Generate a differential diagnosis based on the presenting symptoms and clinical features and prioritise based on the most likely diagnosis - Unit 3 (Dr. K Gopal)	22.04.25	
	Wednesday	IM 14.9- Order and interpret diagnostic tests based on the clinical diagnosis including blood glucose, lipids, thyroid function tests etc - Unit 3 (Dr. K Gopal)	23.04.25	
	Thursday	IM14.10- Describe the indications and interpret the results of tests for secondary causes of obesity - Unit 3 (Dr. K Gopal)	24.04.25	
Friday	IM14.11- Communicate and counsel patient on behavioural, dietary and lifestyle modifications - Unit 3 (Dr. K Gopal)	25.04.25		
Saturday	IM14.12- Demonstrate an understanding of patient's inability to adhere to lifestyle instructions and counsel them in a non-judgemental way - Unit 3 (Dr. K Gopal)	26.04.25		
Week 8	Monday	IM17.2- Elicit and document and present an appropriate history including aura, precipitating aggravating and relieving factors, associated symptoms that help identify the cause of headaches - Unit 3 (Dr. K Gopal)	28.04.25	
	Tuesday	IM17.3- Classify migraine and describe the distinguishing features between classical and non classical forms of migraine - Unit 3 (Dr. K Gopal)	29.04.25	
	Wednesday	IM17.4- Perform and demonstrate a general neurologic examination and a focused examination for signs of intracranial tension including neck signs of meningitis - Unit 3 (Dr. K Gopal)	30.04.25	
	Thursday	IM17.5- Generate document and present a differential diagnosis based on the clinical features and prioritise the diagnosis based on the presentation - Unit 3 (Dr. K Gopal)	01.05.25	
	Friday	IM17.7- Enumerate the indications and describe the findings in the CSF in patients with meningitis - Unit 3 (Dr. K Gopal)	02.05.25	
Saturday	IM17.8- Demonstrate in a mannequin or equivalent the correct technique for performing a lumbar puncture - Unit 3 (Dr. K Gopal)	03.05.25		
Monday	IM17.14- Counsel patients with migraine and tension headache on lifestyle changes and need for prophylactic therapy - Unit 4 (Dr. J Haria)	05.05.25		
Week 9	Tuesday	IM18.3- Elicit and document and present an appropriate history including onset, progression, precipitating and aggravating relieving factors, associated symptoms that help identify the cause of the cerebrovascular accident - Unit 4 (Dr. J Haria)	06.05.25	
	Wednesday	IM18.4- Identify the nature of the cerebrovascular accident based on the temporal evolution and resolution of the illness - Unit 4 (Dr. J Haria)	07.05.25	
	Thursday	IM18.5- Perform, demonstrate & document physical examination that includes general and a detailed neurologic examination as appropriate, based on the history - Unit 4 (Dr. J Haria)	08.05.25	
	Friday	IM18.6- Distinguish the lesion based on upper vs lower motor neuron, side, site and most probable nature of the lesion - Unit 4 (Dr. J Haria)	09.05.25	
	Saturday	IM18.7- Describe the clinical features and distinguish, based on clinical examination, the various disorders of speech - Unit 4 (Dr. J Haria)	10.05.25	
Monday	IM18.8- Describe and distinguish, based on the clinical presentation, the types of bladder dysfunction seen in CNS disease - Unit 4 (Dr. J Haria)	12.05.25		
Week 10	Tuesday	IM18.9- Choose and interpret the appropriate diagnostic and imaging test that will delineate the anatomy and underlying cause of the lesion - Unit 4 (Dr. J Haria)	13.05.25	
	Wednesday	IM18.17- Counsel patient and family about the diagnosis and therapy in an empathetic manner - Unit 4 (Dr. J Haria)	14.05.25	
	Thursday	IM19.3- Elicit and document and present an appropriate history including onset, progression precipitating and aggravating relieving factors, associated symptoms that help identify the cause of the movement disorders - Unit 4 (Dr. J Haria)	15.05.25	
	Friday	IM19.4- Perform, demonstrate and document a physical examination that includes a general examination and a detailed neurologic examination using standard movement rating scales - Unit 4 (Dr. J Haria)	16.05.25	
	Saturday	IM19.5- Generate document and present a differential diagnosis and prioritise based on the history and physical examination - Unit 4 (Dr. J Haria)	17.05.25	
Monday	IM19.6- Make a clinical diagnosis regarding on the anatomical location, nature and cause of the lesion based on the clinical presentation and findings - Unit 5 (Dr. A Kumar)	19.05.25		
Week 11	Tuesday	IM19.7- Choose and interpret diagnostic and imaging tests in the diagnosis of movement disorders - Unit 5 (Dr. A Kumar)	20.05.25	
	Wednesday	M26.1- Enumerate and describe professional qualities and roles of a physician - Unit 5 (Dr. A Kumar)	21.05.25	
	Thursday	M26.2- Describe and discuss the commitment to lifelong learning as an important part of physician growth - Unit 5 (Dr. A Kumar)	22.05.25	
	Friday	M26.3- Describe and discuss the role of non maleficence as a guiding principle in patient care - Unit 5 (Dr. A Kumar)	23.05.25	

Week 12	Saturday	M26.4- Describe and discuss the role of autonomy and shared responsibility as a guiding principle in patient care - Unit 5 (Dr. A Kumar)	24.05.25
	Monday	M26.5- Describe and discuss the role of beneficence of a guiding principle in patient care - Unit 5 (Dr. A Kumar)	26.05.25
	Tuesday	M26.6- Describe and discuss the role of a physician in health care system - Unit 5 (Dr. A Kumar)	27.05.25
	Wednesday	M26.7- Describe and discuss the role of justice as a guiding principle in patient care - Unit 5 (Dr. A Kumar)	28.05.25
	Thursday	M26.8- Identify discuss medicolegal, socioeconomic and ethical issues as it pertains to organ donation - Unit 5 (Dr. A Kumar)	29.05.25
	Friday	M26.9- Identify, discuss and defend medicolegal, sociocultural, economic and ethical issues as it pertains to rights, equity and justice in access to health care- Unit 5 (Dr. A Kumar)	30.05.25
Week 13	Saturday	M26.10- Identify, discuss and defend medicolegal, socio-cultural and ethical issues as it pertains to confidentiality in patient care - Unit 5 (Dr. A Kumar)	31.05.25
	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh) - SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling	02.06.25
	Tuesday	Clinical Posting (P): Unit II(Dr.Vipin Agarwal SU28.18 Describe and demonstrate clinical examination of abdomen. Order relevant investigations	03.06.25
	Wednesday	Clinical Posting (P): Unit III(Dr. R K Kaul)-SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast	04.06.25
	Thursday	Clinical Posting (P): Unit IV(Dr. A K Singh)-SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast.	05.06.25
	Friday	Clinical Posting (P): Unit V(Dr.C K JHAKMOLA)-SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent	06.06.25
Week 14	Saturday	Clinical Posting (P):Unit in Rotation -SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease	07.06.25
	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh - SU27.5 Describe the applied anatomy of venous system of lower limb	09.06.25
	Tuesday	Clinical Posting (P)Unit II(Dr. Vipin Agarwal SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins	10.06.25
	Wednesday	Clinical Posting (P):Unit III(Dr. R K Kaul) SU28.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias	11.06.25
	Thursday	Clinical Posting (P)::Unit IV (Dr. A K Singh)SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.	12.06.25
	Friday	Clinical Posting (P)::Unit V (Dr.C K JHAKMOLA)SU28.9 Demonstrate the correct technique of examination of a patient with disorders of the stomach	13.06.25
Week 15	Saturday	Clinical Posting (P)Unit in Rotation SU28.11 Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post-splenectomy sepsis - prophylaxis	14.06.25
	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh) - SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling	16.06.25
	Tuesday	Clinical Posting (P): Unit II(Dr. Vipin Agarwal SU28.18 Describe and demonstrate clinical examination of abdomen. Order relevant investigations	17.06.25
	Wednesday	Clinical Posting (P): Unit III(Dr. R K Kaul)-SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast	18.06.25
	Thursday	Clinical Posting (P): Unit IV(Dr. A K Singh)-SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast.	19.06.25
	Friday	Clinical Posting (P): Unit V(Dr.C K JHAKMOLA)-SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent	20.06.25
Week 16	Saturday	Clinical Posting (P):Unit in Rotation -SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease	21.06.25
	First Terminal Exam 23.06.2025 to 12.07.2025		
	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh - SU27.5 Describe the applied anatomy of venous system of lower limb	14.07.25
	Tuesday	Clinical Posting (P)Unit II(Dr. Vipin Agarwal SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins	15.07.25
	Wednesday	Clinical Posting (P):Unit III(Dr. R K Kaul) SU28.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias	16.07.25
	Thursday	Clinical Posting (P)::Unit IV (Dr. A K Singh)SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.	17.07.25
Friday	Clinical Posting (P)::Unit V (Dr.C K JHAKMOLA)SU28.9 Demonstrate the correct technique of examination of a patient with disorders of the stomach	18.07.25	

Students will be divided into three batches of 50 each and posted for 12 weeks in Medicine, Surgery and Obstetrics & Gynecology

Week 17	Saturday	Clinical Posting (P)Unit in Rotation SU28.11 Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post-splenectomy sepsis - prophylaxis	19.07.25
	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh) - SU18.3 Describe and demonstrate the clinical examination of surgical patient including swelling	21.07.25
	Tuesday	Clinical Posting (P): Unit II(Dr. Vipin Agarwal SU28.18 Describe and demonstrate clinical examination of abdomen. Order relevant investigations	22.07.25
	Wednesday	Clinical Posting (P): Unit III(Dr. R K Kaul)-SU25.2 Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast	23.07.25
	Thursday	Clinical Posting (P): Unit IV(Dr. A K Singh)-SU25.3 Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast.	24.07.25
Week 18	Friday	Clinical Posting (P): Unit V(Dr.C K JHAKMOLA)-SU25.5 Demonstrate the correct technique to palpate the breast for breast swelling in a mannequin or equivalent	25.07.25
	Saturday	Clinical Posting (P):Unit in Rotation -SU27.2 Demonstrate the correct examination of the vascular system and enumerate and describe the investigation of vascular disease	26.07.25
	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh - SU27.5 Describe the applied anatomy of venous system of lower limb	28.07.25
	Tuesday	Clinical Posting (P)Unit II(Dr. Vipin Agarwal SU27.6 Describe pathophysiology, clinical features, Investigations and principles of management of DVT and Varicose veins	29.07.25
	Wednesday	Clinical Posting (P):Unit III(Dr. R K Kaul) SU28.1 Describe pathophysiology, clinical features, Investigations and principles of management of Hernias	30.07.25
Week 19	Thursday	Clinical Posting (P)::Unit IV (Dr. A K Singh)SU28.2 Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.	31.07.25
	Friday	Clinical Posting (P)::Unit V (Dr.C K JHAKMOLA)SU28.9 Demonstrate the correct technique of examination of a patient with disorders of the stomach	01.08.25
	Saturday	Clinical Posting (P)Unit in Rotation SU28.11 Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post-	02.08.25
	Monday	Clinical Posting (P):Unit I (Dr. N.K. Singh)SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver	04.08.25
	Tuesday	Clinical Posting (P):Unit II (Dr. Vipin Agarwal SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system	05.08.25
Week 20	Wednesday	Clinical Posting (P): Unit III(Dr. R K Kaul) SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis	06.08.25
	Thursday	Clinical Posting (P):Unit IV(Dr. A K Singh) SU22.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management	07.08.25
	Friday	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU29.1 Describe the causes, investigations and principles of management of Hematuria	08.08.25
	Saturday	Clinical Posting (P): Unit in Rotation SU29.5 Describe the clinical features,investigations and principles of management of renal calculi	09.08.25
	Monday	Clinical Posting (P):Unit I (Dr. N.K. Singh)SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver	11.08.25
Week 21	Tuesday	Clinical Posting (P):Unit II (Vipin Agarwal SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system	12.08.25
	Wednesday	Clinical Posting (P): Unit III(Dr. R K Kaul) SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis	13.08.25
	Thursday	Clinical Posting (P):Unit IV(Dr. A K Singh) SU22.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management	14.08.25
	Friday	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU29.1 Describe the causes, investigations and principles of management of Hematuria	15.08.25
	Saturday	Clinical Posting (P): Unit in Rotation SU29.5 Describe the clinical features,investigations and principles of management of renal calculi	16.08.25
Week 21	Monday	Clinical Posting (P):Unit I (Dr. N.K. Singh)SU28.10 Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver	18.08.25
	Tuesday	Clinical Posting (P):Unit II (Dr. Vipin Agarwal SU28.12 Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system	19.08.25
	Wednesday	Clinical Posting (P): Unit III(Dr. R K Kaul) SU28.15 Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis	20.08.25

V	Thursday	Clinical Posting (P):Unit IV(Dr. A K Singh) SU22.6 Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management	21.08.25	Students will be divided into three batches of 50 each and posted for 12 weeks in Medicine, Surgery and Obstetrics & Gynecology
	Friday	Clinical Posting (P):Unit V (Dr.C K JHAKMOLA)SU29.1 Describe the causes, investigations and principles of management of Hematuria	22.08.25	
	Saturday	Clinical Posting (P): Unit in Rotation SU29.5 Describe the clinical features,investigations and principles of management of renal calculi	23.08.25	
	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh SU30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis	25.08.25	
	Tuesday	Clinical Posting (P):Unit II (Dr. Vipin Agarwal SU29.10 Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent	26.08.25	
Week 22	Wednesday	Clinical Posting (P)Unit III(Dr. R K Kaul) SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases	27.08.25	
	Thursday	Clinical Posting (P):Unit IV(Dr. A K Singh) SU28.14 Describe the clinical features, investigations and principles of management of disorders of small and large intestine	28.08.25	
	Friday	Clinical Posting (P): Unit V (Dr.C K JHAKMOLA)SU30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele	29.08.25	
	Saturday	Clinical Posting (P): Unit on rotation-- SU30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis	30.08.25	
	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh SU30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis	01.09.25	
Week 23	Tuesday	Clinical Posting (P):Unit II (Dr. Vipin Agarwal SU29.10 Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent	02.09.25	
	Wednesday	Clinical Posting (P)Unit III(Dr. R K Kaul) SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases	03.09.25	
	Thursday	Clinical Posting (P):Unit IV(Dr. A K Singh) SU28.14 Describe the clinical features, investigations and principles of management of disorders of small and large intestine	04.09.25	
	Friday	Clinical Posting (P): Unit V (Dr.C K JHAKMOLA)SU30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele	05.09.25	
	Saturday	Clinical Posting (P): Unit on rotation-- SU30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis	06.09.25	
Week 24	Monday	Clinical Posting (P):Unit I(Dr. N.K. Singh SU30.1 Describe the clinical features, investigations and principles of management of phimosis, paraphimosis and carcinoma penis	08.09.25	
	Tuesday	Clinical Posting (P):Unit II (Dr. Vipin Agarwal SU29.10 Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent	09.09.25	
	Wednesday	Clinical Posting (P)Unit III(Dr. R K Kaul) SU28.17 Describe the clinical features, investigations and principles of management of common anorectal diseases	10.09.25	
	Thursday	Clinical Posting (P):Unit IV(Dr. A K Singh) SU28.14 Describe the clinical features, investigations and principles of management of disorders of small and large intestine	11.09.25	
	Friday	Clinical Posting (P): Unit V (Dr.C K JHAKMOLA)SU30.5 Describe the applied anatomy, clinical features, investigations and principles of management of Hydrocele	12.09.25	
Week 25	Saturday	Clinical Posting (P): Unit on rotation-- SU30.6 Describe classification, clinical features, investigations and principles of management of tumours of testis	13.09.25	
	Monday	OG8.2.The student should be able to Elicit, document & present an Obstetric history in detail, which includes elicitation of symptoms, history of previous obstetric, medical & surgical history, significant family & personal history, high risk factors for complications in the present pregnancy, menstrual history, history of patient's antenatal care- past & present, Immunization and contraceptive history. To be able to demonstrate ethical behavior in all aspects of history taking - Unit 1 (Dr. M Kaur)	15.09.25	
	Tuesday	OG8.3.The student should be able to perform a systematic examination of the patient, which includes -General Physical Examination- examination for Pallor,, icterus, cyanosis, clubbing, thyroid examination, lymphadenopathy, edema & Breast examination. To be able to identify the abnormalities in General Physical examination & be able to describe the implications of each	16.09.25	
	Wednesday	OG8.3.To perform a detailed Abdominal examination followed by an Obstetrical examination in a normal pregnancy. To be able to estimate the period of gestation from the patient history and	17.09.25	
	Thursday	OG8.1.To be able to define Gravida, Para & Abortion & write an Obstetric formula. To be able to reach a diagnosis of a pregnant woman with a normal pregnancy Unit 1 (Dr. M Kaur)	18.09.25	
	Friday	OG8.4.To observe & be able to demonstrate clinical monitoring of maternal & fetal wellbeing.To be able to apply different tests to determine fetal well being.To be able to identify high risk factors in the mother. Unit 1 (Dr. M Kaur)	19.09.25	
	Saturday	OG8.5.To be able to describe & demonstrate pelvic assessment in a model. To be able to identify abnormalities in the pelvis in different models and be able to describe the obstetrical implications of common abnormalities of the pelvis. Unit 1 (Dr. M Kaur)	20.09.25	

Week 26	Monday	OG8.6.To be able to counsel the pregnant woman and her relatives in a simulated environment the importance of correct antenatal care, diet & immunization and of seeking help in case of a perceived abnormality in health.To be able to identify co-morbid conditions in a pregnant woman. Unit 1 (Dr. M Kaur)	22.09.25
	Tuesday	OG8.7, OG8.8.To be able to enumerate indications for & types of vaccinations in pregnancy.To be able to enumerate the indications & describe the routine investigations in a pregnant woman, including the use of ultrasound in the initial assessment & monitoring in pregnancy. Unit 1 (Dr. M Kaur)	23.09.25
	Wednesday	OG35.1, OG35.2.To be able to elicit, document & present a gynecology case history in detail which includes elicitation of symptoms, previous gynec & obstetric history, medical, surgical, significant family history, significant personal history, risk factors for gynec pathologies & normal menstrual history. Unit 1 (Dr. M Kaur)	24.09.25
	Thursday	OG35.6 – OG35.8. To be able to apply the principles of Medical ethics in history taking & examination of a gynecology patient. To be able to do a General Physical Examination of a gynec case, gynec examination of the patient upto per abdominal examination and be familiar with per speculum and per vaginal examinations in a simulated environment. DOAP of a per abdominal	25.09.25
	Friday	OG9.1.To be able to diagnose from history and examination a case of Abortion, Define, classify, & discuss the etiology of abortions, including Threatened, Inevitable, Missed, Incomplete, Complete & Septic abortions. To be able to formulate appropriate management plans for the type of abortion. Unit 1 (Dr. M Kaur)	26.09.25
	Saturday	OG9.2,OG20.1-20.3.To define and classify MTP, describe the procedures and steps, observe and assist in the performance of an MTP evacuation. To be able to enumerate the indications and describe & discuss the legal aspects, indications, methods for first & second trimester MTP;	27.09.25
Week 27	Monday	OG9.3. To be able to diagnose from history & examination, a patient of Acute Pain Abdomen in early pregnancy(with a focus on ectopic pregnancy) & enumerate the principles of Medical & surgical management . Unit 1 (Dr. M Kaur)	29.09.25
	Tuesday	OG9.4. To be able to provisionally diagnose a case of Gestational Trophoblastic Disease or Neoplasm from history & examination, discuss clinical features, laboratory investigations, Ultrasound findings, Differential diagnosis, principles of management and follow up of a patient of	30.09.25
	Wednesday	OG9.5. To be able to diagnose a case of Hyperemesis Gravidarum by history, examination & investigations.To know the principles of management & the impact of Hyperemesis Gravidarum on maternal & fetal health. Unit 1 (Dr. M Kaur)	01.10.25
	Thursday	OG10.1; OG10.2; OG16.1. To be able to reach a provisional diagnosis of Antepartum Hemorrhage. Describe the first aid to be provided to the patient, confirmation of diagnosis and general & obstetric management of Abruptio Placentae. To be able to select the correct blood	02.10.25
	Friday	OG16.1-To be able to reach a provisional diagnosis of Antepartum Hemorrhage. Describe the first aid to be provided to the patient, confirmation of diagnosis and general & obstetric management of Placenta Previa. Unit 1 (Dr. M Kaur)	03.10.25
	Saturday	OG11.1.To diagnose a case of Multifetal gestation.To describe etiopathology, clinical features, diagnosis and investigations, principles of management & complications of Multiple gestations. Unit 1 (Dr. M Kaur)	04.10.25
	Monday	OG12.1. To be able to diagnose a case of Hypertension in Pregnancy, with correct method of Blood Pressure measurement, classify Hypertension of Pregnancy according to severity, get the appropriate investigations, Interpretation of the investigations, etiology, pathophysiology of	06.10.25
	Tuesday	OG12.1-To know the Etiology, pathophysiology, symptoms & signs, of Eclampsia. To know the Immediate management, investigations , General & Obstetric management of a case of Eclampsia.complications Unit 1 (Dr. M Kaur)	07.10.25
	Wednesday	OG12.2.To be able to identify anemia in pregnancy, severity of anemia clinically & by investigations, be able to describe etiology, pathophysiology, diagnosis, investigations, cause, severity and gestational age appropriate management of anemia. To be able to describe the Maternal & fetal complications of Anemia in pregnancy Unit 1 (Dr. M Kaur)	08.10.25
	Thursday	OG12.3.To be able to define, classify & describe the pathophysiology, diagnosis, investigations, aderse maternal & fetal effects of Diabetes in pregnancy. To ba able to screen for gestational Diabetes Mellitus(GDM) & diagnose it. To describe the general & obstetric management for a case of GDM. Unit 1 (Dr. M Kaur)	09.10.25
	Friday	OG12.4. To be able to recognise, classify Heart Disease as Cyanotic/ acyanotic & according to NYHA , Cardiac Disease in pregnancy, its management during antenatal period, management of	10.10.25
	Week 28	Saturday	OG12.5. To be able to describe the clinical features, investigations, diagnosis, complications, treatment effects of urinary tract infections during pregnancy Unit 1 (Dr. M Kaur)
Monday		OG12.6. To recognise Jaundice in pregnancy.To describe the clinical features, detection, effects of pregnancy on the liver disease, effects of the disease on pregnancy & management of Liver disease	13.10.25
Tuesday		OG12.7. To be able to describe and discuss screening, risk factors, management of mother with HIV in pregnancy and of the newborn of an HIV positive mother Unit 2 (Dr. K Rani)	14.10.25
Wednesday		OG12.8.To be able to describe the mechanism, prophylaxis, Fetal complications, diagnosis and management of Isoimmunization in Pregnancy. Unit 2 (Dr. K Rani)	15.10.25

We

Thursday	OG14.1,14.2:13.1,13.4. To be able to enumerate & discuss the diameters of the Maternal Pelvis and the types of pelvises. To know & be able to describe the landmarks & diameters of the Fetal Skull. To discuss mechanism of Normal Labor. Enumerate & discuss Physiology, stages and mechanism of Normal Labor with Occipito-anterior position. Unit 2 (Dr. K Rani)	16.10.25
Friday	OG13.3,13.5. To know the monitoring of labor, plotting the Partograms, observe & assist in artificial rupture of membranes and observe & assist in the conduct of a normal vaginal delivery. Unit 2 (Dr. K Rani)	17.10.25
Saturday	OG13.2. To be able to define, describe the causes, pathophysiology, diagnosis, investigations and the management of Preterm Labor, PPRM, PROM & Post term pregnancies. Unit 2 (Dr. K Rani)	18.10.25

Diwali 20.10.25 to 25.10.25

Week 30

Monday	OG14.2.To be able to describe pelvic assessment in an abnormal pelvic type in a model, describe Cephalopelvic disproportion (CPD), Obstructed Labor, its symptoms, signs, prevention & management. Unit 2 (Dr. K Rani)	27.10.25
Tuesday	OG14.3. To be able to describe & discuss Rupture Uterus, causes, diagnosis & management. To know the principles of Peripartum Hysterectomy (Obstetric Hysterectomy-OH). Unit 2 (Dr. K Rani)	28.10.25
Wednesday	OG14.4. To be able to describe & discuss the classification, Diagnosis, causes & management of Abnormal Labor in Malpresentations & Malpositions - Occipito-posterior Unit 2 (Dr. K Rani)	29.10.25
Thursday	OG14.4. To be able to describe & discuss the classification, Diagnosis, causes & management of Abnormal Labor in Malpresentations & Malpositions - Face Presentation. Unit 2 (Dr. K Rani)	30.10.25
Friday	OG15.1. To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques, Postoperative management and their complications. Episiotomy Unit 2 (Dr. K Rani)	31.10.25
Saturday	OG15.1. To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques, postoperative management and their complications Vacuum extraction, Low Forceps delivery. Unit 2 (Dr. K Rani)	01.11.25

Second Terminal Exam - 03.11.25 to 22.11.25

Week 31

Monday	OG15.1. To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques, postoperative management and the complications of LSCS & Upper segment cesarean section Unit 2 (Dr. K Rani)	24.11.25
Tuesday	OG15.1 To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques and their complications of Assisted Breech Delivery Unit 2 (Dr. K Rani)	25.11.25
Wednesday	OG15.1. To be able to enumerate and describe the indications and steps of common obstetric procedures, techniques, postoperative management and the complications of Cervical Ectocervix. Unit 2 (Dr. K Rani)	26.11.25
Thursday	OG 15.2- Observe/assist Episiotomy procedure during Labour room Posting Perform episiotomy closure using the appropriate suture material on skill learning modules Observe LSCS procedure during Labour room Posting Observe outlet forceps/Vacuum Extraction procedure during Labour room Posting Observe assisted vaginal breech delivery during Labour room Posting Unit 2 (Dr. K Rani)	27.11.25
Friday	OG16.1, OG 16.2- Enumerate various complications of third stage of labour Define post partum haemorrhage Discuss the causes and types of post partum haemorrhage Discuss the diagnosis of post partum haemorrhage Describe the management of post partum haemorrhage Discuss active management of third stage of labour Discuss preventive methods for post partum haemorrhage Discuss the use of various blood products in management of post partum haemorrhage. Unit 2 (Dr. K Rani)	28.11.25
Saturday	OG 16.2-Define uterine inversion. Discuss the causes of uterine inversion Discuss the diagnosis of uterine inversion Describe the management of uterine inversion Enumerate the methods to prevent uterine inversion Unit 2 (Dr. K Rani)	29.11.25

Week 32

Monday	OG16.3-Enumerate the causes of FGR Discuss the clinical features of FGR Discuss the diagnostic modalities of FGR. Describe various antepartum fetal surveillance tests for monitoring and principles of management of FGR Discuss the preventive methods of FGR Describe counseling regarding fetal prognosis in FGR cases Unit 2 (Dr. K Rani)	01.12.25
Tuesday	OG17.1,OG17.2,OG17.3-Describe the physiology of lactation in terms of mammatogenesis. Describe the physiology of lactation in terms of lactogenesis galactogenesis and galactopoiesis Counsel about importance of breast feeding. In simulated environment student should be able to demonstrate the care of breast and correct technique of breast feeding. Unit 2 (Dr. K Rani)	02.12.25
Wednesday	,OG17.3- Discuss the Breast complications during Lactation,Discuss the clinical features & Management of Breast Engorgement, Crack & Fissure Nipple,Mastitis, Breast abscess Differentiate between mastitis and breast abscess Unit 2 (Dr. K Rani)	03.12.25

Week 33	Thursday	OG18.1,OG18.2,OG18.3, OG18.4- Discuss the criteria for assessment of gestational age at birth. Discuss the basic principles of resuscitation of newborns. Discuss the diagnosis of birth asphyxia. Enumerate the common problems of normal newborn. Describe APGAR score. Unit 2 (Dr. K Rani)	04.12.25
	Friday	OG19.1.Discuss various methods of temporary contraception available for the couple after delivery. Describe the various methods of permanent contraception. Describe the steps of puerperal sterilization. Discuss the complications of puerperal sterilization, Unit 2 (Dr. K Rani)	05.12.25
	Saturday	OG19.2- Counsel in a simulated environment about the advantages and disadvantages of various contraceptive methods properly. Unit 2 (Dr. K Rani)	06.12.25
	Monday	OG12.6. To recognise Jaundice in pregnancy.To describe the clinical features, detection, effects of pregnancy on the liver disease, effects of the disease on pregnancy & management of Liver disease in pregnancy. To know the Liver diseases specific to pregnancy and coincidental to pregnancy. Unit 3 (Dr. S Agarwal)	08.12.25
	Tuesday	OG21.1.Demonstrate about the suitable contraception to the couple. Counsel regarding the indications, contraindications, side effects, complications and failure rates of hormonal contraception. Counsel regarding the indication, contraindications, side effects, complications and failure rate of non – hormonal contraception. Describe Methods of Emergency Contraception. Unit 3 (Dr. S Agarwal)	09.12.25
	Wednesday	OG21.1.Enumerate the indications for using Intrauterine Contraceptive devices. Discuss the pre-requisites before inserting IUCD in the procedure room. Describe the steps for insertion of IUCD in the procedure room. Identify the instruments used in IUCD insertion. Discuss the contraindications and side effects of IUCD. Describe the management of complications with IUCD insertion. Discuss various indications for IUCD removal. Describe the steps of IUCD removal in the procedure room. Identify the instruments used in removal of IUCD.Management of Missing Cu-T thread. Unit 3 (Dr. S Agarwal)	10.12.25
	Thursday	OG21.1- Describe the types, advantages, disadvantages and failure rate of male condom correctly. Describe the techniques, complications and follow up of vasectomy correctly. Unit 3 (Dr. S Agarwal)	11.12.25
	Friday	OG21.2 - Describe the timing of PPIUCD insertion, mechanism of action and failure rate of PPIUCD correctly. enumerate the advantages and side-effects of PPIUCD correctly enumerate the contraindications of PPIUCD correctly. describe the methods of PPIUCD insertion and post insertion care correctly. Unit 3 (Dr. S Agarwal)	12.12.25
	Saturday	OG22.1, OG22.2- Describe the characteristics of physiological vaginal discharge correctly. enumerate the causes of vaginal discharge in children, reproductive age and post-menopausal age group correctly, differentiate between bacterial vaginosis, vaginal candidiasis, and trichomonas vaginitis correctly, describe the clinical features, investigations and treatment of vaginal candidiasis, trichomonas vaginitis and bacterial vaginosis correctly, describe syndromic management of vaginal discharge correctly. Unit 3 (Dr. S Agarwal)	13.12.25
	Week 34	Monday	OG24.1- Define abnormal uterine bleeding. Discuss the etiology of abnormal uterine bleeding as per PALM-COEIN classification. Describe various clinical features, investigations and management of patient with abnormal uterine bleeding. Unit 3 (Dr. S Agarwal)
Tuesday		OG23.1, OG23.2, OG23.3- Describe the physiology and changes in puberty correctly. List the common disorders of puberty correctly. Define precocious puberty and delayed puberty accurately. Describe the evaluation and management of delayed puberty correctly. Enumerate the causes of delayed puberty correctly. Classify and enumerate the causes of precocious puberty accurately. Describe the evaluation and treatment of precocious puberty correctly. Unit 3 (Dr. S Agarwal)	16.12.25
Wednesday		OG25.1.Define the primary amenorrhea correctly. Define the secondary amenorrhea correctly. Enumerate the causes of primary amenorrhea. Describe the principles of management including investigation and Treatment in patient presenting with primary amenorrhea. Unit 3 (Dr. S Agarwal)	17.12.25
Thursday		OG25.1.Enumerate the causes of Secondary Amenorrhoea. Discuss the management of secondary amenorrhea. Unit 3 (Dr. S Agarwal)	18.12.25
Friday		OG 26.1- Define endometriosis. Describe the etiology and pathogenesis of endometriosis. Describe clinical features of endometriosis and Adenomyosis. Discuss effect of endometriosis on fertility. Define difference between endometriosis and adenomyosis. Describe investigations and management of Endometriosis. Unit 3 (Dr. S Agarwal)	19.12.25
Saturday		OG26.2- Enumerate causes of genital injuries. List the types of genital injuries. Describe clinical features of genital injuries. Discuss principles of management of genital injuries. Discuss the ways /methods of prevention of genital injuries. Unit 3 (Dr. S Agarwal)	20.12.25
Monday		OG27.1- Define Sexually Transmitted Disease. discuss aetio-pathogenesis of different sexually transmitted infections, discuss clinical features of different sexually transmitted infections, discuss long term implications of sexually transmitted infections, discuss investigations and management of sexually transmitted infections. Unit 3 (Dr. S Agarwal)	22.12.25

Week 35	Tuesday	OG27.1-To be able to discuss aetio-pathogenesis of Genital Tuberculosis. Discuss clinical features of Genital TB, its long term implications and complications, discuss investigations and management of Genital TB. To be able to discuss aetio-pathogenesis, clinical features, long term implications and complications, investigations and management of HIV in a gynec patient . Unit 3 (Dr. S Agarwal)	23.12.25	Students will be divided into five batches of 30 each and posted for 2 weeks in Pediatrics, Orthopedics, Dermatology, ENT and Ophthalmology
	Wednesday	OG27.4- Define Pelvic Inflammatory Disease and types of Pelvic Inflammatory disease. Discuss aetio-pathogenesis of Pelvic Inflammatory Disease. Describe the pathology in acute and chronic Pelvic Inflammatory disease correctly. Discuss clinical features of Pelvic Inflammatory Disease. Discuss investigations of Pelvic Inflammatory Disease. Discuss management of Pelvic Inflammatory Disease. Enumerate the long term implications of Pelvic Inflammatory Disease. Unit 3 (Dr. S Agarwal)	24.12.25	
	Thursday	OG28.1- Define Infertility, Primary Infertility, And Secondary Infertility. Report prevalence of Infertility. Describe factors essential for conception. Enumerate common causes of infertility [Male, Female]. Discuss how to investigate male factor infertility. Describe treat of male partner infertility. Discuss how to investigate & treat Anovulatory infertility. Unit 3 (Dr. S Agarwal)	25.12.25	
	Friday	OG28.2. Discuss the Investigation & Treatment of Tubal Factor Infertility, including Tubal Patency tests & Tubal recanalisation operations. Unit 3 (Dr. S Agarwal)	26.12.25	
	Saturday	OG28.4- Define ART (Assisted Reproduction Technique). Enumerate different methods of ART. Describe principal steps of ART. Unit 3 (Dr. S Agarwal)	27.12.25	
Week 36	Monday	OG29.1- Define fibroid correctly. The types of fibroid accurately. Discuss the etiology of fibroid uterus correctly. Describe the pathology of fibroid uterus correctly. Describe the clinical features of fibroid uterus correctly. Discuss the differential diagnosis of fibroid uterus correctly. enumerate all the investigations of fibroid uterus correctly. Discuss the principles of management of fibroid uterus correctly. Discuss the complications of fibroid uterus. Unit 3 (Dr. S Agarwal)	29.12.25	
	Tuesday	OG31.1- Describe the etiology of prolapse of uterus. Describe the classification of prolapse of uterus. Describe clinical features of prolapse of uterus. Discuss diagnosis and investigation of prolapse of uterus. Discuss preventive aspect of prolapse of uterus. Discuss management of prolapse of uterus. Describe the etiology of prolapse of uterus. Describe the classification of prolapse of uterus. Describe clinical features of prolapse of uterus. Discuss diagnosis and investigation of prolapse of uterus. Discuss preventive aspect of prolapse of uterus. Discuss management of prolapse of uterus. Unit 3 (Dr. S Agarwal)	30.12.25	
	Wednesday	OG32.2- Enumerate the causes of post menopausal bleeding correctly. describe the evaluation and management of Postmenopausal bleeding correctly. Unit 3 (Dr. S Agarwal)	31.12.25	
	Thursday	OG33.1- Describe classification of cervical cancer. Describe etiology and pathology of cervical cancer. Discuss clinical features and differential diagnosis of cervical cancer. Discuss investigations and staging of cervical cancer. OG33.2- Describe management of benign lesions of cervix. Describe management of premalignant lesions of cervix. Unit 3 (Dr. S Agarwal)	01.01.26	
	Friday	OG33.2. Describe management of malignant lesions of cervix. Unit 3 (Dr. S Agarwal)	02.01.26	
	Saturday	OG33.3- Enumerate, Describe & demonstrate in a simulated environment (DOAP Session) the methods of cervical cancer screening. Unit 3 (Dr. S Agarwal)	03.01.26	
	Monday	Clinical Posting (P) OR 2.6 Describe and discuss Etiopathogenesis, mechanism of injury, clinical feature, investigation and principles of management of fracture of distal radius. Unit 1 (Dr. A Saraf)	05.01.26	
Week 37	Tuesday	Clinical Posting (P) OR 2.5 Describe and discuss the aetiopathogenesis, clinical features, mechanism of injury, Investigation and principles of management of fracture of both bone forearm and Galeazzi and Monteggia injury. Unit 1 (Dr. A Saraf)	06.01.26	
	Wednesday	Clinical Posting (P) OR 2.4 Describe and discuss the mechanism of injury, clinical features, Investigation and principles of management of fracture of shaft humerus and intercondylar fracture humerus with emphasis on neurovascular deficit. Unit 1 (Dr. A Saraf)	07.01.26	
	Thursday	Clinical Posting (P) OR 2.3 Select, prescribe and communicate appropriate medications for relief of joint pain. Unit 1 (Dr. A Saraf)	08.01.26	
	Friday	Clinical Posting (P) OR 2.2 Describe and discuss the, mechanism of injury, clinical features, investigations and plan management of fractures of proximal humerus. Unit 2 (Dr. S Singh)	09.01.26	
	Saturday	Clinical Posting (P) OR 2.1 Describe and discuss the, mechanism of injury, clinical features, investigations and principles of management of fractures of Clavicle. Unit 2 (Dr. S Singh)	10.01.26	
	Monday	Clinical Posting (P) OR 1.6 Participate as a member in the team for closed reduction of Shoulder dislocation/ hip dislocation/ knee dislocation. Unit 2 (Dr. S Singh)	12.01.26	
	Tuesday	Clinical Posting (P) OR 1.5 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of dislocation of major joints, shoulder, knee, hip. Unit 2 (Dr. S Singh)	13.01.26	
Week 38	Wednesday	Clinical Posting (P) OR 1.4 Describe and discuss the Principles of Management of Soft Tissue Injuries. Unit 3 (Dr. M Sharma)	14.01.26	
	Thursday	Clinical Posting (P) OR 1.3 Describe and discuss the aetiopathogenesis, Clinical features, investigations and principles of management of soft tissue injuries. Unit 3 (Dr. M Sharma)	15.01.26	

Week 39	Friday	Clinical Posting (P) OR.1.2 Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of shock. Unit 3 (Dr. M Sharma)	16.01.26
	Saturday	Clinical Posting (P) OR.1.1 Describe and discuss the Principles of pre hospital care and casualty management of a trauma victim including principles of triage. Unit 3 (Dr. M Sharma)	17.01.26
	Monday	PE1.4-Perform Anthropometric measurements, document in growth charts and interpret; PE10.3-Assessment of a patient with SAM and MAM, diagnosis, classification and planning management including hospital and community based intervention, rehabilitation and prevention - Unit 1 (Dr. R R Singh)	19.01.26
	Tuesday	PE1.7-Perform Developmental assessment and interpret; PE9.5-Calculate the age related calorie requirement in Health and Disease and identify gap - Unit 1 (Dr. R R Singh)	20.01.26
	Wednesday	PE3.4-Counsel a parent of a child with developmental delay; PE12.8-Identify the clinical features of dietary deficiency of Vitamin D - Unit 1 (Dr. R R Singh)	21.01.26
	Thursday	PE7.5-Observe the correct technique of breast feeding and distinguish right from wrong techniques; PE15.3-Calculate the fluid and electrolyte requirement in health - Unit 3 (Dr. N S Chitambaram)	22.01.26
	Friday	PE10.3-Assessment of a patient with SAM and MAM, diagnosis, classification and planning management including hospital and community based intervention, rehabilitation and prevention; PE1.4-Perform Anthropometric measurements, document in growth charts and interpret - Unit 3 (Dr. N S Chitambaram)	23.01.26
Week 40	Saturday	PE9.5-Calculate the age related calorie requirement in Health and Disease and identify gap; PE1.7-Perform Developmental assessment and interpret - Unit 3 (Dr. N S Chitambaram)	24.01.26
	Monday	PE12.8-Identify the clinical features of dietary deficiency of Vitamin; -Counsel a parent of a child with developmental delay - Unit 2 (Dr.B K Gaur)	26.01.26
	Tuesday	PE15.3-Calculate the fluid and electrolyte requirement in health; PE7.5-Observe the correct technique of breast feeding and distinguish right from wrong techniques - Unit 2 (Dr.B K Gaur)	27.01.26
	Wednesday	PE1.4-Perform Anthropometric measurements, document in growth charts and interpret - Unit 2 (Dr.B K Gaur)	28.01.26
	Thursday	PE1.7-Perform Developmental assessment and interpret - Unit 1 (Dr. R R Singh)	29.01.26
	Friday	PE3.4-Counsel a parent of a child with developmental delay - Unit 1 (Dr. R R Singh)	30.01.26
	Saturday	PE7.5-Observe the correct technique of breast feeding and distinguish right from wrong techniques - Unit 1 (Dr. R R Singh)	31.01.26
Week 41	Monday	Clinical Posting (P) : D.R.1.2 Identify and grade the various common types of acne - Dr. Parvathi CN	02.02.26
	Tuesday	Clinical Posting (P): D.R. 2.1 Identify and differentiate Vitiligo from other causes of hypopigmented lesions - Dr. Parvathi CN	03.02.26
	Wednesday	Clinical Posting (P): D.R.3.1 Identify and distinguish psoriatic lesions from other causes; D.R.3.2 Demonstrate the grattage test - Dr. Tilwani	04.02.26
	Thursday	Clinical Posting (P): D.R.4.1 Identify and distinguish lichen planus lesions from other causes; D.R.5.2 Identify and differentiate scabies from other lesions in adults and children -Dr. Parvathi CN	05.02.26
	Friday	Clinical Posting (P): D.R 7.2 Identify Candida species in fungal scrapings and KOH mount - Dr. Tilwani	06.02.26
	Saturday	Clinical Posting (P): D.R. 8.2 Identify and distinguish herpes simplex and herpes labialis from other skin lesions ; D.R. 8.3 identify and distinguish herpes zoster and varicella from other skin lesions - Dr. Tilwani	07.02.26
	Monday	Clinical Posting (P): D.R.8.4 Identify and distinguish viral warts from other skin lesions ; D.R.8.5 Identify and distinguish molluscum contagiosum from other skin lesions - Dr. Tilwani	09.02.26
Week 42	Tuesday	Clinical Posting (P): D.R. 9.2 Demonstrate (and classify based on) the clinical features of leprosy including an appropriate neurologic examination; D.R.10.1 Identify and classify syphilis based on the presentation and clinical manifestation - Dr. D Meena	10.02.26
	Wednesday	Clinical Posting (P) : D.R.10.2 Identify spirochete in a dark ground microscopy; D.R.10.5 Counsel in a non-judgemental and empathetic manner patients on prevention of sexually transmitted diseases - Dr. D Meena	11.02.26
	Thursday	Clinical Posting (P): D.R. 11.2 Identify and distinguish the dermatologic manifestations of HIV, its complications, opportunistic infections and adverse reactions -Dr. D Meena	12.02.26
	Friday	Clinical Posting (P): D.R.12.6 Identify and distinguish exfoliative dermatitis from other skin lesions - Dr. R K Singh	12.02.26
	Saturday	Clinical Posting (P) D.R. 16, 1-18,1 Identify and Distinguish Skin lesions - Dr. R K Singh	14.02.26
	Monday	Clinical Posting (P):EN 2.7: Demonstrate the correct technique of examination of neck including elicitation of laryngeal crepitus	16.02.26
	Tuesday	Clinical Posting (P): EN 2.8: Demonstrate the correct technique to perform and interpret pure tone audiogram & impedance audiogram	17.02.26
k 43	Wednesday	Clinical Posting (P): EN 2.9: Choose correctly and interpret radiological, microbiological & histological investigations relevant to the ENT disorders	18.02.26

Wee	Thursday	Clinical Posting (P):EN 2.10: Identify and describe the use of common instruments used in ENT surgery	19.02.26
	Friday	Clinical Posting (P): EN 2.10: Identify and describe the use of common instruments used in ENT surgery	20.02.26
	Saturday	Clinical Posting (P): EN 2.10: Identify and describe the use of common instruments used in ENT surgery	21.02.26
	Monday	Clinical Posting (P): EN 2.11: Describe and identify by clinical examination malignant and Premalignant ENT disease	23.02.26
	Tuesday	Clinical Posting (P): EN 2.12: Counsel and administer informed consent to patients and their families in a simulated environment; EN 3.6: Observe and describe the indications for and steps involved in the skills of emergency procedures in ear, nose & throat	24.02.26
	Wednesday	Clinical Posting (P): EN 2.13: Identify, Resuscitate and manage ENT emergencies in a simulated environment (including tracheostomy, anterior nasal packing, removal of foreign bodies in ear, nose, measles and upper respiratory tract)	25.02.26
	Thursday	Clinical Posting (P): EN 2.14: Demonstrate the correct technique to instilling topical medications into the ear, nose and throat in a simulated environment; EN 3.5: Observe and describe the indications for and steps involved in the surgical procedures in ear, nose & throat	26.02.26
Week 44	Friday	Clinical Posting (P): EN 2.15: Describe the national programs for prevention of deafness, cancer, noise & environmental pollution; EN 3.2: Observe and describe the indications for and steps involved in the performance of diagnostic nasal Endoscopy	27.02.26
	Saturday	Clinical Posting (P): EN 3.1: Observe and describe the indications for and steps involved in the performance of Otomicroscopic examination in a simulated environment; EN 3.3: Observe and describe the indications for and steps involved in the performance of Rigid/Flexible Laryngoscopy; EN 3.4: Observe and describe the indications for and steps involved in the removal of foreign bodies from ear, nose & throat	28.02.26
	Holi Vacations 02.03.26-07.03.26		
	Monday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly.	09.03.26
	Tuesday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly; OP7.3 Demonstrate the correct technique of ocular examination in a patient with a cataract correctly.	10.03.26
	Wednesday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly; OP7.3 Dr. K. Agnihotri Demonstrate the correct technique of ocular examination in a patient with a cataract correctly.	11.03.26
	Thursday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly.	12.03.26
Week 45	Friday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly.	13.03.26
	Saturday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly.	14.03.26
	Monday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly; OP7.3 Demonstrate the correct technique of ocular examination in a patient with a cataract correctly	16.03.26
	Tuesday	Clinical Posting (P): Eye OP3.1 Elicit document and present an appropriate history in a patient presenting with a "red eye" including congestion, discharge, pain correctly; OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unioocular & Binocular)	17.03.26
	Wednesday	Clinical Posting (P): Eye OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness; OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unioocular & Binocular)	18.03.26
	Thursday	Clinical Posting (P): Eye OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness; OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unioocular & Binocular)	19.03.26
	Friday	Clinical Posting (P): Eye OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness	20.03.26
Week 46	Saturday	Clinical Posting (P): Eye OP3.2 Demonstrate document and present the correct method of examination of a "red eye" including vision assessment, corneal lustre, pupil abnormality, ciliary tenderness; OP9.1 Demonstrate the correct technique to examine extra ocular movements (Unioocular & Binocular)	21.03.26
