Delhi Road, Moradabad - 244001

Time Table Schedule (Phase 2nd MBBS as per New Curriculum w.e.f AUGUST 2019) Batch 2023-24 w.e.f 02.09.2024 (36 Weeks)

1	Monday	IM 11.1: Perform and demonstrate a systematic examination based on the history that will help establish the diagnosis and estimate its severity including: measurement of pulse, blood pressure and respiratory rate, jugular venous forms and pulses, peripheral pulses, conjunctiva and fundus, lung, cardiac examination including palpation and auscultation with identification of heart sounds and murmurs, abdominal distension and splenic palpation	Unit 1 (Dr. V K Singh)	Students are divided into Three Groups with Each posting of 7 +2 weeks from 02.09.24 to 19.10.24; 21.10.24 to 14.12.24 and 16.12.24 to 22.02.25 and 24.02.25 to 08.03.25; 17.03.25 to 29.03.25 and 31.3.25 to 03.05.25
	Tuesday		Unit 5 (Dr. A Kumar)	
	Wednesday		Unit 5 (Dr. A Kumar)	
	Thursday		Unit 1 (Dr. V K Singh)	
	Friday		Unit 1 (Dr. V K Singh)	
	Saturday		Unit 5 (Dr. A Kumar)	
	Monday		Unit 1 (Dr. V K Singh)	
Tuesday	Unit 5 (Dr. A Kumar)			
Wednesday	Unit 1 (Dr. V K Singh)			
Thursday	Unit 5 (Dr. A Kumar)			
Friday	Unit 2 (Dr. Vishvanayak)			
Saturday	Unit 2 (Dr. Vishvanayak)			
Monday	Unit 2 (Dr. Vishvanayak)			
Tuesday	Unit 2 (Dr. Vishvanayak)			
Wednesday	Unit 2 (Dr. Vishvanayak)			
Thursday	Unit 3 (Dr. K Gopal)			
Friday	Unit 3 (Dr. K Gopal)			
Saturday	Unit 3 (Dr. K Gopal)			
Monday	Unit 3 (Dr. K Gopal)			
Tuesday	Unit 4 (Dr. J Haria)			
Wednesday	Unit 4 (Dr. J Haria)			
Thursday	Unit 4 (Dr. J Haria)			
Friday	Unit 4 (Dr. J Haria)			
Saturday	Unit 4 (Dr. J Haria)			
Monday	Unit 1 (Dr. V K Singh)			
Tuesday	Unit 5 (Dr. A Kumar)			
Wednesday	Unit 5 (Dr. A Kumar)			
Thursday	Unit 1 (Dr. V K Singh)			
Friday	Unit 1 (Dr. V K Singh)			
Saturday	Unit 5 (Dr. A Kumar)			
Monday	Unit 1 (Dr. V K Singh)			
Tuesday	Unit 5 (Dr. A Kumar)			
Wednesday	Unit 1 (Dr. V K Singh)			
Thursday	Unit 5 (Dr. A Kumar)			
Friday	Unit 2 (Dr. Vishvanayak)			
Saturday	Unit 2 (Dr. Vishvanayak)			
Monday	Unit 2 (Dr. Vishvanayak)			
Tuesday	Unit 2 (Dr. Vishvanayak)			

Week 8	Wednesday	IM 1.13: Measure the blood pressure accurately, recognise and discuss alterations in blood pressure in valvular heart disease and other causes of heart failure and cardiac tamponade and Ward Relieving	Unit 2 (Dr. Vishvanayak)	
	Thursday		Unit 3 (Dr. K Gopal)	
	Friday		Unit 3 (Dr. K Gopal)	
	Saturday		Unit 3 (Dr. K Gopal)	
	Monday		Unit 3 (Dr. K Gopal)	
	Tuesday		Unit 4 (Dr. J Haria)	
	Wednesday		Unit 4 (Dr. J Haria)	
	Thursday		Unit 4 (Dr. J Haria)	
	Friday		Unit 4 (Dr. J Haria)	
	Saturday		Unit 4 (Dr. J Haria)	

Diwali Vacations 28.10.24-02.11.24

Week 9	Monday	IM 1.13: Measure the blood pressure accurately, recognise and discuss alterations in blood pressure in valvular heart disease and other causes of heart failure and cardiac tamponade and Ward Relieving	Unit 1 (Dr. V K Singh)	Students are divided into Three Groups with Each posting of 7 +2 weeks from 02.09.24 to 19.10.24; 21.10.24 to 14.12.24 and 16.12.24 to 22.02.25 and 24.02.25 to 08.03.25; 17.03.25 to 29.03.25 and 31.3.25 to 03.05.25
	Tuesday		Unit 1 (Dr. V K Singh)	
	Wednesday		Unit 1 (Dr. V K Singh)	
	Thursday		Unit 1 (Dr. V K Singh)	
	Friday		Unit 1 (Dr. V K Singh)	
	Saturday		Unit 1 (Dr. V K Singh)	
Week 10	Monday	SU 4.1 History and examination of burn patient	Unit 2 (Dr. V Kumar)	
	Tuesday		Unit 2 (Dr. V Kumar)	
	Wednesday		Unit 2 (Dr. V Kumar)	
	Thursday		Unit 2 (Dr. V Kumar)	
	Friday		Unit 2 (Dr. V Kumar)	
	Saturday		Unit 2 (Dr. V Kumar)	
Week 11	Monday	SU 5.2 History and examination of wound/ulcer	Unit 1 (Dr. N K Singh)	
	Tuesday		Unit 1 (Dr. N K Singh)	
	Wednesday		Unit 1 (Dr. N K Singh)	
	Thursday		Unit 1 (Dr. N K Singh)	
	Friday		Unit 1 (Dr. N K Singh)	
	Saturday		Unit 1 (Dr. N K Singh)	
Week 12	Monday	SU 6.1 History and examination of a abcess /skin infection	Unit 1 (Dr. N K Singh)	
	Tuesday		Unit 1 (Dr. N K Singh)	
	Wednesday		Unit 1 (Dr. N K Singh)	
	Thursday		Unit 1 (Dr. N K Singh)	
	Friday		Unit 1 (Dr. N K Singh)	
	Saturday		Unit 1 (Dr. N K Singh)	
Week 13	Monday	SU 6.1 History and examination of a abcess /skin infection	Unit 3 (Dr. R K Kaul)	
	Tuesday		Unit 3 (Dr. R K Kaul)	
	Wednesday		Unit 3 (Dr. R K Kaul)	
	Thursday		Unit 3 (Dr. R K Kaul)	
	Friday		Unit 3 (Dr. R K Kaul)	
	Saturday		Unit 3 (Dr. R K Kaul)	
	Monday		Unit 3 (Dr. R K Kaul)	
	Tuesday		Unit 3 (Dr. R K Kaul)	
	Wednesday		Unit 3 (Dr. R K Kaul)	
	Thursday		Unit 3 (Dr. R K Kaul)	

Week 16	Friday	S U 9.1 How to investigate a patient of surgery and Ward Relieving	Unit 3 (Dr. R K Kaul)	
	Saturday		Unit 3 (Dr. R K Kaul)	
	Monday		Unit 4 (Dr. A K Singh)	
	Tuesday		Unit 4 (Dr. A K Singh)	
	Wednesday		Unit 4 (Dr. A K Singh)	
	Thursday		Unit 4 (Dr. A K Singh)	
	Friday		Unit 4 (Dr. A K Singh)	
	Saturday		Unit 4 (Dr. A K Singh)	
	Monday		Unit 5 (Dr. C K Jhakmola)	
	Tuesday		Unit 5 (Dr. C K Jhakmola)	
	Wednesday		Unit 5 (Dr. C K Jhakmola)	
	Thursday		Unit 5 (Dr. C K Jhakmola)	
	Friday		Unit 5 (Dr. C K Jhakmola)	
	Saturday		Unit 5 (Dr. C K Jhakmola)	

First Terminal 06.01.25 - 25.01.25

Week 17	Monday	OG8.3 Describe, demonstrate, document and perform an obstetrical examination including a general and abdominal examination and clinical monitoring of maternal and fetal well-being	Unit 1 (Dr.Manpreet Kaur)	Students are divided into Three Groups with Each posting of 7 +2 weeks from 02.09.24 to 19.10.24; 21.10.24 to 14.12.24 and 16.12.24 to 22.02.25 and 24.02.25 to 08.03.25; 17.03.25 to 29.03.25 and 31.3.25 to 03.05.25
	Tuesday		Unit 1 (Dr.Manpreet Kaur)	
	Wednesday		Unit 1 (Dr.Manpreet Kaur)	
	Thursday		Unit 1 (Dr.Manpreet Kaur)	
	Friday		Unit 2 (Dr. K Rani)	
	Saturday		Unit 2 (Dr. K Rani)	
	Monday		Unit 2 (Dr. K Rani)	
Week 18	Tuesday	OG35.5. Determine gestational age, EDD and obstetric formula	Unit 2 (Dr. K Rani)	
	Wednesday		Unit 2 (Dr. K Rani)	
	Thursday		Unit 3 (Dr.S Agarwal)	
	Friday		Unit 3 (Dr.S Agarwal)	
	Saturday		Unit 3 (Dr.S Agarwal)	
	Monday		Unit 2 (Dr. K Rani)	
	Tuesday		Unit 2 (Dr. K Rani)	
Week 19	Wednesday	OG8.2 Elicit document and present an obstetric history including menstrual history, last menstrual period, previous obstetric history, comorbid conditions, past medical history and surgical history	Unit 1 (Dr.Manpreet Kaur)	
	Thursday		Unit 1 (Dr.Manpreet Kaur)	
	Friday		Unit 1 (Dr.Manpreet Kaur)	
	Saturday		Unit 1 (Dr.Manpreet Kaur)	
	Monday		Unit 1 (Dr.Manpreet Kaur)	
	Tuesday		Unit 1 (Dr.Manpreet Kaur)	
	Wednesday		Unit 1 (Dr.Manpreet Kaur)	
Week 20	Thursday	OG35.6 Demonstrate ethical behavior in all aspects of medical practice.	Unit 1 (Dr.Manpreet Kaur)	
	Friday		Unit 3 (Dr. S Agarwal)	
	Saturday		Unit 3 (Dr. S Agarwal)	
	Monday		Unit 1 (Dr.Manpreet Kaur)	
	Tuesday		Unit 1 (Dr.Manpreet Kaur)	
	Wednesday		Unit 1 (Dr.Manpreet Kaur)	
	Thursday		Unit 1 (Dr.Manpreet Kaur)	
Week 21	Friday		Unit 2 (Dr. K Rani)	
	Saturday		Unit 2 (Dr. K Rani)	
	Saturday		Unit 2 (Dr. K Rani)	

Week 23	Monday	OG8.3 Describe, demonstrate, document and perform an obstetrical examination including a general and abdominal examination and clinical monitoring of maternal and fetal well-being;	Unit 2 (Dr. K Rani)	Students are divided into Three Groups with Each posting of 7 +2 weeks from 02.09.24 to 19.10.24; 21.10.24 to 14.12.24 and 16.12.24 to 22.02.25 and 24.02.25 to 08.03.25; 17.03.25 to 29.03.25 and 31.3.25 to 03.05.25		
	Tuesday		Unit 2 (Dr. K Rani)			
	Wednesday		Unit 2 (Dr. K Rani)			
	Thursday		Unit 3 (Dr.S Agarwal)			
	Friday		Unit 3 (Dr.S Agarwal)			
	Saturday		Unit 3 (Dr.S Agarwal)			
	Monday		OG8.3 Describe, demonstrate, document and perform an obstetrical examination including a general and abdominal examination and clinical monitoring of maternal and fetal well-being;		Unit 2 (Dr. K Rani)	
Tuesday	Unit 2 (Dr. K Rani)					
Wednesday	Unit 1 (Dr.Manpreet Kaur)					
Thursday	Unit 1 (Dr.Manpreet Kaur)					
Friday	Unit 1 (Dr.Manpreet Kaur)					
Saturday	Unit 1 (Dr.Manpreet Kaur)					
Holi Vacations 10.03.25 - 15.03.25						
Week 24	Monday	OR1.1: Describe and discuss the Principles of pre hospital care and casualty management of a trauma victim including principles of triage.	Unit 2 (Dr. S Singh)		Students are divided into Three Groups with Each posting of 7 +2 weeks from 02.09.24 to 19.10.24; 21.10.24 to 14.12.24 and 16.12.24 to 22.02.25 and 24.02.25 to 08.03.25; 17.03.25 to 29.03.25 and 31.3.25 to 03.05.25	
	Tuesday		Unit 3 (Dr. M Sharma)			
	Wednesday		Unit 1 (Dr. A Saraf)			
	Thursday		Unit 2 (Dr. S Singh)			
	Friday		Unit 3 (Dr. M Sharma)			
	Saturday		Unit 1 (Dr. A Saraf)			
Week 25	Monday	OR2.16: Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of open fractures with focus on secondary infection, prevention and management	Unit 2 (Dr. S Singh)	Students are divided into Three Groups with Each posting of 7 +2 weeks from 02.09.24 to 19.10.24; 21.10.24 to 14.12.24 and 16.12.24 to 22.02.25 and 24.02.25 to 08.03.25; 17.03.25 to 29.03.25 and 31.3.25 to 03.05.25		
	Tuesday		Unit 3 (Dr. M Sharma)			
	Wednesday		Unit 1 (Dr. A Saraf)			
	Thursday		Unit 2 (Dr. S Singh)			
	Friday		Unit 3 (Dr. M Sharma)			
	Saturday		Unit 1 (Dr. A Saraf)			
Week 26	Monday	DR 1.1: Enumerate the causative and risk factors of Acne	Dr. Dilip Meena			Students are divided into Three Groups with Each posting of 7 +2 weeks from 02.09.24 to 19.10.24; 21.10.24 to 14.12.24 and 16.12.24 to 22.02.25 and 24.02.25 to 08.03.25; 17.03.25 to 29.03.25 and 31.3.25 to 03.05.25
	Tuesday		Dr. Dilip Meena			
	Wednesday		Dr. Dilip Meena			
	Thursday		Dr.Parvathi CN			
	Friday		Dr.Parvathi CN			
	Saturday		Dr.Parvathi CN			
Week 27	Monday	DR 1.2: Identify and grade the various common types of acne	Dr.Parvathi CN		Students are divided into Three Groups with Each posting of 7 +2 weeks from 02.09.24 to 19.10.24; 21.10.24 to 14.12.24 and 16.12.24 to 22.02.25 and 24.02.25 to 08.03.25; 17.03.25 to 29.03.25 and 31.3.25 to 03.05.25	
	Tuesday		Dr.Parvathi CN			
	Wednesday		Dr. Rajeev K			
	Thursday		DR3.1: Identify and distinguish psoriatic lesions from other causes			
	Friday		Dr. Tilwani			
	Saturday		Ward Relieving	All Faculty		

Week 28

Monday	CM 2.1&2.2: Describe the steps and perform clinico socio-cultural and demographic assessment of the individual, family and community AND Describe the socio-cultural factors, family (types), its role in health and disease & demonstrate in a simulated environment the correct assessment of socio-economic status	Dr. S K Gupta	Students are divided into Two Groups with Each posting of 4 weeks from 05.05.25 to 31.05.25 and 02.06.25 to 28.06.25 and One week posting in Dental College from 30.06.25 to 05.07.25
Tuesday	CM 5.1&5.2: Describe the common sources of various nutrients and special nutritional requirements according to age, sex, activity, physiological conditions AND Describe and demonstrate the correct method of performing a nutritional assessment of individuals, families and the community by using the appropriate method	Dr. Sadhna Singh	
Wednesday	CM 5.1&5.2: Describe the common sources of various nutrients and special nutritional requirements according to age, sex, activity, physiological conditions AND Describe and demonstrate the correct method of performing a nutritional assessment of individuals, families and the community by using the appropriate method	Dr. Anish Prabhakar	
Thursday	CM 5.1&5.2: Describe the common sources of various nutrients and special nutritional requirements according to age, sex, activity, physiological conditions AND Describe and demonstrate the correct method of performing a nutritional assessment of individuals, families and the community by using the appropriate method	Dr. Amit Kumar	
Friday	CM 3.2: Describe concepts of safe and wholesome water, sanitary sources of water, water purification processes, water quality standards, concepts of water conservation and rainwater harvesting AND Describe and demonstrate the correct method of performing a nutritional assessment of individuals, families and the community by using the appropriate method	Dr. Pooja Sindwani	
Saturday	CM 3.2: Describe concepts of safe and wholesome water, sanitary sources of water, water purification processes, water quality standards, concepts of water conservation and rainwater	Dr. Shilpa Reddy	

Second Terminal Exam 07.04.25 - 26.04.25

Week 29

Monday	CM 3.2: Describe concepts of safe and wholesome water, sanitary sources of water, water purification processes, water quality standards, concepts of water conservation and rainwater harvesting AND Describe and demonstrate the correct method of performing a nutritional assessment of individuals, families and the community by using the appropriate method	Dr. Amit Kumar	
Tuesday	CM 7.3: Enumerate, describe and discuss the modes of transmission and measures for prevention and control of communicable and non- communicable diseases AND Describe	Dr. S K Gupta	
Wednesday	CM 5.4: Plan and recommend a suitable diet for the individuals and families based on local availability of foods and economic status, etc in a simulated environment	Dr. Sadhna Singh	
Thursday	CM 5.4: Plan and recommend a suitable diet for the individuals and families based on local availability of foods and economic status, etc in a simulated environment	Dr. Anish Prabhakar	
Friday	CM 5.4: Plan and recommend a suitable diet for the individuals and families based on local availability of foods and economic status, etc in a simulated environment	Dr. Amit Kumar	
Saturday	CM 5.4: Plan and recommend a suitable diet for the individuals and families based on local	Dr. Sadhna Singh	
Monday	CM 17.5: Describe health care delivery in India	Dr. Shilpa Reddy	

Week 30	Tuesday	CM 3.5: Describe the standards of housing and the effect of housing on health	Dr. Amit Kumar	Students are divided into Two Groups with Each posting of 4 weeks from 05.05.25 to 31.05.25 and 02.06.25 to 28.06.25 and One week posting in Dental College from 30.06.25 to 05.07.25
	Wednesday	CM 14.1: Define and classify hospital waste	Dr. S K Gupta	
Thursday	CM 14.1: Define and classify hospital waste	Dr. Sadhna Singh		
Friday	CM 17.5: Describe health care delivery in India	Dr. Anish Prabhakar		
Saturday	CM 17.5: Describe health care delivery in India	Dr. Amit Kumar		
Week 31	Monday	CM 5.3: Define and describe common nutrition related health disorders (including macro-PEM, Micro-iron, Zn, iodine, Vit. A), their control and management	Dr. Anish Prabhakar	
	Tuesday	CM 5.3: Define and describe common nutrition related health disorders (including macro-PEM, Micro-iron, Zn, iodine, Vit. A), their control and management	Dr. Shilpa Reddy	
	Wednesday	CM 3.6: Describe the role of vectors in the causation of diseases. Also discuss National Vector Borne disease Control Program	Dr. Pooja Sindwani	
	Thursday	CM 3.6: Describe the role of vectors in the causation of diseases. Also discuss National Vector	Dr. S K Gupta	
	Friday	Revision and Record book checking	All Faculty	
Week 32	Saturday	Ward Relieving	All Faculty	
	Monday	PE 1.1: How to take detailed history of Pediatric case from parents including birth history	Unit 1 (Dr. R Singh)	
	Tuesday		Unit 1 (Dr. R Singh)	
	Wednesday	PE 1.5: How to take developmental history from parents and how to Perform Developmental assessment in infants and children and interpret the findings.	Unit 2 (Dr. R Jain)	
	Thursday		Unit 2 (Dr. R Jain)	
	Friday	PE 1.2: How to elicit Dietary History and interpret the nutritional intake as per daily req.	Unit 3 (Dr. N Chitambaram)	
	Saturday		Unit 3 (Dr. N Chitambaram)	
Week 33	Monday	PE 1.3: Immunization History: Assess patient for fitness for immunization and prescribe an age appropriate immunization schedule as per UIP	Unit 1 (Dr. R Singh)	
	Tuesday		Unit 1 (Dr. R Singh)	
	Wednesday	PE 1.3: How to perform head to toe general physical examination in a child	Unit 2 (Dr. R Jain)	
	Thursday		Unit 2 (Dr. R Jain)	
	Friday	PE 1.4: Anthropometry: How to Perform anthropometric measurements in children of different age groups and interpret the findings on WHO growth charts.	Unit 3 (Dr. N Chitambaram)	
	Saturday		Unit 3 (Dr. N Chitambaram)	
Week 34	Monday	PE 1.7: How to record vitals parameters (BP,Pulse,RR,Temp) in a child and interpret as per age	Unit 1 (Dr. R Singh)	Students are divided into Two Groups with Each posting of 4 weeks from 05.05.25 to 31.05.25 and 02.06.25 to 28.06.25 and One week posting in Dental College from 30.06.25 to 05.07.25
	Tuesday		Unit 1 (Dr. R Singh)	
	Wednesday	PE 1.6 & 1.7: Perform routine Adolescent Health checkup including eliciting history, performing examination including SMR (Sexual Maturity Rating), growth assessments (using Growth charts) learn to prep Diet chart	Unit 2 (Dr. R Jain)	
	Thursday		Unit 2 (Dr. R Jain)	
	Friday	PE 1.7: Assessment of a child with failure to thrive(FTT) including appropriate feeding/dietary history and examination	Unit 3 (Dr. N Chitambaram)	
	Saturday		Unit 3 (Dr. N Chitambaram)	
	Monday	PE 1.7 Assessment & classify the nutritional req. of infants, children & adol. & recognize deviations. t/l to calculate the age related calorie req.in Health & Ds. & identify the gap.	Unit 1 (Dr. R Singh)	
Tuesday		Unit 1 (Dr. R Singh)		
Week 35	Wednesday	PE 1.7: Assessment of a child with short stature: elicit, document & present history & exam.	Unit 2 (Dr. R Jain)	
	Thursday		Unit 2 (Dr. R Jain)	
	Friday	PE 1.7: Assessment of a child with developmental delay, elicit, document & present history +	Unit 3 (Dr. N Chitambaram)	
	Saturday	Ward Relieving	Unit 3 (Dr. N Chitambaram)	
	Monday	D.E 1.3: Identify Dental caries	Faculty TMDCRC	
	Tuesday	D.E.1.5: Counsel patients with respect to oral hygiene, diet and the direct bearing on systemic health	Faculty TMDCRC	
	Wednesday		Faculty TMDCRC	
Thursday	D.E.2.3: Identify complete complement of teeth and identify missing teeth	Faculty TMDCRC		

V

Friday
Saturday

D.E.2.5: Counsel patients on the importance of restoring missing teeth/tissues with respect to the benefits on oral and systemic health.
--

Faculty TMDRC
Faculty TMDRC

Pre University Exams from 07.07.25 onwards followed by University Exams from Second Week of August 2025

Teerthanker Mahaveer Medical College & Research Center

Teerthanker Mahaveer University

Delhi Road, Moradabad - 244001

Time Table Schedule (Phase 2nd MBBS as per New Curriculum w.e.f AUGUST 2019) Batch 2023-24 w.e.f. 02.09.2024 (36 Weeks)

Day/Time	8:00-9:00 am	9:00-10:00 am	10:00 am - 1:00 pm	1:00-2:00pm	2:00-3:00pm	3:00-4:00pm	
Monday	Medicine (L)	Microbiology (L)	Clinical Posting (P) with Three Hour Skill Lab Posting Every week	LUNCH	Microbiology - SGT/SDL/Practical /Integrated		
Tuesday	Community Medicine (L) / Forensic Medicine (L)	Pharmacology (L)	Clinical Posting (P) with Three Hour Skill Lab Posting Every week		Pharmacology - SGT/SDL/Practical/Integrated		
Wednesday	Surgery (L)	Microbiology/ Forensic Medicine (L)	Clinical Posting (P) with Three Hour Skill Lab Posting Every week		SGT/SDL Session	AETCOM Session	AETCOM - 1st Wednesday - Pathology; 2nd Wednesday - Microbiology; 3rd Wednesday - Pharmacology; 4th Wednesday - Alternately Pathology, Microbiology and Pharmacology
Thursday	Pathology - SGT/SDL	Pharmacology (L)	Clinical Posting (P) with Three Hour Skill Lab Posting Every week		Forensic Medicine/ Community Medicine - SGT/SDL/Integrated /Practical		
Friday	Obstetrics & Gynecology (L)	Pathology (L)	Clinical Posting (P) with Three Hour Skill Lab Posting Every week		Pathology - SDL/SGT/ Practical/Integrated		
Saturday	Pharmacology - SGT/SDL	Pathology (L)	Clinical Posting (P) with Three Hour Skill Lab Posting Every week		Alignment & Integration, Pandemic Module and AETCOM Session		1 week Holi Vacations (10.03.2025 to 15.03.2025); 1 week Diwali Vacations(28.10.24-02.11.24); 3 weeks each for 1st Terminal (06.01.2025 to 25.01.2025), 2nd Terminal (07.04.2025 to 26.04.2025) and Pre-University Exam (07.07.2025 onwards); Four Days Every Year - Annual Sports (Weekend / Holidays).
	Every 2nd Tuesday - Forensic Medicine	Every 4th Wednesday - Forensic Medicine	Clinical Posting - 9 weeks in General Medicine; 7 weeks in General Surgery, Obstetrics & Gynecology, 4 weeks in Community Medicine and Pediatrics; 2 weeks in Orthopedics, Dermatology and One week in Dentistry		Every 1st & 3rd Thursday - Forensic Medicine; Every 2nd & 4th Thursday - Community Medicine		
SGT - Small Group Teaching Includes: Tutorials, Seminars, Integrated Learning; SDL - Self Directed Learning; L - Lecture; P - Practical				1st Wednesday - Microbiology; 2nd Wednesday - Pharmacology; 3rd Wednesday - Forensic Medicine (Odd Months) & Community Medicine (Even Months); 4th Wednesday - Pathology			

Week 1

Day/Time	8:00-9:00 am	9:00-10:00 am	10:00 am - 1:00 pm	1:00-2:00pm	2:00-3:00pm	3:00-4:00pm	Date
Monday	Medicine (L) IM01.1: Describe and discuss the epidemiology, pathogenesis clinical evolution and course of common causes of heart disease including: rheumatic/ valvular, ischemic, hypertrophic inflammatory	Microbiology (L)- MI 1.1.: Describe the different causative agents of Infectious iseases, the methods used in their detection, and discuss the role of microbes in health and disease	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology; History Taking	LUNCH	Microbiology - SGT/SDL/Practical /Integrated- Microbiology-MI 1.2: Perform and identify the different causative agents of Infectious diseases by Gram Stain, ZN stain and stool routine microscopy		02.09.24
Tuesday	Community Medicine (L) /-Community Medicine (5.1-Describe the common sources of various nutrients and special nutritional requirements according to age, sex, activity, physiological conditions) ,(5.3-Define and describe common nutrition related health disorders (including macro-PEM, Micro-iron, Zn, iodine, Vit. A), their control and management Forensic Medicine (L)	Pharmacology (L): Ph 1.1 -Define and describe the principles of pharmacology and pharmacotherapeutics	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology; History Taking		Pharmacology - SGT/SDL/Practical/Integrated: Ph 2.1 - Demonstrate understanding of the use of various dosage forms (oral/local/parenteral; solid/liquid)		03.09.24
Wednesday	SU 1.1 Describe basic concepts of homeostasis	Microbiology/ Forensic Medicine (L)- MI 1.1.: Describe the different causative agents of Infectious diseases, the methods used in their detection, and discuss the role of microbes in health and disease	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology; History Taking		Microbiology - SGT/SDL/Practical /Integrated- Microbiology-MI 1.2: Perform and identify the different causative agents of Infectious diseases by Gram Stain, ZN stain and stool routine microscopy	AETCOM Session 2.1 - The Foundation of Communication-2 : Department of Pharmacology	04.09.24

Week 2

Thursday	Pathology - SGT/SDL: PA 1.1 Describe the role of a pathologist in diagnosis and management of disease, PA 1.2 Enumerate common definitions and terms used in Pathology PA1.3 Describe the history and evolution of Pathology	Pharmacology (L): Ph 1.2 - Describe the basis of Evidence based medicine and Therapeutic drug monitoring	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: History Taking	Forensic Medicine: FM 2.8: Describe and discuss postmortem changes including signs of death, cooling of body, post-mortem lividity, rigor mortis, cadaveric spasm, cold stiffening and heat stiffening.	05.09.24
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology:- 1. Demographic and Vital Statistics: OG 1.1A-Define and discuss birth rate, maternal mortality and morbidity.	Pathology (L)-Pathology (L) PA2.6 Describe and discuss cellular adaptations: atrophy, hypertrophy, hyperplasia, metaplasia, dysplasia	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: History Taking	Pathology - SDL/SGT/ Practical/Integrated PA2.1. Demonstrate knowledge of the causes, mechanisms, types and effects of cell injury and their clinical significance , PA2.2 Describe the etiology of cell injury. Distinguish between reversible-irreversible injury: mechanisms; morphology of cell injury	06.09.24
Saturday	Pharmacology - SGT/SDL: Ph 1.2 - Describe the basis of Evidence based medicine and Therapeutic drug monitoring	Pathology (L)-Pathology (L) PA 2.4. Describe and discuss Cell death- types, mechanisms, necrosis, apoptosis (basic as contrasted with necrosis), autolysis	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: History Taking	Pandemic Module: 2.1 Infection Control - Microbiology Department	07.09.24
Monday	Medicine (L) IM01.1: Describe and discuss the genetic basis of some forms of heart failure	Microbiology (L)-MI 1.6 Describe the mechanism of drug resistance, and the methods of antimicrobial susceptibility testing and monitoring of antimicrobial therapy	Clinical Posting (P): In Three Groups(with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination	Microbiology - SGT/SDL/Practical /Integrated Microbiology-MI 1.4: Classify and describe the different methods of sterilization and disinfection. Discuss the application of the different methods in the laboratory, in clinical and surgical practice	09.09.24
Tuesday	Forensic Medicine (L) FM2.1: Demonstrate knowledge of basics of Forensic Medicine like definitions of Forensic medicine, Clinical Forensic Medicine, Forensic Pathology, State Medicine, Legal Medicine and Medical Jurisprudence; FM 1.3: Describe legal procedures including Criminal Procedure Code, Indian Penal Code, Indian Evidence Act, Civil and Criminal Cases	Pharmacology (L): Ph 1.3 & 1.4: Enumerate and identify drug formulations and drug delivery systems;Describe absorption, distribution, metabolism & excretion of drugs	Clinical Posting (P): In Three Groups: Medicine; Surgery and Obstetrics & Gynecology: General Examination	Pharmacology - SGT/SDL/Practical/Integrated: Ph 2.1 - Demonstrate understanding of the use of various dosage forms (oral/local/parenteral; solid/liquid)	10.09.24
Wednesday	SU 1.1,Describe Basic concepts of homeostasis, enumerate the metabolic	Microbiology (L)-MI 1.3 Describe the epidemiological basis of common infectious diseases	Clinical Posting (P): In Three Groups: Medicine; Surgery and Obstetrics & Gynecology: General Examination	Pharmacology - SGT/SDL/Practical/Integrated: Ph 2.1 -Demonstrate understanding of the use of various dosage forms (oral/local/parenteral; solid/liquid)	AETCOM Session 2.1 - The Foundation of Communication-2 : Department of Pharmacology 11.09.24
Thursday	Pathology - SGT/SDL: PA PA 1.2 Enumerate common definitions and terms used in Pathology PA1.3 Describe the history and evolution of Pathology	Pharmacology (L): Ph 1.2 - Describe the basis of Evidence based medicine and Therapeutic drug monitoring	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: History Taking	Community Medicine -(5.2-Describe and demonstrate the correct method of performing a nutritional assessment of individuals, families and the community by using the appropriate method) SGT/SDL/Integrated /Practical	12.09.24
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology:- Demographic and Vital Statistics: OG 1.1B -Define and discuss birth rate, maternal mortality and morbidity.	Pathology (L)-Pathology (L)PA 2.3. Intracellular accumulation of fats, proteins, carbohydrates, pigments PA2.5 Describe and discuss pathologic calcifications, gangrene.	Clinical Posting (P): In Three Groups: Medicine; Surgery and Obstetrics & Gynecology: General Examination	Pathology - SDL/SGT/ Practical/Integrated -PA2.8. Identify and describe various forms of cell injuries, their manifestations and consequences in gross and microscopic specimens.	13.09.24
Saturday	Pharmacology - SGT/SDL: Ph 1.4 - Describe absorption, distribution, metabolism & excretion of drugs	Pathology (L)-Pathology - SGT/SDL PA2.7. Describe and discuss the mechanisms of cellular aging and apoptosis.	Clinical Posting (P): In Three Groups: Medicine; Surgery and Obstetrics & Gynecology: General Examination	Pandemic Module: 2.1 Infection Control - Microbiology Department	14.09.24
Monday	Medicine (L) IM01.3: Describe and discuss the aetiology microbiology pathogenies and clinical evolution of rheumatic fever, criteria, degree of rheumatic activity and rheumatic valvular heart disease and its complications including infective endocarditis	Microbiology (L)-MI1.7: Describe the immunological mechanisms in health	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination	Microbiology - SGT/SDL/Practical /Integrated -MI 1.5: Choose the most appropriate method of sterilization and disinfection to be used in specific situations in the laboratory, in clinical and surgical practice	16.09.24

LUNCH

Week 3

Tuesday	Community Medicine (L)-Community Medicine (5.3- Define and describe common nutrition related health disorders (including macro-PEM, Micro-iron, Zn, iodine, Vit. A) their control and management)	Pharmacology (L): Ph 1.4 - Describe absorption, distribution, metabolism & excretion of drugs	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Wednesday	SU1.2, Describe the factors that affect metabolic response to injury	Microbiology (L)-MI 1.8: Describe the mechanisms of immunity and response of the host immune system to infections	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Thursday	Pathology - SGT/SDL-PA4.1 Define and describe the general features of acute and chronic inflammation including stimuli, vascular and cellular events	Pharmacology (L): Ph 1.5 - Describe general principles of mechanism of drug action	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology Demographic and Vital Statistics:- OG 1.1C-Define and discuss birth rate, maternal mortality and morbidity. OG 1.2A - Define and discuss perinatal mortality and morbidity including perinatal and neonatal mortality and morbidity audit.	Pathology (L)-PA4.2 Enumerate and describe the mediators of acute inflammation;	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Saturday	Pharmacology - SGT/SDL: Ph 1.4 - Describe absorption, distribution, metabolism & excretion of drugs	Pathology (L)-Pathology - SGT/SDL PA4.3 Define and describe chronic inflammation including causes, types, non-specific and granulomatous; and enumerate examples of each	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Monday	Medicine (L) IM01.4 Stage heart failure	Microbiology (L)- MI 1.9: Discuss the immunological basis of vaccines and describe the Universal Immunisation schedule	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Tuesday	Community Medicine (L)-Community Medicine (5.3- Define and describe common nutrition related health disorders (including macro-PEM, Micro-iron, Zn, iodine, Vit. A) their control and management)	Pharmacology (L): Ph 1.6 - Describe principles of Pharmacovigilance & ADR reporting systems	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Wednesday	SU 1.3 Describe basic concepts of perioperative care; SU 2.1 Describe pathophysiology of shock and types of shock	SGT/SDL Session /forensic -FM 2.9: Describe putrefaction, mummification, Adipocere and maceration.	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Thursday	Pathology - SGT/SDL-PA5.1 Define and describe the process of repair and regeneration including wound healing and its types	Pharmacology (L): Ph - 1.7 - Define, identify and describe the management of adverse drug reactions (ADR)	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology OG 1.2B - Define and discuss perinatal mortality and morbidity including perinatal and neonatal mortality and morbidity audit.	Pathology (L)-PA6.4 Define and describe normal haemostasis and the etiopathogenesis and consequences of thrombosis PA6.5 Define and describe embolism and its causes and common types	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: History Taking
Saturday	Pharmacology - SGT/SDL: Ph - 1.7 - Define, identify and describe the management of adverse drug reactions (ADR); Ph 1.9 - Describe nomenclature of drugs i.e. generic, branded drugs	Pathology (L)-PA6.1 Define and describe edema, its types, pathogenesis and clinical correlations; PA6.2 Define and describe hyperemia, congestion, hemorrhage	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination

LUNCH

LUNCH

Pharmacology - SGT/SDL/Practical/Integrated: Ph 2.2 - Prepare oral rehydration solution from ORS packet and explain its use	17.09.24	
SGT/SDL Session /forensic - FM: 2.9: Describe putrefaction, mummification, Adipocere and maceration.	AETCOM Session 2.1 - The Foundation of Communication-2 : Department of Pharmacology	18.09.24
Forensic Medicine-FM: 2.9: Adipocere and maceration. Discuss estimation of time since death./ Community Medicine - SGT/SDL/Integrated /Practical	19.09.24	
Pathology - SDL/SGT/ Practical/Integrated -PA3.1 Describe the pathogenesis and pathology of amyloidosis PA3.2 Identify and describe amyloidosis in a pathology specimen	20.09.24	
AETCOM Session 2.1 - The Foundation of Communication- 2 : Department of Pharmacology	21.09.24	
Microbiology - SGT/SDL/Practical /Integrated-MI 1.10: Describe the immunological mechanisms in immunological disorder (hypersensitivity, autoimmune disorders and immunodeficiency states) and discuss the laboratory methods used in detection.	23.09.24	
Pharmacology - SGT/SDL/Practical/Integrated: Ph 2.2 - Prepare oral rehydration solution from ORS packet and explain its use	24.09.24	
Pathology - SGT/SDL-PA5.1 Define and describe the process of repair and regeneration including wound healing and its types	AETCOM Session 2.2: Foundation of Bioethics - Department of Microbiology	25.09.24
Community Medicine -(5.2-Describe and demonstrate the correct method of performing a nutritional assessment of individuals, families and the community by using the appropriate method) SGT/SDL/Integrated /Practical	26.09.24	
Pathology - SDL/SGT/ Practical/Integrated -PA4.4 Identify and describe acute and chronic inflammation in gross and microscopic specimens; PA6.7 Identify and describe the gross and microscopic features of infarction in a pathologic specimen	27.09.24	
Pandemic Module: 2.2: Emerging and Re-emerging infection - Community Medicine	28.09.24	

Week 4

Week 5	Monday	Medicine (L) IM01.5: Describe, discuss and differentiate the processes involved in R Vs L heart failure, systolic vs diastolic failure	Microbiology (L)-MI 1.11: Describe the immunological mechanisms of transplantation and tumor immunity; (L)-MI 2.1: Describe the etiologic agents in rheumatic fever and their diagnosis	Clinical Posting (P): In Three Groups(with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: History Taking	LUNCH	Microbiology - SGT/SDL/Practical /Integrated-MI 2.3: Identify the microbial agents causing Rheumatic Heart Disease & infective Endocarditis; MI 2.2: Describe the classification etio-pathogenesis, clinical features and discuss the diagnostic modalities of Infective endocarditis	30.09.24	
	Tuesday	Community Medicine (L)-Community Medicine (5.3- Define and describe common nutrition related health disorders (including macro-PEM, Micro-iron, Zn, iodine, Vit. A) their control and management)	Pharmacology (L): Ph 1.6 - Describe principles of Pharmacovigilance & ADR reporting systems	Clinical Posting (P): In Three Groups(with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: History Taking		Pharmacology - SGT/SDL/Practical/Integrated: Ph 2.2 - Prepare oral rehydration solution from ORS packet and explain its use	01.10.24	
	Wednesday	HOLIDAY				HOLIDAY	02.10.24	
	Thursday	Pathology - SGT/SDL-:PA6.3 Define and describe shock, its pathogenesis and its stages	Pharmacology (L): Ph 1.10 - Describe parts of a correct, complete and legible generic prescription. Identify errors in prescription and correct appropriately	Clinical Posting (P): In Three Groups(with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: History Taking		Forensic Medicine-FM 2.11: Describe and discuss autopsy procedures including post-mortem examination, different types of autopsies, aims and objectives of post-mortem examination.	03.10.24	
	Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology OG 1.2B - Define and discuss perinatal mortality and morbidity including perinatal and neonatal mortality and morbidity audit.	Pathology (L)-PA6.4 Define and describe normal haemostasis and the etiopathogenesis and consequences of thrombosis PA6.5 Define and describe embolism and its causes and common types	Clinical Posting (P): In Three Groups(with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: History Taking		Pathology - SDL/SGT/ Practical/Integrated -PA4.4 Identify and describe acute and chronic inflammation in gross and microscopic specimens; PA6.7 Identify and describe the gross and microscopic features of infarction in a pathologic specimen	04.10.24	
	Saturday	Pharmacology - SGT/SDL: Ph 1.8 - Identify and describe the management of drug interactions; Ph 1.11 - Describe various routes of drug administration, eg., oral, SC, IV, IM, SL	Pathology (L)-PA6.6 Define and describe Ischaemia/infarction its types, etiology, morphologic changes and clinical effects	Clinical Posting (P): In Three Groups(with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: History Taking		Pandemic Module: 2.2: Emerging and Re-emerging infection - Community Medicine	05.10.24	
Week 6	Monday	Medicine (L) IM01.6: Describe and discuss the compensatory mechanisms involved in heart failure including cardiac remodelling and neurohormonal adaptations	Microbiology (L)- MI 2.4: List the common microbial agents causing anemia	Clinical Posting (P): In Three Groups(with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: History Taking	LUNCH	Microbiology - SGT/SDL/Practical /Integrated Microbiology-MI 2.6: Identify the causative agent of malaria and filariasis	07.10.24	
	Tuesday	Community Medicine (L)-Community Medicine (5.3- Define and describe common nutrition related health disorders (including macro-PEM, Micro-iron, Zn, iodine, Vit. A) their control and management)	Pharmacology (L): Ph 1.6 - Describe principles of Pharmacovigilance & ADR reporting systems	Clinical Posting (P): In Three Groups(with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: History Taking		Pharmacology - SGT/SDL/Practical/Integrated: Ph 2.2 - Prepare oral rehydration solution from ORS packet and explain its use	08.10.24	
	Wednesday	SU 2.1 SHOCK-Principles of resuscitation including fluid management and monitoring	Microbiology (L)- MI 2.5: Describe the etio-pathogenesis and discuss the clinical evolution and the laboratory diagnosis of kalaazar, malaria, filariasis and other common parasites prevalent in India	Clinical Posting (P): In Three Groups(with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: History Taking		Pharmacology (L) - Ph 1.12 - Calculate the dosage of drugs using appropriate formulae for an individual patient, including children, elderly and patient with renal dysfunction.	AETCOM Session 2.2: Foundation of Bioethics - Department of Microbiology	09.10.24
	Thursday	Pathology - SGT/SDL-PA7.1 Define and classify neoplasia. Describe the characteristics of neoplasia including gross, microscopy, biologic, behaviour and spread. Differentiate between benign from malignant neoplasm.	Pharmacology (L) - Ph 1.12 - Calculate the dosage of drugs using appropriate formulae for an individual patient, including children, elderly and patient with renal dysfunction.	Clinical Posting (P): In Three Groups(with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: History Taking		Community Medicine -(5.2-Describe and demonstrate the correct method of performing a nutritional assessment of individuals, families and the community by using the appropriate method) SGT/SDL/Integrated /Practical	10.10.24	
	Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology OG 1.2C - Define and discuss perinatal mortality and morbidity including perinatal and neonatal mortality and morbidity audit.	Pathology (L)-(L):PA7.2 Describe the molecular basis of cancer	Clinical Posting (P): In Three Groups(with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: History Taking		Pathology - SDL/SGT/ Practical/Integrated -:PA7.4 Describe the effects of tumor on the host including paraneoplastic syndrome (laboratory diagnosis of cancer)	11.10.24	
	Saturday	HOLIDAY				HOLIDAY	12.10.24	

Week 7

Monday	Medicine (L) IM01.7: Enumerate, describe and discuss the factors that exacerbate heart failure including ischemia, arrhythmias, anemia, thyrotoxicosis, dietary factors drugs etc	Microbiology (L)-MI2.7: Describe the epidemiology, the etio- pathogenesis, evolution complications, opportunistic infections, diagnosis, prevention and the principles of management of HIV	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination	LUNCH	Microbiology - SGT/SDL/Practical /Integrated-MI 3.2 : Identify the common etiologic agents of diarrhea and dysentery	14.10.24	
Tuesday	Community Medicine (L)-5.3-Define and describe common nutrition related health disorders (including macro-PEM, Micro-iron, Zn, iodine, Vit. A), their control and management	Pharmacology (L): Ph 1.14 - Describe mechanism of action, types, doses, side effects, indications and contraindications of cholinergic and anticholinergic drugs	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination		Pharmacology - SGT/SDL/Practical/Integrated: Ph 1.10 - Describe parts of a correct, complete and legible generic prescription. Identify errors in prescription and correct appropriately; Ph 1.12 - Calculate the dosage of drugs using appropriate formulae for an individual patient, including children, elderly and patient with rena dysfunction.; Ph 2.3 - Demonstrate the appropriate setting up of an intravenous drip in a simulated environment	15.10.24	
Wednesday	SU 2.2 Describe clinical features of shock and its appropriate treatment	Microbiology (L)-MI 3.1: Describe the epidemiology, morphology, pathogenesis, clinical features and diagnostic modalities of these agents	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination		SGT/SDL Session /forensic-FM 2.12: Describe the legal requirements to conduct post-mortem examination and procedures to conduct medico-legal post-mortem examination.	AETCOM Session 2.3: Health Care as a Right - Department of Microbiology	16.10.24
Thursday	Pathology - SGT/SDL-PA7.3 Enumerate carcinogens and describe the process of carcinogenesis	Pharmacology (L): Ph 1.13 - Describe mechanism of action, types, doses, side effects, indications and contraindications of adrenergic and anti-adrenergic drugs	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination		Forensic Medicine-FM: 2.14: Describe and discuss examination of clothing, preservation of viscera on post-mortem examination for chemical analysis and other medico-legal purposes, post-mortem artifacts. SGT/SDL/Integrated /Practical		17.10.24
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology OG 1.2D - Define and discuss perinatal mortality and morbidity including perinatal and neonatal mortality and morbidity audit.	Pathology (L)-(L)PA7.4 Describe the effects of tumor on the host including paraneoplastic syndrome	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination		Pathology - SDL/SGT/ Practical/Integrated -PA8.1 Describe the diagnostic role of cytology and its application in clinical care PA8.2 Describe the basis of exfoliative cytology including the technique & stains used PA8.3 Observe a diagnostic cytology and its staining and interpret the specimen PA23.1 Describe abnormal urinary findings in disease states and identify and describe common urinary abnormalities in a clinical specimen		18.10.24
Saturday	Pharmacology - SGT/SDL: Ph 1.13 - Describe mechanism of action, types, doses, side effects, indications and contraindications of adrenergic and anti-adrenergic drugs	Pathology (L)-PA7.5 Describe immunology and the immune response to cancer	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination		Alignment & Integration - Jaundice - PY 2.7 & 2.3: Describe and discuss the synthesis and functions of Hemoglobin and explain its breakdown. Describe variants of hemoglobin; CM 3.3: Describe the aetiology and basis of water borne diseases /jaundice/hepatitis/ diarrheal diseases; PA25.1: Describe bilirubin metabolism, enumerate the etiology and pathogenesis of jaundice, distinguish between direct and indirect hyperbilirubinemia		19.10.24
Monday	Medicine (L) IM01.8: Describe and discuss the pathogenesis and development of common arrhythmias involved in heart failure particularly atrial fibrillation	Microbiology (L)-MI 3.3: Describe the enteric fever pathogens and discuss the evolution of the clinical course and the laboratory diagnosis of the diseases caused by them	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination		Microbiology - SGT/SDL/Practical /Integrated: MI 3.4: Identify the different modalities for diagnosis of enteric fever. Choose the appropriate test related to the duration of illness		21.10.24

Week 8

LUNCH

Tuesday	SGT/SDL Session Community-(5.2-Describe and demonstrate the correct method of performing a nutritional assessment of individuals, families and the community by using the appropriate method; (5.5- Describe the methods of nutritional surveillance, principles of nutritional education and rehabilitation in the context of socio- cultural factors.), (5.6- Enumerate and discuss the National Nutrition Policy, important national nutritional Programs including the Integrated Child Development Services Scheme (ICDS) etc) /)	Pharmacology (L): Ph 1.14 - Describe mechanism of action, types, doses, side effects, indications and contraindications of cholinergic and anticholinergic drugs	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination	Pharmacology - SGT/SDL/Practical/Integrated: Ph 2.3 - Demonstrate the appropriate setting up of an intravenous drip in a simulated environment; Ph. 2.4 - Demonstrate the correct method of calculation of drug dosage in patients including those used in special situations	22.10.24	
Wednesday	SU 2.3 [L] Communicate and counsel patient and families about treatment and prognosis of shock demonstrating empathy and care [A/C SH]	Microbiology/ Forensic Medicine (L)- Forensic Medicine (L) Civil and Criminal Cases, Inquest (Police Inquest and Magistrate's Inquest), Cognizable and Non-cognizable offences.	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination	SGT/SDL Session Community-(5.2-Describe and demonstrate the correct method of performing a nutritional assessment of individuals, families and the community by using the appropriate method)	AETCOM Session 2.3: Health Care as a Right - Department of Microbiology	23.10.24
Thursday	Pathology - SGT/SDL-PA9.1 Describe the principles and mechanisms involved in immunity	Pharmacology (L): Ph 1.15 - Describe mechanism/s of action, types, doses, side effects, indications and contraindications of skeletal muscle relaxants	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination	Community Medicine -(5.2-Describe and demonstrate the correct method of performing a nutritional assessment of individuals, families and the community by using the appropriate method) SGT/SDL/Integrated /Practical		24.10.24
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology OG1.3A - Define and discuss still birth and abortion. -	Pathology (L)-(L)PA9.2 Describe the mechanism of hypersensitivity reactions; -PA9.4 Define autoimmunity. Enumerate autoimmune disorders	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination	Pathology - SDL/SGT/ Practical/Integrated -PA9.5 Define and describe the pathogenesis of systemic Lupus Erythematosus PA9.7 Define and describe the pathogenesis of other common autoimmune diseases		25.10.24
Saturday	Pharmacology - SGT/SDL: Ph 1.13 - Describe mechanism of action, types, doses, side effects, indications and contraindications of adrenergic and anti-adrenergic drugs	Pathology (L)-PA7.5 Describe immunology and the immune response to cancer	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination	Alignment & Integration - Jaundice - PY 2.7 & 2.3: Describe and discuss the synthesis and functions of Hemoglobin and explain its breakdown. Describe variants of hemoglobin; CM 3.3: Describe the aetiology and basis of water borne diseases /jaundice/hepatitis/ diarrheal diseases; PA25.1: Describe bilirubin metabolism, enumerate the etiology and pathogenesis of jaundice, distinguish between direct and indirect hyperbilirubinemia		26.10.24

Diwali Vacations 28.10.24-02.11.24

Monday	Medicine (L) IM01.9: Describe and discuss the clinical presentation and features, diagnosis, recognition and management of acute rheumatic fever	Microbiology (L)-MI 3.5: Enumerate the causative agents of food poisoning and discuss the pathogenesis, clinical course and laboratory diagnosis	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: History Taking	Microbiology - SGT/SDL/Practical /Integrated/MI 3.4: Identify the different modalities for diagnosis of enteric fever. Choose the appropriate test related to the duration of illness		04.11.24
Tuesday	SGT/SDL Session Community-(5.2-Describe and demonstrate the correct method of performing a nutritional assessment of individuals, families and the community by using the appropriate method; (5.5- Describe the methods of nutritional surveillance, principles of nutritional education and rehabilitation in the context of socio- cultural factors.), (5.6- Enumerate and discuss the National Nutrition Policy, important national nutritional Programs including the Integrated Child Development Services Scheme (ICDS) etc) /)	Pharmacology (L): Ph 1.14 - Describe mechanism of action, types, doses, side effects, indications and contraindications of cholinergic and anticholinergic drugs	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: History Taking	Pharmacology - SGT/SDL/Practical/Integrated: Ph 2.3 - Demonstrate the appropriate setting up of an intravenous drip in a simulated environment; Ph. 2.4 - Demonstrate the correct method of calculation of drug dosage in patients including those used in special situations		05.11.24

Week 9

Wednesday	SU 3.1 K/KH [L] Describe the indications and appropriate use of blood and blood products and complications of blood transfusion	Microbiology (L)-MI 3.6: Describe the etio-pathogenesis of Acid peptic disease (APD) and the clinical course. Discuss the diagnosis and management of the causative agent of APD	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: History Taking
Thursday	Pathology - SGT/SDL-PA9.3 Describe the involved HLA system and the immune principles involved in transplant and mechanism of transplant rejection	Pharmacology (L): Ph 1.16 - Describe mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs which act by modulating autacoids, including: anti-histaminics, 5-HT modulating	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: History Taking
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology OG1.3B - Define and discuss still birth and abortion.	Pathology (L)-PA10.3 Define and describe the pathogenesis and pathology of leprosy	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: History Taking
Saturday	Pharmacology - SGT/SDL: Ph 1.16 - Describe mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs which act by modulating autacoids, including: anti-histaminics, 5-HT modulating drugs, NSAIDs, drugs for gout, anti-rheumatic drugs, drugs for migraine	Pathology (L)-PA10.4 Define and describe the pathogenesis and pathology of common bacterial, viral, protozoal and helminthic diseases	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: History Taking
Monday	Medicine (L) IM01.10: Elicit document and present an appropriate history that will establish the diagnosis, cause and severity of heart failure including: presenting complaints, precipitating and exacerbating factors, risk factors exercise tolerance, changes in sleep patterns, features suggestive of infective endocarditis	Microbiology (L)-MI 3.7 : Describe the epidemiology, the etio-pathogenesis and discuss the viral markers in the evolution of Viral hepatitis. Discuss the modalities in the diagnosis and prevention of viral hepatitis	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Tuesday	Forensic Medicine (L) FM 1.4: Describe Courts in India and their powers: Supreme Court, High Court, Sessions court, Magistrate's Court.	Pharmacology (L): Ph 1.16 - Describe mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs which act by modulating autacoids, including: anti-histaminics, 5-HT modulating drugs, NSAIDs, drugs for gout, anti-rheumatic drugs, drugs for migraine	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Wednesday	SU 3.2 S SH [SGD] Observe blood transfusions	Microbiology (L)-MI 4.1: Enumerate the microbial agents causing anaerobic infections.	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination

LUNCH

LUNCH

Microbiology (L)- MI 3.7 : Describe the epidemiology, the etio-pathogenesis and discuss the viral markers in the evolution of Viral hepatitis. Discuss modalities in the diagnosis and prevention of viral hepatitis	AETCOM Session 2.4: Working in Health Care Team: Department of Pathology	06.11.24
Forensic Medicine-FM 2.15: Describe special protocols for conduction of medico-legal autopsies in cases of death in custody or following violation of human rights as per National Human Rights Commission Guidelines./ Community Medicine - SGT/SDL/Integrated /Practical		07.11.24
Pathology - SDL/SGT/ Practical/Integrated -PA9.6 Define and describe the pathogenesis and pathology of HIV and AIDS (integration with micro and medicine)		08.11.24
Pandemic Module: 2.3 - Sample Collection - Microbiology Department		09.11.24
Microbiology - SGT/SDL/Practical /Integrated MI 3.8: Choose the appropriate laboratory test in the diagnosis of viral hepatitis with emphasis on viral markers		11.11.24
Pharmacology - SGT/SDL/Practical/Integrated: Ph. 2.4 - Demonstrate the correct method of calculation of drug dosage in patients including those used in special situations		12.11.24
Pharmacology (L): Ph 1.16 - Describe mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs which act by modulating autacoids, including: anti-histaminics, 5-HT modulating drugs, NSAIDs, drugs for gout, anti-rheumatic drugs, drugs for migraine	AETCOM Session 2.4: Working in Health Care Team: Department of Pathology	13.11.24

Week 10

Week 11

Thursday	Pathology - SGT/SDL-PA9.3 Describe the involved HLA system and the immune principles involved in transplant and mechanism of transplant rejection; PA11.3 Describe the pathogenesis of common storage disorders in infancy and childhood	Pharmacology (L): Ph 1.16 - Describe mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs which act by modulating autacoids, including: anti-histaminics, 5-HT modulating drugs, NSAIDs, drugs for gout, anti-rheumatic drugs, drugs for migraine	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Friday	HOLIDAY		
Saturday	Pharmacology - SGT/SDL: Ph 1.16 - Describe mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs which act by modulating autacoids, including: anti-histaminics, 5-HT modulating drugs, NSAIDs, drugs for gout, anti-rheumatic drugs, drugs for migraine	Pathology (L)-PA11.1 Describe the pathogenesis and features of common cytogenetic abnormalities and mutations in childhood /congenital anomalies PA11.2 Describe the pathogenesis and pathology of tumor and tumour like conditions in infancy and childhood Pathology (L)	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Monday	Medicine (L) IM01.11: Perform and demonstrate a systematic examination based on the history that will help establish the diagnosis and estimate its severity including: measurement of pulse, blood pressure and respiratory rate, jugular venous forms and pulses, peripheral pulses, conjunctiva and fundus, lung, cardiac examination including palpation and auscultation with identification of heart sounds and murmurs, abdominal distension and splenic palpation	Microbiology (L)-MI 4.2: Describe the etiopathogenesis, clinical course and discuss the laboratory diagnosis of bone & joint infections	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Tuesday	Community Medicine (5.6-Enumerate and discuss the National Nutrition Policy, important national nutritional Programs including the Integrated Child Development Services Scheme (ICDS) etc)	Pharmacology (L): Ph 1.17 - Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of local anesthetics	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Wednesday	SU 3.3 Counsel patients family/friends for blood transfusions and blood donation [A/C SH DOAP]	Microbiology (L)-MI4.3: Describe the etio-pathogenesis of infections of skin and soft tissue and discuss the clinical course and the laboratory diagnosis	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Thursday	Pathology - SGT/SDL-PA12.2 Describe the pathogenesis of disorders caused by protein calorie malnutrition and starvation	Pharmacology (L): Ph 1.18 - Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of general anaesthetics, and pre-anesthetic medications	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology OG1.3D - Define and discuss still birth and abortion. OG1.3C - Define and discuss still birth and abortion.	Pathology (L)--PA12.1 Enumerate and describe the pathogenesis of disorders caused by air pollution, tobacco and alcohol;	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Saturday	Pharmacology - SGT/SDL: Ph 1.16 - Describe mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs which act by modulating autacoids, including: anti-histaminics, 5-HT modulating drugs, NSAIDs, drugs for gout, anti-rheumatic drugs, drugs for migraine	Pathology (L)-PA12.3 Describe the pathogenesis of obesity and its consequences	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination

LUNCH

Community Medicine -(5.2-Describe and demonstrate the correct method of performing a nutritional assessment of individuals, families and the community by using the appropriate method) SGT/SDL/Integrated /Practical	14.11.24	
HOLIDAY		
Pandemic Module: 2.3 - Sample Collection - Microbiology Department	16.11.24	
Microbiology - SGT/SDL/Practical /Integrated-MI 4.2: Describe the etiopathogenesis, clinical course and discuss the laboratory diagnosis of bone & joint infections	18.11.24	
Pharmacology - SGT/SDL/Practical/Integrated: Ph. 2.4 - Demonstrate the correct method of calculation of drug dosage in patients including those used in special situations	19.11.24	
SGT/SDL Session /Forensic-FM 2.17: Describe and discuss examination of mutilated bodies or fragments, charred bones and bundle of bones.	AETCOM Session 2.4: Working in Health Care Team: Department of Pathology	20.11.24
Forensic Medicine-FM 2.20: Mechanical asphyxia: Define, classify and describe asphyxia and medico-legal interpretation of post-mortem findings in asphyxial deaths. - SGT/SDL/Integrated /Practical	21.11.24	
Pathology - SDL/SGT/ Practical/Integrated -PA10.1 Define and describe the pathogenesis and pathology of malaria PA10.2 Define and describe the pathogenesis and pathology of cysticercosis; PA13.2 Describe the role of anticoagulants in hematology PA13.4 Enumerate and describe the investigation of anemia (Hemoglobin Estimation, CBC)	22.11.24	
AETCOM Session 2.4: Working in Health Care Team: Department of Pathology	23.11.24	

Week 12

Monday	Medicine (L) IM01.12: Demonstrate peripheral pulse, volume, character, quality and variation in various causes of heart failure	Microbiology (L)-MI 5.1: Describe the etiopathogenesis, clinical course and discuss the laboratory diagnosis of meningitis	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Tuesday	Community Medicine -(3.7-Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures) SGT/SDL/Integrated /Practical	Pharmacology (L): Ph 1.19 - Describe the mechanism/s of action, types, doses, side effects,indications and contraindications of the drugs which act on CNS,(including anxiolytics, sedatives & hypnotics, anti-psychotic, anti-depressant drugs, anti-maniacs, opioid agonists and antagonists,drugs used for neurodegenerative disorders, anti-epileptics drugs)	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Wednesday	SU 4.1 [K KH L] Elicit document and present history in case of burns and perform physical examinations.Describe pathophysiology of burns	Forensic Medicine (L)-Forensic Medicine (L) FM 1.4: Labour Court, Family Court, Executive Magistrate Court and Juvenile Justice Board.	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Thursday	Pathology - SGT/SDL-PA13.1 Describe hematopoiesis and extramedullary hematopoiesis PA13.3 Define and classify anemia	Pharmacology (L): Ph 1.19 - Describe the mechanism/s of action, types, doses, side effects,indications and contraindications of the drugs which act on CNS,(including anxiolytics, sedatives & hypnotics, anti-psychotic, anti-depressant drugs, anti-maniacs, opioid agonists and antagonists,drugs used for neurodegenerative disorders, anti-epileptics drugs)	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology Physiology of conception. OG 3.1A - Describe the physiology of ovulation, menstruation, fertilization, implantation and gametogenesis.	Pathology (L)-PA14.1 Describe iron metabolism	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Saturday	Pharmacology - SGT/SDL: Ph 1.19 - Describe the mechanism/s of action, types, doses, side effects,indications and contraindications of the drugs which act on CNS,(including anxiolytics, sedatives & hypnotics, anti-psychotic, anti-depressant drugs, anti-maniacs, opioid agonists and antagonists,drugs used for neurodegenerative disorders, anti-epileptics drugs)	Pathology (L)-PA14.2 Describe the etiology, investigations and differential diagnosis of microcytic hypochromic anemia	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Monday	Medicine (L) IM01.13: Measure the blood pressure accurately, recognise and discuss alterations in blood pressure in valvular heart disease and other causes of heart failure and cardiac tamponade	Microbiology (L)-MI 5.1: Describe the etiopathogenesis, clinical course and discuss the laboratory diagnosis of meningitis	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination

LUNCH

Microbiology - SGT/SDL/Practical /Integrated/MI 5.3: Identify the microbial agents causing meningitis	25.11.24	
Pharmacology - SGT/SDL/Practical/Integrated: Ph 1.19 - Describe the mechanism/s of action, types, doses, side effects,indications and contraindications of the drugs which act on CNS,(including anxiolytics, sedatives & hypnotics, anti-psychotic, anti-depressant drugs, anti-maniacs, opioid agonists and antagonists,drugs used for neurodegenerative disorders, anti-epileptics drugs)	26.11.24	
Pathology (L)-PA14.1 Describe iron metabolism	AETCOM Session 2.4: Working in Health Care Team: Department of Pathology	27.11.24
Community Medicine -(3.7-Identify and describe the identifying features and life cycles of vectors of Public Health importance and their control measures) SGT/SDL/Integrated /Practical	28.11.24	
Pathology - SDL/SGT/ Practical/Integrated -PA13.5 Perform, Identify and describe the peripheral blood picture in anemia PA14.3 Identify and describe the peripheral smear in microcytic anemia	29.11.24	
Pandemic Module: 2.4: Vaccine Strategies - Community Medicine	30.11.24	
Microbiology - SGT/SDL/Practical /Integrated/MI 5.3: Identify the microbial agents causing meningitis	02.12.24	

Week 13

Tuesday	Community Medicine (5.7-Describe food hygiene) (L)	Pharmacology (L): Ph 1.19 - Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs which act on CNS, (including anxiolytics, sedatives & hypnotics, anti-psychotic, anti-depressant drugs, anti-maniacs, opioid agonists and antagonists, drugs used for neurodegenerative disorders, anti-epileptics drugs)	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Wednesday	SU 4.2 [K KH L] Describe clinical features, Diagnose type and extent of burns and plan appropriate treatment; SU 4.3 [K KH L] Discuss medicolegal aspects in burn injuries	Microbiology (L)-MI 5.2: Describe the etiopathogenesis, clinical course and discuss the laboratory diagnosis of encephalitis	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Thursday	Pathology - SGT/SDL-PA15.1 Describe the metabolism of Vitamin B12 and the etiology and pathogenesis of B12 deficiency PA15.2 Describe laboratory investigations of macrocytic anemia	Pharmacology (L): Ph 1.19 - Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs which act on CNS, (including anxiolytics, sedatives & hypnotics, anti-psychotic, anti-depressant drugs, anti-maniacs, opioid agonists and antagonists, drugs used for neurodegenerative disorders, anti-epileptics drugs)	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology OG 3.1B - Describe the physiology of ovulation, menstruation, fertilization, implantation and gametogenesis.	Pathology (L)-PA15.4 Enumerate the differences and describe the distinguishing features of megaloblastic and non-megaloblastic macrocytic anemia	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Saturday	Pharmacology - SGT/SDL: Ph 1.19 - Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs which act on CNS, (including anxiolytics, sedatives & hypnotics, anti-psychotic, anti-depressant drugs, anti-maniacs, opioid agonists and antagonists, drugs used for neurodegenerative disorders, anti-epileptics drugs)	Pathology (L)-PA16.1 Define and classify hemolytic anemia PA16.2 Describe the pathogenesis and clinical features and hematologic indices of hemolytic anemia	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Monday	Medicine (L) IM01.14: Demonstrate and measure jugular venous distension	Microbiology (L)- MI 6.1 Describe the etio-pathogenesis, laboratory diagnosis and prevention of Infections of upper and lower respiratory tract	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Tuesday	Forensic Medicine (L) FM 1.5: Describe Court procedures including issue of Summons, conduct money, types of witnesses, recording of evidence oath, affirmation.	Pharmacology (L): Ph 1.20 - Describe the effects of acute and chronic ethanol intake	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Wednesday	SU 4.2 [K KH L] Describe clinical features, Diagnose type and extent of burns and plan appropriate treatment; SU 4.3 [K KH L] Discuss medicolegal aspects in burn injuries	Microbiology (L)-MI 5.2: Describe the etiopathogenesis, clinical course and discuss the laboratory diagnosis of encephalitis	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination

LUNCH

Pharmacology - SGT/SDL/Practical/Integrated: Ph 1.19 - Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs which act on CNS, (including anxiolytics, sedatives & hypnotics, anti-psychotic, anti-dep	03.12.24
Microbiology (L)-MI 5.2: Describe the etiopathogenesis, clinical course and discuss the laboratory diagnosis of encephalitis	AETCOM Session 2.5: Bioethics - Department of Microbiology 04.12.24
Forensic Medicine-FM 2.21: Mechanical asphyxia: Describe and discuss different types of hanging and strangulation including clinical findings, causes of death, post-mortem findings and medico-legal aspects of death due to hanging and strangulation including examination, preservation and dispatch of ligature material. - SGT/SDL/Integrated /Practical	05.12.24
Pathology - SDL/SGT/ Practical/Integrated -PA15.3 Identify and describe the peripheral blood picture of macrocytic anemia	06.12.24
Pandemic Module: 2.4: Vaccine Strategies - Community Medicine	07.12.24
Microbiology - SGT/SDL/Practical /Integrated/MI 6.2: Identify the common etiologic agents of upper respiratory tract infections (Gram Stain)	09.12.24
Pharmacology - SGT/SDL/Practical/Integrated: Ph 1.22 - Describe drugs of abuse (dependence, addiction, stimulants, depressants, psychedelics, drugs used for criminal offences)	10.12.24
Microbiology (L)-MI 5.2: Describe the etiopathogenesis, clinical course and discuss the laboratory diagnosis of encephalitis	AETCOM Session 2.5: Bioethics - Department of Microbiology 11.12.24

14

CH

Week

Thursday	Pathology - SGT/SDL-PA16.3 Describe the pathogenesis, features, hematologic indices and peripheral blood picture of sickle cell anemia and thalassemia	Pharmacology (L): Ph 1.21 - Describe the symptoms and management of methanol and ethanol poisonings	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology OG 3.1C - Describe the physiology of ovulation, menstruation, fertilization, implantation and gametogenesis.	Pathology (L)-PA16.4 Describe the etiology pathogenesis, hematologic indices and peripheral blood picture of Acquired hemolytic anemia	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Saturday	Pharmacology - SGT/SDL: Ph 1.22 - Describe drugs of abuse (dependence, addiction, stimulants, depressants, psychedelics, drugs used for criminal offences)	Pathology (L)--: PA 17.1 Enumerate the etiology, pathogenesis and findings in aplastic anemia PA17.2 Enumerate the indications and describe the findings in bone marrow aspiration and biopsy	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Monday	Medicine (L) IM01.15:Identify and describe the timing, pitch quality conduction and significance of precordial murmurs and their variations	Microbiology (L)- MI 6.1 Describe the etio-pathogenesis, laboratory diagnosis and prevention of Infections of upper and lower respiratory tract	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Tuesday	Community Medicine (5.8-Describe and discuss the importance and methods of food fortification and effects of additives and adulteration) (L)	Pharmacology (L): Ph 1.24 - Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs affecting renal systems including diuretics, antidiuretics- vasopressin and analogues	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Wednesday	SU 5.1 [K KH L]Describe normal wound healing and factors affecting healing.; SU 4.4 Communicate and counsel patients and families on the outcome and rehabilitation in burn demonstrating empathy and care [A/C SH SGD]	Forensic Medicine (L) FM 1.5: Examination in chief, cross examination, re-examination and court questions, recording of evidence & conduct of doctor in witness box.	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Thursday	Pathology - SGT/SDL-PA18.1 Enumerate and describe the causes of leucocytosis leucopenia, lymphocytosis and leukemoid reactions PA` 18.2 Describe the etiology, genetics, pathogenesis classification, features, hematologic features of acute and chronic leukemia (Acute Myeloid Leukemia)	Pharmacology (L): Ph 1.24 - Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs affecting renal systems including diuretics, antidiuretics- vasopressin and analogues	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology OG 3.1D - Describe the physiology of ovulation, menstruation, fertilization, implantation and gametogenesis.	Pathology (L)-: PA` 18.2 Describe the etiology, genetics, pathogenesis classification, features, hematologic features of acute and chronic leukemia - (ALL, CLL)	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination
Saturday	Pharmacology - SGT/SDL: Ph 1.23 - Describe the process and mechanism of drug deaddiction	Pathology (L)-PA` 18.2 Describe the etiology, genetics, pathogenesis classification, features, hematologic features of acute and chronic leukemia - (CML); A19.1 Enumerate the causes and describe the differentiating features of lymphadenopathy	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination

Week 15

LUNCH

Community Medicine -(3.2-Describe concepts of safe and wholesome water, sanitary sources of water, water purification processes, water quality standards, concepts of water conservation and rainwater harvesting) SGT/SDL/Integrated /Practical	12.12.24
Pathology - SDL/SGT/ Practical/Integrated -PA16.5 Describe the peripheral blood picture in different hemolytic anaemias PA16.6 Prepare a peripheral blood smear and identify hemolytic anaemia	13.12.24
Pandemic Module: 2.4: Vaccine Strategies - Community Medicine	14.12.24
Microbiology - SGT/SDL/Practical /Integrated MI 6.3: Identify the common etiologic agents of lower respiratory tract infections (Gram Stain & Acid fast stain); -MI 7.1: Describe the etio-pathogenesis and discuss the laboratory diagnosis of infections of genitourinary system	16.12.24
Pharmacology - SGT/SDL/Practical/Integrated: Ph 3.1 - Write a rational, correct and legible generic prescription for a given condition and communicate the same to the patient	17.12.24
SGT/SDL Session /Community-(5.2-Describe and demonstrate the correct method of performing a nutritional assessment of individuals, families and the community by using the appropriate method)	AETCOM Session 2.5: Bioethics - Department of Microbiology 18.12.24
Forensic Medicine-FM 2.22: Mechanical asphyxia: Describe and discuss Patho-physiology, clinical features, post-mortem findings. - SGT/SDL/Integrated /Practical	19.12.24
Pathology - SDL/SGT/ Practical/Integrated -PA` 18.2 Describe the etiology, genetics, pathogenesis classification, features, hematologic features of acute and chronic leukemia (Acute Myeloid Leukemia, CML)	20.12.24
AETCOM Session 2.5: Bioethics - Department of Microbiology	21.12.24

LUNCH

Week 16

17

Monday	Medicine (L) IM01.16: Generate a differential diagnosis based on the clinical presentation and prioritise it based on the most likely diagnosis	Microbiology (L)- MI 7.2: Describe the etio-pathogenesis and discuss the laboratory diagnosis of sexually transmitted infections. Recommend preventive measures	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination	LUNCH	Microbiology - SGT/SDL/Practical /Integrated/MI 7.2: Describe the etio-pathogenesis and discuss the laboratory diagnosis of sexually transmitted infections. Recommend preventive measures	23.12.24
Tuesday	SGT/SDL Session /Community-(5.2-Describe and demonstrate the correct method of performing a nutritional assessment of individuals, families and the community by using the appropriate method	Pharmacology (L): Ph 1.24 - Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs affecting renal systems including diuretics, antidiuretics- vasopressin and analogues	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination		Pharmacology - SGT/SDL/Practical/Integrated: Ph 3.1 - Write a rational, correct and legible generic prescription for a given condition and communicate the same to the patient Ph 3.2 - Perform and interpret a critical appraisal (audit) of a given prescription	24.12.24
Wednesday	HOLIDAY				HOLIDAY	25.12.24
Thursday	Pathology - SGT/SDL-PA18.1 Enumerate and describe the causes of leucocytosis leucopenia, lymphocytosis and leukemoid reactions PA`18.2 Describe the etiology, genetics, pathogenesis classification, features, hematologic features of acute and chronic leukemia (Acute Myeloid Leukemia)	Pharmacology (L): Ph 1.24 - Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs affecting renal systems including diuretics, antidiuretics- vasopressin and analogues	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination		Community Medicine -(3.2-Describe concepts of safe and wholesome water, sanitary sources of water, water purification processes, water quality standards, concepts of water conservation and rainwater harvesting() SGT/SDL/Integrated /Practical	26.12.24
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology OG 3.1E - Describe the physiology of ovulation, menstruation, fertilization, implantation and gametogenesis.	Pathology (L)-PA19.4 Describe and discuss the pathogenesis, pathology and the differentiating features of Hodgkin's and non-Hodgkin's lymphoma (PART - II) PA19.5 Identify and describe the features of Hodgkin's lymphoma in a gross and microscopic specimen	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination		Pathology - SDL/SGT/ Practical/Integrated - PA19.2 Describe the pathogenesis and pathology of tuberculous lymphadenitis PA19.3 Identify and describe the features of tuberculous lymphadenitis in a gross and microscopic specimen	27.12.24
Saturday	Pharmacology - SGT/SDL: Ph 1.24 - Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs affecting renal systems including diuretics, antidiuretics- vasopressin and analogues	Pathology (L)-PA19.6 Enumerate and differentiate the causes of splenomegaly PA19.7 Identify and describe the gross specimen of an enlarged spleen	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: General Examination		Alignment & Integration - Jaundice: MI: 3.7: Describe the epidemiology, the etio-pathogenesis and discuss the viral markers in the evolution of Viral hepatitis. Discuss the modalities in the diagnosis, and prevention of viral hepatitis; PA 25.1: Describe bilirubin metabolism, enumerate the etiology and pathogenesis of jaundice, distinguish between direct and indirect hyperbilirubinemia	28.12.24
Monday	Medicine (L) IM01.17: Order and interpret diagnostic testing based on the clinical diagnosis including 12 lead ECG, Chest radiograph, blood cultures	Microbiology (L)-MI 7.3: Describe the etio-pathogenesis, clinical features, the appropriate method for specimen collection, and discuss the laboratory diagnosis of Urinary tract infections	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination		Microbiology - SGT/SDL/Practical /IntegratedMI 7.3: Describe the etio-pathogenesis, clinical features, the appropriate method for specimen collection, and discuss the laboratory diagnosis of Urinary tract infections	30.12.24
Tuesday	SGT/SDL Session /Community-(7.1-Define Epidemiology and describe and enumerate the principles, concepts and uses), (7.3-Enumerate, describe and discuss the sources of epidemiological data)	Pharmacology (L): Ph 1.24 - Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs affecting renal systems including diuretics, antidiuretics- vasopressin and analogues	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination	Pharmacology - SGT/SDL/Practical/Integrated: Ph 3.1 - Write a rational, correct and legible generic prescription for a given condition and communicate the same to the patient Ph 3.2 - Perform and interpret a critical appraisal (audit) of a given prescription	31.12.24	
Wednesday	SU 5.2 [C SH L] Elicit, document and present a history in a patient presenting with wounds.	Microbiology (L)-MI 7.3: Describe the etio-pathogenesis, clinical features, the appropriate method for specimen collection, and discuss the laboratory diagnosis of Urinary tract infections	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination	Microbiology SGT/SDL/Practical /Integrated/MI 7.3: Describe the etio-pathogenesis, clinical features, the appropriate method for specimen collection, and discuss the laboratory diagnosis of Urinary tract infections	AETCOM Session 2.6 - Bioethics - Department of Pathology	01.01.25
				CH		

Week

Thursday	Pathology - SGT/SDL:- PA20.1 Describe the features of plasma cell myeloma	Pharmacology (L): Ph 1.25 - Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs acting on blood, like anticoagulants, antiplatelets, fibrinolytics, plasma expanders	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology Development of the fetus and the placenta:- OG 4.1A - Describe and discuss the basic embryology of fetus, factors influencing fetal growth and development, anatomy and physiology of placenta, and teratogenesis.	Pathology (L)-PA21.1 Describe normal hemostasis PA21.2 Classify and describe the etiology, pathogenesis and pathology of vascular and platelet disorders including TTP and haemophilia's PA21.3 Differentiate platelet disorders from clotting disorders based on the clinical and hematologic features	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Saturday	Pharmacology - SGT/SDL: Ph 1.25 - Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs acting on blood, like anticoagulants, antiplatelets, fibrinolytics, plasma expanders	Pathology (L)-PA21.4 Define and describe disseminated intravascular coagulation, its laboratory findings and diagnosis of disseminated intravascular coagulation PA21.5 Define and describe disseminated intravascular coagulation, its laboratory findings and diagnosis of Vitamin K deficiency (Screening Coagulogram)	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination

LUNCH

Forensic Medicine-FM 2.24: Thermal deaths: Describe the clinical features, post-mortem finding and medicolegal aspects of injuries due to physical agents like heat (heat-hyper-pyrexia, heat stroke, sun stroke, heat exhaustion/prostration, heat cramps [miner's cramp] or cold (systemic and localized hypothermia, frostbite, trench foot, immersion foot). SGT/SDL/Integrated /Practical	02.01.25
Pathology - SDL/SGT/ Practical/Integrated -PA22.1 Classify and describe blood group systems (ABO and RH) PA22.2 Enumerate the indications, describe the principles, enumerate and demonstrate the steps of compatibility testing (Blood Grouping) PA16.7 Describe the correct technique to perform a cross match	03.01.25
Pandemic Module 2.5: Therapeutic Strategies - Pharmacology and Medicine Department	04.01.25

First Terminal 06.01.25 - 25.01.25

Week 18

Monday	Medicine (L) IM01.18: Perform and interpret a 12 lead ECG	Microbiology (L)-MI 3.1 Describe the epidemiology, morphology, pathogenesis, features and diagnostic modalities of these agents	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Tuesday	Forensic Medicine (L) FM 1.6: Describe Offenses in Court including Perjury; Court strictures vis-a- vis Medical Officer.	Pharmacology (L): Ph 1.25 - Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs acting on blood, like anticoagulants, antiplatelets, fibrinolytics, plasma expanders	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Wednesday	SU 5.3 [K KH L] Differentiate the various types of wounds, plan and observe management of wounds.	Microbiology (L)-MI 3.1 Describe the epidemiology, morphology, pathogenesis, clinical features and diagnostic modalities of these agents	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Thursday	Pathology - SGT/SDL:- PA22.5 Enumerate and describe infections transmitted by blood transfusion PA22.6 Describe transfusion reactions and enumerate the steps in the investigation of a transfusion reaction	Pharmacology (L): Ph 1.25 - Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs acting on blood, like anticoagulants, antiplatelets, fibrinolytics, plasma expanders	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Friday	Obstetrics & Gynecology (L)-Development of the fetus and the placenta:- OG 4.1B - Describe and discuss the basic embryology of fetus, factors influencing fetal growth and development, anatomy and physiology of placenta, and teratogenesis.	Pathology (L)-PA22.7 Enumerate the indications and describe the principles and procedure of autologous transfusion	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Saturday	Pharmacology - SGT/SDL: Ph 1.25 - Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs acting on blood, like anticoagulants, antiplatelets, fibrinolytics, plasma expanders	Pathology (L):- PA22.4 Enumerate blood components and describe their clinical uses	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination

LUNCH

Microbiology - SGT/SDL/Practical /Integrated/MI 3.2: Identify the common etiologic agents of diarrhea and dysentery	27.01.25
Pharmacology - SGT/SDL/Practical/Integrated: Ph. 3.3 - Perform a critical evaluation of the drug promotional literature	28.01.25
Pharmacology - SGT/SDL/Practical/Integrated: Ph. 3.3 -Perform a critical evaluation of the drug promotional literature	AETCOM Session 2.6 - Bioethics - Department of Pathology 29.01.25
Community Medicine -(3.2-Describe concepts of safe and wholesome water, sanitary sources of water, water purification processes, water quality standards, concepts of water conservation and rainwater harvesting) SGT/SDL/Integrated /Practical	30.01.25
Pathology - SDL/SGT/ Practical/Integrated -PA23.1 Describe abnormal urinary findings in disease states and identify and describe common urinary abnormalities in a clinical specimen	31.01.25
Pandemic Module 2.5: Therapeutic Strategies - Pharmacology and Medicine Department	01.02.25

Monday	Medicine (L) IM01.19: Enumerate the indications for and describe the findings of heart failure with the following conditions including: 2D echocardiography, brain natriuretic peptide, exercise testing, nuclear medicine testing and coronary angiogram	Microbiology (L)-MI 3.3: Describe the enteric fever pathogens and discuss the evolution of the clinical course and the laboratory diagnosis of the diseases caused by them	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination	LUNCH	Microbiology - SGT/SDL/Practical /Integrated/IMI 3.4: Identify the different modalities for diagnosis of enteric fever. Choose the appropriate test related to the duration of illness	03.02.25	
Tuesday	Community Medicine (L)-Community Medicine(7.4- Define, calculate and interpret morbidity and mortality indicators based on given set of data) / Forensic Medicine (L)	Pharmacology (L): Ph 1.25 - Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs acting on blood, like anticoagulants, antiplatelets, fibrinolytics, plasma expanders	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination		Pharmacology - SGT/SDL/Practical/Integrated: Ph 3.4 - To recognise and report an adverse drug reaction Skill station	04.02.25	
Wednesday	SU 5.4 [K KHL] Discuss medicolegal aspects of wounds.	Microbiology (L)-MI 3.3: Describe the enteric fever pathogens and discuss the evolution of the clinical course and the laboratory diagnosis of the diseases caused by them	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination		SGT/SDL Session /Forensic - FM 2.25: Describe types of injuries, clinical features, Pathophysiology, post- mortem findings.	AETCOM Session 2.6 - Bioethics - Department of Pathology	05.02.25
Thursday	Pathology - SGT/SDL:- PA24.1 Describe the etiology, pathogenesis, pathology and clinical features of oral cancers (including Oesophagus);	Pharmacology (L): Ph 1.25 - Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs acting on blood, like anticoagulants, antiplatelets, fibrinolytics, plasma expanders	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination		Forensic Medicine-FM 2.24: Thermal deaths: Describe the clinical features, post-mortem finding and medicolegal aspects of injuries due to physical agents like heat (heat-hyper-pyrexia, heat stroke, sun stroke, heat exhaustion/prostration, heat cramps [miner's cramp] or cold (systemic and localized hypothermia, frostbite, trench foot, immersion foot). - SGT/SDL/Integrated /Practical	06.02.25	
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology Development of the fetus and the placenta:- OG 4.1C - Describe and discuss the basic embryology of fetus, factors influencing fetal growth and development, anatomy and physiology of placenta, and teratogenesis.	Pathology (L)- PA24.2 Describe the etiology, pathogenesis, pathology, microbiology, clinical and microscopic features of peptic ulcer disease; PA24.3 Describe and identify the microscopic features of peptic ulcer	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination		Pathology - SDL/SGT/ Practical/Integrated -PA24.7 Describe the etiology, pathogenesis, pathology and distinguishing features of carcinoma of the colon	07.02.25	
Saturday	Pharmacology - SGT/SDL - Ph 1.26 - Describe mechanisms of action, types, doses, side effects, indications and contraindications of the drugs modulating the reninangiotensin and aldosterone system	Pathology (L)-PA24.4 Describe and etiology and pathogenesis and pathologic features of carcinoma of the stomach	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination		Pandemic Module 2.5: Therapeutic Strategies - Pharmacology and Medicine Department	08.02.25	
Monday	Medicine (L) IM01.19: Enumerate the indications for and describe the findings of heart failure with the following conditions including: 2D echocardiography, brain natriuretic peptide, exercise testing, nuclear medicine testing and coronary angiogram	Microbiology (L)-MI 3.3: Describe the enteric fever pathogens and discuss the evolution of the clinical course and the laboratory diagnosis of the diseases caused by them	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination	H	Microbiology - SGT/SDL/Practical /Integrated/IMI 3.4: Identify the different modalities for diagnosis of enteric fever. Choose the appropriate test related to the duration of illness	10.02.25	
Tuesday	Community Medicine (L)(3.2-Describe concepts of safe and wholesome water, sanitary sources of water, water purification processes, water quality standards, concepts of water conservation and rainwater harvesting)	Pharmacology (L): Ph 1.27- Describe the mechanisms of action, types, doses, side effects, indications and contraindications of antihypertensive drugs and drugs used in shock	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination		Pharmacology - SGT/SDL/Practical/Integrated: Ph 1.27- Describe the mechanisms of action, types, doses, side effects, indications and contraindications of antihypertensive drugs and drugs used in shock	11.02.25	
Wednesday	SU 6.1 [K KHL] Define and describe the aetiology and pathogenesis of surgical infections.	Forensic Medicine (L) FM 1.6: Describe Offenses in Court including Perjury; Court strictures vis-a- vis Medical Officer.	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination		Pathology - SGT/SDL:- PA24.5 Describe and etiology and pathogenesis and pathologic features of Tuberculosis of the intestine	AETCOM Session 2.6 - Bioethics - Department of Pathology	12.02.25

Week :

Thursday	Pathology - SGT/SDL:- PA24.5 Describe and etiology and pathogenesis and pathologic features of Tuberculosis of the intestine	Pharmacology (L): Ph 1.28: Describe the mechanisms of action, types, doses, side effects, indications and contraindications of the drugs used in ischemic heart disease (stable, unstable angina and myocardial infarction), peripheral vascular disease	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology OG 5.2A - Determine maternal high risk factors and verify immunization status.	Pathology (L)-PA24.6 Describe and etiology and pathogenesis and pathologic and distinguishing features of Inflammatory bowel disease	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Saturday	Pharmacology - SGT/SDL: Ph 1.28: Describe the mechanisms of action, types, doses, side effects, indications and contraindications of the drugs used in ischemic heart disease (stable, unstable angina and myocardial infarction), peripheral vascular disease	Pathology (L)-PA25.1 Describe bilirubin metabolism, enumerate the etiology and pathogenesis of jaundice, distinguish between direct and indirect hyperbilirubinemia	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Monday	Medicine (L): IM01.20: Determine the severity of valvular heart disease based on the clinical and laboratory and imaging features and determine the level of intervention required including surgery; IM01.21: Describe and discuss and identify the clinical features of acute and subacute endocarditis, echocardiographic findings, blood culture and sensitivity and therapy	Microbiology (L)- MI 3.5: Enumerate the causative agents of food poisoning and discuss the pathogenesis, clinical course and laboratory diagnosis; MI 3.7: Describe the epidemiology, the etio-pathogenesis and discuss the viral markers in the evolution of Viral hepatitis. Discuss the modalities in the diagnosis and prevention of viral hepatitis	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Tuesday	Community Medicine (7.4-Define, calculate and interpret morbidity and mortality indicators based on given set of data) (L); (7.5-Enumerate, define, describe and discuss epidemiological study designs)	Pharmacology (L): Ph 1.29: Describe the mechanisms of action, types, doses, side effects, indications and contraindications of the drugs used in congestive heart failure	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Wednesday	SU 6.2 [K KH L] Enumerate prophylactic and therapeutic antibiotics. Plan appropriate management. SU 7.1 [K KH L] Describe the planning and conduct of surgical audit.	Microbiology (L)-MI 3.7: Describe the epidemiology, the etio-pathogenesis and discuss the viral markers in the evolution of Viral hepatitis. Discuss the modalities in the diagnosis and prevention of viral hepatitis	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Thursday	Pathology - SGT/SDL-PA25.3 Describe the etiology and pathogenesis of viral and toxic hepatitis; distinguish the causes of hepatitis based on the clinical and laboratory features. Describe the pathology, complications and consequences of hepatitis	Pharmacology (L): Ph 1.30: Describe the mechanisms of action, types, doses, side effects, indications and contraindications of the antiarrhythmics	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination

LUNCH

LUNCH

Week 21

Community Medicine -(3.2-Describe concepts of safe and wholesome water, sanitary sources of water, water purification processes, water quality standards, concepts of water conservation and rainwater harvesting) SGT/SDL/Integrated /Practical	13.02.25	
Pathology - SDL/SGT/ Practical/Integrated -PA25.4 Describe the pathophysiology, pathology and progression of alcoholic liver disease including cirrhosis (specimen)	14.02.25	
Alignment & Integration - Jaundice: PH 1.34: Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs used as biliary and pancreatic diseases; IM: 5.4: Describe and discuss the epidemiology, microbiology, immunology and clinical evolution of infective (viral) hepatitis; IM 5.5: Describe and discuss the pathophysiology and clinical evolution of alcoholic liver disease	15.02.25	
Microbiology - SGT/SDL/Practical /Integrated/MI 3.5: Enumerate the causative agents of food poisoning and discuss the pathogenesis, clinical course and laboratory diagnosis; MI 3.8: Choose the appropriate laboratory test in the diagnosis of viral hepatitis with emphasis on viral markers	17.02.25	
Pharmacology - SGT/SDL/Practical/Integrated: Ph 3.5 - To prepare and explain a list of P-drugs for a given case/condition	18.02.25	
Microbiology (L)-MI 3.7: Describe the epidemiology, the etio-pathogenesis and discuss the viral markers in the evolution of Viral hepatitis. Discuss the modalities in the diagnosis and prevention of viral hepatitis	AETCOM Session 2.6 - Bioethics - Department of Pathology	19.02.25
Forensic Medicine-FM 2.25 & 2.28: Medico-legal aspects in cases of burns,scalds, lightning, electrocution and radiations. Describe and discuss signs of intrauterine death, signs of live birth, viability of foetus, age determination of foetus, DOAP session of ossification centres, Hydrostatic test, Sudden Infants Death syndrome and Munchausen's syndrome by proxy - SGT/SDL/Integrated /Practical; Demonstrate respect to the directions of courts, while appearing as witness for recording of evidence under oath or affirmation, examination in chief, cross examination, re-examination and court questions, recording of evidence. - SGT/SDL/Integrated /Practical	20.02.25	

Week 22

Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology OG 5.2B - Determine maternal high risk factors and verify immunization status.	Pathology (L)-PA25.5 Describe the etiology, pathogenesis and complications of portal Hypertension	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Saturday	Pharmacology - SGT/SDL: Ph 1.31 - Describe the mechanisms of action, types, doses, side effects, indications and contraindications of the drugs used in the management of dyslipidemia	Pathology (L)-PA26.1 Define and describe the etiology, types, pathogenesis, stages, morphology and complications of pneumonia	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Monday	Medicine (L) IM01.22: Assist and demonstrate the proper technique in collecting specimen for blood culture IM01.23: Describe, prescribe and communicate non pharmacologic management of heart failure including sodium restriction, physical activity and limitations	Microbiology (L)-MI 8.1: Enumerate the microbial agents and their vectors causing Zoonotic diseases.	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Tuesday	Forensic Medicine (L) FM 1.7: Describe Dying Declaration & Dying Deposition.	Pharmacology (L): Ph 1.32: Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of drugs used in bronchial asthma and COPD	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Wednesday	HOLIDAY		
Thursday	Pathology - SGT/SDL-PA26.2 Describe the etiology, gross and microscopic appearance and complications of lung abscess PA26.3 Define and describe the etiology, types, pathogenesis, stages, morphology and complications and evaluation of Obstructive airway disease (OAD) and Bronchiectasis	Pharmacology (L): Ph 1.34: Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs used as below:1. Acid-peptic disease and GERD,2. Antiemetics and prokinetics,3. Antidiarrhoeals,4 .Laxatives,5. Inflammatory Bowel Disease,6. Irritable Bowel Disorders, biliary and pancreatic diseases	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology OG 5.2C - Determine maternal high risk factors and verify immunization status.	Pathology (L):- PA26.5 Define and describe the etiology, types, exposure, environmental influence, pathogenesis, stages, morphology, microscopic appearance and complications of Occupational lung disease	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Saturday	Pharmacology - SGT/SDL: Ph 1.33 - Describe the mechanism of action, types, doses, side effects, indications and contraindications of the drugs used in cough (antitussives, expectorants/ mucolytics)	Pathology (L)-PA26.6 Define and describe the etiology, types, exposure, genetics environmental influence, pathogenesis, stages, morphology, microscopic appearance, metastases and complications of tumors of the lung and pleura PA26.7 Describe and describe the	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Monday	Medicine (L) IM01.23: Describe, prescribe and communicate non pharmacologic management of heart failure including sodium restriction, physical activity and limitations	Microbiology (L)-MI 8.1: Enumerate the microbial agents and their vectors causing Zoonotic diseases.	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination

LUNCH

Pathology - SDL/SGT/ Practical/Integrated -PA25.2 Describe the pathophysiology and pathologic changes seen in hepatic failure and their clinical manifestations, complications and consequences PA25.6 Interpret liver function and viral hepatitis serology panel. Distinguish obstructive from non-obstructive jaundice based on clinical features and liver function tests	21.02.25
AETCOM Session: 2.7: Bioethics - Department of Pathology	22.02.25
Microbiology - SGT/SDL/Practical /Integrated/Microbiology (L)-MI 8.1: Enumerate the microbial agents and their vectors causing Zoonotic diseases.	24.02.25
Pharmacology - SGT/SDL/Practical/Integrated: Ph 1.32: Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of drugs used in bronchial asthma and COPD	25.02.25
HOLIDAY	
Community Medicine -(3.4-Describe the concept of solid waste, human excreta and sewage disposal) SGT/SDL/Integrated /Practical	27.02.25
Pathology - SDL/SGT/ Practical/Integrated - PA26.4 Define and describe the etiology, types, pathogenesis, stages, morphology microscopic appearance and complications of tuberculosis (Specimen and Slide)	28.02.25
Alignment & Integration - Tuberculosis: MI 6.1 & 4.1 - Etiology of causative agent of Lower and Upper RTI; PA19.2 & 26.4 : Pathogenesis of Tuberculosis; PH1.44: Antitubercular Drugs	01.03.25
Microbiology - SGT/SDL/Practical /Integrated/Microbiology (L)-MI 8.1: Enumerate the microbial agents and their vectors causing Zoonotic diseases.	03.03.25

Week 23

Tuesday	SGT/SDL Session Community-(3.2-Describe concepts of safe and wholesome water, sanitary sources of water, water purification processes, water quality standards, concepts of water conservation and rainwater harvesting)	Pharmacology (L): Ph 1.36: Describe the mechanism of action, types, doses, side effects, indications and contraindications of drugs used in endocrine disorders (diabetes mellitus, thyroid disorders and osteoporosis)	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Wednesday	SU 7.2 [K KH L] Describe principles and steps of clinical research in General surgery.	Microbiology- MI 8.2: Describe the etio-pathogenesis of opportunistic infections (OI) and discuss the factors contributing to the occurrence of OI, and the laboratory diagnosis	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Thursday	Pathology - SGT/SDL-PA27.1 Distinguish arteriosclerosis from atherosclerosis. Describe the pathogenesis and pathology of various causes and types of arteriosclerosis	Pharmacology (L): Ph 1.35 - Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of drugs used in hematological disorders like: 1. Drugs used in anemias, 2. Colony Stimulating factors	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology OG 5.2D - Determine maternal high risk factors and verify immunization status.	Pathology (L):- PA27.2 Describe the etiology, dynamics, pathology types and complications of aneurysms including aortic aneurysms PA27.3 Describe the etiology, types, stages pathophysiology, pathology and complications of heart failure	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination
Saturday	Pharmacology - SGT/SDL: Ph 1.34: Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs used as below: 1. Acid-peptic disease and GERD. 2. Antiemetics and prokinetics, 3. Anti-diarrhoeals, 4. Laxatives, 5. Inflammatory Bowel Disease, 6. Irritable Bowel Disorders, biliary and pancreatic diseases	Pathology (L):- PA27.4 Describe the etiology, pathophysiology, pathology, gross and microscopic features, criteria and complications of rheumatic fever	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Medicine; Surgery and Obstetrics & Gynecology: Systemic Examination

LUNCH

Pharmacology - SGT/SDL/Practical/Integrated : Ph 3.6 - Demonstrate how to optimize interaction with pharmaceutical representative to get authentic information on drugs;	04.03.25	
SGT/SDL Session Forensic-FM 2.31: Demonstrate ability to work in a team for conduction of medico-legal autopsies in cases of death following alleged negligence medical dowry death, death in custody or following violation of human rights as per National Human Rights Commission Guidelines on exhumation	AETCOM Session: 2.7: Bioethics - Department of Pathology	05.03.25
Forensic Medicine-FM2.32: Demonstrate ability to exchange information by verbal, or nonverbal communication to the peers, family members, law enforcing agency and judiciary - SGT/SDL/Integrated /Practical	06.03.25	
Pathology - SDL/SGT/ Practical/Integrated -PA27.5 Describe the epidemiology, risk factors, etiology, pathophysiology, pathology, presentations, gross and microscopic features, diagnostic tests and complications of ischemic heart disease PA27.8 Interpret abnormalities in cardiac function testing in acute coronary syndromes	07.03.25	
Alignment & Integration - Tuberculosis: PA 26.4 & 19.3: Identify features of Lymphadenitis; MI 6.2 Gram Staining and Sputum ZSN Staining	08.03.25	

Holi Vacations 10.03.25 - 15.03.25

Monday	Medicine (L) IM01.24: Describe and discuss the pharmacology of drugs including indications, contraindications in the management of heart failure including diuretics, ACE inhibitors, Beta blockers, aldosterone antagonists and cardiac glycosides	Microbiology (L)- MI 8.2: Describe the etio-pathogenesis of opportunistic infections (OI) and discuss the factors contributing to the occurrence of OI, and the laboratory diagnosis	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: General Examination
Tuesday	SGT/SDL Session Community-(3.2-Describe concepts of safe and wholesome water, sanitary sources of water, water purification processes, water quality standards, concepts of water conservation and rainwater harvesting)	Pharmacology (L): Ph 1.36: Describe the mechanism of action, types, doses, side effects, indications and contraindications of drugs used in endocrine disorders (diabetes mellitus, thyroid disorders and osteoporosis)	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: General Examination

Microbiology - SGT/SDL/Practical/ Integrated/ MI 8.2: Describe the etio-pathogenesis of opportunistic infections (OI) and discuss the factors contributing to the occurrence of OI, and the laboratory diagnosis	17.03.25
Pharmacology - SGT/SDL/Practical/Integrated : Ph 3.6 - Demonstrate how to optimize interaction with pharmaceutical representative to get authentic information on drugs;	18.03.25

Week 24

Wednesday	SU 8.1 [K KH L] Describe principles of Ethics as it pertains in General Surgery; SU 8.2 [A/C L] Demonstrate Professionalism and empathy to the patient undergoing General surgery.	Forensic Medicine (L) FM 1.8: Describe the latest decisions/notifications/resolutions/circulars/standing orders related to medico-legal practice issued by Courts/Government authorities etc.	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: General Examination
Thursday	Pathology - SGT/SDL-PA27.6 Describe the etiology, pathophysiology, pathology, gross and microscopic features, diagnosis and complications of infective endocarditis PA27.7 Describe the etiology, pathophysiology, pathology, gross and microscopic features, diagnosis and complications of pericarditis and pericardial effusion	Pharmacology (L): Ph 1.36: Describe the mechanism of action, types, doses, side effects, indications and contraindications of drugs used in endocrine disorders (diabetes mellitus, thyroid disorders and osteoporosis)	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: General Examination
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology OG 5.2E - Determine maternal high risk factors and verify immunization status.	Pathology (L)- PA27.9 Classify and describe the etiology, types, pathophysiology, pathology, gross and microscopic features, diagnosis and complications of cardiomyopathies.	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: General Examination
Saturday	Pharmacology - SGT/SDL: Ph 1.36: Describe the mechanism of action, types, doses, side effects, indications and contraindications of drugs used in endocrine disorders (diabetes mellitus, thyroid disorders and osteoporosis)	Pathology (L)-: PA28.1 Describe the normal histology of the kidney; PA28.2 Define, classify and distinguish the clinical syndromes and describe the etiology, pathogenesis, pathology, morphology, clinical and laboratory and urinary findings, complications of renal failure	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: General Examination
Monday	Medicine (L) IM01.25: Enumerate the indications for valvuloplasty, valvotomy, coronary revascularization and cardiac transplantation; IM01.26: Develop document and present a management plan for patients with heart failure based on type of failure, underlying aetiology	Microbiology (L)- MI 8.3: Describe the role of oncogenic viruses in the evolution of virus associated malignancy; -MI 8.4: Describe the etiologic agents of emerging Infectious diseases. Discuss the clinical course and diagnosis	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Tuesday	Community Medicine (7.5-Enumerate, define, describe and discuss epidemiological study designs)	Pharmacology (L): Ph 1.37 - Describe the mechanisms of action, types, doses, side effects, indications and contraindications of the drugs used as sex hormones, their analogues and anterior Pituitary hormones	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Wednesday	SU 8.3 [A/C KH L] Discuss medico-legal issues in surgical practice.	Microbiology (L)-MI 8.4: Describe the etiologic agents of emerging Infectious diseases. Discuss the clinical course and diagnosis	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination

LUNCH

CH

SGT/SDL Session Community- (3.2-Describe concepts of safe and wholesome water, sanitary sources of water, water purification processes, water quality standards, concepts of water conservation and rainwater harvesting)	AETCOM Session: 2.7: Bioethics - Department of Pathology	19.03.25
Community Medicine -(3.4-Describe the concept of solid waste, human excreta and sewage disposal); (7.2-Enumerate, describe and discuss the modes of transmission and measures for prevention and control of communicable and non-communicable diseases) SGT/SDL/Integrated /Practical		20.03.25
Pathology - SDL/SGT/ Practical/Integrated Pathology - SDL/SGT/ Practical/Integrated PA27.10 Describe the etiology, pathophysiology, pathology features and complications of syphilis on the cardiovascular system (Specimen)		21.03.25
Alignment & Integration - Tuberculosis: PA 26.4 & 19.3: Identify features of Lymphadenitis; MI 6.2 Gram Staining and Sputum ZSN Staining		22.03.25
Microbiology - SGT/SDL/Practical /Integrated/MI 8.2 : Describe the etio-pathogenesis of opportunistic infections (OI) and discuss the factors contributing to the occurrence of OI, and the laboratory diagnosis; MI 8.4: Describe the etiologic agents of emerging Infectious diseases. Discuss the clinical course and diagnosis		24.03.25
Pharmacology - SGT/SDL/Practical/Integrated: Ph 1.39 - Describe mechanism of action, types, doses, side effects, indications and contraindications the drugs used for contraception		25.03.25
Pharmacology (L): Ph 1.40 - Describe mechanism of action, types, doses, side effects, indications and contraindications of 1. Drugs used in the treatment of infertility, and 2. Drugs used in erectile dysfunction	AETCOM Session 2.8: What it means to be a family member of a Sick Patient? Department of Pharmacology	26.03.25

k 25

Week

Thursday	Pathology - SGT/SDL- PA27.6 Describe the etiology, pathophysiology, pathology, gross and microscopic features, diagnosis and complications of infective endocarditis; PA27.7 Describe the etiology, pathophysiology, pathology, gross and microscopic features, diagnosis and complications of pericarditis and pericardial effusion	Pharmacology (L): Ph 1.36: Describe the mechanism of action, types, doses, side effects, indications and contraindications of drugs used in endocrine disorders (diabetes mellitus, thyroid disorders and osteoporosis)	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology OG 5.2F - Determine maternal high risk factors and verify immunization status.	Pathology (L)-PA28.5 Define and classify glomerular diseases. Enumerate and describe the etiology, pathogenesis, mechanisms of glomerular injury, pathology, distinguishing features and clinical manifestations of glomerulonephritis	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Saturday	Pharmacology (L): Ph 1.37 - Describe the mechanisms of action, types, doses, side effects, indications and contraindications of the drugs used as sex hormones, their analogues and anterior Pituitary hormones	Pathology - SGT/SDL-PA28.3 Define and describe the etiology, precipitating factors, pathogenesis, pathology, laboratory urinary findings, progression and complications of acute renal failure PA28.4 Define and describe the etiology, precipitating factors,	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Monday	HOLIDAY		
Tuesday	Forensic Medicine (L) FM1.9: Describe the importance of documentation in medical practice in regard to medicolegal examinations, Medical Certificates and medicolegal reports especially - maintenance of patient case records, discharge summary, prescribed registers to be maintained in Health Centres. - maintenance of medico-legal register like accident register	Pharmacology (L): Ph 1.38 - Describe the mechanism of action, types, doses, side effects, indications and contraindications of corticosteroids	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Wednesday	SU 8.3 [A/C KH L] Discuss medico-legal issues in surgical practice.	Microbiology (L)-MI 8.4: Describe the etiologic agents of emerging Infectious diseases. Discuss the clinical course and diagnosis	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Thursday	Pathology - SGT/SDL- PA27.6 Describe the etiology, pathophysiology, pathology, gross and microscopic features, diagnosis and complications of infective endocarditis; PA27.7 Describe the etiology, pathophysiology, pathology, gross and microscopic features, diagnosis and complications of pericarditis and pericardial effusion	Pharmacology (L): Ph 1.36: Describe the mechanism of action, types, doses, side effects, indications and contraindications of drugs used in endocrine disorders (diabetes mellitus, thyroid disorders and osteoporosis)	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination

JUN

Forensic Medicine- FM 3.1: IDENTIFICATION -Teeth- eruption, decay, bite marks, bones-ossification centres, medico-legal aspects of age - SGT/SDL/Integrated /Practical	27.03.25	
Pathology - SDL/SGT/ Practical/Integrated -: PA28.10 Describe the etiology, pathogenesis, pathology, laboratory findings, distinguishing features progression and complications of acute and chronic pyelonephritis and reflux nephropathy	28.03.25	
Alignment & Integration - Tuberculosis: PA 26.4 & 19.3: Identify features of Lymphadenitis; MI 6.2 Gram Staining and Sputum ZSN Staining	29.03.25	
HOLIDAY		
Pharmacology - SGT/SDL/Practical/Integrated: Ph 3.7 - Prepare a list of essential medicines for a healthcare facility	01.04.25	
Pharmacology (L): Ph 1.40 - Describe mechanism of action, types, doses, side effects, indications and contraindications of 1. Drugs used in the treatment of infertility, and 2. Drugs used in erectile dysfunction	AETCOM Session 2.8: What it means to be a family member of a Sick Patient? Department of Pharmacology	02.04.25
Community Medicine -(3.4-Describe the concept of solid waste, human excreta and sewage disposal); (7.2-Enumerate, describe and discuss the modes of transmission and measures for prevention and control of communicable and non-communicable diseases) SGT/SDL/Integrated /Practical	03.04.25	

JUN

Week 26

We

Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology OG 5.2F - Determine maternal high risk factors and verify immunization status.	Pathology (L)-PA28.6 Define and describe the etiology, pathogenesis, pathology, laboratory, urinary findings, progression and complications of IgA nephropathy; PA28.7 Enumerate and describe the findings in glomerular manifestations of systemic disease PA28.5 Define and classify glomerular diseases. Enumerate and describe the etiology, pathogenesis, mechanisms of glomerular injury, pathology, distinguishing features and clinical manifestations of glomerulonephritis	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Saturday	Pharmacology - SGT/SDL: Ph 1.41 - Describe the mechanisms of action, types, doses, side effects, indications and contraindications of uterine relaxants and stimulants	Pathology (L):- PA28.11 Define classify and describe the etiology, pathogenesis pathology, laboratory, urinary findings, distinguishing features progression and complications of vascular disease of the kidney	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination

L

Pathology - SDL/SGT/ Practical/Integrated -: PA28.10 Describe the etiology, pathogenesis, pathology, laboratory findings, distinguishing features progression and complications of acute and chronic pyelonephritis and reflux nephropathy	04.04.25
Alignment & Integration - Tuberculosis: PA 26.4 & 19.2 Stages and Morphology of Tuberculosis; PH 1.44 Antitubercular Drugs	05.04.25

Second Terminal Exam 07.04.25 - 26.04.25

Week 27

Monday	Medicine (L) IM01.27: Describe and discuss the role of penicillin prophylaxis in the prevention of rheumatic heart disease	Microbiology (L)-MI 8.5: Define Healthcare Associated Infections (HAI) and enumerate the types. Discuss the factors that contribute to the development of HAI and the methods for prevention	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Tuesday	Community Medicine (7.5-Enumerate, define, describe and discuss epidemiological study designs)	Pharmacology (L): Ph 1.42 - Describe general principles of chemotherapy	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Wednesday	SU 9.1 [C KH L] Choose appropriate biochemical, microbiological, pathological, imaging investigations and interpret the investigation data in a surgical patient.	Microbiology/ Forensic Medicine (L)/Microbiology-MI 8.5: Define Healthcare Associated Infections (HAI) and enumerate the types. Discuss the factors that contribute to the development of HAI and the methods for prevention	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Thursday	Pathology - SGT/SDL- PA27.6 Describe the etiology, pathophysiology, pathology, gross and microscopic features, diagnosis and complications of infective endocarditis; PA27.7 Describe the etiology, pathophysiology, pathology, gross and microscopic features, diagnosis and complications of pericarditis and pericardial effusion	Pharmacology (L): Ph 1.36: Describe the mechanism of action, types, doses, side effects, indications and contraindications of drugs used in endocrine disorders (diabetes mellitus, thyroid disorders and osteoporosis)	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination

LUNCH

Microbiology - SGT/SDL/Practical /Integrated/ MI 8.5: Define Healthcare Associated Infections (HAI) and enumerate the types. Discuss the factors that contribute to the development of HAI and the methods for prevention	28.04.25	
Pharmacology - SGT/SDL/Practical/Integrated: Ph 3.8 - Communicate effectively with a patient on the proper use of prescribed medication	29.04.25	
SGT/SDL Session /Forensic-FM3.1: IDENTIFICATION Define and describe Corpus Delicti, establishment of identity of living persons including race, Sex, religion, complexion, stature, age determination using morphology.	AETCOM Session 2.8: What it means to be a family member of a Sick Patient? Department of Pharmacology	30.04.25
Forensic Medicine- FM 3.1: IDENTIFICATION -Teeth- eruption, decay, bite marks, bones-ossification centres, medico-legal aspects of age - SGT/SDL/Integrated /Practical	01.05.25	

Week 28

Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology 6.1A - Describe, discuss and demonstrate the clinical features of pregnancy, derive and discuss its differential diagnosis, elaborate the principles underlying and interpret pregnancy tests.	Pathology (L):- PA28.8 Enumerate and classify diseases affecting the tubular Interstitium PA28.9 Define and describe the etiology, pathogenesis, pathology, laboratory, urinary findings, progression and complications of acute tubular necrosis	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination	Pathology - SDL/SGT/ Practical/Integrated -PA28.12 Define classify and describe the genetics, inheritance, etiology, pathogenesis, pathology, laboratory, urinary findings, distinguishing features, progression and complications of cystic disease of the kidney ; PA28.13 Define classify and describe the etiology, pathogenesis, pathology, laboratory, urinary findings, distinguishing features progression and complications of renal stone disease and obstructive uropathy	02.05.25	
Saturday	Pharmacology - SGT/SDL: Ph 1.42 - Describe general principles of chemotherapy; Ph 1.43 - Describe and discuss the rational use of antimicrobials including antibiotic stewardship program	Pathology (L)-PA28.15 Describe the etiology, genetics, pathogenesis, pathology, presenting features and progression of thrombotic angiopathies PA28.16 Describe the etiology, genetics, pathogenesis, pathology, presenting features and progression of urothelial tumors	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination	Alignment & Integration - Tuberculosis: PA 26.4 & 19.3: Identify features of Lymphadenitis; MI 6.2 Gram Staining and Sputum ZSN Staining	03.05.25	
Monday	Medicine (L): IM01.27: Describe and discuss the role of penicillin prophylaxis in the prevention of rheumatic heart disease; IM01.28: Enumerate the causes of adult presentations of congenital heart disease and describe the distinguishing features between cyanotic and acyanotic heart disease	Microbiology (L)-MI 8.6: Describe the basics of Infection control	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination	Microbiology - SGT/SDL/Practical /Integrated/MI 8.7: Demonstrate Infection control practices and use of Personal Protective Equipments (PPE)	05.05.25	
Tuesday	Community Medicine (L) 10.6-Enumerate and describe various family planning methods, their advantages and shortcomings	Pharmacology (L): Ph 1.43 - Describe and discuss the rational use of antimicrobials including antibiotic stewardship program	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination	Pharmacology - SGT/SDL/Practical/Integrated: Ph 4.1 - Administer drugs through various routes in a simulated environment using mannequins	06.05.25	
Wednesday	SU 9.2 [C KH L]Biological basis for early detection of cancer and multidisciplinary approach in management of cancer.	Forensic Medicine (L) - FM1.9: Documents for issuance of death certificate. -documents of Medical Certification of Cause of Death - Form Number4 and4A - documents for estimation of age by physical, dental and radiological examination and issuance of certificate.	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination	Pathology - SGT/SDL:- PA29.1 Classify testicular tumors and describe the pathogenesis, pathology, presenting and distinguishing features, diagnostic tests, progression and spread of testicular tumors	AETCOM Session 2.8: What it means to be a family member of a Sick Patient? Department of Pharmacology	07.05.25
Thursday	Pathology - SGT/SDL:- PA29.1 Classify testicular tumors and describe the pathogenesis, pathology, presenting and distinguishing features, diagnostic tests, progression and spread of testicular tumors	Pharmacology (L): Ph 1.44 - Describe the first line antitubercular drugs, their mechanisms of action, side effects and doses.	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination	Forensic Medicine/ Community Medicine -(10.6-Enumerate and describe various family planning methods, their advantages and shortcomings) SGT/SDL/Integrated /Practical	08.05.25	
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology Diagnosis of pregnancy:- OG 6.1B - Describe, discuss and demonstrate the clinical features of pregnancy, derive and discuss its differential diagnosis, elaborate the principles underlying and interpret pregnancy tests.	Pathology (L):- PA29.2 Describe the pathogenesis, pathology, presenting and distinguishing features, diagnostic tests, progression and spread of carcinoma of the penis	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination	Pathology - SDL/SGT/ Practical/Integrated -PA29.3 Describe the pathogenesis, pathology, hormonal dependency presenting and distinguishing features, urologic findings & diagnostic tests of benign prostatic hyperplasia PA29.5 Describe the etiology, pathogenesis, pathology and progression of prostatitis	09.05.25	
Saturday	Pharmacology - SGT/SDL: Ph 1.44 - Describe the first line antitubercular drugs, their mechanisms of action, side effects and doses.	Pathology (L)-PA29.4 Describe the pathogenesis, pathology, hormonal dependency presenting and distinguishing features, diagnostic tests, progression and spread of carcinoma of the prostate	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination	Alignment & Integration - Tuberculosis MI 6.1 & 4.1: Prevention of Infection; PH 1.44: MDR/XDR/ TB	10.05.25	

LUNCH

Week 29

Monday	Medicine (L) IM01.29: Elicit document and present an appropriate history, demonstrate correctly general examination, relevant clinical findings and formulate document and present a management plan for an adult patient presenting with a common form of congenital heart disease	Microbiology (L)-MI 8.8: Describe the methods used and significance of assessing the microbial contamination of food, water and air	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination	LUNCH	Microbiology - SGT/SDL/Practical /Integrated MI8.9: Discuss the appropriate method of collection of samples in the performance of laboratory tests in the detection of microbial agents causing infectious diseases	12.05.25
Tuesday	Community Medicine (7.5-Enumerate, define, describe and discuss epidemiological study designs); (7.8-Describe the principles of association, causation and biases in epidemiological studies)	Pharmacology (L): Ph 1.45 - Describe the drugs used in MDR and XDR Tuberculosis	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination		Pharmacology - SGT/SDL/Practical/Integrated: Ph 4.1 - Administer drugs through various routes in a simulated environment using mannequins	13.05.25
Wednesday	SU 9.3[C SH DOAP]Communicate the results of surgical investigations and counsel the patient appropriately.	Microbiology (L)-MI 8.8: Describe the methods used and significance of assessing the microbial contamination of food, water and air	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination		Microbiology (L)-MI 8.8: Describe the methods used and significance of assessing the microbial contamination of food, water and air AETCOM Session 2.8: What it means to be a family member of a Sick Patient? Department of Pharmacology	14.05.25
Thursday	Pathology - SGT/SDL-PA30.2 Describe the pathogenesis, etiology, pathology, diagnosis and progression and spread of carcinoma of the endometrium PA30.7 Describe the etiology, hormonal dependence, features and morphology of endometriosis	Pharmacology (L): Ph 1.47 - Describe the mechanisms of action, types, doses, side effects, indications and contraindications of the drugs used in malaria, KALA-AZAR, amebiasis and intestinal helminthiasis	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination		Forensic Medicine-FM 3.1: IDENTIFICATION -Teeth- eruption, decay, bite marks, bones-ossification centres, medico-legal aspects of age - SGT/SDL/Integrated /Practical ; FM 3.2: IDENTIFICATION Describe and discuss identification of criminals, unknown persons, dead bodies from the remains-hairs, fibers, teeth, anthropometry, Dactylography, foot prints, scars, tattoos, horoscopy and superimposition - SGT/SDL/Integrated /Practical	15.05.24
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology Maternal Changes in pregnancy:- OG 7.1A - Describe and discuss the changes in the genital tract, cardiovascular system, respiratory, haematology, renal and gastrointestinal system in	Pathology (L)-PA30.8 Describe the etiology and morphologic features of adenomyosis PA30.9 Describe the etiology, hormonal dependence and morphology of endometrial hyperplasia	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination		Pathology - SDL/SGT/ Practical/Integrated -PA30.1 Describe the epidemiology, pathogenesis, etiology, pathology, screening, diagnosis and progression of carcinoma of the cervix PA30.6 Describe the etiology and morphologic features of cervicitis	16.05.25
Saturday	Pharmacology - SGT/SDL: Ph 1.46 - Describe the mechanisms of action, types, doses, side effects, indications and contraindications of antileptotic drugs	Pathology (L)-PA30.4 Classify and describe the etiology, pathogenesis, pathology, morphology, clinical course, spread and complications of ovarian tumors	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination		Alignment & Integration - Tuberculosis MI 6.1 & 4.1: Prevention of Infection; PH 1.44: MDR/XDR/ TB Formative Assessment	17.05.25
Monday	Medicine (L) IM01.30: Administer an intramuscular injection with an appropriate explanation to the patient	Microbiology (L)- MI8.9: Discuss the appropriate method of collection of samples in the performance of laboratory tests in the detection of microbial agents causing infectious diseases	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination		Microbiology - SGT/SDL/Practical /Integrated/ MI 8.10: Demonstrate the appropriate method of collection of samples in the performance of laboratory tests in the detection of microbial agents causing Infectious diseases	19.05.25
Tuesday	Forensic Medicine (L) FM 1.10: Select appropriate cause of death in a particular scenario by referring ICD 10code. Write a correct cause of death certificate as per ICD 10 document.	Pharmacology (L): Ph 1.47 - Describe the mechanisms of action, types, doses, side effects, indications and contraindications of the drugs used in malaria, KALA-AZAR, amebiasis and intestinal helminthiasis	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination	Pharmacology - SGT/SDL/Practical/Integrated: Ph 4.2 - Demonstrate the effects of drugs on blood pressure (vasopressor and vaso-depressors with appropriate blockers) using computer Communication Topic: Pharmacology aided learning	20.05.25	

Week 30

Wednesday	SU 10.1 [K KH L]Describe the principles of perioperative management of common surgical procedures.	Microbiology (L)- MI8.9: Discuss the appropriate method of collection of samples in the performance of laboratory tests in the detection of microbial agents causing infectious diseases	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Thursday	Pathology - SGT/SDL:- PA30.5 Describe the etiology, pathogenesis, pathology, morphology, clinical course, spread and complications of gestational trophoblastic neoplasms	Pharmacology (L): Ph 1.47 - Describe the mechanisms of action, types, doses, side effects, indications and contraindications of the drugs used in malaria, KALA-AZAR, amebiasis and intestinal helminthiasis	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology Maternal Changes in pregnancy:- OG 7.1B - Describe and discuss the changes in the genital tract, cardiovascular system, respiratory, haematology, renal and gastrointestinal system in pregnancy	Pathology (L)-Assessment	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Saturday	Pharmacology - SGT/SDL: Ph 1.47 - Describe the mechanisms of action, types, doses, side effects, indications and contraindications of the drugs used in malaria, KALA-AZAR, amebiasis and intestinal helminthiasis	Pathology (L)-PA31.1 Classify and describe the types, etiology, pathogenesis, pathology and hormonal dependency of benign breast disease	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Monday	Medicine (L) IM02.1: Discuss and describe the epidemiology, antecedents and risk factors for atherosclerosis and ischemic heart disease	Microbiology (L)-MI 8.10: Demonstrate the appropriate method of collection of samples in the performance of laboratory tests in the detection of microbial agents causing Infectious diseases	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Tuesday	Community Medicine (L)10.6-Enumerate and describe various family planning methods, their advantages and shortcomings	Pharmacology (L): Ph 1.49 - Describe mechanism of action, classes, side effects, indications and contraindications of anticancer drugs	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Wednesday	SU 10.2 [SAC SH DOAP]Describe the steps and obtain informed consent in a simulated environment.; SU 10.3[S KH DOAP]Observe common surgical procedures and assist in minor surgical procedures.Observe emergency life saving procedures.	Microbiology (L)- MI8.9: Discuss the appropriate method of collection of samples in the performance of laboratory tests in the detection of microbial agents causing infectious diseases	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Thursday	Pathology - SGT/SDL-PA31.4 Enumerate and describe the etiology, hormonal dependency and pathogenesis of gynecomastia	Pharmacology (L): Ph 1.48 - Describe the mechanisms of action, types, doses, side effects, indications and contraindications of the drugs used in UTI/ STD and viral diseases including HIV	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination

LUNCH

LUNCH

Pharmacology - SGT/SDL: Ph 1.47 - Describe the mechanisms of action, types, doses, side effects, indications and contraindications of the drugs used in malaria, KALA-AZAR, amebiasis and intestinal helminthiasis	AETCOM Session 2.8: What it means to be a family member of a Sick Patient? Department of Pharmacology	21.05.25
Community Medicine -(10.6-Enumerate and describe various family planning methods, their advantages and shortcomings) SGT/SDL/Integrated /Practical		22.05.25
Pathology - SDL/SGT/ Practical/Integrated --PA30.3 Describe the pathogenesis, etiology, pathology, diagnosis and progression and spread of carcinoma of the leiomyomas and leiomyosarcomas		23.05.25
Alignment & Integration - Malaria: PA 10.2: Pathology of Malaria; PH 1.47: Antimalarial Drugs		24.05.25
Microbiology - SGT/SDL/Practical /Integrated/MI 8.10: Demonstrate the appropriate method of collection of samples in the performance of laboratory tests in the detection of microbial agents causing Infectious diseases		26.05.25
Pharmacology - SGT/SDL/Practical/Integrated: Ph 5.1 - Communicate with the patient with empathy and ethics on all aspects of drug use; Ph 5.2 - Communicate with the patient regarding optimal use of a) drug therapy, b) devices and c) storage of medicines		27.05.25
Pharmacology - SGT/SDL: Ph 1.47 - Describe the mechanisms of action, types, doses, side effects, indications and contraindications of the drugs used in malaria, KALA-AZAR, amebiasis and intestinal helminthiasis	AETCOM Session 2.8: What it means to be a family member of a Sick Patient? Department of Pharmacology	28.05.25
Forensic Medicine-FM3.4: Mechanical injuries and wounds: Define injury, assault & hurt. Describe IPC pertaining to injuries - SGT/SDL/Integrated /Practical		29.05.25

Week 31

Week 32

Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology Maternal Changes in pregnancy:- OG 7.1D - Describe and discuss the changes in the genital tract, cardiovascular system, respiratory, haematology, renal and gastrointestinal system in pregnancy OG 7.1C - Describe and discuss the changes in the genital tract, cardiovascular system, respiratory, haematology, renal and gastrointestinal system in pregnancy	Pathology (L)-PA23.3 Describe and interpret the abnormalities in a panel containing semen analysis, thyroid function tests, renal function tests or liver function tests	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination	Pathology - SDL/SGT/ Practical/Integrated -PA32.2 Describe the etiology, cause, iodine dependency, pathogenesis, manifestations, laboratory and imaging features and course of thyrotoxicosis. (Specimen and Slide - Colloid Goitre)	30.05.25
Saturday	Pharmacology - SGT/SDL: Ph 1.51 - Describe occupational and environmental pesticides, food adulterants, pollutants and insect repellents	Pathology (L)-PA31.2 Classify and describe the epidemiology, pathogenesis, classification, morphology, prognostic factors, hormonal dependency, staging and spread of carcinoma of the breast PA32.1 Enumerate, classify and describe the etiology, pathogenesis, pathology and iodine dependency of thyroid swellings	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination	Alignment & Integration - Malaria MI12.5: Causative Agent of malaria; PH 1.47: Antimalarial Drugs PA 10.2 Pathogenesis of Malaria	31.05.25
Monday	Medicine (L) IM02.2: Discuss the aetiology of risk factors both modifiable and non modifiable of atherosclerosis and IHD	Microbiology (L)-MI 8.11: Demonstrate respect for patient s p p amples sent to the laboratory	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination	Microbiology - SGT/SDL/Practical /Integrated/MI 8.11: Demonstrate respect for patient s p p amples sent to the laboratory	02.06.25
Tuesday	Community Medicine (L)10.6-Enumerate and describe various family planning methods, their advantages and shortcomings	Pharmacology (L): Ph 1.49 - Describe mechanism of action, classes, side effects, indications and contraindications of anticancer drugs	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination	Pharmacology - SGT/SDL/Practical/Integrated: Ph 5.1 - Communicate with the patient with empathy and ethics on all aspects of drug use; Ph 5.2 - Communicate with the patient regarding optimal use of a) drug therapy, b) devices and c) storage of medicines	03.06.25
Wednesday	SU 11.1[K KH L]Describe principles of perioperative assessment. 11.3[S SH DOAP]Demonstrate maintenance of an airway in a mannequin or equivalent.	Microbiology (L)-MI 8.14: Demonstrate confidentiality pertaining to patient identity in laboratory results	Clinical Posting (P): In Three Groups (with Three Hours of skill lab posting every week) : Orthopedics, Dermatology & Dentistry: History, Examination, Procedures	Pharmacology (L): Ph 1.56 - Describe basic aspects of Geriatric and Pediatric pharmacology Alignment & Integration - AITO - Diarrhea	04.06.25
Thursday	Pathology - SGT/SDL:- PA32.3 Describe the etiology, pathogenesis, manifestations, laboratory and imaging features and course of thyrotoxicosis/hypothyroidism; Pathology (L)-PA32.5 Describe the etiology, genetics, pathogenesis, manifestations, laboratory and morphologic features of hyperparathyroidism	Pharmacology (L): Ph 1.49 - Describe mechanism of action, classes, side effects, indications and contraindications of anticancer drugs; Ph 1.52: Describe management of common poisoning, insecticides, common sting and bites	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination	Community Medicine -(10.6-Enumerate and describe various family planning methods, their advantages and shortcomings) SGT/SDL/Integrated /Practical	05.06.25
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology Maternal Changes in pregnancy:- OG 7.1D - Describe and discuss the changes in the genital tract, cardiovascular system, respiratory, haematology, renal and gastrointestinal system in pregnancy OG 7.1C - Describe and discuss the changes in the genital tract, cardiovascular system, respiratory, haematology, renal and gastrointestinal system in pregnancy	Pathology (L)-PA23.3 Describe and interpret the abnormalities in a panel containing semen analysis, thyroid function tests, renal function tests or liver function tests	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination	Pathology - SDL/SGT/ Practical/Integrated -PA32.2 Describe the etiology, cause, iodine dependency, pathogenesis, manifestations, laboratory and imaging features and course of thyrotoxicosis. (Specimen and Slide - Colloid Goitre)	06.06.25
Saturday	HOLIDAY			HOLIDAY	
Monday	Medicine (L) IM02.3: Discuss and describe the lipid cycle and the role of dyslipidemia in the pathogenesis of atherosclerosis	Microbiology (L)-MI 8.12: Discuss confidentiality pertaining to patient identity in laboratory results	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination	Microbiology - SGT/SDL/Practical /Integrated/MI 8.12: Discuss confidentiality pertaining to patient identity in laboratory results	09.06.25

LUNCH

Week 33

Tuesday	Community Medicine (7.2-Enumerate, describe and discuss the modes of transmission and measures for prevention and control of communicable and non-communicable diseases)	Pharmacology (L): Ph 1.50 - Describe mechanisms of action, types, doses, side effects, indications and contraindications of immunomodulators and management of organ transplant rejection	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Wednesday	SU 10.4[S P DOAP]Perform basic surgical skills such as first aid including suturing and minor surgical procedures in simulated environment.	Microbiology (L)-MI 8.13: Choose the appropriate laboratory test in the diagnosis of the infectious disease	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Thursday	Pathology - SGT/SDL-PA32.4 Classify and describe the epidemiology, etiology, pathogenesis, pathology, clinical laboratory features, complications and progression of diabetes mellitus.	Pharmacology (L): Ph 1.54 - Describe vaccines and their uses: Ph 1.53: Describe heavy metal poisoning and chelating agents	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology Maternal Changes in pregnancy:- OG 7.1E - Describe and discuss the changes in the genital tract, cardiovascular system, respiratory, haematology, renal and gastrointestinal system in pregnancy	Pathology (L)-PA32.4 Classify and describe the epidemiology, etiology, pathogenesis, pathology, clinical laboratory features, complications and progression of diabetes mellitus. (PART - II)	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Saturday	Pharmacology - SGT/SDL: Ph 1.55 - Describe and discuss the following National Health Programmes including Immunisation, Tuberculosis, Leprosy, Malaria, HIV, Filaria, Kala Azar, Diarrhoeal diseases, Anaemia & nutritional disorders, Blindness, Non-communicable diseases, cancer and Iodine deficiency	Pathology (L)-PA33.3 Classify and describe the etiology, pathogenesis, manifestations, radiologic and morphologic features and complications and metastases of soft tissue tumors	Clinical Posting (P): In Three Groups (with Three Hours of skill lab posting every week) : Orthopedics, Dermatology & Dentistry: History, Examination, Procedures
Monday	Medicine (L) IM02.4: Discuss and describe the pathogenesis natural history, evolution and complications of atherosclerosis and IHD IM02.7: Perform, demonstrate and document a physical examination including a vascular and cardiac examination that is appropriate for the clinical presentation	Microbiology (L)-MI 8.14: Demonstrate confidentiality pertaining to patient identity in laboratory results	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Tuesday	Forensic Medicine (L) FM 2.2&2.3: Describe and discuss natural and unnatural deaths. Describe and discuss issues related to sudden natural deaths.	Pharmacology (L): Ph 1.55 - Describe and discuss the following National Health Programmes including Immunisation, Tuberculosis, Leprosy, Malaria, HIV, Filaria, Kala Azar, Diarrhoeal diseases, Anaemia & nutritional disorders, Blindness, Non-communicable diseases, cancer and Iodine deficiency	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Wednesday	SU 11.1[K KH L]Describe principles of perioperative assessment. 11.3[S SH DOAP]Demonstrate maintenance of an airway in a mannequin or equivalent.	Microbiology (L)-MI 8.14: Demonstrate confidentiality pertaining to patient identity in laboratory results	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination

LUNCH

UNCH

Pharmacology - SGT/SDL/Practical/Integrated: Ph 5.3 - Motivate patients with chronic diseases to adhere to the prescribed management by the health care provider		10.06.25
SGT/SDL Session - MI 8.13: Choose the appropriate laboratory test in the diagnosis of the infectious disease	Alignment & Integration - Malaria (MI: 12.5 Lab Diagnosis of Malaria); MI 12.6 (Identification); PA: 10.2 (Pathology of Malaria)	11.06.25
Forensic Medicine-Mechanical injuries and wounds: Describe accidental, suicidal and homicidal injuries. Describe simple, grievous and dangerous injuries. Describe ante-mortem and post-mortem injuries / Community Medicine - SGT/SDL/Integrated /Practical		12.06.25
Pathology - SDL/SGT/ Practical/Integrated - PA32.4 Classify and describe the epidemiology, etiology, pathogenesis, pathology, clinical laboratory features, complications and progression of diabetes mellitus. (PART - III)		13.06.25
Alignment & Integration - Anemia: PY2.3-2.5: Describe and discuss the synthesis and functions of Hemoglobin and explain its breakdown. Describe variants of hemoglobin; PE13.6 & 29.1: Discuss the National Anaemia Control Program and its recommendations; CM 8.3: Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case		14.06.25
Microbiology - SGT/SDL/Practical /Integrated/MI 8.14: Demonstrate confidentiality pertaining to patient identity in laboratory results		16.06.25
Pharmacology - SGT/SDL/Practical/Integrated: Ph 5.4 - Explain to the patient the relationship between cost of treatment and patient compliance		17.06.25
Pharmacology (L): Ph 1.56 - Describe basic aspects of Geriatric and Pediatric pharmacology	Alignment & Integration - AITO - Diarrhea	18.06.25

Week 34

W

Thursday	Pathology - SGT/SDL-Assessment	Pharmacology (L): Ph 1.56 - Describe basic aspects of Geriatric and Pediatric pharmacology	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology Antenatal Care:- OG 8.1A - Enumerate, describe and discuss the objectives of antenatal care, assessment of period of gestation; screening for high-risk factors.	Pathology (L):- PA32.9 Describe the etiology, pathogenesis, manifestations, laboratory and morphologic features of adrenal neoplasms	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Saturday	Pharmacology - SGT/SDL: Ph 1.55 - Describe and discuss the following National Health Programmes including Immunisation, Tuberculosis, Leprosy, Malaria, HIV,Filaria, Kala Azar, Diarrhoeal diseases, Anaemia & nutritional disorders, Blindness, Non-communicable diseases, cancer and Iodine deficiency	Pathology (L)-PA33.3 Classify and describe the etiology, pathogenesis, manifestations, radiologic and morphologic features and complications and metastases of soft tissue tumors	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Monday	Medicine (L) IM02.4: Discuss and describe the pathogenesis natural history, evolution and complications of atherosclerosis and IHD IM02.7: Perform, demonstrate and document a physical examination including a vascular and cardiac examination that is appropriate for the clinical presentation	Microbiology (L)-MI 8.14: Demonstrate confidentiality pertaining to patient identity in laboratory results	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Tuesday	Community Medicine (7.2-Enumerate, describe and discuss the modes of transmission and measures for prevention and control of communicable and non-communicable diseases)	Pharmacology - SGT/SDL: Ph 1.55 - Describe and discuss the following National Health Programmes including Immunisation, Tuberculosis, Leprosy, Malaria, HIV,Filaria, Kala Azar, Diarrhoeal diseases, Anaemia & nutritional disorders, Blindness, Non-communicable diseases, cancer and Iodine deficiency	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Wednesday	SU 11.2 [K KH L]Enumerate the principles of general,regional and local Anaesthesia.	Microbiology (L)-8.15: Choose and Interpret the results of the laboratory tests used in diagnosis of the infectious diseases; MI 8.16: Describe the National Health Programs in the prevention of common infectious disease	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Thursday	Pathology - SGT/SDL-PA33.4 Classify and describe the etiology, pathogenesis, manifestations, radiologic and morphologic features and complications of Paget's disease of the bone (Assessment)	Pharmacology (L): Ph 1.58 - Describe drugs used in Ocular disorders	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination

Week 35

I

LUNCH

Community Medicine -(7.2-Enumerate, describe and discuss the modes of transmission and measures for prevention and control of communicable and non- communicable diseases) SGT/SDL/Integrated /Practical	19.06.25
Pathology - SDL/SGT/ Practical/Integrated -PA32.6 Describe the etiology, pathogenesis, manifestations, laboratory, morphologic features, complications and metastases of pancreatic cancer	20.06.25
Alignment & Integration - Anemia: PY2.3-2.5: Describe and discuss the synthesis and functions of Hemoglobin and explain its breakdown. Describe variants of hemoglobin; PE13.6 & 29.1: Discuss the National Anaemia Control Program and its recommendations; CM 8.3: Enumerate and describe disease specific National Health Programs including their prevention and treatment of a case	21.06.25
Microbiology - SGT/SDL/Practical /Integrated/MI 8.14: Demonstrate confidentiality pertaining to patient identity in laboratory results	23.06.25
Pharmacology - SGT/SDL/Practical/Integrated: Ph 5.4 - Explain to the patient the relationship between cost of treatment and patient compliance	24.06.25
SGT/SDL Session Forensic-FM 3.6: Mechanical injuries and wounds: Describe healing of injury and fracture of bones with its medico-legal importance	25.06.25
Alignment & Integration - Anemia: IM9.2: Describe and discuss the morphological characteristics, aetiology and prevalence of each of the causes of anemia; PA 13.4: Enumerate and describe the investigation of anemia	
Forensic Medicine-FM 3.7: Describe factors influencing infliction of injuries and healing, examination and certification of wounds and wound as a cause of death: Primary and Secondary, Mechanical injuries and wounds: Describe and discuss different types of weapons including dangerous weapons and their examination / Community Medicine - SGT/SDL/Integrated /Practical	26.06.25

Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology Antenatal Care:- OG 8.1B - Enumerate, describe and discuss the objectives of antenatal care, assessment of period of gestation; screening for high-risk factors. OG 8.2B - Elicit document and present an obstetric history including menstrual history, last menstrual period, previous obstetric history, comorbid conditions, past medical history and surgical history	Pathology (L):- PA32.7 Describe the etiology, pathogenesis, manifestations, laboratory, morphologic features, complications of adrenal insufficiency PA32.8 Describe the etiology, pathogenesis, manifestations, laboratory, morphologic features, complications of Cushing's syndrome	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Saturday	Pharmacology - SGT/SDL: Ph 1.59 - Describe and discuss the following: Essential medicines, Fixed dose combinations, Over the counter drugs, Herbal medicines	Pathology (L):- PA33.2 Classify and describe the etiology, pathogenesis, manifestations, radiologic and morphologic features and complications and metastases of bone tumors	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Monday	Medicine (L) IM02.6: Elicit document and present an appropriate history that includes onset evolution, presentation risk factors, family history, comorbid conditions, complications, medication, history of atherosclerosis, IHD and coronary syndromes IM02.8: Generate document and present a differential diagnosis based on the clinical presentation and prioritise based on "cannot miss", most likely diagnosis and severity	Microbiology (L)-MI 8.16: Describe the National Health Programs in the prevention of common infectious disease	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Tuesday	Community Medicine (L) 3.2-Describe concepts of safe and wholesome water, sanitary sources of water, water purification processes, water quality standards, concepts of water conservation and rainwater harvesting 7.2-Enumerate, describe and discuss the modes of transmission and measures for prevention and control of communicable and non- communicable diseases)	Pharmacology (L): Ph 1.60 - Describe and discuss Pharmacogenomics and Pharmacoeconomics Ph 1.64 - Describe overview of drug development, Phases of clinical trials and Good Clinical Practice	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Wednesday	SU 11.3[S SH DOAP]Demonstrate maintenance of an airway in a mannequin or equivalent. 11.4[K KH L]Enumerate the indications and principles of day care General surgery.	Forensic Medicine (L) FM2.4: Describe salient features of the Organ Transplantation and The Human Organ Transplant (Amendment) Act 2011 and discuss ethical issues regarding organ donation. Discuss moment of death, modes of death - coma, asphyxia and syncope.	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination
Thursday	Pathology - SGT/SDL:-PA34.4 Identify, distinguish and describe common tumors of the skin (Assessment); -PA35.1Describe the etiology, types and pathogenesis, differentiating factors, CSF findings in meningitis	Pharmacology (L): Ph 1.61 - Describe and discuss dietary supplements and nutraceuticals Ph 1.62 - Describe and discuss antiseptics and disinfectants	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination

Pathology - SDL/SGT/ Practical/Integrated -PA33.1 Classify and describe the etiology, pathogenesis,manifestations, radiologic and morphologic features and complications of osteomyelitis; PA35.3 Identify the etiology of meningitis based on given CSF parameters	27.06.25
Alignment & Integration - Anemia PA13.5: Perform, Identify and describe the peripheral blood picture in anemia; IM 9.7: Describe and discuss the meaning and utility of various components of the haemogram	28.06.25
Microbiology - SGT/SDL/Practical /Integrated/MI 8.15: Choose and Interpret the results of the laboratory tests used in diagnosis of the infectious diseases	30.06.25
Pharmacology - SGT/SDL/Practical/Integrated: Ph 5.5 - Demonstrate an understanding of the caution in prescribing drugs likely to produce dependence and recommend the line of management; Ph 5.6 - Demonstrate ability to educate public & patients about various aspects of drug use including drug dependence and OTC drugs Ph 5.7 - Demonstrate an understanding of the legal and ethical aspects of prescribing drugs	01.07.25
SGT/SDL Session /Community-(3.2-Describe concepts of safe and wholesome water, sanitary sources of water, water purification processes, water quality standards, concepts of water conservation and rainwater harvesting)	02.07.25
Alignment & Integration - Anemia: PH 1.25: Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs acting on blood : IM 9.8: Describe and discuss the various tests for iron deficiency	
Community Medicine -(7.2-Enumerate, describe and discuss the modes of transmission and measures for prevention and control of communicable and non- communicable diseases) SGT/SDL/Integrated /Practical	03.07.25

Friday	Obstetrics & Gynecology (L)-Obstetrics & Gynecology OG 8.2A - Elicit document and present an obstetric history including menstrual history, last menstrual period, previous obstetric history, comorbid conditions, past medical history and surgical history OG 8.3A - Describe, demonstrate, document and perform an obstetric examination including a general and abdominal examination and clinical monitoring of maternal and fetal well-being;	Pathology (L)-PA34.3 Describe the distinguishing features between a nevus and melanoma. Describe the etiology, pathogenesis, risk factors morphology clinical features and metastases of melanoma PA35.2 Classify and describe the etiology, genetics, pathogenesis, pathology, presentation sequelae and complications of CNS tumors (Assessment)	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination	Pathology - SDL/SGT/ Practical/Integrated -PA34.1 Describe the risk factors pathogenesis, pathology and natural history of squamous cell carcinoma of the skin PA34.2 Describe the risk factors pathogenesis, pathology and natural history of basal cell carcinoma of the skin (Slide and Specimen) PA36.1 Describe the etiology, genetics, pathogenesis, pathology, presentation, sequelae and complications of retinoblastoma	04.07.25
Saturday	Pharmacology (L): Ph 1.57 - Describe drugs used in skin disorders Ph 1.63 - Describe Drug Regulations, acts and other legal aspects	Pathology (L)-PA35.2 Classify and describe the etiology, genetics, pathogenesis, pathology, presentation sequelae and complications of CNS tumors (Assessment)	Clinical Posting (P): In Three Groups (with Three Hours of posting in Skill Lab/week): Community Medicine; Pediatrics, Orthopedics, Dermatology and Dentistry: History Taking and Examination	Alignment & Integration - Anemia: PH 1.25: Describe the mechanism/s of action, types, doses, side effects, indications and contraindications of the drugs acting on blood : IM 9.8: Describe and discuss the various tests for iron deficiency	05.07.25

Pre University Exams from 07.07.25 onwards followed by University Exams from Second Week of August 2025

Teerthanker Mahaveer Medical College & Research Center

Teerthanker Mahaveer University

Delhi Road, Moradabad - 244001

Time Table Schedule (Phase 2nd MBBS as per New Curriculum w.e.f AUGUST 2019) Batch 2023-24 w.e.f. 02.09.2024 (36 Weeks)

Week 1	Monday	IM 11.1: Perform and demonstrate a systematic examination based on the history that will help establish the diagnosis and estimate its severity including: measurement of pulse, blood pressure and respiratory rate, jugular venous forms and pulses, peripheral pulses, conjunctiva and fundus, lung, cardiac examination including palpation and auscultation with identification of heart sounds and murmurs, abdominal distension and splenic palpation	Unit 1 (Dr. V K Singh)
	Tuesday		Unit 5 (Dr. A Kumar)
	Wednesday		Unit 5 (Dr. A Kumar)
	Thursday		Unit 1 (Dr. V K Singh)
	Friday		Unit 1 (Dr. V K Singh)
	Saturday		Unit 5 (Dr. A Kumar)
	Monday		Unit 1 (Dr. V K Singh)
Week 2	Tuesday	Unit 5 (Dr. A Kumar)	
	Wednesday	Unit 1 (Dr. V K Singh)	
	Thursday	Unit 5 (Dr. A Kumar)	
	Friday	Unit 2 (Dr. Vishvanayak)	
	Saturday	Unit 2 (Dr. Vishvanayak)	
	Monday	Unit 2 (Dr. Vishvanayak)	
	Tuesday	Unit 2 (Dr. Vishvanayak)	
Week 3	Wednesday	Unit 2 (Dr. Vishvanayak)	
	Thursday	Unit 3 (Dr. K Gopal)	
	Friday	Unit 3 (Dr. K Gopal)	
	Saturday	Unit 3 (Dr. K Gopal)	
	Monday	Unit 3 (Dr. K Gopal)	
	Tuesday	Unit 4 (Dr. J Haria)	
	Wednesday	Unit 4 (Dr. J Haria)	
Week 4	Thursday	Unit 4 (Dr. J Haria)	
	Friday	Unit 4 (Dr. J Haria)	
	Saturday	Unit 4 (Dr. J Haria)	
	Monday	Unit 1 (Dr. V K Singh)	
	Tuesday	Unit 5 (Dr. A Kumar)	
	Wednesday	Unit 5 (Dr. A Kumar)	
	Thursday	Unit 1 (Dr. V K Singh)	
Week 5	Friday	Unit 1 (Dr. V K Singh)	
	Saturday	Unit 5 (Dr. A Kumar)	
	Monday	Unit 1 (Dr. V K Singh)	
	Tuesday	Unit 5 (Dr. A Kumar)	
	Wednesday	Unit 1 (Dr. V K Singh)	
	Thursday	Unit 5 (Dr. A Kumar)	
	Friday	Unit 2 (Dr. Vishvanayak)	
Week 6	Saturday	Unit 2 (Dr. Vishvanayak)	
	Monday	Unit 2 (Dr. Vishvanayak)	
	Tuesday	Unit 2 (Dr. Vishvanayak)	
	Wednesday	Unit 2 (Dr. Vishvanayak)	
	Thursday	Unit 3 (Dr. K Gopal)	
	Friday	Unit 3 (Dr. K Gopal)	
	Saturday	Unit 3 (Dr. K Gopal)	
Week 7	Monday	Unit 3 (Dr. K Gopal)	

A Batch of 10 students will be allocated to each unit of medicine and they would further be distributed in five faculty members of each unit and would be assigned the bed number of patients whom they would follow as per competencies decided

Students are divided into Three Groups with Each posting of 7 +2 weeks from 02.09.24 to 19.10.24; 21.10.24 to 14.12.24 and 16.12.24 to 22.02.25 and 24.02.25 to 08.03.25; 17.03.25 to 29.03.25 and 31.3.25 to 03.05.25

Week 8	Tuesday	pressure in valvular heart disease and other causes of heart failure and cardiac tamponade and Ward Relieving	Unit 4 (Dr. J Haria)	
	Wednesday		Unit 4 (Dr. J Haria)	
	Thursday		Unit 4 (Dr. J Haria)	
	Friday		Unit 4 (Dr. J Haria)	
	Saturday		Unit 4 (Dr. J Haria)	
	Diwali Vacations 28.10.24-02.11.24			
Week 9	Monday	IM 1.13: Measure the blood pressure accurately, recognise and discuss alterations in blood pressure in valvular heart disease and other causes of heart failure and cardiac tamponade and Ward Relieving	Unit 1 (Dr. V K Singh)	
	Tuesday		Unit 1 (Dr. V K Singh)	
	Wednesday		Unit 1 (Dr. V K Singh)	
	Thursday		Unit 1 (Dr. V K Singh)	
	Friday		Unit 1 (Dr. V K Singh)	
	Saturday		Unit 1 (Dr. V K Singh)	
Week 10	Monday	SU 4.1 History and examination of burn patient	Unit 2 (Dr. V Kumar)	
	Tuesday		Unit 2 (Dr. V Kumar)	
	Wednesday		Unit 2 (Dr. V Kumar)	
	Thursday		Unit 2 (Dr. V Kumar)	
	Friday		Unit 2 (Dr. V Kumar)	
	Saturday		Unit 2 (Dr. V Kumar)	
Week 11	Monday	SU 5.2 History and examination of wound/ulcer	Unit 1 (Dr. N K Singh)	
	Tuesday		Unit 1 (Dr. N K Singh)	
	Wednesday		Unit 1 (Dr. N K Singh)	
	Thursday		Unit 1 (Dr. N K Singh)	
	Friday		Unit 1 (Dr. N K Singh)	
	Saturday		Unit 1 (Dr. N K Singh)	
Week 12	Monday	SU 5.2 History and examination of wound/ulcer	Unit 1 (Dr. N K Singh)	
	Tuesday		Unit 1 (Dr. N K Singh)	
	Wednesday		Unit 1 (Dr. N K Singh)	
	Thursday		Unit 1 (Dr. N K Singh)	
	Friday		Unit 1 (Dr. N K Singh)	
	Saturday		Unit 1 (Dr. N K Singh)	
Week 13	Monday		Unit 3 (Dr. R K Kaul)	Students are divided into Three Groups with Each posting of 7 +2 weeks from 02.09.24 to 19.10.24;
	Tuesday		Unit 3 (Dr. R K Kaul)	
	Wednesday		Unit 3 (Dr. R K Kaul)
