FROM THE DESK OF THE MANAGEMENT

It is my firm belief that harmonious development of the society can be achieved by enlightenment of the individual heart, mind and soul. This has become a pre-requisite in today's fast changing world where material gains have outplaced basic human values. I am of the firm opinion that education being a powerful instrument of socio-economic change can transform the attitude, thinking and life style of the people and society. Knowledge gained by individuals makes them more flexible in their thinking and decision making thereby making the mother earth a healthier place to live.

I have always dreamt of empowering the society with enlightened, skillful and socially relevant citizens, which can be possible only by educating the masses. As such, we initiated in this benign task of reconstructing the social order by providing educational establishments, thus contributing to the development of nation in our own humble way. Teerthanker Mahaveer University has taken the task of developing human capital in tune with the requirements of industry and the society by integrating the basic principles of Right Philosophy, Right Knowledge and Right Conduct in its policies and programs.

The University stands for humanism, tolerance, reason, adventure of ideas and the search of truth. We ensure that multitude of students study in a tolerant but encouraging environment that provides adequate liberty for individual ambition and lifestyle. The multi-disciplinary approach of our curriculum, focuses on experiential learning, leveraging of ICT for better content delivery, and provisions for sports and extracurricular activities which are integral components of the learning process.

I extend my best wishes to all the aspirants and assure that under the mentor-ship of dedicated faculty of this prestigious University they shall be able to take full advantage of opportunities offered to them.

FROM THE DESK OF THE MANAGEMENT

With an objective to provide quality education, we resolved to establish a repository of knowledge and diverse activities of human interest encompassing academics, art & culture, sports and community services that are vital to academic, physical and mental development of the students of new age. Knowledge acquired in an inspiring environment through considerably designed courses help to augment the inherent talent of the learner and sharpen the skill set enabling them to acquire a meaningful place in society, leading to a cheerful personal and professional life.

I strongly believe that success of an educational system hinges on effective planning, efficient administration, adequate financing and authentic evaluation system. It is gratifying to note that we have been able to develop proper system of learning in the University, which promotes brilliance and enables us to develop trust, fairness, respect and accountability among all the stakeholders. Massive infrastructure created in terms of spacious academic and residential buildings, laboratories, language labs, shopping center and cafeteria besides auditorium, indoor/outdoor sports complexes has proved to be a catalyst in holistic and overall development of the students. Students from all the corners of the country as well as from overseas experience a simulating environment that is conducive for everyone to excel. The green, secure campus further adds to their creditable learning experience.

We call upon all the aspirants to avail the opportunities provided by this university in building their career and to serve the society.

FROM THE DESK OF THE MANAGEMENT

Progressively evolving globalised community and the dynamic nature of contemporary competitive environment requires competent professionals who are capable of challenging the status quo. This in turn, requires a re-look on the conventional ways of imparting higher education in the country. As academic leaders and higher education administrators, we carry the responsibility to look beyond just classroom teaching supplemented with practical/laboratory hours. Regular inputs in the shape of interdisciplinary exposure, soft skills, liberal choice of courses, flexible schedules, community and social service, extension activities etc. have become the order of the day to prepare a complete professional having adequate social relevance.

TMU has adopted all this in its functioning and works beyond just building awe-inspiring physical infrastructure by developing a campus culture that treasures skilled learning providing better opportunities, henceforth, enhancing proficiency and superiority of our students. We are relentlessly geared for continuous up-gradation of our resources and leverage emerging technologies to improve the efficiency and effectiveness. All the programs of study as well as their delivery mechanism and learning outcomes are designed to take-on the challenges of life.

I believe that rigors of the contemporary world require professionals not to end their quest for knowledge along with their stay in the campus. The dynamics of the fast-changing world urges the academicians to give the right impetus for making life-long learners out of students. In addition to creating fertile minds for professional and personal success we have committed ourselves to create responsible citizens who are the epitome of highest ethics and social conduct. Thus, the responsibility lies with us to nurture complete professionals. I can proudly state that we are fully equipped and motivated to handle this challenge and surely be successful.

I welcome all the students who chose to be a part of this premier University, I am sure that you will feel proud on being associated with us and make us equally proud with your academic excellence.

Prof. Raghuvir Singh, Officiating Vice Chancellor
