## PhD PROGRAMME

## SYLLABUS FOR DISCIPLINE-SPECIFIC COURSE ORAL & MAXILLOFACIAL SURGERY

Course Code:	ORAL & MAXILLOFACIAL SURGERY	L	Τ	P	C
PDS240118		0	0	0	4
Objective:	The Training Program in Oral and Maxillofacial Surgery is str Achieve the following five objectives:	uctu	rea	10	
	Knowledge				
	Skills				
	Attitude				
	Communicative Skills and Ability				
Course Outcomes:	Research				
Course Outcomes:					
Co 1:	To obtain proper clinical history and methodical examination	on of	f the	e pat	ient,
	perform essential diagnostic procedures, order relevant labor				
	interpret them, and arrive at a reasonable diagnosis of the surg	ical	conc	litio	1.
Co 2:	To perform competent Minor Oral Surgical Procedures				
	Maxillofacial Surgery. To treat both Surgically and Medically	/ the	pro	blen	ıs of
	the Oral and Maxillofacial and the related areas.				
Co 3:	To diagnose and interpret Clinical, Radiological, and	Histo	opatl	holo	gical
	Diagnoses for Comprehensive Treatment Planning of disease	s of	the	Oral	and
<u> </u>	Maxillofacial Region.				
Co 4:	To be capable of providing care for Maxillofacial Surgery pati	ents.			
Co 5:	To develop an attitude to adopt Ethical Principles in all as	pect	s of	Sur	gical
	Practice, Professional Honesty and Integrity are to be fostered				
	to be delivered irrespective of the social status, caste, creed,	or re	eligio	on o	f the
	patient.				
<b>Course Content:</b>					
Unit 1:	Principles Of Surgery:				
	Developing A Surgical Diagnosis, Basic Necessities for				
	Technique, Incisions, Flap Design Tissue Handling, Haemosta				
	Management, Decontamination and Debridement, Suturing,	Ede	ema	Cor	trol,
	Patient General Health and Nutrition.				
	Medical Emergencies:				
	Prevention And Management of Altered Consciousness (Syn	-			
	Hypotension, Seizures, Diabetes Mellitus, Adrenal Hypersensitivity Reactions, Chest Discomfort, And Respirator				ncy),
	Examination And Diagnosis:				
	Clinical History, Physical and Radiographic, Clinical Diagnosis, Oral Manifestations of Systemic Diseases, Implica				

Diseases In Surgical Patients. Haemorrhage And Shock: Applied Physiology, Clinical Abnormalities of Coagulation, Extra Vascular Hemorrhage, And Hemorrhagic Lesions, Management of Secondary Hemorrhage, Shock.
<b>Exodontia:</b> Principles Of Extraction, Indications and Contraindications, Types of Extraction, Complications and Their Management, Principles Of Elevators And Elevators Used In Oral Surgery.
Impaction: Surgical Anatomy, Classification, Indications and Contraindications, Diagnosis, Procedures, Complications and Their Management. Surgical Aids to Eruption of Teeth: Surgical Exposure Of Unerupted Teeth, SurgicalRepositioning Of Partially Erupted Teeth. Transplantation Of Teeth
Surgical Endodontics: Indications And Contraindications, Diagnosis, Procedures Of Periradicular Surgery
Preprosthetic Surgery:
Requirements, Types (Alvoloplasty, Tuberosity Reduction, Mylohyoid Ridge Reduction, Genial Reduction, Removal Of Exostosis, Vestibuloplasty)
<b>Procedures To Improve Alveolar Soft Tissues:</b> Hypermobile Tissues- Operative / Sclerosing Method, Epulis Fissuratum, Frenectomy And Frenotomy ,
<b>Infection of Head and Neck:</b> Odontogenic and Non Odontogenic Infections, Factors Affecting Spread Of Infection, Diagnosis And Differential Diagnosis, Management Of Facial Space Infections, Ludwig Angina, Cavernous Sinus Thrombosis.
<b>Chronic Infections of The Jaws:</b> Osteomyelitis (Types, Etiology, Pathogenesis, Management) Osteoradionecrosis
Maxillary Sinus: Maxillary Sinusitis - Types, Pathology, Treatment, Closure of Oro – Antral Fistula, Caldwell- Luc Operation
<b>Cysts Of the Orofacial Region:</b> Classification, Diagnosis, Management of Okc, Dentigerous, Radicular, Non Odontogenic, Ranula
<b>Neurological Disorders of The Maxillofacial Region:</b> Diagnosis and Management of Trigeminal Neuralgia, Mpds, Bell's Palsy, Frey's Syndrome, Nerve Injuries.
<b>Implantology:</b> Definition, Classification, Indications and Contraindications, Advantages and Disadvantages, Surgical Procedure. Anesthesia
Local Anesthesia: Classification Of Local Anesthetic Drugs, Mode of Action, Indications and Contra Indications, Advantages and Disadvantages, Techniques, Complications And Their Management.

Unit 2:	
1	Salivary Gland:
	Sialography
	Salivary Fistula and Management
	Diseases Of Salivary Gland - Developmental Disturbances, Cysts,
	Inflammation and Sialolithiasis
	Mucocele And Ranula
	Tumors Of Salivary Gland and Their Management
	Staging Of Salivary Gland Tumors
	Parotidectomy
Unit 3:	Temporomandibular Joint:
Unit 5:	
	Etiology, History Signs, Symptoms, Examination and Diagnosis of
	Temporomandibular JointDisorders
	Ankylosis And Management of The Same with Different Treatment
	Modalities
	MPDS And Management
	Condylectomy - Different Procedures
	Various Approaches to Tmj
	Recurrent Dislocations - Etiology and Management
Unit 4:	
Unit 4:	Oncology:
	Biopsy
	Management Of Pre-Malignant Tumors of Head and Neck Region
	Benign And Malignant Tumors of Head and Neck Region
	Staging Of Oral Cancer and Tumor Markers
	Management Of Oral Cancer
	Radical Neck Dissection
	Modes Of Spread of Tumors
	Diagnosis And Management of Tumors Of Nasal, Paranasal, Neck,
	Tongue, Cheek, Maxilla AndMandible
	Radiation Therapy In Maxillofacial Regions
	Lateral Neck Swellings
Unit 5:	Orthognathic Surgery:
	Diagnosis And Treatment Planning
	Cephalometric Analysis
	Model Surgery
	Maxillary And Mandibular Repositioning Procedures
	Segmental Osteotomies
Unit 6:	Management Of Apertognathia
Unit 6:	Management Of Apertognathia         Aesthetic Facial Surgery:
Unit 6:	Management Of Apertognathia           Aesthetic Facial Surgery:           Detailed Knowledge of The Structures of The Face and Neck
Unit 6:	Management Of Apertognathia           Aesthetic Facial Surgery:           Detailed Knowledge of The Structures of The Face and Neck           Including Skin and Underlying SoftTissue
Unit 6:	Management Of ApertognathiaAesthetic Facial Surgery:Detailed Knowledge of The Structures of The Face and NeckIncluding Skin and Underlying SoftTissueDiagnosis And Treatment Planning of Deformities and Conditions
Unit 6:	Management Of ApertognathiaAesthetic Facial Surgery:Detailed Knowledge of The Structures of The Face and NeckIncluding Skin and Underlying SoftTissueDiagnosis And Treatment Planning of Deformities and ConditionsAffecting Facial Skin
Unit 6:	Management Of ApertognathiaAesthetic Facial Surgery:Detailed Knowledge of The Structures of The Face and NeckIncluding Skin and Underlying SoftTissueDiagnosis And Treatment Planning of Deformities and ConditionsAffecting Facial SkinUnderlying Facial Muscles, Bone, Eyelids, External Ear
Unit 6:	Management Of ApertognathiaAesthetic Facial Surgery:Detailed Knowledge of The Structures of The Face and NeckIncluding Skin and Underlying SoftTissueDiagnosis And Treatment Planning of Deformities and ConditionsAffecting Facial Skin
Unit 6:	Management Of ApertognathiaAesthetic Facial Surgery:Detailed Knowledge of The Structures of The Face and NeckIncluding Skin and Underlying SoftTissueDiagnosis And Treatment Planning of Deformities and ConditionsAffecting Facial SkinUnderlying Facial Muscles, Bone, Eyelids, External EarSurgical Management of Post Acne Scarring, Facelift,
Unit 6:	Management Of ApertognathiaAesthetic Facial Surgery:Detailed Knowledge of The Structures of The Face and NeckIncluding Skin and Underlying SoftTissueDiagnosis And Treatment Planning of Deformities and ConditionsAffecting Facial SkinUnderlying Facial Muscles, Bone, Eyelids, External EarSurgical Management of Post Acne Scarring, Facelift,Blepharoplasty, Otoplasty, Facial BoneRecontouring, Etc
Unit 6:	Management Of ApertognathiaAesthetic Facial Surgery:Detailed Knowledge of The Structures of The Face and NeckIncluding Skin and Underlying SoftTissueDiagnosis And Treatment Planning of Deformities and ConditionsAffecting Facial SkinUnderlying Facial Muscles, Bone, Eyelids, External EarSurgical Management of Post Acne Scarring, Facelift,Blepharoplasty, Otoplasty, Facial BoneRecontouring, EtcCraniofacial Surgery
Unit 6:	Management Of ApertognathiaAesthetic Facial Surgery:Detailed Knowledge of The Structures of The Face and NeckIncluding Skin and Underlying SoftTissueDiagnosis And Treatment Planning of Deformities and ConditionsAffecting Facial SkinUnderlying Facial Muscles, Bone, Eyelids, External EarSurgical Management of Post Acne Scarring, Facelift,Blepharoplasty, Otoplasty, Facial BoneRecontouring, EtcCraniofacial SurgeryBasic Knowledge of Developmental Anomalies of The Face, Head
Unit 6:	Management Of ApertognathiaAesthetic Facial Surgery:Detailed Knowledge of The Structures of The Face and NeckIncluding Skin and Underlying SoftTissueDiagnosis And Treatment Planning of Deformities and ConditionsAffecting Facial SkinUnderlying Facial Muscles, Bone, Eyelids, External EarSurgical Management of Post Acne Scarring, Facelift,Blepharoplasty, Otoplasty, Facial BoneRecontouring, EtcCraniofacial SurgeryBasic Knowledge of Developmental Anomalies of The Face, Headand Neck
Unit 6:	Management Of ApertognathiaAesthetic Facial Surgery:Detailed Knowledge of The Structures of The Face and NeckIncluding Skin and Underlying SoftTissueDiagnosis And Treatment Planning of Deformities and ConditionsAffecting Facial SkinUnderlying Facial Muscles, Bone, Eyelids, External EarSurgical Management of Post Acne Scarring, Facelift,Blepharoplasty, Otoplasty, Facial BoneRecontouring, EtcCraniofacial SurgeryBasic Knowledge of Developmental Anomalies of The Face, Headand NeckBasic Concepts in The Diagnosis and Planning of Various Head and
Unit 6:	Management Of ApertognathiaAesthetic Facial Surgery:Detailed Knowledge of The Structures of The Face and NeckIncluding Skin and Underlying SoftTissueDiagnosis And Treatment Planning of Deformities and ConditionsAffecting Facial SkinUnderlying Facial Muscles, Bone, Eyelids, External EarSurgical Management of Post Acne Scarring, Facelift,Blepharoplasty, Otoplasty, Facial BoneRecontouring, EtcCraniofacial SurgeryBasic Knowledge of Developmental Anomalies of The Face, Headand NeckBasic Concepts in The Diagnosis and Planning of Various Head andNeck Anomalies Including Facial Clefts, Craniosynostosis,
Unit 6:	Management Of ApertognathiaAesthetic Facial Surgery:Detailed Knowledge of The Structures of The Face and NeckIncluding Skin and Underlying SoftTissueDiagnosis And Treatment Planning of Deformities and ConditionsAffecting Facial SkinUnderlying Facial Muscles, Bone, Eyelids, External EarSurgical Management of Post Acne Scarring, Facelift,Blepharoplasty, Otoplasty, Facial BoneRecontouring, EtcCraniofacial SurgeryBasic Knowledge of Developmental Anomalies of The Face, Headand NeckBasic Concepts in The Diagnosis and Planning of Various Head andNeck Anomalies Including Facial Clefts, Craniosynostosis, Syndromes, Etc.
	Management Of ApertognathiaAesthetic Facial Surgery:Detailed Knowledge of The Structures of The Face and NeckIncluding Skin and Underlying SoftTissueDiagnosis And Treatment Planning of Deformities and ConditionsAffecting Facial SkinUnderlying Facial Muscles, Bone, Eyelids, External EarSurgical Management of Post Acne Scarring, Facelift,Blepharoplasty, Otoplasty, Facial BoneRecontouring, EtcCraniofacial SurgeryBasic Knowledge of Developmental Anomalies of The Face, Headand NeckBasic Concepts in The Diagnosis and Planning of Various Head andNeck Anomalies Including Facial Clefts, Craniosynostosis,
Unit 6: Unit 7:	Management Of ApertognathiaAesthetic Facial Surgery:Detailed Knowledge of The Structures of The Face and NeckIncluding Skin and Underlying SoftTissueDiagnosis And Treatment Planning of Deformities and ConditionsAffecting Facial SkinUnderlying Facial Muscles, Bone, Eyelids, External EarSurgical Management of Post Acne Scarring, Facelift,Blepharoplasty, Otoplasty, Facial BoneRecontouring, EtcCraniofacial SurgeryBasic Knowledge of Developmental Anomalies of The Face, Headand NeckBasic Concepts in The Diagnosis and Planning of Various Head andNeck Anomalies Including Facial Clefts, Craniosynostosis, Syndromes, Etc.
	Management Of ApertognathiaAesthetic Facial Surgery:Detailed Knowledge of The Structures of The Face and NeckIncluding Skin and Underlying SoftTissueDiagnosis And Treatment Planning of Deformities and ConditionsAffecting Facial SkinUnderlying Facial Muscles, Bone, Eyelids, External EarSurgical Management of Post Acne Scarring, Facelift,Blepharoplasty, Otoplasty, Facial BoneRecontouring, EtcCraniofacial SurgeryBasic Knowledge of Developmental Anomalies of The Face, Headand NeckBasic Concepts in The Diagnosis and Planning of Various Head andNeck Anomalies Including Facial Clefts, Craniosynostosis,Syndromes, Etc.Current Concept in The Management of Craniofacial AnomaliesTrauma:
	Management Of ApertognathiaAesthetic Facial Surgery:Detailed Knowledge of The Structures of The Face and NeckIncluding Skin and Underlying SoftTissueDiagnosis And Treatment Planning of Deformities and ConditionsAffecting Facial SkinUnderlying Facial Muscles, Bone, Eyelids, External EarSurgical Management of Post Acne Scarring, Facelift,Blepharoplasty, Otoplasty, Facial BoneRecontouring, EtcCraniofacial SurgeryBasic Knowledge of Developmental Anomalies of The Face, Headand NeckBasic Concepts in The Diagnosis and Planning of Various Head andNeck Anomalies Including Facial Clefts, Craniosynostosis,Syndromes, Etc.Current Concept in The Management of Craniofacial AnomaliesTrauma:Surgical Anatomy of Head and Neck
	Management Of ApertognathiaAesthetic Facial Surgery:Detailed Knowledge of The Structures of The Face and NeckIncluding Skin and Underlying SoftTissueDiagnosis And Treatment Planning of Deformities and ConditionsAffecting Facial SkinUnderlying Facial Muscles, Bone, Eyelids, External EarSurgical Management of Post Acne Scarring, Facelift,Blepharoplasty, Otoplasty, Facial BoneRecontouring, EtcCraniofacial SurgeryBasic Knowledge of Developmental Anomalies of The Face, Headand NeckBasic Concepts in The Diagnosis and Planning of Various Head andNeck Anomalies Including Facial Clefts, Craniosynostosis, Syndromes, Etc.Current Concept in The Management of Craniofacial AnomaliesTrauma:Surgical Anatomy of Head and NeckEtiology Of Injury
	Management Of ApertognathiaAesthetic Facial Surgery:Detailed Knowledge of The Structures of The Face and NeckIncluding Skin and Underlying SoftTissueDiagnosis And Treatment Planning of Deformities and ConditionsAffecting Facial SkinUnderlying Facial Muscles, Bone, Eyelids, External EarSurgical Management of Post Acne Scarring, Facelift,Blepharoplasty, Otoplasty, Facial BoneRecontouring, EtcCraniofacial SurgeryBasic Knowledge of Developmental Anomalies of The Face, Headand NeckBasic Concepts in The Diagnosis and Planning of Various Head andNeck Anomalies Including Facial Clefts, Craniosynostosis,Syndromes, Etc.Current Concept in The Management of Craniofacial AnomaliesTrauma:Surgical Anatomy of Head and Neck
	Management Of ApertognathiaAesthetic Facial Surgery:Detailed Knowledge of The Structures of The Face and NeckIncluding Skin and Underlying SoftTissueDiagnosis And Treatment Planning of Deformities and ConditionsAffecting Facial SkinUnderlying Facial Muscles, Bone, Eyelids, External EarSurgical Management of Post Acne Scarring, Facelift,Blepharoplasty, Otoplasty, Facial BoneRecontouring, EtcCraniofacial SurgeryBasic Knowledge of Developmental Anomalies of The Face, Headand NeckBasic Concepts in The Diagnosis and Planning of Various Head andNeck Anomalies Including Facial Clefts, Craniosynostosis, Syndromes, Etc.Current Concept in The Management of Craniofacial AnomaliesTrauma:Surgical Anatomy of Head and NeckEtiology Of InjuryBasic Principles of Treatment
	Management Of ApertognathiaAesthetic Facial Surgery:Detailed Knowledge of The Structures of The Face and NeckIncluding Skin and Underlying SoftTissueDiagnosis And Treatment Planning of Deformities and ConditionsAffecting Facial SkinUnderlying Facial Muscles, Bone, Eyelids, External EarSurgical Management of Post Acne Scarring, Facelift,Blepharoplasty, Otoplasty, Facial BoneRecontouring, EtcCraniofacial SurgeryBasic Knowledge of Developmental Anomalies of The Face, Headand NeckBasic Concepts in The Diagnosis and Planning of Various Head andNeck Anomalies Including Facial Clefts, Craniosynostosis, Syndromes, Etc.Current Concept in The Management of Craniofacial AnomaliesTrauma:Surgical Anatomy of Head and NeckEtiology Of InjuryBasic Principles of TreatmentPrimary Care:
	Management Of ApertognathiaAesthetic Facial Surgery:Detailed Knowledge of The Structures of The Face and NeckIncluding Skin and Underlying SoftTissueDiagnosis And Treatment Planning of Deformities and ConditionsAffecting Facial SkinUnderlying Facial Muscles, Bone, Eyelids, External EarSurgical Management of Post Acne Scarring, Facelift,Blepharoplasty, Otoplasty, Facial BoneRecontouring, EtcCraniofacial SurgeryBasic Knowledge of Developmental Anomalies of The Face, Headand NeckBasic Concepts in The Diagnosis and Planning of Various Head andNeck Anomalies Including Facial Clefts, Craniosynostosis,Syndromes, Etc.Current Concept in The Management of Craniofacial AnomaliesTrauma:Surgical Anatomy of Head and NeckEtiology Of InjuryBasic Principles of TreatmentPrimary Care:Resuscitation, Establishment of Airway, Management of Hemorrhage,
	Management Of ApertognathiaAesthetic Facial Surgery:Detailed Knowledge of The Structures of The Face and NeckIncluding Skin and Underlying SoftTissueDiagnosis And Treatment Planning of Deformities and ConditionsAffecting Facial SkinUnderlying Facial Muscles, Bone, Eyelids, External EarSurgical Management of Post Acne Scarring, Facelift,Blepharoplasty, Otoplasty, Facial BoneRecontouring, EtcCraniofacial SurgeryBasic Knowledge of Developmental Anomalies of The Face, Headand NeckBasic Concepts in The Diagnosis and Planning of Various Head andNeck Anomalies Including Facial Clefts, Craniosynostosis, Syndromes, Etc.Current Concept in The Management of Craniofacial AnomaliesTrauma:Surgical Anatomy of Head and NeckEtiology Of InjuryBasic Principles of TreatmentPrimary Care:

	Soft Tissue Injury of Face and Scalp: Classification and Management of Soft Tissue Wounds, Injuries to Structure Requiring Special Treatment. Dento Alveolar Fractures: Examination and Diagnosis, Classification, Treatment, Prevention.
	Mandibular Fractures: Classification, Examination and Diagnosis, General Principles of Treatment, Complications and Their Management
	<b>Fracture Of Zygomatic Complex:</b> Classification, Examination and Diagnosis, General Principles of Treatment, Complications and Their Management.
	Orbital Fractures: Blowout Fractures Nasal Fractures
	<b>Fractures Of Middle Third of The Facial Skeleton:</b> Emergency Care, Fracture of Maxilla, And Treatment of Ie Fort I, Ii, Iii, Fractures of Naso Orbito Ethmoidal Region.
	<b>Opthalmic Injuries:</b> Minor Injuries, Non-Perforating Injuries, Perforating Injuries, Retro Bulbar Hemorrhage, And Traumatic Optic Neuropathy.
	<b>Traumatic Injuries to Frontal Sinus:</b> Diagnosis, Classification, Treatment Maxillofacial Injuries in Geriatric and Pediatric Patients. Gun Shot Wounds and War Injuries Osseointegration In Maxillofacial Reconstruction Metabolic Response to Trauma: Neuro-Endocrine Responses, Inflammatory Mediators, ClinicalImplications
	<b>Healing Of Traumatic Injuries:</b> Soft Tissues, Bone, Cartilage, Response of Peripheral Nerve ToInjury Nutritional Consideration Following Trauma.
	Tracheostomy: Indications And Contraindications, Procedure, Complications and Their Management.
