

TEERTHANKER
MAHAVEER UNIVERSITY

INTELLECTUAL PROPERTY RIGHT POLICY

TMU

ABSTRACT

A Goal of the University is to encourage innovation and creativity by recognizing and rewarding each faculty and student. The commitment to develop new knowledge includes facilitating the practical application of that knowledge for public use.

PREAMBLE

Teerthanker Mahaveer University is dedicated to research, teaching, and extension of knowledge to its students and researchers. One of the very important missions of the Teerthanker Mahaveer University is to develop the human intellectual capability to its fullest potential. Inherent in this responsibility is the need to encourage the innovation and creativity within the scholars and researchers. Faculty, students and researchers of Teerthanker Mahaveer University are engaged in Research & Development work of diverse nature. Many of these R&D Programs lead to creation of intellectual property (IP) in the form of patents, know-how, copyrights, designs, instruments, devices, processes, specimens, software and other inventions, which can be commercially exploited either with or without registration under the Patents Act/Copyright Act. Such a commercial exploitation can be of considerable socio-economic benefit to the country. The University, therefore, encourages the protection and licensing of such IP to organizations, which can effectively utilize the same for commercial exploitation. This would yield financial returns to the University, and partially support the R & D efforts. The pace of modern Research and Development, resulting in new and useful inventions, initiated a need for a central policy in determining the ways of the creation, protection, and commercialization of intellectual property at Teerthanker Mahaveer University. This has resulted in establishment of the Intellectual Property Right (IPR) Cell and the Intellectual Property Policy to encourage creation and protection of intellectual property in the University.

PURPOSE AND OBJECTIVE

The principal objectives of the University's IPR Policy are:

- o To encourage innovative research leading to the generation of new knowledge, ideas and inventions.
- o To facilitate the transfer of University-developed research results and new knowledge to commerce and industry.
- o To provide faculty members, researchers and students of the University assistance in assessing the patentability and commercial potential of their inventions.
- o To facilitate the protection of invention and technology and also facilitating its commercialization.
- o To train faculty members, researchers and students about patent filing procedures (National and International).
- o To lay down a transparent administration system for the ownership control and assignment of intellectual properties and sharing of the revenues generated by the intellectual properties generated and owned by the University.
